NOTICE TO THE MARKET

KLABIN S.A. ("Klabin" or "Company") informs to its shareholders and the market in general that it has contracted ("Transaction") a Revolving Credit Facility ("RCF") with 9 financial institutions in the amount of US\$ 500 million, maturing in October 2026, characterized as Sustainability-Linked.

The cost of this revolving credit facility is conditioned to the annual performance of the environmental indicator of increase in the reuse of solid industrial waste. Thus, the commitment fee, if the line is not disbursed, will be between 0.36% p.a. and 0.38% p.a., and if the line is drawn, between Libor+1.20% p.a. and Libor+1.25% p.a.

This Transaction will replace the RCF contracted by the Company in February 2019, whose original maturity would occur in December 2023, also in the amount of US\$ 500 million, with a commitment fee of 0.41% p.a., and drawn cost of Libor+1.35% p.a.

The sustainability indicator used in this Transaction is part of The Klabin Sustainable Development Goals ("KSDGs") to be achieved by 2030, in line with the UN Sustainable Development Goals ("ODS"), which can be followed on the Company's [ESG Panel](#).
