

Petrobras releases teasers for the sale of assets in refining and logistics in the country

Rio de Janeiro, June 27, 2022 – Petróleo Brasileiro S.A. – Petrobras, following up on the releases disclosed on 02/08/2021, 08/25/2021, and 10/01/2021, informs that today it has restarted the processes for the sale of Refinaria Abreu e Lima (RNEST), in Pernambuco, Refinaria Presidente Getúlio Vargas (REPAR), in Paraná, and Refinaria Alberto Pasqualini (REFAP), in Rio Grande do Sul, as well as the logistics assets integrated to these refineries.

The teasers, which contain key information about the assets and the eligibility criteria for the selection of potential participants, are available on Petrobras' website: <https://www.investidorpetrobras.com.br/en/results-and-notice/teasers>.

The main subsequent steps of the sale processes of these three refineries will be informed to the market in due course.

Petrobras' refining divestment plan represents approximately 50% of the national refining capacity, totaling 1.1 million barrels per day of processed oil, and considers the full sale of the following assets: Abreu e Lima Refinery (RNEST), Shale Industrialization Unit (SIX), Landulpho Alves Refinery (RLAM), Gabriel Passos Refinery (REGAP), Presidente Getúlio Vargas Refinery (REPAR), Alberto Pasqualini Refinery (REFAP), Isaac Sabbá Refinery (REMAN) and Lubrificantes e Derivados de Petróleo do Nordeste (LUBNOR), as well as the logistics assets integrated to these refineries.

The sale of these eight refineries is being conducted in accordance with Decree 9,188/2017 and the Petrobras Divestment Methodology, through independent competitive processes, which are at different stages, as widely disclosed by the company. The operations are in line with Resolution No. 9/2019 of the National Energy Policy Council, which established guidelines for the promotion of free competition in the refining activity in the country, and integrate the commitment signed by Petrobras with CADE in June 2019 for the opening of the refining sector in Brazil.

Petrobras concluded the sale of RLAM, on 11/30/2021, and the REMAN, LUBNOR, and SIX refineries have already had their purchase and sale contracts signed and are awaiting the fulfillment of the preceding conditions, among them, obtaining regulatory approvals, to be concluded. REGAP, on the other hand, is in the binding phase.
