Hello.

We look at health in a new way.

We are Dasa.

We connect spaces, technology, knowledge and more than 40,000 health and management professionals.

We are ahead of time and facing people.

We integrate new areas of activity, empower the medical community and create value for the entire healthcare ecosystem.

We promote a new era of medicine.

Even more preventive, predictive and personalized, who cares for people throughout their entire lives.

our purpose is

To be the health people want and the world needs.

integrated health network

differentials

Business Solutions

- Occupational Exams
- Vaccines
- Toxicological
- Covid Corporate
- Check-up

nav dasa

Nav is Dasa’s digital platform, whose mission is to take care of people's health as a whole.

Here, now and for a lifetime.

Nav for patients

Exam scheduling

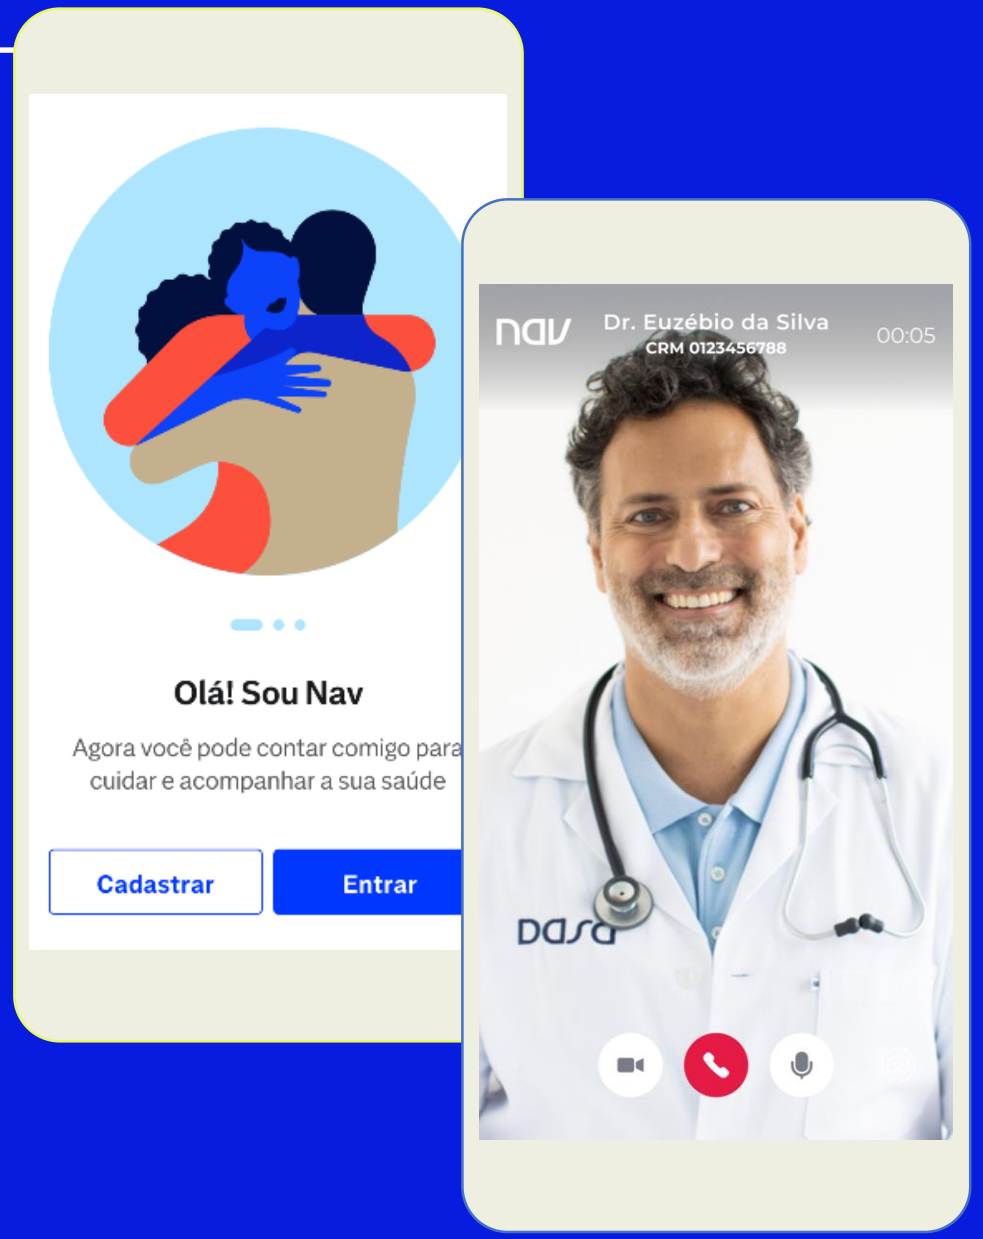
Nav helps you schedule your exam at the nearest laboratory. You choose the day and time.

Exam results

You can add labs and thus create a history of your health. You can also share test results with physicians and family members.

Online appointments

The patient is seen by a general practitioner, on the same day of appointment. The appointment is online, so he doesn't need to leave home.



Nav for physicians

Exam records

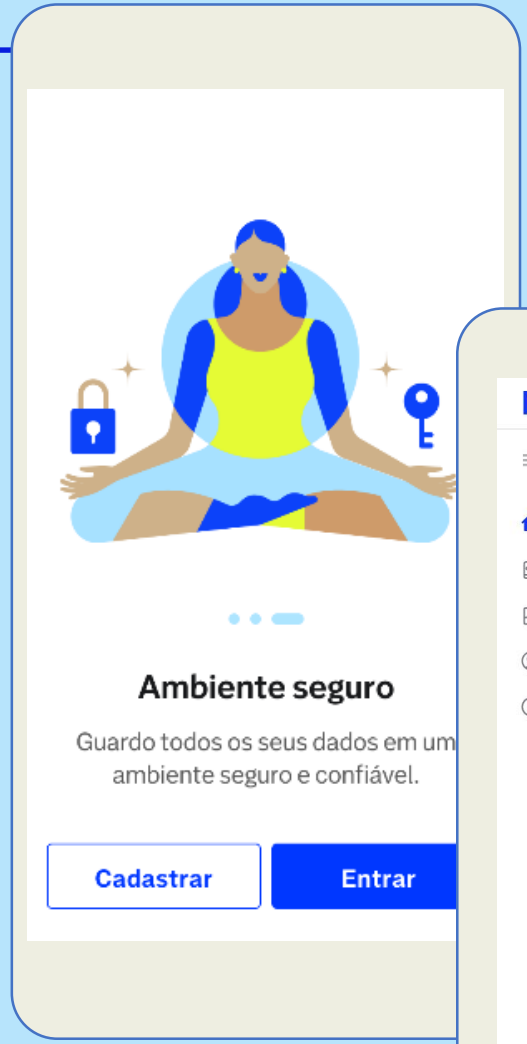
Nav allows physicians to access exams prescribed by other professionals and share exam results with confidence.

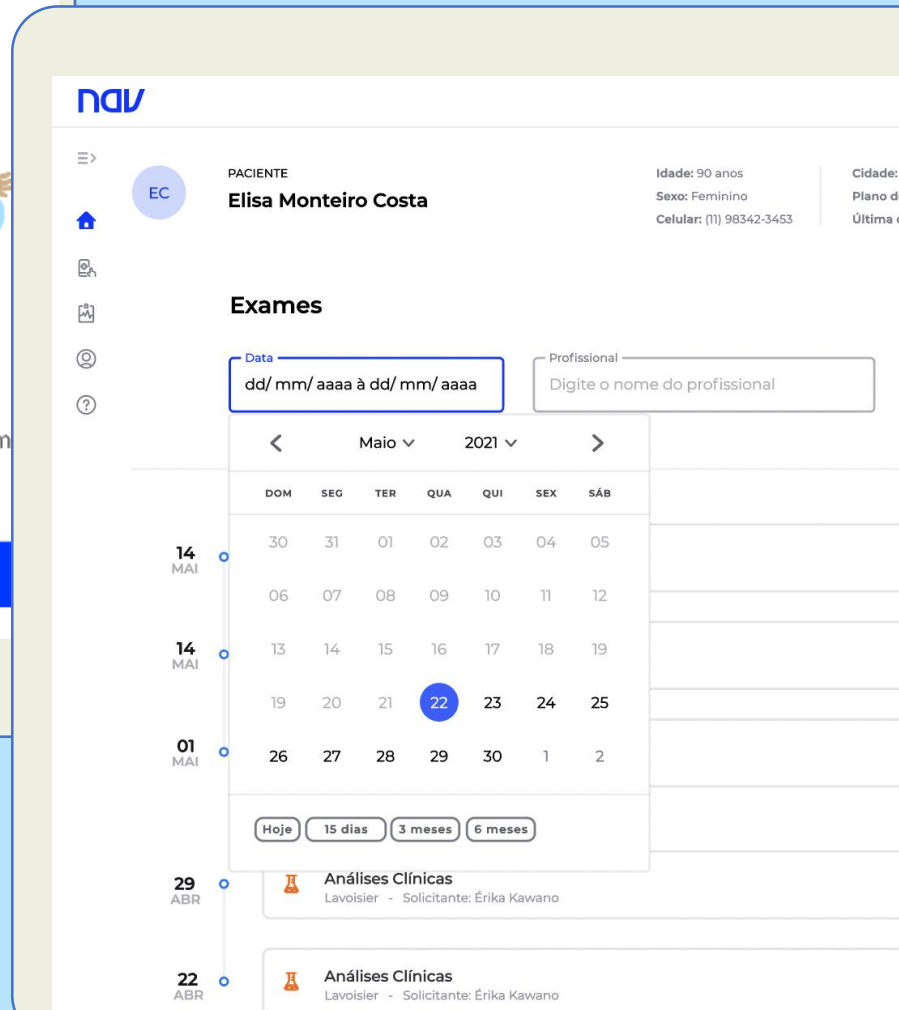
Clinical discussion

Physicians have access to conversations with other specialists about test results or patient cases.

Add assistants

The platform allows the inclusion of assistants, which helps to simplify the physicians life.





Data and Innovation

Always evolving,
we invest in scientific
excellence and innovation to
transform lives.

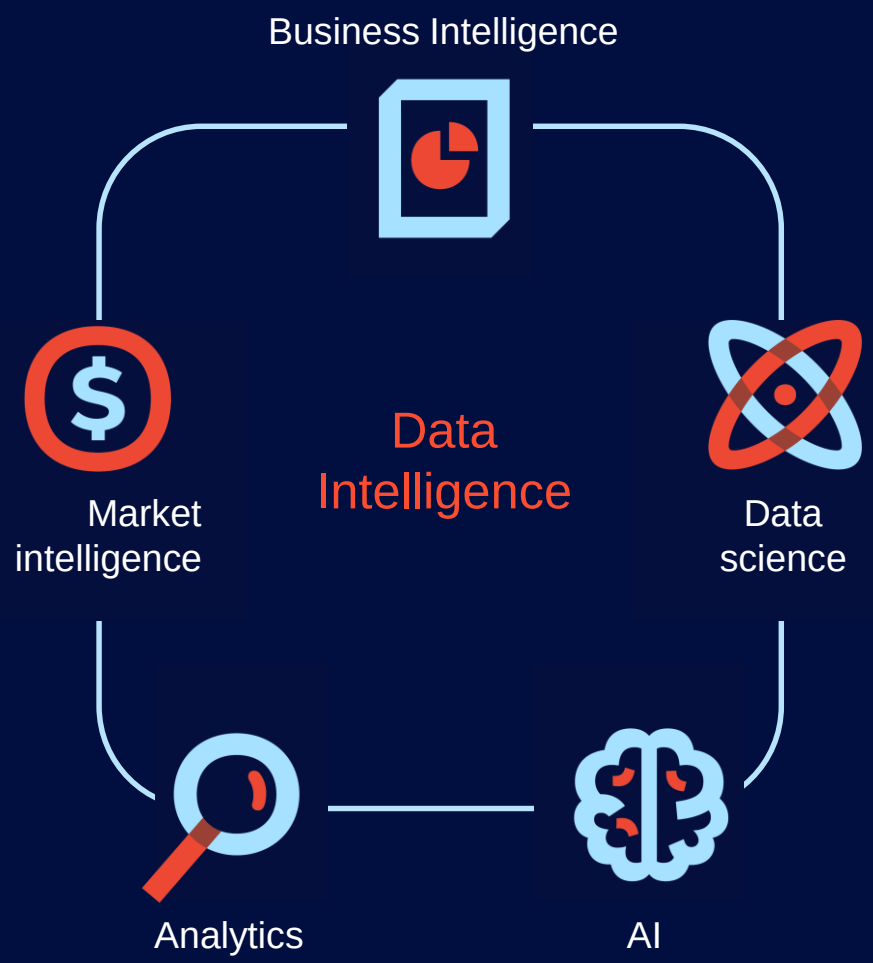
We have the best data analytics in the Brazilian health segment.

R$+100 MM
in revenue or cost savings

+10
AI and Machine Learning algorithms

300 thousand
views on +1,400 panels assisting in the management of business areas

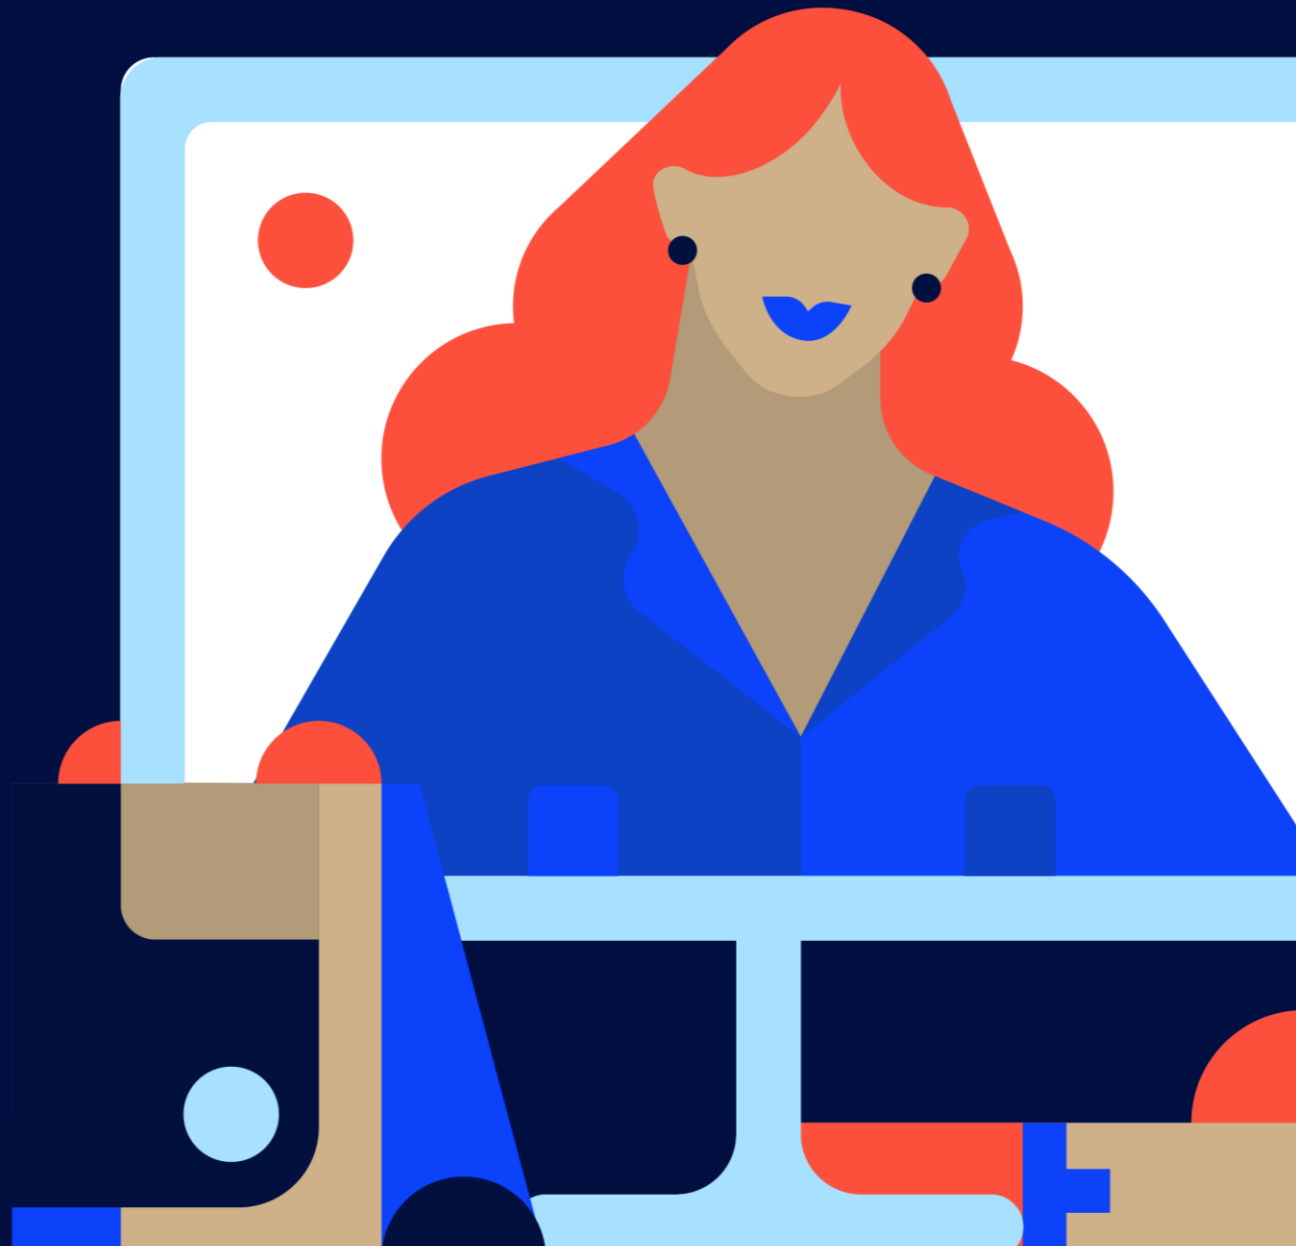
+6 billion
records of exam results



dasa educa

We have a unique education portal for improving and updating physicians.

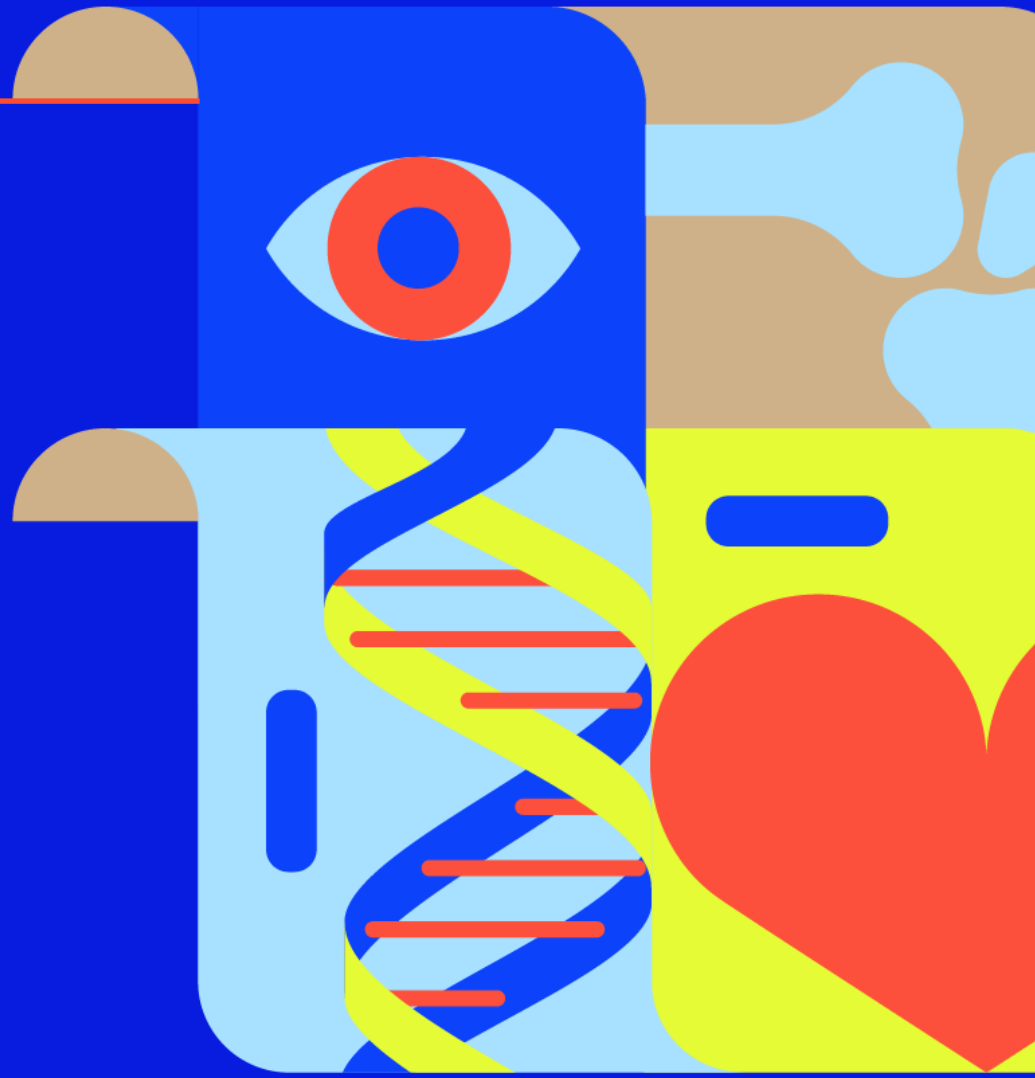
- classes on demand
- live webinars
- virtual symposia
- scientific articles
- podcasts
- notices



open innovation

We encourage and accelerate projects and startups that propose innovative solutions for health and technology.

- community
- engagement
- impact
- inspiration



Copyright © 2021 DASA. All rights reserved.

R&D / Equipment

Pathologic anatomy

100% of samples in digital format.

Physician and patient approach

Visual reports, three-dimensional, illustrations, diagrams and indications of anomalies.

More than 500 scientific lectures at events in Brazil and abroad.

63 works approved in RSNA.

61 AACC approved works.

6 classes as guests at RSNA (Educational Course).

Dasa inova

Focus on innovation in healthcare solutions and experience for physicians and patients. Its value delivery is born from the development of algorithms and other technologies that build proprietary innovations, and that allow Dasa to offer increasingly complete and efficient solutions for physicians, patients and the biomedical community.

Partnerships

Harvard | Dasa as the only company in Latin America that integrates the CCDS (Center of Clinic Data Science)

Arterys | Accuracy for oncologic and cardiologic exams

ESG

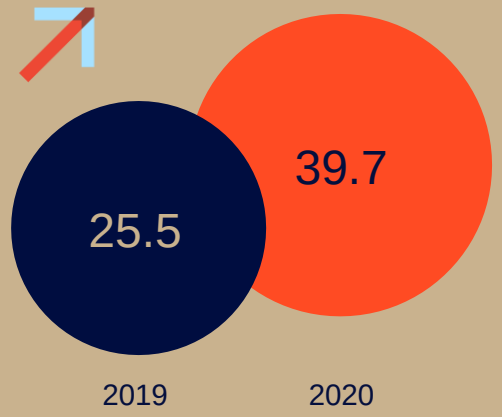
Diversity, inclusion and social responsibility.

Environment and health

More than BRL 78m in investments related to Covid-19 vaccine, diversity and others.

Renewable energy consumption (GWh)

+56%



Commitment to reducing CO2 emissions

~ 4,300 ton

of avoided emissions

Main projects

01 CDE Centro de Diagnóstico Emergencial

Project in partnership with the Ministry of Health to carry out RT - 3mm PCR tests for the SUS (in progress)

02 COVAX

Donation of the clinical research phase for the development of a second-generation vaccine (in progress)

03 DNA DO BRASIL

Complete genome sequencing of the Brazilian population, with the creation of the largest free genomic database in the country.

Diversity and inclusion

Commitments

01 Business initiative for racial equality

02 Business Forum and LGBT+ Rights

03 Business coalition to end violence against women and girls

04 Corporate Social Inclusion Network for employability and inclusion of people with disabilities (REIS)

05 Business Coalition for Racial Gender Equity

06 United Nations Global Compact

Thank you.
