Public-held Company

### MATERIAL FACT

#### *IMPAIRMENT*

**Belo Horizonte, July 11, 2025** — **MRV Engenharia e Participações S.A. (B3: MRVE3) ("Company")**, in compliance with the provisions of art. 157, §4º of Brazilian Law No. 6,404, of December 15, 1976, as amended, and in the Resolution of the Brazilian Securities and Exchange Commission No. 44, of August 23, 2021, and in continuation of the Material Fact disclosed on December 5, 2025, informs its shareholders and the market in general that, as part of the strategic review of its subsidiary “Resia”, in the United States, it defined which properties would be included in the divestment plan and, therefore, would be classified as “available for sale”, initiating studies to carry out, as applicable, the impairment.

In view of the information received and analyses performed based on: (i) , the Company recognized the reduction in the carrying amount of the recoverability of assets classified as “available for sale” of up to US\$ 144 million, which will be reflected , after an evaluation by an independent auditing firm, in the Company's financial information for the period ended in June 30, 2025.

Upon completion of this plan, the Company is expected to have generated approximately **US\$ 493 million** in cash, thereby reducing its net-debt by **US\$ 365 million** after returning **US\$ 128 million** of capital to the project investors.

Considering Resia’s updated strategic plan and the projections set forth in this document, the Company will revise its Resia cash-generation guidance from US\$ 270 million in 2025 to US\$ 493 million through year-end 2026, corresponding to a US\$ 365 million reduction in net debt.

Additional information is available to shareholders on the Company’s Investor Relations website and on the CVM and B3 websites.

Belo Horizonte, July 11, 2025

**Ricardo Paixão Pinto Rodrigues**
