NOTICE ON RELATED PARTY TRANSACTION

Telefônica Brasil S.A. (“Company”), in continuation of the Notice to the Market disclosed on November 23, 2020 and pursuant to Article 33, XXXII, and Annex F of CVM Resolution No. 80, dated March 29, 2022, hereby informs the market of the following related party transaction, celebrated on November 11, 2025.

Name of Related Parties	The Company and Telxius Cable Brasil Ltda. (“Telxius”), jointly referred to as “ <u>Parties</u> ”.
Relationship with the Issuer	The Parties have the same ultimate controlling shareholder.
Description of the Transaction	Execution of the First Amendment to the Internet Transit Service Agreement, entered into between the Company and Telxius on November 19, 2020 (“ <u>Agreement</u> ”), regarding the provision of internet data transit services.
Purpose of the Agreement	The purpose of the Agreement is to provide internet data transit services for all data products offered by the Company to its customers, using International Data Traffic Exit (Tollgate).
Terms and Conditions of the Transaction	The Amendment has a fixed amount of US\$117,954,827.50. With the Amendment, the Agreement will reach a total amount of US\$341,425,529.50, with a term valid until December 31, 2030.
Participation of the Counterparty, its Partners or Administrators in the Transaction Decision Process	There was no participation of the counterparty, or its representatives, in the Company’s decision-making process regarding the transaction.
Detailed Justification of the Reasons Why the Transaction Observed Commutative Conditions or Provides for Adequate Compensatory Payment	The compensation under the Agreement is at market standards, and the contracting follows the same premises used by the Company for contracts with third parties that are not related parties.

Reasons for Carrying Out the Transaction with Related Parties	Given the critical nature of International Transit services for Vivo's business (access to the global Internet) , we opted for Telxius because it offers submarine routes protected by different oceans, access points in strategic locations in Brazil for Vivo's network, compliance with all technical requirements, and proven quality through practical experience.
