Independent auditor's review report on quarterly information

The Shareholders and Officers

C&A Modas S.A. Barueri - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information, contained in the Quarterly Information Form (ITR) of C&A Modas S.A. (the "Company") for the quarter ended June 30, 2022, comprising the statement of financial position as at June 30, 2022 and the related statements of profit or loss and of comprehensive income (loss) for the three and six-month periods then ended, and the statement of changes in equity and cash flows for the six-month period then ended including the explanatory notes.

Management is responsible for preparation of the individual and consolidated interim financial information in accordance with Accounting Pronouncement NBC TG 21 Interim Financial Reporting, and IAS 34 Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the fair presentation of this information in conformity with the rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the Quarterly Information Form (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Review Engagements (NBC TR 2410 and ISRE 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the quarterly information referred to above was not prepared, in all material respects, in accordance with NBC TG 21 and IAS 34 applicable to the preparation of Quarterly Information Form (ITR), and presented consistently with the rules issued by the Brazilian Securities and Exchange Commission (CVM).

Other matters

Statements of value added

The above-mentioned quarterly information includes the individual and consolidated statements of value added (SVA) for the six-month period ended as at June 30, 2022, prepared under Company's Management responsibility and presented as supplementary information by IAS 34. These statements have been subject to review procedures performed together with the review of the quarterly information with the objective to conclude whether they are reconciled to the interim financial information and the accounting records, as applicable, and if its format and content are in accordance with the criteria set forth by NBC TG 09 Statement of Value Added. Based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the overall individual and consolidated interim financial information.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

1. Operating Context

C&A Modas S.A. (hereafter the "Company" or "Controlling Entity") has its main offices located at Alameda Araguaia, 1,222 - Barueri - São Paulo - Brazil. The Company is a traded company, currently 34.2% of its shares are traded on the B3 Brazilian stock exchange (São Paulo – Brazil) under the ticker "CEAB3". The ultimate parent company is COFRA Holding AG headquartered in Switzerland.

The primary activities of the Company and its subsidiary are:

- Online and B&M retail sales of apparel, footwear, accessories, cell phones, watches, costume jewelry and cosmetics, among others.
- Financial intermediation services in the form of credit to finance purchases, issuing credit cards and personal loans, and intermediation in brokering and promoting the distribution of insurance, capitalization bonds, and related products offered by insurers and other third parties offering of such products
- Proprietary payment institution activities.
- Apparel manufactured by third parties at their own facilities, with C&A supplying the inputs, and products distributed solely to the parent company

The company sells its goods in 329 stores (319 stores and 4 mini-stores on December 31, 2021), supplied by 7 logistics operations and 4 distribution centers located in the states of São Paulo, Rio de Janeiro and Santa Catarina. The Company also sells its goods through numerous forms of e-commerce:

- Deliveries made directly from the distribution center in São Paulo to the customer's location;
- Click-and-collect, where customers choose a store to pick up their goods;
- Ship-from-store, where goods are shipped from one of the stores to the location chosen by the customer.

The non-financial data included in these financial statements, individual and consolidated, such as number of stores and distribution centers, among others, have not been audited nor reviewed by our Independent auditors.

2. Basis of Preparation

The Company's individual and consolidated interim financial statements for the quarter ended June 30, 2022 were prepared based on accounting practices adopted in Brazil, in accordance with Brazilian Accounting Standard NBC TG 21 (R4) - Interim Statement issued by the Federal Accounting Council ("CFC") which is correlated to the international financial reporting standard (IFRS) IAS 34 - Interim Financial Reporting Standards issued by International Accounting Standards Board - IASB, and guidelines from the Brazilian Securities and Exchange Commission ("CVM").

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

The individual and consolidated financial statements were prepared based on a historical cost basis, except for certain financial instruments measured at fair value, and based on the premise of a going concern of the consolidated entities. All the data relevant to the interim individual and consolidated financial statements, and only this data is disclosed, and corresponds to the data used by Management in managing Company activities, as per Technical Instruction OCP C07.

Management has assessed the Company's ability, and that of its subsidiaries, to continue normal operations, and is convinced they have the resources to remain as a going concern. Furthermore, Management is unaware of any material uncertainty that might create significant questions regarding its ability to remain a going concern. Thus, these interim financial statements were prepared based on an assumption of a going concern.

On August 08, 2022 the Board of Directors authorized the issuing of the individual and consolidated interim financial statements for the period ended June 30, 2022.

The interim financial statements are submitted in thousand Reals (R\$), which is the functional and statement currency of the Company and its subsidiaries. Transactions in foreign currency are initially recorded at the exchange rate of the functional currency in effect on the date of the transaction. Foreign-currency denominated monetary assets and liabilities are converted using the functional currency exchange rate in effect on the date of the Statements of Financial Position. All differences are recorded in the Statement of Operations.

The presentation of the Statement of Added Value (SAV), individual and consolidated, is required by Brazilian Accounting Standard NBC TG 09 - Statement of Added Value - applicable to publicly held companies. IFRS does not require the presentation of this statement. Consequently, by IFRS, this statement is presented as supplementary information, without prejudice to the set of interim financial information. The purpose of the SVA is to demonstrate the wealth created by the company during the period and demonstrate how it was distributed to the various players.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

Impact of COVID-19

Following a period of uncertainty regarding the pandemic, the scenario is now stable. All our stores are working normal hours, and sales have consistently recovered. Management is monitoring the situation and from time to time updates its financial projections, which are used to measure and assess the sufficiency of accounting estimates.

When preparing the interim financial statements for the quarter ended June 30, 2022 the Company made no specific assessment for the pandemic situation. However, it is closely following relevant themes such as liquidity, inventory, tax recovery, and expenses in general, which it monitors on a daily basis.

3. Basis for Consolidation

Consolidated interim financial statements include the Company's operations and those of its subsidiaries Orion Companhia Securitizadora de Créditos Financeiros S.A. and Moda Lab Ltda. (known as 'subsidiaries' or "subsidiary", or just Orion or Mode Lab when addressed in isolation).

The Company analyzes whether or not is controls a subsidiary if facts and circumstances indicate that one or more of the following elements of control have changed:

• Power over the subsidiary (e.g. existing rights that ensure the current ability to manage the relevant activities of the subsidiary);

- Exposure or right to variable results as a result of its involvement with the subsidiary;
- The ability to use its power over the subsidiary to impact the value of its returns.

Consolidation of a subsidiary commences at the time the Company has control of the subsidiary and ends when it no longer exercises said control. The assets, liabilities and earnings of a subsidiary that is purchased or sold during the period are included in the consolidated financial statements as of the day the Company obtained control until the date it no longer has control of the subsidiary.

The result of each component of other comprehensive earnings are allocated to the Company's controlling and non-controlling shareholders, even if this means a loss for non-controlling shareholders. The fiscal periods of the subsidiaries coincide with those of the Parent Company, and accounting practices were uniformly applied to the subsidiaries. When necessary, adjustments were made in the subsidiary financial statements to align their accounting policies with those of the Company. Consolidation eliminates any assets, liabilities, earnings, revenue, expenses, and cash flows for the same group that have to do with transactions between members of the same economic group.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

A change in equity in the subsidiary without loss of control is booked as an equity transaction.

If the Company loses control over a subsidiary, the subsidiary assets (including any premium) and liabilities are written off at book value on the date control is lost, and the book value of any non-controlling assets on the date on which control is lost (including any components of other comprehensive results attributed to them). Any difference (loss or gain) is booked under earnings. Retained investments are recognized at fair value on the date control is lost.

In the individual interim financial statements, the Company's investments in its subsidiaries are recorded using the equity approach.

At an Extraordinary General Meeting held on February 1, 2021 the shareholders approved a change in the name of Companhia Orion Companhia Securitizadora de Créditos Financeiros S.A. to Orion Instituição de Pagamento S.A. This Company's stated purpose of business was also amended to primarily the development of payment arrangements, payment services as an issuer of electronic currency, an issuer of post-paid payment instruments, accrediting, sub-accrediting, and payment transaction initiator, among other activities inherent to a payment institution.

On May 5, 2022, the company Moda Lab Ltd was created, whose main activity is the manufacture of clothing articles manufactured exclusively by third parties, in their own facilities, by order and by sending inputs, molds, matrices or models. Moda Lab Ltda.'s sales are carried out exclusively to its parent company.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

4. Accounting policies

The main accounting policies used to prepare these Individual and Consolidated Interim Financial Statements are consistent with those used and disclosed in Explanatory Note 4, corresponding to the financial statements for the period ending December 31, 2021 and published on March 10, 2022, and therefore, should be read in combination.

4.1. Pronouncements made but not net applicable

New and amended standards and interpretations issued but not yet in effect as of the date of issue of the Company's financial statements are described below. The Company plans to adopt these new and amended standards and interpretations as applicable, on the date they become effective. Changes related to CPC50/IFRS17 do not apply to the Company.

a) IFRS 17 - Insurance Contracts

In May 2017 the IASB issued IFRS 17 - Insurance Contracts (CPC 50 - Insurance Contracts, replacing CPC 11 - Insurance Contracts), a new comprehensive accounting standard for insurance contracts that includes recognition and measurement, submission and disclosure. As soon as it became effective, IFRS 17 (CPC 50) replaced IFRS 4 - Insurance Contracts (CPC 11), issued in 2005. IFRS 17 applies to all sorts of insurance contracts (such as life, property & casualty, direct insurance and reinsurance), regardless of the type of issuing entity, as well as certain guarantees and financial instruments with discretionary participation features. There are some exceptions to the scope. The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. Unlike the requirements of IFRS 4, which is broadly based on local accounting practices applicable to previous periods, IFRS 17 provides a broad model for insurance contracts that includes all relevant accounting aspects. IFRS 17 is the overall template, and is complemented by:

- Specific adaptations for contracts with direct participation features (variable rate approach).
- A simplified approach (premium allocation approach), primarily for short-term agreements.

IFRS 17 and CPC 50 shall apply to all periods as of January 1, 2023, comparable values must be submitted. Early adoption is allowed if the entity also adopts IFRS 9 and IFRS 15 on or before the date it adopts IFRS 17. This standard does not apply to the Company.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

b) Changes in IAS 1: Classification of liabilities as current or non-current

In January 2020, the IASB amended paragraphs 69 through 76 of IAS 1, which corresponds to CPC 26, specifying the requirements for classifying a liability as current or non-current. These amendments clarify:

- What the right to defer settlement means;
- That the right to defer must exist on the effective date of the report;
- That this classification is not affected by the likelihood that an entity will exercise is right to defer;
- The terms of a liability would not impact its classification only if that derivative is embedded into a convertible liability is itself an equity instrument

These amendments shall be effective as of January 1, 2023 and must be applied retrospectively. Currently, the Company analyzes the impact that the changes will have on current practices and if existing loan agreements may require renegotiation.

c) Changes in IAS 8: Definition of accounting estimates

In February 2021 IASM amended IAS 8 (the standard that is equivalent to CPC 23), introducing a definition for 'accounting estimates'. The changes clarify the distinction between changes in accounting estimates, changes in accounting policies, and error correction. They also explain how entities use the measuring techniques, and inputs to develop accounting estimates.

The changes are effective for periods starting on or after January 1, 2023 and apply to changes in policies and accounting estimates during and after this period. Early adoption is allowed if disclosed. These changes are not expected to have a significant impact on the Company's financial statements.

d) Amendments to IAS 1 and IFRS Practice Statement 2: Disclosure of accounting policies

In February 2021 the IASB issued amendments to IAS 1 (the standard corresponding to CPC 26 (R1)) and IFRS Practice Statement 2 Making Materiality Judgements, providing guidelines and examples to help entities apply judgement of materiality when disclosing accounting policies. The goal of the amendments is to help entities disclose accounting policies that are more useful, by replacing the requirement for disclosing significant accounting policies to material accounting policies and adding guidelines as to how entities shall apply the concept of materiality to make decisions regarding the Disclosure of accounting policies.

The amendments to IAS 1 are effective for annual periods beginning on or after January 1, 2023. Given that the amendments to *Practice Statement 2* provide non-mandatory guidelines for applying the definition of material as regards accounting policy, a date for adopting this amendment is not necessary.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

The Company is currently analyzing the impact of these changing on the accounting policies disclosed.

4.2. New pronouncements or pronouncement reviewed for the first time in 2021

For the first time the Company applied certain standards and amendments that are valid for the annual periods starting on or after January 1, 2021. The Company decided against early adoption of other standards, interpretations, or amendments issued but not yet applicable.

a) <u>Amendments to CPC 06 (R2), CPC 11, CPC 38, CPC 40 (R1) and CPC 48</u>: <u>Revamping</u> <u>the Reference Interest Rate</u>

The amendments to CPC 38 and 48 provide temporary exceptions that address the impact on financial statements when an interbank deposit certificate (CDI) rate is replaced with an alternative at an almost risk-free rate, these changes include the following practical expedients:

- A practical expedient that requires contractual changes or changes in cash flow directly required by the revamp, to be addressed as changes in the floating, interest, equivalent to the fluctuation in a market rate;
- This enables making the changes required in the revamp in hedge designations and documentation, without the need to discontinue the hedge relationship;
- Provides a temporary exception for entities to comply with the separately identifiable requirement when a risk-free rate instrument is designated as the hedge of a risk component.

These amendments do not impact the Company's individual or consolidated financial statements. The Company intends to use the practical expedients in future periods, should they become applicable.

b) <u>Amendments to CPC 06 (R2): Covid-19 Benefits Granted to the Lessees in Lease</u> <u>Agreements extending beyond June 30, 2021.</u>

The amendments include concessions granted to lessees in the enforcement of CPC 06 (R2) guidelines on changes in the lease agreement by including the benefits granted as a direct consequence of the Covid-19 pandemic. As a practical expedient, a lessee may opt not to check if a Covid-19 related benefit granted by the lessor is an amendment to the lease agreement. The lessee who opts for this must book any changes in lease payment resulting from a Covid-19 benefit granted in the lease agreement exactly as it would book the change a by applying CPC 06 (R2) if the change were not an amendment to the lease agreement.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

On March 31, 2021 the CPC extended the period for applying this practical expedient to June 30, 2022. This amendment became enforceable for fiscal periods starting on or before January 1, 2021.

5. Significant accounting judgments, estimates and premises

The accounting estimates involved in preparing the interim financial statements are based on objective and subjective factors, which in turn are based on the judgment of Management to determine the appropriate amount to be recognized in the financial statements. The settlement of transactions involving these estimates may result in amounts significantly different from those recorded in the financial statements due to the probabilistic approach inherent to the estimating process. Significant items subject to these estimates and premises include:

- a) Determination of the lifetime of property and equipment and intangible assets;
- b) Impairment analysis of property and equipment, as well as intangible assets;
- c) Allowance for expected credit losses;
- d) Provisions for inventory losses;
- e) Realization of deferred income tax and social contribution;
- f) Rates and timeliness applied when determining adjustment to present value of assets and liabilities;
- g) Provisions for tax, civil and labor risks;
- h) Determination of the fair value of derivative financial instruments;
- i) Provisions for restoring stores to their original condition;
- j) Profit sharing;
- k) Stock-based compensation; and
- I) Determination of incremental interest rates and contract deadlines to be used to book lease liability cash flows.

Provisions for labor claims are determined by applying the historical percent losses to the total value of the claim (which is the maximum exposure to which the Company is subject) for each claim, as informed by the Company's legal advisors.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

6. Cash and cash equivalents

Expected losses from C&A Pay Private Label operations are calculated by the Company based on in-house studies to measure percent loss based on past-due stage and time, bearing in mind the likelihood of exposure to default and the effective loss for each past-due range. Below is a list of the stages and periods considered for each one:

- Stage 1: On time and 1 to 30 days past due
- Stage 2: 31 to 90 days past due
- Stage 3: 91 to 360 days past due

As C&A Pay operations mature, estimates and approaches may be reviewed to adjust provisions to reflect the changes in the macroeconomic scenario and/or changes in customer profiles.

Management believes that the estimates used to make provisions for expected losses are sufficient to cover possible customer portfolio credit losses.

d) Present value adjustment

The Company discounts its receivables to present value using interest rates directly related to customer credit profiles. The monthly interest rates used to calculate the present value of outstanding receivables on June 30, 2022 and December 31, 2021 were 1.02% and 0.77% respectively. Realization of the present value adjustment is recognized as an offsetting item to sales revenue.

At the Annual and Extraordinary Shareholders' Meeting held on April 28, 2022, the annual global compensation of the members of the Board of Directors and the Executive Board was approved, for the fiscal year 2022, determined in the amount of up to R\$31,645 (R\$28,283 for the fiscal year of 2021).

10. Stock-based compensation plan

The Company currently has a Stock Option Plan approved at an ordinary meeting of the shareholders on October 2, 2019, which resulted in programs approved by the Board of Directors, with stocks granted to eligible individuals. So far, stock has been granted under programs approved in 2019 and 2021 ("2019 grant" and "2021 grant").

2019 Grants

The first stock-based compensation program was approved at a meeting of the Board of Directors held on October 21, 2019, as per the terms of the Company's Purchase Option Plan. As a result of granting options to purchase stock, 1,148,148 options were given to senior managers in three different batches.

A number of the existing conditions for granting stock options were amended by the Board of Directors at a meeting held on February 18, 2020.

On December 22, 2021 the Board of Directors met and approved a new amendment to the conditions for granting 1,062,037 of the 1,148,148 shares granted. These options now follow the same rules as the "2021 Grants", and for this reason are disclosed together with them. Below are the rules for granting the remaining 86,111 shares currently part of the "2019 Grant".

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

Ownership of the option to convert stock will be transferred to the participants in identical batches of 33.33% on each anniversary of the plan over a period of three years from the Granting Date.

This transfer will take place regardless of whether the participant remains as a Company employee or officer. It is subject to verification of the following: the average price per share on the Brazilian stock exchange (B3 S.A. – Brasil, Bolsa, Balcão) in the 22 (twenty two) trading sessions that immediately precede the date of exercising the Vested Options must be equal to or larger than the price per share paid by investors in the Initial Public Offering (IPO), corrected according to the IPCA/IBGE less the value per share distributed as dividends distributed and interest on equity, and adjusted to reflect any share bonuses, splits or grouping between the Granting Date and the date of exercise of the Vested Options.

The price of the global exercise payable by the executives for the vested options on each anniversary is R\$ 1.00. Vested options are restricted for three years after each transfer date.

The weighted average contractual term for the stock options remaining on June 30, 2022 was 3.31 years. The weighted average fair value of the options granted during the period is R\$ 8.91 in the original program, and R\$ 2.53 incremental fair value for the options replaced according to the calculation method established in CPC 10. The exercise price shall be adjusted whenever dividends are paid, or stock is grouped or split.

2021 Grants

The Performance Share Units program was approved at a meeting of the Board of Directors on February 24, 2021. The meeting approved granting 1,412,194 options to senior managers in a single batch. A total of 94,508 options were granted in 2021. The meeting of the Board of Directors on December 21, 2021 also approved uniform rules for the 1,062,037 shares of the 2019 grant, bringing them in line with the rules for the 2021 grants. No options were granted in the first half of 2022.

The value of the stock will be paid in a single installment (100% of the batch) at the end of the three-year restriction period.

The price of the global exercise payable by the executives for the vested options on each anniversary is R\$ 1.00. After the transfer date there will be no more restrictions on the vested options.

During the first semester of 2022, 40,893 options prescribed. In 2021 43,133 options prescribed. No options were exercised or matured during the first semester of 2022 nor the fiscal year 2021.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

The contractual term for the stock options remaining on June 30, 2022 was 1.65 years. The fair value of the options granted during the period was R\$ 12.45.

2022 Grants

The Performance Share Units program was approved at a meeting of the Board of Directors on May 03, 2022. The meeting approved granting 3,619,618 options to senior managers in a single batch.

The value of the stock will be paid in a single installment (100% of the batch) at the end of the three-year restriction period.

The price of the global exercise payable by the executives for the vested options on each anniversary is R\$ 1.00. After the transfer date there will be no more restrictions on the vested options.

During the first semester of 2022, 91,570 options prescribed. No options were exercised or matured during the first semester of 2022.

The contractual term for the stock options remaining on June 30, 2022 was 2.73 years. The fair value of the options granted during the period was R\$ 5.16.

The exercise price shall be adjusted whenever dividends are paid, or stock is grouped or split.

Throughout the year, the Company performs periodic physical counts of goods it classifies as high risk of loss; a full physical count of all items is performed once a year. As physical counts are performed, adjustments are recorded as actual losses, consuming provisions for inventory losses booked for this purpose.

Provisions for lost inventory are made in proportion to sales, which is sensitive to the traffic in our B&M stores.

(i) Previously unused PIS / COFINS credit

(i.i) ICMS on the basis for calculating PIS and COFINS

The Company filed two lawsuits claiming the right to the exclude ICMS from the PIS and COFINS tax base, and to offset the amounts unduly paid in the past. One claim was filed on 01/17/2007 covering the period between 2002 and 2014, and the second, filed on 03/09/2017, for the period between 2015 and 2017.

On February 28, 2019, the favorable final ruling on the injunction for the period between January 2002 and December 2014 was passed, in line with the decision made in leading case RE 574706, judged by the Federal Supreme Court (FSC) in terms of general repercussion, in which it is recognized that the ICMS highlighted in a fiscal document is not part of the calculation basis of the contribution to PIS and COFINS.

Thus, the company recognized a corresponding tax credit in the amount of R\$1,282,030 during the fiscal year 2019. On June 30, 2022 the updated balance of this unused credit was R\$930,052.

On May 13, 2021 the FSC confirmed the exclusion of ICMS from the basis for calculating PIS and COFINS. As result, on June 30, 2021, even though the final ruling has yet to be passed, the Company recognized tax credits relative to the second lawsuit for the period between 2015 and 2017 in the amount of R\$ 234,704. On February 23, 2022 a final unappealable ruling was passed on this case, confirming the right the Company had already recognized at the time. On June 30, 2022 the updated balance of this unused credit was R\$ 260,288.

Management expects that these will be realized before they lapse, given the tax debits generated from normal Company operations, as shown in item (i.iii).

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

(i.ii) Credit for the Manaus Free Trade Zone (FTZ) Lawsuit

On November 30, 2020 the final unappealable ruling was issued in favor of the Company, which was seeking:

- a) Recognition that all sales of goods to the FTZ (including those originating within thee FTZ) be comparable, for all fiscal purposes, to exports and thus that the non-existence of a legal-tax relationship between the Federal Government and the Company regarding PIS and COFINS levied on the revenue of transactions of this nature and its right to tax credit;
- b) Recognition of the fruition of the REINTEGRA benefits resulting from the sale of domestic goods to the FTZ.

Thus, the assets related to credits in the period 5 years or more prior to the date the claim was filed (March 31, 2016), in the amount of R\$124,657 and R\$10,187 referring to Reintegra were recognized.

On December 31, 2021 R\$ 229 were added to Reintegra for the period between January 2020 and September 2021. The balance of previously unused credit on June 30 was R\$ 143,180. Realizing these credits shall respect the deadlines determined in applicable legislation.

| (i.iii) | Expected realization of previously unused PIS/COFINS credits on June 30, |
|---------|--|
| | 2022: |

| Year | R\$ |
|-------|-----------|
| 2022 | 462,444 |

| 2024 | 199,182 |
| 2025 | 154,821 |
| Total | 1,333,520 |

From the second quarter of 2022, Management has offset the tax debits arising from its operations with PIS AND COFINS credits, without using current credit, which were reclassified to long-term until such a time as the balance of unused credits has been completely offset.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

(ii) Credit on the increase in ICMS on the supply of electricity

On December 17, 2021 the Federal Supreme Court (STF) published its understanding with general repercussion (Extraordinary Appeal 714,139/SC) that the general rate should apply, and not the higher 25% rate as the effective rate for ICMS on electricity and telecommunication services. In 2015 and 2016 the Company filed Ordinary Claims in the states of BA, CE, DF, GO, MG, PA, PE, PR, RJ, RS, and SP regarding ICMS on telecom services, and in AL, AM, BA, CE, DF, ES, GO, MT, PA, PB, PE, PI, PR, RJ, RN, RO, RS, SC, and SE regarding ICMS on electricity, claiming the right to apply the general ICMS rate on electricity and telecom services, given that these states applied the current increased rates.

In light of this, although a final ruling has yet to be made, the Company proceeded to partially record its best estimates for December 31, 2021 in the amount of R\$32,612, and the restated balance on June 30, 2022 is R\$33,768. The amounts for the entire period are being calculated to enable recording supplemental amounts.

The company is waiting for the completion of its claims to start booking these amounts regarding its accessory obligations.

14. Income Tax and Social Contribution

On September 24, 2021 the Federal Supreme Court (STF) published its understanding that IRPJ and CSLL (taxes on income) shall not apply on arrears interest and monetary correction.

On January 9, 2012 the Company took out a Writ of Mandamus claiming the right to not have IRPJ and CSLL levied on monetary correction, including the Selic rate applied to repeated incidents of tax overpayment that resulted in a favorable ruling of the Company or its successors.

In this scenario and based on the interpretation of ICPC 22 (Uncertainty on the Treatment of Taxes on Profit) and CPC 32 (Taxes on Profit), the Company proceeded to record its best estimate in December 2021. The balance on June 30, 2022 was R\$ 301,192 in deferred assets, and R\$ 27,162 in long-term taxes recoverable.

The Company is waiting for a final ruling on its claims to enable its credits with the Brazilian Federal Revenue Services (FRS) to start offsetting these amounts.

(i) Leasehold improvements include miscellaneous assets such as civil works, lighting, firefighting, generators, etc. The depreciation rate is defined based on the lifetime of these assets or the lease term, whichever is shortest.

(ii) The Company has 29 lease agreements with fully variable payments. These are linked to provisions for dismantling and returning stores.

(iii) In 1H22 the Company purchased R\$ 84,394 in property and equipment, R\$ 7,700 of which are entered as supplier accounts payable (R\$ 18,450 in 1H21) and R\$ 43,700 were paid out in 2022 for purchases made prior to December 31, 2021 (R\$ 10,497 were disbursed in 1Q21 for 2020).

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

c) Impairment

The Company considers each store individually to be a cash-generating unit (CGU). CGUs are valued annually to check if the value of their assets in the financial statements does not exceed their recoverable value.

The Company uses the following criteria to identify assets that could show signs of impairment:

Operating profit before financial earnings - In selecting stores for testing, the Company considers those with operating profits lower than the target set by the Company stores that recorded impairment in the previous year. Furthermore, stores must be more than three years old, which is what the Company considers to be a mature store.

The company used after-tax cash flow projections based on financial budgets approved by Management, and consistent with the results presented in the past. The following premises were used to develop the discounted cash flows:

Revenue: projected to the end of the store's lease term

Costs and expenses: projected in the same period as revenue, corrected for an estimated annual inflation of 10% for 2022, and 3.5% for subsequent periods, as per Central Bank estimates; Discount rate: determined bearing in mind the risk-free rate, the business risk, third-party cost of capital and the Company's capital structure. The discount rate used was 11.85% annually. When calculating the discount rate, the Company considers lease liabilities as part of financing activities.

The Company also records provisions for store closing impairment when approved by Management. The provision is made in the estimated amount of the assets to be written off and reversed when the actual write-off is taken.

On the base date of June 30, 2022, the company had provisions for asset impairment in the amount of R\$ 17,257 (R\$ 22,723 on December 31, 2021), of which R\$ 16,145 referred to the impairment test (R\$ 15,941 on December 31, 2021) and R\$ 1,112 to provisions for asset write-offs resulting from store revamps and closures (R\$ 6,782 on December 31, 2021).

d) Acquisitions during the period

On November 8, 2021, through a combination of transactions, the Company acquired the right to explore financial services, heretofore explored by Banco Bradesco. According to the terms of the agreement between the parties, the company acquired the right to explore this new business as of December 1, 2021. This date was defined as the date of purchase according to a specific requirement in CPC 15. There is no fixed period for exploring this business. The transaction was registered at the cost of acquisition, measured as the sum of the counterpart to be transferred, which is valued based on the fair value on the date of acquisition, or R\$ 415,000. This transaction had no premium, but as it relates to an intangible asset with no defined lifetime, an annual recoverability test will be run.

18. Leases

Based on a Review of Technical Pronouncement 16/2020, which clarifies Technical Pronouncement CPC 06 (R2)/IFRS16 regarding Covid-19-related benefits granted to the lessors in Lease Agreements, the Company analyzed its leases together with its partner Lessors and concluded that the lease negotiations resulting from COVID-19 do not constitute a contractual amendment and thus have no impact on re-measurement of the leases. The net tax discount obtained from negotiations in 1H22 was R\$ 17,672 (R\$ 25,932 in 1H21), net of PIS/COFINS, recorded under results for the period, occupancy costs. The company also has payable leases related to the pandemic, which should be settled in full by July 2022. Deferred payments with no further burden to the Company added up to R\$ 194 on June 30, 2022 (R\$ 971 on December 31, 2021) and are booked under lease liabilities until they are settled.

Following the guidelines in CVM/SNC/SEP Memo 01/2020, the Company considers the cash flows of future payments without deducting potential PIS and Cofins credits, discounting them using a nominal incremental interest rate. This methodology agrees with CPC06 (R2) /IFRS16.

The Company estimated the incremental borrowing rate, based on the Brazil risk-free interest rates for similar periods to its lease agreements, adjusted to the Company's credit situation (credit spread). Spreads were obtained from the spreads observed for debt securities issued by comparable Brazilian companies (debentures). Rates are updated for each new lease agreement.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

The Company adopted scenario 2 for the period ended June 30, 2022, as determined by CPC06(R2) / IFRS16. The comparative balances of lease liabilities are submitted below:

| | 06/30/2022 | 12/31/2021 |
|-------------------------|------------|------------|
| Lease liabilities | | |
| Scenario 1 | 2,037,796 | 2,143,756 |
| Scenario 2 (book value) | 1,816,189 | 1,814,148 |
| Financial Charges | | |
| Scenario 1 | 88,800 | 164,441 |
| Scenario 2 (book value) | 80,129 | 107,753 |
| Depreciation Expenses | | |
| Scenario 1 | 208,271 | 376,522 |
| Scenario 2 (book value) | 189,726 | 252,435 |
| Total Expenses | | |
| Scenario 1 | 297,071 | 540,963 |
| Scenario 2 (book value) | 269,855 | 360,188 |

c) <u>Minimum future payments and potential PIS and COFINS rights (Parent Company and Consolidated)</u>

Minimum future lease payments, according to the terms of the lease agreements, plus the fair value of the minimum lease payments are as follows:

| | 06/30 | /2022 | 12/31 | /2021 |
|--|-----------|-------------------------|-----------|-------------------------|
| | | Potential PIS/COFINS | | Potential PIS/COFINS |
| Coming due in | Payments | Rights | Payments | Rights |
| Less than 1 year | 487,170 | (43,582) | 450,798 | (41,351) |
| One to five years | 1,471,575 | (131,943) | 1,448,274 | (131,105) |
| Over five years | 460,518 | (41,644) | 483,982 | (44,351) |
| Total minimum payments | 2,419,263 | (217,169) | 2,383,054 | (216,807) |
| Minimum payments discounted to present | | | | |
| value | (603,074) | 70,529 | (568,906) | 52,047 |
| Present value of the minimum payments | 1,816,189 | (146,640) | 1,814,148 | (164,760) |
| Current Liabilities | 505,585 | | 471,723 | |
| Non-current Liabilities | 1,310,604 | | 1,342,425 | |

Potential PIS/COFINS rights refer to the amount the Company will have a right to recover if the expected future lease payments happen.

During the period ended June 30, 2022, the expense associated with the 17 variable lease agreements was R\$ 2,408 (17 agreements in the period ended December 31, 2021, or R\$ 4,167). Management believes it would not be appropriate to project minimum payments, given the nature of these expenses. Expenses associated with short-term leases and low-value assets totaled R\$ 10,512 (R\$ 19,619 in the period ended December 31, 2021) and refer to leasing printers and forklifts. Because of limited relevance, future commitments with minimum lease payments of low-value assets and short-term contracts are not presented, nor is any sensitivity analysis of variable expenses with leases and the factors that impact this variation.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

The Company does not pledge real estate as collateral in any of its transactions.

d) Impairment

Right-of-use assets are also subject to the impairment test. The approach is the same used for property and equipment (note 16.c)

19. Suppliers

| | Parent Company | | Consoli | dated |
|--|----------------|------------|------------|------------|
| | 06/30/2022 | 12/31/2021 | 06/30/2022 | 12/31/2021 |

| Materials, asset and service suppliers | 204,857 | 374,977 | 211,100 | 376,037 |
| Agreement suppliers - drawee risk | 237,289 | 376,302 | 237,289 | 376,302 |
| | 1,463,812 | 1,834,736 | 1,471,760 | 1,835,796 |
| Current liabilities | 1,450,604 | 1,399,676 | 1,458,552 | 1,400,736 |
| Non-current liabilities | 13,208 | 435,060 | 13,208 | 435,060 |

In November 2021 C&A formalized the purchase of balcão Bradesco for R\$ 415 million, to be settled in January 2023. In December 2021 this amount was recorded as long-term suppliers and was considered as a current liability as of first quarter of 2022. This amount is updated monthly, and monetary correction is booked against financial expenses in the sub-group "supplier interest" (note 28). On June 30, 2022 the corrected amount was R\$ 437 million.

The Company offers advanced receivables at a discount over the face value to suppliers who sign a term agreeing with the Company's terms and conditions. This transaction may take place directly with the Company or thorough agreements with financial institutions.

Under these agreements, the financial institution advances a given amount to the supplier and, when this amount comes due, it is paid back by the Company. The decision to subscribe to this type of transaction is solely the supplier's. The agreement does not change the commercial conditions, terms and prices previously agreed between the Company and its supplier. For this reason, the balances payable were kept under the item "suppliers". In second quarter of 2022 the company received commissions related to such transactions amounting to R\$ 1,894 (R\$ 1,806 in the same period as 2021).

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

During the second quarter of 2022 the monthly discount rate ranged from 1.28% to 1.78% (0.75% and 1.21% in 2Q21).

In the six-month period ended June 30, 2022 the Company advanced R\$ 87 to suppliers, which generated an income of R\$ 1.00, recognized as financial income, net of funding costs (in the same period of 2021 no advances were made and there was no income generated).

The company discounts the current balance of trade receivables at interest rates close to market rates. The monthly interest rates used for the calculation of present value of outstanding payables on June 30, 2022 and 2021 were 1.02% and 0.31% respectively. The matching entry to the present value adjustment is made on inventories and the interest is recognized on a pro rata die basis in financial expenses.

i. On April 3, 2020, the Company issued its first Promissory Notes in 6 series for public distribution with limited effort (CVM 476), in the amount of R\$ 500,000 with a ticket equivalent to 100% of the accumulated variation in the daily DI rate plus a 1.09% annual surcharge payable in 3 years. Payment of the interest and amortization of the principal are made every 6 months, with the first due in October 2020 and the final in April 2023. The costs associated with the first issue of promissory notes, including taxes, commissions and other costs totaled R\$ 1,432 and are being recorded as deductions from liabilities and added to results monthly during the debt term. The amount appropriated in the six-month period ended June 30, 2022 was R\$ 239 (R\$ 477 in 2021).

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

- ii. On June 30, 2020 the company issued two CCBs:
 - The first, in the amount of R\$ 230,000 paying the equivalent of 100% of the accumulated variation in the average daily DI rate, plus an annual surcharge of 2.95% and half-yearly interest payments in 6 installments, with amortization of the principal on the maturity date in 2023.
 - The second, in the amount of R\$ 120,000 paying the equivalent to 100% of the accumulated variation in the average daily DI rate, plus an annual surcharge of 2.90% and half-yearly interest payments in 6 installments of R\$ 20,000, the first due in January 2022 and the last in June 2024.

The costs associated with the first and second CCBs, including taxes, commissions and other costs totaled R\$ 3,647 and are being recorded as deductions from liabilities and added to results monthly during the debt term. The amount appropriated in the six-month period ended June 30, 2022 was R\$ 232 (R\$ 1,216 in 2021).

- iii. On May 20, 2021 the Company issued its first series of simple, non-secured, non-convertible debentures for public distribution with limited effort (CVM n. 476), in the amount of R\$ 500,000 with a yield of 100% of the DI, plus an annual surcharge of 2.15% effective for 4 (four) years and amortized annually in 2 (two) installments as of year 3 from the date of issue of the debentures. The first installment, equivalent to 50% of the nominal unit amount due on May 20, 2024 and the last on the maturity date of May 20, 2025. The costs associated with the first issue of debentures notes, including taxes, commissions and other costs totaled R\$ 3,619 and are being recorded as deductions from liabilities and added to results monthly during the debt term. The amount appropriated in the six-month period ended June 30, 2022 was R\$ 452 (R\$ 528 in 2021).
- iv. On March 18, 2022 the Company issued its first Commercial Notes ("Commercial Notes" and "Issue") for public distribution with limited effort as per law 14,195 of August 26, 2021, as amended ("Law 14,195") and CVM Instruction n. 476, in the amount of R\$ 250,000 with a yield of 100% of the DI, plus an annual surcharge of 2.45% for settlement on March 18, 2027. The net funds captured by the Issue will be used to reinforce the Company's cash position and extend the average term of the Issuer's debt.
- v. On April 8, 2022 the Company issued its second series of simple, non-secured, non-convertible debentures for public distribution with limited effort in two series, in the amount of R\$ 600,000 (six hundred million), R\$ 247,500 (two hundred and forty-seven, five hundred thousand Reals) refer to debentures int he first series, and R\$ 352,500 (three hundred and fifty-two million, six hundred thousand Reals) refer to the second series. The first series will have a yield of 100% of the DI, plus an annual surcharge of 2.10%, while the second will have a yield of 100% of the DI, plus an annual surcharge of 2.40%. The first series debentures will mature in 42 (forty-two) months from the date of issue, or November 13, 2025 ("maturity date of the first series debentures), while the second series shall mature in 72 (seventy-two) months from the date of issue, or May 13, 2028 ("maturity date of the second series debentures). The costs

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

incurred, including taxes, commissions and other cost, totaled R\$4,204 and are being recorded as deductions from liabilities and added to results monthly during the debt term, in the period ended June 30, 2022 were appropriated R\$151.

vi. Since December 1, 2021 the Company has been capturing funds through its subsidiary Orion Instituição de Pagamentos. The position on June 30, 2022 was R\$ 102,013 with a yield of 100% of the CDI plus an annual surcharge of 1.70%, to be settled on November 29, 2022. The purpose of this is to settle the funding of with-interest installment portfolios, past-due accounts, withdrawals and refinancing of the new C&A Pay card operations.

These funds were captured to reinforce working capital and no guarantee was put up by the Company.

| Balance on June 30 | 2,225,711 | 1,349,348 | 2,340,578 | 1,349,348 |

d) <u>Restrictive covenants</u>

Based on the clauses of current agreements, the company must fulfill the following financial covenants, measured once a year on December 31:

 Maintain a Net Debt (comprised of loans and debentures plus or minus the balance of derivatives less cash and cash equivalents) over Adjusted EBITDA (comprised of EBITDA plus revenue discounting suppliers less non-operating results, define as the sale of assets, contingency provisions/reversals, impairment, and restructuring clauses) ratio at less than or equal to 3.0x, to be calculated each year based on the consolidated financial statements. For this calculation Adjusted EBITDA for the past 12 (twelve) months is used, and the effects brought on by adopting CPC06/IFRS16 are ignored.

From time to time, the Company monitors financial indicators that may impact the covenants. The covenants are the normal ones for transactions of this nature and so far, have not limited limit the Company's ability to conduct its business in any way.

23. Provisions for tax, civil and labor risks, and judicial deposits

23.1. Provisions for tax, civil and labor risks (Consolidated)

The Company is a party in administrative and judicial claims of tax, civil and labor natures. On the advice of its legal advisors, Management believes it should create provisions to cover likely and reasonably estimable losses where disbursement of financial resources by the Company is likely. The balance of provisions is as follows:

| | 12/31/2021 | Addition (reversal) | Payments | Update | 06/30/2022 |
|---|------------|------------------------|----------|---------|------------|
| Tax | 220,978 | 2,498 | - | 5,487 | 228,963 |

| Net provisions for judicial deposits | 230,124 | (30,110) | (11,970) | 6,396 | 194,440 |

Tax provisions refer substantially to discussions regarding the following taxes:

(i) <u>PIS/COFINS</u>

On June 30, 2022 the company had provisions for PIS and COFINS risks in the amount of R\$ 126,047 (R\$ 122,405 on December 31, 2021). The most significant values are associated with credits used with inputs for its end-activity, in the amount of R\$ 77,538 (R\$ 64,998 on December 31, 2021), and Cofins Import credits, in the amount of R\$ 40,728 (R\$ 40,077 on December 31, 2021). For the latter case, on June 30, 2022 the Company had an updated deposit balance in the amount of R\$ 41,324 (R\$ 37,773 on December 31, 2021).

(ii) ICMS (State Value Added Tax)

On June 30, 2022 the Company had provisions for ICMS risks in the amount of R\$ 39,025 (R\$ 36,069 on December 31, 2021). The most significant values are associated with themes related to credit taken on trade payables to suppliers considered unqualified by the tax authorities, in the amount of R\$ 10,663 (R\$ 10,499 on December 31, 2021), and discussions regarding ICMS rates on energy, in the amount of R\$ 22,097 (R\$ 19,424 on December 31, 2021).

(iii) Other taxes

On June 30, 2022 the Company had provisions for tax risks related to other taxes in the amount of R\$ 63,892 (R\$ 62,505 on December 31, 2021). The most significant amounts were related FGTS in the amount of R\$ 16,768 (R\$ 16,748 on December 31, 2021) and CPRB (social security on gross income) regarding the case in which exclusion of ICMS and ISS from the basis for calculation is being discussed, in the amount of R\$ 39,348 (R\$ 38,268 on December 31, 2021).

(iii.i) ISS and ICMS on the basis for calculation – CPRB

On August 28, 2013 the Company filed a claim to exclude ICMS and ISS from the basis for calculating CPRB - Social Security on Gross Revenue. Between January 2014 and November 2015, the Company opted to make monthly payments of CPRB in the form of judicial deposits.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

On June 30, 2022, the updated amount of this deposit was R\$ 31,841 (R\$ 30,798 on December 31, 2021). The Company has booked provisions of R\$ 39,348 (R\$ 38,268 on December 31, 2021) for this.

(iv) Civil and labor

Provisions for labor claims are obtained by applying the historical percent losses to the total value of the claim (which is the maximum exposure to which the Company is subject) for each claim, as informed by the Company's legal advisors. This measurement is reviewed every six months, most recently in September 2021.

(v) Judicial deposits with a corresponding liability

1% additional COFINS for imports

On March 7, 2013, the Company filed a lawsuit claiming the right to credit for the 1% COFINS surtax levied on the import of some of its goods and obtained a preliminary injunction allowing it to take credit for such COFINS import surtax. On March 26, 2018, said injunction was revoked. As such, the Company offered a judicial deposit to guarantee suspension of enforceability and thus continue the legal discussion in the courts. On June 30, 2022, the updated amount of this deposit was R\$ 41,324 (R\$ 37,773 on December 31, 2021). For this situation the Company has booked provisions in the amount of R\$ 40,728 (R\$ 40,077 On December 31, 2021).

23.2. Judicial deposits

The Company is contesting the payment of certain taxes, contributions and labor obligations, and has made judicial deposits to ensure that court discussions proceed, either because said deposits are required by the courts, or because of a strategic decision by Management to protect its cash position. Thus, the updated amount of the company's judicial deposits is:

The balance of judicial deposits recorded in assets by nature of the discussion is as follows:

| | Parent Cor Consol | |
|-----------------|----------------------|------------|
| | 06/30/2022 | 12/31/2021 |
| Tax | 33,969 | 31,064 |
| Labor and Civil | 29,254 | 30,873 |
| Total | 63,223 | 61,937 |

There is no provision for the judicial deposits mentioned above, based on the judgment of Management supported by its legal advisors.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

23.3. Non-provisioned contingencies

On June 30, 2022 the Company had an updated amount of R\$ 333,602 (R\$ 315,978 on December 31, 2021) associated with judicial and/or administrative claims where it is considered possible that the Company will lose, and for this reason accounting provisions are not made, as per the relevant accounting standards.

Below is a summary of the main claims, with the amount of the principal plus interest and fines that our legal advisors believe we may lose:

| | Parent Com Consolidated | pany and |

| Other demands | 76,339 | 71,622 |
| | 333,602 | 315,978 |

- (a) Reestablishment of the benefit of Law No. 11,196/05 ("Lei do Bem" tax relief law) suspending the enforcement of PIS and COFINS levy on the sale of electronic goods. On October 7, 2019 the company obtained an injunction after putting up a bond.
- (b) Notice of violation demanding the payment of social security contributions supposedly levied on the amounts paid as Medical and Hospital care to its insured employees for the period between December 12, 1997 and February 28, 2005. In February 2020, based on the favorable decision issued by the appeals power, part of the amount was reversed.
- (c) Notice of violation disallowing PIS and COFINS credits on expenses classified as inputs by the Company in 2012 and 2014.
- (d) Notice of violation demanding the payment of Import Taxes as well as PIS/PASEP and COFINS on imports, due to failure to include royalties paid for the use of licensed brands in the basis for calculating taxes levied on imported goods.
- (e) Administrative proceedings discussing the non-homologation of requests for compensation.

Regarding civil and labor claims, because of the diverse nature and features of these claims, Management believes that the amounts provisioned are those that best represent the Company's risks regarding such matters. The Company does not believe it is feasible to determine the amount of non-provisioned labor and civil contingencies (involving possible but

not probable loss) because, as a rule, the amount of the original claim is quite a bit different from the final amounts paid or settled.

Due to external factors not under the Company's control, it is not feasible to determine when the associated cash disbursements, if any, will be made in the event the Company loses any such claims.

24.3 Capital reserve – shares granted

This refers to the reserve for options granted according to the stock-based compensation plan. See Note 10 for further details.

24.4 Legal reserve

The Company Bylaws stipulate that 5% of net profit will be taken as legal reserves, to the limit of 20% of the capital stock.

24.5 Reserve for unrealized profits

On December 31, 2021 the company set aside R\$ 75,720 as a reserve for unrealized gains.

24.6 <u>Reserve for investments</u>

The purpose of this reserve is to reinforce the Company's working capital and activities. The balance of this reserve, plus the balance of other profit reserves with the exception of contingency reserves, reserves for tax incentives and reserves for future profits may not exceed 100% (one hundred percent) of the share capital. Once this threshold is reached, and pursuant to article 199 of Law 11,638/07, the General Meeting shall determine how to distribute any surplus and shall use it to pay in or increase the capital stock or distribute dividends.

On April 28, 2022 the General Shareholder's Meeting decided to set aside R\$227,160 of the income 2021 profit as a reserve for investments.

24.7 <u>Reserve for tax incentives</u>

The Company has ICMS tax incentives in the form of presumed credits due to its operations in the state of Santa Catarina. Thus, it recognizes the impact as credit on the statement of earnings in those periods in which it recognizes the related costs. Management set aside the amounts of these incentives as tax incentive reserves. On December 30, 2021, the total reserve for tax incentives was R\$ 11,552.

24.8 Equity valuation adjustments

This refers to the effective portion of financial instruments designated as cash flow hedge, as per Note 30.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

25. Dividends and interest on shareholder's equity payable

30. Financial instruments and capital management

30.1 Financial risk management

The activities of the Company and its subsidiaries expose them to a few financial risks, such as market risk (including exchange and interest rate risks), credit risk, and liquidity risk Financial risks are assessed and managed carefully, using the limits and procedures defined in the Company's financial policy. The Auditing Committee is responsible for monitoring and ensuring compliance with the Financial Policy.

a) Market Risk

Market risk is the risk that the fair value of the future cash flows of a financial instrument will fluctuate due to market prices. Market prices include three types of risk: interest rate risk, exchange risk and price risk, which can be commodities or shares, among others. Financial instruments affected by market risk includes loans and financing, cash equivalents and other financial assets, investments in debt and equity instruments, and derivative financial instruments.

Interest rate risk

The Company is exposed to the risk of changes in interest rate that could impact returns on its short-term assets and financial liabilities indexed to the CDI.

The company attempts to keep the interest rate indicators for its assets and liabilities equal to reduce the impact of a risk in a fluctuation in interest rates. Currently all our loans are fixed rate and indexed to the CDI.

Management continuously analyzes its exposure to interest rates, comparing the contracted rates to current market rates and simulating refinancing scenarios and the impact on results.

The Company ran tests using scenarios for the next disclosure to demonstrate how fluctuations in this index impact results. Interest rates for the likely scenario were taken from the reference rates published on the B3 site on June 30, 2022 (annualized CDI of 13.61% and 6.59% for the six-month period)

Foreign exchange risk

Foreign currency exchange risk exists in future commercial transactions, primarily those associated with US-Dollar denominated imports. The foreign currency risk management policy is defined by Management and approved by the Auditing and Risk Management Committee.

The Company hedges against exchange variations in the outstanding balance of its imports by entering into Non-Deliverable Forward Contracts (NDFs) for highly probable budgeted purchases. Contracts based on the FOB value of the goods limits the exchange exposure and its effect on price composition. As soon as goods are nationalized, taxes must be paid that are not included in the hedge defined when contracting the NDF. These taxes amount to 36% of the value of the order.

The table below shows exposure to exchange variation related to orders issued and not covered by the hedge, and non-recoverable customs clearance taxes for which the Company is not hedged. The company shows sensitivity to possible changes in the range

of 25% to 50%, indicating a deteriorating financial situation for the Company due to increases in the US Dollar exchange rate.

The US Dollar exchange rate used in the sensitivity analysis was taken from the FOCUS report published by the Brazilian Central Bank on June 30, 2022. Scenario estimates were adopted according to CVM Instruction 475/08.

Financial instruments designated for hedge accounting

To handle its market risks, the Company manages its foreign currency exposure related to the purchase of goods by contracting derivative financial instruments pegged to the US dollar, considering the expected entry of the goods in the Company's inventory in the Company's official budget.

As of October 2016, the Company formally adopted cash flow hedge accounting for derivative instruments to cover its highly likely future imports, in order to hedge against oscillations in the cost of goods entered in inventories during periods of unfavorable exchange rates.

The hedging structure consists of hedging a highly likely transaction whereby imported goods to be sold by the Company will enter the inventory in USD, against the risk of variations in the US\$ vs. R\$ exchange rate, using derivative financial instruments such as NDFs as hedging instruments, in amounts, maturities and currencies equivalent to import budget in US\$.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

Transactions for which the Company uses hedge accounting are highly likely and are exposed to variations in cash flow that could impact profit and loss and are highly effective in achieving exchange rate fluctuations or cash flow attributable to the hedged risk.

The following is a list of the hedge accounting instruments and expected periods for the import cash flow:

Financial instruments are measured at fair value in Level 2, which uses valuation techniques for which the lowest significant level of information for fair value measurement is directly or indirectly observable.

Derivative financial instruments are entered at fair value. Thus, at the inception of the hedge transaction the book value and fair value are the same.

On June 30, 2022, non-settled NDF transactions had an outstanding balance net of tax effects in the amount of R\$ 2,980 (net outstanding credit of R\$ 248 on December 31, 2021), recorded as other comprehensive income.

The amount in the statements of comprehensive income refers to the variation between operations not settled in December 2021 and March 2022 (between December 2020 and March 2021). In the period ended June 30, 2022, the cost of goods sold was negatively impacted by the in NDF transactions in the amount of R\$ 11,176 (gain of R\$ 505 in the same period of 2021).

During the six-month period ended June 30, 2022, NDF hedge transactions used to hedge the cash flow risk of import orders were effective, based on the rules set forth by

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

CPC 48/IFRS 9. To test effectiveness, the Company compares changes in the value of the hedge instrument to changes in value of the item protected attributable to the risk covered. Should the transaction become ineffective, the ineffective portion is recognized directly in the earnings of the period in which this takes place. Ineffectiveness can be the result of differences in timing of the cash flows of the protected items and the hedge instruments. There were no ineffective portions in the periods ending June 30, 2022 and 2021.

b) Credit risk

i) Cash and Cash Equivalents

In accordance with the Company's policy, cash and cash equivalents must be invested in financial institutions rated as having low credit risk.

ii) Receivables

The Company, through its subsidiary Orion, has been operating its own C&A Pay cards since December 2021. This operation is recent, and Management organized itself to control credit risk by continuously monitoring the portfolio.

Expected losses from C&A Pay Private Label operations are calculated by the Company based on in-house studies to measure percent loss based on past-due stage and time, bearing in mind the likelihood of exposure to default and the effective loss for each past-due range.

As C&A Pay operations mature, estimates and approaches may be reviewed to adjust provisions to reflect the changes in the macroeconomic scenario and/or changes in customer profiles.

Management considers that the estimates used to make provisions for expected losses are sufficient to cover possible customer portfolio credit losses.

For other operations, the Company's credit risk is minimized to the extent that assets represented by receivables from the sale of goods and services are intermediated by Bradescard and credit card companies. In the case of credit card companies, the risk is fully transferred to them, and the Company remains only with the risk of non-recognition of purchase by customers (chargebacks) for which an allowance for impairment is measured and recognized. For transactions intermediated by Banco Bradescard, there is a potential loss, contractually limited to 50% of the net doubtful receivables registered with that institution, in addition to customer chargebacks. Historically, credit losses resulting from the agreement with Banco Bradescard are smaller than the gains.

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

c) Liquidity risk

Based on the operation's cash cycle, Management approved a minimum cash policy to:

i) Protect itself in times of uncertainty;

ii) Ensure execution of its investment and expansion strategy;

iii) Ensure that a dividend distribution policy is maintained.

Management constantly monitors the expectation on the Company's liquidity and that of its subsidiary to ensure they have sufficient cash to meet their operational needs, investment plans and financial obligations.

The Company invests excess cash in financial assets with floating interest rates and daily liquidity (CDBs and LCAs of financial institutions that comply with the investment policy approved by Management). In 2021 the company also invested in treasury notes (LTFs) (Note 7), which it intends to keep until they mature, booked at amortized cost.

The following table summarizes the maturity profile of the Company's financial liabilities:

| | Less than 1 | | More than 5 | |

30.2. Capital management

The goal of the Company's capital management is to ensure a financing structure is maintained for its operations.

The Company manages its capital structure by making suitable adjustments to changes in economic conditions. To keep this structure adjusted, the Company may make dividend payments and take out loans. There were no changes in the capital structure objectives, policies or processes in the period ended June 30, 2022.

31. Insurance

The Company has a policy of keeping insurance coverage in the amount that Management considers appropriate to cover possible risks to its property and equipment (basic coverage: fire, lightning, explosion and other property and equipment policy coverage), inventories, civil liability and transportation of goods. Below is the maximum indemnity limit for each coverage:

| | Conso | Consolidated | | |

Notes to the interim financial statements June 30, 2022 and 2021 (in thousand Reals unless otherwise stated)

32. Retirement plan

Together with other related companies, the Company participates as a sponsor of Cyamprev -Sociedade de Previdência Privada, to provide private pension plans to supplement the general social security system. The benefit plans are structured in the form of Defined Contribution (DC), and the amount of monthly income is linked to the financial amount of the accumulated contributions on behalf of each participant. After payments start, the monthly income is updated on an annual basis based on the participant's updated balance. Pension plan contributions are made by active participants and/or the sponsor. The plans guarantee a minimum benefit equivalent to three monthly salaries of each participant, calculated in proportion to their length of service and paid out in a single installment at the end of their employment link and eligibility for retirement. Contributions to the plans for this minimum benefit are made exclusively by the Company.

In the first half of 2022 the Company contributed R\$ 3,593 (R\$ 4,515 in 1H21) to the plans, entered as an expense in the earnings for the period. The total number of participating employees on June 30, 2022 was 6,867 (8,055 on December 31, 2021), with 200 participants under care (199 on December 31, 2021).

In accordance with CPC 33/IAS19, approved by CFC Resolution 1,193/09, the Company recognizes an actuarial asset when: (a) the Company controls a resource, which is the ability to use the surplus to generate future benefits, (b) that control is a result of past events (contributions paid by the Company and service rendered by the employee), and (c) future economic benefits are available to the Company in the form of a reduction in future contributions.

On June 30, 2022 the fair value of the plan assets related to the minimum benefit described above, exceeded the actuarial present value of the accumulated benefit obligations by approximately R\$ 1,844 (R\$ 2,552 on December 31, 2021).

The only financial instrument providing dilution is the stock-based compensation plan, described in detail in Note 10.

On June 30, 2022 and 2021, considering the fair value of the Company's common shares and the average share price in the period, the compensation plan would provide an anti-dilution effect, which is why it was not considered in the calculation shown above
