1Q-2026: Net Income Before Extraordinary Severance Charges Turns Positive; Improving Operating Trends

GRUPO SUPERVIELLE

GRUPO SUPERVIELLE

Loan & Deposits

- Loans -5.6% QoQ, due to seasonally lower AR$ demand, selective origination and Peso appreciation
  - USD loans +12.8% in original currency
- Deposits -4.7% QoQ, driven by deliberate reduction in higher-cost wholesale peso funding
  - USD deposits +6% in original currency
- Improved deposit quality and stability

Asset Quality

- NPL ratio at 5.6% vs. 5.0% in Dec-25, improving MoM in March, reflecting early inflection in asset quality trends
- Net cost of risk at 6%, down from 10% in 4Q25
- Cost of risk peaked in 4Q25

Efficiency Program

- Bank headcount rightsizing plan implemented
- 470+ participants, or 15% of total workforce
- Positions the Bank for a structurally leaner cost base

Profitability and Capital

- Net loss of AR$17.1b; or AR$6.7bn net income excluding extraordinary severance charges
- Adjusted ROAE of 2.5%
- NIM at 17.7%, supported by lower cost of funds
- Solid capital position with CET1 at 15.4%

Business Performance

SUPERVIELLE

- Ecosystem strategy and cross-sell initiatives continue
- Cuenta Hit IOL drove strong client acquisition (13k account in March peak)

invertironline

- IOL AUC US$2.7 billion

Operating Environment Stabilizing Toward Quarter End

GRUPO SUPERVIELLE

1Q26: From Challenging Conditions to Improving Stability

- Challenging start to the quarter
- Interest rate volatility, tight monetary conditions and higher inflation weighed on activity and profitability in January and February
- Macro backdrop more stable toward quarter end
- Greater rate visibility in March
- Funding and financial margin conditions began to normalize

Policy Momentum Supporting 2026 Outlook

- Structural reforms improving macro predictability
- IMF staff-level agreement reinforces reform momentum
- FX reserve accumulation reinforces FX stability
- Economic activity expected to recover as conditions normalize

Policy Execution Priorities:

- Sustain fiscal anchor alongside growth
- Normalize monetary policy and reduce volatility
- Gradual FX liberalization while preserving stability

Stabilizing conditions and stronger policy visibility support margin recovery and gradual improvement in asset quality and credit demand

Banco Supervielle: Executing on Key Drivers of Earnings Recovery

GRUPO SUPERVIELLE

Balance Sheet Discipline & Funding Optimization

- Selective origination focused on risk-adjusted growth
- Soft peso loan demand reinforced disciplined lending
- Growth in transactional deposits from corporate and retail customers
- Strengthening capabilities with appointment of Juan Manuel Truppia (Chief Treasury & Global Markets)

Asset Quality Improvement

- Delinquency trends improved through March
- Supported by collection and refinancing initiatives implemented since December 2025
- Cost of risk declined significantly from 4Q25 peak

Structural Efficiency

- Headcount rightsizing plan successfully implemented
- Customers migrating to digital and virtual channels
- Shifting to a more efficient technology driven business
- Annual savings of AR$ 33 billion in personnel expenses

March Marked a Clear Inflection Point

- **Underlying monthly earnings turned positive**
- **Asset quality trends improved**
- **Momentum continued into April**

Adjusted Net Income Turns Positive: Reported Results Impacted by Extraordinary Severance Charges

GRUPO SUPERVIELLE
