Two strategic lines of growth outside Chile

REPLICATING OUR KNOW-HOW IN LATAM

Terpel: High growth potential in the Colombian market

- Colombia's vehicular penetration and highway flows are lower than in Chile.
- · Low market penetration of convenience stores business.
- Copec's efficiency in its gas stations operation.

Strong potential in Norgas, Duragas, Solgas:

- · Acquisition of a market leader
- · Operations to benefit from Abastible's know how

Arauco acquires Panels assets from Masisa in Mexico and Brazil:

• Option to capture regional synergies

PURSUING SELECTED OPPORTUNITIES IN DEVELOPED ECONOMIES

Arauco acquires panel's productive facilities in North America:

- Good opportunities in the low part of the cycle.
- · Significant synergies between facilities.
- · Access to commercial channels.
- · Significant upside potential.

Copec acquires Mapco in the US:

- · Underperforming Assets ready for improvement
- Potential for consolidation

MAPA Project - Pulp

- New 1.56 million ton short fiber line in Arauco Mill, Line 3. Considers the closure of Arauco's 290 th. ton Line 1 of short fiber pulp, once the new line is operating. Thus the net increase in production will be 1.27 million tons.
- Efficient cash cost and estimated investment of US\$ 2.35 billion.
- It includes an electric cogeneration plant based on biomass that will generate a surplus of approximately 132 MW.
- Advancement of 63% in September 2020, as planned. Expected start-up for 4Q21.

Model of the project for 2021

State of the art productive facility to increase 31% the pulp capacity at a low cash cost

Valdivia Project – Dissolving Pulp

- Conversion of the Valdivia mill into swing capacity, providing flexibility to produce either dissolving pulp or paper grade pulp.
- The Dissolving Pulp Project was completed in February 2020 with an investment of US\$ 195 million and started producing in June. The laboratory analysis conducted by Arauco have been very successful in terms of assessed quality.
- Dissolving pulp is a product used in the textile industry as a substitute for cotton as well
 as to soften, shine and purify fibers. It can also be used in the cellophane and flexible
 packaging industries.
- Arauco will be the first company to produce this kind of pulp in Chile.

Arauco is entering a new market, that could offer higher margins than regular market pulp.

Growth in the Panel Division

Grayling

- Total investment of approx. US\$ 450 million, with an installed capacity of 800 th. m³ of PB.
- The mill is currently producing and commercializing products.

Masisa do Brasil

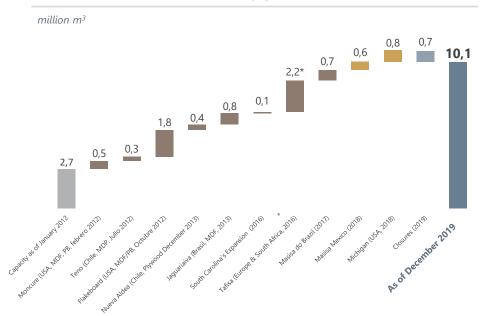

- On September, 2017, Arauco acquired Masisa's assets in Brasil in US\$ 102.8 million.
- Transaction includes two panel mills, at Parana and Rio Grande do Sul.
- Capacity of 310 th. m³ in MDF and 410 th. m³ in MDP a year.

Masisa in Mexico

- On December, 2017, Arauco acquired Masisa's assets in Mexico in US\$ 160 million.
- Transaction comprises two panel mills, at Durango and Zitacuaro.
- Capacity of 300 th. m³ in PB and 250 th. m³ in MDF a year.

Arauco to consolidate as the second largest producer of composite panels in the world, with an annual production capacity of ~ 10 million m³.

Installed capacity growth of panels

^{*} Corresponds to 50% of the production capacity of Sonae-Arauco

Mina Justa – Copper Mining

- Partnership with likeminded investor in a world class project:
 - Low cash cost and high grade.
 - Low development risk.
 - LOM of 16 years and significant exploration potential.
 - Production of app 100 th. tons per year of fine copper in full operation.
 - Total resource base of 432 million tons and a copper grade of 0.75%.
 - Attractive upside potential
- Capex: USD\$1,600 million in 3 years. Project finance of US\$900 million. The remaining amount will be financed through capital contributions proportional to ownership in three years.
- On May 2018, Alxar Internacional acquired 40% stake of Cumbres Andinas, controller of Marcobre, which owns the Mina Justa project.
- As of September 2020, the project has a construction progress of 92%.

Interesting growth option in a sector where Copec can take advantage of existing capabilities and historical presence

ExxonMobil - Lubricants and liquid fuels

World class brand that strongly benefits our portfolio.

• In March 2018, Terpel acquired the lubricants and fuels distribution assets of ExxonMobil in Colombia, Peru and Ecuador.
