Message from Management

Ser Educacional completed the first quarter of 2023 with results consistent with the planning for the year, whose main objectives are to improve operational and financial performance, through the organic expansion of the student base, generation of synergies from acquisitions made in recent years, optimization of the operational structure and increase in cash generation. These goals aim to provide the company with the ability to face a scenario that is still adverse and uncertain in the economy, which presents a backdrop of high interest rates in search of inflation control, while Brazilian families still have their disposable income tightened and their indebtedness index above the optimal.

In this environment, the results of 2023.1 enrollment season can be considered positive, with 7.9% growth in Hybrid Learning enrollment, as well as in Digital learning, which despite the still very competitive scenario, also recorded 9.6% enrollment growth, both when comparing to 1Q23 and 1Q22. This performance was the result of the company's strategy of focusing on courses with more hours of practical classes and a higher average ticket, such as in the areas of health and engineering, especially for Hybrid Learning. was the implementation of a commercial policy focused on passing on inflation in the tuition of courses offered, aiming to take advantage of the strength of the brands, laboratory structure, and increasingly distinctive clinics in its well-located units in the cities where it operates.

As a result of the increase in intake and the improvement in dropout rates, the regulated education student base grew 5.3%, with a healthy growth in the average ticket of 6.3%, which led to a 11.7% increase in revenue, in the quarterly comparison.

The operational optimization plan started in the second half of 2022 has also shown the first tangible results of the activities that are being developed and are expected to last until the end of the year. An example was the sale of Educred portfolio to PraValer, a landmark transaction for Brazilian higher education, showing that the offering of private student loans in Brazil is possible and profitable, provided that solid practices are adopted for granting and controlling the financing granted. The transaction provided an inflow of R\$ 69.7 million into the Company in a first moment. As a result, the sale of Educred portfolio was the main factor that led to the decrease in average term of receipt of total tuition at Ser Educacional by 16 days in the quarterly comparison and the net debt drop by 8.5% compared to 4Q22. In addition, the quarter was marked by the first returns of properties made during the summer holidays and the resulting optimization of costs and expenses related to these moves, which, despite not yet visibly reflected in 1Q23 results, will be seen throughout the year.

On the new business front, Ser Educacional continued investing in its portfolio of technology and healthcare companies to increasingly interconnect them into its continuing education ecosystem, driving continued growth in ancillary revenues. Among the new businesses, the operational performance of Peixe30 stands out, which reached 475,000 users in less than 1 year after its launch and the inauguration of Hospital Veterinário DOK in Maceió, which will raise the quality and reputation of the Veterinary Medicine course of the educational institutions' brands of Ser Educacional.

The company continues to pursue the goals set for the year, aiming to present in the coming quarters results that demonstrate more clearly the effects of the activities underway in its quest to regain operational leverage, while continuing to strive to improve its ESG practices.

In this sense, at the Annual Shareholders' Meeting, held in April 2023, the shareholders of Ser Educacional elected Ms. Iara Xavier, its first Independent Director, increasing the diversity of its the Board of Directors, which now has a majority of independent members and with no overlap between executive officers and directors.

The Company also showed one more cycle of improvements in its academic quality indicators. In March 2023, the Ministry of Education (MEC) released the Preliminary Course Concept (CPC) and General Course Index (IGC) grades for the 2021 cycle. The Company had 97% of its courses with CPC with grades 3, 4 or 5, with 26% of this total with grades 4 or 5, compared to 96% in 2019, with 13% of these courses with grades 4 or 5. In addition, the Company achieved the General Index of Courses of 2.61, a result above the average of the private sector of higher education in Brazil.

In this scenario, the Company continues to invest in the development of its continuing education ecosystem, implementing academic improvements that are reflected in the improvement of quality indicators measured by MEC, while improving its ESG practices and acting in the process of resuming its operational leverage. Ser Educacional's Management thanks its students, teachers, employees, shareholders and service providers for their trust and partnership in the mission of transforming Brazil through education, conveying values such as entrepreneurship, culture and social responsibility to the communities in which their operations are located.

OPERATIONAL PERFORMANCE

1Q23 Student Intake Results

Total Enrollment (Ex-Acquisitions)	113.6	104.7	8.5%		

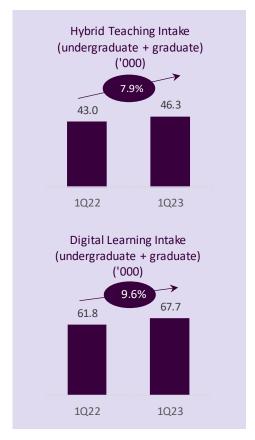

Hybrid Learning (on-campus) student intake - 1Q23

Intake recorded 7.9% growth when comparing 1Q23 and 1Q22, mainly due to the Company's strategy of focusing its efforts on offering health and engineering courses, which represent a higher average ticket, aiming to better capitalize on its differentials regarding the structure of laboratories, clinics, and recognition of its regional brands.

Digital learning student intake - 1Q23

Intake in Digital Learning segment grew 9.6%, in the 1Q23 x 1Q22 comparison, mainly due to the commercial synergies related to UNIFAEL integration, which completed its first year in January 2023 and allowed the integration with systems and strategies, as well as training and connection between partner learning centers and units, enabling increased capillarity in the offer of health and engineering courses, in addition to increasing the number of students in technology courses. which remain with solid demand in Digital Learning, especially due to the transfer of these courses from Hybrid Learning to Digital.

Dropout Rate¹

(1) Dropout rate = dropout of the period / enrolled students at the end of the previous semester - graduates + intake + acquisitions)

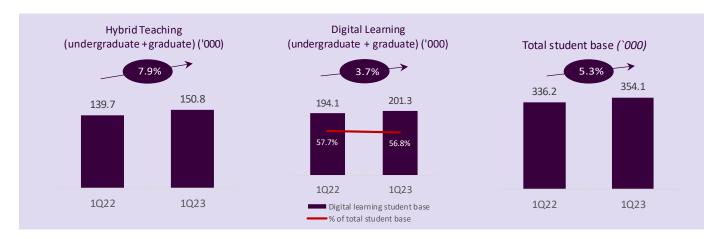

Hybrid undergraduate segment showed a reduction in the dropout rate of 1.4 p.p., when comparing 1Q23 versus 1Q22, due to the lessening of the effects of the pandemic and its impacts on the daily lives of students, as well as the result of activities implemented by the Company, such as the creation of experience mentors, implementation of the monthly payment plan via credit card, among others.

In the digital undergraduate segment, the dropout rate was 7.4%, versus 7.8% in 1Q22, representing a 0.4 p.p. decrease. The dropout rate in Digital Learning in odd quarters is lower than the average dropout for the year as it reflects the seasonal change generated by the system for recognizing enrolled students, which excludes from the student base those who have more than 2 monthly payments in arrears and have not accessed the system for more than 60 days, changing the seasonality of dropout rate of these students to be recognized throughout the semester and no longer during the enrollment period.

% Mar23 Base / Mar22 Base	6.9%	0.7%	0.4%	18.7%	-19.4%	2.9%	4.8%

The evolution of the student base in Hybrid Learning segment was due to the Company's focus on offering a leaner portfolio of courses dedicated to the areas of knowledge in health and engineering, aiming to maximize the Company's competitive advantages in terms of its distinctive structure of laboratories and clinics, as well as the privileged location of its units and brand positioning in the cities where it operates. As a result, the increase in the health student base stands out again, now accounting for 61% of the Hybrid Learning undergraduate student base and 38% of the total undergraduate base.

In Digital Learning, the student base growth has been more widespread. However, the first results of the Company's strategy to increase its investments in laboratories, systems integration and training of partner learning centers among the original regional brands stand out with UNIFAEL, which completed its first year of consolidation, resulting in health courses increasing their share from 14% to 17% and engineering from 6% to 7% of the total undergraduate digital student base. The growth in the share of technology courses in the student base is mainly due to the lower offer of these courses in Hybrid Learning, which were transferred to Digital Learning.

Operational Data	1Q23	1Q22	% Chg. 1Q23 x 1Q22
Medicine vacancies	521	473	10.1%
Medical students	3,056	2,819	8.4%
Operational campuses	59	61	-3.3%
Operational Centers	961	1,015	-5.3%

The increase in the number of seats and student base in the Medicine course when comparing 1Q22 x 1Q23 was due to the approval of 48 new seats for UNESC's operations, in the city of Vilhena (RO), in March 2022.

The lower number of partner Campuses and Learning Centers in operation is due to the Company's strategy to improve its operational performance, closing activities in underperforming units and learning centers, which includes the reduction of the leased real estate, even when the units themselves are not closed and remain operating with leaner spaces. It is worth noting that even with the number of Campuses reduced from 61 to 59 in the quarterly comparison, UNI7 Campus was included, whose acquisition was completed in January 2023.

FIES and PROUNI student base showed growth in its share of hybrid and digital undergraduate student base (for PROUNI), mainly due to the increase in student intake from these programs in 1Q23, since in 2023, the schedules of these programs showed a better fit to the funding cycle of this quarter, compared to 2022, which still had the effects of COVID-19 pandemic period.

Average Net Ticket

Average Ticket (R\$)	1Q23	1Q22	% Chg. 1Q23 x 1Q22
Hybrid Teaching (Undergraduate)	708.93	651.38	8.8%
Hybrid Teaching (Undergraduate + graduate)	705.99	650.39	8.5%
Digital Learning (Undergraduate + graduate)	150.06	161.01	-6.8%
Total Net Average Ticket	386.42	363.63	6.3%

When comparing 1Q23 to 1Q22 results above, the average undergraduate ticket for Hybrid Learning showed 8.8% growth, mainly due to the combined effect of (i) passing on prices to upperclassmen, (ii) reduced dropout rate, (iii) increased share of health courses in the Company's total course mix, and (iv) improved conditions in the competitive landscape.

In Digital Learning, the drop in the average ticket is mainly due to the conditions of the competitive scenario that remains pressured by the increase in the offer of courses in this segment, in addition to the increase in the share of technology courses in the Company's total student base of this segment, which in turn was partially offset by the increased share of health and engineering courses.

- a) The 12.6% increase in gross revenue is due to (i) the higher volume of students enrolled in hybrid and digital undergraduate, due to the improvement in intake and dropout rates, (ii) growth in the student base of the Medicine course and (iii) increase in the average ticket of Hybrid Learning, due to the improvement in the mix of courses and the inflation pasthrough on of tuition fees to upperclassmen.
- b) The 11.7% increase in net revenue is explained by the same reasons described above, offset by the 12.1% growth in discounts and scholarships. Excluding acquisitions, net revenue for the quarter was R\$ 421.3 million, with 10.8% growth, showing that the company continues to grow its net revenue on an organic basis, with emphasis on Digital Learning, which recorded 17.1% growth in the period.

Costs of Services Provided

Breakdown of Cost of Services Rendered Accounting (R\$ '000)	1Q23	1Q22	% Chg. 1Q23 x 1Q22

Third-Party Services and Others	(30,012)	(24,643)	21.8%
Depreciation and Amortization	(55,582)	(45,627)	21.8%

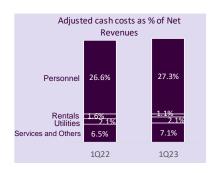

a) Personnel costs and charges increased 15.8% when compared to 1Q22. In this scenario, the Company had non-recurring costs of R\$ 3.3 million in the quarter. Excluding this effect, the increase in costs was 14.5%, mainly due to the collective bargaining agreement, the increase in the number of employees when comparing both periods, due to the expansion of laboratory and clinical activities, new businesses and UNI7 acquisition;

- b) Rental costs reached R\$ 4.9 million in 1Q23, versus R\$ 6.2 million in 1Q22, with a 21.1% drop, due to the measurement of rents that used to be treated as cost and were calculated in accordance with IFRS-16 accounting standards, with the effects being, in practice, reclassified to depreciation and interest on lease accounts. The impact on adjusted EBITDA can be seen in the line of minimum rents paid, which, as can be seen in the adjusted EBITDA table, this line shows a 34.2% increase, from R\$ 30.0 million to R\$ 40.3 million, reflecting exactly the reclassification between accounts and the increase in rental cost, which when added together, the net increase is 24.8%. This increase is due to the expected adjustment of agreements in line with inflation, the increase in the leased property base and the return of the leases of several UNINORTE properties that were anticipated in May 2017, classified as "Advantageous Lease Agreement", which were recognized as amortization until May 2022 and the inclusion of UNI7 campus;
- c) The line of utilities increased 9.4%, due to the total resumption of administrative activities and on-campus practical classes, when comparing 1Q23 and 1Q22 results, and the acquisition of UNI7;
- d) The 21.8% increase in third-party and other services was mainly due to (i) commissioning of partner learning centers as a result of its increased share in the revenue generated in Digital Learning, (ii) higher cost of access licenses in the digital learning platform due to the growth in the total student base and (iii) increase in preceptorship costs due to the increased number of students enrolled in health courses in recent periods, which have more hours of practical classes, according to the progression of classes;

The table below shows managerial operating costs, which are adjusted for non-recurring effects.

a) The growth in gross cash profit reflects the combined effect of the increase in revenue as a result of the organic development of Hybrid and Digital Learning and the lower margin is mainly due to the increase in personnel costs and services provided.

b) The 21.8% increase in depreciation and amortization rate was mainly due to the inclusion of PP&E depreciation, right of use and amortization of intangible assets identified in acquisitions.

The table below shows the gross cash profit adjusted for the main effects of non-recurring costs.

Operating Income	36,657	20,568	78.2%
General and Administrative Expenses (Ex-Depreciation and Amortization)	(161,882)	(151,647)	6.7%

- a) Personnel expenses and charges showed a 13.3% increase, mainly due to the non-recurring effect of R\$ 4.9 million related to indemnity fines arising from the adjustment of the administrative structure to accommodate the Company's current student base. Excluding non-recurring effects between the two periods, the increase was 6.4%, mainly due to the collective bargaining agreement;
- b) Expenses with services provided increased 7.4% compared to 1Q22. Despite being relatively in line with inflation, excluding non-recurring effects between the periods that can be seen in the managerial table below, the increase in these expenses was 11.6%. This change was due to (i) the increase in expenses with the provision of security and cleaning services, referring to price transfers after the normalization of activities after the weakening of the pandemic and (ii) the growth of units in the countryside of the Northeastern and Northern. Non-recurring effects

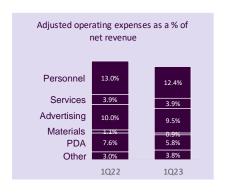

with services provided in the quarter were related to the execution of projects in IT, advisory and consultancy areas, in the amount of R\$ 2.5 million;

- c) Advertising expenses increased 6.3% compared to 1Q22, however, as a percentage of net revenue, increased from 10.0% to 9.5%, showing an improvement in the Company's commercial strategy, mainly as a result of the measures adopted to improve operational efficiency and focus on improving the portfolio of courses offered in the Hybrid and Digital Learning segments;
- d) PDA and Effective Losses line dropped 14.3% compared to 1Q22, representing, as a percentage of net revenue, 5.8% in 1Q23, versus 7.6% in 1Q22, mainly due to a decline in the dropout rate, lower default as well as higher past due tuitions recovery.
- e) Other expenses recorded a 34.4% increase as compared to 1Q22, basically due to the increase of travels, congresses and events expenses, due to the resumption of the Company's commercial and regulatory activities after the weakening of the effects of Covid-19 pandemic, the increase of building maintenance expenses and higher expenses related to supporting systems in order to help the Company with its digital transformation journey;
- f) Other Net Operating Income (Expenses) recorded an expense of R\$ 3.0 million, due to higher legal costs. In 1Q23, we had a non-recurring effect in the amount of R\$ 0.5 million. Compared to 1Q22, there was a 35.9% reduction in this expense line, when comparing in a pro forma basis, as seen in the table below.

The table below presents managerial view of general and administrative expenses, adjusted for non-recurring effects.

^{1.} EBITDA is not an accounting measure

^{5.} Adjusted EBITDA corresponds to EBITDA plus (a) financial revenue from fines and interest on tuition, (b) non-recurring costs and expenses, and (c) minimum rent paid.

The increase in Adjusted EBITDA in 1Q23 x 1Q22 comparison was due to the growth in net revenue in 1Q23, as a result of the increase in hybrid and digital undergraduate student base and the improvement in the average ticket, partially offset by higher cost and expenses.

^{2.} Revenue from interest on agreements and others comprises our net financial result arising from revenue from interest and fines on tuitions corresponding to financial charges on renegotiated and overdue tuition fees.

^{3.} Non-recurring costs and expenses are mainly related to expenses related to mergers and acquisitions, severance expenses arising from the workforce optimization process, which would not affect normal cash flow.

^{4.} Minimum rent refers to rental agreements recorded under financial leasing in accordance with IFRS 16. The expenses from such leasing are not recorded under EBITDA, but are part of adjusted EBITDA.

Financial Result	(63,218)	(40,535)	56.0%

- a) Financial Income was down 73.4% mainly due to the 91.9% decrease in the heading of exchange variation on loans in foreign currency (with *swap*) contracted with Banco Itaú;
- b) Interest on Agreements and Others was R\$ 4.7 million in 1Q23, 22.0% lower compared to 1Q22, when it reached R\$ 6.0 million, mainly due to the lower dropout rate and the Company's policy of preserving the transfer of average ticket to upperclassmen;
- c) Income from Financial Investments increased from R\$ 4.4 million in 1Q22 to R\$ 5.4 million in 1Q23, representing 22.6% increase, as a result of the hike in CDI between the periods, partially offset by the decrease in the average cash balance:
- d) The sum of the Foreign Exchange Gains and Interest Financial Expense and Swap Result on Loans, referring to the contracting of the credit facility in modality 4131 with Banco Itaú, showed an increase in the net financial expense of 41.5% increasing from R\$ 4.9 million in 1Q22 to R\$ 6.9 million in 1Q23. This increase is due to the higher average CDI rate between the periods and the fact that the loan was contracted in January 2022 and therefore did not bear interest during the full quarter.
- e) Financial expenses amounted to R\$ 76.1 million in 1Q23, 14.4% lower than 1Q22, at R\$ 88.9 million. When comparing the two periods, this change was mainly due to the lower interest expense recorded for swap contracts to protect foreign currency loans, partially offset by the increase in net debt and the average CDI between the two periods;
- f) Interest Expenses increased 68.2%, from R\$ 13.7 million in 1Q22 to R\$ 22.4 million in 1Q23, as a result of the hike in the average interest rate (CDI) on financial debt and the increase in net debt;
- g) Interest on Leases reached R\$ 20.0 million in 1Q23, compared to R\$ 16.3 million in 1Q22, with 22.4% increase, as a result of the re-measurement of leased properties, as mentioned in Rental Costs;
- h) Discounts Granted reached R\$ 16.9 million in 1Q23, versus R\$ 11.8 million in 1Q22, due to the higher volume of financial discounts in agreements for recovery of credits from old tuition fees when comparing the two periods, due to the increase in the average student base in recent years, and due to the covery of the economy;

Average net receivable days went from 110 to 94 days, mainly due to the sale of part of the Educred receivables portfolio to PraValer, which reduced Educred's gross balance of accounts receivable, whose transaction details are described in the <u>Material Fact released on 03/22/2023</u>. In addition, it is worth noting that total receivables from monthly fees and agreements receivable showed a decrease compared to 1Q22, even with an increase of 11.7% in net revenue, showing the improvement in payment punctuality and past due tuitions recovery, when comparing the same periods .

In 1Q23, the Company invested R\$ 19.4 million, and investments in refurbishments of campuses, equipment, laboratories and libraries amounted to R\$ 11.0 million, mainly explained by the resumption of activities due to weakening of the pandemic, with 23.6% increase when compared to 1Q22. Investments in licenses and agreements amounted to R\$ 5.3 million. Investments in intangible assets and other investments amounted to R\$ 3.1 million, mainly due to the development of the digital content of the subjects offered in the Company's courses.

In 1Q23, Acquisition Debt payments refer mainly to the amounts for the acquisitions of UNESC, UNIFASB, UNI7, UNIFACIMED, Hospital Plantão Veterinário, CDMV/DOK and UNIFAEL. In case of UNIFAEL, the acquisition finance is deducted from the escrow account.

The Company's cash and cash equivalents amounted to R\$ 294.8 million, a 5.3% decline as compared to December 2022. This change is mainly due to the sale of part of Educred's receivables portfolio to PraValer, as mentioned in Accounts Receivables, as well as the operating cash generation in the period that was mitigated by financial and acquisition debt repayments.

As of March 31, 2023, the Company's gross debt stood at R\$ 946.2 million, showing a 7.7% decline compared to R\$ 1,025.4 million recorded on December 31, 2022, due to payment of interest and debt principal, according to the debt repayment schedule, mainly consisting of the transactions below described:

- a) Contracting of working capital, as mentioned above, as follows: R\$ 200.0 million with Caixa Econômica Federal, with CDI rate + 0.19% p.m., renewed in March 2022, in the amount of R\$ 156.0 million, for a term of 36 months and CDI rate + 0.14% p.m., with repayment to be made in 12 quarterly installments, with no grace period; R\$ 200.0 million with Itaú Unibanco, with CDI rate + 2.75% p.a., renewed in June 2022, in the amount of R\$ 150.0 million, for a term of 30 months and CDI+2.30% p.a. rate; and R\$ 100.0 million with Banco Santander Brasil, with CDI rate + 2.90% p.a., renewed in June 2022, in the amount of R\$ 90.0 million, for a term of 30 months and a rate of CDI+2.30% p.a. As of March 31, 2023, the outstanding working capital balance was R\$ 353.0 million;
- b) Contracting of a loan in foreign currency (4131 modality) with Itaú BBA International PLC and contracting of a swap with Banco Itaú Unibanco in the amount of R\$ 200.0 million, payable in 5 years, with semi-annual payment, with interest in 10 installments and the principal in 7 installments from the 18th month from the date of contracting and final rate of CDI + 2.70% per year. As of March 31, 2023, the outstanding balance of such transactions was R\$ 207.0 million;
- c) On August 15, 2022, the 3rd issue of simple debentures, not convertible into shares, in a single series, of the unsecured type was launched with a unit par value of R\$ 1,000.00, with the total amount of R\$ 200 million on the issue date. Debentures will be amortized semi-annually starting on the 24th month from the issuance date, in 7 installments, with the last installment due on the Maturity Date, yielding CDI+2.00% per year. As of March 31, 2023, the outstanding balance of debentures was R\$ 202.5 million;

d) Increase in commitments payable as a result of acquisitions: (1) UNESC, which had an installment payment of the acquisition amounts financed by the selling shareholders, producing a balance payable of R\$ 75.1 million, including payment conditioned by the approval of medical seats in Vilhena; (2) UNIFASB, which produced a balance payable of R\$ 80.0 million to be deposited in an escrow account and released to sellers, after deducting liabilities payable by sellers, in 5 successive annual installments, in the amount of R\$ 16.0 million each, with the first installment due on January 31, 2022 and the others on the same date for the subsequent 4 years; (3) CDVM and Hospital Veterinário DOK, whereby, according to the transaction structure, the amount of R\$ 3.6 million will be paid in 5 installments of annual and successive equal amount, with the first installment due on the 1-year anniversary, counted from the closing date, and the others, on the same date of the subsequent 4 years, adjusted by IPCA variation between the closing date and the date of each payment; (4) Delinea, which had a balance of R\$ 2.0 million to be paid up to the 6th anniversary of the closing date, with installments released annually during this period, as set forth in the agreement; (5) Plantão Veterinário Hospital and Pet Shop Kero Kolo, which generated a balance payable of R\$ 5.0 million to be paid as follows: (i) R\$ 1.0 million on the first anniversary of the closing date of the Transaction and (ii) five installments of R\$ 800 thousand in the years following the Transaction's anniversary, adjusted by IPCA.

In 1Q23, the Company had a net debt of R\$ 716.9 million versus a net debt of R\$ 783.9 million as of December 31, 2022, mainly impacted by the sale of the Educred's receivables to PraValer.
