Banco BTG Pactual S.A. and Subsidiaries

December 2022

(A free translation of the original in Portuguese)

Independent auditor's report

To the Board of Directors and Stockholders
Banco BTG Pactual S.A.

Opinion

We have audited the accompanying parent company financial statements of Banco BTG Pactual S.A. ("Institution"), which comprise the balance sheet as at December 31, 2022 and the statements of income, comprehensive income, changes in equity and cash flows for the year and six-month period then ended, as well as the accompanying consolidated financial statements of Banco BTG Pactual S.A. and its subsidiaries ("Consolidated"), which comprise the consolidated balance sheet as at December 31, 2022 and the consolidated statements of income, comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, including significant accounting policies and other explanatory information.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Banco BTG Pactual S.A. and of Banco BTG Pactual S.A. and its subsidiaries as at December 31, 2022, and the Institution's financial performance and cash flows for the year and six-month period then ended, as well as the consolidated financial performance and cash flows, for the year then ended, in accordance with accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Brazilian Central Bank (BACEN).

Basis for opinion

We conducted our audit in accordance with Brazilian and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Parent Company and Consolidated Financial Statements section of our report. We are independent of the Institution and its subsidiaries in accordance with the ethical requirements established in the Code of Professional Ethics and Professional Standards issued by the Brazilian Federal Accounting Council, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the parent company and consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Banco BTG Pactual S.A.

We planned and performed our audit for the year and six-month period then ended December 31, 2022 taking into consideration that the operations of the Institution and of the Institution and its subsidiaries had not changed significantly in relation to the previous year. In this respect, the Key Audit Matters, as well as our audit approach, have remained substantially in line with those in the prior year.

Why it is a Key Audit Matter

How the matter was addressed in the audit

Fair value measurement of complex or illiquids financial instruments

As disclosed in Notes 4(d), 4(e), 4(f), 8 and 9, the fair value measurement of complex or illiquids financial instruments is an area that includes subjectivity, as it depends on valuation techniques performed based on internal models and involving Management's assumptions for valuation of instruments and/or observable data.

We continue to consider this a focus area in our audit as the use of different valuation techniques and assumptions may produce significantly different fair value estimates and due to the materiality of the financial instruments in the context of the financial statements.

Our main audit procedures considered, among others, our understanding of the main processes involving the fair value measurement of financial instruments related to: (i) recording and confirmation of transaction data; (ii) criteria for fair value measurement; and (iii) reconciliation of accounting balances with analytical reports for balance sheet and income statement balances.

We also (i) tested the completeness and integrity of the data extracted from the underlying systems that serve as a basis for fair value measurement; and (ii) independently re-performed, on a sample basis, the calculations for measurement of financial instruments with the support of our specialists in the pricing of financial instruments in accordance with the requirements provided for by the Brazilian Central Bank's (BACEN) standards.

We believe that the criteria adopted by management in the fair value measurement of these financial instruments are consistent with the information analyzed in our audit.

Measurement of the provision for expected losses associated with credit risk

As disclosed in Notes 4(j) and 10, the provision for expected losses associated with credit risk is estimated based on the analysis of the loan operations and specific risks presented in each portfolio, considering the customer's risk rating, depending on a periodic analysis of the quality of the customer and the sectors of activity, in accordance with the criteria established by CMN Resolution 2,682/99.

We continue to consider this area as a focus of our audit, as the application of different criteria and judgment in measuring the provision for expected

Our procedures considered, among others, our understanding of the main processes related to: (i) granting of credit; (ii) renegotiated operations; (iii) attribution of risk level; and (iv) reconciliation of account balances with auxiliary reports.

We also performed (i) analysis, on a sample basis, of the criteria described in the policy and their consistency with those used by management to determine the credit risk of the operations; (ii) recalculation of provisions based on the risk classification and delay in operations; and (iii) test of the completeness and integrity of the data

Banco BTG Pactual S.A.

Why it is a Key Audit Matter

losses associated with credit risk could result in significant variations in the estimate of this provision.

How the matter was addressed in the audit

extracted from the underlying systems that serve as a basis for calculating the provision.

We believe that the criteria adopted by management to measure and record the provision for expected losses associated with credit risk are consistent with the information analyzed in our audit.

Tax credits in consolidated subsidiary

As disclosed in Notes 4(r) and 18, Banco Pan S.A. and its subsidiaries ("Bank"), an indirect subsidiary of the Institution, whose total interest is approximately 73.9% and included in the consolidation process in the consolidated financial statements, has tax credits totaling R\$ 3.2 billion, arising from temporary additions in the calculation bases of Corporate Income Tax and Social Contribution on Net Income and income tax and social contribution losses, recognized based on the projection of taxable income for the realization of these tax credits. This projection, prepared based on a study of the current and future scenario by the Bank's management, involves subjective judgments and assumptions.

We continue to consider this an area of audit focus, as the use of different assumptions in the projection of taxable income could significantly modify the terms and amounts expected for the realization of tax credits, with a consequent accounting impact, and could fail to meet the requirements of the National Monetary Council and Brazilian Central Bank regarding the initial recognition and maintenance of these assets in the financial statements.

Our key audit procedures considered the understanding of the calculation and recording processes and their consistency with tax and accounting standards related to tax credits, including specific requirements of the National Monetary Council and the Brazilian Central Bank, as well as an understanding of the more significant assumptions used by management to project future taxable profit for purposes of estimating the realization of tax credits.

We compared the main assumptions used by Banco Pan S.A. and its subsidiaries to project taxable profits with the budget projections approved by its Board of Directors and with the macroeconomic projections disclosed in the market and analyzed historical data to corroborate the consistency of these realization estimates.

We believe that the assumptions and criteria adopted by management are consistent in relation to the initial recognition, maintenance and realization of the tax credit and are aligned with information approved by those charged with governance.

Other matters**Statements of Value Added**

The parent company and consolidated Statements of Value Added for the year then ended December 31, 2022, prepared under the responsibility of the Institution's management and presented as supplementary information for purposes of the Brazilian Central Bank, were submitted to audit procedures performed in

Banco BTG Pactual S.A.

conjunction with the audit of the Institution's financial statements. For the purposes of forming our opinion, we evaluated whether these statements are reconciled with the financial statements and accounting records, as applicable, and if their form and content are in accordance with the criteria defined in Technical Pronouncement CPC 09 - "Statement of Value Added". In our opinion, these Statements of Value Added have been properly prepared in all material respects, in accordance with the criteria established in the Technical Pronouncement, and are consistent with the parent company and consolidated financial statements taken as a whole.

Responsibilities of management and those charged with governance for the parent company and consolidated financial statements

Management is responsible for the preparation and fair presentation of these parent company and consolidated financial statements in accordance with accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Brazilian Central Bank (BACEN), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company and consolidated financial statements, management is responsible for assessing the Institution's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Institution or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the financial reporting process of the Institution and its subsidiaries.

Auditor's responsibilities for the audit of the parent company and consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the parent company and consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Brazilian and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the parent company and consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Institution and its subsidiaries.

Banco BTG Pactual S.A.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Institution's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the parent company and consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Institution to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the parent company and consolidated financial statements, including the disclosures, and whether these financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the Key Audit Matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Banco BTG Pactual S.A.

(In thousands of Reais, except if otherwise indicated)

1. Operating context

Banco BTG Pactual S.A. ("Bank" or "BTG Pactual"), is organized in the form of a multiple bank, acts together with its subsidiaries ("BTG Pactual Group"), offering financial products and services regarding commercial, investments, credit, financing, capital lease, insurance, foreign exchange portfolios, among others, in the country and in several locations abroad. The head office of the Bank is located at Praia de Botafogo, 501 – 5º andar – Torre Corcovado, in the City and State of Rio de Janeiro. Its principal place of business is the office located on Av. Brigadeiro Faria Lima, 3477 – 14º andar (parte), in the City and State of São Paulo.

The transactions are carried out in the context of a group of companies that operate in an integrated manner in the financial market and some transactions are intermediated by other companies belonging to the BTG Pactual Group. The Bank's parent company is BTG Pactual Holding Financeira Ltda. ("Financial Holding"), which is controlled by BTG Pactual G7 Holding S.A. through BTG Pactual Holding S.A. ("Holding").

BTG Pactual has units listed on B3 S.A. in São Paulo. Each unit corresponds to 1 common share and 2 class A preferred shares.

COVID-19 Pandemic | Context, Initiatives, and Impacts

The COVID-19 pandemic caused a sharp change in the global scenario and posed huge challenges to all aspects of society - from health to safety to economy, friends, and families.

For companies such as BTG Pactual, this resulted in the need to adjust the operational model to preserve the cooperating defendants' health and safety and the proper service to our customers, who were always the focus of the Bank's activities. It also resulted in the need to focus on even more comprehensive responsibilities in relation to the communities where we operate.

Before addressing the equity and financial side of the period, we will describe some relevant initiatives taken in relation to the operational model e and the role we play in the countries where we operate:

- Despite the pandemic, we have preserved the Bank's operational bases with advances and diversification in services, through new operating features, and new communication channels made available to our customers.
- Our technology teams made, as needed, the necessary connectivity and security available for the new work environment (work from home), with all teams working in stable, continuous manner, without operational incidents - and with a high level of engagement and dedication to the Bank's activities. We are currently in a presential model mostly;
- From the first weeks of the crisis, the customer and operations teams have been able to carry out unprecedented transaction volumes in the primary and secondary markets, keeping the digital platform in perfect operating conditions and uninterruptedly available to our customer's full time; and
- Using cutting edge technology, we maintained ourselves close and available to customers in all segments, providing daily quality information and expert advice to support them in their various needs, their businesses, including management of their portfolios.

2. Corporate reorganizations and acquisitions

Corporate reorganizations and offers

Issuance of senior bônus

On July 1, 2021, BTG Pactual issued an unsecured senior bond (BTG 2025 bond) at a fixed rate of 4.50%, maturing in 2025, for USD250 million, with returns of 3.25% p.a. to investors. This bonus has an outstanding amount of USD 1 billion, of which USD 500 million issued in 2019, USD 250 million in 2020 and USD 250 million in 2021.

Share split

In June 2021, upon the approval of the Central Bank of Brazil ("Bacen"), BTG Pactual shares were split, with a base date of June 30, 2021, in which each unit was divided into four. Once the same proportions were maintained, each unit then corresponded to 1 common share and 2 class A preferred shares. The split did not change the shareholders' rights or the proportion of their interest in the Bank's capital. All dividends that may be resolved by the meetings will reflect the stock split, and the Bank's capital stock has not been modified in this split.

Global Medium Term Notes Issuance

On January 6, 2021, the Bank, through its Cayman branch, issued Global Medium-Term Notes for the purpose of financing and refinancing eligible green projects and/or social projects, in the global nominal amount of USD 500 million at a fixed rate of 2.75% p.a., with maturity on January 11, 2026, and semiannual interest on January 11 and July 11 of each year.

Primary public offerings

On January 13, 2021, the Bank carried out a primary public offering with restricted efforts to distribute 27,777,778 Units, comprising 27,777,778 Common Shares and 55,555,556 Preferred Shares. The book building procedure was concluded, with the establishment of the price per Unit of BRL92.52 and, consequently, the price per share of BRL30.84, which resulted in an offered amount of BRL2,570,000, which once deducted from the costs of issuance of BRL25,370, corresponds to the increase of the Bank's capital.

On May 28, 2021, the Bank carried out another primary public offering with restricted efforts to distribute 24,402,000 Units, comprising 24,402,000 Common Shares and 48,804,000 Preferred Shares. The book building procedure was concluded, with the establishment of the price per Unit of BRL122.01 and, consequently, the price per share of BRL40.67. This offer led to the raising of funds in the amount of BRL2,977,288, the amount of which, discounted from the issuance costs of BRL24,797, corresponded to the increase in the Bank's capital.

Acquisitions and sales

Credpago Serviços de Cobrança S.A.

On June 29, 2021, the Bank sold to Loft Brasil Tecnologia Ltda. all the shares it held in Credpago Serviços de Cobrança S.A. for a total amount of BRL 1,568 million, the settlement was agreed to be made in (i) cash (partially on demand and the remainder to be paid in installments) and (ii) in shares of Loft Holdings Ltd. On September 16, 2021, the sale was approved by the regulatory agencies and was completed in the following days.

Empiricus

On May 31, 2021, the Bank entered into an agreement with the companies Empiricus Research Publicações Ltda., Vitreo Holding Financeira S.A., Vitreo Holding S.A., Vitreo Distribuidora de Títulos e Valores Mobiliários S.A., its subsidiaries and their respective shareholders (sellers) aiming at the acquisition of these companies and establishing long-term partnerships with the sellers. The purchase was approved by the regulatory agencies, and the merger of Holding Univera S.A. was concluded on December 1, 2021, in a way that the companies aforementioned became wholly-owned subsidiaries of BTG Pactual.

Banco Pan S.A.

On April 5, 2021, the purchase and sale agreement was entered into between CaixaPar and Banco Sistema (Controlled by BTG Pactual), for the acquisition of all registered common shares, without par value, issued by Banco Pan and held by CaixaPar, representing 49.2% of Banco Pan's voting capital stock, equivalent to 26.8% of the capital stock. To complete the transaction, Banco Sistema paid to CaixaPar the total amount of approximately BRL3.7 billion, corresponding to BRL11.42 for each of the Shares subject-matter of the transaction. On May 19, 2021, after verifying the fulfillment of all conditions precedent, including the applicable regulatory approvals, the acquisition was concluded.

On June 29, 2022, the assessment of the allocation of assets from the acquisition of Banco Pan S.A. was concluded, with no material effects on the asset lines.

EFG sale

On April 20, 2021, BTG Pactual (Cayman) International Holding Limited, sold to the Holding all of the units of ownership held by it issued by BTG Pactual Holding EFG Ltda ("Holding EFG"), in the amount of approximately BRL3.8 billion. Holding EFG held approximately 89.51% of BTGP BSI Ltd, corresponding to a share of approximately 22.55% of EFG's capital. After the transaction, the Bank will keep approximately 2.64% of EFG's capital stock. On the same date, the Equity Linked Note issued pursuant to CMN Resolution No. 4.192, of 2013, previously registered under the liabilities of BTG Pactual Cayman Branch, was settled.

Kinvo Tecnologia da Informação Ltda

On March 16, 2021, the Bank signed, through BTG Pactual Corretora de Títulos e Valores Mobiliários S.A., the final documents concerning the acquisition of Kinvo Tecnologia da Informação Ltda, for the amount of BRL 72 million. This acquisition aims to expand the BTG Digital ecosystem, complementing the offer of products and services to our customers. On May 17, 2021, the acquisition was approved by Bacen, and the transaction was concluded as a result.

Necton Investimentos S.A.

On October 23, 2020, the definitive documents related to the acquisition of 100% of Necton Investimentos S.A. Corretora de Valores Mobiliários e Commodities capital stock for the amount of BRL342 million. This acquisition is part of BTG Pactual's expansion strategy in the retail investment segment. On April 5, 2021, after verifying the fulfillment of all conditions precedent, including the approval from the regulatory authorities, the acquisition of 100% of Necton's capital stock was concluded.

Merger Necton

On August 31, 2022, the merger of Necton Investimentos S.A. Corretora de Valores Mobiliários e Commodities by BTG Pactual Corretora de Títulos e Valores Mobiliários S.A. was approved by the regulatory agencies, upon the transfer of all its assets and consequent dissolution of the merged company, succeeding the merging company in all rights and obligations.

Ourinvest Distribuidora de Títulos de Valores Mobiliários S.A.

On July 19, 2019, the Bank, through its investee BTG Pactual Asset Management S.A. DTVM, acquired an 80% interest in Ourinvest Distribuidora de Títulos de Valores Mobiliários S.A. ("Ourinvest"), with such institution remaining with administrative and operational independence, however integrating the BTG Pactual Conglomerate. The purchase and sale agreement also provided for the option to buy the remaining shares of Ourinvest until 2022, in two tranches of 10% each (the option for the first tranche was exercised in March 2021, and the second tranche in March 2022). In November 16, 2022, the transaction was concluded, afterwards all precedents conditions had been overcome, including regulatory approvals.

Acquisition of minority equity interest in CSD Central de Serviços de Registro e Depósito aos Mercados Financeiro e de Capitais S.A.

On January 24, 2022, the Bank informed the shareholders and the market in general that it executed, together with Santander Corretora de Seguros, Investimentos e Serviços S.A. and CBOE III, LLC, binding agreements for the acquisition of a minority equity interest in CSD Central de Serviços de Registro e Depósito aos Mercados Financeiro e de Capitais S.A. ("CSD BR").

On May 26, given the fulfillment of the suspensive conditions that conditioned the effectiveness of the transaction, the Bank confirmed the closing of the operation related to the acquisition of minority equity interest in CSD Central de Serviços de Registro e Depósito aos Mercados Financeiro e de Capitais S.A..

Acquisition of Elite Corretora de Câmbio e Valores Mobiliários Ltda.

On February 1, 2022, the Bank informed the shareholders and the market in general of the execution of final documents regarding the acquisition of 100% (one hundred percent) of the capital stock of Elite Corretora de Câmbio e Valores Mobiliários Ltda. This acquisition is part of BTG Pactual Digital's expansion strategy in the advisory investment segment.

On October 21, 2022, the acquisition of Elite Corretora de Câmbio e Valores Mobiliários Ltda. was concluded, after completion of all conditions precedent, including regulatory approvals.

Merger of shares of Mosaico Tecnologia ao Consumidor by Banco PAN S.A. (Subsidiary of BTG Pactual)

On October 3, 2021, Banco PAN S.A. (B3: BPAN4) signed an Association Agreement and Other Covenants ("Association Agreement") for the incorporation of all shares issued by Mosaico Tecnologia ao Consumidor S.A. ("Mosaico") (B3: MOSI3), a digital native company that brings together the Zoom, Buscapé and Bondfaro brands, and which owns the largest content and sales origination platform for e-commerce in Brazil ("Operação Mosaico").

On March 11, 2022, the Board of Directors of Banco PAN confirmed the fulfillment of the suspensive conditions that conditioned the effectiveness of the Mosaico Transaction, according to the Protocol and Justification of the Merger of Shares signed between Banco PAN and Mosaico on October 26, 2021 and, therefore, stated that the resolutions contained in the Extraordinary General Meeting of Banco PAN held on December 1, 2021, including the merger of shares, became valid and effective, for all legal purposes and effects.

Acquisition of Banco BESA S.A.

On March 30, 2022, the BTG Pactual undertook to acquire the controlling interest of Banco BESA S.A. ("BESA"), as well as of its subsidiaries. As announced to the market, on October 7, 2022, after regulatory approvals, the acquisition of the share control of Banco BESA S.A. was concluded (new name of "Banco Econômico S.A. – In Extrajudicial Liquidation"). The transaction is complementary to BTG Pactual's strategy, focused on the acquisition and recovery of stressed credit and the purchase of alternative financial assets.

An independent advisory will prepare the purchase price allocation report ("PPA") during the first semester of 2023.

Approval of the shares buyback program

On January 11, 2022, the Bank informed the shareholders and the market in general that the Bank's Board of Directors, at a meeting held on January 10, 2022, approved the share buyback program, pursuant to the following conditions ("Buyback Program"):

- Buyback with the purpose of providing better conditions to make the efficient investment of funds available in cash, in order to maximize the allocation of the Bank's capital;
- Acquisition of up to BRL1,000,000,000.00, in any case subject, subject to the limits set forth in CVM Instruction 567;
- Inexistence, in BTG Pactual, of BPAC11 units or treasury shares;
- Treasury maintenance of the BPAC11 units acquired under the Program;
- Establishment of a term of up to 18 months for acquisitions, being incumbent upon the Executive Board to decide on the best time to carry out the acquisitions; and
- Intermediation of BTG Pactual CTVM S.A. and execution of operations in accordance with current regulations.

The Bank shall maintain the regulators and the market in general informed regarding the Buyback Program.

3. Presentation of individual and consolidated financial statements

The complete accounting statements of the Bank and its subsidiaries were prepared according to the accounting practices adopted in Brazil, applicable to the institutions authorized by the Central Bank of Brazil (Bacen) to operate and associated to the rules and instructions of the National Monetary Council (CMN), Bacen and Securities and Exchange Commission (CVM).

The Bank's consolidated financial statements comprise the standalone financial statements of the Bank, of its branches abroad, of subsidiaries, directly and indirectly, in the country and abroad, as well as of investment funds and special purpose entities (SPE).

The preparation of the complete accounting statements according to the accounting practices adopted in Brazil, applicable to the institutions authorized to operate by Bacen, requires that the Management uses its judgment when determining and recording the accounting estimates. The assets and liabilities subject to these estimates and assumptions basically refer to deferred income tax assets and liabilities, to the provision for expected losses associated with credit risk, to the provision for taxes and contributions with suspended liability, to the provision for contingent liabilities, and to the measurement of the fair value of financial instruments. The settlement of transactions involving these estimates may result in amounts that are different from estimates due to the inaccuracy inherent in the calculation process. The Bank and its subsidiaries review these estimates and assumptions on a timely basis.

The CMN Resolution No. 4.818/2020 and BCB Resolution No. 2/2020 establish the general criteria and procedures for preparing and disclosing standalone financial statements.

In accordance with BCB Resolution No. 2/2020, the Balance Sheet accounts are presented in order of liquidity and enforceability, with the segregation between corrente and non-current presented in explanatory note.

The complete financial statements were approved by Management on February 12, 2023, and include a true and appropriate view of the Bank's financial, equity, and income evolution. Management has assessed the ability and capacity of the Bank and of its subsidiaries to continue operating normally, and is convinced that the Bank and its subsidiaries have operating conditions and resources to continue their business in the future. In addition, Management is not aware of any material uncertainty that could generate doubts about its capability of continuing to operate normally. The standalone financial statements were prepared based on this principle and on these assumptions.

The complete financial statements were prepared based on these principles and assumption.

Chart of Accounts

The BCB Resolution No. 92/2021 provides for the structure of the list of accounts of COSIF to be observed by financial institutions, and other institutions authorized to operate by the Central Bank of Brazil. Among the changes promoted, the extinction of Group 5 – Income from Future Years stands out, and, consequently, all balances of the same are transferred to the Other Liabilities line item.

Consolidated financial statements

The consolidation process of the financial statements eliminated the interests, balances of assets and liabilities accounts, unrealized revenues, expenses and profits among the companies, as well as highlighted the net profit and equity amounts related to interests of non-controlling shareholders.

The following are the main consolidated entities, the sum of which, considering the amounts referring to Banco BTG Pactual S.A., represents more than 95% of the total consolidated assets, as well as the Bank's interest in its capital:

Functional and presentation Currency

Both standalone and consolidated financial statements are presented using Brazilian Reais (R\$), which is the Bank's functional currency, given that it is the primary economic environment in which the Bank operates.

CMN Resolution 4,966/21 (Financial Instruments)

The CMN Resolution No. 4,966/2021 disclosures of accounting concepts and criteria applicable to financial instruments, as well as for the designation and recognition of hedge accounting by financial institutions and others institutions authorized to operate by the Central Bank of Brazil. The Board of Directors avow this Resolution as the representation of the the Central Bank of Brazil efforts, aiming the convergence of accounting standards applicable to the National Financial System with the best international practices, in particular, convergence with the International Accounting Standards Board (IASB), through the incorporation, to the Accounting Plan of the institutions within the National Financial System (COSIF), of the precepts contained in international standards, in particular the pronouncement IFRS 9 - Financial Instruments. Therefore, this Bank has prepared its Accounting Regulation Implementation Plan for the coming years, to maintain availability to Central Bank of Brazil.

Simultaneously to forecasted changes by the CMN Resolution No. 4,966/2021, the nº 14,467/2022 law altered the fiscal treatment for losses incurred in operations with credit characteristics related to financial institutional operation and others institutions authorized by Central Bank of Brazil. The main alteration is on the deductibility of expected credit loss affecting the taxable profit calculation. The law will come into force in January 1, 2025, in line with the new accounting standard for financial instruments.

Complete Financial Statements

Banco BTG Pactual S.A.

(in thousands of Reais, except if otherwise indicated)

Our implementation plan comprises reviews of impacted activities, ideal model design, implementation of the requirements demanded by the standard, environment of tests and demanding adjustments by the standard for entry into production. Closing of Implementation work it is scheduled for 2024. The initial plan may be impacted throughout the process considering the issuance and/or updating of Central Bank norms.

4. Main accounting policies

The most relevant accounting policies adopted by the Bank are as follows:

a. Cash and cash equivalents

For the purposes of the statement of cash flow, cash on hand, bank deposits, short-term, highly liquidity investments that are readily convertible into a known amount of cash are included, which are subject to an insignificant risk of change in value, with maturity, on the date of acquisition, equal to or inferior than 90 days.

b. Interbank investments of liquidity, deposits at Bacen with compensation, interest-bearing deposits, open market funding, funds from acceptance and issuance of bonds, obligations for loans and on-lending's, subordinated debt and other asset and liability operations

The operations with a monetary/foreign exchange adjustment clause and the operations with fixed charges are recorded at their present value, net of incurred costs with transactions, calculated pro rata die, based on the effective rate of operations.

c. Bonds and securities

Evaluated and classified according to the criteria determined under Bacen Circular Letter No. 3068/2001, in the following categories:

(i) Trading bonds

Acquired with the purpose of actively and frequently be traded. Trading securities are registered at the acquisition cost, plus the earned incomes and adjusted at the market value, with a corresponding entry to the statement of income for the period.

According to Bacen Circular Letter No. 3.068/2001, the bonds and securities classified as trading securities are stated as short-term assets, independently of their maturity.

(ii) Available for sale bonds

Those that are not classified as bonds for trading nor as held to maturity. These securities are recorded at the acquisition cost, plus earned incomes, with a corresponding entry to the income and further evaluated at the market value, with a corresponding entry in a specific account of the shareholders' equity, net of tax effects, which will be recognized only in income statement accounts when they are effectively realized.

(iii) Bonds held to maturity

Acquired with the financial intention and capacity to be held to maturity in the portfolio. Securities held to maturity are registered at the acquisition cost, plus the earned incomes, with a corresponding entry to the statement of income for the period.

The decreases in the market value of bonds and securities available for sale and those held to maturity below their respective updated costs, related to reasons of non-temporary nature, are reflected in incurred losses..

d. Fair value determination

The financial instruments are measured in accordance with the hierarchy of the fair value measurement described below:

- Level 1: Observable price quotes in active markets for the same financial instrument;
- Level 2: Observable price quotes in active markets for financial instruments with similar features or based on a pricing model in which significant parameters are based on observable data in active markets; and
- Level 3: Pricing models in which current market transactions or observable data are not available and require a high degree of judgment and estimation. Instruments in this category were priced using techniques in which at least one input, which could have a significant effect on the price, is not based on observing market data. When inputs can be observed from market data without excessive costs and effort, they are used. Otherwise, the Bank determines an appropriate level

Complete Financial Statements

Banco BTG Pactual S.A.

(in thousands of Reais, except if otherwise indicated)

for input. Financial instruments basically include stakes in private equity funds, unlisted shares from our Merchant Banking activities, some debt securities (debentures) from closed companies and energy derivatives, whose pricing depends on unobservable inputs. No gain or loss is considered upon the initial recognition of a financial instrument that is priced using techniques that incorporate unobservable data.

Level 3 assessment assumptions

Assets	Pricing technique	Main assumptions
Private equity funds (investments without quote)	Price of recent investments; models based on discounted cash flow or earnings, multiples of market transactions (M&A).	Revenue and market growth, expected leverage and profitability, discount rates, macro-economic assumptions such as inflation and exchange rates, risks and premiums including market, size and country risk premium.
Debt securities (debentures)	Standard models and price comparison	Probability of default, large losses and yield drop, prepayment and recovery rate.
Energy derivatives	Models based on data system (Decomp and Newwave)	GDP, level of water reserves and rain projection.

In some cases, the data used to determine the fair value can be placed at different levels of the hierarchy for measuring fair value. In such cases, the financial instrument is classified in the most conservative category where the data that is relevant for determining fair value was classified. This assessment requires judgment and considers factors specific to the respective financial instruments. Changes in the availability of information may result in the reclassification of certain financial instruments between different levels of the hierarchy for measuring fair value.

The Bank assesses the levels in each disclosure period on an instrument-by-instrument basis and reclassifies the instruments whenever necessary, based on the facts at the end of the period.

The fair values of financial instruments are determined as follows:

- **Swaps:** its cash flows are discounted to present value based on yield curves that reflect the appropriate risk factors. These yield curves can be drawn mainly based on prices observed in trading at B3 S.A., of Brazilian sovereign debt securities traded in the secondary market or of derivatives and bonds and securities traded abroad. These yield curves can be used to obtain the fair value of currency swaps, interest rate swaps and swaps based on other risk factors (commodities, stock indexes, etc.).
- **Futures and Terms:** fair value determined on the basis of quotations on stock exchanges or using the same criteria as those described above for swaps.
- **Options:** the fair values of these instruments are determined based on mathematical models (such as Black & Scholes) which are fed with data on implied volatility, interest rate yield curve and the fair value of the underlying asset. All these data are obtained from different sources (usually broker and broker prices, Bloomberg, Reuters).
- **Credit derivatives:** the fair values of such instruments are determined based on established market mathematical models that are fed with data on the issuer's credit spread and interest rate yield curve. Such data are obtained from different sources (usually market prices, Bloomberg, Reuters).
- **Bonds and securities and short sales:** the fair values of government bonds are calculated based on prices published by ANBIMA. The fair values of corporate debt bonds are calculated based on secondary market prices, the price of similar assets and the market visibility that the Bank's commercial areas provide. The shares are calculated based on the prices disclosed by B3 S.A. The funds units of ownership are valued considering the prices of the units of ownership disclosed by the managers.
- **Financial assets valued at fair value in profit or loss:** we estimate the fair values of financial instruments by discounting cash flows to present value based on yield curves that reflect appropriate risk factors.
- **Financial assets valued at fair value in profit or loss:** we estimate the fair values of financial instruments by discounting cash flows to present value based on yield curves that reflect appropriate risk factors.

Complete Financial Statements

Banco BTG Pactual S.A.

(in thousands of Reais, except if otherwise indicated)

e. Derivative financial instruments

Classified according to the Management's intention, on the date of operation contracting, considering whether its purpose is hedge or not.

The operations that use financial instruments made for own account, or that do not comply with the protection criteria (particularly the derivatives used to manage the global exposure to risk) are accounted at their fair value, with profits and losses, realized and unrealized, directly recognized in the income for the fiscal year.

The derivative financial instruments used to mitigate the risks resulting from the exposures to the market value variations of financial assets and liabilities, which are highly related to changes in their market value, as compared to the market value of the protected item, both in the beginning and during the life of the agreement and considered effective in the reduction of the risk related to the exposure to be hedge, are considered as hedge instruments and are classified as follows, according to their nature:

- Fair value hedge: the financial instruments classified under this category, as well as their related financial assets and liabilities subject to hedge, are measured at the fair value and their profits and losses, whether realized or unrealized, are recorded in profit or loss;
- Cash flow hedge: the instruments classified under this category are measured at the fair value, and the portions of valuation or devaluations are registered, net of tax effects, in a separate equity account. The ineffective part of the respective hedge is recognized directly in profit or loss; and
- Hedge of Net Investment in Foreign Operations: recorded likewise as in cash flow hedge, that is, the part of the gain or loss from the hedge instrument that is determined as effective hedge is recognized in shareholders' equity, reclassified to profit or loss of the period in case of disposition of the operation abroad. The ineffective part is not recognized in the profit or loss for the period.

f. Fair value of bonds and securities, derivative financial instruments and other rights and obligations

The fair value of securities, derivative financial instruments and other rights and obligations, as applicable, is based on market prices, price evaluation models or the price determined for other similar financial instruments. Therefore, the results can be different from the estimates at the financial liquidation of these operations. The daily adjustments of future market operations are recorded as effective revenue or as expense when earned or incurred. The premiums paid or received with the realization of operations in the options trading market, other financial assets and goods are recorded in the respective equity accounts at the values paid or received, adjusted to market prices, with the corresponding entry in the income account.

The operations made in the forward market with financial assets and goods are recorded at their final contracted value, deducting the difference between this value and the price of assets or rights adjusted at market prices, in the proper assets or liabilities account. Revenues and expenses are recognized according to the period of agreements.

The assets and liabilities resulting from the swap and future currency operations – the future agreements without physical delivery (NDF) – are recorded in equity accounts at their accounting value, adjusted to the market value, with the corresponding entry in the income account.

The notional value of agreements is recorded in clearing accounts.

g. Financial instruments - net presentation

Financial assets and liabilities are stated at their net amounts in the balance sheet if, and only if, the Company has a legally current and enforceable right to set off the amounts recognized and if there is the intent to offset, or to simultaneously realize the asset and settle the liabilities, according to CMN Resolution 3.263/05.

h. Transactions for the sale or transfer of financial assets with substantial retention of risks and benefits

Financial assets remain on the balance sheet of the entity that transferred its assets when it maintains the risks and benefits regarding that asset. In this case, a financial liability is recognized.

i. Credit and other credit transactions (operations with credit granting characteristics)

The provisions contained in CMN Resolution No. 2682/1999 are applied. As a result, the transactions are recorded at present value, calculated "*pro rata*" per day based on variation of the index and the agreed interest rate, updated up to the 59th day of delay, according to expectation of receipt. As of the 60th day, income recognition occurs upon the debt's effective amortization. Renegotiated operations are maintained at least at the same level at which they were classified prior to the

Banco BTG Pactual S.A.

(in thousands of Reais, except if otherwise indicated)

renegotiation and, if they have already been remanded against a provision, they are classified as level H. Gains are recognized in revenue when they are actually received.

j. Provision for expected losses associated with credit risk

Established based on the credits realization risks analysis, considering the client's risk and the nature and the conditions of the transaction, in an amount considered sufficient to cover any losses, in compliance with the provisions of CMN Resolution No. 2.682/1999, among which the following stand out:

- Provisions are set up from the granting of credit, considering the client's classification, pursuant to the terms of this Resolution, and the conditions of the transaction, depending on the periodic analysis of the customer's risk level, of the guarantees of the transaction, and the sectors of activity, and not only upon default;
- Considering default exclusively, remands of credit operations against losses are carried out after 360 days from the maturity of the credit or after 540 days from the maturity for operations with maturities exceeding 36 months; and
- The allowance for doubtful accounts and other receivables is estimated based on an analysis of the operations and specific risks presented in each portfolio, pursuant to the criteria established by CMN Resolution No. 2682/1999.

k. Investment properties

The investment properties held by the Bank's subsidiaries whose core activity is the real estate segment, are initially measured at its cost, including the transaction costs. After initial recognition, the investment properties are reported at fair value, which reflects the market conditions on the reporting date. The adjustments at fair value are recognized in profit or loss and determined considering the fair value of the property less the costs attributed thereto.

The fair value of the investment properties is determined at least on an annual basis, or when the Management deems it necessary, and may be carried out by duly qualified independent appraisers.

Investment properties are remanded when they are sold or when they are no longer permanently used, and no future economic benefit from their sale is expected.

l. Investments

Investments in subsidiaries, in jointly owned subsidiaries, and in affiliates are valued using the equity accounting method. Other permanent investments are evaluated at the acquisition cost, with the deduction, as applicable, of the provision for losses. The CMN Resolution No. 4817/2020, which deals with criteria for accounting measurement and recognition of investments in affiliates, subsidiaries, and jointly owned subsidiaries, became effective as of January 2022, with no material impacts due to this change, considering its prospective application.

m. Conversion of Foreign Currency

The CMN Resolution No. 4924/2021, effective as of January 2022, allowed for the use of an alternative rate to the spot foreign exchange for the conversion of foreign currency transactions and statements into the national currency. The Bank maintained its conversion process with the PTAX, which is the closing rate calculated by the Central Bank of Brazil.

The assets and liabilities of subsidiaries and of branches abroad are converted at the PTAX rate as of the balance sheet date. Revenues and expenses are converted by the average monthly exchange rate. The equity accounting results of subsidiaries abroad are recognized as follows: for those with functional currency equal to the real on the result for the period and, for those with a functional currency other than the real: a) result for the period - installment regarding the actual result of the subsidiary; and b) Equity - installment regarding the foreign exchange variation adjustments resulting from the conversion process, net of tax effects.

n. Goodwill

Goodwill in the acquisition of interests between independent parties is determined based on the difference between the acquisition price paid on the date of the transaction and the fair value of identifiable assets, less the fair value of the liabilities assumed by the investee.

Goodwill, based on expectations of future profitability, whose foundation is based on the forecast of future results of the acquired entity, is amortized in accordance with the projection periods that justified it or, when the investment is written off, by disposal or loss, before the predictions..

Negative goodwill, when encountered, is registered in the period income statement.

Complete Financial Statements

Banco BTG Pactual S.A.

(in thousands of Reais, except if otherwise indicated)

o. Property, plant and equipment

Registered by the acquisition cost. Depreciation is calculated by the straight-line method based on the useful and economic life of the assets.

p. Intangible Assets

Corresponds to acquired rights that have as their purpose intangible assets intended for the maintenance of the entity or exercised for this purpose, pursuant to the CMN Resolution No. 4534. It consists of (i) goodwill paid on the acquisition of companies, transferred to intangible assets due to the merger of the acquirer's assets by the acquiree, or the consolidation of the Bank, and (ii) intangible assets identified in a business combination between independent parties and by rights in the acquisition of asset management contracts and (iii) software and improvements. Amortization is calculated using the straight-line method based on the period in which the rights generate benefits.

q. Assets impairment

It is recognized as a loss in the income for the year whenever there is clear evidence that the assets are evaluated at an amount that is impaired. This procedure is carried out at least at the end of each year.

The assets subject to impairment evaluation are deducted, as applicable, from the provision for devaluation that is calculated according to the highest value between the value in use and the fair value less the cost of the sale of assets. The major estimates that are used to determine the provision are: expectation of future cash flows; discount rates; and illiquidity, among others.

r. Income Tax and Social Security Contribution

Provisions for income tax and social security contribution, when due, are recorded based on the accounting profit and are adjusted by the additions and exclusions stipulated in tax regulations. Deferred income tax and social security contribution are calculated over the amount of temporary differences whenever the realization of these amounts is considered probable. For the income tax (IRPJ), as of January 1, 2022, the tax rate is 15%, plus additional 10% on the annual taxable profit exceeding BRL 240, and 20% for the social security contribution on the net profit (CSLL), increased to 21% starting on August 1, 2022 until December 31, 2022 to banking institutions. For the other financial institutions, the nominal CSLL rate is 15% increased to 16% in the same period.

The deferred component, represented by tax credits and deferred tax liabilities, is obtained from the differences between the accounting and tax calculation bases of assets and liabilities. Tax credits are only recognized when it is probable that future taxable profit will be available for offsetting.

s. Contingent assets and liabilities and legal, tax and social security obligations

These are made according to following criteria:

i. Contingent assets

They are not recognized in the financial statements, except when there is evidence that guarantees its realization, and on which no remedies exist.

ii. Contingent liabilities

These are recognized in financial statements when, based on the opinion of legal advisors and Management, the risk of losing a lawsuit or administrative procedure is probable, and when the amounts involved may be measured with sufficient reliability. Relevant contingent liabilities classified as possible losses by legal advisors are only disclosed in explanatory notes, while those classified as a remote loss do not require provision or disclosure.

iii. Legal obligations - tax and social security

Refer to the judicial demands in which the legality and constitutionality of some taxes and contributions are being objected. The amount under discussion is quantified and recorded in the books.

t. Earnings per share

Calculated based on the weighted average of shares during the periods. Segregated between basic and diluted, as required by accounting practices for publicly-held companies

u. Recognition of income/expense

The result of operations is calculated using the accrual basis.

v. Recurring and nonrecurring income

In accordance with BCB Resolution No. 2/2020, BTG Pactual discloses the non-recurring result in explanatory note (28b.), presenting non-recurring events that occurred and contributed to the result, which are not related (or incidentally related) to the ordinary activities of the Bank.

5. Risk management

At BTG Pactual, risk is managed with the involvement of all levels of management and control of the Institution. The Bank's Board of Directors, pursuant to CMN Resolution 4557/2017, is responsible for setting the levels of risk appetite, approving and reviewing the policies, strategies and risk limits, capital management strategies and policies, the stress testing program, the management of the going concern policy, among other activities. The Executive Board is in charge of formulating policies, defining risk guidelines, and supervising risk management and control processes. Next, there is a set of risk committees and of areas, in charge of risk management and control activities.

The main committees/areas involved in risk management activities are the following: (i) Meeting of the Executive Board, which formulates policies, proposes global limits and is the highest court responsible for managing our risks; (ii) Capital and Risk Committee, made up of a majority of independent members who assess the results of risk management and of the strategies; (iii) New Products Committee, which assesses the feasibility and supervises the implementation of proposed new businesses and products; (iv) Credit Risk Area, which is responsible for approving new credit transactions in accordance with the guidelines established by Chief Risk Officer ("CRO"); (v) Market Risk area, which is responsible for monitoring market risk, including the use of the risk limits (VaR), and for approving exceptions as set forth in the internal rules; (vi) Operating Risk area, which assesses the key operational risks against the internal policies and the regulatory limits; (vii) The Compliance Committee, which is responsible for establishing Anti-Money Laundering ("AML") rules and for reporting potential problems involving money laundering; (viii) CRO, which is responsible for Monitoring the liquidity risk, including a cash position and management of structure of capital; (ix) Audit Committee which is responsible for the independent assessment of the adequacy of the internal controls, the assessments regarding the maintenance of accounting records, and the quality and integrity of the financial statements; (x) Social and Environmental Risk area, which assesses the social, environmental, and climate risks, in accordance with the principles of relevance and proportionality, and manages and mitigates adverse social, environmental, and climate impacts resulting from our operations and activities; and (xi) ESG Committee, responsible for supervising e managing the implementation of ESG policies and procedures, regarding social, environmental and climatic risks, in order to guarantee that the Bank is compliant with these guidelines.

The Bank monitors and controls risk exposure through a variety of separate but complementary internal credit, financial, operational, compliance, tax, and legal systems. We believe that the involvement of committees and areas (including their subcommittees) with ongoing risk management and control promotes a culture of rigorous and effective risk control throughout the BTG Pactual Group. The Bank's committees are composed of senior members of the business units and of senior members of the control departments, who are segregated and independent of the business areas. Further details on risk management can be found at <https://ri.btgpactual.com/>, in the Corporate Governance / Risk Management section.

for in Circular Letters Nos. 3644, 3652, 3679, of 2013, and 3696, of 2014, for credit risk, were observed in Circular Letters Nos. 3634, 3635, 3636, 3637, 3638, 3639, 3641 and 3645, all of 2013, and Circular Letter No. 3498, of 2011, for the risk of market, and in Circular Letters Nos. 3640 and 3675, of 2013, for operational risk, all from Bacen.

The Bank elected to basic indicator approach to measure the Operating Risk.

In the years ended December 31, 2022 and 2021, all prudential and operating limits are fully met.

b. Market risk

Sensitivity Analysis

Value at Risk (VaR) is a measurement of the potential loss in financial instruments due to adverse changes in the market within a determined period scenario, with a specific confidence level. The VaR, together with the stress testing, is used to measure the exposure of our financial instruments to market risk. BTG Pactual applies the historic simulation with full remeasurement of the instruments to calculate VaR, preserving the actual distributions and the correlation between the assets, disregarding Greek approximations and of normal distributions. Our VaR may be measured and indicated according to different periods, historical data and confidence levels. The accuracy of the market risk methodology is tested through daily back testing, which compare adherence between VaR estimates and realized earnings and losses incurred.

The VaR presented below was calculated for a one-day period, 95% confidence level and one year of historical data. A 95% confidence level means that there is a possibility, in twenty occurrences, that the net revenues from trading will be below the estimated VaR. Thus, deficits in trading net revenues on a single trading day greater than the VaR presented are expected to occur, on average, about once a month. Deficits in one single day may exceed the VaR presented at significant amounts; and may occur more frequently or accumulate throughout a longer period, as a number of consecutive trading days. As it depends on historical data, VaR accuracy has limited capacity to forecast unprecedented changes in the market, likewise historical distributions in the market risk factors, which cannot produce accurate future market risk estimates. Different VaR methodologies and statistical distribution may produce a substantially different VaR. In addition, the VaR calculated for a one-day period does not capture the market risk of the positions that cannot be settled or cleared by hedges within a one-day period. As previously mentioned, we use models in the stress testing as a supplement to VaR in our daily activities with risk exposure.

The table below contains the daily average VaR of the Bank for the years ended:

In millions of BRL	December 2022	December 2021
Daily Average of VaR	132.7	65.1

c. Credit risk

All counterparties of the Bank and its subsidiaries are subjected to a rigorous credit analysis process, the main focus of which is the assessment of the borrower's ability to pay, based on simulations of cash flow, leverage and debt schedule, asset quality, interest coverage and swivel. Qualitative aspects, such as strategic guidance, business sector, areas of specialization, efficiency, regulatory environment, and market interest, are systematically evaluated and complement the credit analysis process. The counterparties' credit limits are established by Senior Management and are regularly reviewed. The measurement and monitoring of credit risk exposures encompasses all the financial instruments capable of generating counterparty risk, such as private bonds, derivatives, guarantees provided, possible risks of settlement of the transactions, among others.

d. Liquidity risk

The Bank and its subsidiaries manage the liquidity risk by concentrating its portfolio on high credit-quality and high-liquidity assets, using resources obtained through top-tier counterparties at competitive rates. The Bank and its subsidiaries maintain a strong capital structure and a low degree of leverage. Possible mismatches between assets and liabilities are monitored, considering the impact of extreme market conditions, in order to assess their ability to carry out assets or to decrease leverage. The guarantees in the transactions are also monitored on a timely basis.

e. Operating risk

In line with the guidelines of Bacen and the concepts of the Basel Committee, the Bank established operating risk management policy applicable to the Bank and its subsidiaries in Brazil and abroad.

The policy consists of a set of principles, procedures, and instruments that provide for the permanent adequacy of risk management to the size, nature, and complexity of the Bank's products, services, activities, processes, and systems.

Complete Financial Statements

Banco BTG Pactual S.A.

(in thousands of Reais, except if otherwise indicated)

The Bank and its subsidiaries have a strong operational risk management culture, which is based on risk assessment, monitoring, simulation, and validation, and is based on consistent internal controls. There is a constant improvement in operational risk management and control mechanisms, aiming at complying with normative requirements and regulatory agencies' guidelines, rapid adaptation to changes, and anticipation of trends, among which we can highlight the new Basel revision proposals.

f. Social, environmental and climatic risk (ESG)

BTG Pactual understands social, environmental and climatic risk as: financial losses or damage to the banks image and / or reputation, as a result of social and / or environmental damage. This also includes the possibility of losses for the institution directly or not caused by events associated to the low carbon economy transition process, in which greenhouse gas emissions are either reduced or compensated; and losses associated with extreme environmental conditions that may be related to climate changing patterns.

Btg Pactual, while conducting its business, activities and operating processes based on responsible and sustainable business practices, is committed to balancing economic, financial, regulatory, environmental, social and climatic aspects in its operations. We believe the solid commercial practices and company responsibility are long term values that should be applied daily to generate value for shareholders and clients through sustainable growth.

For updated information regarding the aforementioned risks and ESG, see our annual reports published in IR webpage, as well as our ESG page.

6. Cash and cash equivalents

Securities classified in this category, if valued at market value, would present in the year ended December 31, 2022 the amount of R\$ 15,172,521 (December 31, 2021 – R\$ 5,261,592).

The Bank has the intention and the financial capacity to hold these assets until maturity.

e. Reclassification of bonds and securities

In the financial year ended in December 31, 2022 were performed securities category reclassifications in the amount of BRL 393,198 shifting from trading to available for sale. These category reclassifications are in line considering the Management intention in operating these securities, taking into consideration securities distinctiveness respectively. (In December 31, 2021 were not performed any category reclassifications or alterations when it comes to Management intention).

9. Derivative financial instruments

The Bank and its subsidiaries actively participate in risk intermediation operations involving derivative financial instruments, meeting their own needs and those of their customers, in order to reduce exposure to the market, currency and interest rate risks. A few derivative financial instruments may be associated with transactions with bonds and securities or, even with rights and obligations.

The management of the risks involved in these operations is carried out through strict control policies, establishment of strategies, determination of limits, among other monitoring techniques. The risk exposure limits are approved by the Board of Directors, based on the policies mentioned above.

Transactions in Brazil are traded, and registered or held in custody at B3 S.A., when carried out abroad, in top-tier brokerages. The BTG Pactual Conglomerate uses different financial instruments for economic hedge, such as option, forward, future and swap with periodic adjustments. The use of these instruments is intended to hedge treasury positions in markets, in order to adjust the existing risk level in the portfolio to the exposure limits set forth, whenever the risk management and monitoring Committees/areas deem it necessary.

• Net investment Hedge

In year ended December 31, 2022 and 2021 the Bank's net investment abroad hedge strategy consists of purchasing a hedge of exposure in foreign currency, arising from the functional currency of the foreign transaction in relation to the Bank's functional currency (real).

For protection regarding changes in future cash flows in result of foreign exchange variation on the net investments, in operations abroad, the Bank uses future contracts, financial assets and forward agreements of NDF (Non-Deliverable Forward) contracts contracted by our subsidiaries abroad.

Bank	12/31/22

(ii)

• Fair value Hedge

During the year ended on December 31, 2021, the Bank adopted the fair value hedge strategy, which consists of accounting for the desired economic protection effects. The fixed rate exposure results from the Financing and Structured Credit activity that the Bank carries out with its clients through the Corporate Lending area, and due to the characteristics and practice of the Brazilian market.

Also, to finance all of Banco BTG Pactual's business lines, funding is carried out through debt instruments indexed mainly as a percentage of the CDI and IPCA, consequently with intrinsic exposure to the pre-fixed rate.

The main objects protected through this strategy are Bank Deposit Certificates - CDB, Financial Bills - LF, Agrarian Credit Bills - LCA and Real Estate Credit Bills - LCI.

The instruments designated for the hedge relation, in turn, are DI and IPCA futures (DAP) and Swaps.

	12/31/22		Hedge Object
	Nominal value	Fair value changes	
Fair value hedge	(14,403,135)	(770,541)	877,576

	12/31/21		Hedge Object
	Nominal value	Fair value changes	
Fair value hedge	5,764,885	(123,068)	137,422

a. Notional amounts in clearing and off-balance sheet accounts

The notional amounts of transactions with financial instruments are recorded in clearing accounts and the adjustments/premiums in balance sheet accounts. In the positions undertaken resulting from operations with derivative financial instruments, as set forth below, the provisions of Bacen Circular Letter No. 3641/2013 were considered, which provides for the exclusion of agreements in currency, gold, and other assets linked to foreign exchange exposure, maturing on the first business day subsequent to the date of determination of the foreign exchange exposure. Receivables and payables are presented separately for Swap, Non-Deliverable Forward (NDF) and Deliverable Forward (DF) derivatives in the table below

e. Margins pledged in collaterals

The guarantee margin given in operations traded on B3 S.A. and on other stock exchanges with derivative financial instruments is mainly composed of federal government bonds, bonds issued by governments from other countries, debentures and others, totaling BRL 1,107,398 for the bank and BRL 3,674,668 for the consolidate (December 31, 2021 – BRL 6,477,563 and BRL 8,346,566).

10. Loan operations

Loan operations are classified into risk levels in accordance with the criteria established by CMN Resolution No. 2682/1999. This classification considers, among other factors, a periodic analysis of the operations, delays, customer history, and guarantees of operations, as well as the application of internal models for retail operations.

The provision for expected losses associated with credit risk is set based on the risk levels of the transactions established by the aforementioned Resolution.

Credit operations and other operations with credit granting characteristics can be demonstrated as follows:

a. Loan operations

i. By loan type

Type of credit	Bank				Consolidated			
	12/31/22		12/31/21		12/31/22		12/31/21

- (i) Refers to amounts payable for the acquisition of investments (substantially Banco Pan S.A.).
(ii) Refers mainly to amounts payable between group companies.

17. Contingent assets and liabilities and legal obligations

The Bank's Management assesses the existing contingencies due to legal proceedings filed against the companies of the BTG Pactual Group, and make a provision, whenever considered appropriate, to cover probable losses arising from these legal proceedings. The Management's judgment considers the opinion of their external and internal lawyers about the expectation of success for each proceeding.

a. Contingent liabilities classified as probable losses and legal obligations

i. Labor Provisions

Are made up of lawsuits from former employees, consisting mainly of requests for overtime and equal pay. The amounts for contingencies are provisioned based on an analysis of the potential loss amount, considering, but not limited to, the current stage of the process and the opinion of external and internal legal advisors.

ii. Civil provisions

In civil lawsuits with potential for loss (moral and property damages and other lawsuits with convictions) the amounts for contingencies are provisioned based on the opinion of external and internal legal advisors.

iii. Tax and social security provisions

Provisions for tax and social security proceedings result from legal and administrative proceedings for federal, state, and municipal taxes and comprise of alleged legal obligations and contingent liabilities. Its constitution is based on the opinion of external and internal legal advisors, considering the level in which each of the proceedings is located.

b. Composition and movement of the provisions

The Bank's Management is challenging the constitutionality of some tax procedures related to federal taxes, as well as participating in other legal, tax and civil proceedings. The Bank's Management, based on the opinion of legal advisors, for the legal proceedings in progress, considers that the provisions for the risk of losses as of December 31, 2022, are adequate to cover any payments.

The provisions recognized and the respective transactions can be demonstrated as follows in the year on December 31, 2022 and 2021:

Bank	12/31/22				12/31/21
	Tax	Civil	Labor	Total	Total
Balance at the beginning of the year	1,092,416	25,309	34,749	1,152,474	1,110,654
Constitution / Reversal	76,596	6,254	2,425	85,275	37,952
Remand	(3,553)	-	-	(3,553)	-
Balance at the end of the year	1,165,459	31,563	37,174	1,234,196	1,148,606
Consolidated	12/31/22				12/31/21
	Tax	Civil	Labor	Total	Total
Balance at the beginning of the year	1,335,921	385,331	148,975	1,870,227	1,776,482

(in thousands of Reais, except if otherwise indicated)

i. Taxes with suspended enforceability and other tax liabilities

The Bank has been challenging in court the legality of certain taxes and contributions. The amounts relating to legal obligations and contingencies assessed by internal and external lawyers as probable losses are provisioned in the amount that Management deems appropriate to cover future losses. Among the aforementioned legal discussions, we highlight the process involving the legality of the charging COFINS in accordance with the rules established by Law 9718/98.

As of December 31, 2022, the Bank was party to tax proceedings with a possible outcome, which are not provisioned. The following is a description of the significant processes.

- Proceedings related to the payment of Share of Profit and Results (PLR), in which the alleged levy of social security contribution on the amounts regarding its interest and its deductibility from the IRPJ (Corporate Income Tax) and CSLL (Social Contribution on Net Income) calculation basis is being discussed. The amount involved is BRL 1,187 million. Part of this amount is guaranteed by an indemnity clause, as it refers to the period prior to the acquisition of the Bank by the current controllers.
- Process related to the demutualization and the IPO of Bovespa and of BM&F, in which the taxation of PIS (Social Integration Program) and Cofins (Contribution to Social Security Financing) on income earned on the sale of shares of said companies is being discussed. The amount involved is BRL 73 million and is also guaranteed by an indemnity clause, as it refers to the period prior to the acquisition of the Bank by the current controllers.
- In December 2015, a tax deficiency notice was received in the amount of BRL 2,022 million, referring to the years 2010 and 2011, in which the tax interest considered the use of goodwill generated in the Bank's acquisition operations by UBS, carried out in 2006, improper, as in the Bank's buyback by BTG, in 2009. A defense against this notice was presented by the Administrative Council of Tax Appeals of the Brazilian Federal Revenue Service (CARF), which was judged partially favorable to reduce the amount of the tax deficiency notice by BRL 278 million. Against the unfavorable party, the Bank also appealed to CARF, which, in February 2019, was granted for the use of the goodwill generated in the acquisition transaction of the Bank by UBS. Appeals were filed against that decision by PGFN and the Bank.
- In December 2017, a tax deficiency notice was received in the amount of BRL 993 million, referring to 2012, in which the use of the goodwill generated in the Bank's acquisition operations by UBS carried out in 2006, the goodwill referring to the Bank's repurchase by BTG in 2009 and the goodwill generated in the private subscription of shares carried out by investors through Copa Prince Company, in 2011. In October 2019, the second administrative instance ruled partially upheld to recognize the goodwill generated in the private subscription of shares carried out by investors by means of the Copa Prince Company. Appeals were filed against that decision by the Bank and PGFN. In December 2018, a tax deficiency notice amounting to BRL 503 million was received regarding 2013. A defense was filed against this notice, which is awaiting a decision by the second administrative instance. Finally, in February 2019, a tax deficiency notice was received in the amount of BRL 303 million, referring to 2014. A defense was presented against this action, which is awaiting judgment at the second administrative instance. The Bank does not expect to incur any loss (other than resource expenses) related to the tax deficiency notice and has not established (and does not expect to establish) any provision in its financial statements. In addition to the assessment as to the invalidity of the tax deficiency notice, should the Bank incur losses, Management believes it has the right to be indemnified by its parent company for part of these losses. Hence, in no event does BTG Pactual expect to incur any material loss related to this matter.
- In December 2017, the Bank received a tax deficiency notice discussing an alleged insufficient payment of PIS (Social Integration Program) and COFINS (Contribution to Social Security Financing) and imposing an isolated fine, referring to 2012, in the amount of BRL 222 million. An administrative appeal was filed against the notice, which was partially granted to exclude the isolated fine. Against the unfavorable part of the decision, an appeal was filed at the second administrative instance.
- In December 2017, as joint and several responsible for Banco Pan S.A., the Bank received a IRRF tax deficiency notice allegedly due to the sale of an investment in Brazil by a foreign entity, referring to the year 2012, in the amount of BRL 85 million. An administrative appeal was filed against the notice, which is awaiting judgment at the second administrative instance.
- In December 2017, the Bank received a tax deficiency notice seeking to collect Income Tax on the alleged capital gain in the merger of companies, when One Properties was incorporated by BR Properties, in the amount of BRL 1,247 million. An administrative appeal was filed against the notice, which is awaiting judgment at the second administrative instance.
- In December 2018, the Bank was aware of the non-approval of the offsetting of the negative balance of IRPJ (Corporate Income Tax), referring to 2013, in the amount of BRL 78 million. In June 2019, an unfavorable decision

Complete Financial Statements

Banco BTG Pactual S.A.

(in thousands of Reais, except if otherwise indicated)

was rendered at the administrative trial court. An appeal was filed against this decision, which is awaiting judgment at the second administrative instance. In March 2019, the Bank was aware of the non-approval of the offsetting of negative CSLL balance, for the same year, in the amount of BRL 74 million. In August 2019, an unfavorable decision was rendered to the Bank at the administrative trial court. Against this decision, an appeal was filed in the second administrative instance.

- In September 2019, as jointly and severally liable for Banco Sistema, the Bank received a tax deficiency notice aimed at collecting IRPJ (Corporate Income Tax), CSLL (Social Contribution on Net Income), PIS (Social Integration Program), and COFINS (Contribution to Social Security Financing), totaling BRL3,940 million, referring to the acquisition of Banco Bamerindus do Brasil (currently Banco Sistema) in 2014. In October 2019, a defense was presented at the administrative trial court that, in April 2020, was partially granted, reducing assessment amount by 98%. Against the unfavorable part of the decision, an appeal was filed at the second administrative instance. Due to the prognosis given by the lawyers, the Bank did not constitute any provision in its standalone financial statements. In addition, the Management does not expect to incur any loss related to the topic.
- In March 2020, the Bank received a tax deficiency notice aiming at the collection of IRPJ (Corporate Income Tax), CSLL (Social Contribution on Net Income), PIS (Social Integration Program) and COFINS (Contribution to Social Security Financing) on the capital gain on the sale of shares of Rede D'or, in 2015, in the amount of BRL 654 million. In September 2020, an unfavorable decision was issued at the administrative trial court. Against this decision, an appeal was filed in the second administrative instance.
- In July 2021, as jointly and severally liable, the Bank received an IRRF tax deficiency notice allegedly due on the income distributed to investment fund unitholders, in the amount of BRL 388 million. An administrative appeal was filed against the notice, which is awaiting judgment.
- In December 2021, the Bank received a tax deficiency notice aimed at charging IRPJ/CSLL, in the amount of BRL 106 million, resulting from an alleged formal error in filling out its ECF in 2016. An administrative appeal was filed against the notice, which is awaiting judgment.
- In December 2018, Gestora de Recursos, an indirect subsidiary of the Bank, received a tax assessment notice totaling BRL 108 million, referring to the years 2013 and 2014, regarding the amortized goodwill generated in the acquisition of BFRE in 2012. In September 2019, an unfavorable lower court decision was rendered. Against this decision, an appeal was filed to the second administrative instance.
- In December 2021, Banco Sistema received a tax deficiency notice of PIS/COFINS, in the amount of BRL135 million, allegedly levied on operating revenues for the period from 2007 to 2009. An administrative appeal was filed against the notice, which is awaiting judgment. If applicable only in the analysis of the consolidated scenario.
- INSS on Profit Sharing or Results (PLR) and Workers' Food Program (Programa de Alimentação do Trabalhador) (PAT) – Incidence of social security contributions on PLR and PAT, for the civil years of 2012, 2013, 2016, and 2017. The amounts related to this processes amounted, approximately, to BRL 136 million.
- Offsets not approved - Rejection of requests for offsetting of IRPJ, CSLL, PIS, COFINS, resulting from overpayments or undue payments. The amounts related to these processes amounted, approximately, to BRL 255 million.
- IRPJ/CSLL – Deductibility of Losses in Credit Operations and other operating expenses, referring to the calendar years from 2007 to 2016 of Banco Pan. The amounts related to these lawsuits total approximately BRL 970 million.
- PIS/COFINS – Deductibility of commission expenses paid to banking correspondents and losses on sale or transfer of financial assets, referring to the 2017 calendar year of Banco Pan. The amount related to this process totals approximately BRL 240 million.

ii. Other contingent liabilities

In the years ended on December 31, 2022 and 2021, the Bank was a party to civil, labor proceedings, and other contingencies, with the probability of possible success, which is why they are not provisioned.

(i) Banco Pan S.A. has a tax credit balance of R\$3.2 billion of current recognitions based on a study of the scenario and approved by Management.

The deferred tax assets line item has tax credits, which refer to deferred PIS and COFINS in the amount of BRL 150,182 in Bank and BRL 151,244 in consolidated (December 31, 2021 - BRL288,899 in bank and BRL 304,451 in consolidated).

The Bank has deferred tax obligations in the amount of BRL 2,528 and BRL 694,187 in consolidated (December 31, 2021 - BRL 1.256 and BRL 176,862 in consolidated).

On March 1, 2021, Provisional Presidential Decree No. 1034 was approved, whereby new CSLL tax rates have become effective. In this MP, the tax rate of 25% was established for banking companies until December 31, 2021, and 20% as of January 1, 2022. For the other financial institutions, the rate of 20% was foreseen until December 31, 2021, returning to 15% as of 2022. The effects of this increase on the financial statements for the financial year 2021 were irrelevant.

On April 28, 2022, Provisional Measure No. 1,115 was published, which established new CSLL rates for financial and similar institutions for the period between August 1, 2022 and December 31, 2022. Specifically, the MP increased to 21% the CSLL rate applicable to banks in the period in question, such rate being reduced again to 20% as of January 1, 2023. For other financial and similar institutions, according to applicable legislation, the CSLL rate was increased to 16% between August 1, 2022 and December 31, 2022, being reduced to 15% from January 1, 2023. The effects of this increase on the financial statements for the financial year 2021 were irrelevant.

19. Equity

a. Capital stock and capital reserve

On December 31, 2022, the capital stock, fully subscribed and paid-in, consists of 11,506,119,928 shares (December 31, 2021 - 11,506,119,928), of which 7,244,165,568 are common shares (December 31, 2021 - 7,244,165,568), 2,864,529,000 are class A preferred shares (December 31, 2021 - 2,864,529,000), and 1,397,425,360 are class B preferred shares (December 31, 2021 - 1,397,425,360), all registered and without par value.

At a special general meeting held on November 4, 2021, the capital increase due to the merger of Holding Universa was approved, in the amount of BRL 250,000, upon the issuance of 29,134,704 new shares, of which 9,711,568 are common shares, and 19,423,136 are class A preferred shares, all book-entry shares without par value issued by the Company, represented by 9,711,569 certificates securities (units) issued by BTG.

As described in note 2, on May 28, 2021, the Bank carried out a primary public offering with restricted efforts to distribute 24,402,000 Units, comprising 24,402,000 common shares and 48,804,000 preferred shares.

As described in note 2, on January 13, 2021, the Bank carried out a primary public offering with restricted efforts to distribute 27,777,778 Units, comprising 27,777,778 common shares and 55,555,556 preferred shares.

The common shares entitle one opinion to such holders in the resolutions of the General Meeting, and shall take part in the profit distribution under the same conditions as Class A preferred shares and Class B preferred shares.

Holders of Class A and B preferred shares will not have the right to vote, but will have priority in the repayment of capital, without premium, and will participate, on equal terms with the common shares, in the distribution of profits.

Class A preferred shares entitle their holders to be included in a public offering for acquisition as a result of the possible sale of control of the Bank, and they are also guaranteed to receive an amount per share equal to at least 80% (eighty percent) of the amount paid per common share of the controlling group.

The Class B preferred shares shall be convertible into common shares, by means of a simple request in writing by its holder or by the Bank, without the need of a resolution and shareholders or board meeting, provided that (i) such conversion occurs upon the issuance of new shares by the Bank, within the limit of the authorized capital or otherwise (unless the shareholder wishing to convert is BTG Pactual Holding S.A.) (ii) after the conversion, BTG Pactual Holding S.A. (or the company that succeeds it on any account, including through merger, consolidation, spin-off or any type of corporate reorganization) continues to hold, directly or indirectly, more than 50% of the common shares issued by the Bank, and (iii) the shareholders' agreement shall be always observed; Such shares shall be convertible into class A preferred shares, upon request of its

Banco BTG Pactual S.A.

(in thousands of Reais, except if otherwise indicated)

holder, provided that (i) the Bank is a publicly held company, with its shares listed on a stock exchange, and (ii) the provisions of the Shareholders' Agreement are always complied with..

b. Treasury shares

In the year ended on December 31, 2022, the Bank repurchased units in the amount of BRL 231,252, equivalent to 10,000,000 units (on December 31, 2021, the Bank did not have treasury shares).

c. Legal reserve

Created on a semiannual basis at the rate of 5% of the net profit for the semester/fiscal year, before any other allocation, limited to 20% of the capital stock.

d. Statutory reserve

The purpose of this reserve, according to the Articles, is to maintain working capital, and its amount is limited to the capital stock.

e. Unrealized profit reserve

Created due to non-allocation of profit and loss assessed in the agency abroad.

f. Profit distribution

Shareholders are entitled to minimum dividends at the limit of 1% of the net profit for the fiscal year adjusted pursuant to Article 202 of Law No. 6.404/76.

During the year ended December 31, 2022, the Bank resolved on the following amounts relating to interest on equity:

(i) BRL 1,200,000, equivalent to BRL 0.10 per share. Such amount and its respective destination were approved by the Board of Directors on August 1, 2022 and were paid on August 15, 2022.

(ii) BRL 750,000, equivalent to BRL 0.07 per share. Such amount and its respective destination were approved by the Board of Directors on December 13, 2022 to be paid on February 15, 2023.

(iii) BRL 565,000, equivalent to BRL 0.05 per share. Such amount and its respective destination were approved by the Board of Directors on December 29, 2022 to be paid on February 15, 2023.

Referring to the year ended on December 31, 2021, the Bank resolved on the following amounts relating to interest on equity:

(i) BRL 650,000, equivalent to BRL0.06 per share. Such amount and its respective destination were approved by the Board of Directors on July 2, 2021 and were paid on February 12, 2021.

(ii) BRL 260,000, equivalent to BRL0.02 per share. Such amount and its respective destination were approved by the Board of Directors on December 15, 2021, and were paid on January 6, 2022.

(iii) BRL 565,000, equivalent to BRL0.05 per share. Such amount and its respective destination were approved by the Board of Directors on December 30, 2021, and were paid on January 6, 2022.

g. Reconciliation of Net Income and Equity

	Equity (i)		Net profit	
	12/31/22	12/31/21	12/31/22	12/31/21
Banco BTG Pactual S.A.	42,371,767	37,379,747	7,841,837	6,294,477
Others (i)	-	-	-	47,677
Banco BTG Pactual S.A. Consolidated	42,371,767	37,379,747	7,841,837	6,342,154

(i) For the year ended December 31, 2021, the difference in the net income of Standalone and Consolidated are substantially from the impacts arising from the exchange rate variation on investments abroad and the hedge accounting of these investments. During the year 2022, the net investment hedge accounting was also applied to the Standalone financial statements, so in the year ended December 31, 2022, there are no differences between the standalone and consolidated results.

Recurring and non-recurring incomes and expenses

According to BCB resolution n° 2/2020, we present our non-recurring expenses as follows:

- BRL 294 million related to goodwill amortization, net from tax.

27. Subsequent events

In January 2023 a counterparty disclosed a material fact exposing accounting inconsistencies in their balance sheet that led to a revaluation of its credit risk. Thereby, there has been an increase of credit loss provision in accordance with respective risk level deterioration in our financial statements of December 31, 2022.
