B3 LISTED NM

Belo Horizonte, February 9, 2021 – LOG Commercial Properties and Participações S.A. (hereafter referred to as LOG or the Company) (B3: LOGG3), announces its results for the fourth quarter of 2020 (4Q20). The financial information is presented in thousands of Brazilian Reais (R\$ Thousands), save where otherwise indicated, and is based on the consolidated financial statements prepared and presented in accordance with accounting practices adopted in Brazil and by the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board – IASB, as applies the Brazilian real estate institutions, as approved by the Accounting Pronouncements Committee (CPC), the Brazilian Securities and Exchange Commission (CVM) and the Federal Accounting Counsel (CFC), consistent with any and all standards issued by the CPC.

## MUCH MORE THAN A PROPERTY COMPANY

**Accelerated Growth Curve:** at the end of 2020, the company decided to revise its original ‘Todos por 1’ plan, scaling up to ‘Todos Por 1.4’, upping our ambitious goal by 40%, thus forecasting 1.4 MM m<sup>2</sup> of Deliverable GLA by the end of 2024. In 2020, we scaled up the expansion of our landbank, amassing a total of 1 MM m<sup>2</sup> which will support production for the next three years.

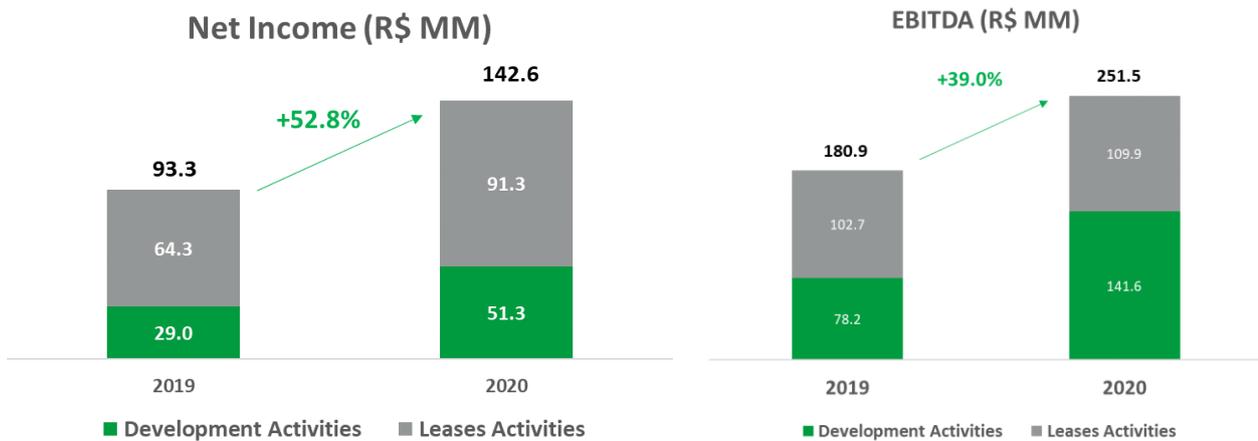

**Recurrent Generating Value:** we have consistently delivered new assets every year since the company’s foundation. As a result, we carry with us a history of success and a history of recurrent building value. In 2020, the company garnered more than R\$ 114 MM in new assets newly developed assets. In line with the ‘Todos Por 1.4’ growth plan, we have maintained margins above 40% for newly developed assets, as a result of the spread between development yields and cap rates already established in the market, securing gains for GLA over R\$ 1,000, potentially corresponding to some R\$ 1.4 billion in value throughout this growth cycle.

**7 Recycling assets:** we have concluded our second cycle of recycling assets with the sale to FII LGCP11, raising capital in the amount of more than R\$ 90 MM, further supporting the company’s strategy and strengthening the market’s warm reception for acquiring new assets. The company currently carries approximately R\$ 1.4 billion in mature assets, in order to carry out the strategy. In addition, the company sold nearly 2.5 thousand m<sup>2</sup> in strip malls, further strengthening LOG’s trend in concentrating its activities in the logistics development sector.

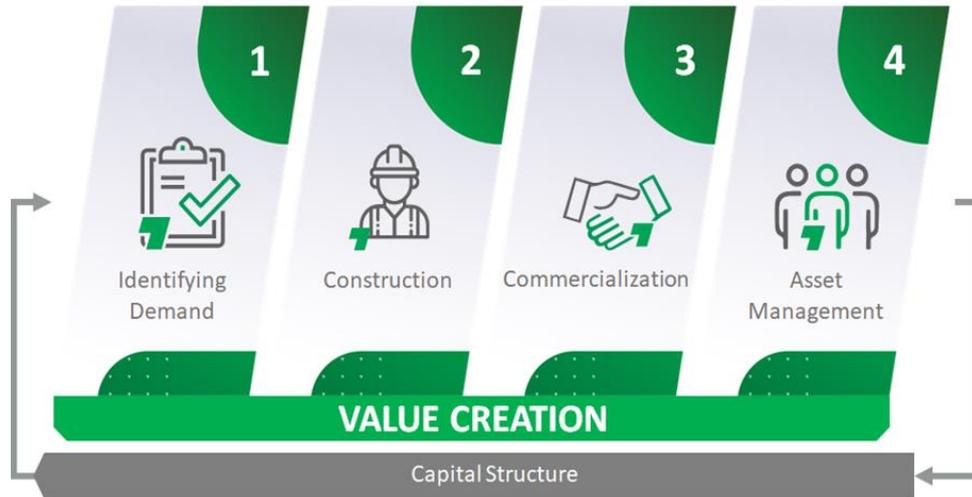

| (in BRL thousand)                | 1st Tranche | 2nd Tranche |

**7 Solid results in 2020:** indicators have remained solid and reflect a groundbreaking moment in company sales. These positive results have remained stable over the last few years, a strong demonstration of the resilience of the company’s business mode.

# 1. BUSINESS PERFORMANCE

The company reported strong results in 4Q20 in each phase in the cycle of the business model, increasing the GLA growth curve, resulting in the scaling up of the original “Todos Por Um” plan to an “Todos Por 1.4” plan, reinforcing LOG’s sales team commitment, dedicated to adding value to the business.

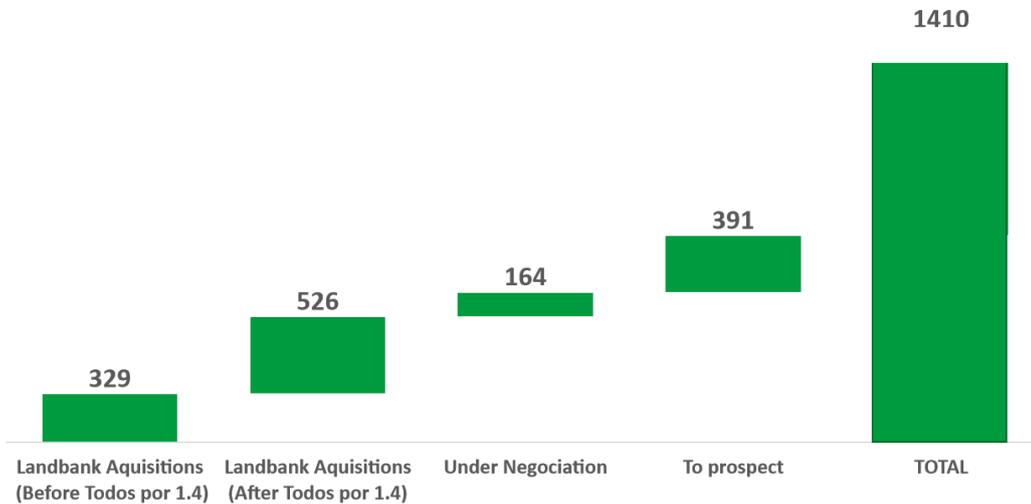

## 1.1 Identifying demand: geographic diversification

LOG’s asset portfolio is well-distributed geographically, with a market presence in all regions in Brazil, while remaining closely located to the main consumer centers in the country. Currently, we are present in 32 cities and 13 states.

**7** We have added 3 more properties and 164 thousand m<sup>2</sup> of GLA %LOG to our landbank, in addition to increasing our goal for land acquisition to 980 thousand m<sup>2</sup>, in-line with the increase to our “Todos Por 1.4” plan.

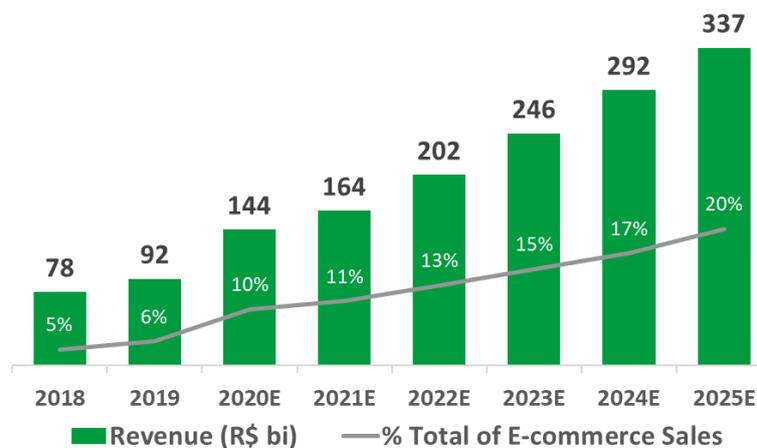

### Landbank Aquisitions Todos por 1.4 (in th m<sup>2</sup> of GLA)

**7** Main drivers of growth:

- **Flight to quality** - gaps in the Brazilian logistics infrastructure have led to many companies migrating from obsolete warehouses to modern, Class A assets. This has been one of the main drivers that has fueled the company’s growth, whether it be for current clients, or large to mid- size companies, that have yet to be added to our portfolio and client list.
- **E-commerce** – accelerated expansion of e-commerce has created rising demand for Class A assets throughout Brazil, leveraging the potential for the company’s business model.

## 1.2 Construction: steadily increasing efficiency in construction

7 We concluded 10.3 thousand m<sup>2</sup> of GLA %LOG in LOG PIB BTS 2 in 4Q20, finalizing construction in 9 months. LOG reached 58.1 thousand m<sup>2</sup> of GLA %LOG delivered throughout 2020.

7 Production forecasts stand at more than 400 thousand m<sup>2</sup> of GLA up to the end of 2021, supporting the company's capacity for construction and efficiency for cost and time lines in any region in the country.

## 1.3 Sales: Unique Model

7 Record gross absorption in 12M accumulated.

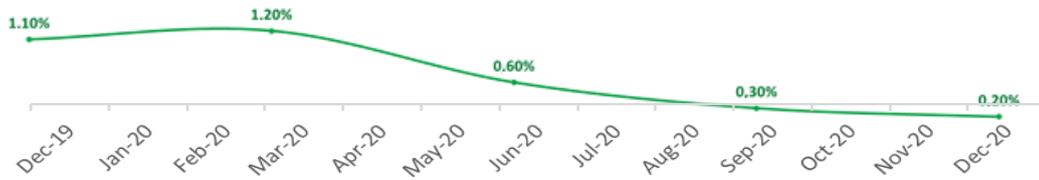

7 Despite the extraordinary year of 2020, the company registered its lowest levels of default in the last five years, nearing zero.

### Net Default – Over last 5 years

### Accumulated Net Default – 12 months

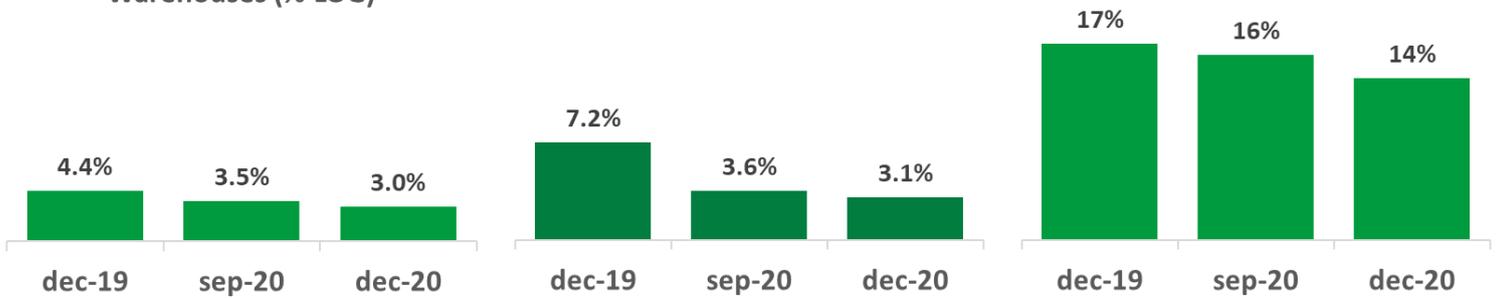

Currently, the company is carrying a backlog of R\$ 646.0 millions in contracted assets.

Lowest stabilized vacancy, 3.0% for portfolio at the end of 4Q20, demonstrating the strength of demand for LOG assets.

### Stabilized Vacancy by Region

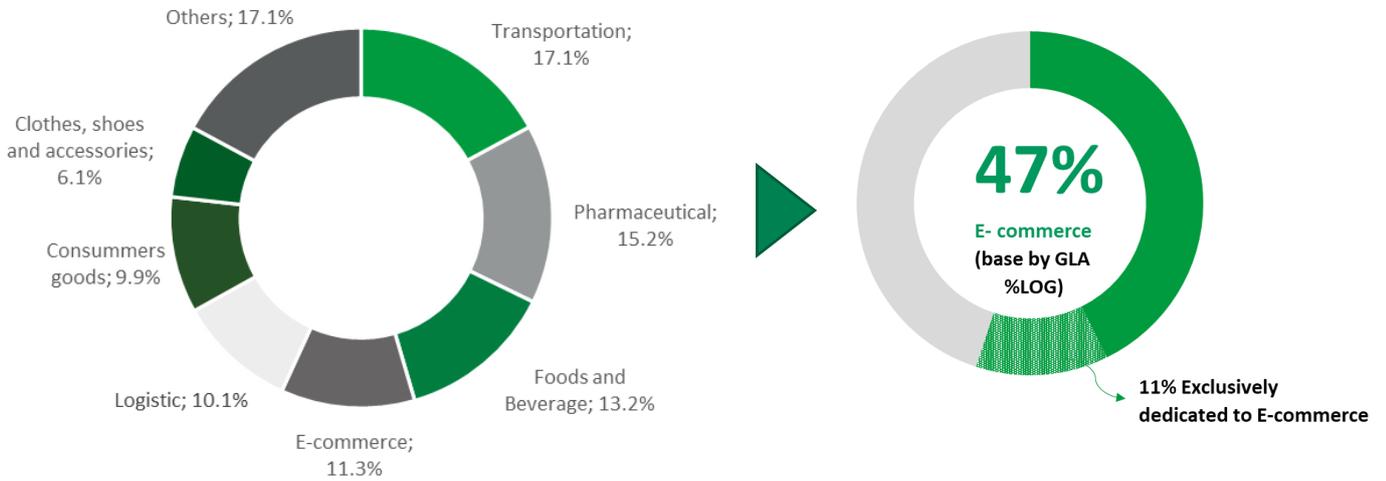

LOG is the only logistics asset property developer present in ALL regions in the country, setting it apart as a one-stop-shop solution for retailers looking to expand their operations geographically.

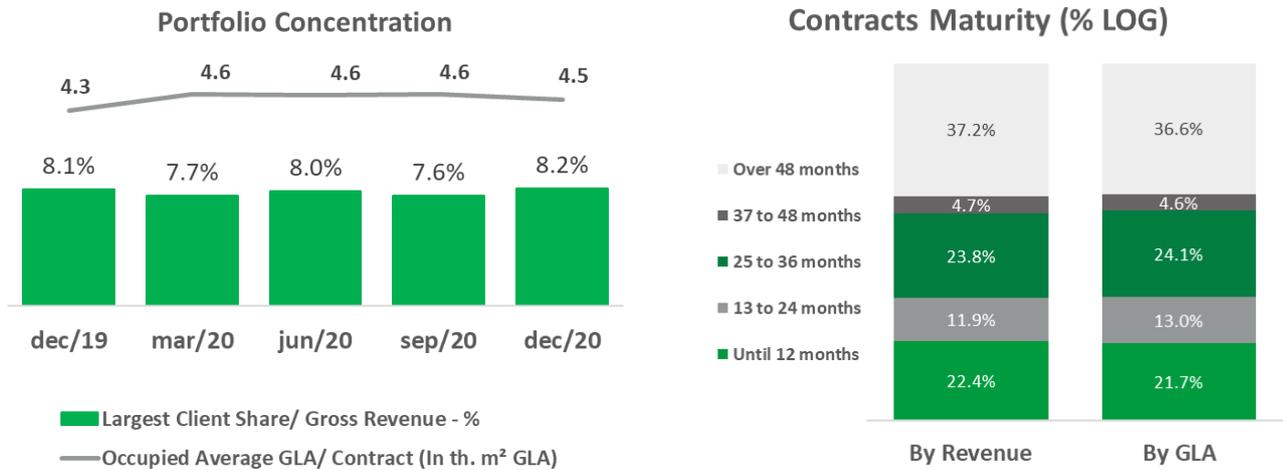

Our extensive client base of 223 contracts has afforded the company intelligent internal sales, which in turn, has resulted in assertive development and low vacancy rates.

- In 2020, LOG's sales team recorded 63% of all closed contracts.
- 11.3% of the GLA delivered by LOG is dedicated exclusively to e-commerce operations, in which 47% of the portfolio directly or indirectly handles products, fueling growth in online business and sales.

### Tenant Portfolio by Product Type (in % of leased GLA % LOG)

The company has managed to maintain a low-risk client portfolio, in which contracts have been spread across 223 contracts, resulting in average GLA of 4.5 thousand m<sup>2</sup> per contract. The client with the greatest occupation stands at 7.0% of %LOG GLA.

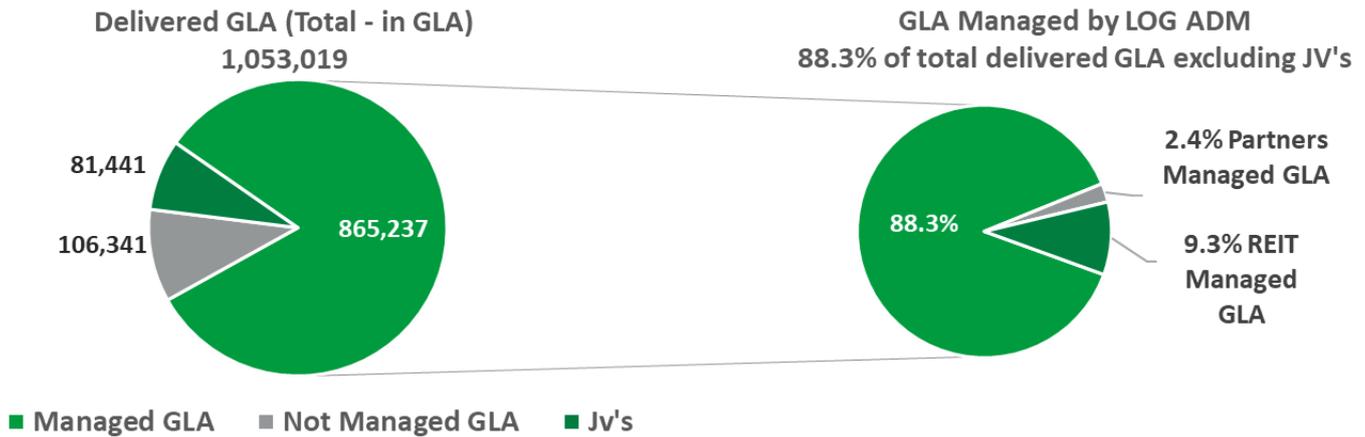

More than 37% of the revenue from contracts is forecast to expire in a period of over 48 months, and more than 65% over a period of 25 months.

## 1.4 Asset management: LOG ADM

LOG ADM handles the administration of 865.2 thousand m<sup>2</sup> GLA, which represents 87.8% of the total GLA delivered, not considering joint venture (JV) GLA.

7 Excellence in the quality of services and the proximity of our clients has led to milestone NPS ratings, the highest in the company's history.

## 1.5 Capital structure: strong liquidity

The company closed out another quarter registering solid performance indicators, and maintains strong liquidity faced with the challenges taken on for the upcoming years. The company reported a net debt of R\$ 56.1 million in December/20.

Our average nominal cost for current debt is low, standing at CDI + 0.9%, notwithstanding equity costs. The company remains watchful for new opportunities to stretch its profile, keeping a keen eye on interest rates, aiming to generate open cash flow for investments.

In 4Q20, the company reported strong asset recycling through the FII LGCP11 real estate investment trust. The operation included the sale of minority shares of five mature large assets, totaling 29.7 thousand m<sup>2</sup> to the real estate investment trust, FII LGCP11. In addition, 25 thousand m<sup>2</sup> of assets and strip mall properties were sold, further leading the company to concentrate on assets targeting logistics development.

### 2.2 Depreciation cost (Accounting Pronouncements)

In order to meet the current accounting standards, as regards attributing fair value to investment properties, the cost of depreciation for accounting for investment properties was included on financial statements up to 2Q14 was eliminated, in which adjustments were made once and exclusively through fair value variations of such assets. The effects of future valuation and real estate assessment is reflected in the category 'variation of fair value of investment properties'. Nevertheless, from an accounting perspective, tallying depreciation has not been altered. Therefore, for tax calculation purposes, the calculation of depreciation according to the standards established by the Internal Revenue Service remain. On the financial statements, existing depreciation refers to the company's physical administrative structure as real estate, equipment and others.

## 2.4 Operating expenses

| Operating Expenses<br>(in BRL thousand) | 4Q20     | 4Q19     | Var. %<br>4Q20 x 4Q19 | 12M20    | 12M19    | Var. %<br>12M20 x 12M19 |
|---|----------|----------|-----------------------|----------|----------|-------------------------|
| Operating Expenses                      | (11,363) | (13,935) | -18.5%                | (39,491) | (36,306) | 8.8%                    |
| Administrative expenses                 | (6,081)  | (4,636)  | 31.2%                 | (21,796) | (17,006) | 28.2%                   |
| Selling expenses                        | (2,628)  | (2,454)  | 7.1%                  | (10,296) | (8,990)  | 14.5%                   |
| Other expenses/revenues                 | (2,654)  | (6,845)  | -61.2%                | (7,399)  | (10,310) | -28.2%                  |

The increase in administrative and commercial expenses results from the growth of operations in implementing the company's plan for growth and corporate reorganization.

Variation for the quarter, as well as for the year, in line with other expenses/revenues is explained mainly by expenses incurred with operations in the sale of assets to FII LGCP11.

## 2.5 Results from asset equity

In 4Q20, the result of the equity from the Torino Park had an impact on the variation of the assessment of fair value.

Annual asset equity was impacted by the sale of the Contagem Shopping Mall through SPE Cabral in 3Q19.

| Equity in Subsidiaries<br>(in BRL thousand) | 4Q20    | 4Q19  | Var. %<br>4Q20 x 4Q19 | 12M20   | 12M19    | Var. %<br>12M20 x 12M19 |

| Financial revenues                  |     | 4,969        | 8,720          | -43.0%                | 15,329          | 17,781          | -13.8%                  |

Financial expenses dipped due to a decrease in effective costs from debt, impacted by a reduction in the Brazilian basic interest rate. Due to the increase in cash flow resulting from the operation of a follow-on offering carried out in October/19, valued at R\$ 638 MM, financial revenue was not adjusted in the same proportion.

## 2.7 Taxes

An increase in deferred taxes is mainly due to an increase in fair value for the annual comparison.

## 7. LEGAL DISCLAIMER

The statements contained in this document as regards LOG's business outlook, projected operational and financial results and those opinions regarding the company's future outlook are merely projections and, as such, are based exclusively on the expectations of the company's administrative directors and Board of Directors, as applies to future business.

The outlook depends, substantially, on the approval and licensing necessary in order to officially register projects, market conditions, the performance of the Brazilian economy, the specific sector and international markets and therefore, are subject to unwarranted and unforeseen changes.

The current performance report includes non-accounting data for operations, finances and an overall outlook based on expectations as seen by the Board of Directors. This non-accounting which includes quantitative and portfolio values, approved GLA, produced GLA, delivered GLA and forecasts that have not been reviewed by the company's independent auditors.

EBITDA has been calculated according to CVM 572/12 regulations indicated in this report and represents net profit before the financial results, income tax and taxes, depreciation expenses insofar as EBIDTA for leasing activities does not specifically take into consideration effects resulting from the sale of assets and the fair value of investment properties. FFO indicated in this report represents net profit before expenses of depreciation only, while FFO for all leasing activities does not specifically take into consideration the effects of EBIDTA for leasing activities (effects as a result of the sale of assets and fair value for investment properties), in addition to including the resulting taxes. EBIDTA and FFO are not measures of financial performance according to accounting practices adopted in Brazil and the IFRS, and should also be considered separately, or as an alternative to net profit, as an operational performance measure, or alternatively to operational cash flow, or as a liquidity measure. Since the following criteria are not considered in the calculation, financial results, income tax, taxes, expenses of depreciation and amortization, EBIDTA and FFO serve as indicators of LOG's general economic performance, that are not affected by alterations to income tax and tax adjustments or by levels of depreciation or amortization. EBIDTA and FFO, on the other hand, present limitations that may warrant caution in their use as a measure of LOG's profit, due to the fact they do not take into consideration determined costs resulting from the company's business that may significantly affect company profits, such as financial results, taxes, depreciation and amortization, capital expenses and other related expenses. EBIDTA for leasing activity, like FFO for leasing activities, are measures used to evaluate the company's overall development over time.

## 8. RELATIONSHIP WITH INDEPENDENT AUDITORS

The company's policy in hiring the services of independent auditing ensures that there are no conflicts of interest and loss of independence or objectivity. According to CVM Instruction 381/03, the company affirms that our independent auditors, KPMG independent auditors, did not carry out any services in 2020 unrelated to external auditing. In the month of October/2019, other previously agreed upon services were handled by KPMG Independent Auditors (KPMG) and Ernst & Young Independent Auditors S/S (EY), the focus of a follow-on offering in the value of R\$ 627,400 issued to KPMG, a value some 345% higher than external auditing services provided in 2019, and R\$ 539.9 to Ernst & Young. In the case of KPMG, considering that services and previously agreed-upon services through a letter of intent and contract were clearly stated separately and did not interfere with the object in proceedings of auditing for the review of the company's financial statements according to the applicable standards for auditing/review in Brazil, in which KPMG understands that providing other prearranged services does not affect its independence or objectivity required to perform external auditing services.
