NIRE 35300188349

Publicly-Held Company

NOTICE TO THE MARKET

KLABIN S.A. ("Klabin" or "Company") hereby notifies its shareholders and the market in general that on the present date had the approval of its greenhouse gas emissions (GHG) reduction targets by the Science Based Targets (SBTi) organization.

Klabin is committed to reducing its Scope 1 and 2 greenhouse gas emissions (GHG) per ton of pulp, paper and packaging by 25% until 2025, and by 49% until 2035, with 2019 as the base year.

In the last 15 years Klabin has reduced its GHG emissions by 60% and in 2019 had a positive carbon balance of 4.7 million tons CO₂eq within its operations, an important environmental service in combating climate change. The commitment made to SBTi represents an even more ambitious contribution to mitigating the effects of climate change.

Klabin established a decarbonization target based on the scientific criteria of SBTi. Therefore, the Company reaffirms its commitment and its position as a protagonist in the development of a sustainable economy and marks its position on the global climate agenda.

SBTi is a partnership between CDP, the United Nations Global Compact (UNGC), World Resources Institute (WRI) and the World Wide Fund for Nature (WWF). The initiative drives ambitious climate action in the private sector by enabling companies to set science-based emissions reduction targets.

To access the Science Based Targets initiative website where the signatory companies and their approved targets are listed, please [click here](#).
