Leading transformation in oncology care in Brazil

Highly specialized, physician-led world-class oncology care provider driven by a comprehensive patient-centric approach

Our Purpose

Provide world-class treatment and quality of life for cancer patients across Brazil

Deliver the best patient experience through a comprehensive care approach

To lead oncology care in Brazil with state-of-the-art technology, cutting-edge data & genomics and second-to-none clinical staff

Our mission

To beat cancer

Our footprint combines the best of outpatient and high complexity cancer centers...

...supported by cutting-edge data-driven precision medicine

Next-gen Electronic Medical Record (EMR) with pathways for standardized treatment, allowing collection of research-grade data

~100k curated oncology patients growing by 20% per year

Integrated EMR + Pathology + Genomic Tests + Dynamic Clinical Data

Covering oncology patient journey from end-to-end allows us to collect RW-data and compile outcome curves

We have demonstrated strong growth and unique resiliency through different economic cycles and the unprecedented global pandemic

Net Revenues

R\$ MM

Adjusted EBITDA¹

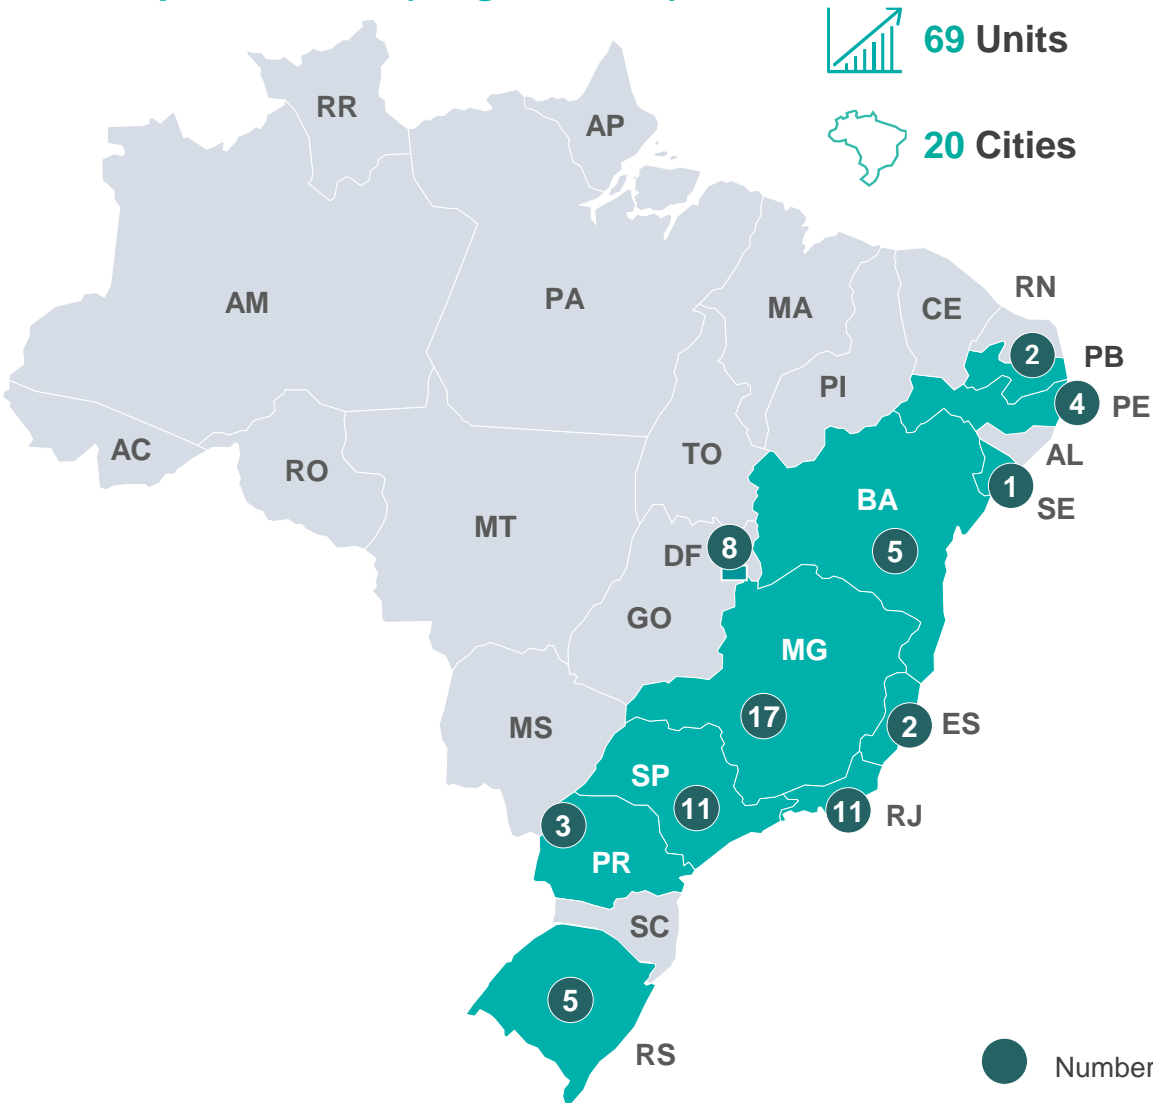

R\$ MM

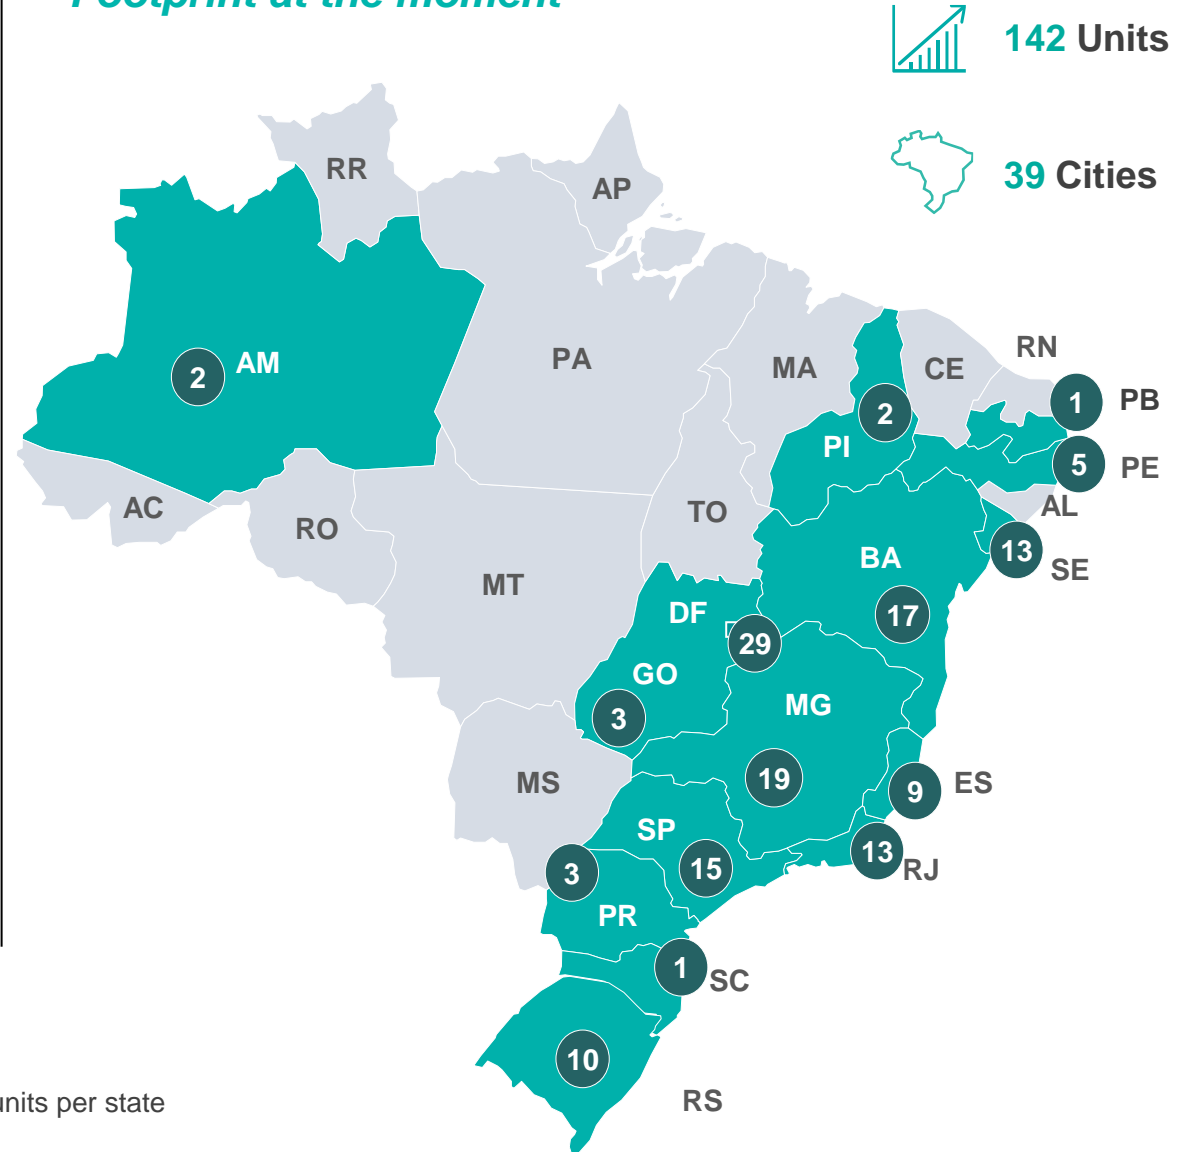

Note: 1 - Does not include expenses with pre-operational and newly opened operations, mark to market of long-term equity incentive plan, precision medicine, M&A and integration processes, COVID-19 expenses and other non-recurring and non-operational expenses.

Most extensive oncology care network in Brazil

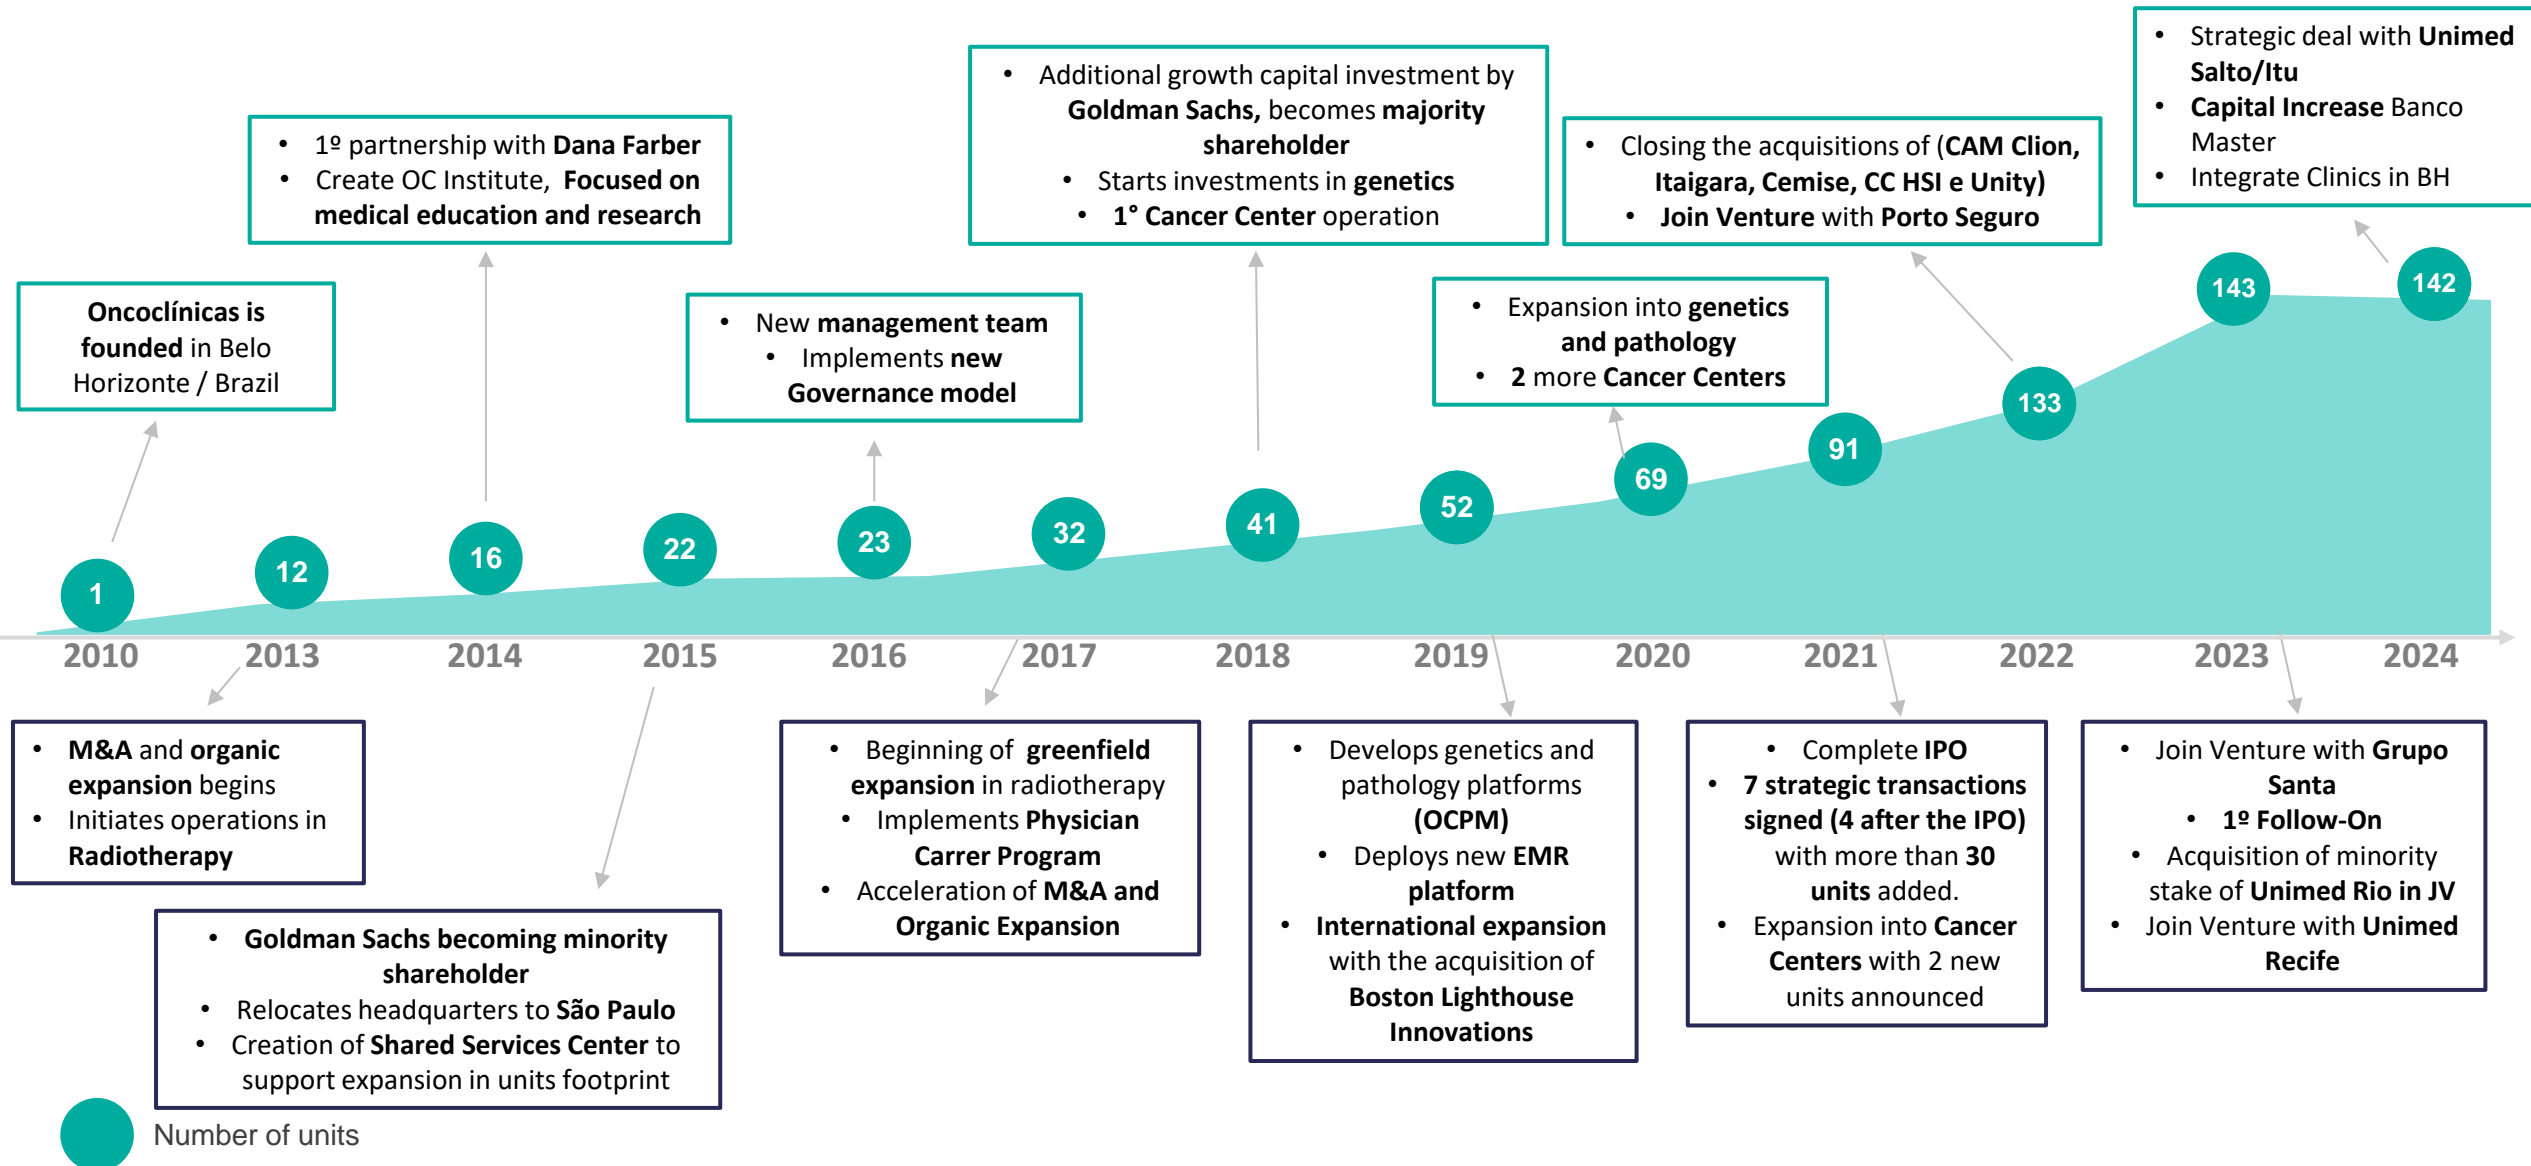

Footprint at IPO (August 2021)

Footprint at the moment

We have grown since our inception to become the market leader in oncology care in a little over 10 years

Our best-in-class facilities bring together the most advanced technologies in cancer treatment

COMPETITIVE ADVANTAGES

Transforming cancer care in Brazil

1 Diversified and consistent revenue base

What we offer to payors

Better outcomes with predictability and resolution:
We know how to treat cancer patients

Specialization brings efficiency:
Reduction of unnecessary procedures and waste

Outpatient model: Most efficient form of cancer care and the preferred venue for patients and payors

Capacity of our network: Ability to be present in the locations where our patients and payors need us

Early diagnosis and prevention: National programs such as anti smoking and obesity prevention

Historical disallowances (“glosas”) as % of total revenues

Note: 1 - ANAHP stands for national association of private hospitals.

Paying Source Breakdown

% of Net Revenues of 1º Semester 2024

Payor # 1 under a long-term, dedicated relationship backed by a 20+ years contract

1 As a result of the Company's growth, today with greater capillarity, the revenue base becomes increasingly diversified

% of Net Revenues 2017
~200 health insurances

% of Net Revenues 1º Sem 2024
~400 health insurances

*Payor # 1 under a long-term, dedicated relationship backed by a 20+ years contract

2 Our differentiated core capabilities drive powerful flywheel effects

2 Scale enables Oncoclínicas to offer the best treatments cost effectively and makes us an excellent partner for research and technology collaboration

Leadership position in Oncology

...in a highly fragmented market

8.0%
of market
share¹

Partnership with Leading Pharmas

- 302 clinical trials in collaboration with leading pharma companies
- Partnerships with pharma on broad panel genetic testing of our patients

¹ In terms of 2020 oncology revenues.

2 We are revolutionizing cancer care across Brazil

World-class standard of care

World-class outcomes

Focus on quality of life

Attractive value proposition to all stakeholders

We have...

- Raised the bar on cancer care in Brazil
- Achieved a standard of care that is consistent with premier international academic medical centers
- Achieved outcomes that are consistent with international clinical trials
- Developed standardized practice on each of our 142 clinics and cancer centers

International partnerships

2 We have innovation in our DNA

In the vanguard of the oncology treatment

Pioneer in Tumor Boards and Remote
Tumor Boards in Brazil

End-to-End Research Graded Database and AI Driven Analytics

Leader in Implementing Large Scale Precision Medicine

Best-in-Class Radiation Equipment

Physician Driven Protocol Committee and Next-Gen EMR

Leader in Conducting Clinical Trials in Brazil
coupled with Investment in Research, Education and Attraction
of Senior Medical Oncologists and Scientists

Integrated Digital Pathology and Genomics

Pioneer in Cell Therapy and drug development

Comprehensive Telemedicine Network for Oncology Care

Pioneer in Cryotherapy and Hilootherapy

3 Multidisciplinary and specialized on site approach to cancer care to address all of our patients' critical needs

Social worker

Speech and
language therapist

Specialized navigating nurses

Integrative and
alternative therapies

Psychologist

Nutritionist (Dietitian)

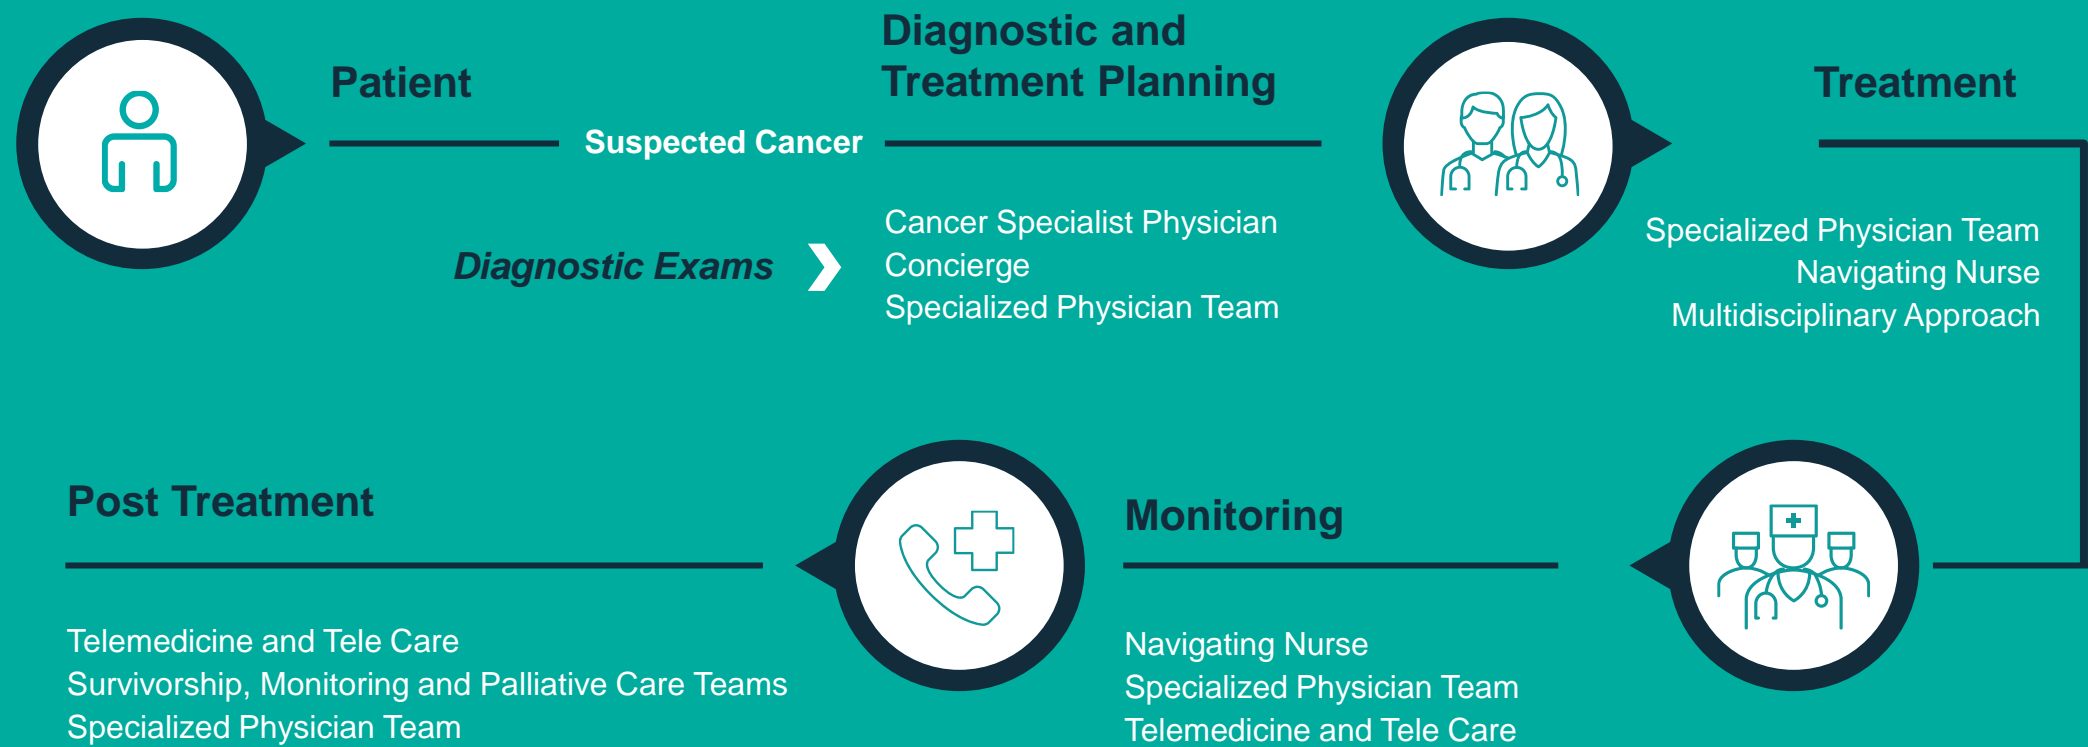

Stomatologist

Clinical Pharmacist

Physiotherapist

Clinical trial
oncology nurse

3 From diagnostics to post treatment, the patient's journey is supported by a diverse group of cancer specialists

3 We created a talent management model to attract, develop and retain the best physicians: the physician career program

Structured to embody our core principles and align the interests of our clinical staff with the Company in the long term

Attraction, development and retention of the best **physicians** in Brazil, ensuring an **inspiring work environment** for physicians of all levels

Differentiated culture of quality in patient **care** through **specialized treatment**

Creation of **long-term, sustainable** financial results

Encouraging the **development of new doctors**, ensuring a **pipeline of new talents** and Oncoclínicas' high reputation in the market

3 The physician career program: our unique model allows us to attract, develop and retain the best physicians

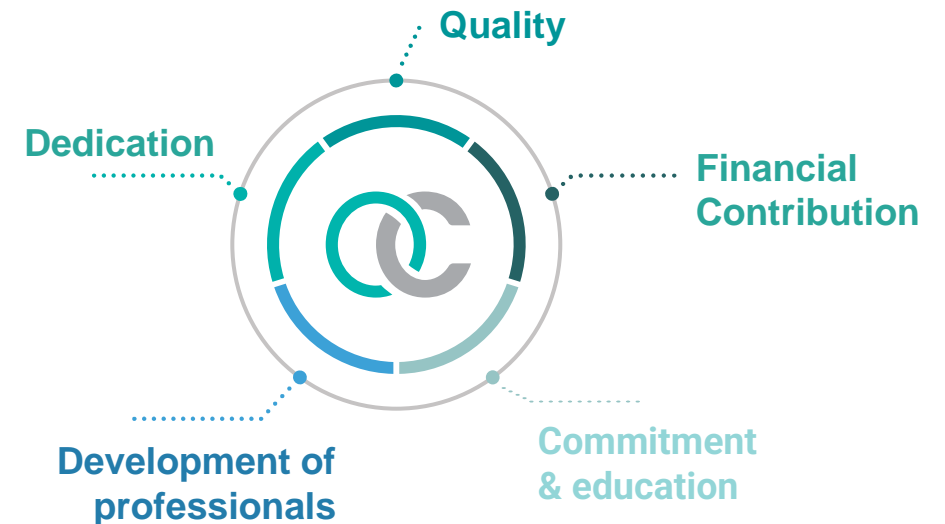

Over 2 years of R&D

3 years to deploy and refine the model within the Company

- 2-year development period
- Based on US and European models
- Physician-driven process
- Physicians drove deployment and refinement
- Hundreds of meetings during implementation of pilot projects
- Years of iterations, simulations, to deploy throughout the country

How We Evaluate Our Physicians

- We have **more oncology specialists** than any other player in Brazil
- We **grew by 21x our number** of physicians over the past 10 years, **reaching +2,700 cancer specialists**
- Overall **turnover of around 2.0% at the moment**

4 Integrated high quality cancer care, centered on outpatient clinics

As patient base from outpatient clinics grows in a city, our internal demand for inpatient complex procedures justifies creating a Comprehensive Cancer Center to support and integrate with our outpatient clinics

Clinics

Outpatient facility:

- Infusion clinics
- Radiotherapy clinics
- Clinical pharmacy

Specialization supports better outcomes, with high efficiency and efficacy

Standardized workflows and processes support rapid growth

Cancer Centers

Inpatient and outpatient procedures:

- Cell therapy and bone marrow transplant
- Robotic enabled Surgery Center
- Diagnostic exams (CT scan, MRI, PET, interventional radiology, among others)
- 24 hours oncology ER
- Inpatient beds (regular and ICU)

Highly specialized enabling cutting edge and highly complex patient cancer treatment

When inpatient procedures are required, patients are treated at a highly specialized comprehensive cancer center, which operates under an integrated model with the outpatient clinics. This leads to better quality of care and economic benefits for patients and payors.

4

Our 142 units cover 39 cities with a total population of approx. 47.6mm, which represents only 22.3% of the Brazilian population

- As we grow our patient volume in our clinics, **we internally generate demand for inpatient complex procedures**
- We then establish a Cancer Center at the location, **further strengthening our regional Clinics network** by providing additional integrated care

M&A should further boost our strong organic growth using our proven integration playbook

- Attract new physicians, invest in training and expand their relationship network
- Invest in upgrading the clinics
- Deploy more advanced protocols and precision medicine
- Introduce shared services – revenue cycle, accounting, HR, IT, EMR, legal, patient service
- Introduce OC revenue management system leveraging referral ecosystem
- Optimization of procurement terms given larger scale

ESG

We seek to drive industry-leading ESG impact in multiple ways

- Adherence to the highest standards of biological waste
- Preference for energy efficient facilities

- Saving lives and promoting better quality of life for our patients, raising the standards of care across Brazil
- Promotion of healthy living habits for all Brazilians via national and regional cancer prevention campaigns
- Relentless focus on employee well being
- Investment in medical education and training for our physicians
- Investment in oncological research and innovation to lead breakthroughs in treatment

- Standardized processes, protocols and data base with longitudinal records across all clinics
- Signatory to the Ethos Institute's Business Pact for Integrity and Anti-Corruption
- Holder of the Pro-Ethics Award
- Adherence to the highest standards of data protection
- Winner of “Troféu Pró Ética” - award that recognizes companies committed to ethics and integrity
