1Q24 RESULTS

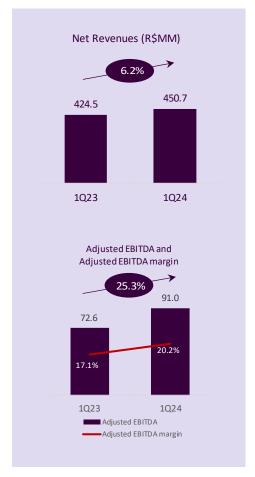

Ser Educacional records 25.3% growth in Adjusted EBITDA in 1Q24

Recife, May 10, 2024 - Ser Educacional S.A. (B3 SEER3), announces the results for the first quarter of 2024 (1Q24). The information is presented in IFRS, consolidated in Brazilian reais (R\$), and comparisons refer to the first quarter of 2023, unless otherwise specified.

Highlights 1Q24 x 1Q23

- ★ Intake at Hybrid Learning undergraduates grew 10.0% in 1Q24, reaching 51.0 thousand enrollments, while Digital Learning dropped 11.0% and totaled 60.2 thousand enrollments in the same period.
- ★ The total base of Hybrid Learning undergraduate students reached 160.8 thousand students, with 7.8% growth.
- ★ 6.2% increase in net revenue, due to the increased share of health courses in the portfolio.
- * Adjusted EBITDA reached R\$ 91.0 million, representing 25.3% growth when comparing 1Q24 x 1Q23, with Adjusted EBITDA margin reaching 20.2%, expansion of 3.1 percentage points.
- Net Receivable Days (NRD) ex-FIES decreased from 90 to 87 days, the Company's best mark since 2019, due to the improvement in the timely payments of post-pandemic cohorts.
- The Company recorded Adjusted Net Loss of R\$2.8 million in 1Q24, versus an adjusted net loss of R\$ 18.2 million recorded in 1Q23, representing 84.6% reduction when comparing the periods.
- ★ Net debt to adjusted EBITDA ratio for the last 12 months showed improvement for fourth consecutive quarter from 2.39x in 1Q23 to 1.99x in 1Q24, due to the success of the operational optimization plan carried out by the Company from 4Q22.

Message from Management

Ser Educacional's results for the first quarter of 2024 reflect a consistent improvement in operational and financial results for the fourth consecutive quarter, because of the successful implementation of the operational optimization strategy that has been carried out since 2023.

During this period, various activities were undertaken to increase the Company's profitability, involving the following main fronts:

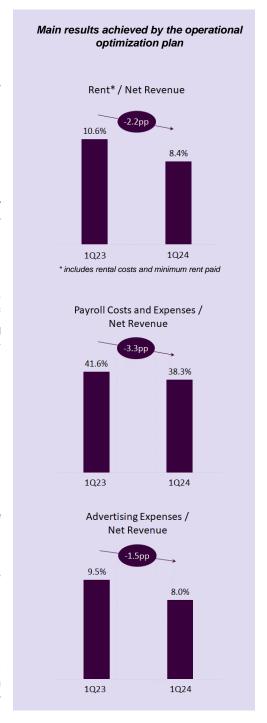

- Optimization of occupancy of the leased properties, through the return of leased properties in municipalities with higher vacancy rates;
- Unification of brands, aiming to increase the reach of the Company's main brands aiming to make them increasingly recognized in their respective regions;
- Increasing the share of health courses in the company's portfolio, which rose from 38% of the total undergraduate student base in 1Q23 to 43% in 1Q24, as these courses have a high demand in the market and a higher average ticket;
- Optimizing the performance of the units and back-office teams, by improving the class formation and automation of processes in order to improve the quality and speed of the services provided to students and improve the student experience;
- Focus on reducing financial debt rates and increasing operational cash generation, with initiatives dedicated to increasing the conversion of accounts receivable into cash, such as the sale of Educred portfolio to Pravaler, in 1Q23 and a policy for executing agreements and recovering outstanding monthly tuitions with higher emphasis on increasing cash receipt of amounts owed.

More than a year has passed since the implementation of this plan, and the company is reaping significant results which can be seen in the reduction in the cost of rent, marketing, and payroll as a percentage of net revenue, as well as benefiting from the company's improved operating performance.

This improved performance is mainly due to the success of hybrid learning student intake, which generated a significant increase in the student base, with growth in the average ticket, which, together with the operational optimization initiatives carried out in the units, are key drivers for the increase in operating margins seen in the quarter.

In Digital Learning, the Company continues with its plan of focusing on generating consistent results after completing the integration of UNIFAEL's operations in the past and has once again managed to report solid results, with revenue growth and high operating margins, in line with recent years.

With this in mind, and in the midst of an economic environment of moderate growth in Brazil and still high interest rates, the Company remains dedicated to executing its operational optimization plan, which is slated to have its main activities completed by the end of the first half of 2024, with the aim of improving its profitability indicators to prepare the Company for a new cycle of profitable growth so that it can generate consistent results,

while continuing to invest in a company that provides an ever-improving quality learning experience and in new

businesses that complement higher education, developing a continuing education ecosystem every quarter that allows the Company to continue to create new avenues for medium and long-term growth.

Management would like to thank the students, teachers, employees, shareholders and service providers for their trust and partnership, reiterating Ser Educacional's commitment to contributing to the building of a Brazil with more quality, entrepreneurial and socially responsible education.

Hybrid Learning (on-campus) student intake - 1Q24

Intake recorded 10.0% growth when comparing 1Q24 versus 1Q23, mainly due to the Company's strategy of focusing its efforts on offering health courses, which represent a higher average ticket, aiming to better capitalize on its differentials regarding the structure of laboratories, clinics, and recognition of its regional brands.

Intake in 1Q24 could have been higher, since the implementation of FIES Social by the federal government ended up delaying the student intake in the program, which usually occurs in February and March. However, due to this change in calendar, FIES student intake is only taking place between the months of April and May, which marginally reduced the intake volume for the quarter.

Digital Learning student intake - 1Q24

Intake in Digital Learning segment showed a reduction of 11.0%, when comparing 1Q24 x 1Q23, due to the Company's strategy of focusing its efforts on courses with a higher average ticket and maintaining operational profitability, thus reducing commercial discounts on intake. As this occurred in a more competitive market scenario, the strategy of increasing the average ticket led to a drop in the intake of new Digital Learning students in the period, without disturbing net revenue growth when comparing to both periods.

Dropout Rate¹

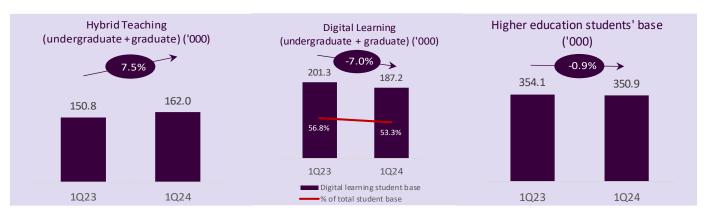

(1) Dropout rate = dropout of the period / (enrolled students at the end of the previous semester - graduates + intake + acquisitions)

Dropout rate on undergraduate hybrid learning was 14.6% in 1Q24, up 2.0 p.p. versus 1Q23, when it reached 12.6%, due to the Company's strategy to increase operational cash generation. This reduced the granting of discounts for financial negotiations, which ended up having an impact on the increase in dropouts, without significantly harming the 7.8% growth in the student base of this format of offer.

For the same reasons, in Digital Learning undergraduate segment, the dropout rate was 10.2%, versus 7.4% in 1Q23, representing 2.8 p.p. increase.

Evolution of the Student Base

% Mar24 Base / Mar23 Base	7.8%	-6.2%	-23.9%	-10.3%	-22.5%	6.2%	-0.9%

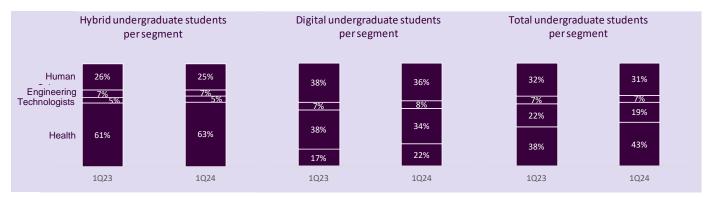

The 7.5% increase in the student base in Hybrid Learning segment was due to the Company's focus on offering a leaner portfolio of courses dedicated to the areas of knowledge in health and engineering, aiming to maximize the Company's competitive advantages in terms of its distinctive structure of laboratories and clinics, as well as the privileged location of its units and brand positioning in the cities where it operates. As a result, the increase in the

health student base stands out again, now accounting for 63% of the Hybrid Learning undergraduate student base and 43% of the total undergraduate base.

In Digital Learning, health courses increased their share by 4 percentage points, from 16% to 20% of the undergraduate student base, reflecting the results of the company's strategy of increasing its investment in laboratories and the integration of training systems at the partner learning centers between the original regional brands and UNIFAEL.

Operational Data	1Q24	1Q23	% Chg. 1Q24 x 1Q23

Medical students	3,236	3,056	5.9%
Operational campuses	58	59	-1.7%
Operational Centers	861	961	-10.4%

The lower number of partner Campuses and Learning Centers in operation is due to the Company's strategy to improve its operational performance, closing activities in underperforming units and learning centers, which includes the reduction of the leased real estate, even when the units themselves are not closed and remain operating with leaner, updated spaces in line with modern academic practices, which provide a distinctive and truly hybrid educational experience for students.

% of PROUNI Students	7.0%	8.2%	6.7%

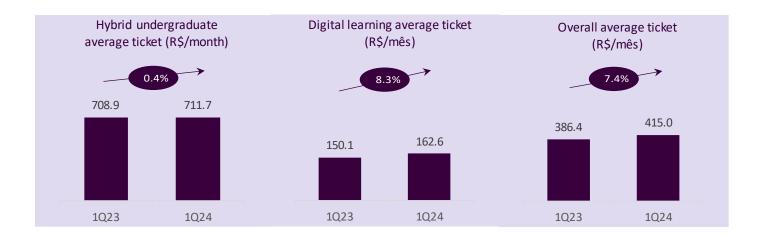

PROUNI's student base showed decrease in its share of hybrid undergraduate student base, mainly due to the decrease in student intake from this program in 1Q24.

Average Net Ticket

Average Ticket (R\$)	1Q24	1Q23	% Chg. 1Q24 x 1Q23
Hybrid Teaching (Undergraduate)	711.74	708.93	0.4%

Digital Learning (Undergraduate + graduate)	162.58	150.06	8.3%
Total Net Average Ticket	415.01	386.42	7.4%

The average undergraduate ticket for Hybrid Learning in 1Q24 rose by 0.4% compared to 1Q23, due to lower commercial discounts in the student intake processes in recent vintages, especially in 2024, and the increased share of student intake for health courses, which were partially offset by the increased number of students enrolled in the period, since the Company recognizes the full amount of the commercial intake discounts in the same quarter, meaning that pressure on the average ticket is higher in odd-numbered quarters when there is a more significant increase in the number of students enrolled, as was the case in this quarter.

Others	14,171	14,433	-1.8%

- a) The 10.1% increase in gross revenue is due to (i) the higher volume of students enrolled in hybrid and digital undergraduate, due to the improvement in intake rate; (ii) growth in the student base of the Medicine course; and (iii) the passing on of inflation.
- b) The 6.2% increase in net revenue is explained by the same reasons described above and by the 5.0% lower discounts on PROUNI, offset by the 16.7% growth in discounts and scholarships.

Third-Party Services and Others	(31,481)	(30,011)	4.9%
Depreciation and Amortization	(52,465)	(55,582)	-5.6%

- a) Personnel costs and charges dropped 7.2% compared to 1Q23, including non-recurring costs of R\$ 0.5 million in the quarter. Excluding this effect, the drop in costs and charges was 4.9%, mainly due to the increase in the average number of students per class, progress of the Ubiqua academic model and the implementation of the operational optimization plan underway at the company, partially offset by the collective bargaining agreement.
- b) Rental costs reached R\$ 4.1 million in 1Q24, versus R\$ 4.9 million in 1Q23, down 15.2%, due to the implementation of the operational optimization plan that aimed to optimize the leasing and occupancy of real estate.
- c) The utilities line increased 23.6%, due to the increase in the Hybrid Learning student base, especially in health courses that have more learning hours due to practical classes and the growth observed in recently launched units, when comparing 1Q24 to 1Q23 results;
- d) The third-party and other services line showed 4.9% growth when comparing 1Q24 to 1Q23, mainly due to the increase in the student base and especially in the health segment, which gives rise to variable costs with software licenses and preceptorship costs in practical classes.

The table below shows managerial operating costs, which are adjusted for non-recurring effects.

- a) The growth in cash gross profit and margin reflects the combined effect of the increase in revenue, as a result of the organic development of Hybrid Learning, and the drop in costs when comparing 1Q24 to 1Q23, due to the operational optimization plan implemented by the Company;
- b) Depreciation and amortization showed 5.6% drop, due to the reduction in the leased real estate stock occurred during 2023.

The table below shows the gross cash profit adjusted for the main effects of non-recurring costs.

General and Administrative Expenses (Ex-Depreciation and Amortization)	(178,779)	(161,882)	10.4%

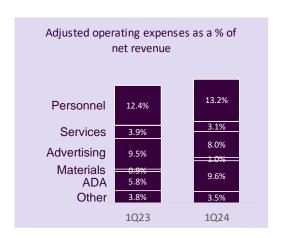

- a) Personnel expenses and charges showed 8.0% increase, due to the collective bargaining agreement, an increase in the provisioning for Profit Sharing (PLR) and for the Share Grant Plan and the insourcing of some outsourced activities. There was also a non-recurring expense of R\$ 2.7 million related to compensation fines related to the adjustment of the administrative structure to accommodate the Company's current student base. Excluding nonrecurring effects between both periods, the increase was 12.8%;
- b) Expenses with services provided dropped 12.5% compared to 1Q23. Excluding non-recurring effects between both periods, which can be seen in the managerial table below, the drop in these expenses was 16.1%, mainly due to the company's efforts to increase its operational efficiency and the insourcing of some outsourced activities and discontinuation of less efficient units and learning centers;
- c) Advertising expenses dropped 10.9% versus 1Q23. As a percentage of net revenue, such expenses dropped from 9.5% to 8.0%, showing an improvement in the Company's commercial efficiency, mainly as a result of the measures adopted to improve operational efficiency and focus on improving the portfolio of courses offered in the Hybrid and Digital Learning segments;

- d) PDA and Effective Losses were up 76.2% compared to 1Q23, representing 9.6% as a percentage of net revenue in 1Q24, compared to 5.8% in 1Q23, mainly due to the increase in the net revenue base in recent quarters in Hybrid Learning and the dropout rate at Digital Learning, combined with the write-off of settlement bills from the post pandemic period, which completed the 2-year period with lower recoverability and higher provisioning;
- e) The line of Others reached R\$ 16.3 million in 1Q24 in line with 1Q23, down 0.4%, basically due to lower travel expenses, accreditation and re-accreditation visits for courses, congresses, and other activities; and
- f) Other Net Operating Income (Expenses) line was 33.7% higher when compared to 1Q23 (53.6% increase, excluding non-recurring items, as per the adjusted table below).

The table below presents managerial view of general and administrative expenses, adjusted for non-recurring effects.

^{1.} EBITDA is not an accounting measure.

- 4. Minimum rent refers to rental agreements recorded under financial leasing in accordance with IFRS 16. The expenses from such leasing are not recorded under EBITDA, but are part of adjusted EBITDA.
- 5. Adjusted EBITDA corresponds to EBITDA plus (a) financial revenue from fines and interest on tuition fees, (b) non-recurring costs and expenses, and (c) minimum rent paid.

The increase in Adjusted EBITDA when comparing 1Q24 x 1Q23 was due to the growth in net revenue in 1Q24, resulting from the increase in hybrid undergraduate student base, which provided a more consistent pace of net revenue growth in 2023, while the success in executing the operational optimization plan so far allowed the pace of growth in costs and expenses to slow down and enabled an increase in adjusted EBITDA margin in 1Q24 of 3.1 percentage points compared to 1Q23.

^{2.} Revenue from interest on agreements and others comprises our net financial result arising from revenue from interest and fines on tuitions corresponding to financial charges on renegotiated and overdue tuition fees.

^{3.} Non-recurring costs and expenses are mainly related to expenses related to mergers and acquisitions of companies, severance expenses arising from the workforce optimization process, which would not affect normal cash flow.

- a) Financial Income was up 25.5%, mainly due to the 50.0% increase in Interest on Agreements and Others and the 33.3% increase in the exchange variation line on the foreign currency loan (with swap) agreed with Banco Itaú;
- b) Interest on Agreements and Others was R\$ 7.0 million in 1Q24, representing a 50.0% growth compared to 1Q23, when it reached R\$ 4.7 million, due to the higher interest charges from students in the comparison between both periods.
- c) Income from Financial Investments reached R\$ 5.4 million in 1Q24, in line with 1Q23, when this line also ended the quarter at R\$ 5.4 million, with 1.0% increase when comparing 1Q24 X 1Q23, due to the higher volume in cash and securities in a year over year comparison.
- d) The sum of Foreign Exchange Gains and Interest Financial Expense and Swap Result on Loans, referring to the contracting of the credit facility in modality 4131 with Banco Itaú, showed a 28.5% drop in the combined financial expense, from R\$ 6.9 million in 1Q23 to R\$ 5.0 million in 1Q24;
- e) Financial Expenses reached R\$86.7 million in 1Q24, compared to R\$76.1 million in 1Q23, which represents an
 increase of 14.0% in the comparison between the two periods, mainly due to the increase in discounts granted
 and recognition the mark-to-market of derivatives, offset by the reduction in gross debt, including the reduction in
 swaps (commented above);
- f) Interest Expenses decreased by 1.3%, from R\$22.4 million in 1Q23 to R\$22.1 million in 1Q24, due to the reduction in the CDI and gross debt between the two periods;
- g) Interest on Commercial Leases was R\$19.0 million in 1Q24, compared to R\$20.0 million in 1Q23, a reduction of 5.2%, due to the delivery of properties, as mentioned in Rental Costs, offset by remeasurement of rented properties;
- h) Discounts Granted reached R\$ 25.1 million in 1Q24, versus R\$ 16.9 million in 1Q23, due to the higher volume of agreements to recover old monthly tuition fees, mainly between 316 and 720 days when comparing both periods;

- The mark-to-market of derivatives began to be recorded by the company as of 4Q23, in compliance with CPC 46, representing an accounting effect, with no cash effect and therefore allocated as a non-recurring effect in the result;
- j) The line of Others in financial expenses ended 1Q24 at R\$ 4.2 million, versus R\$ 3.9 million recorded in 1Q23, mainly due to the non-recurring effect of R\$ 2.4 million related to the execution of financial transactions in the period.

The table below presents the financial result on a managerial view, adjusting for non-recurring effects of other financial revenues:

The table below presents managerial net income (loss), adjusted for non-recurring effects. In 1Q24, the Company recorded an adjusted loss of R\$ 2.8 million, versus an adjusted loss of R\$ 18.2 million recorded in 1Q23, mainly due to the recovery of the Hybrid Learning revenue base, combined with the beginning of synergies generated by the execution of the operational optimization plan started from the end of 2022. These effects were partially offset by net financial expenses, mainly due to the impact of interest on the Company's current level of debt. In 1Q24, IR/CSLL represented a net expense of R\$ 1.2 million, mainly due to the aggregate profit of part of the Group's companies.

The table above shows the impact of IFRS 16 on the Company's adjusted net income (loss) for the purposes of demonstration and comparability with previous years. In 1Q24, excluding IFRS 16 impacts, adjusted net income was R\$ 5.0 million. The increase in the difference between the adjusted net profit (loss) and the same Ex-IFRS 16, when comparing the quarters, occurs due to the return of properties that are immediately recognized in the results Ex-IFRS 16, however in the calculation considering IFRS 16 this impact is gradually recognized depending on the calculation model according to this accounting standard.

The Company's cash availability totaled R\$ 225.5 million, down 23.4% compared to December 2023, mainly due to the Company's focus on reducing its gross debt, which was reduced by 9.3% when comparing both periods, with around R\$ 100.0 million in amortization.

As a result, net debt fell 4.0% compared to 4Q23, with net debt ending the quarter at R\$ 760.6 million and representing a net debt / adjusted EBITDA already below 2x.

Net operating cash generation went from R\$ 86.7 million in 1Q23 to R\$ 66.2 million in 1Q24, down 23.6%, due to the sale of Educred portfolio in 1Q23 amounting to R\$69.7 million, giving rise to a non-recurring effect in that quarter. 1Q24 also had a non-recurring effect due to the net inflow of R\$ 15.0 million from FIES, which in previous years were paid in December, but this year was paid in January 2024. Excluding these effects, operating cash generation in 1Q23 would have been R\$ 16.9 million and that of 1Q24.

Adjusting for these effects, net operating cash generation was R\$ 51.2 million, up 203% compared to last year, which would be adjusted to R\$ 16.9 million, mainly due to the improvement in the timely payments of monthly tuition fees by students, effects arising from the execution of the operational optimization plan and lower volume of interest payments when comparing both periods.

ABOUT GRUPO SER EDUCACIONAL
