CVC Brasil Operadora e Agência de Viagens S.A. and subsidiaries

March 31, 2024 and Report on Review of Interim Financial Information

MANAGEMENT REPORT

Message from Management

We are pleased to present CVC Corp's operating and financial income for 1Q24, which show a strong increase in the take rate, continued reduction in expenses, and improved profitability.

In April 2024, we announced the appointment of Felipe Gomes as the Chief Financial and Investor Relations Officer, Felipe has vast experience in the capital market and tourism industry. Additionally, since August 2023, he has been a member of the Board of Directors, so he takes over this new position well aligned with the Company's strategies. We also announced our new Chief Corporate Governance and Compliance Officer, Karin Rocha, who has been with CVC for four years and was responsible for structuring governance and compliance and financial operations (follow-on and debt restructuring).

Also regarding recent events, **in February, the CVC 2024 Sales Convention took place in Gramado/RS, the largest ever held**, with more than 1,800 participants and 85 sponsors. The central theme was the resumption of the "**CVC DNA**", aligned with the projects that will guide our efforts in 2024, including: (i) more exclusive products; (ii) store expansion, among others.

Exclusive Products: CVC is building packages in 80 new destinations, the "CVC Me Leva" program has: (i) National and international itineraries developed by partners specializing in each destination; (ii) Customized packages for relevant national events (e.g.: Rock in Rio, Formula 1) as well as regional events (e.g.: Natal Luz, Caldas Country); (iii) Conquistas Series – overland circuits at the most popular destinations in the world, with Portuguese-speaking tour guides and multi-destination itineraries (e.g.: visiting sundry European countries). It is worth highlighting that these programs include negotiation modalities with onshore partners that have a strong Take Rate and benefit CVC's working capital dynamics.

Expansion of franchises, was one of the highlights of the Convention, presenting the models of kiosks and modular stores, with the advantages of lower cost and rapid assembly, enabling the return on investment in regions further away from major urban centers, where we believe there is pent-up demand and a lack of assistance. In light of the overview presented, during the event, 328 intentions to open franchises were signed, which confirms the strength of the trust bonds between the company and its franchisees.

<u>1Q24 results</u>, at CVC Corp the take rate reached 9.5% in 1Q24, an increase of 2.1 p.p. (+28%) compared to 1Q23, generating a 7.4% growth in Gross Profit vs 1Q23, reflecting the operations in Brazil (B2B and B2C) which increased by 16.3%. This result demonstrates a strong reduction in non-recurring expenses and maintains the trajectory of recovery of profitability on sales without loss of competitiveness.

The Adjusted EBITDA for 1Q24 reached R\$ 86.2 million with a margin of 27.2%, a R\$ 58.9 million (or 216.1%) increase over 1Q23, reflecting the significant increase in take rate, and a 20.6% decrease in general and administrative expenses. Also, **we recorded net income**¹ for the third consecutive quarter, reaching R\$ 7.3 million.

It is worth highlighting the major victory of the return of Travel Agencies and Tour Operators to the Emergency Recovery Program for the Events Industry ("PERSE"). The text of the Bill has already been approved by the Chamber of Deputies (Brazil's lower house of congress) and the Federal Senate and is only awaiting presidential approval.

We remain confident in the fundamentals of the Brazilian economy, along with the strength of our business model and our commitment to the financial return of our shareholders, strengthening our ties with our franchisees and partners, and promoting the development of the tourism sector.

Have a good reading! Fabio Godinho

Consolidated performance comments for 1Q24

(The information below compares the following: three-month period ended March 31, 2024.

Net revenue

R\$ million	1Q24	1Q23	Δ%
Net revenue	353.3	295.5	19.6%
Costs of services rendered	(36.0)	-	n.a.
Gross income	317.4	295.5	7.4%
Sales expenses	(64.5)	(61.5)	4.9%
General and Administrative Expenses	(171.9)	(216.6)	-20.6%
Other operating revenues/expenses	2.1	(1.5)	n.a.
EBITDA	83.0	15.6	n.a.
Depreciation and Amortization	(49.8)	(52.0)	-4.1%
Financial income (loss)	(67.5)	(96.7)	-30.2%
Income tax	0.0	5.1	-99.2%
Net income/loss	(34.4)	(128.0)	-73.1%

As a result of the pursuit of improved profitability, CVC Corp's gross profit totaled R\$ 317.4 million in 1Q24, a 7.4% increase compared to 1Q23, reflecting operations in Brazil (B2C and B2B), which increased by 16.3%.

In B2C, the 19.1% increase is due to better:

- (i) management of exclusive products,
- (ii) pricing (focus on profitability),
- (iii) better conditions/negotiations with strategic partners.

In B2B operations, we reduced our sales volume by prioritizing the profitability of the operation, whereby we increased the take rate by 1.6% due to the aforementioned shift in strategic positioning, with the aim of improving the balance between volume and profitability of the commercial agreements with travel agencies and the interruption of ticket sales for mileage program customers (due to credit risk).

Take Rate at CVC Corp reached 9.5% in 1Q24, accounting for an increase of 2.1 p.p. (+28%), owing to the improvement in this account in all business units for the second consecutive quarter, as explained in the topic above.

Cost of services rendered

In the year, the cost of services rendered line recorded -R\$ 36.0 million. We now recognize this line in terms of the products in which CVC Corp acts as principal and not as agent.

Sales expenses

In 1Q24, CVC Corp's Sales Expenses grew 4.9% compared to 1Q23, and the main impacts described below:

(+) Allowance for Doubtful Accounts (ADA): in Brazil, the main impact of 1Q23 was the reversal of debts from airlines; disregarding such effect, the ADA showed a reduction of around 60%, reflecting the restructuring of the credit and collections department.

(+) **Marketing expenses** were higher than in 1Q23 due to the costs of the Sales Convention; however, the event had sponsorship from partners and suppliers, and this counterpart was accounted for in the Revenues line; considering the net value, expenses would have increased by roughly 20%, reflecting a higher expenditure on communication as a result of the "Estação Verão" ["Summer Season"] and "Liquida Férias" ["Vacation Sale"] campaigns as well as offers related to Consumer Month (March 2024).

(-) **Credit Card costs**, reduction of 6.7% in Brazil, the reduction comes from the reduction in reserves consumed in the period and the reduction in credit card rates due to the entry of a new acquirer.

(-) In the **Argentina** operation, there was a reduction in sales expenses due to a 50.6% decrease in sales volume, as noted in the confirmed reservations section.

General and administrative expenses

General and administrative expenses were down 20.6% when compared to 1Q23, due to better control of fixed expenses. In January 2024, a new structural adjustment was carried out, whereby we had a roughly 10% reduction in the Company's workforce, previously mentioned in 4Q23. Other Operating Revenues/Expenses recorded a positive amount of R\$ 2.1 million compared to a negative R\$ 1.5 million in 1Q23, due to a higher volume of write-offs of expired operational debts.

The non-recurring items totaled R\$ 3.2 million, mostly composed of reimbursement payments for airline tickets related to the Covid-19 pandemic and other expenses on outsourced services. In 1Q23, expenses totaled R\$ 11.5 million, mainly consisting of expenses on personnel resulting from indemnities incurred in the implementation of the restructuring plan.

EBITDA/adjusted EBITDA

R\$ million	1Q24	1Q23	۵%
Adjusted EBITDA	86.2	27.3	216.1%
Equity in net income of subsidiaries	(0.0)	(0.2)	-99.1%
Non-recurring items	(3.2)	(11.5)	-71.7%
EBITDA	83.0	15.6	431.1%

In 1Q24, CVC Corp recorded Adjusted **EBITDA of R\$ 86.2 million, with a margin of 27.2%** – a R\$ 58.9 million increase compared to 1Q23. We highlight the performance of the operation in Brazil, which recorded a growth of **R\$ 67.8 million**, evidencing operational efficiency and improved profitability, aimed at maximizing the creation of value on invested capital.

Financial income (loss)

Financial Result totaled R\$67.5 million in 1Q24, the reduction compared to 1Q23 is mainly due to financial expenses which reduced R\$30 million, due to: (i) reduction of R\$ 10 million in debt interest – a result of the renegotiation of debentures in April 2023; (ii) R\$ 18 million reduction in advance receivables costs – due to the lower volume advanced, given the lower working capital requirement (as explained below); and (iii) overall effect of the reduction in average CDI rate during the period, impacting costs and investment returns.

Net income and net income - Cash

Cash Net Income in 1Q24, which reflects the Net Income reported by the Company – adjusted for depreciation/amortization, Capex, and non-recurring items – was **positive at R\$7.3 million, a R\$106.6 million growth compared to 1Q23**. This is an important indicator, where we demonstrate the reconciliation below.

R\$ milhões	1T24	1T23	Δ
Lucro Líquido Caixa	7,3	(99,3)	107,4%
Itens Não Recorrentes	(3,2)	(11,5)	-71,7%
Depreciação / Amortização	(49,8)	(52,0)	-4,1%
Сарех	11,4	34,8	-67,3%
Lucro/Prejuízo Líquido	(34,4)	(128,0)	-73,1%

Comments on the main asset accounts

Current assets totaled R\$ 2,109.1 million as of March 31, 2024, compared to the balance of R\$ 2,301.4 million as of December 31, 2023.

As a percentage of the total assets, current assets accounted for 55.4% as of March 31, 2024 and 57.1% as of December 31, 2023.

Current liabilities totaled R\$ 2,269.5 million as of March 31, 2024 compared to a balance of R\$ 2,478.3 million as of December 31, 2023.

As a percentage of the total liabilities and shareholders' equity, current liabilities accounted for 59.6% as of March 31, 2024 and 61.5% as of December 31, 2023.

As of March 31, 2024, total shareholders' equity was R\$ 578.4 million compared to a balance of R\$ 608.0 million as of December 31, 2023. This decrease is mainly due to the income (loss) for the period.

Independent Auditor's Review Report on Quarterly Information

To the Shareholders, Board Members and Management CVC Brasil Operadora e Agência de Viagens S.A.

Introduction

We have reviewed the accompanying individual and consolidated interim financial information, contained in the Quarterly Information Form (ITR) of CVC Brasil Operadora e Agência de Viagens S.A. for the quarter ended March 31, 2024, comprising the statement of financial position as of March 31, 2024, and the related statements of profit or loss, of comprehensive income, of changes in equity and of cash flows for the three month period then ended, and the notes to the individual and consolidated interim financial information, including material accounting policies and other explanatory information.

Executive board's responsibility for the interim financial Information

Management is responsible for preparation of the individual and consolidated interim financial information in accordance with Accounting Pronouncement NBC TG 21 – Interim Financial Reporting, and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the fair presentation of this information in conformity with the rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the Quarterly Information Form (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review engagements (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the quarterly information referred to above are not prepared, in all material respects, in accordance with NBC TG 21 and IAS 34 applicable to the preparation of Quarterly Information Form (ITR), and presented consistently with the rules issued by the Brazilian Securities and Exchange Commission (CVM).

Other matters

Statements of value added

The abovementioned quarterly information include the individual and consolidated statement of value added (SVA) for the three month period ended March 31, 2024, prepared under Company's Management responsibility and presented as supplementary information by IAS 34. These statements have been subject to review procedures performed together with the review of the quarterly information with the objective to conclude whether they are reconciled to the interim financial information and the accounting records, as applicable, and if its format and content are in accordance with the criteria set forth by NBC TG 09 – Statement of Value Added. Based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the overall individual and consolidated interim financial information.

Going concern

As of March 31, 2024, the Company and its subsidiaries had negative net working capital of R\$ 228,442 in the parent company and R\$ 160,370 in the consolidated, and accumulated losses of R\$ 2,279,117.

Management constantly evaluates the profitability of operations and financial position. This assessment is based on a business plan that includes action plans for the continuous improvement of the performance of the Company and subsidiaries, including: continuous growth of operations, improvement in working capital management, which may include prepayment of credit card receivables with the approval of the acquirers and change in the terms for receipt of sales made through payment slips with bank finance companies.

As part of this assessment, the Company has been constantly adopting measures, such as reviewing its pricing policy, improving its profitability (take rate), and reducing the Company's financial cycle, through shorter average payment terms and partnerships with financial institutions to offer direct credit to our clients (credit marketplace). In addition, the Company has sought to optimize operational efficiency, with a view to streamlining processes and rightsizing operations.

Management assessed the Company's ability to continue as a going concern and believes that the Company has the necessary resources to allow the going concern of its business in the future. Additionally, management is not aware of any material uncertainty that may generate significant doubts about its ability to continue operating. Thus, these individual and consolidated financial statements were prepared based on the going concern assumption.

2. Basis of preparation and presentation of interim financial information

2.1 Statement of conformity

The interim financial information was prepared: (i) in the consolidated, in accordance with the accounting practices adopted in Brazil CPC 21(R1) and in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) (IAS 34) and (ii) in the Parent Company, in accordance with accounting practices adopted in Brazil CPC 21(R1).

The interim financial information, in this case, quarterly statements, is intended to provide an update based on the last complete annual financial statements. Therefore, they focus on new activities, events, and circumstances and do not duplicate previously disclosed information, except when Management deems it relevant to maintain certain information.

There were no changes of any nature in relation to the policies and estimate calculation methods applied on March 31, 2024, when compared to December 31, 2023.

The issue of individual and consolidated interim financial information was authorized by the Board of Directors on May 9, 2024.

2.2 Relevance statement

Pursuant to OCPC 07 - Evidencing upon Disclosure of General Purpose Financial-Accounting Reports and CVM Resolution 152/22, we disclosed all material information proper to the financial statements, and only it, is being evidenced, and corresponds to those used by Management for administration.

2.3 Functional and presentation currency

The individual and consolidated interim financial information is being presented in Reais, which is the functional currency of the Company.

2.3.1 Foreign transactions

For foreign subsidiaries that have a functional currency other than that of the Parent Company, revenues and expenses from operations abroad are translated to Real at the average monthly exchange rate, assets and liabilities are converted to Real at the exchange rates determined on the reporting date and shareholders' equity items are converted at the historical rate.

Non-monetary items that are measured at the historical cost in a foreign currency are translated using the foreign rate of the transaction date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rate on the dates that the fair value was measured. Gains or losses resulting from the translation of non-monetary items measured at fair value are treated in accordance with the recognition applicable to the gain or loss on changes in the item's fair value (i.e., translation differences for items for which the gain or loss in fair value is recognized in other comprehensive income or in income (loss) for the period are also recognized in other comprehensive income or in income (loss) for the period, respectively.

The differences in foreign currencies generated for the translation into the presentation currency are recognized in other comprehensive income and accumulated in the equity valuation adjustments in shareholders' equity account.

The table below describes the subsidiaries and their respective functional currencies. The definition of the functional currency was made based on the guidelines of CPC 02 (R2)/IAS 2. The USD was considered the currency of the economic environment in which these subsidiaries operate.

"Main economic environment" is defined as the environment in which an entity generates cash for conducting its activities and spends it by paying costs and expenses related to these activities. Considering that the US dollar is the basis not only for the formation of sales and negotiation prices with the clients of the companies, but also of the main costs necessary for its operations, it was understood that this currency is the one that best reflects the operations of the Company's subsidiaries in that country.

There was no change in the Company's or subsidiaries' functional currency in the period ended March 31, 2024.

2.3.2 Foreign currency transactions

Foreign currency transactions are translated into the respective functional currencies of the Group's entities at foreign exchange rates in force on transaction dates. Monetary assets and liabilities denominated in foreign currencies are retranslated at the foreign exchange rate of the functional currency in force on the balance sheet date.

Non-monetary items measured based on historical cost in foreign currency are translated using the exchange rate prevailing on the dates of the initial transactions. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rate at the date when the fair value is determined.

2.4 Measurement of fair value

The Group measures financial instruments such as derivatives and non-financial assets, at fair value on each balance sheet closing date.

Fair value is the price that would be received upon the sale of an asset or paid for the transfer of a liability in an non-forced transaction between market participants at the measurement date, on the primary market or, in the absence thereof, on the most advantageous market to which the Group has access on such date.

When one is available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is considered as active if the transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no price quoted on an active market, the Group uses valuation techniques that maximize the use of relevant observable data and minimize the use of non-observable data. The chosen valuation technique incorporates all the factors market participants would consider when pricing a transaction.

If an asset or a liability measured at fair value has a purchase price and a selling price, the Group measures assets based on purchase prices and liabilities based on selling prices.

All assets and liabilities for which the fair value is measured or disclosed in the interim financial information are classified at different levels in a hierarchy based on the information used in the valuation techniques, as follows:

- Level 1: Market prices quoted (not adjusted) in active markets for identical assets and liabilities;
- Level 2: Inputs, except for quoted prices, included in Level 1 which are observable for assets or liabilities, directly (prices) or indirectly (derived from price);
- Level 3: Inputs, for assets or liabilities, which are not based on observable market data (nonobservable inputs).

For assets and liabilities recognized in the interim financial information at fair value on a recurring basis, the Company and its subsidiaries determine whether transfers occurred between levels of the hierarchy, reassessing the classification (based on the lowest and most significant information for measuring the fair value as a whole) at the end of each period of interim financial information that presented changes. The best evidence of the fair value of a financial instrument upon initial recognition is usually the transaction price - i.e., the fair value of the consideration given or received. If the Group determines that the fair value upon initial recognition differs from the transaction price and the fair value is not evidenced by either a price quoted on an active market for an identical asset or liability or based on a valuation technique for which any non-observable data are judged to be insignificant in relation to measurement, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value upon initial recognition and the transaction price. This difference is subsequently recognized in income (loss) on an appropriate basis over the life of the instrument, or until such time when its valuation is fully supported by observable market data or the transaction is closed, whichever comes first.

3. Financial risk management

3.1 Financial risk factors

The Group's activities expose it to various financial risks:

a) Market risk (including foreign exchange risk and interest rate risk): it is the risk that alterations in market prices, such as foreign exchange, interest rates and prices of shares, will affect the Group's gains or the amount of its financial instruments.

b) Credit risk: it is the risk of the Group incurring financial losses due to a client or financial instrument counterparty, resulting from failure in complying with contract obligations. Such risk is basically due to Group's trade accounts receivable, and of financial instruments.

c) Liquidity risk: it is the risk of the Group encountering difficulties in performing the obligations associated with its financial liabilities that are settled with cash payments or with another financial asset.

The Management establishes principles, for risk management and for specific areas such as foreign exchange risk, interest rate risk, credit risk, use of derivative and non-derivative financial instruments and cash surplus investment.

3.1.1 Market risk

The Group uses derivatives to manage market risks. All of these transactions are conducted according to the guidance established by Group's financial area.

3.1.1.1 Foreign exchange risk

The Group's exposure to the risk of changes in exchange rates is applicable to current accounts, accounts payable, and arises from exchange-rate changes (mainly US dollars - USD and Euro - EUR against the Real). Foreign exchange risk can significantly impact the Group's future revenue, as advance sales of tourist packages and cultural exchanges include provisions for future payments to international land suppliers (hotels, receptive services and educational institutions), as well as the growing expansion of the operations of the Group in Argentina.

The Group's foreign exchange risk management policy is to hedge up to 100% of its expected foreign currency exposure for the next 12 months at any time. The Group uses foreign currency purchase contracts and NDF (non-deliverable forward) derivative contracts and foreign exchange swaps to hedge its foreign exchange risk, and most of which matures in less than one year from the balance sheet date.

Sensitivity analysis

In order to check the sensitivity of the index in current accounts in foreign currency and cash equivalents to which the Group was exposed on the base date of March 31, 2024 and December 31, 2023, three different scenarios were defined.

Based on projections released by the Central Bank of Brazil (BACEN), a foreign currency projection was obtained for each of the transactions analyzed and a sensitivity analysis of decrease and increase in foreign exchange rates was carried out considering three percentage scenarios, namely: probable 5% (scenario 1); 25% (scenario 2) and 50% (scenario 3). Considering the stress rates, the estimated accounting balances would be:

3.1.1.2 Risks of cash flow or fair value associated with interest rate risk

The Group's exposure to the risk of fluctuation in market interest rates is applicable mainly to cash equivalents, debentures, and loans, adjusted at CDI, which can affect profit or loss and cash flows.

The Group manages this risk through recurring cash projections, as well as income projections considering CDI projections (according to the BACEN FOCUS report) to assess any future cash needs and/or to contract any derivative protection instrument.

Sensitivity analysis

For the purpose of verifying the sensitivity of the index in cash equivalents and debentures, which the Group was exposed to on the base date of March 31, 2024 and December 31, 2023, three different scenarios were defined.

Based on projections released by the Central Bank of Brazil (BACEN), a foreign currency and CDI projection (10.65% as of March 31, 2024 and 11.65% as of December 31, 2023) was obtained for each of the transactions analyzed and a sensitivity analysis of decrease and increase in foreign exchange rates was carried out considering three percentage scenarios, namely: probable 5% (scenario 1); 25% (scenario 2) and 50% (scenario 3). Considering the stress rates, the estimated accounting balances would be:

3.1.1.3 Risks associated with advances to suppliers

As part of the tourism intermediation business, payments to airlines for the purchase of tickets, and payments for room bookings at some hotel chains in Brazil and abroad, are made in advance of the client's actual boarding, aiming to guarantee the availability, prices offered and special conditions to the bookings sold to our clients.

Accordingly, the Company has exposure to the credit and liquidity risk of these airlines and hotel chains, where, in the impossibility of any of these suppliers not complying with obligations to clients, it may result in the full loss of anticipated amounts, as well as lead to additional disbursement for the resettlement of clients on other airlines and hotel chains. In order to monitor this risk, the Group evaluates the solvency of its main suppliers and acts proactively in reducing this exposure through the renegotiation of its contracts and dates of service provision.

3.1.2 Credit risk

The Group is mainly exposed to credit risk related to cash and cash equivalents, trade accounts receivable, other accounts receivable, derivative financial instruments, and trade accounts receivable from related parties. The credit risk is minimized by the following policies:

(i) Cash and cash equivalents: the Group limits the amounts to be allocated to a single financial institution and analyzes credit ratings of financial institutions with which it invests balances of cash and cash equivalents.

(ii) Trade accounts receivable and others accounts receivable: The Group mitigates its risks through diversification of its trade accounts receivable by conducting sales using credit cards and sales of receivables in installments with financial institutions upon payment of a discount rate, in addition to conducting a financial background check for internal financing of its clients.

Additionally, the Group promotes sales through its own financing (own portfolio), limited to 80% of sale value where credit bureaus scores are evaluated, as well as a history of delinquency interns to define whether or not to grant credit. In the event of default, the Group may cancel the sale until the moment of departure, neutralizing any risk of loss. The table below shows the maximum credit risk exposure:

	Consol	lidated
	03/31/2024	12/31/2023
Cash and cash equivalents	440,157	482,830
Interest earning bank deposits	132,288	130,520
Derivative financial instruments	309	40
Trade accounts receivable	851,653	842,635
Other accounts receivable	111,242	51,575
Total	1,535,649	1,507,600

3.1.3 Liquidity risk

The Group's Treasury Department monitors the continuous forecasts of the Group's liquidity requirements to ensure it has enough cash to satisfy operating needs.

The surplus cash is invested in current accounts with incidence of interest, term deposits, short-term deposits and financial investments, choosing instruments with appropriate maturities or sufficient liquidity to provide margin as determined by the above predictions.

We present below the contractual maturities of financial liabilities on the date of financial information. These amounts are gross and do not have discounts deducted; moreover, they include contractual interest payments and exclude the impact of offset agreements:

3.2 Capital management

In order to maintain or adjust the capital structure, the Group can revise the receivables prepayment policy, dividend payment policy, return capital to shareholders or, also, issue new shares to reduce, for example, indebtedness level. Capital is not managed at the Parent Company's level but at the Consolidated level, as shown below:

The Group assessed that the fair values of cash and cash equivalents, trade accounts receivable, trade accounts payable, and short-term related parties are equivalent to their book values, mainly due to the nature and short-term maturities of the relevant instruments.

The Group uses the assumptions below for the fair value measurement and determination of financial assets and financial liabilities:

- Long-term receivables at fixed and floating rates are assessed by the Group based on parameters, such as: interest rate and individual client or counterparty creditworthiness. As of March 31, 2024 and December 31, 2023, the book value of these receivables approximates their fair values, which are estimated through discounted future cash flows using currently available rates (fixed and floating rates).
- The fair value of instruments for which there is no active market, such as debentures, derivative financial instruments, suppliers, accounts payable with related parties and for the acquisition of subsidiaries, are estimated through discounted future cash flows using rates currently available for debt with similar and remaining terms.

3.4 Financial and derivative instruments

Due to the uncertainties regarding the settlement term of the financial instruments that are the object of a hedge, we did not designate the instruments for hedge accounting. Gains and losses on the fair value of financial instruments are recognized in profit or loss for the period.

The table below shows the open positions, consolidated by maturity date, of NDF contracts used to hedge foreign exchange risk:

Cash equivalents are represented by highly liquid interest earning bank deposits subject to low risk of change in value and relating to investments in CDBs and fixed-income repurchase and resale agreements, yielding interest based on the interbank deposit certificate (CDI) rate which as of March 31, 2024, presented an annual remuneration average rate of 10.65% (11.65% as of December 31, 2023).

Investments in Bank Deposit Certificates (CDBs) and fixed income operations that do not have immediate liquidity are presented under interest earning bank deposits and are measured at fair value through profit or loss.

The breakdown of the credit card administrator's line is forward sales using credit cards which are received in installments that do not exceed one year. Such installments are not subject to explicit interest rates, and the credit risk is assumed by the credit card companies.

Trade accounts receivable refer to the sale of installment receivables to financial institutions that structure and negotiate financial services to the Group's clients. The financial risks and rewards arising from these transactions are transferred to the financial institutions upon sale, and receivables are transferred in invoices from partners that maintain operations with the group.

Trade accounts receivable by own financing correspond to sales using internal financing offered to clients. Upon loss in this type of financing is assumed by the Company, the risks are not transferred and the expected losses are recognized in the statement of income, only in cases where the service provision can no longer be canceled, under "impairment of accounts receivable". (The credit risk management policies are described in Note 3.1.2)

Airline refunds correspond to refunds paid for requests made by clients.

The Group made prepayments of credit card receivables that were part of its accounts receivable balance during the period ended March 31, 2024. As the risks associated with said receivables were transferred to financial institutions, the balance of these receivables was written-off. On the base date March 31, 2024, said amounts totaled R\$ 736,083 (R\$ 706,607 as of December 31, 2023) in the parent company and R\$ 846,436 (R\$ 813,456 as of December 31, 2023) in the consolidated. Financial charges on these transactions are recorded under financial expenses and described in Note 21.

6. Advances to suppliers

Advances to suppliers are represented by payments to airlines for the purchase of airline tickets and advance payments to major hotel chains, most of which are international, aiming to guarantee the availability and prices offered for bookings sold to our clients.

4th Issue

On April 18, 2019, the Group carried out the 4th Issue of Simple Debentures, non-convertible into shares, of the unsecured type, in two series, the first one composed of 458,700 debentures and the second one composed of 250,000 debentures, both with a unit value of R\$ 1,000, with remuneration interest equivalent to 108.50% and 111.50% (respectively) of the accumulated changes in the average daily rates of the CDI rate, base of 252 business days, with the following characteristics and conditions:

- a) Remuneration interest was calculated using the formula stated in the Deed of Issue and paid on a semi-annual basis;
- b) The associated transaction costs were allocated as a reduction in liabilities and recognized as financial expenses. There are no guarantees linked to this debenture.

Without prejudice to early settlement, under the terms provided for in the Deed of Issue, the unit face value of the 1st series of debenture will be amortized in a single installment, maturity on April 18, 2023. And the unit face value of the 2nd series of debentures will be amortized in two installments, maturing on April 18, 2024 and April 18, 2025. The remuneration interest installments are due on a on a two-yearly basis, with dates between October 18, 2019 and April 18, 2025.

5th Issue

As of January 21, 2021, the 5th issue of debentures non-convertible into shares, in a single series, and subject to public distribution with restricted distribution efforts was approved in a meeting of the Company's Board of Directors.

Issue of debentures was completed on January 28, 2021 with the funding of R\$ 436,405 and maturity on June 1, 2023, except for the hypotheses provided for in the Issue Deed, with interest remuneration equivalent to 100.00% of accumulated changes in DI average daily rates plus surcharge equivalent to (i) 3.75% in the year between first Payment Date (inclusive) and October 1, 2021 (exclusive); and (ii) 5.75% p.a. in the year from October 1, 2021 (inclusive) and Maturity Date (exclusive).

The raised funds were fully used to prepay the Issuer's financial liability deriving from instruments entered into by the Issuer, as debtor, Citibank N.A., as creditor, and Banco Citibank S.A., as the consenting intervening party.

The Issuer's General Debenture Holders Meeting, held on May 23, 2022, resolved and approved (i) the postponement of the payment date of the first installment of the balance of the unit face value of the debentures, which would be due on June 1, 2022, becoming due on June 30, 2022 (ii) the postponement of the payment date of the interest on the debentures, which would be due on June 1, 2022, becoming due on June 30, 2022. The new Issuer's General Debenture Holders Meeting, held on June 27, 2022, resolved and approved (i) the extension of the payment of part of the amount that would be due on the first payment date (June 30, 2022), so that the amortization of the balance of the unit face value of the debentures will be carried out in three installments, with the payment of R\$ 100,000 on June 30, 2022, R\$ 100,000 on April 7, 2023 and R\$ 192,765 on June 1, 2023.

Reprofiling of debentures

On March 10, 2023, a Notice to Debenture Holders was communicated to the market through a Relevant Fact, an agreement with the debenture holders for debt reprofiling, lengthening its profile and reducing indebtedness.

On April 6, the company amortized R\$ 124,366 and entered into the amendments to the respective deeds of the Debentures. The Meetings were attended by debenture holders representing 77.8% of the outstanding first series debentures of the 4th issue, debenture holders representing 96.5% of the outstanding second series debentures of the 4th issue and debenture holders representing 100% of the outstanding debentures of the 5th issue. The proposed reprofiling terms and conditions were approved by all debentureholders present.

As of June 22, 2023, the Company successfully completed the capital increase of R\$ 549,999.

In line with the scope of the agreement signed with the debenture holders regarding the re-profiling, the Company carried out a tender offer of R\$ 75,000 on September 22, 2023 for the re-profiled Existing Debentures.

Interest on the reprofiling debentures will be paid semi-annually, with the first payment to be made on May 31, 2024. After reprofiling, the two series of the 4th issue, CVCB14 and CVCB24, were unified under a single code, CVCB14, with new features, just as the 5th issue had its conditions changed, as presented in the summary table below:

Covenants

New covenants were also negotiated, to be measured as of December 31, 2023, as well as guarantees linked to the Company's receivables:

Financial ratio to be observed
(i) Limit of dividends of 25% per annum;
(ii) CAPEX limitation of R\$ 125,000,000.00 per year, calculated annually based on entries related to the addition of intangible assets and property, plant and equipment determined in the cash flow from investment activities at the end of each year;
(iii) Net Debt - Receivables / EBTIDA ≤ 3.5× to be calculated quarterly from December 2023 (inclusive) to December 2024 (inclusive);
Net Debt - Receivables / EBTIDA \leq 3.0× from March 25 (inclusive) to December 2025 (inclusive);
Net Debt - Receivables / EBTIDA ≤ 2.5× quarterly from March 26 (inclusive) until the maturity date.

On March 31, 2024, the ratio was (0.1), demonstrating control over the Company's debt.

 (b) Giril Javanita generality and tax in the following metrics: flight delays and appeal demograd demograd following requiring the provider of Ola.

(b) Civil lawsuits generally deal with the following matters: flight delays and cancellations, lost and damaged luggage, failure or flaws in providing services, contractual termination (fines imposed, reimbursement, among others) and changes to routes and itineraries.

13.1 Contingent liability provision for Argentine subsidiaries

During 2023, the Company engaged legal advisors who investigated a contingency assessed as a 'probable risk of loss' of R\$ 54,223. The Company and its legal advisors will continue to monitor this matter.

13.2 Contingent liabilities

Labor, tax and civil lawsuits whose likelihood of loss was classified as possible totaled R\$ 720,591 as of March 31, 2024 (R\$ 706,044 as of December 31, 2023) and as a result, the provision was not formed. The main lawsuits are:

Tax deductibility of goodwill

Collection of IRPJ and CSLL related to alleged undue amortization of goodwill, financial expenses and impact on Interest on Own Capital, in the years of 2014, 2015 and 2016, in addition to isolated fines, at the total inflation-corrected amount of R\$ 423,844 as of March 31, 2024 (R\$ 411,327 as of December 31, 2023).

On May 27, 2020, the members of the 12th Judges Panel of the Federal Revenue Service of Brazil decided, by unanimous vote, to partially sustain the objection filed by the Company during the administrative proceeding initiated by the tax assessment notice.

This decision (still in the first instance, at the administrative level) provisionally canceled the accounting entries relating to the amortization of goodwill, interest on own capital and qualification of the fines applied, but maintained the collections referring to disallowances of earn-out amortization, financial expenses, and aggravation of the official fine, as well as isolated fines. The Treasury filed a Voluntary Appeal for the matters deemed ungrounded on the Judges Panel, and the Company appealed the portion maintained in the tax assessment notice by the Judges Panel. Both appeals are pending decisions.

Income tax on share-based payment

On October 18, 2017, Management decided, on a preventive basis, to file a lawsuit against the Brazilian Federal Government regarding the possible taxation of existing stock options as remuneration, defending the mercantile nature of the contract.

The value of the updated tax exposure of CVC and the participants is R\$ 263,426, with a chance of loss considered as "possible", as assessed by the Company's legal advisors.

This lawsuit is in cognizance stage. In October 2017, a decision was handed down that upheld the request for interim relief made by CVC and the beneficiaries to determine that the federal government refrain from demanding: (I) CVC's social security contributions and third-party contributions; (II) fine for alleged absence of income tax withholdings owed by the participants; and (III) income tax owed by the participants. However, in August 2019, part of the interim relief was reconsidered, which resulted in the partial rejection thereof. CVC filed an appeal for the reversal of the decision, which is pending judgment.

Income tax at the rate of 27.5% was subject to a judicial deposit, in order to guarantee the judgment for the years subsequent to the filing of the lawsuit; for previous years, the deposit consisted of the difference between the 27.5% rate and the income tax on capital gains already paid by the participant (15%). The restated balance in March 2024 is R\$ 120,904 (R\$ 122,813, on December 31, 2023).

Lawsuits and proceedings (Civil)

At the administrative level, the Company is subject to inspections and assessments by regulatory/administrative bodies, even though it is not part of a regulated market. In the judicial level, the lawsuits focus on issues arising from consumer relations with clients and demands filed against regulatory/administrative bodies. As of March 31, 2024, the Group has legal discussions related to a tax assessment notice filed by Procon-SP linked to the collection of fines and fees applied in cases of changes in contracting or contractual termination. The risk of loss is assessed as possible totaling R\$ 18,601 for March 2024 (R\$ 17,540 as of December 31, 2023).

CVC Corp is a defendant in arbitration proceedings (in progress), in which the plaintiffs allege the need to pay compensation for damages caused by their former administrators. In the event of a conviction, the Company may be required to pay any damages that may be awarded, in accordance with the terms to be established by the court of arbitration, if applicable.

Lawsuits (labor)

This is a labor lawsuit, distributed [to the respective judge(s)] in March 2022, with an updated estimate of possible loss of R\$ 14,721 in March 2024 (R\$ R\$ 14,594 on December 31, 2023). The main requests are: (i) pain and suffering and property damage due to alleged discrediting information in the media, considering that such disclosures are making it difficult for the claimant to return to the job market; (ii) property damage due to payment of bonuses and Stock Option. The case is still awaiting hearing and trial.

The Company's main judicial deposit refers to the lawsuit on the share-based payment, presented in Note 13.1. As of March 31, 2024, the accumulated balances of judicial deposits total R\$ 91,115 (R\$ 90,594 as of December 31, 2023).

14. Income tax and social contribution

The consolidated income tax and social contribution expenses are recognized, in each legal entity, at an amount determined by multiplying the income (loss) before tax for the interim reporting period by the management's best estimate of the weighted average annual income tax and social contribution rate expected for the full year, adjusted for the tax effect of certain Items fully recognized in the interim period.

As such, the effective tax rate in the Interim financial information may differ from management's estimate of the effective tax rate in the annual financial statements.

14.2 Deferred income tax and social contribution assets

On March 17, 2022, the National Congress overturned the partial veto of Law 14148/21 ("PERSE Law"), including Article 4, which provides for a zero rate for the following taxes: PIS, COFINS, CSLL, IRPJ. As a result of said change, which became effective as of the enactment by the President of the Republic on March 18, 2022, Management reviewed its deferred tax balances, recording them according to their estimated realization rate.

Changes in deferred income tax and social contribution credits are as follows:

The breakdown of Viatrix's balance refers to accounts payable for the acquisition of capital, which has been adjusted at 100% of CDI rate with maturity up to 2027. The Company considers this acquisition as a related-party transaction since former officers are current shareholders of the Group.

The breakdown of Esferatur's balance refers to accounts payable for the acquisition of capital, which has been adjusted at 100% of CDI rate with maturity up to 2024. The Group considered this acquisition as a transaction with related parties, given that former officers are current shareholders of the Group.

16. Shareholders' equity

16.1 Capital

As of March 31, 2024, the subscribed capital totals R\$ 1,755,264 (R\$ 1,755,264 as of December 31, 2023), represented by 525,591,097 (525,591,097 as of December 31, 2023) common shares with no par value.

16.2 Stock option plan

The Group grants remuneration in the form of share-based payment to its key executives and administrators. Estimates of share-based payments' fair values require the most adequate evaluation method for the granting of equity instruments, as well as the use of sundry assumptions, which depends on grant terms and conditions.

The expenses of these transactions are recognized in Income (general and administrative expenses) to the extent that the service is provided against the reserve for share-based payments, in shareholders' equity.

The strike price of options granted is the fair market value of the shares at the time of granting the options, adjusted according to the changes in the Extended National Consumer Price Index (IPCA) up to the exercise date.

Furthermore, beneficiaries must maintain their employment relationship, as defined by the Company's share-based payment plan year to the exercise of the option granted, and must comply with the one-year lock-up period after the acquisition date.

The options are exercisable in up to 10 years. After the granting date, the options for which the exercise rights have been acquired must be exercised within 90 days from the date of departure from the Company.

16.3 Incentive plans

At the Annual and Extraordinary General Meeting held on April 28, 2017, the Company's shareholders approved the "Long-Term Incentive and Company Share-Based Retention Plan - CVC" ("ILP CVC"), designed for the Company's current and future officers, officers of subsidiaries, and certain employees of the Company or subsidiaries (high-potential managers).

Under the terms of the ILP CVC plan, to be entitled to the right to receive restricted shares of the Company, the participants, at their sole discretion, must use a percentage of their variable remuneration ("PPR") to acquire shares issued by the Company on the secondary market of B3 (Brazil's stock exchange). If participants have used their variable remuneration to acquire shares issued by the Company's Board of Directors will grant them the right to receive several restricted shares, at no cost to the participant, after the lock-up year, as follows:

(a) if the participant has used up to 50% of the net amount of his/her variable remuneration in the acquisition of shares on the secondary market, the Company will transfer to that participant several restricted shares that will correspond to the same number (100%) of shares acquired on the secondary market;

(b) if the participant has used more than 50% and up to 75% of the net amount of his/her variable remuneration in the acquisition of shares on the secondary market, the Company will transfer to that participant several restricted shares that will correspond to 125% of the number of shares acquired on the secondary market; and

(c) if the participant has used more than 75% of the net amount of his/her variable remuneration in the acquisition of shares on the secondary market, the Company will transfer to that participant several restricted shares that will correspond to 150% of the number of shares acquired on the secondary market.

Participants will be entitled to receive the restricted shares, and the Company will have the obligation to transfer such restricted shares only after the lock-up year has elapsed. For purposes of the ILP CVC, the lock-up year means the year of three years from the date of acquisition of the Own Shares by the Participant, duly demonstrated to the Company by proof of acquisition of the shares on the secondary market, during which time the participant cannot sell, transfer, rent, assign, pledge or offer as collateral any such shares acquired on the secondary market, otherwise, at the end of such year, the Company will not transfer the restricted shares to the participant.

At the Company's Annual and Extraordinary General Meeting held on April 30, 2019, the Company's shareholders approved changes in certain terms and conditions to the Long-Term Incentive and Share-Based Retention Plan (ILP CVC).

The ILP CVC, with the changes now proposed (known as the New ILP CVC), preserves its characteristics, including with respect to its purpose and management rules. The main changes proposed in the New Long-Term Incentive Plan are summarized below:

(i) Expansion of the list of people eligible for the plan, which also includes officers, (whether statutory or employed) of subsidiaries or companies directly or indirectly controlled by the Company, up to 100%, according to performance;

(ii) expansion of the limit of employees (high-potential managers) of the Company, of subsidiaries, or companies controlled directly or indirectly by the Company, who are eligible to participate in the plan, from 20% (twenty percent) to 30% (thirty percent) of the total number of managers;

(iii) change of the maximum dilution limit from 0.3% (zero-point-three percent) per annum for an year of ten years, totaling 3% (three percent) of the total shares issued by the Company, to a maximum dilution of 3% (three percent) accumulated in the year of up to six years;

(iv) inclusion of a restriction year of 12 months after the acquisition as a condition for the eligibility of "Eligible Persons" from companies wholly or partially acquired by the Company;

(v) creation of a delivery plan for restricted shares without matching, limited to 20% of the dilution provided for in the program with matching.

2020 CEO Incentive Plan

At the Extraordinary General Meeting on March 24, 2020, a new 2020 CEO Share-Based Incentive Plan (ILP CEO 2020) was approved for the Company's new CEO. Under the terms of the ILP CEO 2020, the eligible executive will be entitled — subject to certain conditions described in the Plan — to receive restricted shares of the Company in a non-onerous manner.

The 2020 CEO Incentive Plan, which follows the model of restricted shares, provides for the gradual delivery of shares issued by the Company to the beneficiary, subject to his/her permanence at the Company, following the schedule indicated in the document, which establishes the following: (i) the delivery of 1/3 of the shares within 30 days of signing the respective concession contract; (ii) the delivery of 1/3 of the shares within one year of signing the contract; and (iii) the delivery of 1/3 of the shares within two years of signing the contract.

2020 ILP PLAN

At a meeting held on December 16, 2020, the Company's Board of Directors, among other matters, approved the ILP 2020 proposal, which aims to reward participants who contribute to the Company's better performance and stock appreciation, especially considering the current challenging moment in the economy, in which the Company plays a major role in the resumption of the tourism sector.

ILP 2020 does not cancel or modify any of the Group's other share-based option or remuneration plans currently in force. Thus, the ILP 2020 plan seeks to (i) align the interests of the Group's shareholders with those of the participants in the success and achievement of the corporate goals of the Company and its Subsidiaries; and (ii) make it possible for the Company and its Subsidiaries to attract and keep participants linked to it.

Employees and administrators who are key executives of the Company and Subsidiaries appointed by the Board of Directors may participate in the ILP 2020 plan, regardless of their hire date as an employee or whether or not they hold a position in the Group's management.

a. Potential beneficiaries

Employees and administrators who are considered key executives of the Company and the Subsidiaries and who are appointed by the Board of Directors ("participants") will be the beneficiaries of the plan.

b. Maximum number of shares covered by the plan

The maximum total number of restricted shares that may be delivered under the ILP 2020 plan is 8,000,000 (eight million) Company-issued shares ("reference shares"). The total number of shares that will be delivered to the participants will depend on the calculation made under the terms of the ILP 2020.

c. Non-vesting conditions

The granting of reference shares to participants within the scope of ILP 2020 will be free of charge and will be subject to (and will depend on) fulfillment and/or verification, as the case may be, of the terms and conditions provided for in ILP 2020 and in the contracts that are signed with the participants ("contract").

Each contract will include several reference shares in relation to which the respective participants will have their remuneration calculated in shares ("share-based remuneration"). The number of shares to be delivered to each participant as share based remuneration will be

The number of shares to be delivered to each participant as share-based remuneration will be calculated as follows:

Number of shares =
$$\frac{[(A - B) * C] - D}{A}$$

Where:

(A) corresponds to adjusted price (value of each share issued by the Company calculated based on arithmetic average of closing price of the last 30 (thirty) trading sessions in which shares were traded at B3, counting retroactively from delivery date or from each advanced date);

(B) corresponds to initial price (calculated based on arithmetic average of closing price in 30 (thirty) trading sessions immediately prior to November 11, 2020);

(C) corresponds to the number of reference shares granted to the participant; and

(D) corresponds to withheld income tax and/or any other taxes on share-based remuneration that are owed by participants. Payment of share-based remuneration will be mandatorily and partially advanced to participants on dates ("advance date") and at percentages below, provided that, on those dates, adjusted price is higher than reference price (initial price plus 10%):

Advance date	Percentage of Share-based Remuneration Liable to Advance
03/31/2021	10%
03/31/2022	15%
03/31/2023	20%
03/31/2024	25%

TALENT LONG-TERM INCENTIVE PLAN (TALENT LTI)

At the Company's Extraordinary General Meeting held on September 28, 2021, the new Sharebased Long-Term Incentive Plan was approved for Company's employees at the Director, Executive Manager, Manager, Coordinator and Specialist levels, recommended by the Management Committee and approved by the Company's Board of Directors ("Talent LTI").

The Talent LTI establishes the terms and conditions for the annual grant to Participants of Units by the Company that may, at the end of the grace period and in compliance with the terms set forth therein, result in the granting of Restricted Shares to Participants.

The plan is divided into four Programs, which will be issued annually upon resolution of the Board of Directors, subject to the following provisions: (i) the Participants; (ii) the number of Units object of the respective Program; and (iii) the number of monthly salaries per position level to be considered for the Participants' monthly salary multiple.

For each Program, the eligibility of each Participant will be subject to the evaluation and ratification by the Management Committee, which will consider the individual performance of each Participant in the Company, and subsequent approval by the Company's Board of Directors.

Restricted Shares may be granted within the scope of this Plan up to a maximum of 1.8% of the total Shares of the Company's capital on the date of approval of the Talent LTI. The number of Restricted Shares granted to Participants must be adjusted upwards or downwards to restore the amounts originally granted as a result of the split, reverse split or stock bonus. Aiming to honor the payment of the Share-based Remuneration due to the Participants, the Company may use treasury shares or, alternatively, as long as it is previously approved by the Board of Directors, fulfill such obligation by delivering the amount in cash equivalent to the Share-Based Remuneration to the Participant, calculated according to the Talent LTI, the Program and each Contract.

In compliance with the terms set forth in the Talent LTI and in the Programs, the Participant will receive, free of charge, a number of Units corresponding to the quotient of the division of a certain multiple of the Participant's monthly salaries by the Market Price of the Share. For clarification purposes, the determination of the number of Units to be granted will be calculated as follows:

Número de Unidades = $\frac{MSM}{CMA}$

Where:

"MSM" = Multiple of the Participant's monthly salaries; and

"CMA" = Market Price of the Share.

The Units granted to each Program will have a grace period of three (3) years from the Grant Date of each Program, which will be divided into three (3) installments, according to the schedule provided in the Management Proposal attached to the minutes of the Extraordinary General Meeting that approved the Talent LTI to give the right to receive Restricted Shares.

The Talent LTI replaces the Long-Term Incentive and Retention Share-Based Plan approved at the Company's Extraordinary Shareholders' Meeting held on April 28, 2017 ("2017 LTI Plan"), provided that the contracts for the granting of restricted shares and other agreements entered into within the scope of the 2017 LTI Plan will be maintained in relation to the respective participants until its full settlement under the terms provided therein.

2023 LONG-TERM INCENTIVE PLAN

At the Company's Extraordinary General Meeting held on April 28, 2023, the new Long-Term Incentive Plan based on restricted shares was approved, with the members of the Executive Committee of CVC Corp as participants appointed by the Management Committee (as defined in ILP 2023) and approved by the Board of Directors of CVC Corp, regardless of their date of admission as an employee or tenure as a director of CVC Corp, with the purpose of rewarding participants who contribute to the better performance of CVC Corp and, consequently, to the appreciation of its shares ("ILP 2023").

The 2023 Talent LTI establishes the terms and conditions for the annual grant to Participants of Units by the Company that may, at the end of the grace period and in compliance with the terms set forth therein, result in the granting of Restricted Shares to Participants.

The plan is divided into three Programs, which will be issued annually upon resolution of the Board of Directors, subject to the following provision: (i) the Participants; (ii) the number of Units object of the respective Program; and (iii) the number of monthly salaries per position level to be considered for the Participants' monthly salary multiple.

For each Program, the eligibility of each Participant will be subject to the evaluation and ratification by the Management Committee, which will consider the individual performance of each Participant in the Company, and subsequent approval by the Company's Board of Directors.

Restricted Shares may be granted within the scope of this Plan up to a maximum of 1.62% of the total Shares of the Company's capital on the date of approval of the 2023 LTI. The number of Restricted Shares granted to Participants must be adjusted upwards or downwards to restore the amounts originally granted as a result of the split, reverse split or stock bonus. Aiming to honor the payment of the Share-based Remuneration due to the Participants, the Company may use treasury shares or, alternatively, as long as it is previously approved by the Board of Directors, fulfill such obligation by delivering the amount in cash equivalent to the Share-Based Remuneration to the Participant, calculated according to the 2023 LTI, the Program and each Contract.

Pursuant to CPC 10 – Share-Based Payment, the Company changed the old ILP COMEX 2020 plan to the ILP COMEX 2023 plan. Thus, following the precepts of the accounting standard, the incremental fair value arising from the new grant was calculated (difference between the fair value of the new equity instruments given in replacement and the net fair value of the canceled equity instruments on the date of grant of the new equity instruments given in replacement).

16.4 Goodwill in capital transactions

As of March 31, 2024 and December 31, 2023, the balance of "Goodwill on the capital transactions" account is R\$ 183,846 and refers to the goodwill on the acquisition of the non-controlling interest.

16.5 Treasury shares

Own equity instruments that are bought back (treasury shares) are recognized at cost, and deducted from shareholders' equity. No gain or loss is recognized in the income statement on the purchase, sale, issue or cancellation of the Company's equity instruments. Any difference between the book value and the consideration is recognized in capital reserves.

As of March 31, 2024, the Company had 8,326 treasury shares (8,326 as of December 31, 2023) totaling R\$ 120 (R\$ 120 as of December 31, 2023). Changes in this caption refer to repurchase of shares and to transfers to beneficiaries of share-based payment plans described in Note 16.3.

17. Related party transactions

Transactions between related parties comprise mainly transactions related to sale of airline tickets, hotel bookings, other tourist services at cost value and current account between the Parent Company and its subsidiaries.

26. Reportable segment

CPC 22 (IFRS 8) - Information per Segment requires disclosure of information on the entity's Operating Segments derived from the internal reporting system and used by the entity's main operational decision maker to decide on resources to be allocated to segments and evaluate their performance. The best way of assessing the nature and financial effects of business activities in which they are involved and economic environments in which they operate is by geographic location. Therefore, the opening is made with Brazil and Argentina. Income (loss) is periodically reviewed by the Group's Board of Directors, which is the main operational decision maker in CPC 22 (IFRS 8) concept.
