The Brazilian Development Bank

FACT SHEET

3Q21

WHO WE ARE

We are the Federal Government's main instrument for long-term financing and investment in the different segments of the Brazilian economy. To fulfill this role, we support companies of all sizes, as well as individuals, in carrying out their modernization, expansion and new business plans, always bearing in mind the potential for generating jobs, income and social inclusion for Brazil.

As a bank at the service of the State, we also structure privatization projects, aiming at attracting investors to improve the country's infrastructure. We operate throughout the national territory. Our official headquarters are in Brasília (DF), however more than 95% of our employees are based in Rio de Janeiro (RJ). We also have offices in São Paulo (SP) and Recife (PE).

PURPOSE AND PRINCIPLES

Our purpose is to transform the lives of generations of Brazilians by promoting sustainable development, always based on our principles: transparency, effectiveness, dialogue, cooperation and the pursuit of excellence.

CORPORATE STRUCTURE

We are a federal public company owned by the Brazilian Government, not subject to intervention, extrajudicial liquidation or bankruptcy.

HOW WE WORK

CREDIT AND PROJECT FINANCING

Direct support or through accredited financial institutions to companies of all sizes, for the acquisition of machines, modernization projects and expansion of business and infrastructure.

SERVICES

Strategic coordination of efforts and resources to structure projects from different economic segments, to reduce bottlenecks and generate investment opportunities in privatization.

GUARANTEES

We offer guarantees through the BNDES FGI, which aims to contribute to the expansion of access to credit for micro-, small- and medium-sized companies.

EQUITY

We work with equity complementing the market and our financing products, in order to contribute to business plans and strengthen the capital structure of companies, as well as to the development of the capital market in general.

GRANTS

Support for social, cultural, environmental, scientific and technological projects, complementing refundable financial support for investment projects.

STRATEGY

In our three-year Plan, which defines BNDES's strategies for the 2020-2022 period, we announced 15 major outputs to society as a result of our work during this interval, aligned with the UN Sustainable Development Goals (SDG), in areas such as energy, logistics, sanitation, urban mobility, information technology, education, health and security.

FUNDING

We have several sources of funding to make our operations viable. The main portion of our financing structure is made up of the return on our own operations plus FAT and National Treasury resources. Other government funds, international funding, public issuances of BNDESPAR debentures and bank instruments complement this structure.

MAIN FUNDING SOURCES (3Q21):

WORKER'S SUPPORT FUND – FAT

46% OF PARTICIPATION IN TOTAL RESOURCES

NATIONAL TREASURY¹

19% OF PARTICIPATION IN TOTAL RESOURCES

In 2021, we published our Sustainability Bonds Framework and raised US\$ 500 million from other development banks, diversifying our funding sources.

RISK MANAGEMENT

We continuously monitor the credit risk of our debtors. NPL in our credit portfolio is below the levels of the National Financial System.

Our operational flow involves different phases, teams and collegiate bodies, ensuring impersonality, multidisciplinary assessments and better governance of the concession process.

S&P's	BB-	Stable	S&P's	Br AAA	Stable		

SUSTAINABILITY

BNDES's work is based on the integration of the social and environmental dimensions in our strategy, policies, practices and procedures, and in all our activities, as well as in the relationship with different publics.

To fulfill our role as a promoter of sustainable development, we have adopted a series of mechanisms, ranging from the analysis of the social and environmental impacts of supported projects to the financing of investments that generate direct benefits on environmental quality and on the reduction of social and regional inequalities in the country.

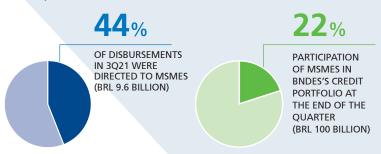

We are constantly reviewing and improving several of our socioenvironmental policies. We are also working towards the issuance of sustainable bonds, in order to diversify the BNDES's funding sources and to foster best practices on ESG (environmental, social and governance) issuances for the domestic market, in addition to meeting the growing demand for ESG assets from investors.

¹ Includes transfer operations and instruments eligible for principal capital.
