UPDATES ON THE PAPA-TERRA FIELD: START OF PRODUCTION AT WELL PPT-52

BRAVA ENERGIA S.A. ("BRAVA" or the "Company") (B3: BRAV3), pursuant to CVM Resolution No. 44, hereby informs its investors and the market in general that it commenced production at well PPT-52 on this date, following authorization from the Brazilian Institute of the Environment and Renewable Natural Resources ("Ibama"). The well is part of the drilling campaign for four new production wells in the Papa-Terra and Atlanta fields, which continues to advance according to the planned schedule, reflecting the Company's consistent operational execution.

The well is currently in the initial phase of operations, and its production is still undergoing stabilization. The Company will provide the market with additional information regarding the drilling results and the well's initial performance as the stabilization process progresses.

Lastly, Brava reiterates its commitment to keeping its investors and the market in general duly informed, in line with best corporate governance practices and in compliance with applicable law.
