

# EARNINGS RELEASE

Belo Horizonte, May 8, 2025. **MRV Engenharia e Participações S.A. (B3: MRVE3),** the largest real estate developer in Latin America presents its results for the first quarter of 2025.

### GROSS MARGIN MRV REAL ESTATE DEVELOPMENT %

The units not transferred during the quarter impacted Net Revenue by R\$ 155 million for the period. The gross margin in 1Q25 was positively impacted by 1 percentage point due to the effects of the Pro Soluto credit assignment with derecognition.

We report only transferred sales; therefore, the 1,400 units not transferred during the quarter, equivalent to R\$320 million, impacted sales for the period. Transfers of sales were temporarily halted in some regional programs, leading to this effect in 1Q25.

The backlog is already being transferred in 2Q25, as the issues are being addressed.

The company's gross margin recovery is progressing as expected, reaching 28.6%, an increase of 1.6 percentage points compared to 4Q24 and 2.7 percentage points compared to 1Q24.

With the Pro Soluto credit assignment with derecognition, made in 1Q25, there was a reversal of the corresponding ECL and PVA, which resulted in a positive, non-operating impact of 1 percentage point on the gross margin for the quarter.

Selling Expenses in 1Q25 were impacted by approximately R\$ 15 million due to the company's recent branding campaigns

# FINANCIAL RESULT

- Foreign exchange investment fund: In 1Q25, the first tranche of the MRV US Loan Agreement, totaling US\$ 107 million, was paid. To this end, the corresponding amount in Reais was raised in 4Q24, and the funds were invested in a foreign exchange fund until the debt payment in dollars was made. Since this debt pertains to the North American operation, we have managerially eliminated its effects from the results of MRV Real Estate Development, including the results from the foreign exchange fund in 4Q24 and 1Q25.
- **Prepaid Financial Expense due to assignment with derecognition:** in 1Q25, the Pro Soluto credit assignment with derecognition was executed. As a result, the expense related to the assignment of this operation is fully recognized in the same quarter.
- Interest on CRI for Loan Agreement Payment: interest on the debt issued for the payment of the MRV US Loan Agreement, as mentioned earlier.

| Rayzor Ranch | 67%      |
| Ten Oaks     | 60%      |
| Memorial     | 43%      |

We are continuing to implement Resia's strategic plan, presented in December 2024:

### GUIDELINES OF RESIA'S 2025-2026 STRATEGY

- Deleveraging: sale of US\$ 800M in assets (Land + Properties)
- Less Equity in projects: increased participation of limited partners
- Downsizing of Operations: limited to two projects launched per year
- Simplification: footprint limited to Miami, Houston, Dallas and Atlanta, discontinuing operations in Austin
- Streamlining of structure: G&A reduced from \$30M per year to \$10M annually, starting in 2025

### RESIA PIPELINE PROJECTS LEASING-UP

Leasing speed accelerated month by month as expected, indicating that the projects will be ready for sale within this year's planning.

# ASSET SALE

In 2Q25, three assets were sold in line with Resia's deleveraging plan.

- The Dallas West project, sold for US\$ 57 million, will generate the same amount in cash in 2Q25. The sale resulted in a gross loss of US\$ 22 million.
- The Palmetto and Weatherford land plots were sold for a PSV of US\$ 14 million, with US\$ 9 million in expected cash generation in 2Q25. The remaining US\$ 5 million will be received in future installments.

The impairment of the assets sold was recognized in 1Q25, while the proceeds from the sale will be received only in 2Q25.

### **EFFECTS OF THE SALES:**

DISCLAIMER

This presentation contains forward-looking statements relating to the prospects of the business, estimates for operating and financial results, and those related to growth prospects of MRV. These are mere projections and, as such, are based exclusively on the Management's expectations about the future of the business.

These expectations are highly dependent upon required approvals and licenses for projects, market conditions, performance of the Brazilian economy, the sector and international markets and, therefore, are subject to changes without prior notice.

This performance report includes accounting data and nonaccounting data such as operating and financial results and outlooks based on the expectations of the Board of Directors. The non-accounting data such as values and units of Launches, Pre-Sales, amounts related to the housing, Inventory at Market Value, Land bank, Unearned Results, cash disbursement and Guidance were not subject to review by the Company's independent auditors. The EBITDA, in this report, represents the net income before income tax and social contribution, net financial result, financial costs recorded under cost of goods sold, depreciation, amortization and minority interest. MRV believes that the reversion of the adjustment to present value of receivables from units sold and not yet delivered that is recorded as gross operating revenue is part of our operating activities and therefore, we do not exclude these revenues from EBITDA's calculation, EBITDA is not a Brazilian GAAP and IFRS measure and should not be considered in isolation and should not be considered an alternative to net income, as an indicator of our operating performance or cash flows or as a measure of our liquidity. Because the calculation of EBITDA does not take into consideration income tax and social contribution, net financial result, financial charges recorded under cost of goods sold, depreciation, amortization and minority interest, EBITDA is an indicator of MRV general economic performance which is not affected by changes in interest rates, income tax and social contribution rates and rates of depreciation and amortization. Because EBITDA does not consider certain costs related to our business which could materially affect our profits, such as financial result, taxes, depreciation, amortization and capital expenditures, among others, EBITDA is subject to limitations that impair its use as a measure of our profitability.
