

EARNINGS CONFERENCE CALL 4th QUARTER

FEBRUARY 27, 2025

4Q24 EARNINGS CONFERENCE CALL

DISCLAIMER REGARDING FORWARD-LOOKING STATEMENTS

- This presentation may contain forward-looking statements. These statements are not historical facts and are based on the Company's current vision and estimates of the Company's management regarding future economic and other circumstances, industry conditions, performance and financial results, including any potential or projected impact related to Alagoas and related legal proceedings on the Company's business, financial condition and operating results. The words "foresee", "believe", "estimate", "expect", "plan", "objective" and other similar expressions, when referring to the Company, are intended to identify forward-looking statements. Statements regarding the possible results of legal and administrative processes, implementation of operations and financing strategies and investment plans, orientation of future operations, the objective of expanding its efforts to achieve the macro sustainable objectives disclosed by the Company, as well as factors or trends affecting the Company's financial condition, liquidity, or operating results are examples of forward-looking statements. Such statements reflect the current views of the Company's management and are subject to various risks and uncertainties, many of which are beyond the Company's control. There is no guarantee that the expected events, trends, or results will actually occur. The statements are based on various assumptions and factors, including, but not limited to, general economic and market conditions, industry conditions, operational factors, availability, development, and financial accessibility of new technologies. Any change in such assumptions or factors, including the projected impact related to Alagoas and related legal proceedings and the unprecedented impact on the Company's businesses, employees, service providers, shareholders, investors, and other stakeholders, may cause actual results to be significantly different from current expectations. Consult the reports filed with the Securities and Exchange Commission - CVM, in particular the factors discussed in the sections for a full discussion of risks and other factors that may impact any forward-looking statements contained in this document. This presentation is not an offer of securities for sale in Brazil, any securities cannot be offered or sold in Brazil without registration or exemption from registration, any public offering of securities to be made in Brazil will be prepared by means of a prospectus that can be obtained from Braskem and which will contain detailed information about Braskem and the management, as well as the financial statements.
- This presentation was updated as of December 31, 2024, and Braskem does not assume any obligation to update it in light of new information and/or future developments.
- Braskem undertakes no liability for transactions or investment decisions made based on the information in this presentation.

AGENDA

► Financial and Operational Highlights

Performance by Segment

Scenario Perspective

Strategic Direction 2025-2027

4Q24 and 2024 Financial Highlights

Recurring EBITDA of US\$102 million, in the year US\$1.1 billion, 46% increase compared to 2023

Source : Braskem | Note (1): does not consider the payments made to Alagoas, being R\$807 million in 4Q24; (2): does not consider the available international revolving credit facility in the amount of US\$1.0 billion, maturing in 2026; (3): does not include Braskem Idesa's indebtedness and considers the Recurring EBITDA of the last 12 months.

2024 Operational Highlights

Operational safety level aligned with market standards, while maintaining operating levels

Operations Security | CAF + SAF¹

2024

AGENDA

Financial and Operational Highlights

➤ **Performance by Segment**

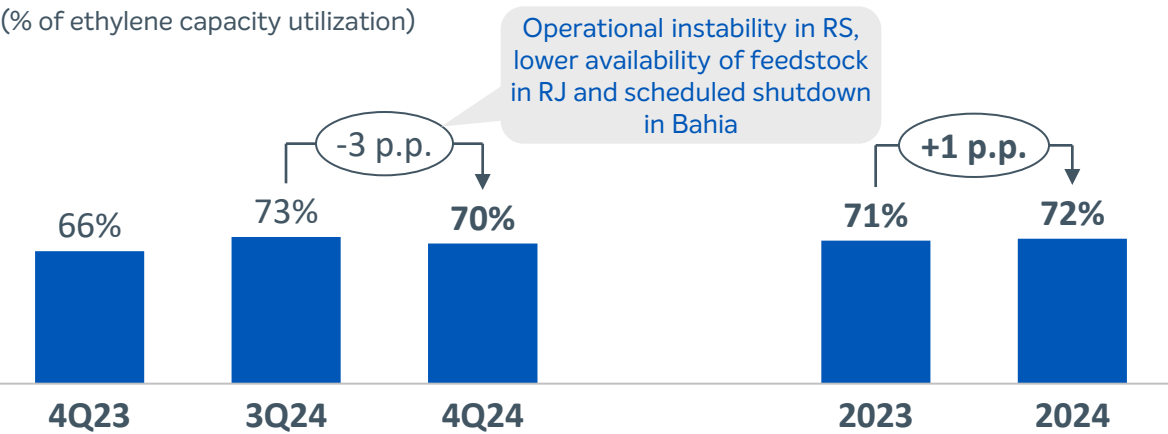

Scenario Perspective

Strategic Direction 2025-2027

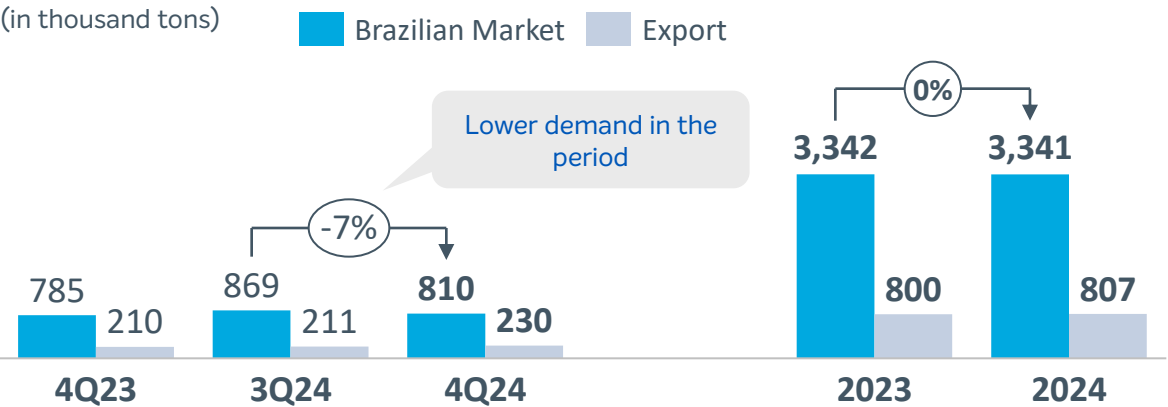

4Q24 e 2024 Performance | Brazil

The segment's recurring EBITDA was US\$889 MM in 2024, 101% higher than in 2023, mainly due to better spreads and the impact of the Brazilian Real depreciation against U.S. Dollar

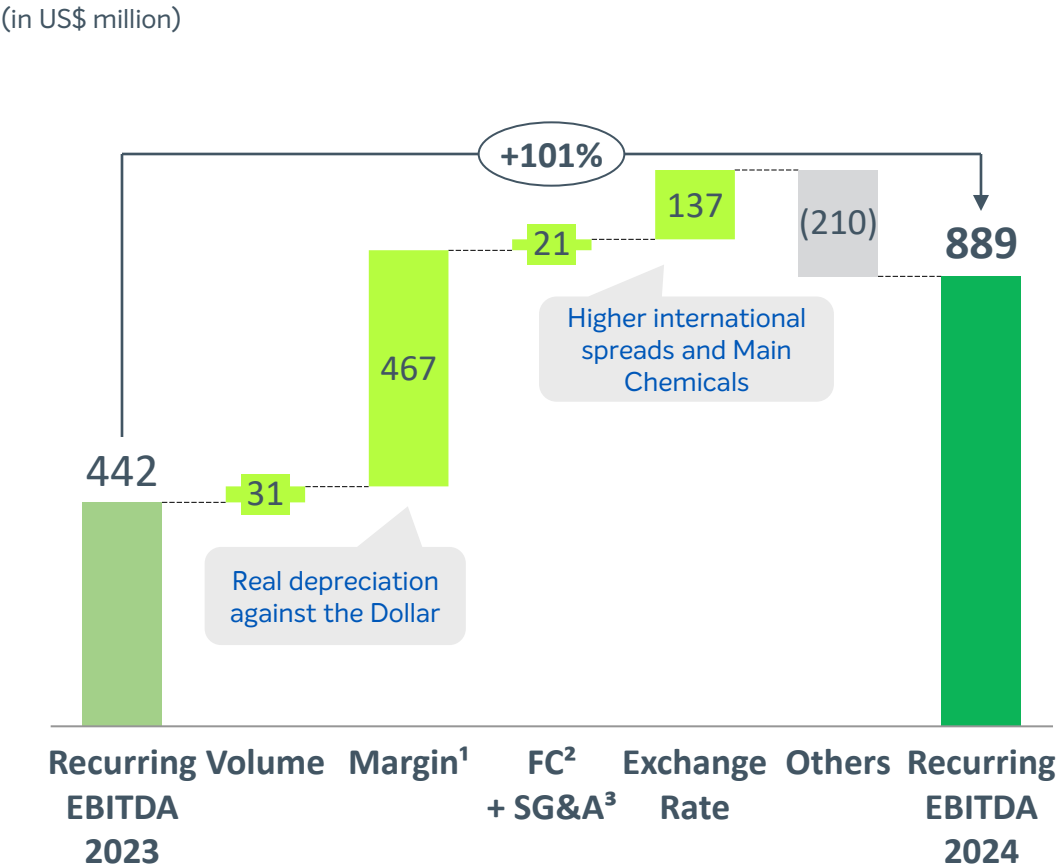

Utilization Rate of Petrochemical Plants

Sales of Resins (PE + PP + PVC)

Recurring EBITDA

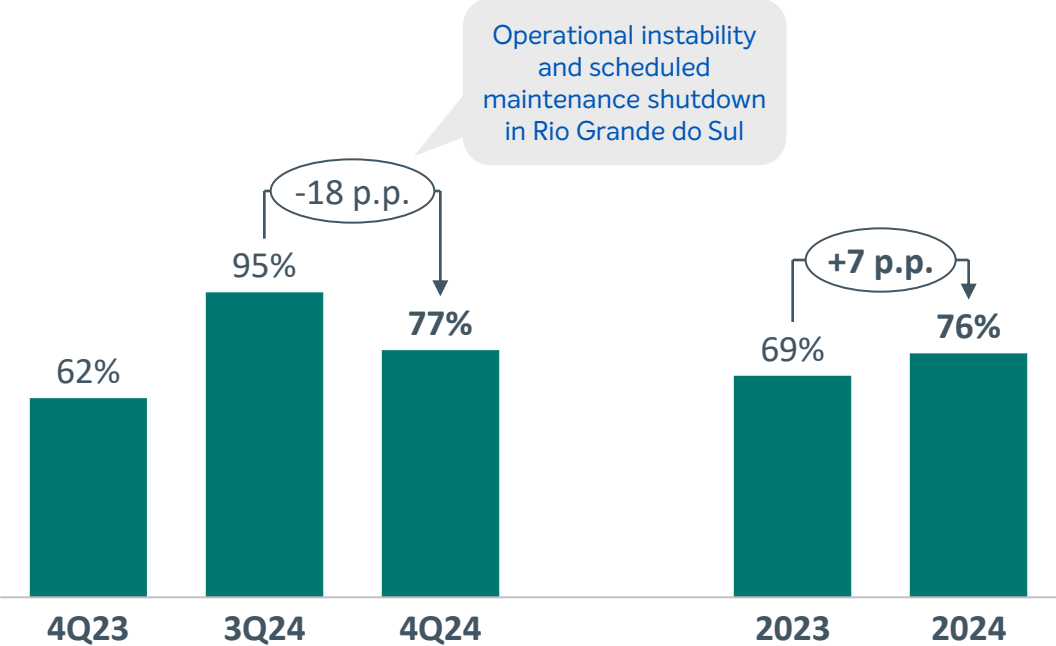

4Q24 e 2024 Performance | Green PE

Historical record sales of Green PE in 2024, with the sale of 191 thousand tons of bio-based resin, 23% higher than the previous year

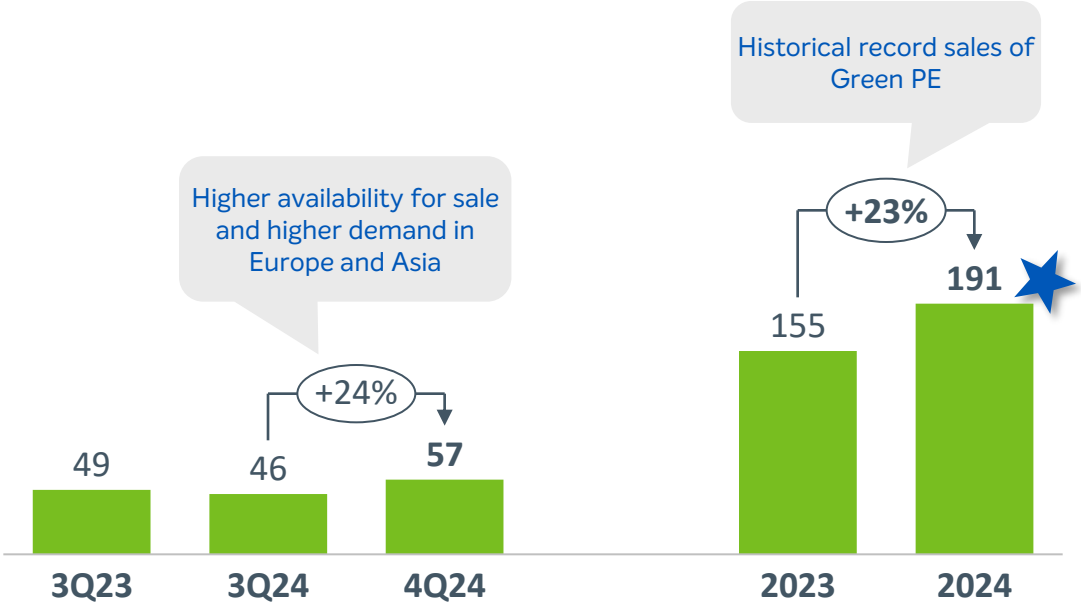

Green Ethylene Utilization Rate

(% of Green Ethylene capacity utilization)¹

Green PE Sales

(in thousand tons)

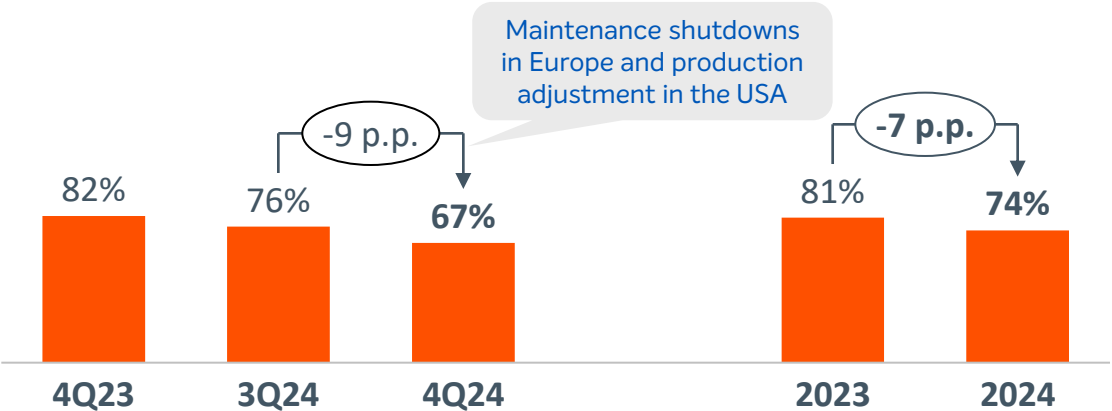

Source: Braskem | Note (1): considers the production capacity of 260 thousand tons/year of green ethylene.

4Q24 e 2024 Performance | USA & Europe

The lower level of sales and spreads in the international market were the main factors for the lower recurring EBITDA, which accumulated a reduction of 34% in the year compared to 2023

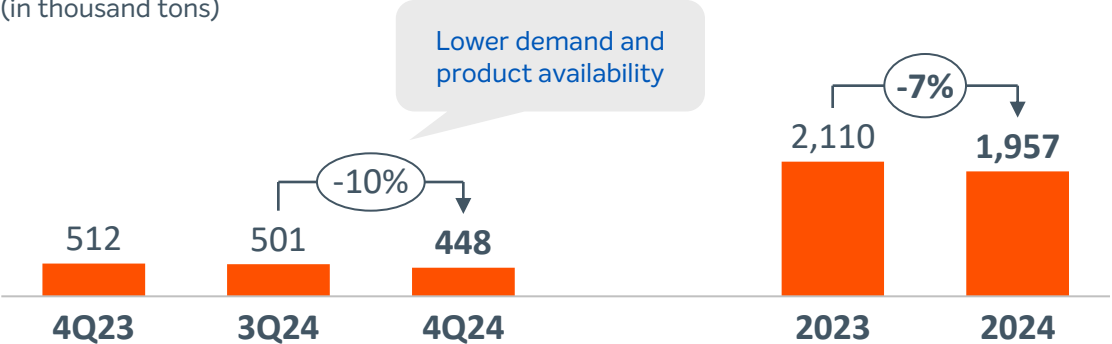

Utilization Rate of USA & European plants

(% of average utilization of PP capacities)

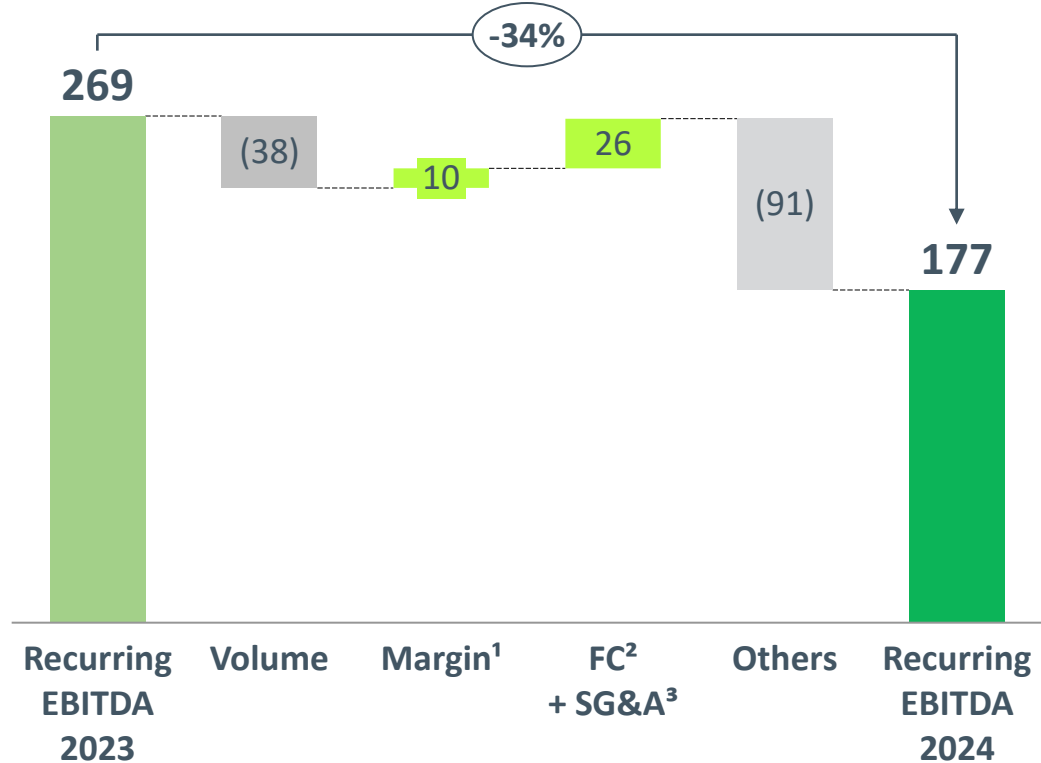

PP Sales

(in thousand tons)

Recurring EBITDA

(in US\$ million)

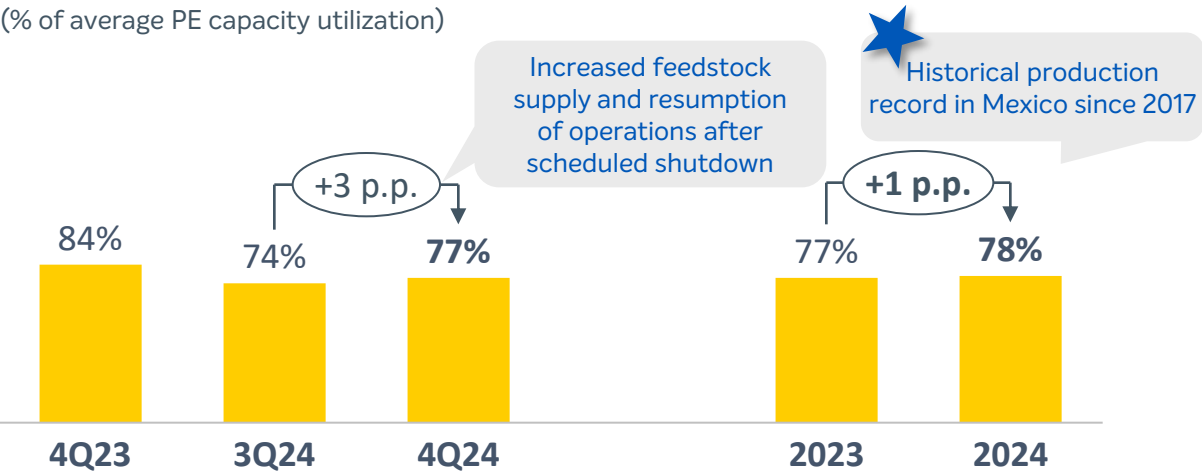

4Q24 e 2024 Performance | Mexico

In Mexico, Recurring EBITDA was US\$208 MM in 2024, 106% higher compared to 2023, mainly due to the increased sales volume and higher level of PE spreads

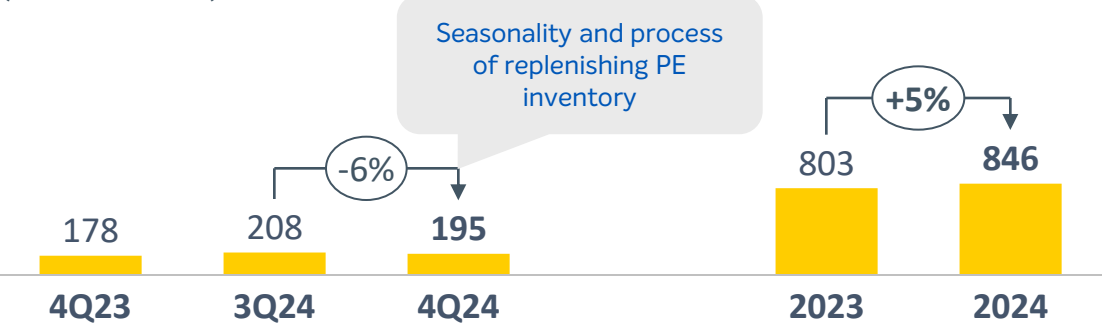

Average Utilization Rate of Mexico's Plants

(% of average PE capacity utilization)

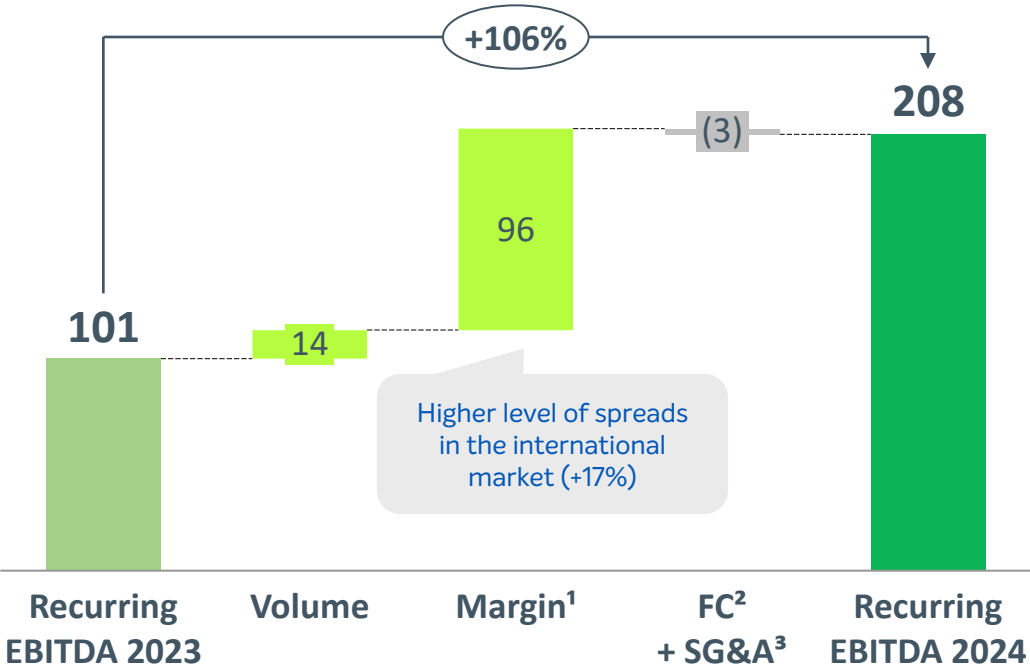

PE Sales

(in thousand tons)

Recurring EBITDA

(in US\$ million)

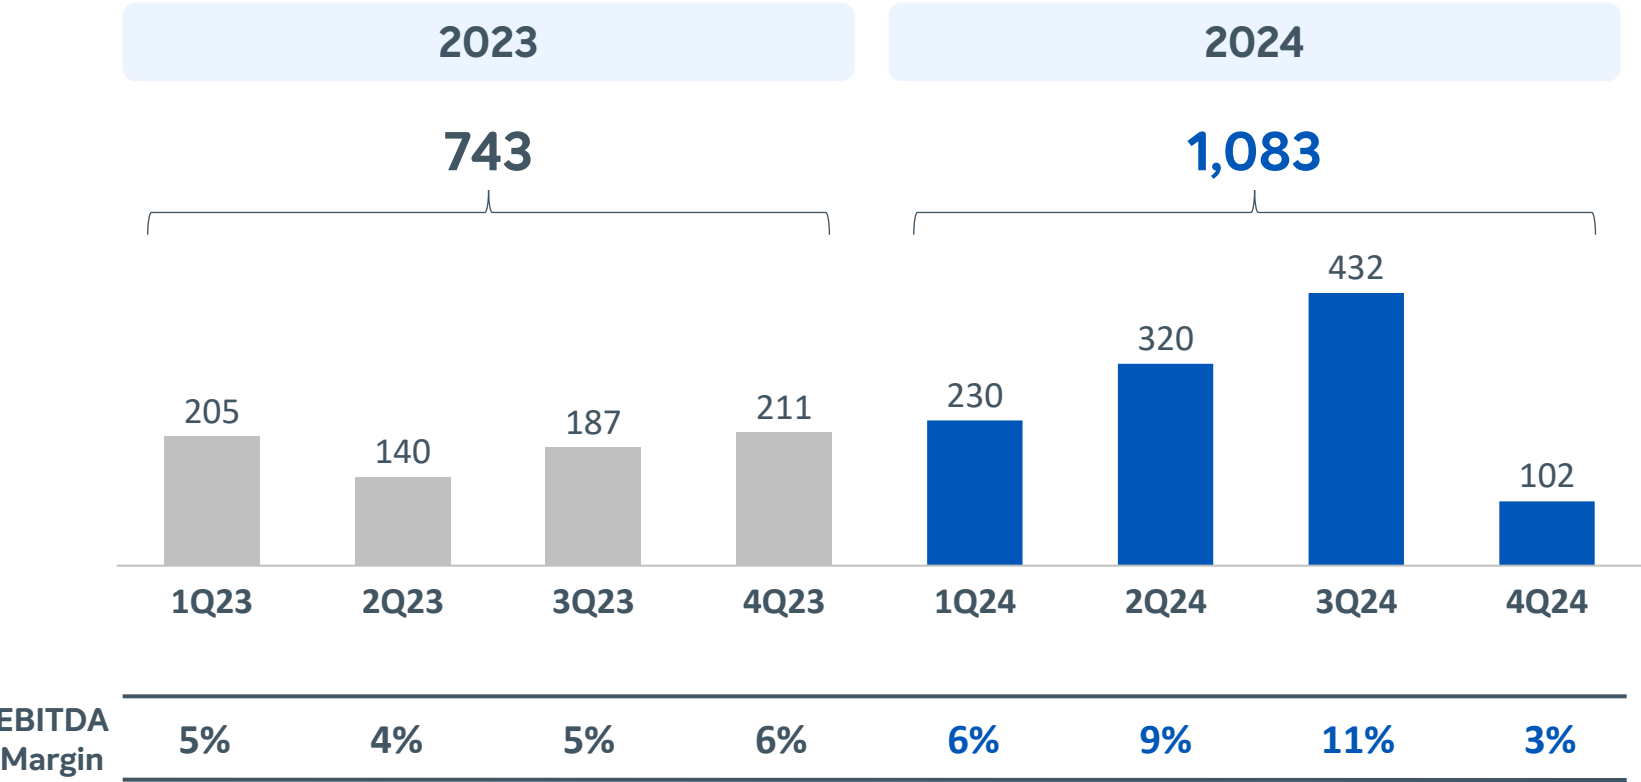

4Q24 e 2024 Performance | EBITDA

Annual EBITDA of US\$1.1 billion, 46% higher compared to 2023

Consolidated Recurring EBITDA

(in US\$ million)

PETROCHEMICAL INDUSTRY SPREADS

Higher spreads compared to 2023:

PE Brazil: + 20%

PE Mexico: + 17%

Main Chemicals Brazil: + 2%

- Lower ethane price (-23%)
- Higher USA PE price (+9%), due to the highest level of sea freight seen in the year, as a result of the conflicts in the Red Sea

SALES

Higher sales volume in the Brazil and Mexico segments

Chemicals Brazil | Internal market: + 12%

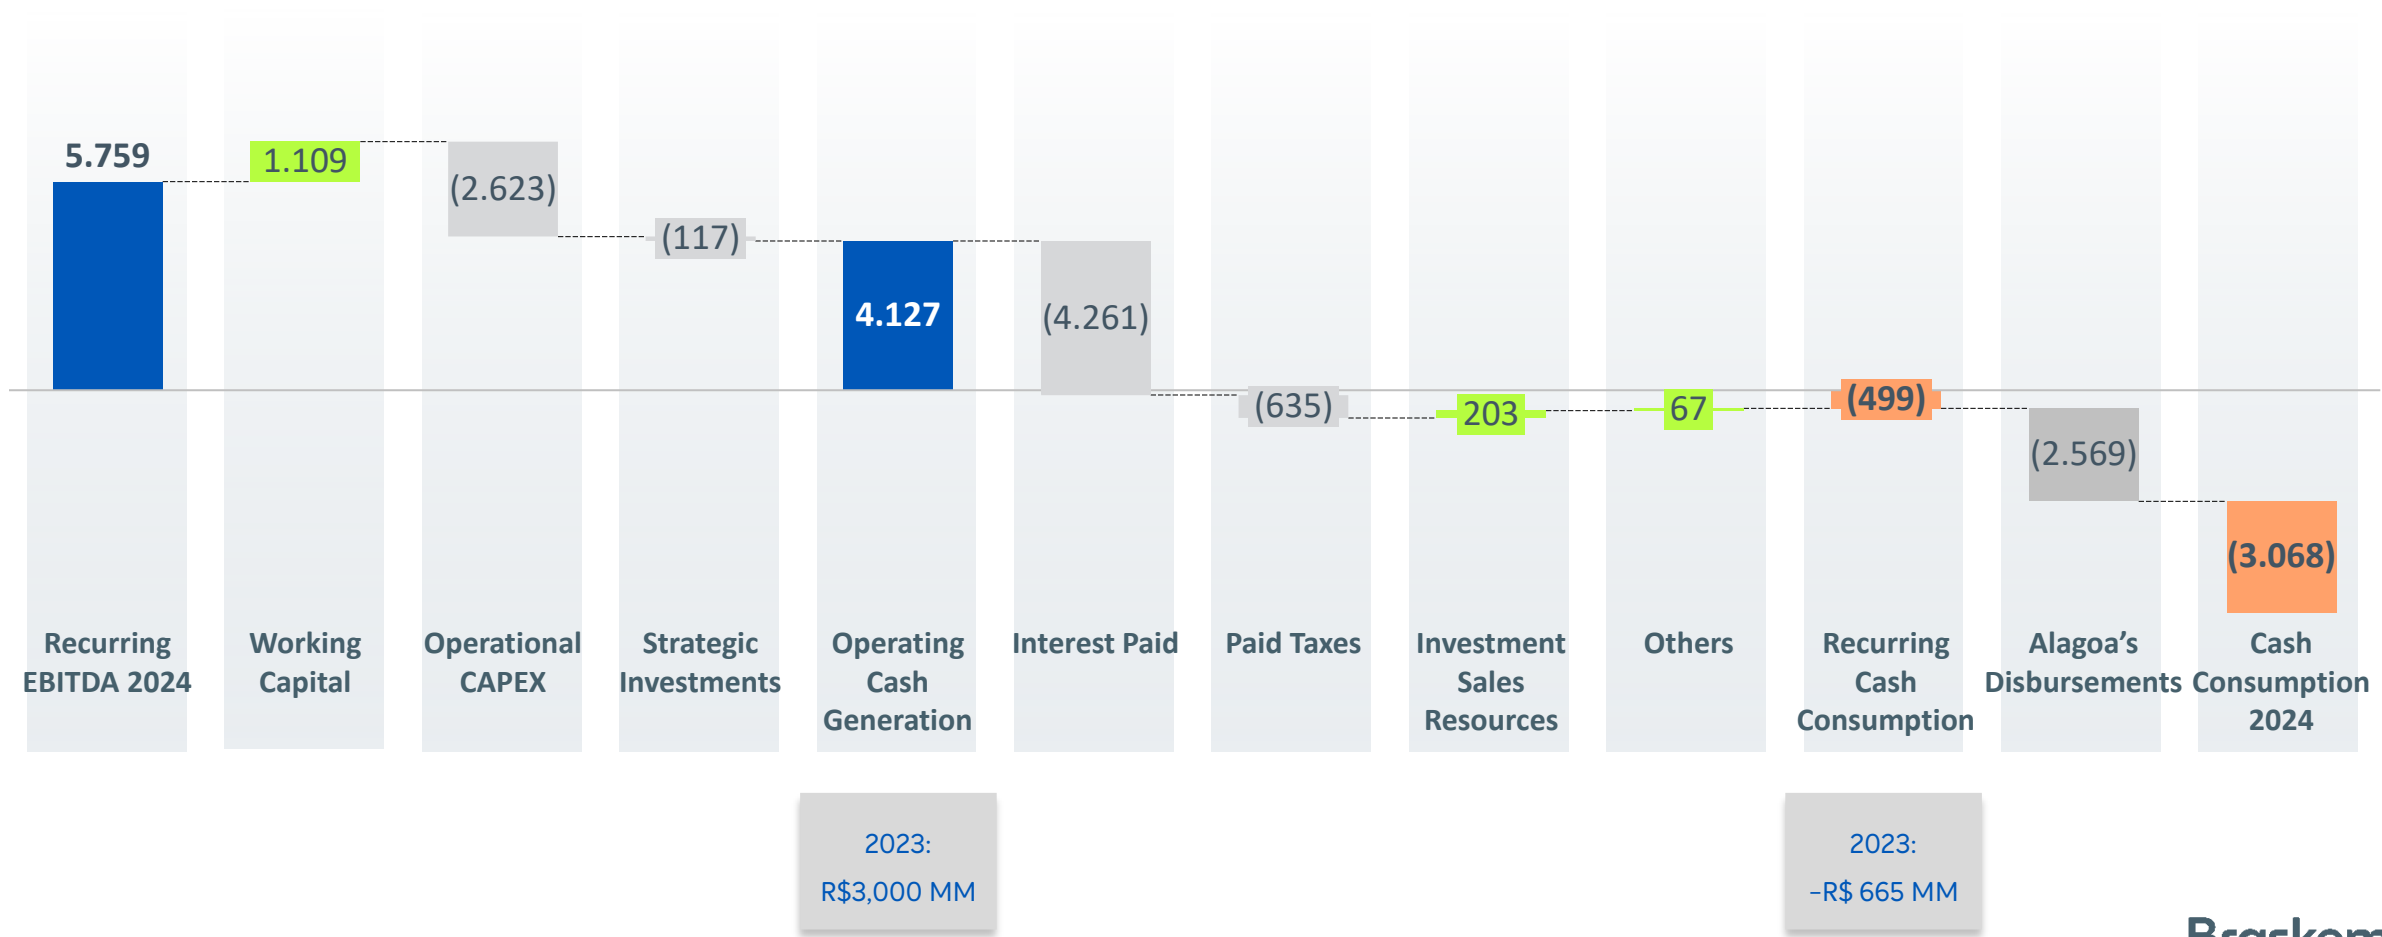

PE Mexico: + 5%

4Q24 and 2024 Performance | Cash Flow

Sequential recovery of cash generation, ending the year with R\$4.1 billion in operating cash generation and R\$499 million in recurring cash consumption

Cash Flow in 4Q24

(in R\$ million)

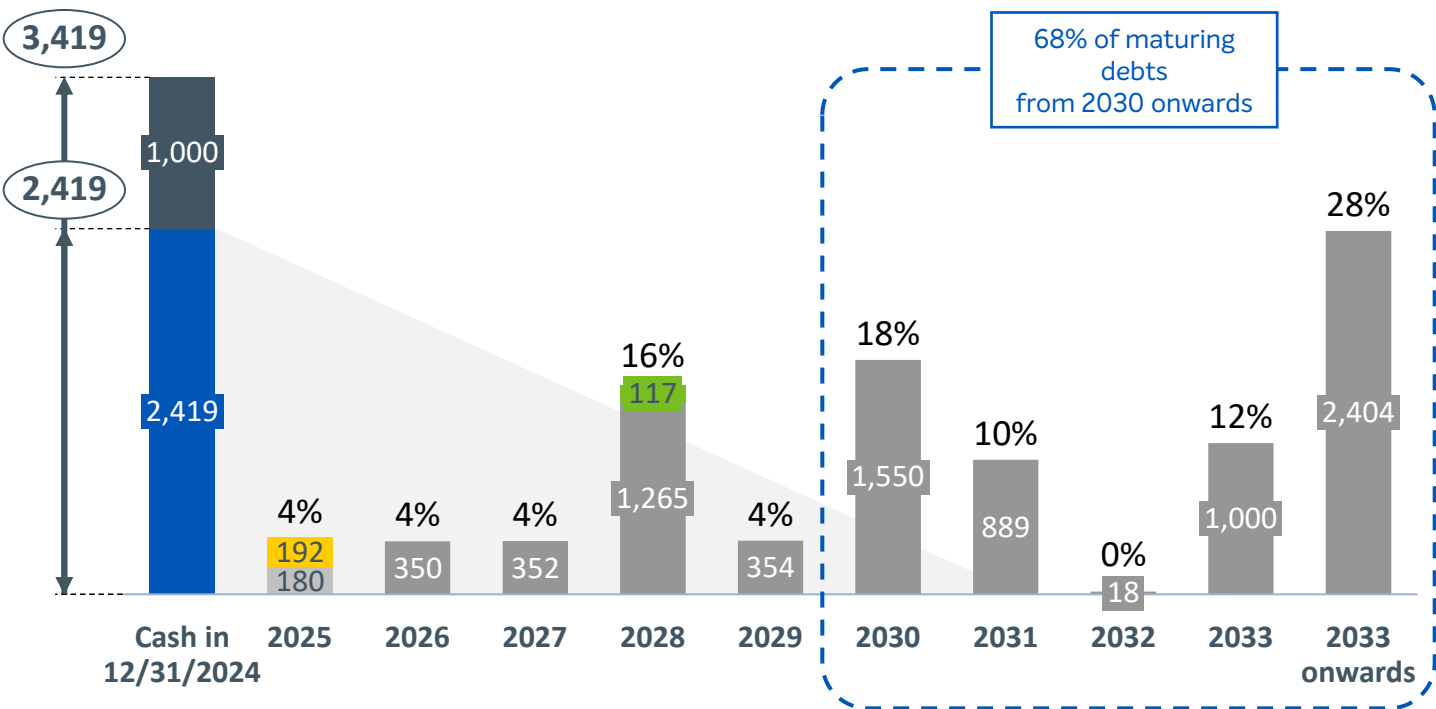

4Q24 Performance | Indebtedness

Focus on maintaining the debt long term profile, cost reduction and constant evaluation of financing alternatives

Debt Profile (US\$ million) 12/31/2024¹

■ Total cash ■ Total debt ■ Principal ■ Interest ■ SLL - Sustainable Linked Bond² ■ Stand by

Debt Indicators

- **Adjusted Net Debt** (ex-Braskem Idesa): ~US\$6.3 bilhões³
- **Average Debt Ratio**: ~9 years
- **Weighted average cost of debt**: exchange rate variation + 6.34%⁴
- **Liquidity guarantees** the coverage of debt maturities in the next 47 months⁵
- **Alavancagem corporativa**: **7.42x**, redução de 0.73x em relação a 2023

Capital Market

- **New Bond 2034**: ~US\$850 million, interest of 8.00% p.a.
~US\$4.5 billion in orders obtained from more than 300 investors
- **Hybrid Bond buyback**, a total of US\$369 million
Remaining balance of US\$241 million

CORPORATE CREDIT RATING			
Agency	Rating	Perspective	Date
Fitch	BB+	Negative	10/07/2024
S&P	BB+	Negative	10/07/2024

Source: Braskem | Note (1): Does not consider the amount of US\$19 million allocated to the Financial Compensation and Relocation Support Program in Alagoas and does not consider Braskem Idesa's debt; (2): Sustainability Linked Loan – debts linked to the sustainability goal (growth in sales volume of PE Verde I'm green™ bio-based); (3): Does not include the debt of Braskem Idesa and TQPM, includes the Leniency Agreement and due to the partial prepayment of the Hybrid Bond, there is no longer 50% Equity treatment by Standard & Poor's and Fitch Ratings. (4): Does not consider Braskem Idesa's Debt; (5): Does not consider the Stand by – Revolving Credit Facility worth US\$ 1 billion due in 2026.

4Q24 Updates | Alagoas

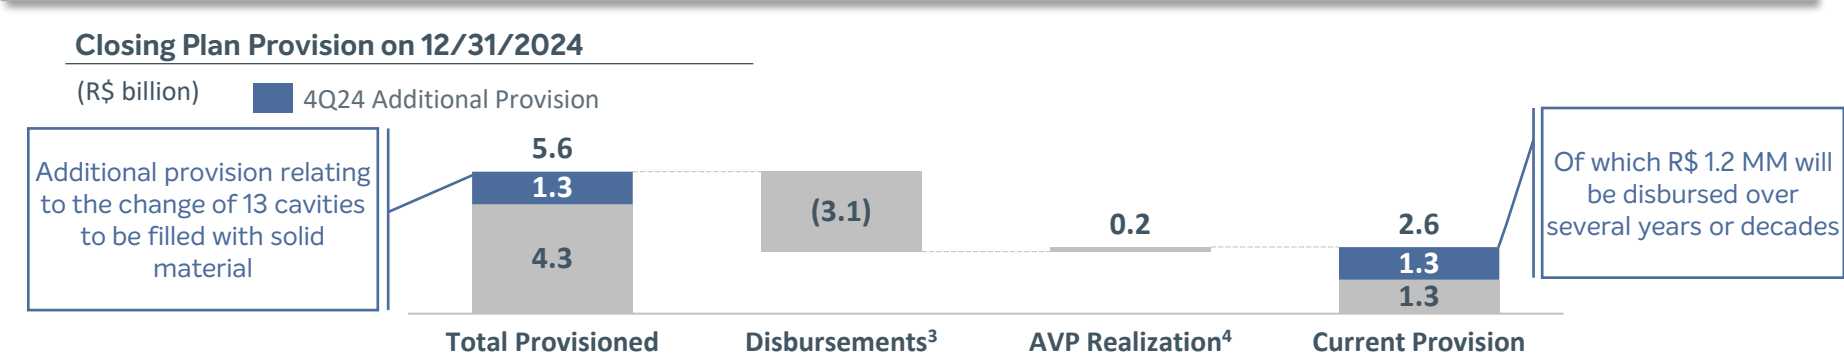

Update on the closure front and monitoring of salt cavities¹

Status of 12/31/2024

The current provision for the Salt Cavities Closure work front considers **filling with solid material for 29 cavities**, while **6 cavities were naturally filled**. In this way, if necessary, the actions to ensure that the **35 cavities reach a maintenance-free state in the long term are provisioned**

Closing Technique	#	Status	Comments
Solid material filling (Backfilling)	18	<div>7 17 19 4 11 25</div> <div>27 3 15 20 21 29</div> <div>34 9 12 16 22 23</div>	6 cavities with the fill completed 4 cavities are in the process of filling 8 cavities are in the preparation and planning phase, including 2 cavities (22 and 23) recently added to the filling group, which would previously have been closed by plugging
Natural Filling	6	<div>5 6 8 14 18 24</div>	5 cavities with confirmation of natural fill status Cavity 18: studies in progress to confirm natural filling, so that the closure of this cavity is approved by the ANM
Plugging ² and Pressurization	11	<div>1 2 10 13 26 28</div> <div>30 31 32 33 35</div>	Based on a new recommendation from the technical consultancy hired by the Company, an increase in the provision for filling the 11 cavities with solid material, if necessary, was considered. According to the technical note: <i>"in the long term, i.e. from several years to decades, and after completion of the current filling plan, it is also recommended to fill the pressurized cavities to achieve a maintenance-free state for the 35 cavities, suitable for final field closure."</i>
Total	35	<div>● 11 Filled</div> <div>● 9 Pressurized</div> <div>● 7 In progress</div> <div>● 8 In preparation</div>	

Source: Braskem | General note: the Company cannot rule out future developments related to the topic or its associated expenses, and the costs to be incurred by Braskem may differ from its estimates or provisioned values. | Note (1): Current plan base approved by the National Mining Agency; (2): In December 2024, based on the recommendation of the specialized technical consultancy hired by the Company to carry out studies on the definitive closure of the salt cavities, an increase in the provision related to the filling with solid material of the 11 pressurized cavities, currently belonging to the Plugging and Pressurization group, was considered, whose actions are scheduled from 2027, with execution over several years or decades; (3): includes payments made and other obligations to be paid; (4): Present Value Adjustment.

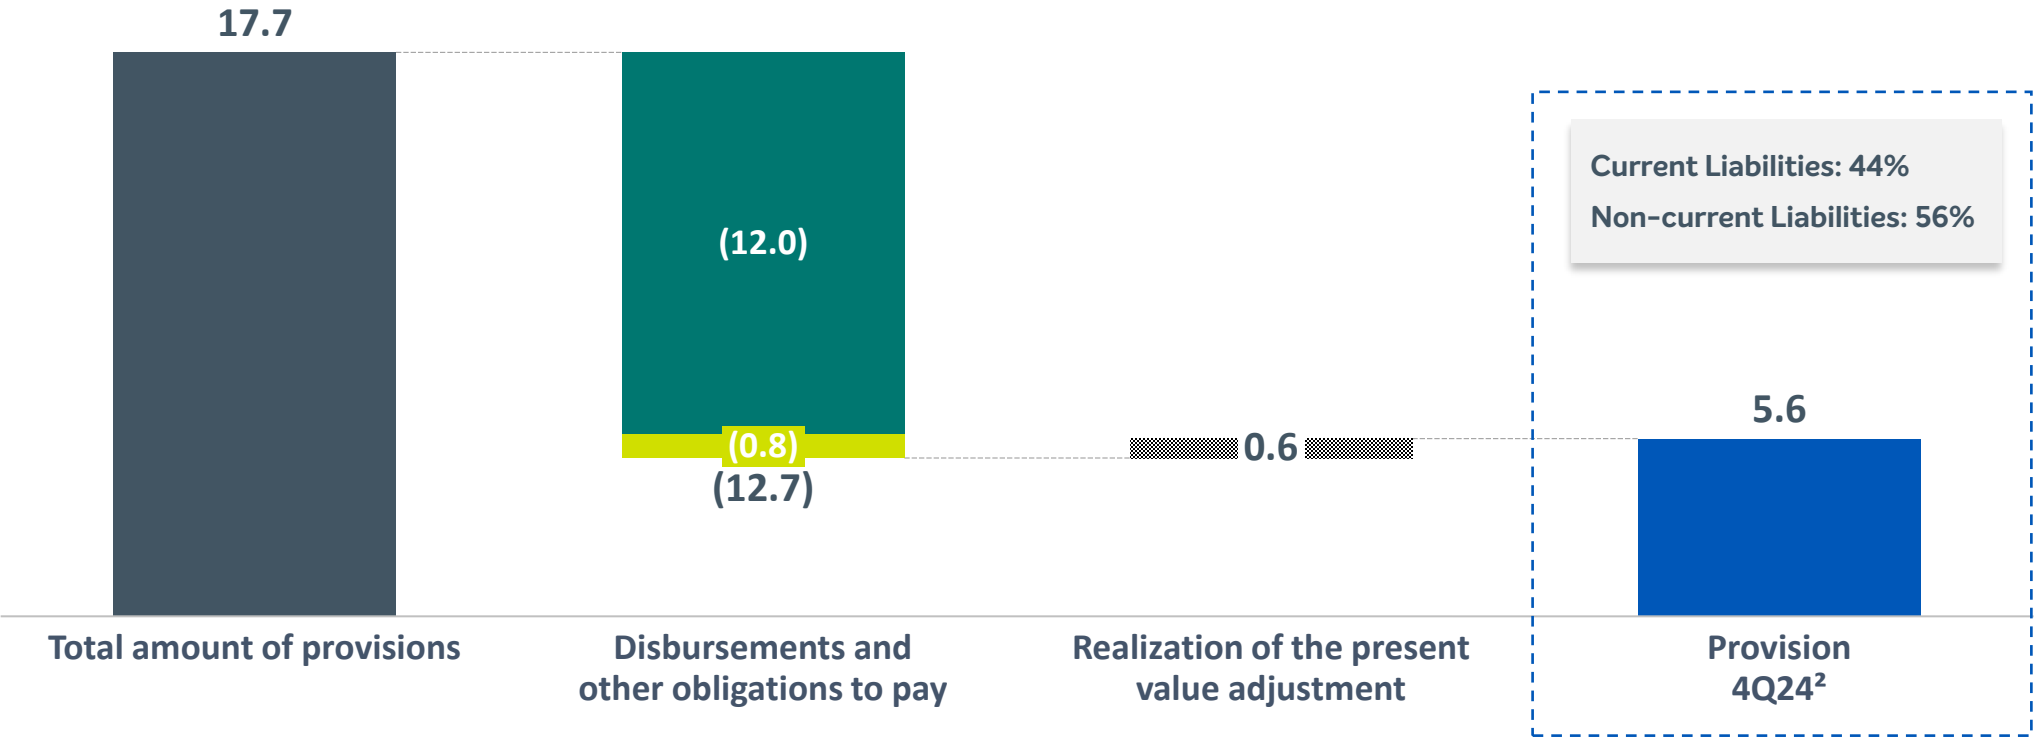

4Q24 Updates | Alagoas

Provisions

Status of 12/31/2024

Total Amount and Balance of Provisions¹

(R\$ billion) ■ Disbursements ■ Other obligations to pay

The Company cannot rule out future developments related to the topic or its associated expenses, and the costs to be incurred by Braskem may be differ from its estimates or provisioned amounts

Source: Braskem. Note (1): the total amount of provisions related to Alagoas is R\$17.7 billion, of which: R\$12.0 billion has already been disbursed, R\$750 million has been reclassified to the group of Other obligations and the realization of the AVP (adjustment to present value) was R\$0.6 billion.
Note (2): the net balance of provisions, at the end of December/23, was approximately R\$5.2 billion.

4Q24 and 2024 Updates | 2024 Priorities

2024 PRIORITIES

PROGRESS IN 2024

Commitments established in Maceió

- › Cavities closure plan update, including in the provision actions, if necessary, to **ensure that the 35 cavities reach a maintenance-free state** in the long term
- › Significant progress on all fronts of action

Optimization of the asset operation strategy

- › **Promotion of value and asset strategy:** divestment of control of Cetrel
- › **Optimization of reliability and costs in the supply of feedstock:** (i) approval to operate as EBN (Empresa Brasileira de Navegação); (ii) launch of the first carrier under Company leasing

Resilience and financial health

- › Implemented initiatives resulted in **~US\$196 MM in EBITDA and ~US\$469 MM in Cash Generation in the year**

Defense of the Brazilian industry's competitiveness

- › **Import Tax increase** on petrochemical products (from 12.6% to 20% for PE, PP e PVC)
- › Investments in **expanding installed capacity** within the scope of **REIQ Investimentos**, enabling approximately R\$614 million in seven projects in PE, PVC and other chemicals

Prioritization of investments related to the **Company's long-term strategy**

- › Inauguration of the **new innovation center focused on renewables** in the United States
- › Contract with Toyo Engineering for FEED¹ of Braskem Siam's new green ethylene capacity

Completion of the construction of the **ethane terminal**

- › Physical progress of Terminal construction of **94%** by the end of 2024.

Performance by Segment

Scenario Perspective

➤ **Strategic Direction 2025-2027**

Strategic Direction 2025-2027

Action Pillars

2

Resilience and financial health

- Implement **tactical initiatives to mitigate** the impacts of the industry's down cycle

STRATEGIC INITIATIVES

INITIATIVES TO SUPPORT THE BRAZILIAN CHEMICAL INDUSTRY

COMMERCIAL AND FEEDSTOCK INITIATIVES

1

Foundation

Safety

People and Culture

Governance

3

Transformation

- Implement actions to **support the current business**

REDUCTION NAFTA BASE

Implementation of the asset strategy focused on cash generation

INCREASE GAS BASE

Implementation of gas-based capacity expansion projects

MIGRATION TO GREEN

Implementation of bio-based projects

Strategic Direction 2025-2027

3

Transformation

INCREASE
GAS BASE

Implementation of gas-based capacity expansion projects

EXPANSION PROJECT OF THE RIO DE JANEIRO PETROCHEMICAL COMPLEX (DCX)

Studies to expand the gas-based capacity

- Initial studies approved by the Board of Directors in February/2025
- Potential capacity increase of ~220 thousand tons per year of ethylene and an equivalent volume of PE
- Estimated costs for conceptual and basic engineering studies: R\$ 233 million

The Company seeks to use the resources within the scope of REIQ Investimentos¹

Braskem in Rio de Janeiro numbers:

+ than 1,700 jobs between direct and indirect jobs	+ 120 local suppliers (RJ and DCX)	Current capacity (million tons): Ethylene: 520 Propylene: 75 Gasoline: 19
		PE: 573 PP: 310

Note (1): Special Regime for the Chemical Industry (“REIQ Investimentos”) established by art. 57-D of Law No. 14,374/2022 and regulated by Decree No. 11,668/2023, provides for a presumed credit of 1.5% PIS/COFINS for the execution of investments in expanding the installed capacity of the Brazilian chemical industry.

**SAFE operations
are and will always
be Braskem's focus,
being a
NON-NEGOTIABLE
VALUE IN OUR
STRATEGY**

2025 Priorities

1

Advance the implementation of **asset transformation** initiatives

2

Implement **contingency** initiatives for the **petrochemical cycle**, focusing on **financial preservation** and **cash flow**

3

Promote the **competitiveness** agenda of the **Brazilian chemical industry**, seeking **measures** that **guarantee competitive equality**

4

Comply with the **commitments** established in the **agreements** signed in **Maceió**
