From:

The gross amount per total share was increased by R\$0.000220763 in view of the increase in the number of treasury shares and, consequently, the decrease in the number of shares entitled to receive IOE.

The payment will take place until June 30, 2026 in the amount of R\$420,000,000.00 (four hundred twenty million reais), without the application of any monetary adjustment index, with the date of December 22, 2025 being the date that will serve to identify the shareholders entitled to receive such amounts. Thus, the shares acquired after that date will be *ex-right* to distribute IOE.
