Public-held Company

NOTICE TO THE MARKET

ATACADÃO S.A. (B3: CRFB3) ("Grupo Carrefour Brasil" or "Company"), hereby announces to its shareholders and to the market in general that, in an unprecedented partnership with the Federal Government, supported by the Ministry of the Environment and the Chico Mendes Institute for Biodiversity (ICMBio), the Company signed today an agreement to sponsor one of the 132 Environmental Conservation Units in the Amazon rainforest.

Through the federal government's "Adopt-a-park" program ('Adote 1Parque'), which aims to raise funds directly for the conservation of parks in the Legal Amazon, the Company will develop an action plan to apply the invested funds to the protection and monitoring of the biome, the prevention of fires and deforestation as well as the restoration of degraded areas, among other initiatives.

The Company is a pioneer of this initiative in the country, earning the title of "Partner of the Amazon" and committing to an investment of R\$ 3.7 million for the environmental protection of an area of approximately 75,000 hectares at Resex do Lago do Cuniã, in the state of Rondônia.

The model, which is already applied in countries such as the USA, provides companies and individuals, both local and international, with the opportunity to adopt a Conservation Unit (CU) and to act for its preservation for between one and five years. Donations are sent by the donor directly to the CUs, ensuring total transparency and guaranteeing that the donated services and products will reach the territory.

This initiative reinforces the commitment of Grupo Carrefour Brasil to the preservation of the environment and is in line with the Sustainable Development Goals of the UN's 2030 Agenda. In line with the Company's strategy, this is another step in the defense of zero deforestation - a global commitment assumed by Carrefour Group since 2010 -, to promote biodiversity and sustainable production.

São Paulo, February 9, 2021.
