INVESTOR
PRESENTATION

1Q22

ri.fras-le.com.br

This presentation contains forward-looking statements that are subject to risks and uncertainties. These statements are based on Management's beliefs and assumptions, as well as on currently available information. Forward-looking statements include information on our current intentions, beliefs or expectations, as well as those of the Company's Board of Directors and Board of Executive Officers.

The reservations as to forward-looking statements and information also include data on possible or presumed operating results, as well as any statements preceded, followed or including words such as "believes", "may", "will", "expects", "intends", "plans", "estimates" or similar expressions.

Forward-looking statements are not performance guarantees; they involve risks, uncertainties and assumptions because they refer to future events and, therefore, depend on circumstances which may or may not occur. Future results may differ materially from those expressed or suggested by forward-looking statements. Many of the factors which will determine these results and figures are beyond our ability to control or predict.

SUSTAINABILITY

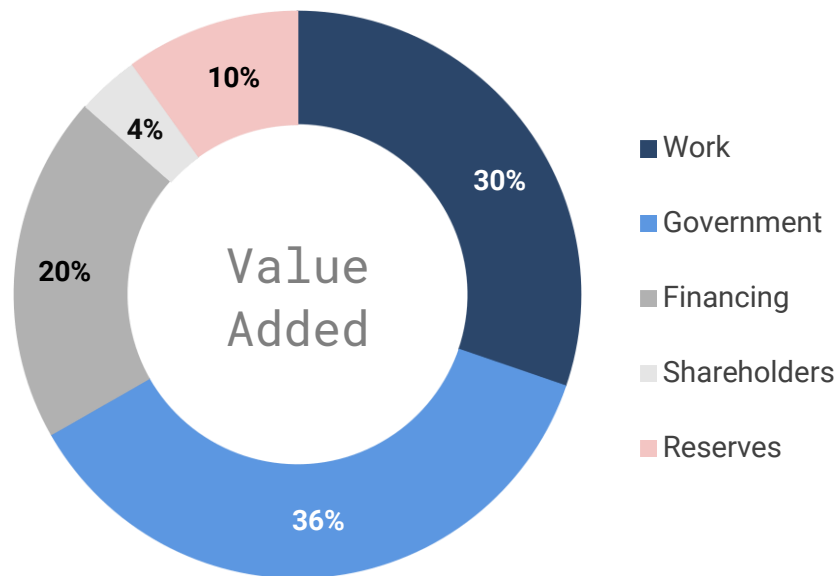

SOCIAL RESPONSIBILITY

SUSTAINABILITY

Fras-le holds projects and social actions of great impact in the local community.

Concerned with the welfare of its employees, the Company provides a work environment where people feel respected, valued and recognized, thus promoting responsible and motivating growth.

Various actions are carried out during the year, all focused on welfare, health, education, training, safety and quality of life.

Wastewater Treatment System

Over 2021, approximately **65 million liters of wastewater were treated**, of which around 29% were reused.

Waste Management Program

In 2021, more than **9,000 tons of waste were treated**, of which 48% went for recycling and 39% for co-processing. The rest was treated according to the classification and composition of the waste.

Pro-Environment Program

The Pro-Environment Program consists in collecting and disposing friction materials after being used. In 2021, around **1,000 tons of brake linings were disposed** by more than 366 customers.

Fras-le has a policy of respect for the environment by means of programs that minimize possible impacts to nature while promoting sustainable growth.

SUSTAINABILITY REPORT

SUSTAINABILITY

When using the rigorous criteria of integrity applied by Randon Companies, Fras-Le periodically develops the sustainability report to show its actions and results, in the hope that this disclosure will lead other companies to follow the same steps.
