

Petrobras on contract with SCGÁS

Rio de Janeiro, June 27, 2023 - Petróleo Brasileiro S.A. – Petrobras informs that, following up on the release disclosed on 05/29/23, it has entered into two new contracts for the purchase and sale of natural gas with Companhia de Gás de Santa Catarina - (SCGÁS), effective as of January 2024 and 2026, and both expiring in December 2034, in the estimated amount of R\$ 7.6 billion.

The contracts are the result of the Public Call nº 001/2023 held by SCGÁS, which aims to supply natural gas to meet the regulated market, whose concession area is located in the state of Santa Catarina.

The new contracts reinforce the commercial partnership between the companies and contemplate flexibilities for SCGÁS that corroborate milestones of the opening of the Brazilian natural gas market, maintaining the security and reliability of Petrobras' supply in competitive commercial conditions and adherent to the reality of the natural gas industry.

Once the regulatory rite has been established, the contract will be sent to the National Petroleum, Natural Gas and Biofuels Agency (ANP), which is responsible for publicizing it in accordance with ANP Resolution No. 52/2011, which, in paragraph 6 of article 11, provides that the Agency will give full publicity to natural gas purchase and sale contracts signed between traders and local piped gas distributors to serve captive markets.
