

## BNDES INVESTOR RELATIONS

**BNDES is named the development financial institution of the year in Latin America by the IJGlobal Awards 2021**

Rio de Janeiro, March 18, 2022

The Brazilian Development Bank (BNDES) informs that it has received the award for Latin America Development Financial Institution of the Year (DFI of the Year) at the IJGlobal Awards 2021.

The DFI category includes multilateral banks, development banks and export credit agencies.

IJGlobal is a platform belonging to the Euromoney Group which gathers information from the infrastructure sector, widely used by market players. The IJAwards annually recognizes the best organizations in the infrastructure and energy sectors, in different modalities.

The winners are chosen by a multidisciplinary judging committee, which, for Latin America, was composed by 10 representatives of different institutions related to the infrastructure and energy sector, including consultancies, law firms and financial institutions. The BNDES was awarded in the DFI category for its relevance in financial support to various infrastructure and energy sectors.
