

Cementos Argos launches the sixth share repurchase offer under the Independent Mechanism through Book Building for \$25 billion pesos

Cementos Argos S.A. launched today a new share repurchase offer through the Independent Mechanism through book building for \$25 billion pesos, with the purpose of increasing the liquidity of its shares in the Colombian stock exchange and continuing to advance with the execution of the SPRINT 2.0 program. As on previous occasions, the offer will allow shareholders who decide to participate to specify not only the number of shares they are willing to sell but also the price at which they are willing to do so, as established by the book building mechanism in accordance with international best practices.

The amounts offered by specie are adjusted to the company's new capital structure, which is comprised of 99.965% common shares and 0.035% common non-voting shares. In this sense, this offer contemplates repurchases of common shares for an amount of up to \$24,991 million pesos, and of common non-voting shares for an amount of up to \$8.7 million pesos. Offer acceptances will be received on June 4 and 5.

For more information about the offer, the following channels are made available to shareholders:
