Message from the CEO

Lojas Renner's third quarter results demonstrate that our business model evolution, and the relevant initiatives we have put in place to date, are unlocking our Company's potential. 13% improvement in third quarter apparel sales, almost double the market average, combined with a 1.1 percentage point gross margin increase is clear evidence. SG&A leverage improved by two percentage points and we delivered R\$255 million in net income with R\$412 million in free cash flow generation for the third quarter 2024.

With the use of artificial intelligence, we quickly and accurately capture trends, through a shortened product development cycle and improved supply chain productivity and efficiency. Our omni fulfillment model and the end-to-end, 100% SKU-based operational system is already supporting a more granular, responsive and precise operation resulting in store fulfillment lead times at record low levels. This strong fashion execution driven by our evolved fulfillment model, accelerated apparel sales during the quarter – our collection saw excellent sell-through, which resulted in yet another quarter of increases in transactions and pieces sold.

Renner's increasingly attractive value proposition, together with an improving omnichannel experience, resulted in higher NPS scores and a still expanding base of active customers. An enhanced customer journey was reflected in an 11.6% increase in sales per square meter. We also continue making substantial progress with digital penetration, which increased by 1.4 percentage points, with digital GMV increasing 24% during the third quarter 2024.

And we're pleased to note continued positive signs of evolution at our Realize financial services business, which delivered its fourth consecutive quarter of positive operational results, with EBITDA increasing R\$24 million sequentially to R\$58 million, or 10% of our total Adjusted EBITDA. The health of our credit portfolio also continued improving during the quarter, reflected in improved origination with benefit of the sophisticated credit and collection models that we have implemented. These will continue to enhance Realize's risk profile and its relevance as a driving force behind retailing.

We're pleased that we have delivered on our commitment to accelerate growth and profitability, while improving returns (LTM ROIC of 12.7%, +2.9pp). We finished the most significant investment period in our Company's history to evolve our business model and have entered its next phase, a renewed cycle of growth and profitability without the need for substantial infrastructure investments. The flexibility, precision and agility of the model will continue to drive further gradual traction in the final quarter of 2024 and for the future ahead, with sustained growth, profitability and cash generation aligned with our focus on remaining a benchmark in fashion and lifestyle, providing enchanting experiences, and always led by engaged teams and our strong underlying "responsible fashion" principles and values.

- The quarter was marked by robust sales performance at all business units, reflecting the success of the Company's business model evolution in unlocking greater operational flexibility and agility.
- Renner's enhanced ability to leverage data to capture trends and produce collections more quickly and precisely, also while benefitting from improved supply chain integration, drove strong spring-summer collection sales during the quarter, particularly in the women's fashion, accessories and children's categories, which was also reflected during the Father's Day period. Improved fashion execution, continued product and price equation evolution and a strengthened brand positioning drove the increased volume of pieces sold, transactions and in-store customer traffic.
- Regarding content creation, Renner's organic engagement on Instagram increased by 35% on a sequential basis, reflecting sustained sequential growth since IQ23. Regarding influence marketing, the collection launch saw significant influencer participation, with a 12% year on year increase in influencer impression volume. Collab posts between creators and Renner were also a highlight in the period.
- 3Q23 sales also benefited from the continued evolution of the S\u00e3o Paulo Distribution Center, which began the quarter with stabilized operations and reached record levels of store fulfillment lead time, with 100% SKU replenishment.
- The Company also expanded its customer base, enhancing loyalty and increasing omnichannel customer participation. This reflects the continued success of initiatives integrating the physical and digital channels, providing a more fluid, convenient and enchanting shopping experience. The Company also made important progress related to digitalization, leveraging RFID technology with self-service checkouts in approximately 250 Renner stores. This increased the finalization of purchases, also with reduced checkout lines, which favorably impacted Renner's sales per sq meter during the quarter. Improved customer satisfaction was also reflected in the Company's NPS ratio for the quarter.
- Finally, revenue from apparel sales in Brazil increased by a significant 13%, year-on-year. This was nearly double the market average, based on figures through the end of August (PMC-IBGE/Monthly Retailing Survey).

Retailing Net Revenue (continuation)

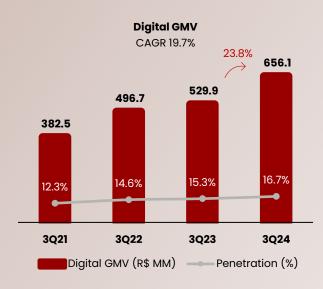

- Camicado sales grew significantly, with an important 18% year on year increase in sales/sq meter due to an increase in transactions as well as items per shopping bag. This was a reflection of the evolution of this business's commercial and operational management, primarily in digital, as well as marketing actions occurred during the period. Camicado's Home & Style brand line achieved a record percentage share of total sales, translating into a
- Youcom sales increased significantly during the quarter, driven by strong sales of transitional collection and
 outstanding operational execution, also a reflection of the brand's increased target audience engagement. The
 Youcom customer base increased significantly relative to 3Q23, particularly within the omni customer base, a result
 of successful integration of the brand's physical and digital channels.

differentiated product offering, with an increase in the active omni customer base and an improved NPS.

DIGITAL SALES

- Digital GMV increased year-on-year with a greater share of total sales and improved profitability. This is largely the result of initiatives evolving shopping experience to a more personalized and fluid journey, also one more integrated with brick-and-mortar stores.
- The Renner app continued to be Brazil's industry leader in installed customer base, downloads and MAU among the local fashion players, according to App Annie.

- Gross margin from retailing increased for the fourth consecutive quarter, primarily due to Company's business model evolution. This improvement was largely the reflection of more agile and flexible fashion execution with a more significant component of the collection developed and produced in-season.
- This resulted in a well-calibrated and healthy inventory, with a 13-day decrease in average inventory and increased turnover as well as a significant decrease in older inventory.
- Camicado delivered a record third quarter gross margin due to the greater share of private label Home & Style
 product sales resulting in enhanced competitiveness, also with benefit of efficient inventory management and fewer
 markdowns during the quarter.
- Finally, increased Youcom margin reflects successful commercial management and inventory evolution.

¹ Includes Tax Credits Recovery

- The percentage of Sales, General and Administrative Expenses relative to Net Revenue from Retailing reflected continued expense control as well as dilution with increased sales volume for the quarter despite increased expenditures related to the Company's SP DC. The digital channel remained efficient, with expenses as a percentage of online revenue similar to that of Renner's brick-and-mortar operations.
- Other Operating Results decreased due to an increased contribution to the Company's Profit Sharing Program.

PAYMENT CONDITIONS

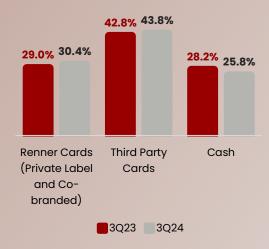

- 3Q24 results underscored Realize's relevance as a driving force behind retailing.
- The financial institution closed the quarter with an active customer base of 4.7 million, unchanged from 2Q24, reflecting gradual and selective resumption of credit approval. Total customers decreased from 5.2 million due to credit policy adjustments resulting in an expected churn to address delinquency which affected the entire market.
- Proprietary card participation in retail sales increased yearon-year, driven by higher usage among active customers and the reactivation of inactive ones. This reflected, among other factors, the favorable impact of the Cashback Program rolled out in the second quarter 2024 and also a 10p.p. increase in approval rates compared with 3Q23.
- Realize continued its gradual selective credit concession recovery, that started in March 2024, improving policies and processes to ensure enhanced with reduced risk.

CREDIT PORTFOLIO

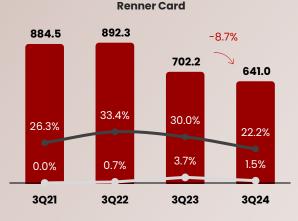

- The total credit portfolio decreased year on year with a significant 25% reduction of the past due portfolio, mainly in the over 90 segment. This was due to restrictive actions taken over recent quarters to improve credit quality and overall portfolio collection efficiency. The outstanding balance increased by 8% compared with 2023.
- The participation of past dues more than 90 days decreased by a significant 5.5p.p. year on year, and by 1.2p.p. sequentially relative to 2Q24 (5.5p.p. and 1.3 p.p. respectively, for the IFRS 9 model), mainly due to a lower balance of past dues above nominal 90 days (NPL90 formation).
- Finally, total coverage reached 16.3%, a 4.7p.p. year on year decrease due to the improved quality of receivables.
 Coverage for NPL90 increased to 100.2% from 96.4% on the same comparative basis (from 97.6% to 102.1% for the IFRS 9 model).

FINANCIAL SERVICES RESULT

- Results for Renner's financial services business showed significant signs of recovery; which was positive for the fourth consecutive quarter.
- Revenues in the quarter reduced, reflecting a portfolio with an improved credit risk profile, particularly in the short-term overdue segments (1 to 60 days), which decreased 20%. However, services revenue rose 12% versus 3Q23, the result of higher TPV for Renner's proprietary credit cards, at R\$ 4.7 billion, a 9.3% increase relative to 3Q23. The number of recurring Meu Cartão customers rose by 8.2% compared to 3Q23.
- Net losses decreased considerably year on year, due to the above measures, resulting in lower loss provisions in the past due portfolio. The efficiency of collection also contributed to greater credit recovery in the 3Q24.
- Operating expenses therefore increased, primarily due to increased provisioning for the employee profitsharing program.

- Total Investments decreased in the quarter, notably those related to systems and IT, in line with a decreased need for structural investments in the year.
- The reduction in total new stores was due to fewer openings, due to standalone stores can take longer to prospect, build and obtain the necessary permits for operation versus mall-based units.
- Regarding store remodels, the Company has prioritized certain units, such as the stores in the Barra and Leblon shopping centers in Rio de Janeiro. During this period, the stores are closed, resulting in a temporary decreased sales, which is more than offset by the store reopening.
- 3Q24 Depreciation and Amortization of fixed and intangible assets amounted to R\$ 173.9 million, a 19.0% increase versus 3Q23, due to increased fixed assets. Depreciation of Right of Use Assets (IFRS 16) totalled R\$ 122.3 million, a 3.6% increase year on year.

Sustainability

- The Company is guided by its focus on providing an increasingly sustainable and responsible fashion and
 lifestyle ecosystem, guided by its value of sustainability, to ensure fairness, environmental accountability and
 responsibility in fashion. Renner therefore remains focused on reducing the overall environmental impacts of
 its business through eco-efficient operations and responsible products and services. In 3Q24, the following
 was achieved in sustainability:
- In August the early adoption of the IFRS S1 and S2 standards was announced, concerning financial information
 on sustainability and climate-related risks and opportunities, reinforcing its commitment to transparency in its
 disclosures.
- Lojas Renner organized in September an Innovation and Sustainability Fair, promoting innovation and sustainability – themes which are core to the value chain strategy. The fair was attended by approximately 250 people from all over Brazil, including suppliers in the apparel sector, start-ups, employees and strategic partners.
- Decarbonization journey: Lojas Renner S.A. is the only retailer in Brazil with a Net Zero target and a revised short-term target, approved by the Science-Based Targets initiative (SBTi).
- The Company launched its Climate Adaptation Guide, the first of its kind in Brazil, as well as the Company's Circular Fashion Guide for the supply chain and the overall market. Both can be found via the following links (portuguese only):
 - Climate Risk Guide

2. HIGHLIGHTS

Below, management discusses the important matters in these interim financial statements:

IOE distribution

We decided to distribute R\$ 161,354 as interest on equity to be attributed to the mandatory dividend for the year of 2024. Note 27.1.

Payment of dividends

Lojas Renner Uruguay and Dromegon distributed dividends to Parent Company. Note 12.3.

3. BASIS OF PREPARATION AND PRESENTATION OF INTERIM FINANCIAL STATEMENTS

3.1 Statement of compliance

The individual and consolidated interim financial statements for the period ended September 30, 2024 have been prepared in accordance with CPC 21 (R1) – Interim Financial Statements, issued by the Brazilian Financial Accounting Standards Board (CPC), and with IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), consistently with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of Quarterly Information (ITR), and were approved by the Company management on November 4, 2024.

These interim financial statements were prepared to update the users on significant information presented in the period and should be analyzed together with the financial statements for the year ended December 31, 2023. In preparing these interim financial statements, the Company adopted all the standards, revised standards and interpretations issued by the CPC, IASB and regulatory authorities that were in effect on September 30, 2024.

As such, in order to disclose only information that is significant or that presented significant changes as compared with the annual individual and consolidated financial statements on December 31, 2023, the explanatory notes listed below were not completed or do not present the same level of detail as the notes included in the annual financial statements.

- Cash, cash equivalents and interest-earning bank deposits (Note 7.1);
- Trade accounts receivable (Note 8.5);
- Inventories (Notes 9.1 and 9.2.1);
- Income and social contribution taxes (Note 12.1);
- Investments (Note 13.4);
- Property and equipment and intangible assets (Note 14.1);
- Suppliers (Notes 20.1 and 20.3);
- Reverse factoring (Note 21);
- Provisions for tax, civil and labor risks, and contingent liabilities (Note 24.1, 24.1.1 and 24.1.2);
- Equity (Notes 28.1 and 28.2);
- Dividends and interest on equity (Notes 29.1 and 29,2);

- Stock option plan (Notes 31.1 and 31.2); and
- Restricted share plan (Notes 32.1 and 32.2).

3.2 Statement of relevance

We have applied accounting guidance OCPC 7 and CVM Rule No. 727/2014, complying with the minimum requirements and disclosing only relevant information to help readers in decision making. Therefore, all relevant information used in business management is disclosed in this document.

3.3 Basis of measurement

These financial statements have been prepared on a historical cost basis, except for the measurement of NDF and Swap (Note 23.3), the stock option plan (Note 29), and the restricted share plan (Note 30), which are measured at fair value.

3.4 Functional and presentation currency

The interim financial statements are presented in Brazilian reais (R\$), the Company's functional currency, and the balances were rounded to the nearest thousand, unless otherwise stated. For foreign subsidiaries operating in a stable economic environment and with a functional currency other than the Parent Company's, the statements of profit or loss are translated into Brazilian reais at the average monthly exchange rate. Assets and liabilities are translated at the closing rate. For subsidiaries operating in a hyperinflationary economy, the balances of assets, liabilities and retained earnings/(accumulated losses) are translated at the closing rate. Equity items are held at historical rate in all scenarios.

3.5 Significant accounting judgments, estimates and assumptions

Since the preparation of financial statements requires that management make assumptions and estimates related to the probability of future events that affect the balances of assets and liabilities and other transactions, actual results may differ from these estimates.

Significant accounting estimates that are essential to produce the best possible information on profit or loss and assets and liabilities, even if subjective, complex and inaccurate, have a significant impact on:

| Estimates | Note |
|---|--------------------------------------|
| Expected credit losses | Note 7.3 |
| Estimated inventory losses | Note 8.1.1 |
| Discount rate applied to adjustments to present value | Notes 7.1, 8.1, 9.1, 18.4.1 and 19.1 |
| Realization of deferred income and social contribution taxes | Note 11.3 |
| Impairment Test | Note 15 |
| Provisions for tax, civil and labor contingencies, and contingent liabilities | Note 22 |
| Determination of fair values of derivative financial instruments and stock option plans | Notes 23.2 and 29.2 |

3.6 Accounting policies

The significant accounting policies adopted in preparing the individual and consolidated interim financial statements are consistent with the policies adopted and disclosed in the notes to the financial statements for the year ended December 31, 2023, which were disclosed on March 14, 2024 and should be read together with these statements.

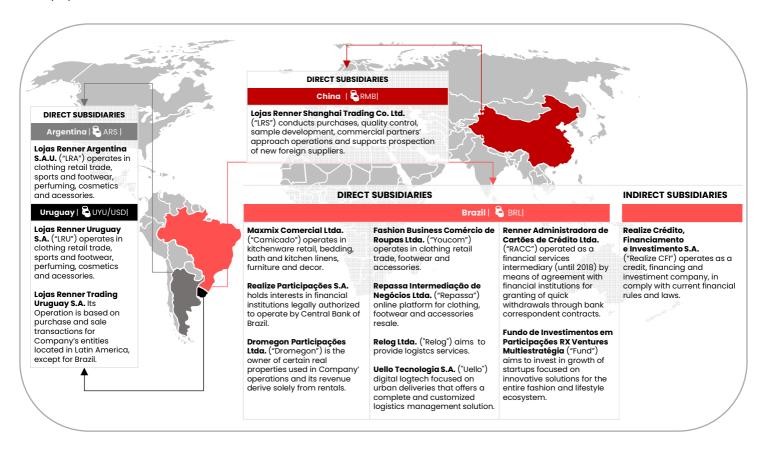

3.7 RX Ventures Fund

On September 30, 2024, the Fund's portfolio had five (5) investees and was not aimed at ownership control, as follows:

4 STANDARDS AND INTERPRETATIONS IN FORCE AND NOT IN FORCE

The standards that took effect as of January 01, 2024 and the standard that will take effect as of January 01, 2027, applicable to the Company's business, are the following:

4.1 Standards in force

4.1.1 Amendments to IAS 1 - Classification of liabilities as current or noncurrent

The purpose of the amendment is to promote consistency in applying the requirements of this standard by helping companies determine whether, in the statement of financial position, borrowings and financing and other liabilities with an uncertain settlement date should be classified as current or noncurrent. We assessed the impacts of the amendment, and the classification and settlement of borrowings and financing reflect contractual conditions. As such, there is no risk of breach of covenants (Note 5.2) as at or after the reporting date.

4.1.2 Amendments to IAS 7 and IFRS 7 - Supplier Financing Arrangements

The purpose of these amendments is to add disclosure requirements, and "sign-posts" within existing disclosure requirements, that ask entities to provide qualitative and quantitative information about supplier financing arrangements. We assessed assessed the impacts of the amendment and enhanced the disclosure requirements in 2023. We emphasize that on September 30, 2024, the Company will no longer engage in this type of operation.

4.1.3 Amendments to IFRS 16 - Leases

This amendment aims at clarifying how a lessee measures and reallocates real property sale transactions in order to fulfill the accounting requirements set out in IFRS 15. We assessed this standard and conclude that the Company is not subject to impacts therefrom since Renner conducts no operations of this nature.

4.1.4 CVM Ruling No. 197/2023 - International Tax Reform Pillar Two Model Rules

The Company reports that none of the jurisdictions in which it currently operates (Argentina, China, and Uruguay) has initiated any legislative change with a view to incorporating the Pillar Two Model Rules, published by the Organization for Economic Cooperation and Development ("OECD").

4.2 Standards not in force

4.2.1 IFRS SI – General requirements for disclosure of sustainability-related financial information

In compliance with CVM Rule No. 193/2023, this standard requires that entities disclose information about their sustainability-related risks and opportunities that is useful to primary users of general purpose financial reports in making decisions relating to providing resources to these entities. The Company will early adopt IFRS S1, considering adoption reliefs in accordance with Resolution as announced to the market on August 22, 2024.

4.2.2 IFRS S2 - Climate-related disclosures

In compliance with CVM Rule No. 193/2023, this standard establishes the requirements for identifying, measuring, and disclosing information about climate-related risks and opportunities that is useful to primary users of general purpose financial reports in making decisions relating to providing resources to the entity. The Company will early adopt IFRS S2, considering adoption reliefs in accordance with Resolution as announced to the market on August 22, 2024.

4.2.3 Amendment CPC 02 (R2)/IAS 21 - Effects of Changes in Foreign Exchange Rates and Translation of Financial Statements Subsidiaries without Public Liability

The changes implemented will require companies to apply a consistent approach when assessing whether a currency can be exchanged for another currency and, when it cannot, to determine the exchange rate to be used and the disclosures to be provided.

The amendments will come into force from January 1, 2025 and we are assessing the impacts of the amendment.

4.2.4 Amendment CPC No. 18 (R3)/IAS 28 - Investment in Associates and Joint Ventures

CVM Resolution 211 incorporated into the text of CPC 18 (R3)/IAS 28 the use of the equity method (MEP) to measure investments in controlled entities in the Individual Statements. The use of the MEP to measure these investments is determined by Law 6404/76 and, as it relates to the Individual Statements, was not matched by the standards issued by the IASB.

The Resolution will come into force on January 1, 2025, and we have assessed and have no impact, as we currently apply the MEP method to measure the Company's investments.

4.2.5 ICPC 09 (R3) - Individual Accounting Statements, Separate Statements, Consolidated Statements and Application of the Equity Method

CVM Resolution 212 made some wording and reference corrections to ICPC 09 with the aim of aligning the wording of this standard with that of CPC 18 (R3), in order to adjust it to updates subsequent to its issuance and currently observed in documents issued by the CPC.

The Resolution will come into force on January 1, 2025, and will have no impact on the Company.

4.2.6 Amendments to IFRS 7 and IFRS 9 - Classification and Measurement of Financial Instruments

The amendments will address diversity in accounting practices and thus make the requirements more understandable and coherent. These include:

- i) Classification of financial assets with similar ESG and characteristics;
- ii) Settlement of liabilities through electronic payment systems.

With these changes, the IASB has also introduced additional disclosure requirements to increase transparency. The changes will come into effect from January 1, 2026 and we are evaluating the impacts of the amendments.

4.2.7 IFRS 18 – Presentation and Disclosure of Financial Statements

This standard is aimed at promoting consistency in the presentation and disclosure of financial statements, providing investors with a better base for analyzing and comparing the entities' performance. The main changes brought are as follows:

- i) New categories and subtotals in the statement of income: operating activities, investments and financing;
- ii) Disclosure of non-GAAP (EBITDA) metrics in the explanatory notes; and
- iii) Presentation of operating expenses by nature.

This standard will come into effect on January 01, 2027 and the Company is assessing the impacts therefrom.

4.2.8 IFRS 19 - Subsidiaries without Public Accountability

This standard allows subsidiaries that do not have public accountability - and if their ultimate controlling entity prepares consolidated financial statements in accordance with IFRS - to apply reduced disclosure requirements under the international financial reporting standards in the preparation of their financial statements. IFRS 19 is optional for eligible subsidiaries.

This standard will come into effect on January 01, 2027 and the Company is assessing the impacts therefrom.

5 RISK MANAGEMENT

A multidisciplinary structure manages the Company's risks and enables the Executive Board to assess the alignment of business management with the policies and guidelines defined by management. In April 2012, the Board of Directors created the Audit and Risk Management Committee, which identifies and monitors the main risk factors to which the Company is exposed in the normal course of operations:

- i) Market risk (including interest rate risk (Note 5.1.1) and currency risk (Note 23.4));
- ii) Credit risk (Notes 6.3, 7.5 and 23.5);
- iii) Liquidity risk; and
- iv) Capital management.

We applied the requirements of CPC 40 (R1)/IFRS 7 and considered the guidance of CVM SNC/SEP Memorandum Circular No. 01/202 on the qualitative and quantitative aspects of risk management.

A description of main risks involved is provided below.

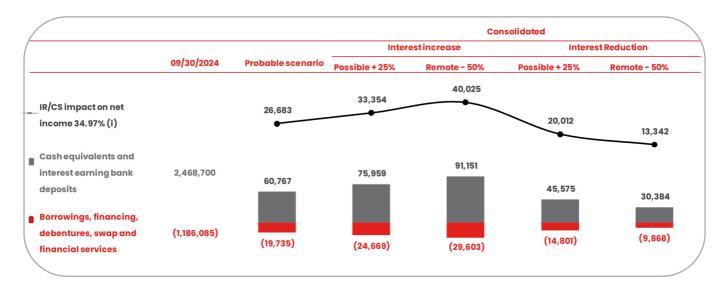

5.1 Market risk

5.1.1 Interest rate risk

This risk arises from cash equivalent transactions, interest-earning bank deposits, financing of financial services operations, debentures, borrowings and swap. The Company's policy is to keep 100% of its borrowings in the fixed rate market, with funding repayment at fixed rates, and adjusted for Interbank Deposit Certificates (CDI) and Central Bank Benchmark Rate (Selic). Since financial assets are pegged to the CDI and receivables are realizable in the short-term, restated at fixed interest rates, the risk level associated with interest rate fluctuation is relatively low.

We continuously analyze interest risk exposure, by comparing the contractual rates to market rates, simulating refinancing, position renewal and natural *hedge* scenarios, defining a reasonable change in the interest rate and calculating the impact on profit or loss.

on September 30, 2024, we conducted sensitivity tests for adverse scenarios of interest, considering the expected scenario for the next CDI and Selic interest rate disclosure of 10.69% p.a., based on B3 futures market projections. Yield from cash equivalents and interest-earning bank deposits are net of PIS and COFINS. Below are the estimated impacts for the next quarter.

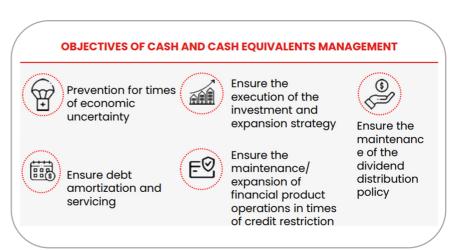

(i) Rate obtained by applying nominal rates weighted by the parent company's and its subsidiaries' balances.

5.2 Liquidity risk

We manage cash and cash equivalents by establishing a minimum strategic cash amount, based on the cash cycle of retail operations, as well as on the minimum capital required to guarantee the credit operations, ensuring sufficient cash to meet Company requirements and business plans:

Management continuously monitors the forecasts of liquidity requirements considering the debt financing plans, and monitor, on a quarterly basis, the financial and non-financial ratios provided for in loan agreements, based on the last 12 months, and confirms that the Company is compliant with the contractual assumptions. The ratios monitored by the Company are the following:

| Financials Control of the Control of | | | | | | | | | |

5.3 Capital management

In addition to equity, we use third-party capital to finance its activities, thereby optimizing its capital structure. Cash and net indebtedness reflect total exposure of the obligations payable to the financial system and capital market, therefore not including liabilities relating to leases payable.

Indebtedness levels are monitored in relation to the Company's cash generation capacity and capital structure.

- (ii) Fund of one Brasil Plural Retail FI is fixed-income private credit fund managed by Plural Gestão and administered by BNY Mellon Serviços Financeiros DTVM S.A., organized for the sole purpose of holding interests of the parent company. The fund's financial investment was fully included in these interim financial statements, pursuant to CVM Ruling 2/20. Other obligations relating to this fund substantially refer to administrative fees for portfolio maintenance. Earnings recognized reflect the daily marking of the fund's position and its assets have liquidity in a secondary market.

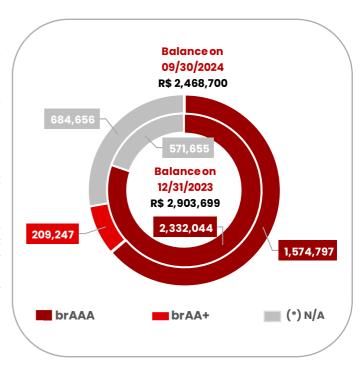

6.3 Credit risk

According to the Company's financial policy, cash equivalents and interest-earning bank deposits are invested in financial institutions with long-term national scale rating of low credit risk and that are known for their soundness.

The *ratings* of cash equivalents and interest-earning bank deposits are in accordance with the main risk rating agencies.

Rating agency Standard & Poor's rated the Company credit as brAAA with a stable outlook in the national scale category (Brazil). Next is the credit quality of cash equivalents and interest-earning bank deposits of the Company.

(*) Brasil Plural Investment Fund does not have a credit rating, however, it adopts an investment policy for allocation in low credit risk assets. In September 2024, the portfolio breakdown mainly includes securities with ratings classified as AA+ and AAA. Regarding government securities, although they do not have a risk rating, they are subject to sovereign risk and can therefore be considered equivalent to AAA rating.

7 TRADE ACCOUNTS RECEIVABLE

7.1 Accounting policy

Trade accounts receivable include receivables for the sale of goods, use of the co-branded card ("Meu Cartão") at the network of affiliated stores of the Visa and Mastercard systems and personal loans granted to customers and loans extended to legal entities by indirect subsidiary Realize CFI.

Fixed credit sales were brought to present value at the transaction dates, based on the average rate disclosed on the website of the Central Bank of Brazil for prepaid receivables, which was 1.0% p.m. (1.08% p.m. on December 31, 2023). Present value adjustment is matched against trade accounts receivable and its realization is recorded as sales revenue over time.

7.5 Credit risk

Our sales and credit granting policies aim to minimize problems arising from the default of its customers through a judicious selection of the portfolio, which takes into consideration their ability to pay and diversification of its operations. These policies are subordinated to the credit policies set out by management, supported by advanced technology systems and processes, related to the risk and fraud area.

Receivables mainly derive from retail operations to individuals in a massified way, with individual credit analysis and low average *ticket*, having as characteristic the absolute spread of credit risk and lack of guarantee instruments. The amounts recorded in accounts receivable represent the appropriate size of the Company's exposure to credit risk.

The internal credit risk rating is as follows:

Probability of being more than 60 days overdue:

- Low risk: probability ≤ 9.3%;
- Medium risk: customers holding Renner Credit Card or Meu Cartão for up to 4 months with low historical use for purposes of measuring the likelihood of default;
- Medium to high risk: probability >16.8% and ≤ 31.3%;
- High risk: probability > 31.3%.

Receivables from sales using third-party credit cards are not included in this analysis since these amounts are subject to the risk of default by the card issuer, with no historical losses or expected future losses.

After implementation of the Radio Frequency Identification system (*RFID*), we increased the frequency of inventory counts for all inventories at Lojas Renner physical stores (Brazil, Argentina and Uruguay) and, accordingly, recognizes the effects of inventory losses directly in profit or loss. For Lojas Renner Distribution Centers (DC) in Brazil and Uruguay, cyclic inventory counts are performed on a quarterly basis. An allowance for *E-commerce* estimated losses was recognized based on historical loss, as well as for the other subsidiaries, Camicado and Youcom.

⁽i) ICMS: Refers to, mainly, ICMS selectivity matters, in November 2019, the Brazilian Supreme Court determined that the application of rates higher than those applied to the operations in general of the electricity and telecommunications industries is unconstitutional,

thus allowing the recovery of amounts unduly paid by taxpayers that filed lawsuits until February 5, 2021. A final decision on the limitation of the effects of that ruling was reached on June 30, 2022. Four of the lawsuits on this matter filed by the Company have been granted a final and unappealable decision and the related credits of two of them have already been fully offset. The other lawsuits filed by the Parent Company before that date have not yet been granted a final and unappealable decision. On September 30, 2024, these credits amount to R\$ 36,826 (R\$ 33,733 on December 31, 2023). The remaining balances refer to ICMS recoverable in the normal course of business.

- (ii) ICMS in the PIS/COFINS base: the lawsuits filed by the Company and its subsidiaries on Topic 69 of the STF have already received a final favorable decision. In the individual financial statements, after evaluating a supplementary issue and validating the portion related to ICMS ST, the Company recognized an additional tax credit in 2023, with a restated balance of R\$63,200 as of September 30, 2024, net of offsets already made. In period ended on September 30, we recognize a residual amount of R\$16,700 referring to ICMS ST, with settlement expected by December 2024. In subsidiary Camicado, in 3Q23, the credit related to the same matter was validated and an additional credit related to ICMS ST was also validated in 4Q23 with a restated balance of R\$47,165 as of September 30, 2024, net of offsets already made, with settlement expected by December 2025.
- (iii) Other taxes recoverable: Amounts refers to, mainly, vacation bonuses. In June 2024, the STF concluded the judgment to limit the effects of the decision in time of Topic 985 (general repercussion), deciding on the constitutionality of the social security contributions levied on the vacation bonus, but determining that the decision will take effect from the publication of the judgment minutes (09/15/2020), allowing taxpayers that filed lawsuits on the matter to recover amounts paid in the past up to that date. The Parent Company is involved in a lawsuit on this matter. The Company's legal advisors assess the success, using the concept of CPC 25, as virtually certain. The credit on September 30, 2024 amounts to R\$31,204 and may only be used for offsetting after the final and unappealable decision on the lawsuit.
- (iv) Adjustment to present value: considering the hyperinflation scenario in Argentina and since the term for tax recovery is longer than one year, direct subsidiary LRA has adopted the adjustment to present value. On September 30, 2024, the discount rate used was of 47% p.a. (127% p.a. on December 31, 2023), as observed in the market by the National Bank of Argentina.

9.2 Realization of taxes recoverable

(i) The credits recognized on income and social contribution tax losses of the Parent Company and of subsidiary Youcom are supported by reviews that occur at the end of each year, to verify the probability of generation of future taxable bases that would allow the recovery of these credits.

The rates for companies headquartered in Brazil are of 25% for Corporate Income Tax (IRPJ) and 9% for Social Contribution Tax on Net Profit (CSLL), except for indirect subsidiary Realize CFI, which is subject to 25% IRPJ and 15% CSLL. Foreign companies are subject to income tax ranging from 25% to 30%.

The Company offsets deferred assets against deferred liabilities of the Parent Company and subsidiaries separately.

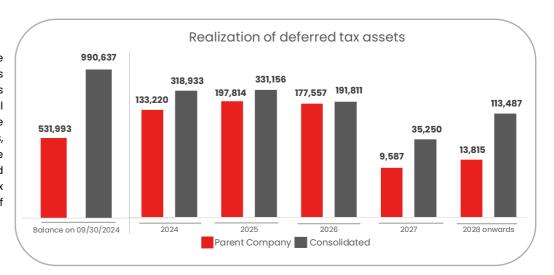

11.2 Changes in deferred taxes, net

Changes in deferred taxes recognized at weighted nominal rates are as follows:

11.3 Realization of deferred tax assets

We check the recoverability of the balance of deferred taxes assets periodically. The Company's assessment is based on technical feasibility studies that demonstrate future taxable profit projections, allowing a credit recovery estimate within a period that does not exceed 10 years. Also, estimated deferred tax realization involves uncertainties of other estimates.

11.4 Analysis of effective rate of income and social contribution taxes

Reconciliation of the expense calculated by applying the combined tax rates and the income and social contribution tax expense charged to profit or loss is as follows:

- (i) Import operations in the State of Santa Catarina benefit from ICMS matching credit on interstate shipments of these products. Interstate shipments to end consumers of goods sold on the Internet are also benefited by the ICMS matching credit in the state of Rio de Janeiro. These benefits are considered an investment grant under Supplementary Law No. 160/2017, therefore, they should not be included in the income and social contribution tax base. This understanding remains even after the enactment of Law No. 14789/23, due to legal decisions awarded to the Company for the Parent Company and Subsidiaries. In compliance with ICPC 22/IFRIC 23 and assisted by its legal advisors, management analyzed the acceptability of the tax treatment described above and concluded that it is probable that the tax authorities will accept it;
- (ii) These refer mostly to the exclusion of SELIC interest on unduly paid tax amounts under the terms of court decisions for lawsuits to which the Company is a party, and decision on the merits of Appeal No. 1.063.187 to the Brazilian Supreme Court (STF), under the general repercussion (generally binding decision) regime.

- (ii) This refers to discontinuity of the use of certain operating assets of stores and write-off of the system discontinued in Realize CFI amounting to R\$ 46,927 due to revaluation of projects and product portfolios.

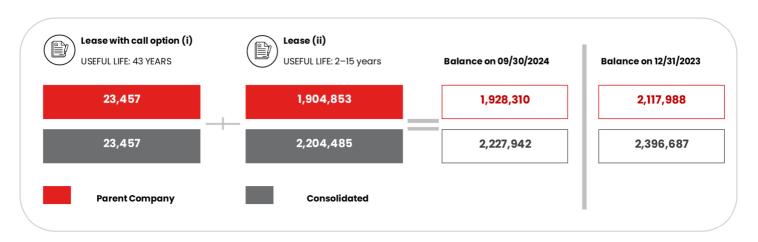

14 RIGHTS OF USE

CPC 06 (R2)/IFRS 16 requires for all lease contracts within the scope of the standard - unless they are covered by exemption - that lessees recognize the liabilities assumed against the respective right-of-use assets.

14.1 Accounting policy

The Company elected to use the practical expedient for transition and to not consider initial costs for measurement of right-of-use assets that correspond to initial lease liability amount plus initial direct costs incurred, thus maintaining the initial lease liability amount. Depreciation is calculated on a straight-line basis over the remaining term of the contracts.

14.2 Breakdown of rights of use

- (i) Headquarter;
- (ii) Lease of commercial spaces, distribution centers, IT infrastructure, and other administrative offices.

15 IMPAIRMENT TEST

15.1 Impairment testing per cash-generating unit (CGU)

We assessed the recoverability of value in use of Company assets at the lowest identifiable levels of cash generation and the restatement of projected flows did not indicate the need to set up a provision for *impairment*. In the three- and nine-month periods ended September 30, 2024, the amounts of R\$ 5,714 and R\$ 20,390 (R\$ 8,802 and R\$ 6,057 in 2023), in the Parent Company and R\$ 5,377 and R\$ 25,136 (R\$ 10,057 and R\$ 12,654 in 2023) in the Consolidated financial statements were respectively reversed, which is explained by the effective write-off of previously provisioned assets. The provisioned balances are broken down as follows:

| | Property and | Property and equipment | | | | |
|--------------|--------------|------------------------|------------|------------|--|--|
| Asset or CGU | 09/30/2024 | 12/31/2023 | 09/30/2024 | 12/31/2023 | | |

| Consolidated | 31,609 | 43,861 | 1,784 | 2,514 | | |

(i) The variation in the balances provisioned in LRA is mainly related to monetary restatement.

15.2 Impairment testing of goodwill and brand

On September 30, 2024, we concluded that no factors change the assumptions adopted or indicate impairment losses, according to the last study conducted for indefinite-lived assets in Camicado, Repassa and Uello.

16 BORROWINGS, FINANCING AND DEBENTURES

16.1 Accounting policy

Borrowings, financing and debentures are initially recognized at fair value upon receipt and are subsequently measured at amortized cost as provided for by contract (plus charges, interest calculated at effective rate, inflation and currency fluctuation adjustments, and amortization charges incurred up to the reporting dates).

The balance of working capital borrowings (Law No. 4131 of the Central Bank of Brazil) is measured at fair value, which reflects current market expectations of future amounts, using the discounted cash flow valuation technique (conversion of future cash flows into one single amount).

18 LEASES PAYABLE

18.1 Accounting policy

Of the contracts that were within the scope of CPC 06 (R2)/IFRS 16, only the minimum fixed rent amounts were considered to be a lease component for liability valuation purposes. Measurement of lease liabilities corresponds to total future fixed rent payments (gross of taxes), discounted at an incremental interest rate. The nominal discount rate corresponds to reference market rates plus risk *spread* for funding at amounts that represent total investments for opening new stores.

18.2 Breakdown of leases payable

18.4 Future commitments

18.4.1 Additional information

In order to comply with Memorandum Circular CVM SNC/SEP No. 02/2019 issued by the Brazilian Securities and Exchange Commission (CVM), the Company disclosed the minimum *inputs* for projecting the nominal rate and nominal cash flow model recommended by the CVM.

The nominal discount rate corresponds to future market quotations obtained at B3 S.A. - Brasil, Bolsa, Balcão - reference in DI vs. Pre + risk spread for funding at amounts that represent total investments for the opening of new stores.

Projected inflation quotations are stated for cash flow calculation purposes. The payment flow in accordance with the weighted average term, which corresponds to the respective rates presented, is as follows:

| | | | Consolidated | | | | | |
|--|-----------------------------|---------------------|------------------|---------|---------|---------|---------|------------|

| Total | | | 3,718,515 | 183,229 | 713,145 | 632,536 | 531,701 | 1,657,904 |

- (i) We calculated the weighted average term of the contractual flow for rate quotation purposes, since the contracts have monthly repayments, reducing the average term of the transaction and the risk for the creditor.
- (ii) Future contractual lease flow with purchase option ata a discount rate of 8.81% p.a. implicit in the contract executed in July 2012 for the headquarter.

Due to the approval of Constitutional Amendment No. 132/2023, lease payments will only generate PIS and COFINS credits until December 31, 2026, after which these contributions will be extinguished and replaced by the Goods and Services Contribution Tax ("CBS"), whose rate is yet to be regulated. On September 30, 2024, potential PIS and COFINS credits on the gross contractual flow of years 2024, 2025 and 2026 amount to R\$ 141,424 which, adjusted to present value using the weighted average term, amounts to R\$ 103,074.

- (i) Most significant tax provisions refer to:
 - IPI resale, allegedly paid without complying with the Minimum Taxable Amount;
 - PIS/COFINS disallowance of credits referring to input-related expenses;
 - Disallowance of ICMS credit rights in acquisitions from suppliers considered disreputable;
 - Disallowance of ICMS credit rights on energy, acquisitions of goods, rate difference, among others;
 - Increase in SAT (Occupational Accident Insurance) rate and establishment of FAP (Accident Prevention Factor);
 - Disallowance of expense with payment of interest on equity of prior years; and
 - Requirement of INSS/IRRF on non-salary portions.

22.2 Contingent tax liabilities

According to the Company's legal advisors, contingent liabilities (possible losses) plus interest and inflation adjustment are as follows:

| | Parent Con | npany | Consolidated | |
|--|------------|------------|--------------|------------|
| Nature | 09/30/2024 | 12/31/2023 | 09/30/2024 | 12/31/2023 |

| Total | 878,254 | 989,576 | 935,989 | 1,041,181 |

22.3 Contingent civil liabilities

These liabilities refer to massified civil lawsuits of a consumer nature, whose amounts frequently do not reflect the contingency amount. Therefore, in recognizing the provision, the Company considers the history of obligations effectively settled, i.e. the information that best reflects the exposure to a risk of this nature, in the Individual and Consolidated financial statements.

Of the lawsuits classified as possible loss, the exception to those mass lawsuits are the following:

| | 09/30/2024 | 12/31/2023 |
|---|------------|------------|
| Fine due to alleged contract termination | 15,244 | 13,777 |
| Collection by a former supplier of amounts relating to contract termination | 4,443 | 4,035 |
| Indemnity to a former supplier relating to contract termination | _ | 3,584 |
| Collection of condominium fees related to store lease | 5,720 | 5,312 |
| Total | 25,407 | 26,708 |

22.4 PIS and COFINS tax credits on inputs

In compliance with CVM/SNC/SEP Memorandum Circular No. 01/2021, and based on the Brazilian High Court of Justice (STJ) decision on Appeal to the High Court Resp. 1.221.170/PR, which defined the concept of input for PIS and COFINS credit calculation purposes, taking into consideration the criteria relating to the essential nature or significance of the expense for the development of the taxpayer's economic activity, the Company allocated PIS and COFINS credits relating to expenses considered essential or significant for its activity, in the ninemonth period ended September 30, 2024, amounting to R\$ 23,814 (R\$ 12,715 in the nine-month period ended September 30, 2023). Given

the opinion of the Company legal advisors, in the sense that the likelihood of an outflow of funds due to those credits is possible or remote, no provision was recognized, in accordance with CPC 25/IAS 37.

23 FINANCIAL INSTRUMENTS

23.1 Accounting policy

Financial instruments are recorded at fair value and determined based on the macro-economic scenario indicators. The method for recognizing the resulting gain or loss depends on whether or not the derivative is designated as a hedging instrument. If so, the method depends on the nature of the item that is being hedged. The Company adopts *hedge* accounting and designates non-deliverable forwards (*NDF*) as cash flow *hedge*. At the inception of each transaction, the relationship between the hedging instruments and the hedged items, the risk management objectives and the strategy for hedging transactions are documented, and the Company assesses on a continuing basis the economic relationship between the instrument and hedged item.

23.1.1 Cash flow hedge and financial hedge

The purpose of cash flow hedge is to hedge against currency risk import orders not yet paid. The effective portion of the change in fair value of derivatives designated and classified as cash flow *hedge*, and not settled, is recognized in equity as equity adjustments in other comprehensive income. This portion is realized when the risk hedged by the derivative instrument is eliminated. After settlement of financial instruments, gains and losses previously deferred in equity are transferred from equity and included in the initial measurement of the asset's cost (inventories).

As regards financial *hedge* not designated for *hedge accounting* and related to customs cleared goods, the Company accounts for the respective gains or losses in finance income or costs.

23.1.2 Swaps

In swap transactions not designed for hedge accounting, gains or losses are recognized in finance income or costs.

23.2 Financial instruments by category, fair value measurement and hierarchy

The discounted cash flow method is used to measure the fair value of financial assets and liabilities, whose assumption is the present value of cash flows estimated based on future market quotations. For financial assets and liabilities whose book balances are reasonably close to fair value, fair values are not determined as established in CPC 40/ IFRS 7. The Company's financial assets and liabilities are classified under Level 2 of the fair value hierarchy, since they are calculated based on inputs that are observable, either directly or indirectly, except for quoted (unadjusted) prices in active markets for identical assets or liabilities to which the Company may have access at the measurement date.

25 TRANSACTIONS WITH RELATED PARTIES

The main financial, commercial and operational transactions between the Parent Company and the subsidiaries are presented below:

25.1 Parent Company's context

- Lease contracts: in August 2018, lease contracts were updated by means of an addendum with subsidiary Dromegon referring to the buildings of the stores located in downtown Porto Alegre, Santa Maria and Pelotas, effective for ten years, which may be renewed. Amounts were set between 4.% and 4.29% on gross monthly sales of stores.
- Personal loan service agreement: The Company offers Renner's customers financial services by means of its indirect subsidiary
 Realize CFI and is a party in the transaction through its operating infrastructure, providing correspondent banking and collection
 services.
- PIX: the Company closed June 2024 using the PIX system (an instant payment platform created by the Central Bank of Brazil) through its indirect subsidiary Realize CFI.
- Investment in CDB: in June 2024, the Company started making financial investments with indirect parent company Realize CFI, with an average yield of 107% tied to the CDI.
- Transactions with the Renner Credit Card (Private Label and Meu Cartão) Realize: Renner credit cards (Private Label) and the
 co-branded card ("Meu Cartão") are offered to the Company's customers through the indirect subsidiary Realize CFI.
- Sharing of costs and corporate expenses: there are agreements for the sharing of back-office and corporate structures between Lojas Renner and its subsidiaries, which streamlines the corporate structure. For foreign subsidiaries, the sharing of expenses is charged by the Parent Company in the form of service exports.
- Import intermediation: the Parent Company carries out commercial transactions with its subsidiary LRS, which operates as an import intermediary, in line with the strategy of approximating and developing the international supplier base. Revenue from intermediation commission was recognized at a price compatible with market conditions.
- Export and import of goods: the Parent Company conducts commercial transactions with the subsidiaries LRU and LRA in connection with the export of goods for inventories of the retail operations in those countries, and import of goods with LRU Trading, which are priced under market conditions.
- Logistics services: the Parent Company conducts commercial transactions with subsidiary Uello, which provides urban delivery services and logistics management customized solutions.
- Guarantees: the Parent Company is the guarantor and is jointly liable for certain financial transactions of its subsidiaries. On December 31, 2023, we had a balance of R\$ 48,588 in Consolidated due to financing in foreign currency for working capital in modality 4,131 at Camicado. In July 2024, the subsidiary settled this transaction.

25.2 Consolidated context

25.2.1 Agreements or other significant obligations between the Company and its management members

According to Chapter IV, article 13 of the Company's Bylaws, the Company management is incumbent upon the Board of Directors and the Executive Board, and management members are described in a term of office drafted in a book, signed by the invested management member, which must include its submission to the arbitration clause referred to in Article 47 of the Bylaws and its agreement to the 'Novo Mercado' Regulations, not requiring any guarantee of management, and conditioned on the subscription to the Company's Code of Conduct.

The Board of Directors, elected at the Annual General Meeting, has unified terms of office of one year, re-election being permitted. The Board members in office are automatically considered appointed for re-election by their joint proposal. The Executive Board, with members who are elected and may be removed at any time by the Board of Directors, has a two-year term, with reelection permitted. The members relationship with the Company is based on a service agreement, and their compensation comprises a fixed component restated annually using the INPC index and a variable component that is based on the Company's financial performance.

25.2.2 Compensation of the members of the Board of Directors and Executive Board (the "Management")

Pursuant to the Brazilian Corporation Law and the Company's bylaws, it is the shareholders' responsibility, at the Annual General Meeting, to set the total annual compensation of the management personnel and of the Board of Directors' members, and to distribute the amount among the management members after considering the People Committee's opinion.

The Annual General Meeting (AGM) of April 18, 2024 approved the 2024 global management personnel compensation, limited to R\$ 53,000. This amount also includes the compensation of the Supervisory Board members for 2024 of up to R\$ 885.

⁽i) The management fees and the retention bonus of the statutory officers of indirect subsidiary Realize CFI are recorded as management personnel compensation in the Consolidated financial statements.

25.3 Balances and transactions with related parties

25.3.1 Accounting policy

Intercompany transactions including balances, and unrealized gains and losses deriving from such transactions, are eliminated. The accounting policies of the subsidiaries are consistent with the practices adopted by the Parent Company. The main balances in the statements of financial position and profit or loss relating to transactions with related parties arise from transactions under usual market and contractual conditions.

26.3 Capital reserves

Capital reserves amount to R\$ 147,508 on September 30, 2024 (R\$ 128,545 on December 31, 2023) matched against stock option plan and restricted share plan (Notes 29 and 30), to be allocated as resolved in a Special General Meeting.

26.4 Income reserves

- (i) Legal reserve: in accordance with article 193 of Law No. 6404/76 and article 33, item (a) of the Company's Bylaws, the legal reserve is recorded at an amount equivalent to 5% of net income for each year, after deducting the tax incentive reserve portion. The balance on September 30, 2024 is R\$ 103,547 (R\$ 103,547 on December 31, 2023).
- (ii) Investment and expansion reserve: this reserve is recorded as decided by management, as provided for in article 33, item (c) of the Bylaws. On September 30, 2024, this balance is R\$ 100,833 (R\$ 100,833 on December 31, 2023);
- (iii) Tax incentive reserve: the Company is entitled to ICMS tax incentives with impacts on profit or loss (Note 11.4). In accordance with Supplementary Law No. 160/17 and Law No. 6404/76, the Company allocated at year-end the portion of incentives related to the exemption of ICMS on customs clearance of imports and to the reduction of ICMS ST (MVA). On September 30, 2024, this balance is R\$ 830,134 (R\$ 830,134 on December 31, 2023) referring to the amounts allocated until the year ending December 31, 2023.

26.5 Other comprehensive income (loss)

OCI refers to cumulative translation adjustments, hyperinflation adjustments, and unrealized profit or loss on derivative financial instruments, such as equity adjustments. This amount represents accumulated gains, net of taxes of R\$ 89,401 on September 30, 2024 (R\$ 27,537 of gains, net of taxes, on December 31, 2023).

- (i) Limit of 6 years to exercise the options from the date of grant.
- (ii) The options will be available for exercise after the vesting requirements per tranche are complied with. From the 3rd to 5th grant, including the contractual grant, the vesting period of the 1st tranche ends one year after grant date, the 2nd tranche two years after grant date and so forth, in equal amounts for each tranche, until all options are available for exercise. From the 6th grant, the stock option can be exercised in three tranches: 20% after a two-year grace period, 30% after a three-year grace period, and the remaining 50% four years after the grant date.

The closing price of shares on September 30, 2024 was R\$ 18.06 (R\$ 17.42 on December 31, 2023). Each option corresponds to the right to subscribe one share and, on September 30, 2024 and December 31, 2023, there were no in-the-money options that had at least completed the vesting of the tranche. In the three and nine month periods ended September 30, 2024, the stock option plan expenses totaled R\$ 6,269 and R\$ 18,386 (R\$ 6,523 and R\$ 18,781 on September 30, 2023), in the Individual and Consolidated financial statements.

29.2 Assumptions for fair value measurement of stock options

The fair value of stock options granted is calculated at the date of grant using the Black&Scholes model and assumptions such as:

- i) Strike price: weighted average rate over the last 30 trading sessions of Lojas Renner S.A.'s shares before the grant date;
- ii) Share price volatility: weighting of the trading history of the Company's shares;
- iii) Risk-free interest rate: the Company uses the CDI rate available at the date of grant and makes projections using the time period according to the exercise of options;
- iv) Estimated dividend: payment of dividends per share in relation to the market value of shares at the grant date;
- v) Vesting period: average period for members to exercise their options in the most recent grant ended.

The result shown on the table does not deduct the expenses with depreciation and amortization, with the stock option plan, income/loss resulting from write-off of assets and management personnel's profit sharing and charges. The exclusion of these expenses in the calculation is in line with the manner in which management evaluates the performance of each business and its contribution to cash generation. Finance income (costs) are not allocated by segment, since their composition is related to corporate decisions on capital structure rather than to the nature of income/loss of each business segment.

32 REVENUES

32.1 Accounting policy

CPC 47/IFRS 15 - Revenue from Contracts with Customers establishes a model aimed at evidencing whether the recognition criteria were satisfied, following the steps below:

Considering these aspects, revenues are recorded at the amount that reflects the Company's expectation of receiving a consideration for the products and financial services offered to customers.

Gross revenue is presented net of rebates, discounts and eliminations of revenues between related parties and adjustment to present value (Note 7.1).

- i) Sales of goods retail: cash sales paid in cash or with debit cards, or credit sales paid with third-party cards or Renner card, and through financing granted by indirect subsidiary Realize CFI, both at physical stores and through e-commerce. Revenue is recognized in profit or loss when the goods are delivered to the customer.
- ii) Services: own credit transactions, loans to individuals and legal entities, and sales financing by indirect subsidiary Realize CFI; profit or loss is allocated considering the effective interest rate throughout the term of contracts. Services include revenues from commissions on marketplace sales conducted with partner companies, sales intermediation commissions, intercompany services, urban deliveries and complete and customized logistics management solutions.

INDEPENDENT AUDITOR'S REVIEW REPORT ON QUARTERLY INFORMATION

The Shareholders, Board of Directors and Officers **Lojas Renner S.A.**Porto Alegre - RS

Introduction

We have reviewed the accompanying individual and consolidated interim financial information, contained in the Quarterly Information Form (ITR) of Lojas Renner S.A. (the "Company") for the quarter ended September 30, 2024, comprising the statement of financial position as of September 30, 2024 and the related statements of profit or loss and of comprehensive income for the three and nine-month periods then ended, and of changes in equity and of cash flows for the nine-month period then ended, and the notes to the financial statements, including material accounting policies and other explanatory information.

Responsibilities of the executive board for the individual and consolidated interim financial information

Management is responsible for preparation of the individual and consolidated interim financial information in accordance with Accounting Pronouncement NBC TG 21 – Interim Financial Reporting, and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the fair presentation of this information in conformity with the rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the Quarterly Information Form (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review engagements (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the quarterly information form referred to above are not prepared, in all material respects, in accordance with NBC TG 21 and IAS 34 applicable to the preparation of Quarterly Information (ITR) and presented consistently with the rules issued by the Brazilian Securities and Exchange Commission (CVM).

Other matters

Statements of value added

The abovementioned quarterly information includes the individual and consolidated statement of value added (SVA) for the nine-month period ended September 30, 2024, prepared under Company's Management responsibility, and presented as supplementary information by IAS 34. These statements have been subject to review procedures performed together with the review of the quarterly information with the objective to conclude whether they are reconciled to the interim financial information and the accounting records, as applicable, and if its format and content are in accordance with the criteria set forth by NBC TG 09 – Statement of Value Added. Based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the overall individual and consolidated interim financial information.
