

Petrobras confirms gas discovery in Colombia

Rio de Janeiro, August 5, 2024 – Petróleo Brasileiro S.A. – Petrobras, following up on the release disclosed on 07/29/2022, informs that it has achieved the main target of the Uchuva-2 well, confirming the extent of the gas discovery made in 2022 with the drilling of the Uchuva-1 well. This well adds relevant information for the development of a new frontier of exploration and production in Colombia, reinforcing the volumetric potential for gas in the region.

Uchuva-2 well, spudded on 06/19/2024, is located in deep waters in Colombia, 31 kilometers off the coast and at a water depth of 804 meters.

The well is in progress, with five phases, and the gas-bearing interval was verified at phase 4 through wireline logging, which will be further characterized through laboratory analyses.

This document may contain forecasts within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Trading Act of 1934, as amended (Trading Act) that reflect the expectations of the Company's officers. The terms: "anticipates", "believes", "expects", "predicts", "intends", "plans", "projects", "aims", "should," and similar terms, aim to identify such forecasts, which evidently involve risks or uncertainties, predicted or not by the Company. Therefore, future results of the Company's operations may differ from current expectations, and the reader should not rely solely on the information included herein.

The consortium, constituted by Petrobras as operator (working interest 44.44%), in partnership with Ecopetrol (NYSE: EC) (working interest 55.56%) will continue operations to complete the project to drill the well to the expected depth and characterize the conditions of the reservoirs found, with the prediction of carrying out a formation test by the end of 2024.

Petrobras' operations in the Tayrona Block are in line with the company's long-term strategy, aimed at replenishing oil and gas reserves through the exploration of new frontiers and acting in partnership, ensuring that global energy demand is met during the energy transition.

Material facts will be promptly disclosed to the market.
