

Management Discussion  
and Analysis  
**3Q24**

# Presentation

The Management Discussion and Analysis Report (MD&A) presents Banco do Brasil's economic and financial situation. Addressed to market analysts, shareholders, and investors with quarterly periodicity. The reader can find information about profitability, productivity, loan portfolio quality, capital structure, capital market, structural data, among others.

The MD&A and other documents can be accessed on the [Investor Relations' website](#), where additional information about Banco do Brasil is also available, such as: structural information, corporate governance and sustainability, material facts and information to the market, presentations, corporate events, among others. All documents related to the earnings release can be consulted in the [Results Center](#) as well as download in the Investor's Kit.

This report makes references and statements about expectations, planned synergies, growth estimates, earnings projections and future strategies projections regarding Banco do Brasil's Conglomerate. Such statements are based on current expectations, estimates and projections of management about future events and financial trends that may affect the business of the Group.

These references and statements are not guarantees of future performance and involve risks and uncertainties that could extrapolate the control of management, and thus can result in balances and values different from those anticipated and discussed in this report. The expectations and projections depend on the market conditions (technological changes, competitive pressures on products, prices, among others), the macroeconomic performance of the country (interest and exchange rates, political and economic changes, inflation, changes in tax legislation, among others) and international markets.

Future expectations based in this report should consider the risks and uncertainties about the business of the Group. Banco do Brasil has no responsibility to update any estimate contained in reports published in previous periods.

The tables and charts in this report shows, in addition to the accounting balances and values, financial and managerial numbers. The changes of relative rates are calculated before rounding procedure in millions of R\$. Rounding utilized follows the rules established by Resolution 886/66 of IBGE's Foundation: if the decimal number is equal or greater than 0.5, it increases by one unit, if the decimal number is less than 0.5, there is no increase.

# Earnings Summary

Banco do Brasil recorded adjusted net income of R\$9.5 billion in 3Q24, up 8.3% YoY, and a 21.1% ROE.

In the quarterly comparison, income was influenced by NII growth (+1.3%) and fee revenue (+2.8%), combined administrative expenses under control (+1.4%).

Loan portfolio grew 1.9%, influenced by agribusiness, individuals and companies performance. ALLL expanded view grew 29.2%.

Year-to-date, adjusted net income was R\$28.3 billion, 8.4% growth, mainly influenced by NII (+13.9%) and fee income (4.8%) performance.

Meanwhile, administrative expenses remain under control (+4.9%). YoY, loan portfolio grew 13.0%, with all segments growing. ALLL expanded view grew 28.7%. Thus, ROE was 21.5%.

## Support for Rio Grande do Sul

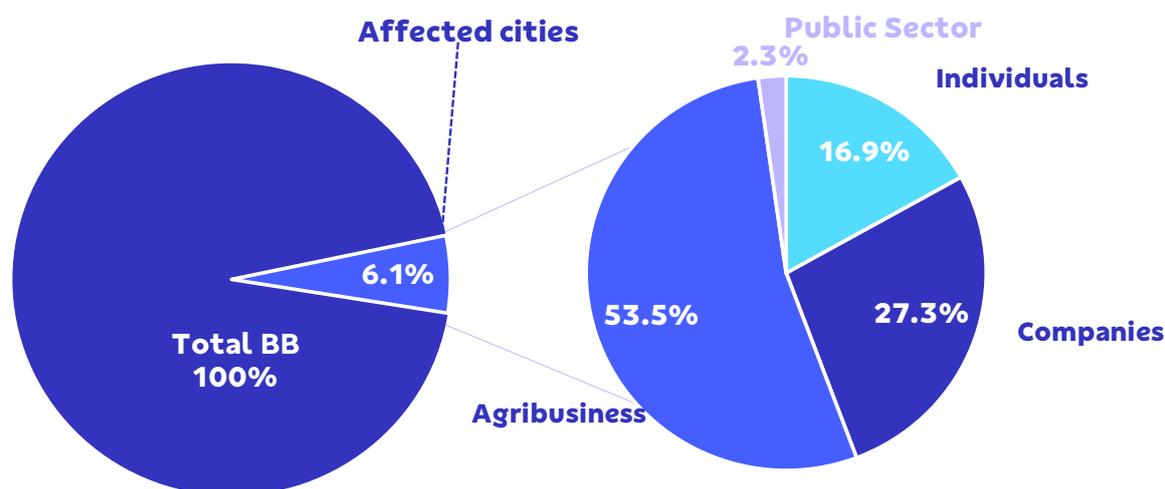

BB is solidary with Rio Grande do Sul's population due to the calamity that hit the state and is committed to aiding families and businesses affected by the floods. The company is committed to actions that prioritize offering immediate and effective assistance to the affected population, fulfilling the purpose of "Being close and relevant in people's lives at all times".

Initially, donations of essential supplies have been collected, as well as financial donations, to provide emergency support even during the heavy rains. BB approved more than R\$50 million through Fundação Banco do Brasil and allocated an additional R\$10 million, resulted from companies and society donations, to reinforce the population's care.

During this period, Banco do Brasil conglomerate made business conditions more flexible to support the transition of customers, employees and partners, among which the following stood out fee exemption, initiatives in consortium, insurance and payment methods businesses.

In September/24, the credit portfolio in Rio Grande do Sul was R\$67.4 billion, being R\$61.2 billion only in cities in emergency or public calamity (which corresponds to 6.1% of the internal credit portfolio). In total, Banco do Brasil carried out 3.7 million transactions with 706.1 thousand customers, with 66% of these transactions holding real guarantees and 92.8% of the portfolio held in affected cities classified as AA-C risk.

**Figure 1.** Credit Exposition – Rio Grande do Sul

## Net Interest Income (NII)

### Accounting NII

In 3Q24, Nil was R\$25.9 billion, up 1.3% QoQ and 13.9% in the year-to-date comparison.

In the QoQ comparison, there was a 1.5% increase in financial revenues (+2.0% in loan operations and -0.1% in treasury), and a 1.9% increase in financial expenses, which were influenced by the 2.6% increase in commercial funding expenses.

Year-to-date, there was a 2.2% increase in financial revenues (+4.1% in loan operations and -3.1% in treasury), while financial expenses decreased by 12.1%, due to the 194 bps drop in TMS for the period.

## Managerial NII

### Margin with Clients and with the Market

In 3Q24, Margin with Clients, up 4.8% QoQ, was mainly influenced by the funding mix with a significant share of savings and judicial deposits, and by the credit margin. In the same comparison, the Margin with Market decreased by 10.9%, influenced by the change in the composition of Banco Patagonia's securities portfolio.

**Figure 2.** Margin with Clients<sup>1</sup> and with the Market<sup>2</sup> – R\$ million

(1) Comparing with the accounting NII presented at the beginning of this chapter, the Margin with Clients is essentially formed by the loan operations income plus private securities, net of opportunity expenses for each type of operation, and by the commercial funding expenses and compulsory deposits, plus opportunity income for each type of operation; (2) Similarly, the Margin with the Market essentially consists of treasury result (excluding private securities), institutional funding expenses, Banco Patagonia's NII and net income from opportunities (income/expenses) plus income of compulsory applications.

In the year-to-date comparison, the growth in the Margin with Clients (+1.4%) was influenced by the credit margin, which, in turn, was sustained by the increase of the average balance and portfolio mix. In the same comparison, the positive performance of the Margin with Market (+112.7%) was influenced by the treasury result and the higher Banco Patagonia's NII.

**Table 4.** Margin with Clients and with the Market – R\$ million

## ALLL Expanded View

Expanded ALLL expenses, which correspond to credit risk expenses (in accordance with CMN Resolution No. 2,682/99), added to the discounts granted and impairment losses, deducted from amounts recovered from losses, was R\$10.1 billion in 3Q24 (+29.2% QoQ and +34.2% YoY). In the YTD, the growth was 28.7%, totaling R\$26.4 billion.

**Table 5.** ALLL Expanded View – R\$ million

**Credit Risk** – up 21.0% QoQ and 26.9% YoY, explained mainly by the increase in defaults in the Agro segment.

**Recovery of Write-Offs** – down 12.9% QoQ, which was increased by volumes of specific recoveries from large customers. Up 22.7% in YTD comparison.

**Impairment** – totaled R\$663 million in the 3Q24, up 143.6% QoQ, impacted by the corporate segment. Down 69.1% in YTD comparison.

**Discounts Granted** – down 56.7% QoQ and up 31.8% in YTD comparison.

The quarterly provision was impacted by the resolution of a customer case in judicial recovery that impacted recovery of write-offs and impairment lines.

## Fee Income

Fee income reached R\$9.1 billion in the 3Q24, up 2.8% QoQ, with positive performance in asset management (+5.1%), insurance, pension and premium bonds (+6.9%) and consortium (+4.7%).

Year-to-date, there was a 4.8% growth, mostly explained by the positive performance in asset management (+11.6%), insurance, pension plans and premium bonds (+10.6%), consortium (+19.1%) and capital market (+34.0%).

**Table 6.** Fee Income – R\$ million

## Administrative Expenses and Cost-to-Income Ratio

In the 3Q24, administrative expenses amounted to R\$9.4 billion, up 1.4% QoQ, mainly due to the 3.8% increase in Other Administrative Expenses and the 0.1% increase in Personnel Expenses.

In the 9M24, administrative expenses grew by 4.9%, as compared to the 9M23, reflecting both the impact of the salary adjustments of 4.58% in September/23 and 4.64% in September/24, and an increase in headcount due to a specific external selection for technology, cybersecurity and commercial positions. The cost-to-income ratio reached 25.4% (12 month accumulated view), the lowest historical level for the ratio reflecting consistent revenue generation and expense control.

**Figure 3.** Administrative Expenses – R\$ million

(1) Cost-to-Income Ratio: Administrative Expenses / Operating Income. Data referring to the Income Statement with Reallocations.

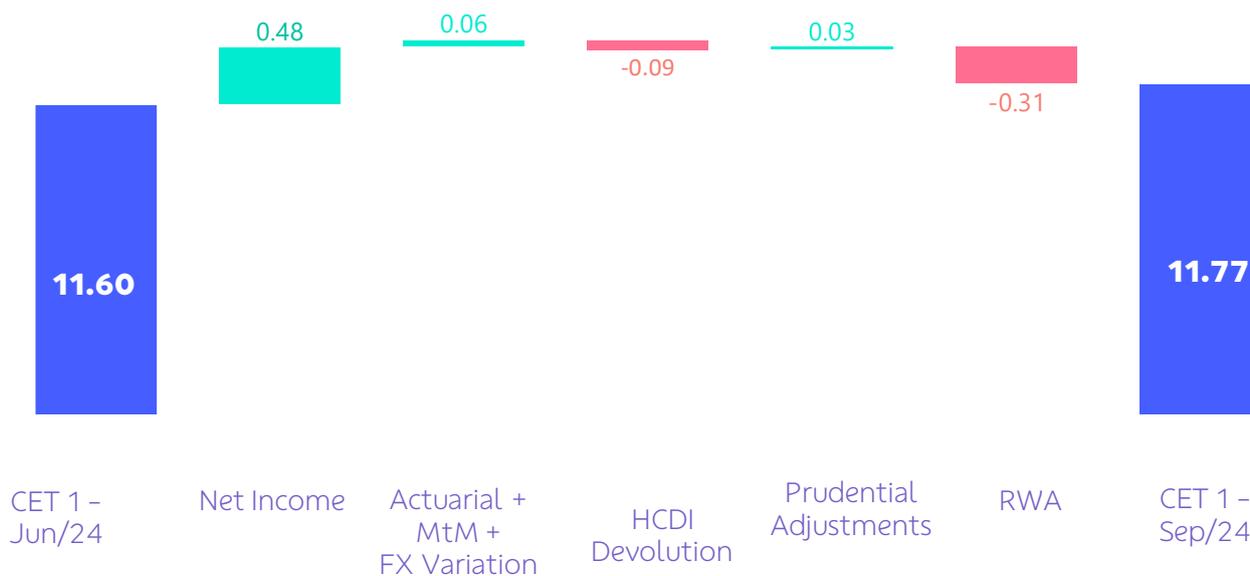

## Capital Adequacy Ratio

The Basel Ratio was 14.66% in September, 2024. The Tier I capital ratio was 13.51%, of which 11.77% was CET 1 capital. The Reference Equity, which takes into account the requirements for calculating Basel's regulatory capital, reached the amount of R\$185.8 billion, an 3.7% increase YoY.

**Figure 4.** Capital Adequacy Ratio – %

**Figure 5.** Changes in Common Equity Tier 1 (CET1)- %

# Loan Portfolio

## Credit Volume

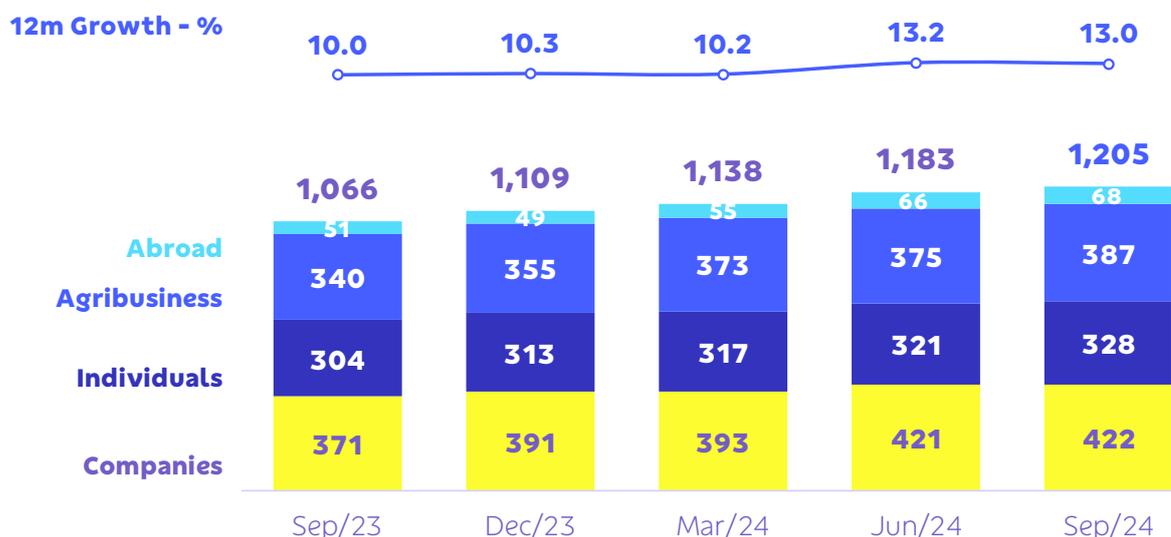

The expanded loan portfolio was R\$1.2 trillion, up 1.9% QoQ and 13.0% YoY, with a positive performance in all segments.

The individuals expanded portfolio grew 2.3% QoQ and 7.9% YoY, mainly due to the performance of payroll loans (+2.6% QoQ and +11.2% YoY).

The companies expanded portfolio grew 0.1% QoQ and 13.5% YoY, with quarterly comparison highlight for the performance investments (+9.6%). In YoY comparison highlight for working capital (+3.9%), investments (+23.7%) and ACC/ACE (+34.7%).

The agribusiness expanded portfolio grew 3.1% QoQ and 13.7% YoY. In QoQ comparison highlight for the performance of working capital for input purchase (+7.4%), Pronaf (+3.1%) and agricultural investment (+3.0%). In 12-month comparison highlight for working capital for input purchase operations (+19.0%), investment (+16.5%) and agricultural selling (+38.4%).

**Figure 6.** Expanded Loan Portfolio – R\$ billion

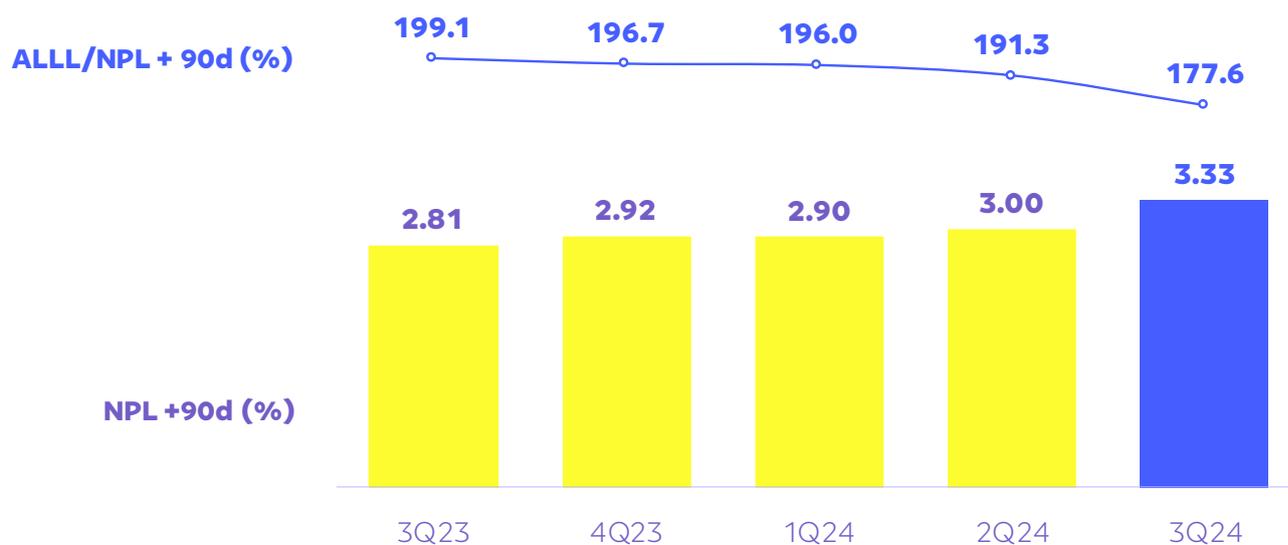

## Credit Quality

The NPL+90d (ratio between operations overdue for more than 90 days and the balance of the classified loan portfolio) ended September/24 in 3.33% and coverage index at 177.6%.

**Figure 7.** NPL +90d and Coverage Index of Classified Loan Portfolio - %

## Guidance

Banco do Brasil's guidance is prepared and presented for the reference year, with a quarterly appraisal.

The estimates are based on management's current expectations and projections about future events and financial trends that may affect the BB Conglomerate's business and are not a guarantee of future performance, in addition, they involve risks and uncertainties that may go beyond control of Management, and may, therefore, result in balances and results different from those presented.

**Figure 8.** 2024's Guidance

Each index presented above corresponds to the event item in the "Reallocations and One-Off Items Breakdown" table.

## Reallocations Breakdown

The next table shows the adjustments made to the Income Statement in the BB Consolidated view, presented in the Financial Statements for the period, to obtain the Income Statement with Reallocations. Such adjustments aim to:

- a)** Segregate the one-off items and show the adjusted net income for the period;
- b)** Alter revenue/expenses lines disposition to better business and performance understanding;
- c)** Allow Net Interest Income (NII) recorded during the period to effectively reflect the gain from all earning assets, informing the market on the spread achieved from the ratio of this margin by the average balance of earning assets. For this, it was necessary to:
  - I.** include in the NII the income recorded in other operating Income with financial intermediation characteristics that was derived from the earning assets accounted for in other financial assets in the balance sheet;
  - II.** identify in a specific NII item the foreign exchange gains (losses) on foreign assets and liabilities during the period;
  - III.** maintain the amounts related to negative foreign exchange adjustments and expenses reversal that were accounted for in other operating income and/or other operating expenses to avoid inverting the balance of accounts that have a financial intermediation nature;
  - IV.** include in NII all expenses related to subordinated debt and perpetual securities.
- d)** Highlight the credit cost related effects in Allowance for Loan and Lease Losses (ALLL) Extended View. For this, it was necessary to integrate in specific ALLL Expanded View's items:
  - I.** expenses accounted for in allowance for loan and lease losses;
  - II.** revenues related to the recovery of loans previously written-off as loss, originally accounted for in loans income;
  - III.** losses related to the impairment of financial assets, gain (losses) on sale or transfer of financial assets and, gain (losses) on disposal of leased assets, respectively accounted for, securities income, sale or transfer of financial assets income and leases income; and
  - IV.** the expenses related to discounts granted on renegotiations, originally accounted for in Other Operating Expenses.

**Table 9.** Reallocations and One-Off Items Breakdown – R\$ million

## Glossary of Reallocations

**(01)** Allowance for loan losses expenses for credits without financial intermediation characteristics.

**(02), (03), (04), & (05)** Revenues (expenses) related to the cost of credit accounted for in recovery of write-offs, discounts granted on renegotiations, impairment of financial assets, sale or transfer of financial assets and disposal of leased assets.

**(06)** Revenues (expenses) from Previ's actuarial assets and liabilities review.

**(07)** Financial income from restatement of Previ's Fundo Utilização.

**(08)** Payroll acquisition amortization.

**(09)** Expenses with provision arising from lawsuits related to economic plans.

**(10)** Other expenses arising from civil claims

**(11)** Securities impairment due to a chapter 11 filed in previous periods.

**(12)** Effects of Banco do Brasil's voluntary opt in to RFB (Brazilian IRS) Tax Assessment Program.

**(13)** Effect of recovered financial asset assessment.

**(14)** Financial operation income reallocation.

**(15)** e **(16)** One-off items effects on the calculation of employee and directors profit sharing and unification of these effects on income and social contribution taxes. Demonstration per line of the effects of extraordinary items is available in table as follow.

## Tax Effect and Profit Sharing on One-Off Items

The table below shows the effects of tax expenses (Income Tax and Social Contribution) and employee and directors profit sharing on each one-off item.

**Table 10.** Tax Effects and Profit Sharing on One-Off Items – R\$ million

Securities Impairment	-	-	-	-	828

## 2. Net Interest Income

In 3Q24, Nil was R\$25.9 billion, up 1.3% QoQ and 13.9% in the year-to-date comparison.

In the QoQ comparison, there was a 1.5% increase in financial revenues (+2.0% in loan operations and -0.1% in treasury), and a 1.9% increase in financial expenses, which were influenced by the 2.6% increase in commercial funding expenses.

Year-to-date, there was a 2.2% increase in financial revenues (+4.1% in loan operations and -3.1% in treasury), while financial expenses decreased by 12.1%, due to the 194 bps drop in TMS for the period.

## Accounting NII

**Table 11.** Key Indicators

(1) It includes the result from interest, tax hedging, derivatives, and other financial instruments that offset the effects of the exchange rate variation on result; (2) It includes senior bonds, subordinated debt, and hybrid capital instruments (except instruments qualifying as CET1).

## Financial Income from Loan Operations

**Table 13.** Loan Operations Income – R\$ million

	3Q23	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q	9M23	9M24	Δ% YTD
<b>Loan Operations Income</b>	<b>34,430</b>	<b>34,704</b>	<b>35,412</b>	<b>2.9</b>	<b>2.0</b>	<b>100,349</b>	<b>104,415</b>	<b>4.1</b>
Individuals	13,914	14,094	14,529	4.4	3.1	40,387	42,644	5.6
Companies	9,874	9,930	9,987	1.1	0.6	29,179	29,834	2.2
Agribusiness	8,321	8,700	8,853	6.4	1.8	24,074	25,858	7.4
Abroad	1,456	1,247	1,418	(2.6)	13.8	4,066	3,974	(2.3)
Sale or Transference of Financial Assets	300	291	245	(18.3)	(15.8)	847	826	(2.5)
Leasing	30	22	24	(19.2)	8.5	78	70	(9.4)
Other	534	420	355	(33.6)	(15.5)	1,717	1,210	(29.5)

Loan operations income was R\$35.4 billion in 3Q24, up 2.0% QoQ,. In the year-to-date comparison the increase as 4.1%. In both the YTD and QoQ view, the increases are mainly explained by the growth in loan operations for individuals and agribusiness.

In the year-to-date comparison, it is worth highlighting that loan income from the **individuals portfolio** were driven by the performance of payroll loan operations, while in the **agribusiness portfolio**, the performance of income from working capital for input purchase, agricultural investment and agricultural selling operations stands out.

The breakdown of loan operations income and the classified loan portfolio by segment are shown below.

**Figure 9.** Loan Operations Income Breakdown – %

**Figure 10.** Classified Loan Portfolio Breakdown – %

## Financial Expenses from Commercial Funding

**Table 14.** Commercial Funding Result – R\$ million

	3Q23	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q	9M23	9M24	Δ% YTD
<b>Commercial Funding Result</b>	<b>(20,821)</b>	<b>(16,665)</b>	<b>(17,091)</b>	<b>(17.9)</b>	<b>2.6</b>	<b>(58,089)</b>	<b>(51,042)</b>	<b>(12.1)</b>
<b>Deposits Funding Expenses</b>	<b>(17,242)</b>	<b>(13,514)</b>	<b>(13,777)</b>	<b>(20.1)</b>	<b>2.0</b>	<b>(49,151)</b>	<b>(41,142)</b>	<b>(16.3)</b>
Time Deposits	(7,356)	(4,468)	(4,643)	(36.9)	3.9	(19,697)	(14,179)	(28.0)
Savings Deposits	(3,939)	(3,408)	(3,576)	(9.2)	4.9	(11,827)	(10,224)	(13.6)
Judicial Deposits	(5,946)	(5,637)	(5,559)	(6.5)	(1.4)	(17,627)	(16,738)	(5.0)
<b>Letters of Credit Issuance Expenses</b>	<b>(5,404)</b>	<b>(4,683)</b>	<b>(4,948)</b>	<b>(8.5)</b>	<b>5.7</b>	<b>(14,239)</b>	<b>(14,551)</b>	<b>2.2</b>
Agribusiness Letters of Credit	(5,018)	(4,379)	(4,636)	(7.6)	5.9	(13,192)	(13,615)	3.2
Morgage Bonds	(387)	(304)	(312)	(19.4)	2.6	(1,047)	(936)	(10.6)
<b>Credit Guarantee Fund</b>	<b>(199)</b>	<b>(209)</b>	<b>(218)</b>	<b>9.4</b>	<b>4.5</b>	<b>(571)</b>	<b>(633)</b>	<b>10.7</b>
<b>Compulsory Deposits</b>	<b>2,024</b>	<b>1,740</b>	<b>1,852</b>	<b>(8.5)</b>	<b>6.4</b>	<b>5,873</b>	<b>5,284</b>	<b>(10.0)</b>

Commercial funding result was R\$17.1 billion in 3Q24, up 2.6% QoQ, in line with the growth observed in Selic Rate (+10 bps) and the greater number of business days (63 in 2Q24 versus 66 in 3Q24). Year-to-date, the drop in commercial funding expenses was 12.1%, reflecting the 194 bps decline in TMS for the period (9.92% in 9M23 versus 7.99% in 9M24) and the effects of maxi-devaluation of the Argentine peso against Banco Patagonia's commercial funding expenses.

**Table 15.** Funding vs. Selic Rate – R\$ million

	3Q23			2Q24			3Q24		
	Average Balance	Cost	% Selic	Average Balance	Cost	% Selic	Average Balance	Cost	% Selic
<b>Total Funding</b>	<b>983,062</b>	<b>(23,055)</b>	<b>72.9</b>	<b>1,037,258</b>	<b>(18,553)</b>	<b>70.7</b>	<b>1,072,139</b>	<b>(19,106)</b>	<b>67.7</b>
Time Deposits <sup>1</sup>	461,264	(13,302)	89.7	498,579	(10,105)	80.1	521,323	(10,202)	74.3
Savings Deposits	206,312	(3,939)	59.4	209,658	(3,408)	64.3	215,063	(3,576)	63.2

Demand Deposits	104,360	–	–	104,329	–	–	106,806	–	–
Interbank Deposits <sup>2</sup>	25,322	(409)	50.2	23,850	(356)	59.1	22,765	(381)	63.6
Mortgage Bonds	14,396	(387)	83.5	14,360	(304)	83.6	14,157	(312)	83.6

(1) Includes judicial deposits; (2) Expenses with interbank deposits are shown in open market funding expenses (within treasury results).

## Financial Expenses from Institutional Funding

The following table presents the breakdown of institutional funding expenses, which refer to corporate bonds issued by the BB in capital markets, domestic and abroad, whose subscribers are qualified investors. It is worth mentioning that the Hybrid Capital Instrument issued in Brazil, the result of a Loan Agreement with the Federal Government and eligible as CET1, composes shareholders' equity as instruments qualifying as CET1 and its payment are made with resources from retained earnings and profit reserves, that is, they are not reflected in the institutional funding expenses.

**Table 16.** Institutional Funding Expenses – R\$ million

	3Q23	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q	9M23	9M24	Δ% YTD
	<b>Institutional Funding Expenses</b>	<b>(2,992)</b>	<b>(3,368)</b>	<b>(3,319)</b>	<b>10.9</b>	<b>(1.5)</b>	<b>(9,311)</b>	<b>(9,928)</b>
Borrowing, Assignments and Onlending	(1,595)	(1,963)	(1,972)	23.6	0.5	(5,204)	(5,861)	12.6
Securities Issued Abroad	(589)	(607)	(630)	7.0	3.8	(1,668)	(1,816)	8.9
Financial Letters	(439)	(473)	(507)	15.6	7.2	(1,099)	(1,428)	30.0
Perpetual Bonds - Overseas	(369)	(325)	(209)	(43.4)	(35.7)	(1,341)	(823)	(38.6)

The institutional funding expenses was R\$3.3 billion in 3Q24, down 1.5% QoQ, mainly influenced by the 35.7% reduction in Perpetual Bond operations abroad, due to the full repurchase of the subordinated debt instrument of Tier I Capital issued in 2014 with a coupon of 9% per year, carried out in June 2024. Year-to-date the 6.6% growth is mainly explained by the increase in expenses with financial letters, in line with the strategy of replacing part of the Tier I Capital instruments abroad with issues in the domestic market.

## Treasury Result

Treasury result is composed by (i) securities income, which includes interest income and gain/loss from negotiation of trading and banking book portfolios, such as government bonds, debentures, agribusiness loan rights certificates (CDCA) and rural product bills and guarantees (CPR), in addition to the mark-to-market of trading book, by (ii) interbank accounts, where the open market investments are, by (iii) open market funding, and by (iv) other treasury components, shows the results of the exchange rate variation from securities, loans, financial derivatives result, commercial and institutional funding among others, the result of exchange operations, tax hedge and the gain/loss over equity abroad.

The treasury result presented quarterly stability (-0.1%) and a 3.1% decline in the YTD comparison, reflecting a lower contribution from the treasury result of Banco Patagonia, which, in turn, reflected the change in the composition of that bank's securities portfolio that occurred in the period. The treasury result of BB (Ex-Patagonia) increased by 12.3% QoQ and 11.3% in YTD comparison. In addition, the drop in TMS in the comparative period also influenced the variation.

**Table 17.** Treasury Result – R\$ million

	3Q23	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q	9M23	9M24	Δ% YTD
<b>Treasury Result</b>	<b>13,063</b>	<b>10,878</b>	<b>10,868</b>	<b>(16.8)</b>	<b>(0.1)</b>	<b>34,780</b>	<b>33,708</b>	<b>(3.1)</b>
Securities	16,821	15,519	16,303	(3.1)	5.1	48,494	46,703	(3.7)
Interbank Accounts	16,484	11,736	12,375	(24.9)	5.4	46,506	38,051	(18.2)
Open Market Funding	(21,195)	(17,464)	(18,621)	(12.1)	6.6	(61,959)	(53,795)	(13.2)
Other Treasury Components <sup>1</sup>	952	1,088	811	(14.8)	(25.4)	1,739	2,748	58.0

(1) includes items not listed in the treasury result breakdown, including exchange rate variation and financial derivatives result.

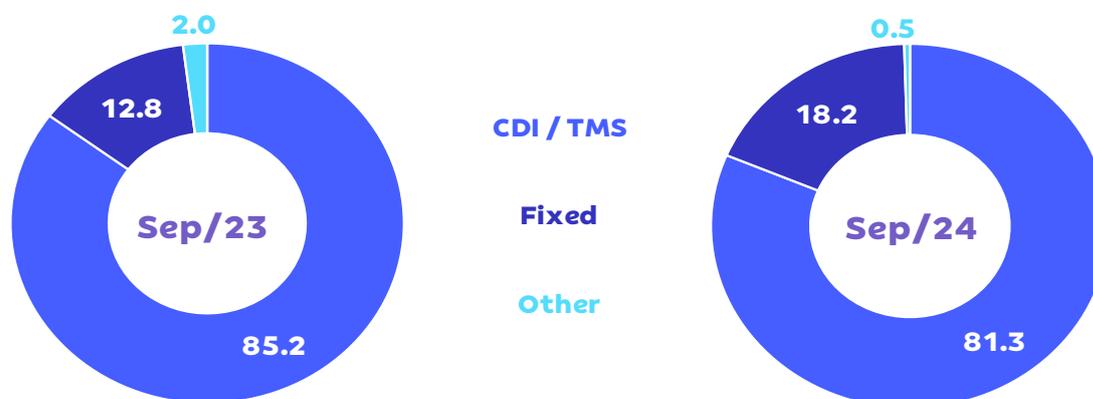

## Securities Income

Securities income was R\$16.3 billion, up 5.1% QoQ. Year-to-date, securities income was R\$46.7 billion, down 3.7% in the comparison with the previous year. The growth in the QoQ comparison is due to the strategy of extending the duration of the securities portfolio (available for sale). In the year-to-date comparison, the reduction is explained by the drop in TMS (-194 bps). It is worth noting that the average balance of the securities portfolio is mostly (81.3%) post-fixed. The portfolio is mainly composed of federal government securities and private securities, notably for legal entities (debentures) and agribusiness (CPR and CDCA).

**Table 18.** Securities Income – R\$ million

<b>Liquidity Balance (a-b)</b>	<b>297,917</b>	<b>100.0</b>	<b>320,314</b>	<b>100.0</b>	<b>341,679</b>	<b>100.0</b>	<b>14.7</b>	<b>6.7</b>

Open market funding expenses are mainly expenses incurred with repo operations backed by Banco do Brasil own portfolio and with third-parties. As like interbank liquidity investments (which covers income from investments in the open market and interbank deposits), the dynamics of open market operations changes according to the volume applied/raised and the variation of the TMS.

It is worth mentioning that the funding in own portfolio is backed by fixed income securities that contributes to the formation of the securities result, also in treasury.

**Table 22.** Open Market Funding Expenses – R\$ million

	3Q23	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q	9M23	9M24	Δ% YTD
<b>Open Market Funding Expenses</b>	<b>(21,195)</b>	<b>(17,464)</b>	<b>(18,621)</b>	<b>(12.1)</b>	<b>6.6</b>	<b>(61,959)</b>	<b>(53,795)</b>	<b>(13.2)</b>
Third Party Portfolio	(14,908)	(10,106)	(11,003)	(26.2)	8.9	(42,040)	(32,672)	(22.3)

Interbank Deposits	(409)	(356)	(381)	(6.8)	6.9	(1,089)	(1,096)	0.7
Other Open Market Operations	(9)	(15)	(13)	47.4	(12.7)	(22)	(41)	84.8

## Managerial NII

Next, the Managerial NII is presented, subdivided into Margin with Clients and with the Market.

The **Margin with Clients** is formed by the performance of (I) active operations (credit, private securities and similar) and (II) passive operations (commercial funding and similar) operations sensitive to spreads. The calculation of the managerial financial margin considers, in the active part, the interest income deducted from the opportunity expense and, in the passive part, the difference between the interest expense and the opportunity income.

The **Margin with the Market** is formed by (I) the result of assets and liabilities management (ALM) regarding the mismatch in terms, interest rates, exchange rate (and others), (II) treasury trading results, and (III) Banco Patagonia's NII.

It is important to highlight that the **opportunity expense** is defined, In the case of fixed-rate operations, considering the funding cost at the time of the contracting, and it is not affected by the variation in the Selic rate and/or Term Structure of Interest Rates (ETTJ). In relation to individuals and companies loans, with free resources, the opportunity expense can be backed by the TMS (average Selic rate) and/or an ETTJ.

In the case of the agribusiness portfolio and other directed resources, the **opportunity expense** is calculated according to the source of funding raised and whether or not there is a need for compulsory investment of part of this funding. Similarly, opportunity revenue is predominantly post-fixed and based on the TMS of the period.

**Figure 12.** Margin with Clients<sup>1</sup> and with the Market<sup>2</sup> – R\$ million

(1) Comparing with the accounting NII presented at the beginning of this chapter, the Margin with Clients is essentially formed by the loan operations income plus private securities, net of opportunity expenses for each type of operation, and by the commercial funding expenses and compulsory deposits, plus opportunity income for each type of operation; (2) Similarly, the Margin with the Market essentially consists of treasury result (excluding private securities), institutional funding expenses, Banco Patagonia's NII and net income from opportunities (income/expenses) plus income of compulsory applications.

**Table 23.** Margin with Clients and with the Market – R\$ million

	3Q23	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q	9M23	9M24	Δ% YTD
<b>Net Interest Income</b>	<b>23,680</b>	<b>25,549</b>	<b>25,870</b>	<b>9.3</b>	<b>1.3</b>	<b>67,728</b>	<b>77,153</b>	<b>13.9</b>
<b>Margin with Clients</b>	<b>20,574</b>	<b>19,852</b>	<b>20,797</b>	<b>1.1</b>	<b>4.8</b>	<b>60,098</b>	<b>60,927</b>	<b>1.4</b>
Average Balance	950,154	1,048,787	1,074,472	13.1	2.4	932,465	1,048,265	12.4
Clients Spread %	8.95	7.79	7.97	(10.9)	2.3	8.68	7.82	(9.9)
<b>Margin with the Market</b>	<b>3,106</b>	<b>5,697</b>	<b>5,073</b>	<b>63.3</b>	<b>(10.9)</b>	<b>7,630</b>	<b>16,226</b>	<b>112.7</b>

In 3Q24, Margin with Clients, up 4.8% QoQ, was mainly influenced by the funding mix with a significant share of savings and judicial deposits, and by the credit margin. In the same comparison, the Margin with Market decreased by 10.9%, influenced by the change in the composition of Banco Patagonia's securities portfolio.

In the year-to-date comparison, the growth in the Margin with Clients (+1.4%) was influenced by the credit margin, which, in turn, was sustained by the increase of the average balance and portfolio mix. In the same comparison, the positive performance of the Margin with Market (+112.7%) was influenced by the treasury result and the higher Banco Patagonia's NII.

# Spreads

## Net Interest Margin

Net Interest Margin (NIM) is the application of the concept of spread specific to the banking segment, which is calculated by dividing the NII the average earning assets.

**Table 31.** NIM and NII – R\$ million

	3Q23	2Q24	3Q24	9M23	9M24
<b>(a) Average Earning Assets</b>	<b>1,966,324</b>	<b>2,105,351</b>	<b>2,172,984</b>	<b>1,908,623</b>	<b>2,112,982</b>
<b>(b) Average Interest-Bearing Liabilities</b>	<b>1,714,818</b>	<b>1,813,815</b>	<b>1,870,039</b>	<b>1,667,388</b>	<b>1,819,351</b>
<b>(c) NII</b>	<b>23,680</b>	<b>25,549</b>	<b>25,870</b>	<b>67,728</b>	<b>77,153</b>
(d) Net Interest Gain	22,927	24,670	25,277	66,560	75,037
(d.I) Interest Income	69,760	63,699	65,942	201,221	194,453
(d.II) Interest Expense	(46,833)	(39,029)	(40,665)	(134,661)	(119,416)
(e) Other Items <sup>1</sup>	753	879	593	1,168	2,116
AIBL / AEA (b/a) – %	87.2	86.2	86.1	87.4	86.1
Yield Average Assets <sup>2 4</sup> (d.I/a) – %	15.0	12.7	12.7	14.3	12.5
Liabilities Average Cost <sup>2 4</sup> (d.II/b) – %	11.4	8.9	9.0	10.9	8.8
Net Interest Rate <sup>2 3</sup> – %	3.6	3.8	3.7	3.4	3.6
Adjusted NIM <sup>2</sup> (d/a) – %	4.7	4.8	4.7	4.7	4.8
NIM <sup>2</sup> (c/a) – %	4.9	4.9	4.8	4.8	4.9

(1) Includes derivatives, debt assumption contracts, foreign exchange portfolio, recovery of write-offs, gold loans, credit guarantor fund, foreign exchange gain/loss abroad and other income of a financial intermediation nature; (2) Annualized rates; (3) Difference between average rate of earning assets and average rate of interest-bearing liabilities; (4) Calculated with partial effect of exchange rate change.

**Table 32.** NIM and Risk-Adjusted NIM – %

	3Q22	4Q22	1Q23	2Q23	3Q23	4Q23	1Q24	2Q24	3Q24
<b>Net Interest Margin (NIM) <sup>1</sup></b>	<b>4.2</b>	<b>4.7</b>	<b>4.6</b>	<b>4.9</b>	<b>4.9</b>	<b>5.3</b>	<b>5.1</b>	<b>4.9</b>	<b>4.8</b>
<b>Risk-Adjusted NIM <sup>2</sup></b>	<b>3.2</b>	<b>3.2</b>	<b>3.3</b>	<b>3.4</b>	<b>3.3</b>	<b>3.2</b>	<b>3.4</b>	<b>3.4</b>	<b>2.9</b>

(1) NII/average earning assets, annualized; (2) (NII less Expanded ALLL)/ average earning assets, annualized.

## Clients Spread

**Table 33.** Clients Spread and Risk-Adjusted Clients Spread – R\$ million

	3Q23	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q	9M23	9M24	Δ% YTD
Margin with Clients	20,574	19,852	20,797	1.1	4.8	60,098	60,927	1.4

(1) Margin with Clients, net of Expanded ALLL, divided by average balance with clients, annualized.

**Figure 13.** Clients Spread and Risk-Adjusted Clients Spread – %

## Managerial Credit Spread

**Figure 14.** Managerial Credit Spread – %<sup>1</sup>

(1) Result of the managerial credit margin divided by the respective average balances of each portfolio, subsequently annualized. It is worth noting that credit spreads do not consider private securities operations, government operations and operations contracted by BB units/subsidiaries abroad.

## Balance in Foreign Currencies

Banco do Brasil uses tax hedging strategy, to reduce the earnings volatility, after tax effects on revenues, considering that earnings with the exchange rate variation of investments abroad are not taxed, just as losses do not generate a deduction in the tax base.

Banco do Brasil manages its foreign exchange exposure to minimize its effects on the Consolidated Result. The following table presents the BB's consolidated statement of assets, liabilities, and derivatives in foreign currencies. In September/24, total net position of assets was US\$56 million on assets.

**Table 34.** Balanço em Moedas Estrangeiras – R\$ milhões

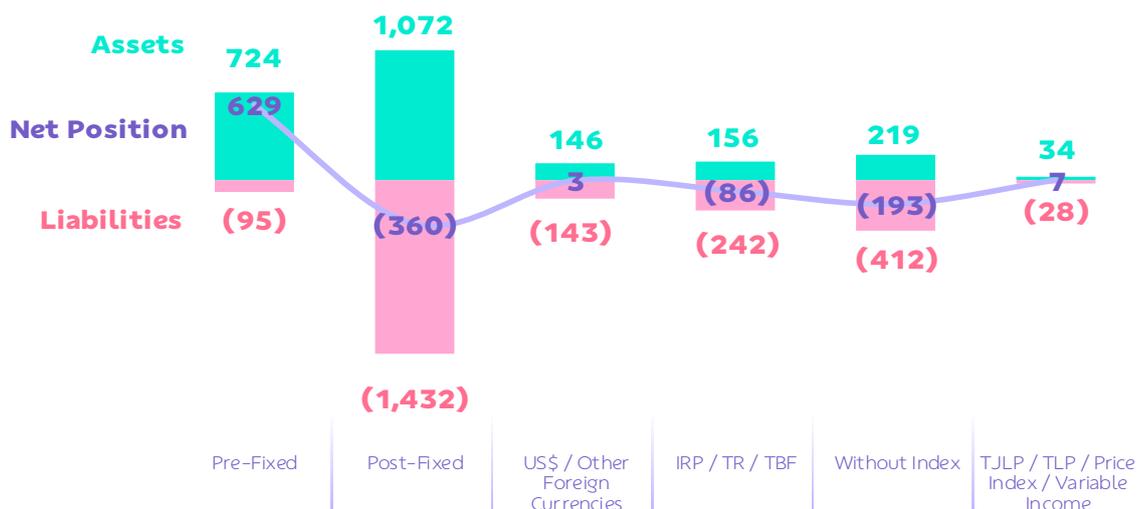

Currency	Balance Sheet		Derivatives		Total	
	Assets	Liabilities	Long	Short	Assets + Long	Liabilities + Short

# 3. Fee Income

Fee income reached R\$9.1 billion in the 3Q24, up 2.8% QoQ, with positive performance in asset management (+5.1%), insurance, pension and premium bonds (+6.9%) and consortium (+4.7%).

Year-to-date, there was a 4.8% growth, mostly explained by the positive performance in asset management (+11.6%), insurance, pension plans and premium bonds (+10.6%), consortium (+19.1%) and capital market (+34.0%).

The following table presents the fee income breakdown. The comparison with the previous quarter should be evaluated considering the effects of seasonality (volume of products and services marketed) and the dynamics of the businesses that impact revenue, such as asset management, lending, consortium commercial performance, and capital market activity. This information is available in Chapter 9 of this document.

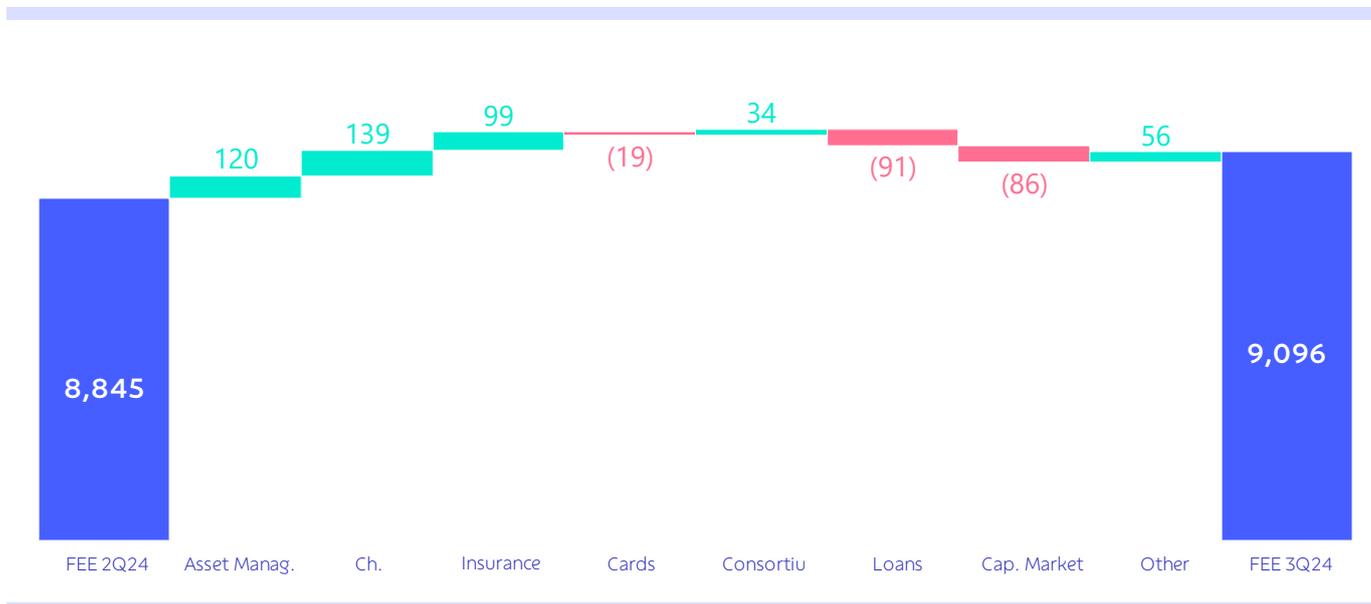

**Table 36.** Fee Income – R\$ million

	3Q23	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q	9M23	9M24	Δ% YTD
<b>Fee Income</b>	<b>8,670</b>	<b>8,845</b>	<b>9,096</b>	<b>4.9</b>	<b>2.8</b>	<b>25,088</b>	<b>26,285</b>	<b>4.8</b>

Check the waterfall graphs below for the main variations in fee income in both the quarterly and year-to-date views.

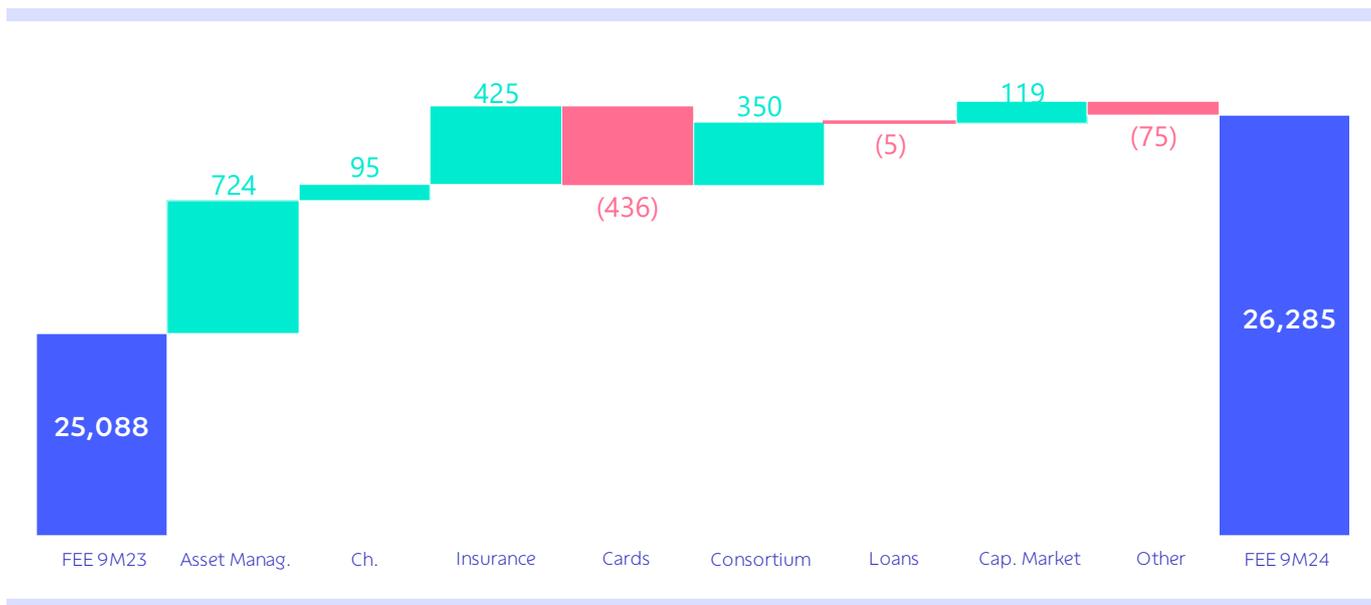

**Figure 16.** Quarterly Changes in Fee Income – R\$ million

When evaluating the year-to-date variation, the fee income performance, with an increase of 4.8%, is mainly due to the following factors: (a) increase in the average balance in fund management; (b) increases in insurance, pension, and premium bonds revenues; (c)

increase in business volume and the average administration fee applied in consortia; (d) as well as the higher number of business days in 9M24 compared to 9M23.

**Figure 17.** Annual Changes in Fee Income – R\$ million

# 4.

## Administrative Expenses

In the 3Q24, administrative expenses amounted to R\$9.4 billion, up 1.4% QoQ, due to the 3.8% increase in Other Administrative Expenses and the 0.1% increase in Personnel Expenses.

In the 9M24, administrative expenses grew by 4.9%, as compared to the 9M23, reflecting both the impact of the salary adjustments of 4.58% in September/23 and 4.64% in September/24, and an increase in headcount due to a specific external selection for technology, cybersecurity and commercial positions. The cost-to-income ratio reached 25.4% (12 month accumulated view), the lowest historical level for the ratio reflecting consistent revenue generation and expense control. This section also presents BB's service network.

**Table 37.** Administrative Expenses – R\$ million

	3Q23	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q	9M23	9M24	Δ% YTD
<b>Administrative Expenses</b>	<b>(8,926)</b>	<b>(9,245)</b>	<b>(9,373)</b>	<b>5.0</b>	<b>1.4</b>	<b>(26,202)</b>	<b>(27,496)</b>	<b>4.9</b>
<b>Personnel Expenses</b>	<b>(5,696)</b>	<b>(6,075)</b>	<b>(6,081)</b>	<b>6.8</b>	<b>0.1</b>	<b>(17,105)</b>	<b>(18,035)</b>	<b>5.4</b>
Wages and Salaries	(2,717)	(3,351)	(2,910)	7.1	(13.2)	(8,676)	(9,040)	4.2
Benefits	(930)	(992)	(1,001)	7.6	0.9	(2,760)	(2,965)	7.4
Personnel Administrative Provisions	(902)	(462)	(985)	9.1	113.1	(2,229)	(2,409)	8.0
Social Charges	(886)	(985)	(900)	1.7	(8.6)	(2,681)	(2,795)	4.3
Pension Plans	(232)	(253)	(252)	8.4	(0.5)	(677)	(739)	9.2
Directors and Officers Remuneration	(16)	(17)	(15)	(2.9)	(8.7)	(46)	(48)	3.0
Training	(13)	(14)	(17)	31.1	22.4	(35)	(40)	14.3
<b>Other Administrative Expenses</b>	<b>(3,230)</b>	<b>(3,171)</b>	<b>(3,292)</b>	<b>1.9</b>	<b>3.8</b>	<b>(9,097)</b>	<b>(9,461)</b>	<b>4.0</b>
Rent and Property Maintenance	(686)	(710)	(705)	2.7	(0.7)	(2,059)	(2,098)	1.9
Amortization and Depreciation	(543)	(564)	(596)	9.6	5.6	(1,573)	(1,713)	8.9
Security and Transport Services	(384)	(390)	(408)	6.4	4.8	(1,106)	(1,166)	5.4
Telecommunic. and Data Processing	(452)	(347)	(448)	(1.0)	28.8	(1,150)	(1,226)	6.6
Expenses with Outsourced Services	(371)	(393)	(359)	(3.3)	(8.7)	(1,036)	(1,097)	5.9
Advertising and Public Relations	(278)	(198)	(276)	(0.8)	39.0	(601)	(660)	9.8
PDG (Performance Bonus Program)	(155)	(159)	(167)	7.8	5.2	(448)	(471)	5.2
Others	(361)	(409)	(334)	(7.5)	(18.4)	(1,124)	(1,030)	(8.4)

Personnel Expenses were R\$6.1 billion in 3Q24, practically stable QoQ. Year-to-date (9M23/9M24), the 5.4% increase is mainly justified by salary adjustments of 4.64%, granted in September/24, to bank employees due to the collective bargaining agreement (ACT 24/26).

Other Administrative Expenses were R\$3.3 billion in 3Q24, up 3.8% QoQ. Compared to 9M23, Other Administrative Expenses increased by 4.0%, mainly justified by the increase in Amortization and Depreciation (+8.9%) and Data Processing expenses (+6.6%), due to the announced investments in technology.

**Table 38.** BB's Staff Profile

	Sep/23	Dec/23	Mar/24	Jun/24	Sep/24
<b>Employees</b>	<b>84,712</b>	<b>86,220</b>	<b>87,067</b>	<b>87,130</b>	<b>87,101</b>

## Automated Teller Machines (ATM)

Banco do Brasil provides its customers with an extensive ATMs network in Brazil. The next figure shows the number of ATMs in its own network, in partnerships with other banks and the Banco24Horas network.

The reduction in the number of shared network terminals with partner banks occurred due to the ending of the ATM sharing agreement.

**Figure 18.** Automated Teller Machines (ATM)

# 5. Other Operating Income and Expenses

In this section, the main lines that form the result of Other Components of the Income for the Fiscal Year are presented, namely: Other Revenues, Other Expenses and Result of Participation, the latter part consolidated in the other lines of the Income Statement for the Fiscal Year and part highlighted in Income from Interests in Subsidiaries, Affiliates and Joint Ventures.

## Other Income and Expenses

The following table presents the main lines that composes the results on other operating income and expenses:

**Table 43.** Other Operating Income/Expenses – R\$ million

(i) Companies fully included in the accounting consolidation. (ii) Companies accounted for by equity method.

(1) The Bank's indirect stake in Cateno, through its subsidiary BB Elo Cartões Participações S.A. The Bank's total stake is 64.49% (50.20% on 12/31/2023), due to Cielo S.A. holding a 70.00% direct stake in Cateno; (2) The Bank's indirect stake in Cielo, through its subsidiary BB Elo Cartões Participações S.A, also considering the acquisitions of shares by the investee itself held in treasury. On August 14, 2024, a tender offer auction was held to acquire the company's shares which were traded on the market, thus the Bank's total stake in Cielo became 49.28%, taking into account the stakes held by Liveloo and Elo Participações Ltda; (3) The equity of Elo Participações Ltda is calculated in proportion to BB Elo Cartões' monthly contribution to the company's business, in accordance with the agreement of November 1, 2017, between BB Elo Cartões and Bradescard; (4) Equity interest held by BB Seguros Participações S.A. Includes adjustments for harmonization of accounting practices.

# 6. Capital Management

Risk and capital management are critical to the sustainability of the banking system. The methods of identifying, measuring, evaluating, monitoring, reporting, controlling and mitigating risks safeguard financial institutions in adverse times and support the generation of positive and recurring results over time.

As of September 2024 the Basel Ratio reached 14.66%. Tier I capital ratio reached 13.51%, with 11.77% being Common Equity Tier 1. The Reference Equity, which considers the Basel regulatory capital calculation requirements, reached the amount of R\$185.8 billion, 3.7% reduction, in 12 months.

Risk management at Banco do Brasil includes all the relevant risks declared in BB's risk inventory. Management activities are carried out by specialized structures, according to the objectives, policies, strategies, processes, and systems described in each of these risks.

**Figure 19.** Evolution of the Basel Index – %

The Basel Ratio is calculated according to the criteria established by CMN Resolutions No. 4,955/2021 and No. 4,958/2021, which deal with the calculation of the Reference Equity – PR and the Minimum Required Reference Equity – PRMR in relation to the Risk-Weighted Asset – RWA, respectively. The technical terms used for capital regulation are available in the glossary.

BB has a Capital Plan with a three-year prospective vision and considers (a) the Risk Appetite and Tolerance Statement, (b) the Corporate Strategy (c) the Master Plan and (d) Corporate Budget.

The focus is on organic capital generation and sustainable credit growth in lines with adequate risk-adjusted returns.

Furthermore, in this period of prospective vision, regulatory adjustments stand out, such as changes in accounting concepts and criteria applicable to

financial instruments (CMN Resolution 4966/2021) and in the methodology for calculating the capital required for operational risk using a standardized approach (BCB Resolution 356/2023).

The scope of consolidation used as the basis for verifying operational limits is the Prudential Conglomerate, defined in CMN Resolution No. 4,950/2021.

Under the terms of the Financial Institutions Accounting Plan (Cosif), the Prudential Conglomerate covers not only financial institutions, but also consortium administrators, payment institutions, companies that acquire operations or directly or indirectly assume credit risk, over which they have direct and indirect control, and investment funds in which the conglomerate substantially retains risks and benefits.

(1) In compliance with the provisions of article 31 of CMN Resolution No. 4,955/2021, in 2024, the FCO balances correspond to the application of the 50% limiter (60% in 2023) to the amount computed in Level II on 06/30/ 2018; (2) In accordance with CMN Resolution No. 4,958/2021, it corresponds to the application of the factor "F" to the amount of RWA, with "F" equal to 8%; (3) Values originating from the DLO (Statement of Operational Limits).

## Integrated Stress Testing (TEI)

Banco do Brasil has an Integrated Stress Test process with the objective of evaluating the impacts of stress scenarios on the Bank's business, results and capital. Given their relevance to the Bank's decision-making process, the results are periodically reported to BB's collegial bodies and support the formulation of the Institution's corporate strategy. The methodologies applied to the TEI are periodically reviewed and approved by the Risk Management Board.

The current TEI process considers the relevant risks identified by the Institution, including those related

to climate risk through scenarios based on the occurrence of severe events. The exercise takes place based on the application of macroeconomic scenarios produced by the Bank's economics area, with prospective shocks in macroeconomic variables over a period of three years.

It is worth mentioning that the TEI is included in the Banco do Brasil Stress Testing Program and its results are also considered in the Capital Contingency Plan.

## Risk-Weighted Asset – RWA

Figure 20. RWA consumption – R\$ billion

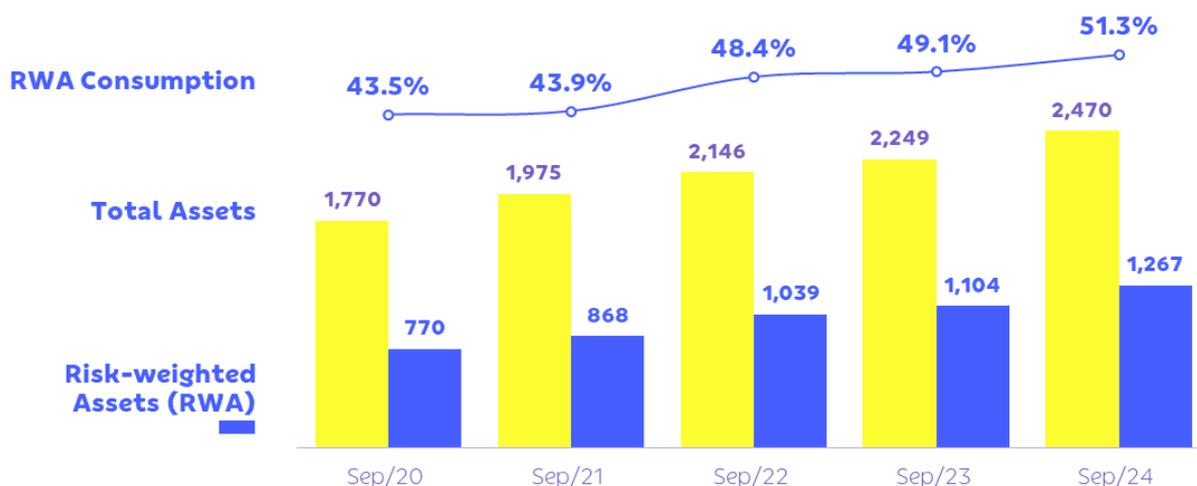

Figure 21. Composition of the RWA – %

The following is the PRMR referring to the RWA portions subject to credit, operational and market risks, using a standardized approach. The current "F" factor is 8.0%. For the RWACPAD, the weighting relative to the calculation of the capital required for the credit risk using a standardized approach is considered.

**Table 46.** PRMR Regarding the Portion of the RWACPAD<sup>1</sup> – R\$ million

(1) As of 07.01.2023, the RWACPAD began to be calculated in accordance with the procedures for calculating the portion defined by BCB Resolution No. 229/22, replacing Circular No. 3,644/13, which was revoked by the Central Bank; (2) Sum of the products of exposures by the respective Risk Weighting Factors, adjusted for the Conversion Factor; (3) Risk Factor-weighted exposure multiplied by 8.0%.

# 7. Loan

The expanded loan portfolio, which includes, in addition to the classified portfolio, private securities and guarantees provided, was R\$1,20 trillion in September/24, up 1.9% QoQ and 13.0% YoY.

## Expanded Loan Portfolio

The individuals expanded portfolio grew 2.3% QoQ and 7.9% YoY, mainly due to the performance of payroll loans (+2.6% QoQ and +11.2% YoY).

The companies expanded portfolio grew 0.1% QoQ and 13.5% YoY. In QoQ comparison highlight for the performance investments (+9.6%). In YoY comparison highlight for working capital (+3.9%), investments (+23.7%) and ACC/ACE (+34.7%).

The agribusiness expanded portfolio grew 3.1% QoQ and 13.7% YoY. In QoQ comparison highlight for the performance of working capital for input purchase (+7.4%), Pronaf (+3.1%) and agricultural investment (+3.0%). In 12-month comparison highlight for working capital for input purchase operations (+19.0%), investment (+16.5%) and agricultural selling (+38.4%).

The next figure presents the view of the expanded portfolio of Individuals, companies, and agribusiness, according to 2024 Guidance.

**Figure 22.** Portfolio – Guidance View – R\$ billion

Reinforcing BB's commitment to a more sustainable future, BB launched a guidance for the sustainable portfolio, which covers credit lines with an environmental and social focus and financing of activities or segments that bring positive socio-environmental impacts.

In September/24, the sustainable business portfolio presented a balance of R\$369.6 billion, up 9.1% YoY, and corresponds to 35.2% of the total classified portfolio.

**Figure 23.** Sustainable Business Portfolio – R\$ billion

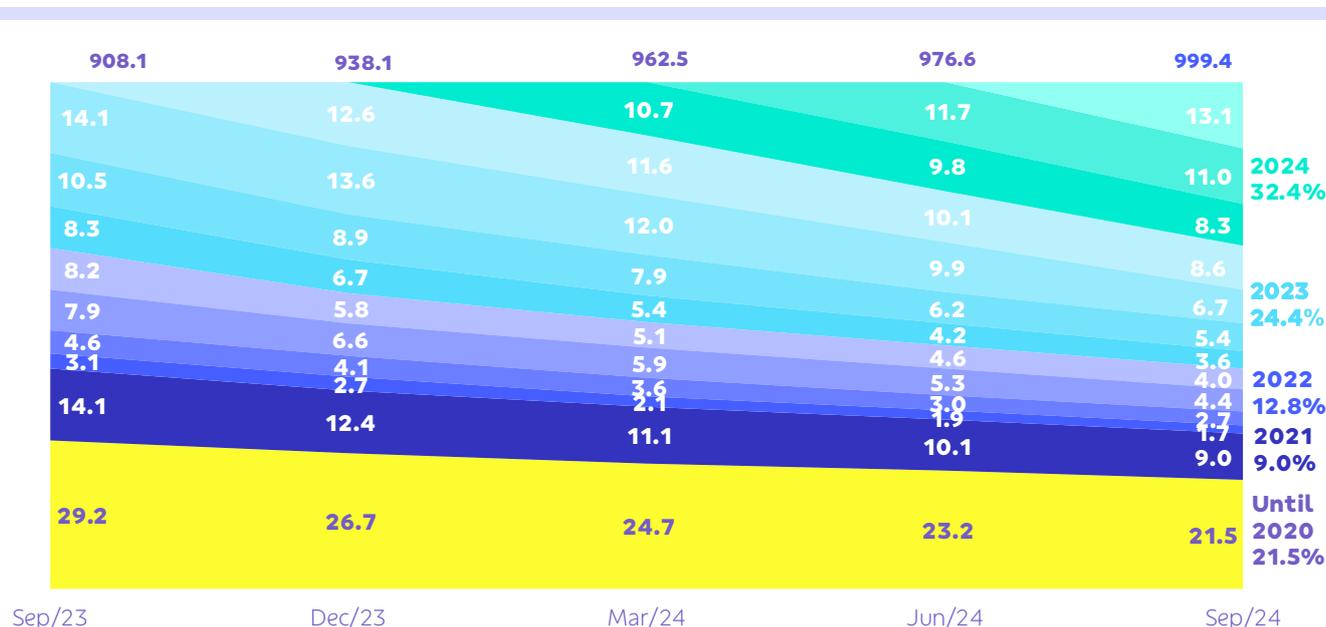

The following figure shows the domestic classified loan portfolio considering the contracting period. In some cases, there is the possibility of disbursement occurring in installments. In these cases, all the installments are considered in the period they were contracted.

Considering the portfolio in September/24, 78.5% of the assets were contracted between 2021 and 2024. Assets contracted in 2014 and prior years represent just 8.1%.

**Figure 24.** BB’s Classified Loan Portfolio in Brazil by Contracted Period – %

The following tables shows the concentration level of the portfolio with customers and business groups with which Banco do Brasil has relationship.

## Credit Risk

### Expanded ALLL

Expanded ALLL expenses, which correspond to credit risk expenses (in accordance with CMN Resolution No. 2,682/99), added to the discounts granted and impairment losses, deducted from amounts recovered from losses, was R\$10.1 billion in 3Q24 (+29.2% QoQ and +34.2% YoY). In the YTD, the growth was 28.7%, totaling R\$26.4 billion.

**Credit Risk** – up 21.0% QoQ and 26.9% YoY, explained mainly by the increased in defaults in the Agro segment.

**Recovery of Write-Offs** – down 12.9% QoQ, which was increased by volumes of specific recoveries from large customers. Up 22.7% in YTD comparison.

**Impairment** – totaled R\$663 million in the 3Q24, up 143.6% QoQ, impacted by the corporate segment. Down 69.1% in YTD comparison.

**Discounts Granted** – down 56.7% QoQ and up 31.8% in YTD comparison.

The quarterly provision was impacted by the resolution of a customer case in judicial recovery that impacted recovery of write-offs and impairment lines.

**Table 52.** Expanded ALLL– R\$ million

The next figure shows the Allowance for Loan and Lease Losses – ALLL, detailing the minimum provision, which is the provision corresponding to the nine risk levels (AA to H) pursuant to CMN Resolution 2,682/99, the supplementary provision, which corresponds to the provision of the 30 intermediary levels established by BB's Management.

The balance of loan provisions was R\$62.2 billion in September/24, up 17.7% YoY.

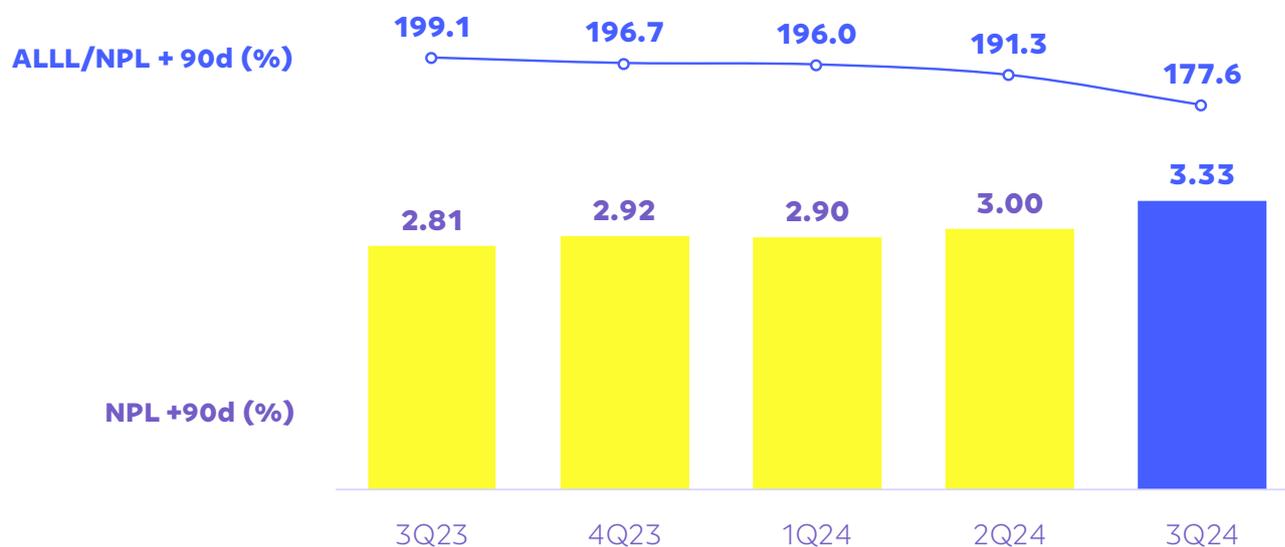

**Figure 25.** ALLL – Classified Loan Portfolio – R\$ million

## NPL & Coverage

The NPL+90d (ratio between operations overdue for more than 90 days and the balance of the classified loan portfolio) ended September/24 in 3.33%. The coverage index was 177.6% in the same period.

**Figure 26.** NPL+90d and Classified Loan Portfolio Coverage Index – %

The New NPL/Loan Portfolio index is calculated by the ratio between: (i) the quarterly change of the operations overdue for more than 90 days balance plus the quarterly write-off, and (ii) the classified loan portfolio balance of the previous quarter.

In 3Q24, NPL formation was R\$12.5 billion, and New NPL coverage was 93.2%.

**Figure 27.** New NPL – % on the Classified Loan Portfolio

## Credits Renegotiated When Past Due

The credits renegotiated when past due are operations renegotiated during the period due to payment delay. The renegotiated portfolio does not include the rollover transactions of the agribusiness portfolio.

Banco do Brasil works in a preventive way in order to readjust the customers' portfolio to their ability to pay. In 3Q24, 17.6% of the total contracted renegotiated operations were overdue for more than 90 days or in losses.

The final balance of the renegotiated portfolio was R\$44.4 billion, up 3.8% QoQ. The coverage of this portfolio was 244.1%.

## Credit Regularization

BB prioritizes collecting past due operations as soon as possible, and even acting preventively to avoid worsening the risk and new write-offs. Of the volume of credit that entered the collection process in the last 12 months, 92.6% were settled within 360 days.

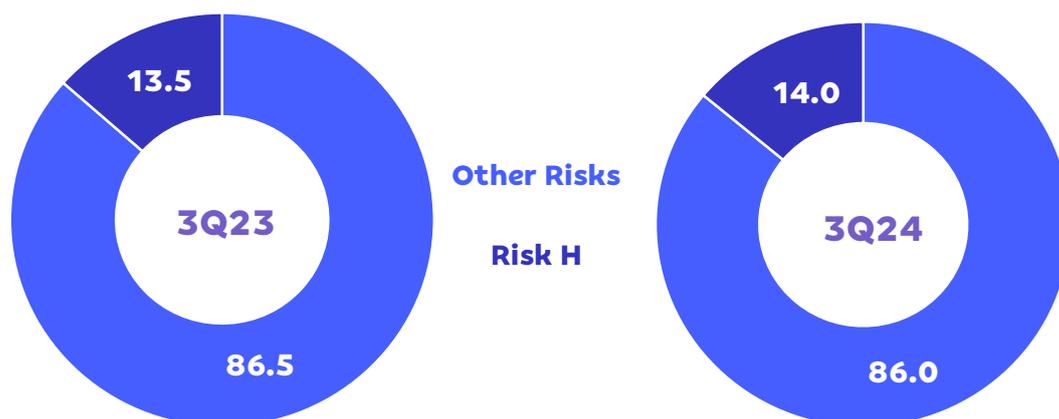

**Figure 28.** Credit Regularization Rate Over Collection Period – %

In the last 12 months, past due loans collected and received classified at risk H represented 14.0% of the total collected. The other 86.0% were collected and settled while they were at better risk levels.

**Figure 29.** Collection and Regularization before Write Off (Accumulated 12 months) – %

In the last 12 months R\$9.7 billion were recovered, of which R\$5.1 billion (52.4%) was received in cash.

**Figure 30.** Accumulated Recovery (R\$ billion) and Cash Recovery Index<sup>1</sup> – %

**Figure 31.** Expanded Individuals Loan Portfolio Breakdown – R\$ million

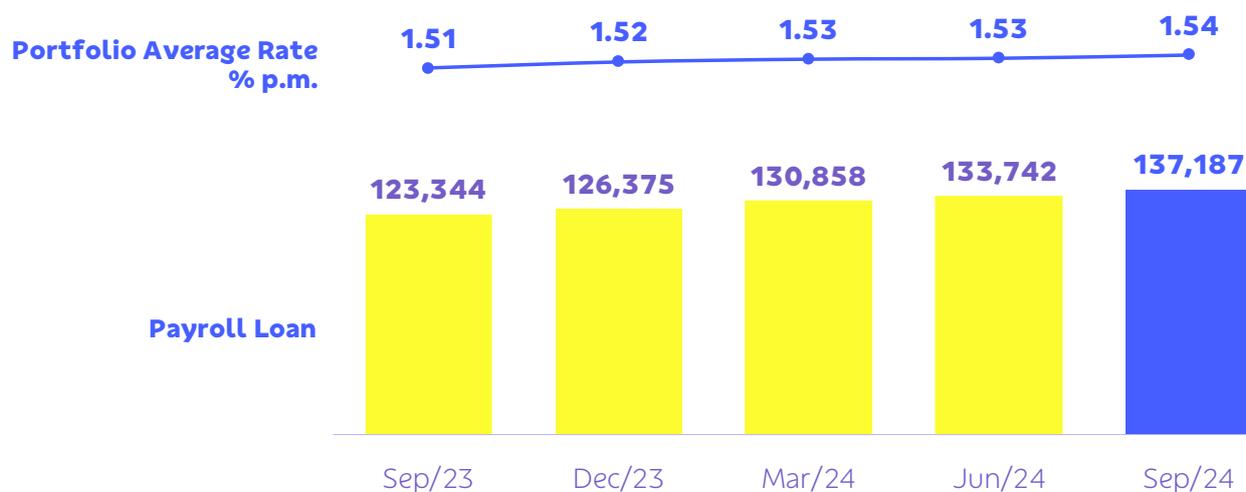

## Payroll Loan

The balance of the payroll loan portfolio was R\$137.2 billion in September/24, up 11.2% YoY, accounts for 97.5% of operations carried out with civil servants and retirees and pensioners customers.

The average rate of the payroll loan operations contracted is 1.54% p.m., with average maturity of 73 months.

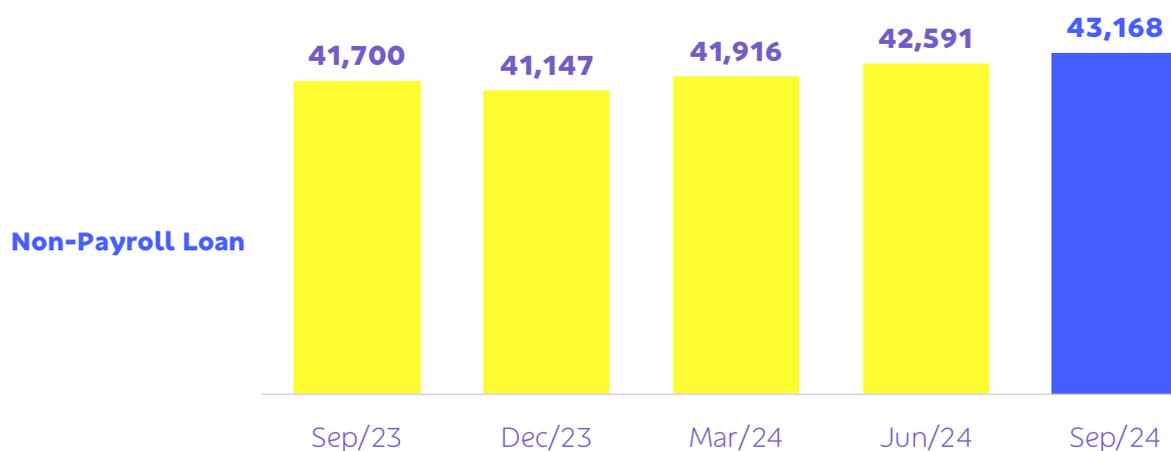

**Figure 32.** Payroll Loans – R\$ million

## Non-Payroll Loan

The payroll loan portfolio reached R\$43.2 billion in September/24, grew 3.5% YoY and 1,4% QoQ.

**Figure 33.** Non-Payroll Loan – R\$ million

## Mortgage

The mortgage portfolio ended September/24 at R\$48.1 billion, up 2.6% YoY, and a percentage of financing of 62.0% (loan-to-value – LTV). In the same period, the portfolio had an average rate of 6.88% p.y., with average maturity of 339 months.

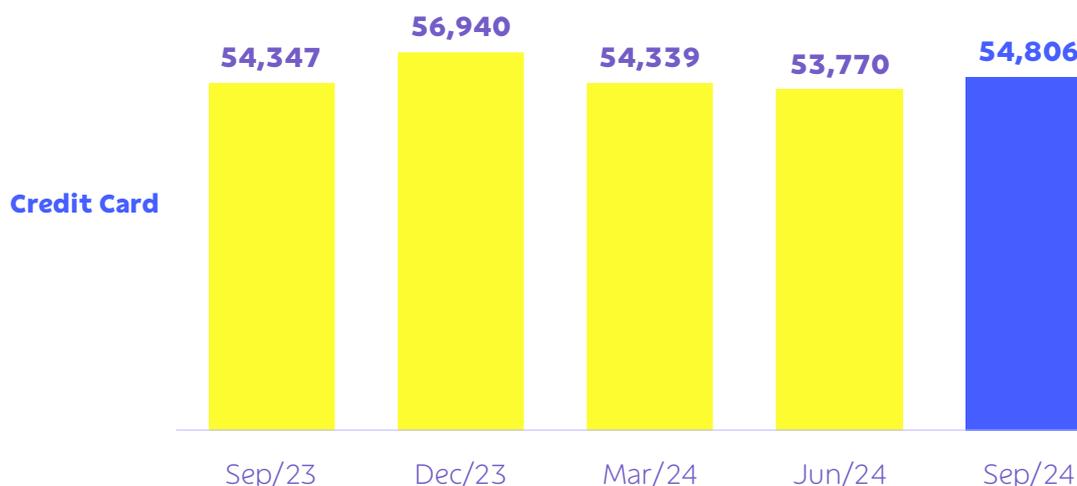

**Figure 34.** Mortgage – R\$ million

## Credit Card

Credit card operations increased 1.9% QoQ and 0.8% YoY.

**Figure 35.** Credit Card – R\$ million

The figure below shows the profile of the individual credit card portfolio by type and segregated according to interest sensitivity.

It is worth noting that 81.9% of the financial volume of the individual credit card portfolio is concentrated in the regular and interest-free installments modalities.

This scenario reflects BB's actions focused on building long-term relationships and the suitability of products and services, guided by the offer of credit lines best suited to customers' needs.

**Figure 36.** Credit Card – Portfolio Composition – %

## Individuals Credit Risk

The following figure details the individuals loan portfolio by risk level. The balance of individuals loan provision was R\$26.7 billion in September/24.

**Table 58.** Individuals Classified Loan Portfolio by Risk Level – %

The Individuals NPL+90d (ratio between transactions overdue for more than 90 days and the individuals classified loan portfolio balance), increase in the quarterly comparison, reaching 5.03% in September/24. The coverage ratio was 163.7% in the same period.

**Figure 37.** Individuals NPL+90d and Classified Loan Portfolio Coverage Index – %

**Figure 38.** NPL+90d Individuals Portfolio – % by Credit Line

The next figure shows the individuals loan portfolio’s non-performance loans formation. The index closed at 1.64%. The New NPL coverage was 88.6%.

**Figure 39.** New NPL – Individuals Loan Portfolio

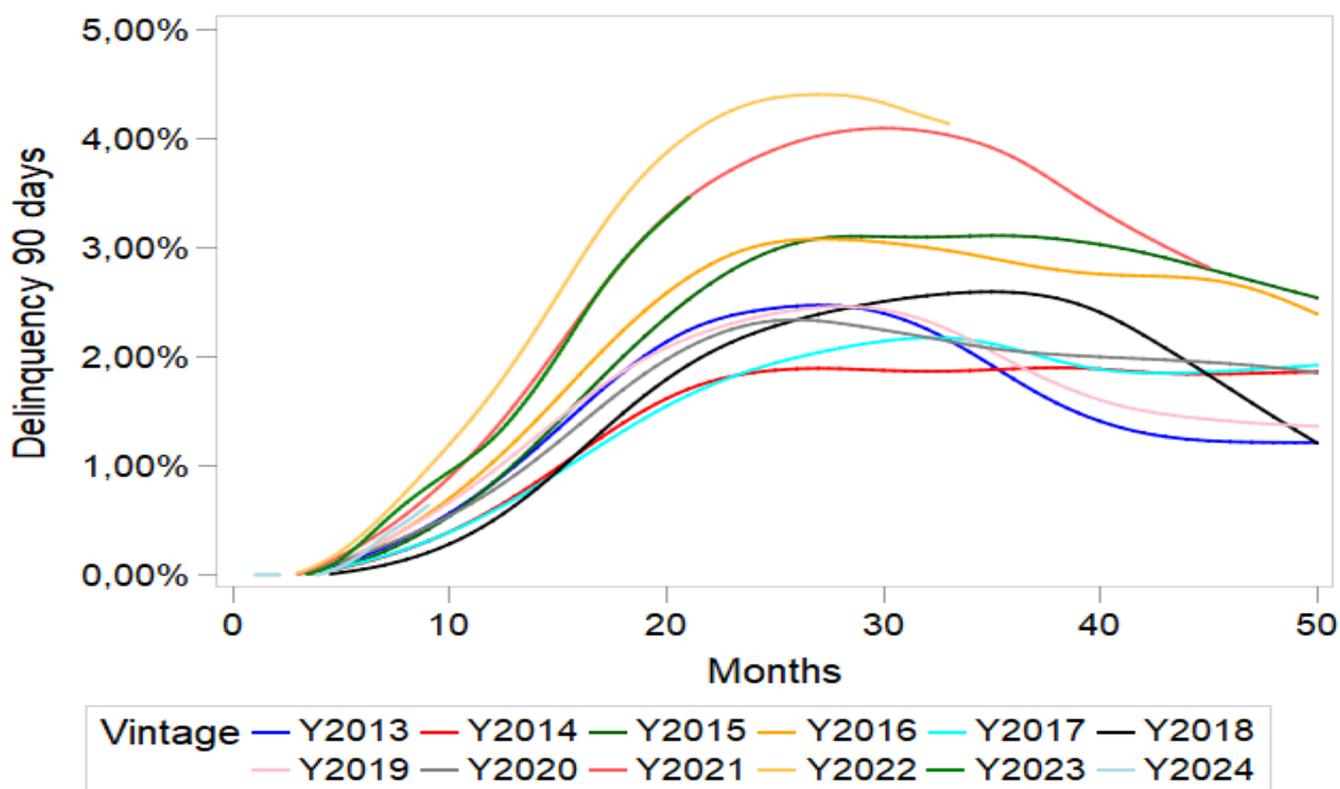

## Vintage

The following figure shows the individual's loan portfolio NPL per vintages. This methodology provides greater detailing and is closer to the portfolio than traditional indicators, to evaluate how the NPL of a set of operations contracted for in a particular period behaves over time.

Loans that have been nonperforming for more than 90 days are considered delinquent. Overdraft and credit card operations are not included in the individuals' loan portfolio.

The following figure shows the vintage by year, making it easier to interpret the data.

**Figure 40.** Individuals Loan Portfolio – Annual Vintage

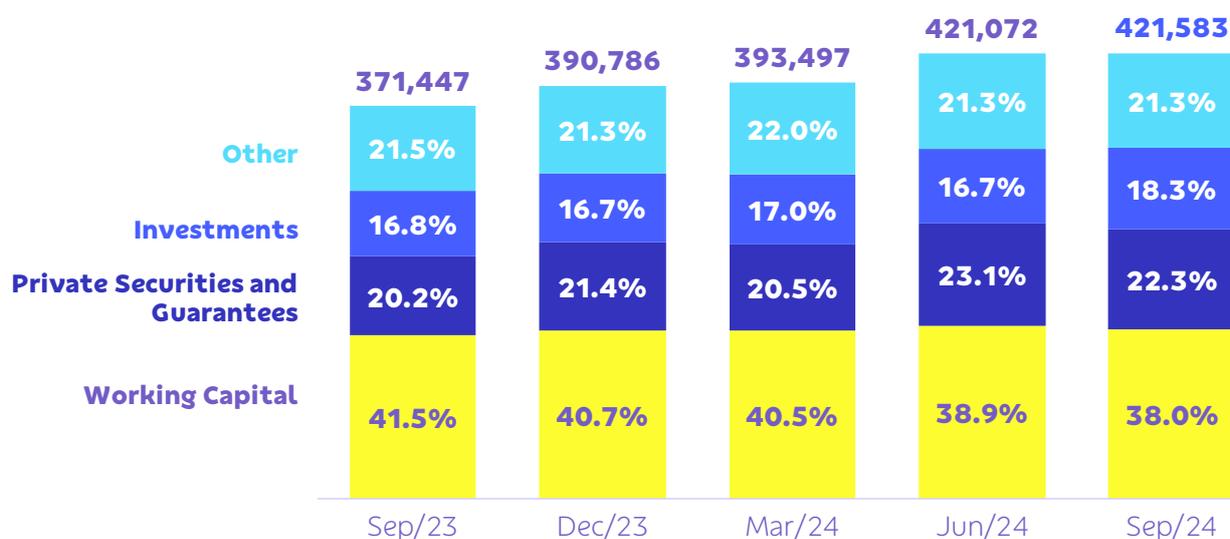

## Companies Loan Portfolio

The companies expanded portfolio grew 0.1% QoQ and 13.5% YoY, with quarterli comparison highlight for the performance investments (+9.6%). In YoY comparison highlight for working capital (+3.9%), investments (+23.7%) and ACC/ACE (+34.7%).

**Figure 41.** Expanded Companies Loan Portfolio Breakdown – R\$ million

**Figure 42.** Expanded Companies Loan Portfolio Breakdown <sup>1</sup> – R\$ million

(1) Series revised in December/23 with migration of operations between MSME and Corporate in Companies portfolio.

## Corporate

Corporate are included in the segment with annual revenues over R\$200 million.

Loan to Corporate was R\$226.6 billion in September/24, compared to R\$232.4 billion in June/24 and R\$197.8 billion in September/23.

### Private Securities and Guarantees

The main private securities instruments used by the Corporates to finance their business are Debentures, Receivables Investment Funds (FIDC), Real Estate Receivables Certificates (CRI), and Agribusiness Receivables Certificates (CRA).

### Debentures

Debentures are private securities representing the debt of publicly or privately held corporations ("S.A.") and the main instrument for raising funds in the capital market.

For corporate, debenture issues are competitive sources of funding when compared to traditional credit lines, as they often have a lower funding cost.

For investors, debentures usually offer good returns, usually indexed to the CDI or to price indexes.

### Receivables Investment Funds (FIDC)

The Receivables Investment Funds represent a pool of resources that allocate a portion of their net worth to invest in credit rights arising from commercial, industrial, real estate, financial or service operations receivable by the companies, such as trade bills, contracts, checks, among others.

The rights of these credits are negotiable, that is, the corporate assigns to the fund, anticipating the receipt of the resource, whose anticipation is discounted by a variable rate with the credit risk of these receivables, optimizing the cash management without the need to raise its degree of indebtedness.

### Real Estate Receivables Certificates (CRI)

The Certificates of Real Estate Receivables are securities backed by real estate credits, representing portions of a credit right belonging to Corporates.

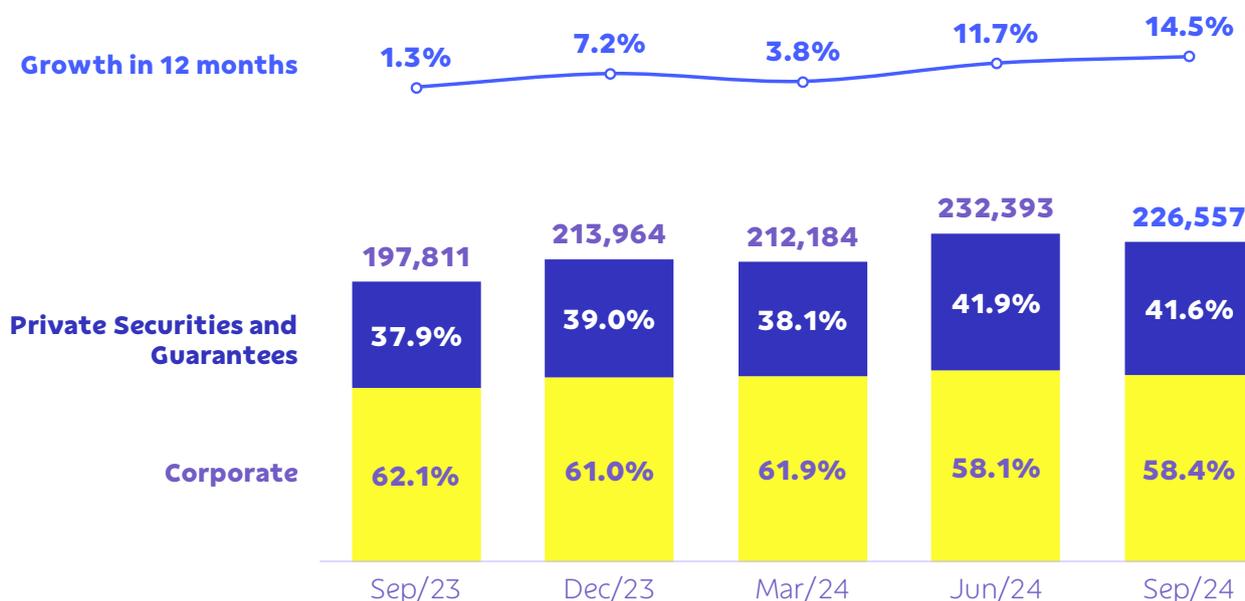

### Agribusiness Receivables Certificates (CRA)

Agribusiness Receivables Certificates are securities backed by credit rights arising from deals carried out between rural producers, or their cooperatives, and third parties, related to the financing of agribusiness activities.

### Guarantees

Among the businesses focused on the provision of guarantees, an important front of activity is that of completion guarantees in the scope of Project Finance. This is the provision of guarantees aimed at guaranteeing the creditors of investment projects during the implementation phase of the projects. In this front, BB's support for infrastructure projects stands out, especially those of renewable energy generation (mainly wind and solar).

Figure 43. Expanded Corporate Portfolio – R\$ million

## Micro, Small and Medium-sized Enterprises

Micro, Small and Medium-sized Enterprises are included in the segment with annual revenues of up to R\$200 million.

Loans to MSME portfolio ended September/24 with a balance of R\$123.0 billion (+1.0% QoQ and +7.0% YoY). In 12-month comparison highlight for working capital (+2.5%) and pre-approved-credit (+39.2%). Of the balance of this portfolio, 96.6% is invested with account holders with a relationship of more than two years.

## Loan to the Government

Banco do Brasil supports the states, Federal District and the municipalities in their demands, financing investment programs that aims to improve quality and transparency of public administration, urban mobility, health, education, and public safety, generating real benefits for the population and contributing to the development of the country.

In September/24 loan to the Government was R\$72.0 billion, up 7.7% QoQ and 22.8% YoY. In 3Q24, R\$6.9 billion was disbursed, largely with Treasury guarantees, to the states and municipalities to enable

investment programs included in the multi-annual plan.

Under Central Bank of Brazil CMN Resolution No 229/2022, Article 23, a Risk Weighting Factor (FPR) of 0% must be applied to the portion of exposure covered by credit guarantees provided by the National Treasury transactions, without thereby compromising capital.

The government portfolio has an important participation of on-lending in foreign currency, which implies in variations in function of the behavior of the exchange rate.

## Concentration of Companies by Macro-Sector

The next table presents the concentration by economic macro-sectors of the companies and of the agribusiness companies portfolio, considering the Multiple Bank, operations with securities and guarantee and the external portfolio. The portfolio is constituted from exposures to customers according to their respective economic activity principal, being aggregated according to the macro-sectoral structure adopted by BB.

In the first quarter 2024/2025 Crop, Banco do Brasil disbursed R\$63.4 billion in agribusiness credit. Furthermore, there are another R\$11.0 billion disbursed in the agricultural value chain, totaling R\$74.4 billion. There were more than 200,000 operations contracted during the period in more than 4,800 municipalities across the country, with 69.8% destined for family (Pronaf) and medium (Pronamp).

The following table shows the comparison of disbursement in the crop (24/25) compared to the same period of previous crop (23/24), detailing customer's segment and agro securities.

**Table 66.** Rural Credit Disbursements by Purpose – R\$ million

	Crop 23/24	Crop 24/25	Δ% Crop 23/24

Medium – Pronamp	8,295	11,508	38.7
Agro Securities	5,752	8,577	49.1

## Risk Mitigators

Banco do Brasil encourages the use of risk mitigation mechanisms for contracting agricultural costing operations. The strategy is improved with each new harvest, expanding the protection mechanisms so that producers can invest safely.

The mitigation strategy considers various information, such as the risk of the activity, the crop

to be financed, and the location of the financing. This information makes it possible to direct the most appropriate protection mechanism to the risk profile of each operation and agricultural enterprise.

The following table presents the recent history of the use of risk mitigators in the contracting of agricultural costing operations for the respective crops.

**Table 67.** Insurance in the Working Capital for Input Purchase – R\$ million

	Crop 22/23	Share %	Crop 23/24	Share %	Crop 24/25	Share %
<b>Working Capital for Input Purchase</b>	<b>35,781</b>	<b>100.0</b>	<b>33,760</b>	<b>100.0</b>	<b>23,254</b>	<b>100.0</b>

The risks assumed as a result of the contracting of crop agricultural insurance were distributed as follows in 3Q24: Brasilseg, 22.0%, 21.6% for Hannover Ruck SE, 19.5% for IRB Brasil Resseguros, 11.8% for Mapfre Re, 11.8% for Arch Re and 10.1% for MS Amlin AG, among others.

## Agribusiness Market Share

Historically, the Bank has remained the main financial agent of agribusiness in the country, contributing significantly to meeting the credit demand of the segment. According to data from the Central Bank of Brazil, in September/24, BB held a 49.9% stake in financing for the sector. In direct loans to rural producers (market share in Individual Agro Credit), the market share is 56.7%.

The distribution of agribusiness operations by Brazilian region shows the share of each in the loan portfolio.

**Table 68.** Classified Agribusiness Loan Portfolio by Region – %

Region	Sep/21	Sep/22	Sep/23	Sep/24
Midwest	33.5	34.6	34.8	34.6
South	25.1	24.1	22.6	22.9
Southeast	24.0	23.3	23.9	22.7
North	8.3	8.9	9.4	9.9
Northeast	9.1	9.1	9.3	9.9

In September/24, sustainable agro operations accounted for 47.5% of the total agribusiness portfolio.

The NPL+90d of the agribusiness loan portfolio was 1.97% in 3Q24, while the coverage was 165.3% in the same period.

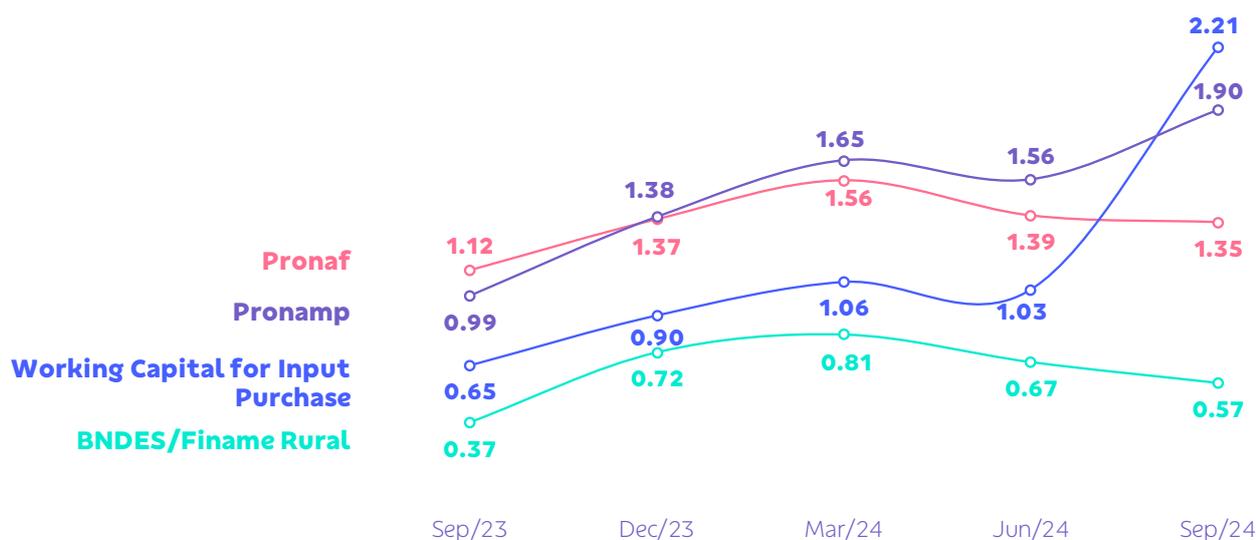

The NPL+90d for agricultural credit increased by 65 bps in the quarter, specifically impacted by cyclical issues that affected the cash flow of rural producers, mostly in soybean crop.

**Figure 48.** Agribusiness NPL+90d and Classified Loan Portfolio Coverage Index – %

The following figure details the agribusiness loan portfolio NPL+90d by credit line.

**Figure 49.** NPL+90d Agribusiness Portfolio – % by Credit Line

The next figure shows the agribusiness loan portfolio’s new NPL. The index closed the quarter at 1.09% stable compared to the previous quarter. New NPL coverage was 103.0%

**Figure 50.** New NPL – Agribusiness Loan Portfolio

# 8. Funding

Commercial funding was R\$1.1 trillion in September/24, up 3.1% QoQ and up 9.9% YoY. In the 12-month comparison, the performance of agribusiness letters of credit stands out, which showed an expansion of 11.0%, and time deposits, with growth of 15.9%.

## Sources and Uses

The indicators presented in the following table shows the relation between funding sources and investments at Banco do Brasil. BB aims to diversify its funding sources by offering attractive alternatives to customers and providing a reduction in the funding cost for Banco do Brasil.

The loan portfolio remains the main use of funding with a share of 88.1% of total uses. The following

table also shows the relation between the adjusted loan portfolio and the commercial funding, which disregards the credit originated by domestic onlendings.

More information on the Bank's liquidity can be found in the Risk Management Report, available at <https://ri.bb.com.br/en/>.

# 9. Financial Services

Banco do Brasil offers its customers a wide variety of financial solutions, which meet the different needs of individuals and organizations. BB strives to deliver the best experience in a fast, safe and agile manner, through its vast network of offices or digitally.

BB's solutions are aligned with the moment of life and the demands of its public. It therefore covers everything from means of payment services, which have a broad portfolio of solutions for individuals, companies, agribusiness and the government; to asset management through a variety of investment products; capital markets, as one of the main sources of financing productive activity in the country and the offer of different funding instruments; and the flexibility offered by the consortium deals.

## Payment Methods

Banco do Brasil plays an important role in the Means of Payment market in the country and seeks to maintain this position by expanding its portfolio of solutions, improving processes and investing in people, innovation, technology and sustainable development, always with the central objective of guaranteeing the satisfaction and security of its millions of customers, who have digital and physical channels at their disposal to serve them according to their needs.

### Cards Base and Turnover

The reduction in the recurring use base compared to 3Q23, considering credit and debit cards, is due to actions to improve the acquisition process, prioritizing the qualified sale of products to new customers.

The growth in the high-income customer base and the reduction in the higher-risk portion are noteworthy, favoring the maintenance of

delinquency at lower levels, contributing to the strengthening of the mix of future results.

In addition, the resilience of Banco do Brasil's debit income is reinforced, as it continues to grow, even in the face of the growing adoption of Pix and its evolutions.

**Table 77.** Cards Base – Recurring Use<sup>1</sup> – million

	3Q23	4Q23	1Q24	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q
Credit Cards	11.7	11.6	11.2	11.1	11.1	(4.8)	(0.3)
Debit Cards	15.1	15.1	14.8	14.8	14.7	(2.2)	(0.2)

(1) At least one use in the quarter.

**Figure 52.** BB's Cards Turnover – R\$ billion

## Card business performance

Throughout 2024, Banco do Brasil has been adopting measures focused on qualifying the portfolio and the sustainable growth of the business, supported by the following pillars: (a) expanding the penetration of the card product in the active customer base and winning new customers; (b) increasing and accelerating investments in improving the experience and delivering value to its customers; (c) increasing the relevance of the card in the lives of people and companies, with new functionalities, cross-selling with other products in the BB portfolio, and benefits; and (d) generating financial returns.

The strategy is already showing the first positive results, which can be seen, for example, in the continued reduction in card delinquencies in a scenario of worsening market indexes. More information on the size of the card portfolio and

credit quality is available in Chapter 7 of this document.

The credit card occupies a prominent position in Banco do Brasil's customer loyalty and acquisition strategy, being the second most relevant product in the NPS. The average profitability of card customers is approximately three times higher than that of other products, highlighting the strategic importance of this product.

To this end, a few actions have been taken to improve the customer experience and strengthen the principality, such as the reduction of the IOF on international purchases to 1.1%, the PCV (Installment Payment for Cash Purchases), and the PIX with Card integration, which allows customers to make Pix using their credit card limit.

**Table 78.** Cards Business Income\* – R\$ million

	3Q23	4Q23	1Q24	2Q24	3Q24	Δ% Y/Y	Δ% Q/Q
<b>Net Income<sup>1</sup></b>	<b>621</b>	<b>868</b>	<b>783</b>	<b>605</b>	<b>574</b>	<b>(7.6)</b>	<b>(5.3)</b>
Net Income with BB issuance <sup>2</sup>	81	284	297	151	114	40.8	(25.0)
Other Cards Results <sup>3</sup>	540	584	486	454	460	(14.8)	1.3

(\*) In 1Q24, the historical series for the ther card results was adjusted with information from 1Q22, in accordance with Note 14 – Investments. (1) Taxes calculated on a managerial basis for all lines, except equivalence; does not consider the result of cards abroad; (2) Financial revenue, Fees and Others. Expenses with relationship programs, PCLD and others; (3) Equity in earnings of equity investments in means of payment.

The reduction in BB's net income from issuance compared to 3Q23 is associated with increased investments in advertising, commercial actions and reorganization of the operation to sustain the next growth cycles.

# Asset Management

The main activities of BB Asset include administration, management of funds and managed portfolios.

The following chart presents asset management’s balance and BB Asset market share in the Resource Management and Global Fund Administration of the Anbima Ranking (Brazilian Financial and Capital Markets Association).

**Figure 53.** Resource Management and Market Share – R\$ billion

BB Asset remained as the leader in the investment fund industry according to Anbima's Investment Fund Management Ranking.

**Figure 54.** Fiduciary Management and Market Share – R\$ billion

Source: Anbima.

According to Anbima's Semptember 2024 Management Ranking, BB Asset remained the leader in the following segments: Institutional Investors, Public Authorities, Traditional Retail and RPPS.

## Portfolio with social and environmental characteristics

BB Asset reaffirms its commitment to good social, environmental and governance (ESG) practices, and continues to advance in the generation of sustainable business.

### Sustainability

BB Asset currently administers and manages twenty two (22) sustainable investment funds (SI) and twelve (12) funds that integrate ESG issues, in accordance with CVM Resolution 175. The following table details the balance of resources managed by the main funds under management.

**Table 81.** Investment Funds with Social Environmental Characteristics Management – R\$ million

The Nordea Global Climate and Environment fund was incorporated in 2Q24 due to the approval of its registration as a Sustainable Investment (SI) with Anbima. Source: Brazilian Securities and Exchange Commission – CVM.

In addition to the funds with an ASG investment strategy listed above, BB Asset transfers 50% of the management fee from the BB Renda Fixa Referenciado DI Social 50 Fund, 20% of the management fee from the BB Ações Sustentabilidade IS Fund, 10% of the management fee from the BB Multimercado Balanceado and BB Multimercado Balanceado Private Funds to the Banco do Brasil Foundation, where they are invested in projects that contributes to social transformation and the country's sustainable development.

## Custody

Banco do Brasil is one of the main leaders in the asset custody industry. The following figure presents the performance of the assets in custody at Banco do Brasil.

**Figure 55.** Total Domestic Custody Assets and Market Share – R\$ billion

Source: Anbima.

## Capital Market

The capital market is one of the main sources of financing productive activity in economies around the world. Funding instruments, in addition to enabling the growth of companies, also contribute to the generation and dilution of the risk of new investments.

Banco do Brasil has a prominent presence in the Brazilian capital market through its wholly-owned subsidiary, BB - Banco de Investimento S.A. (BB-BI) and the UBS BB Investment Bank Joint Venture (UBS BB).

The portfolios of BB-BI and UBS BB include excellent services involving market research, structuring and distribution of operations, settlement and custody of assets, as well as products and services for individuals and companies.

In 3Q24, the conglomerate's companies were involved in 42 capital market operations, 41 of which were fixed income and one variable income.

In 3Q24, more than R\$53.6 billion was raised, in 23 debenture operations, three of which with ASG criteria; five bond issues, one of which was sustainable; six commercial notes; six CRA and CRI operations; one Real Estate Investment Fund issue; and one Follow-On.

The main products and services are highlighted below:

**Fixed Income Domestic Market and Securitization:**

Coordination, structuring and distribution services of debentures, commercial promissory notes, financial bills, receivables investment funds, real estate receivables certificates and agribusiness receivables certificates.

**Fixed Income International Market:**

Acting in the coordination, structuring and distribution of new securities and debt management processes of companies, banks and governments through UBS brokers, providing a global presence in capital markets.

**Variable Income:**

Advising on all stages of public offerings of shares. He also works in the structuring and distribution of Real Estate Investment Funds (FII). For individual investors, the equity portfolio includes the services of buying and selling shares, and for investors in the private segment, it also includes the service of renting shares.

**Advising on mergers, acquisitions and project financing:**

Financial advice on divestitures, corporate reorganizations (mergers, spin-offs and incorporations), private placements for companies and project finance.

## Consortium

According to the latest figures released by the Brazilian Association of Consortium Administrators - ABAC, the consortium market reached R\$251.8 billion in credit sold between January and August 2024, 21.9% more than the volume reached in the same period in 2023. Also noteworthy was the new record number of participants in the Consortium System, with 10.9 million consortium members, an increase of 10.0% over the same period last year.

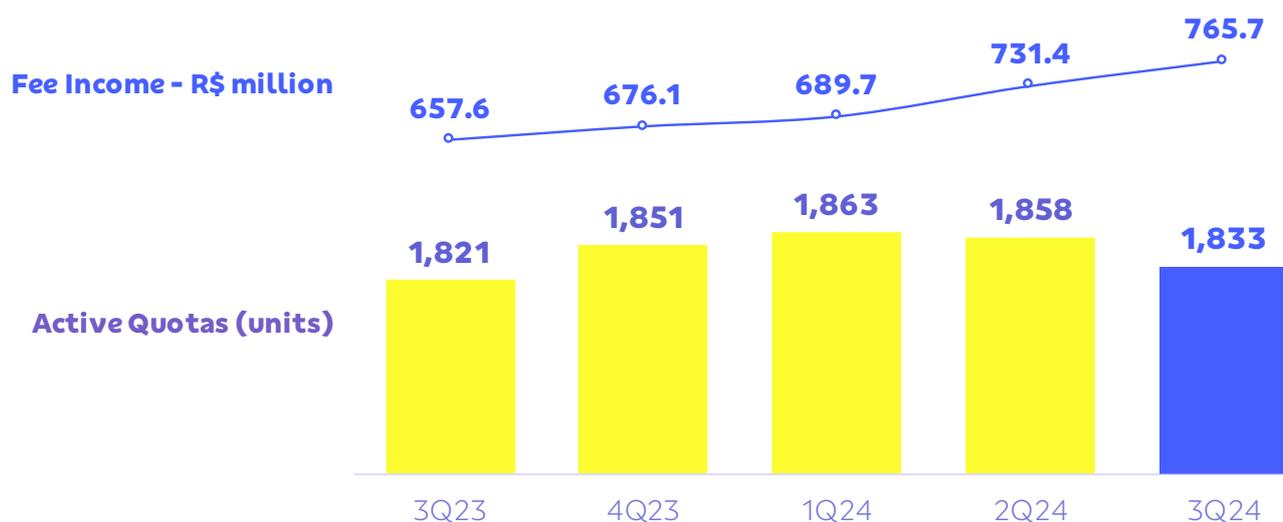

Banco do Brasil operates in the consortium market through its subsidiary, BB Administradora de Consórcios S.A., which in 3Q24 had a portfolio of 1.8 million active quotas. According to the latest information released by the Central Bank of Brazil

(August 2024), BB Consórcios has a market share of 16.8% in terms of number of quotas, consolidating its position as the largest consortium administrator among those linked to financial institutions.

In 3Q24, BB Consórcios sold more than 113,000 new consortium quotas with a turnover of R\$9.7 billion. In this period, sales in the Alternative Channels (Mobile, Internet Banking and Partners) totaled R\$1.9 billion, representing quarterly growth of 25%.

With this performance, BB Consórcios reported Service Revenue of R\$765.7 million in 3Q24, compared to R\$657.6 million in the same period in 2023, which represents a growth of 16.4%.

## Global Treasury

Banco do Brasil has a Treasury Unit which, in addition to managing proprietary books and portfolios, serves its corporate and high-income clients.

Treasury focuses on doing business that makes the Bank the main provider of solutions for clients. Over the last few years, the unit has increased the range of products, service channels (Electronic Platforms, Internet Banking, App, Branches, Telephone and WhatsApp) and the number of transactions negotiated.

In foreign exchange, BB consolidated its leadership in the export market. This position strengthened BB's participation and brand in foreign trade.

Aware of the opportunities in the global sustainable finance market, the Bank carried out an

unprecedented intermediation operation in the carbon market. This time, it not only made it possible to buy carbon credits, but also to retire them for the benefit of BB Tecnologia e Serviços (BBTS). With this transaction, BBTS offset 200 tons of carbon gas emissions generated in 2023 by the company's service network. The transfer and retirement of these assets were registered on the Verra (Verified Carbon Standard) platform, a non-profit organization that operates the world's leading carbon credit program. The credits traded come from the ABC Norte REDD+ project, located in Pará, which promotes environmental, social and economic development in the region.

# 10. Other Information

This chapter presents other information about Banco do Brasil's employee benefit plans as well as additional information about BB's presence abroad.

The first part presents information on the actuarial assets of Previ's Plan 1 and the actuarial liabilities of the assistance plan administered by Cassi. The values are calculated every six months based on an actuarial valuation report and their availability is subject to compliance with the requirements established by legislation and regulatory authorities.

The second part contains the main information regarding BB's external network and Banco Patagonia. BB's presence abroad aims to maintain its position of reference for Brazilian companies and individuals in international markets.

# Actuarial Assets and Liabilities

## Previ

The plan's actuarial balance is measured on a semiannual basis (June and December) and contemplates: (i) the plan's surplus/deficit amount at the end of the current semester and (ii) the plan's estimated financial results of the subsequent semester, considering current service cost projections, contributions, liabilities interest costs and return on assets.

BB performs the advanced monthly recognition based on the estimated financial result of the Plan for the end of the following semester.

The most relevant differences are concentrated in the definition of the values related to Plan 1 – Previ.

## International Businesses

The Bank's external network has been operating abroad for 83 years and is present at strategic points in various countries to provide banking services. It has extensive experience in international financial markets. BB guarantees all its clients, whether they are public sector institutions, companies of all sizes or individuals, the solidity and security of always, even outside Brazil.

In addition to this structure, Banco do Brasil has agreements with other financial institutions abroad to serve its clients, with 522 banks acting as BB correspondents in 90 countries.

**Table 90.** Foreign Service Network

Branches	Sub-Branches	Shared Services Units
<ul style="list-style-type: none"> <li>▶ Asuncion – Paraguay</li> <li>▶ Frankfurt – Germany</li> <li>▶ Grand Cayman – Cayman Islands</li> <li>▶ London – England</li> <li>▶ Miami – USA</li> <li>▶ New York – USA</li> <li>▶ Tokyo – Japan</li> <li>▶ Shanghai – China</li> </ul>	<ul style="list-style-type: none"> <li>▶ Hamamatsu – Japan</li> <li>▶ Nagoya – Japan</li> </ul>	<ul style="list-style-type: none"> <li>▶ BB USA Servicing Center / Orlando – USA</li> <li>▶ BB Europa Servicing Center / Lisbon – Portugal</li> </ul>

(1) Banco do Brasil Americas has branches in Miami, Lighthouse Point, Orlando and Aventura; (2) Banco Patagonia has a service network with 198 points and presence in all provinces of Argentina; (3) Besides Vienna, BB AG (Aktiengesellschaft) has branches located in Lisbon and Paris.

## Foreign trade

BB's Foreign Trade aims to meet the demands of clients on a complete international journey, with solutions in credit, derivatives, structured products and capital markets, as well as the integration of service networks in Brazil and abroad.

The NPS of foreign exchange products continues to perform in the quality zone of the indicator (51 to 75 points) and remains in second place among the BB products surveyed. Attributes such as practicality, simplicity of operation and security contributed to the increase in the score and are a reflection of the improvements that BB has constantly made to the product and its contracting journey.

As of July this year, BB Crédito Exportação, a line that finances the production of goods and services destined for export, as well as the activities of the export production chain, in the pre-shipment phase, at international interest rates, was expanded to SME and MSME retail clients. As a result, clients in this segment have yet another option in their credit portfolio, boosting exports by micro and small companies and financing their value chain. In September, the line reached the mark of 1.1 billion dollars disbursed since its launch in August 2023. Of this amount, 707 million dollars were disbursed in 2024 alone.

# Strategic Books

# Customer Experience

Banco do Brasil has the customer at the center of its strategy and builds a long-term relationship, offering hyper-personalized experiences and focusing on the "Phygital" strategy, which by promoting the integration between the physical and the digital environments, working on the convergence between both with a hybrid approach, unites the best characteristics of both worlds.

A bank for each customer is BB's way of improving the delivery of the value proposition. This transformation movement occurs by being guided by the universe of available data, in a 360° view, in the light of customer behavior, vision, and moment of life, which generates relevance, engagement, and closer relationship and satisfaction.

# The customer at the center of the strategy

## CRM: Agile Marketing Performance

Continuing the movement of hyper-personalization and delivery of a bank to each customer, BB has evolved by creating work squads in the areas of Credit, Means of Payment, Open Finance, insurance, among others. With the adoption of agile and the most varied analytical models developed in-company, it was possible to move forward in the development of solutions adhering to the customer's behavioral profile and the life context. The actions implemented favor cross selling and increase sales.

In this movement, 124 new approaches were implemented with qualified, personalized and assertive offers, which reached 60.8 million contacts with the offers' targeted customers, using more than two thousand profile clusters. The Open Finance squad is in the spotlight, it contributed to the 62% increase in the daily average of data sharing, since its inception. In addition, it contributed to the review of strategies, generating greater efficiency and a 52.7% reduction in contacts made, which optimizes opportunities for contacts from other business strategies.

In 3Q24, 1.2 thousand personalized strategies were carried out, which generated approximately 125 million customer contacts. More than four thousand Individuals and Legal Entities clusters were identified, based on analytical intelligence, using predictive, behavioral and business propensity models.

As a result, in the quarter, 64% of the total volume disbursed in credit by individuals occurred by customers approached in commercial strategies in targeted channels. In all, there were 16.2 million contacts to offer credit, and 2.6 million contracts in digital and physical channels.

A prominent strategy of CRM/Martech was the performance in Customer Week, between September 6 and 15, which resulted in about 300 thousand new contracts of various products, such as Credit, Consortium, Insurance and Capitalization, among others. The strategy focused on multichannel communication, with about 10 million customers contacted via email, 86 million via BB App and 1.6 million via Whatsapp.

## Omnichannel

In 3Q24, Omnichannel continued its expansion, driven by the development of solutions and the implementation of continuous improvements.

The modernization of the solutions used by SAC and CRBB to serve customers was completed, which brought efficiency gains such as reducing the time to dial in active calls, reducing the time and number of logins and automating e-mail routing. These efficiencies generate annual savings of R\$6.5 million.

Banco do Brasil was awarded the "Best Omnichannel Customer Experience – Latam 2024" by Global Banking and Finance Review for the implementation of a cloud solution for customer relationship offices, covering more than 10 thousand service positions.

At the end of June this year, a solution was contracted to integrate the telephone, e-mail, chat and WhatsApp service solutions into a single service platform, an important innovation in the financial industry and in the national retail market, which ensures BB is at the forefront in relation to remote service through the channel most used by Brazilians.

## Customer satisfaction in all interactions

To measure customer loyalty with Banco do Brasil, the Net Promoter Score (NPS) is used, which evaluates how much the customer recommends the company. In the last two years, there was an evolution of 12.9% in the indicator's score. 3Q24 shows an increase of 4.5% in the index compared to 3Q23.

The Customer Experience Survey is also used, which allows the investigation of various factors and attributes related to service, relationship, products/services and service channels. Overall customer satisfaction, as well as NPS, is within the Quality Zone.

After each service performed, whether in person, by telephone or via messages exchanged through the BB application, the Bank forwards the Service Evaluation Survey to the customer. The grades received are linked to the evaluation of the semiannual performance of employees, to ensure that the quality of service and customer satisfaction are a common goal for all.

In 3Q24, BB stands out for the reduction of complaints in the Central Bank's Complaints Ranking. It was maintained in 14th place among 15 financial and payment institutions, the lowest index among incumbent banks. Continuous effort that results in the improvement of the index for the 9th consecutive quarter.

In addition, the Bank uses other metrics to listen to customers, including the Customer Council, a meeting dedicated to active listening, in which representatives of Banco do Brasil's Management and customers from all relationship models participate. Throughout 3Q24, three Customer Councils were held, in July, with INSS beneficiary customers in Salvador (BA), in August, with agro-pronafian customers in Florianópolis (SC) and in September with Estilo and Exclusivo consortium holders, in Brasília (DF).

## Rejuvenation and Innovation

In 2024, Banco do Brasil continued to develop its business strategy to engage and attract the younger generations, in order to involve them more efficiently and expand their contribution to the company's results.

As a result of the rejuvenation strategy, in 3Q24, the development of analytical intelligence solutions for hyper-personalization of service was prioritized. Among them, one stands out by signaling the public between 18 and 40 years old from the first moment of the opening of their demand, contributing to the agility of customer service and experience. A gain already obtained was the profitability of more than 465 thousand customers of this audience, which represents a growth of 4.7% compared to December 2023.

Another result of BB's rejuvenation strategy is with the university public. Currently, this niche has more than two million customers, who move approximately R\$16 billion in the credit portfolio. More than 30% of this public has some type of financial investment, totaling the volume of more than R\$20 billion invested, with an average balance of R\$9.7 thousand. It is worth noting that the university NPS grew more than 10% when compared to January of this year.

BB operates in the days of opening a checking account and changing the account modality in a 100% digital environment with a self-service journey, when the customer becomes the target audience. The BB application was customized, with a new home, simplified menu, objective features and exclusive solutions for young people.

The financial education program "Rolê que Rende" was expanded in scale and now includes children and adolescents, young people +18 and university students. Up to 3Q24, BB carried out several actions resulting in the

impact of more than 200 thousand young people with account opening, investments, lectures and content on careers and financial education.

To strengthen the financial education of children and adolescents, BB launched in 3Q24 "Meu Cash", a solution developed for the BB Cash account that allows customers to know their expenses in various categories to plan financially. By September 2024, 147 thousand new BB Cash customers had already been registered. There are 1.1 million customers between 0 and 17 years old, and 30% of all children and adolescents use BB Cash. These customers show an engagement of more than 95%, with card use above 70% and transactions via Pix above 67%. In addition, 30% of these customers have some type of financial investment, with an average ticket of R\$4.4 thousand.

Also in the field of financial education, Banco do Brasil has developed customer segmentation based on financial profiles and relationship with money, which currently includes 28 million customers and equips employees to support customers in personal financial management.

All these actions have expanded support for the financial future of young people and the general public, improved interaction with the Bank and promoted the BB brand among the new generations in their daily lives.

## Constant improvement in the digital flow of account opening

One of the highlights among the novelties of the BB App is the new digital flow for opening an individual account, launched this year for all customers. BB's Onboarding provides a new entry experience, with simplicity and ease, which has a positive impact on adherence to the variety of products and services offered.

Simplified working hours, reduction in the number of screens, no need to upload proof of residence and income and automated security solutions are some of the amenities that allow customers to connect with BB solutions, opening their digital account in minutes, with a calculated credit analysis, and a credit card activated and enabled for online usage through the digital wallet.

Regarding the results, BB reached the mark of 40% of the accounts opened through the BB Application. In just 5 months of operation, the digital solution achieved 140% growth.

## Ponto BB

Ponto BB presents a variety of innovative services that combine technology, personalized service and culture, providing an experience unlike anything known in a banking environment.

The space has its exclusive olfactory identity and at the entrance you are greeted by a welcome hologram. The journey continues with a concierge robot, a product showcase, a café that values local products, and an experimentation table to test novelties from BB and partners. It also offers a phygital service booth, which this quarter added new services to its service portfolio and an arena for lectures and courses that increasingly attracts the attention and participation of local society.

Since its inauguration in March, customer satisfaction has increased by 2%, there has been a 9% increase in the profitability of young customers and more than 4 thousand exchanges of points for products in the coworking space. The space registered more than 7,500 visitors.

Ponto BB has become a reference in Porto Digital as a partner and collaborator in several work fronts and events involving technology, innovation and local entrepreneurship and the expectation is to expand these initiatives to new points in the future, always observing the economic and social relevance of each location.

## Customer Intelligence

Banco do Brasil continues engaged in the process of analyzing customer data and transforming it into insights to generate more business. The use of Generative AI is already a reality and the tools for developing new models are increasingly agile and robust. With this, it is possible to personalize offers, improve service, and create more effective marketing strategies. In an increasingly digital world, Customer Intelligence becomes essential for predicting trends and making informed decisions, creating competitive advantage.

In the last quarter, the attributes of the Preventive Alerts tool, which aims to prevent customer evasion, were expanded, and a reduction of 13.0% in the percentage of evasion has already been observed when compared to 3Q24 and 3Q23.

Offers and approaches continue to be made based on recommendations from analytical models, in which more than 125 million customers and prospects are analyzed daily, resulting in an amount of 2.5 billion possibilities of offers, distributed in 38 categories of business suggestions. After refining and prioritizing the propensity of each customer and the relevance of the offer to the moment of life, 386 million business indications and opportunities adhering to the customer's profile were delivered to BB's physical and digital channels.

## Engagement and Monetization

### Individuals Retail

Banco do Brasil's commitment to innovation and digital inclusion is reflected in the expansion of service through the FaleCom channel, available to 13.7 million retail customers, allowing more customers to solve their banking demands in a digital, more efficient and convenient way, improving their experience.

### Professionals

Independent professionals have strategic relevance for the institution. And, with this in mind, Banco do Brasil has a relationship cycle to support customers in their personal and professional journeys, offering exclusive credit conditions, hyper-personalized communication and differentiated limit analysis.

Compared to the total number of BB customers, the participation of self-employed professionals in the result of personal loan disbursements without payroll loans grew from 27% in the third quarter of 2023 to 32% in the same period of 2024.

### Payroll customers

Payroll customers are a strategic niche for the individual retail market and BB's performance is strongly anchored in the attraction, profitability and retention of this public.

In order to strengthen engagement and deliver relevant solutions, Banco do Brasil expanded its relationship and business actions based on the needs of the people in 3Q24. Of note is the implementation of the Personal Credit solution with cashback, and the launch of a national campaign with the motto "Bring your salary to BB and enjoy the benefits".

## Rewards Platform

In 3Q24, the Rewards Platform continued to expand and customize its offerings. To improve the financial efficiency of the program and ensure customer satisfaction, progress has been made in the delivery of benefits that are increasingly aligned with the moment of life, consumption profile and level of customer relationship. The following actions stand out:

- **Cashback Center:** solution that brings together the cashback options offered by the Bank in one place, making it simpler and more efficient to consult and redeem benefits. The Cashback functionality, available on the BB app, with Points or Automatic, allowed more than R\$78 million to be credited to customers' checking accounts in 3Q24, 15% higher than in 3Q23.
- **Winter Season - Bariloche:** From June to September, customers had advantages, such as a 500% bonus for purchases with Ourocard made in Bariloche, exclusive partner promotions for ticket purchases, accommodation and car rental, among other benefits.
- **BB Gastronomia:** service that allows BB customers to make reservations or check-ins at restaurants and accumulate points when paying the bill with a Ourocard credit card, all through the BB App.

In the BB Rewards Program points ecosystem, 5.7 million engaged customers were reached, an increase of 25.8% over the same period of the previous year.

## BB Private

BB Private's segmentation model includes two customer profiles, Investors and Mega Producers, and has the largest network of Private Offices in Brazil. In addition to its national capillarity, BB has international structures with services for offshore funds at BB Securities and BB Américas.

The strategy of being close and relevant in people's lives resulted in a sustainable growth of the customer base of 1.1% in the last 2 years, as well as in the evolution of satisfaction, measured by the NPS, approaching the zone of excellence in the quarterly period of September, having surpassed it in the quarterly period of August. In relation to BB Private's Onshore Assets under Management, there was a growth of 11.6% while the market without BB's participation grew 9.0% in the same period, according to Anbima data from September 2024.

The segment's business highlights are:

- **LCA:** growth of 17.6% compared to 3Q23, most of which came from new resources.
- **Total Funds:** there was a volume growth of 13.7% compared to 3Q23.
- **Pension Collection:** up 15% compared to 3Q23.
- **Sustainable Investment Funds:** the portfolio reached the value of R\$1.6 billion in September 2024.
- **Loan Portfolio:** growth of the portfolio balance by approximately 10% compared to 3Q23.
- **Consortium:** the performance in consortia stands out, with a growth in sales volume of 72% compared to 3Q23.

## Awards and Recognitions

International Business Magazine, a worldwide magazine, recognized BB Private as the Best Private Bank in the following categories: I) Best Private Bank in Brazil; II) Financial Advisory for Agribusiness - Brazil and III) ESG Integration - Brazil.

By World Business Outlook, BB Private was recognized as Best Private Bank in the following categories: I) Best Private Bank – Brazil; II) Wealth Management for Women – Brazil; III) Succession Planning – Brazil and IV) Private Bank with the Highest Growth in 2024 – Brazil.

BB Private was listed in the 2024 Leaders League Ranking, in the Wealth Management – Private Bank Brasil category, which recognizes the best strategies in Brazil in wealth and wealth management for Private clients.

Also in 3Q24, the was recognized as the Private Bank of the Year – 2024 (Brazil) at the Global Business Awards 2024, organized by the Corporate Vision vehicle.

## Specialization of Relationship with companies

### Corporate and Large Corporate

The Corporate and Large Corporate companies have their market segmentation defined by the consolidated Gross Annual Revenue (FAB), which is given by the sum of the revenues of all the Group's companies, with revenues for the Corporate Segment ranging from R\$1.3 billion to R\$5 billion and, for the Large Corporate, above R\$5 billion.

BB's relationship strategy with the more than 1400 business groups in this segment aims to provide a complete portfolio of solutions in Corporate & Investment Banking, with advice from highly qualified teams, with national and international coverage, in corporate banking offices, platforms and middle office structure.

The Bank provides customized solutions in credit, cash management and foreign trade, as well as advice on project finance operations related to the energy and infrastructure segments, with a focus on expanding the portfolio of sustainable businesses, in addition to supporting agribusiness, expanding partnerships and agreements in different business segments, supporting capital market operations through the Joint Venture UBS BB, and with active participation of the Securities Portfolio in the trading of securities in the secondary market.

There is a strong presence in initiatives that foster the value chain of customers and increase businesses that promote synergies with Retail, Private and External Network customers.

Historic levels of NPS were reached, reaching the zone of excellence, as a result of assertive strategies and consistent work in intensifying the relationship and providing solutions aligned with the needs and expectations of the Bank's customers.

### Business Wholesale

Focused on Corporate customers with annual revenues of R\$50 million to R\$1.3 billion, the Wholesale Business relationship model seeks to consolidate BB as the bank of medium and large companies in Brazil. The value proposition, delivered to 12.4 thousand groups, is made possible by the qualified financial advice of more than 400 Relationship Managers. These professionals are supported by teams of experts in various areas, such as cash management, investments, insurance, HR benefits, foreign trade, capital markets and structured operations.

One of the strategic aspects of the segment consists of enhancing the Production Chains by means of financial solutions that seek to optimize commercial relations throughout the Business Ecosystem, favoring the expansion of customers' businesses, the leading role and the primacy of BB in the business arena.

As a result of this movement, in 3Q24, there was a 74.3% increase in new active agreements in the Value Chain, when compared to 3Q23. Highlight to the agreements of Fopag, BB Crédito Realiza, BB Agro, BB Pay Conquistas and Anticipation of Supply.

Present in more than 100 cities in Brazil, the service structure of the Business Wholesale model has 83 Corporate Bank Offices, 5 of which are specialized in serving Agribusiness customers, in addition to 55 Platforms. In addition,

it has 3 Business Offices in SP, MG and PR that provide technical and advisory support, assisting in the realization of business and customer demands.

As a result of the customer's centrality in the business, relationship and service experience strategies, the scores obtained in the segment's Satisfaction indicators such as the Net Promoter Score (NPS) and the Customer Satisfaction Score (CSAT) showed, respectively, growth of 2.46 and 0.98 percentage points in relation to the same period of the previous year.

## Micro and Small Enterprises

Through the initiatives developed throughout the quarter, BB reaffirms its commitment to micro and small companies, by offering a wide range of innovative and personalized solutions that go beyond traditional banking. Through initiatives such as Ari and Liga PJ, the Bank promotes the integration between the physical and the digital, increasing customer satisfaction and engagement. With specific strategies for different segments of activity, such as support for female entrepreneurship, the value chain and the use of analytical intelligence, BB consolidates itself as a strategic partner, boosting the growth and sustainability of entrepreneurship and contributing significantly to the country's economic development.

The Bank has a base of 3.1 million MSE customers, of which 1.3 million regularly access the digital channels BB Digital PJ and App PJ. With 4.4 thousand corporate service points, including 215 specialized branches and a middle-office center, the Bank has more than 7.2 thousand professionals dedicated exclusively to the segment, reinforcing the importance of this public. In 3Q24, the Bank expanded the High Varejo relationship model, initially a pilot, to serve customers with revenues between R\$15 and R\$50 million. Another 57 portfolios were activated, totaling 76 portfolios distributed in 7 exclusive branches.

To foster entrepreneurship, the Bank launched two initiatives: the digital service to entrepreneurs, which offers guidance on credit and cash flow, and the PJ Entrepreneur Assistant, a professional specialized in serving entrepreneurs at the Bank's branches. These initiatives are part of a broader strategy that includes supporting female entrepreneurship and value chains.

BB maintains consolidated strategies for female entrepreneurship and value chains. There are 1.3 million companies run by women, representing 42% of the customer portfolio and 37% of the MSE credit balance. The Women at the Top strategy supports women entrepreneurs with financial solutions, health, safety, entrepreneurial education and events.

Special credit lines include the FCO Women Entrepreneurs and the Giro Mulher Empreendedora, with R\$1.2 billion disbursed since launch. The Working Capital Extension Strategy – Entrepreneurial Mother allows the extension of installments during maternity leave.

To support value chains, the Bank provides resources from the 2024-2025 Crop Plan, using analytical intelligence and machine learning to expand corporate agribusiness business. The agribusiness portfolio more than tripled, reaching R\$2.5 billion in September 2024.

In foreign trade, BB continues to support companies with credit solutions and programs such as the 1st Export and 1st Export – Women in the World. The Comex Win-Win strategy increased the Comex portfolio to R\$6.4 billion, an increase of 38.1% compared to the same period of the previous year.

To support the franchising sector, the Bank has the BB Franchise Program, which offers solutions to modernize and expand franchise businesses, with 388 partner brands and 12 thousand account holders, totaling R\$1.2 billion in September 2024, an increase of 43.2% when compared to the same period of the previous year.

Another outstanding initiative is BB's work in the Acredita Program, an initiative of the Federal Government, which supports micro and small companies with credit and debt renegotiation. In all, more than 92 thousand companies were served by the program.

During the last quarter, BB also made progress in the use of artificial intelligence. Ari - Intelligent Recommendations Area, is an innovative solution that uses generative artificial intelligence to offer personalized recommendations to micro and small companies. Based on customer data, Ari analyzes profile, transactions, cash flow and seasonality to generate valuable insights presented in the PJ Panel, BB's platform that centralizes information on payments and receipts, including from other institutions via open finance.

The results are relevant, the companies that received personalized approaches carried out, in the third quarter alone, more than 48 thousand working capital contracts, with the disbursement of R\$6 billion in credit and contracted R\$16 million in business insurance premiums.

From the point of view of digital customer attraction, the expansion of communication on social networks and search channels has boosted the opening of new digital accounts for the micro-enterprise segment. During 3Q24, 17.7 thousand digital business accounts were opened through the BB App, an increase of 82.5% when compared to 3Q23.

The PJ Digital Account is intended for Individual Microentrepreneurs (MEI), Individual Entrepreneurs (EI) and Single-Member Limited Partnerships (SLU). It reinforces the Bank's strategy of digital service to the entrepreneurial segment, offering a simplified flow for opening accounts, in addition to maximum resolution in the self-service of other products and services via the BB PJ App. With the improvements in the PJ Panel, the mark of support for the management of more than R\$751 billion in revenue, from about 194 thousand customers in the MSE segment, was reached in September.

With the objective of boosting the business of companies and generating a virtuous cycle of benefits for consumers on a virtual platform, the new edition of MPE Week was launched in September. The strategy strengthens Banco do Brasil's beyond banking operations, allowing consumers to take advantage of promotions while companies promote their brands, create engagement and increase their sales.

The innovations brought to this year's edition of MPE Week mark the change in level from a commercial action in the format of a showcase to a complete end-to-end e-commerce platform, enabling a complete buying and selling experience. The movement, launched in Brasilia on September 16, was attended by authorities from Banco do Brasil and the Federal Government. It consists of two phases: the first involves the registration of companies and their offers on the [mpeweek.bb.com.br](https://mpeweek.bb.com.br/) hot site <https://mpeweek.bb.com.br/>, from September 16 to 30, and the second invites the general public to take advantage of the promotions registered by the companies until October 31.

# Sustainability

Sustainability is incorporated into BB's strategy, which focuses on taking a leading role in the topic and promoting business and ESG practices, aligning business competitiveness with the generation of positive socio-environmental impact.

BB believes in the ability to develop and offer products and services aimed at a low-carbon and inclusive economy, which can increasingly add quality and innovation to customer service, strengthen corporate governance, ethics management and transparency; to develop human capital, to boost diversity, equity and inclusion and to improve environmental and eco-efficiency practices, ensuring the efficient and sustainable use of natural resources.

## Corporate Sustainability

BB adopts the best Environmental, Social and Governance practices that establish actions to identify and manage risks and opportunities. BB's ESG premises materialized in the Sustainability Plan - BB Agenda 30, which since 2005 has been the main instrument for promoting BB's social, environmental and climate practices, aligned with the Sustainable Development Goals (SDGs) of the United Nations and the Paris Agreement. The Plan was revised in August 2023 and includes 47 actions and 100 indicators for the period 2023-2025.

The commitment to developing business solutions with social, environmental and climate aspects is guided and declared in BB's Social, Environmental and Climate Responsibility Policy (PRSAC), approved in 2022 and revised in 2023. It is also supported by the BB Sustainability Guidelines for Credit, updated in June of this year, expanding the restrictive and exclusion list of activities in which BB does not assume credit risk.

With national prominence in the development of financial solutions and business models that promote the transition to a sustainable and inclusive economy,

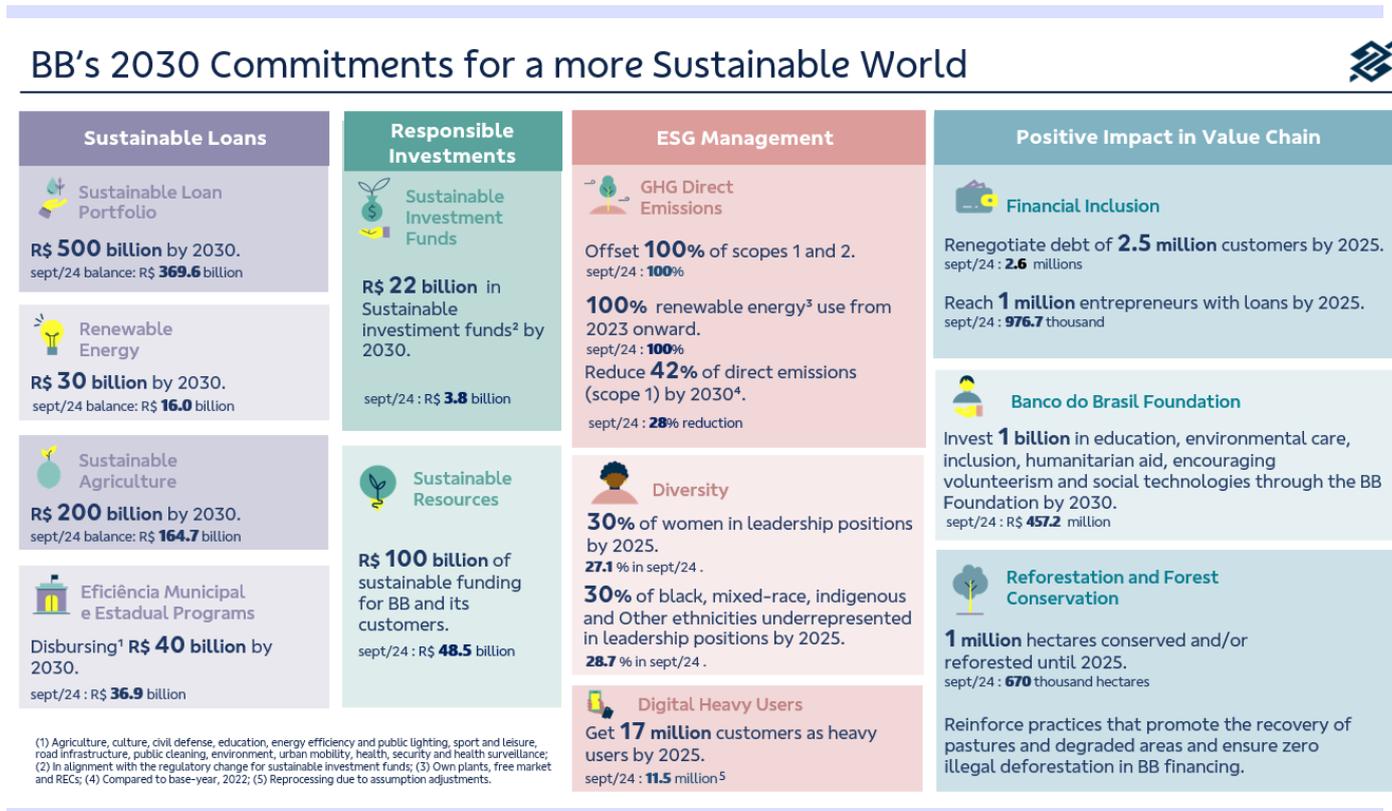

BB considers climate change in its planning and invests in business opportunities for a low-carbon economy. Compliance with sustainability indicators and goals is reflected in the remuneration of the entire workforce, including senior management, which ensures alignment between business, people, social, environmental and climate issues.

Also, in August 2023, BB renewed and revised its commitments for a sustainable future. The BB 2030 Commitments for a + Sustainable World bring objectives on four fronts, including sustainable credit and responsible investment and covering its activities in ESG and climate management and seeking to generate positive impacts in the value chain. BB made the commitment to reach a portfolio of R\$500 billion in sustainable credit, of which R\$200 billion in sustainable agriculture, in addition to R\$30 billion in financing for renewable energies.

Furthermore, BB changed the fundraising objective to sustainable investments, already considering Anbima's new regulation for SI funds. BB also expanded its diversity and inclusion objectives and included forest preservation and reforestation goals.

Figure 58. Commitments to Sustainability

## Sustainable Business Portfolio

In line with BB's long-term commitments and with the objective of helping customers in the transition to a more sustainable economy, at the end of September 2024 R\$369.6 billion in sustainable credit operations was reached, an increase of 9.1% in 12 months. This amount was contracted in credit lines with a strong environmental and/or social focus or to finance activities and/or segments that bring positive socio-environmental impacts to the sectors of renewable energy, energy efficiency, construction, sustainable transport and tourism, water, fishing, forestry, sustainable agriculture, waste management, education, health and local and regional

development, in order to reinforce the transformative role in the country's development and in building an increasingly sustainable future for society.

The Sustainable Credit Portfolio is subjected to an independent assessment, which considers the main national and international ESG taxonomies in classifying customers and credit lines that make up the portfolio. The methodology is continually reviewed to incorporate the best practices and pioneering references of recent years and to add new products with ESG attributes.

Figure 59. Sustainable Loan Portfolio Additionality/Contribution

## Sustainable Funding

BB has intensified its activities in the interbank market, with multilateral institutions and commercial banks, in addition to its agenda with investors in the international capital market. The result is that in the last 36 months alone, more than R\$36 billion in contracted or negotiated external funding was achieved.

The growth in total disbursements in operations with resources raised from multilateral institutions, for example, was 61%. These are businesses that contribute to diversifying the Bank's funding mix and, consequently, generating credit for Brazilians in all regions of the country, with emphasis on ESG operations. Between 2023 and 2024, around R\$10.6 billion was disbursed with multilateral institutions and another around R\$12 billion has been negotiated for disbursement until 2025.

## Carbon Market

BB has reinforced its operations in the voluntary carbon market by supporting clients in the development of projects that generate carbon credits with relevant environmental additionally, offering advice to conduct an inventory of GHG emissions and a possible decarbonization plan, being able to offset the unmitigated emissions.

In addition to selling carbon credits to be used to offset customer emissions, BB offers intermediation opportunities between those who need and those who have carbon credits. Furthermore, it has specific lines to promote projects that contribute to decarbonization, such as renewable energy and energy efficiency.

In 9M24, more than 684 thousand hectares were preserved in carbon projects, using the avoided

deforestation methodology - REDD+. These are projects that combine environmental preservation and income generation for owners, in addition to social projects aimed at riverside, traditional and indigenous communities located in and around these projects.

Aiming to diversify the sources of carbon credit generation, the Biogas Program began in March of this year, which supports the development of projects based on the generation of biogas and biomethane in agriculture. Since the beginning of the program, four projects have been contracted to develop carbon credits using this methodology.

In line with diversification, the first soil carbon contract (ALM) was signed to recover degraded pasture, an area of 1,150 hectares.

## Bioeconomy and Value Chain

BB has been promoting the Bioeconomy, thus ensuring a healthier and more balanced future for future generations. Focusing efforts on promoting the Bioeconomy of the Legal Amazon, since the conservation of biodiversity and carbon stocks in the Brazilian Amazon is essential for global climate regulation, in addition to being essential for the local economy, ensuring social and economic benefits for the region.

Contributing to the development of biodiversity in the country, providing financial resources, specialized services, credit lines with attractive conditions and financial consulting services to assist family producers, associations and cooperatives that work with the Bioeconomy. The objective of the work is to promote the strengthening and productive inclusion based on Bioeconomy projects that respect good environmental practices and local cultures.

Currently, BB is one of the main financiers of forest products and biodiversity, with R\$ 1.4 billion in bioeconomy projects in the Legal Amazon, representing a growth of 30% in six months.

The work in sociobiodiversity is based on five main axes: Forest Restoration and Agroforestry Systems, Low Carbon Agriculture, Connectivity, Forest Bioeconomy and Renewable Energy, in which BB supports the entire value chain, from production to export of bioeconomy products.

## Energy Eco-Efficiency

Considering the "BB 2030 for a more sustainable world" commitment, BB has invested in decarbonization and ensured that 100% of the electricity consumed by BB comes from renewable sources. 441 administrative buildings were migrated to the Free Contracting Environment (ACL), guaranteeing the consumption of clean energy and obtaining accumulated savings of R\$99.5 million. In 2024, another plant was inaugurated in the state of São Paulo, reaching a total of 16 built since 2020. Currently, there are 11 more plants under construction and two in contracting, totaling 27 by the end of 2025.

BB's solar plants have already generated around 87.8 GWh, preventing the emission of more than 32.6 thousand tons of CO<sub>2</sub> into the atmosphere, equivalent to planting a forest of two hundred and thirty thousand trees.

BB launched a new sustainable financial asset, an unprecedented business model in the market. This involves the sale of properties not used by BB with the possibility of payment in carbon credits. 58 rural and urban properties were sold using this new payment method.

In 2024, the packaging process for cards sent via courier was revised to promote more sustainable practices, resulting in a reduction of approximately five tons of plastic waste per year.

## Diversity, Equity & Inclusion

BB remains committed to Diversity. Currently, women represent 44% of the Board of Officers (CD) and 50% of the Board of Directors (CA). Furthermore, two members declare themselves black within the CD and two within the CA. Two members of the CD and two of the CA declare themselves to belong to the LGBTQIAPN+ community.

BB has one of the most diverse workforces on the market, recently endorsed by B3, through iDiversa, an index that recognizes companies that stand out for their diversity and representation of these groups.

The company is committed to promoting a collaborative, inclusive and equitable work environment and has been investing increasingly in actions that promote the increase in the number of women in leadership positions.

In August, the BB Foundation and the Palmares Cultural Foundation signed a Memorandum of Understanding to support the black Brazilian population in areas such as culture, education, work, income and cultural heritage. The partnership aims to structure initiatives for anti-racist education, racial literacy and preservation of Afro-Brazilian heritage, integrating quilombola communities and traditional peoples.

In September, together with other federal state-owned companies, the agreement was formalized to join the Pact for Diversity, Equity and Inclusion (Pacto DEI), coordinated by the Ministry of Management and Innovation in Public Services (MGI), through the Secretariat of Governance of State-Owned Companies. The agreement aims to improve public policies and implement affirmative actions that promote plurality in public companies.

# Digital Strategy

In 3Q24, Banco do Brasil maintained its Digital Strategy, based on a set of initiatives that focus on digital and cultural optimization and transformation.

There are initiatives aimed at preparing and experimenting; accelerating and scaling; expanding and diversifying; caring for and protecting: all with the purpose of delighting customers and generating sustainable results. We are a technological and digital bank!

# Optimization and Transformation

## BB everywhere

In Brazil or around the world: BB is everywhere; a bank for every client, with excellence, in the palm of the customer's hand.

For those who prefer face-to-face service, there's always a BB branch nearby. For those who prefer digital, with a wide range of applications for individuals, companies, the government and agribusinesses, Banco do Brasil is present in the industry, commerce, agriculture and services that drive Brazil and its economy.

Banco do Brasil's technology has always been a pioneer and protagonist, seeking to innovate and exceed customer expectations. BB has been a pioneer in launching various solutions: Mobile and Internet Banking (Web); recycling terminals; multiple and virtual cards; WhatsApp and Pix. This pioneering spirit comes about because BB has technology that transforms.

Big numbers show the robustness of BB's technological park and the solutions that impact the customer experience and enable business and results: BB has already carried out more than 3 trillion IT transactions in 2024. There are more than 300 deployments a day and more than 520,000 automated tests to guarantee the quality of the technological solutions made available and customer satisfaction and recognition.

The BB Super App is one of the best rated on the market, ranking among the 10 most popular apps on the main screen of Brazilians' cell phones. In a process of continuous improvement, in 3Q24 BB implemented in the BB App an exclusive journey for young people, with a modern interface integrated with WhatsApp which, in the pilot phase alone, had more than 2 million accesses specific to this audience. In addition, BB has advanced in artificial intelligence and analytics solutions, seeking to understand the behavior of its customers in order to improve their experience, optimize the product offering and anticipate future needs, thus building a bank for each customer.

Always attentive to the present and the future, BB tests, experiments and adopts, with a robust digital strategy, the latest technological solutions committed to offering excellent customer service.

## Strategy

### Digital Transformation Acceleration Movement

Beyond these technologies, BB is committed to implementing a new way of working, scaling the agile methodology to the entire organization. Establishing a new way of working at BB is, in fact, a cultural transformation movement. A new operating model is being implemented in stages, integrating the technology areas with the business areas and disciplines needed to scale this transformation, such as Agility, Products, CRM, UX, SRE, Software Engineering, Security, AI and Analytics.

BB is currently in the second stage of digital transformation, and in 3Q24 more than 542,000 hours were invested in functional training for digital transformation. This year alone, 1,040 new employees joined BB technology.

This new, evolving operating model is being organized into the so-called Digital Transformation Movement lines - which are made up of multidisciplinary teams working throughout the customer journey. Through the CDC and Crédito Consignado lines, for example, Banco do Brasil has consolidated its role as the leading choice in lending

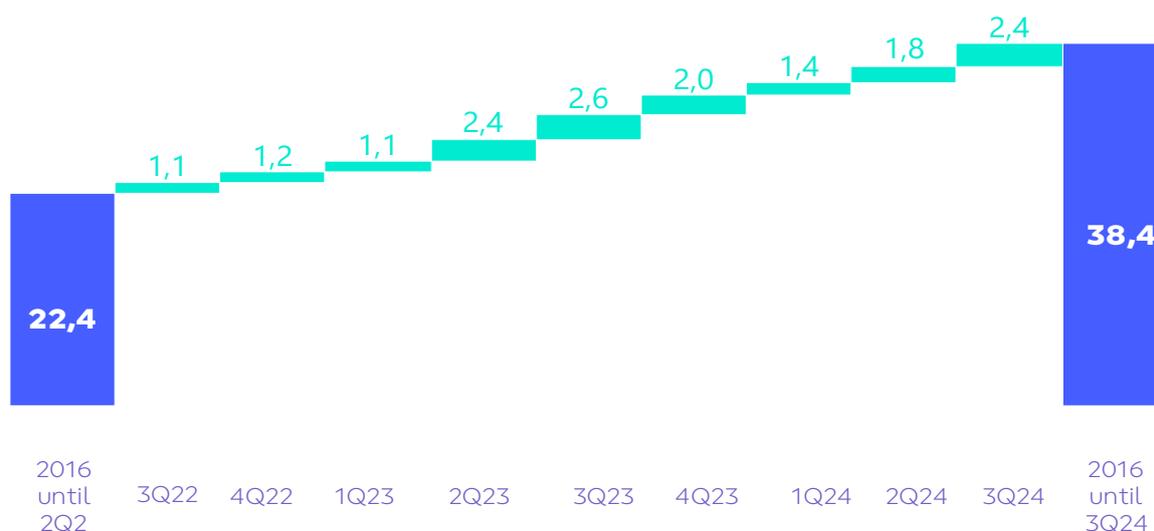

solutions, offering options that meet clients' needs in a sustainable way. In 3Q24, BB improved the customer experience with its Payroll Loans and Portability products and launched a new Personal Loan with Cashback. This innovation not only diversifies its portfolio of offers, but also strengthens Banco do Brasil's salary collection strategy. In addition, BB achieved record disbursements in loans to individuals, reaffirming its commitment to sustainable growth and customer satisfaction.

Other than this line, BB Pay and ITP as well as Shopping BB and Minhas Finanças also validate and show the consistency of this new model.

## Investmentes

BB continues to invest heavily in technology, providing a high-quality digital experience wherever, whenever and however clients want it. From 2016 to 3Q24, BB invested R\$38.4 billion in technology. In 3Q24, R\$2.4 billion was invested to ensure the Digital Transformation Movement, organic growth and continuity of services, while maintaining the premises of innovation, agility, flexibility and reliability of IT solutions.

**Figure 60.** Investments in technology – R\$ billion

## Prepare and Experiment

### Drex

Banco do Brasil is always attentive to market movements and technological trends.

In 3Q24, Banco do Brasil, was selected by the Central Bank to participate in two initiatives in the second phase of the DREX Pilot: i) Tokenized CDB given as collateral for credit operations and ii) Real estate transactions. The use cases are expected to start in 4Q24, with the delivery of a functional prototype featuring embedded privacy solutions and the publication of the developed code.

# Accelerate and Scale

## Digital Channels

At Banco do Brasil, the use of digital channels already accounts for 93.7% of customer transactions, reflecting the global trend of banking digitization.

In 3Q24, there was a 6.1% increase in active digital customers compared to the same period last year, totaling 29.3 million. This growth reflects the focus on offering personalized experiences, making life easier for users and allowing the bank to offer more relevant solutions. The Banco do Brasil App remained one of the best rated in the financial industry in the App Stores, with a rating of 4.6 in Google and 4.7 in the Apple Store.

Also in 3Q24, BB reached a record 24.2 million users on the BB PF App. Digital platforms account for 38.6% of personal loans and 27% of service operations, such as investments, account openings and insurance.

WhatsApp BB is becoming an increasingly relevant channel for the BB strategy. Today, it has 18 million total users, of which 15.5 million BB clients have interacted on the channel. In addition, 98.4% of calls are resolved exclusively by the bot, with no overflow to human service. This efficiency is reflected in the channel's high satisfaction rating, currently 4.18 (out of 5).

## Artificial Intelligence and Analytics

In 3Q24 the Bank continued to evolve its data and AI solutions with the aim of offering its clients delightful experiences, generating sustainable financial results, improving the employee journey and excelling in ESG businesses. The expansion of the use of data has contributed to the advancement of BB's analytical maturity, measured by the IMA (Analytical Maturity Index) both externally, by a market reference institute, and in its own methodology, which has been extensively revised, covering the Training, Experimentation and Solutions dimensions. The aim is to boost data-driven decision making, democratize knowledge and the use of data and AI, and thus transform business and culture supported by robust governance.

In agribusiness, given the need for grain storage and the fact that many producers do not have their own storage facilities, BB developed a pioneering initiative by creating a Machine Learning model to estimate the likelihood of clients financing these structures, providing greater assertiveness in campaigns aimed at using resources, such as those of the Safra Plan.

Regarding the prevention of money laundering, a conversational agent was developed to support analysts with valuable insights in the process of evaluating cases of evidence of money laundering. Based on instructions, internal regulations, public documents and recommendations from the Central Bank, the Money Laundering Assistant (Aladin) works to prepare a suggested text, indicating important points for investigation, to be used as additional input in assessments.

Moreover, in order to modernize and enhance its treasury processes, Banco do Brasil has developed the Intelligent Treasury solution, enabling a holistic view of financial risks for more agile, assertive and data-driven management. Among the models applied are those for hyper-personalization of foreign exchange and derivatives spreads and securities intermediation which, by structuring an analytical base, facilitate and optimize financial offers, resulting in increased revenue.

To help managers of Private and Investor Style portfolios, BB developed Agata, a solution that consolidates data from clients' portfolios, compares it with the recommendations of specialists and provides information on the assets available for trading. With the tool, managers can provide their clients with personalized guidance and information to help them make investment decisions.

## Open Finance

Banco do Brasil is pursuing its strategy of generating value for customers through Open Finance, making use of the structures and resources available. To this end, it is seeking to increase client adherence so that the use cases gain more and more scale, and also to increase the number of solutions based on shared data and payment initiation (ITP).

In 3Q24, BB increased the number of clients with active consent, reaching 2.1 million, of which 1.3 million are already open-ended consents, which contributes to the continuity of the benefits obtained from the use of data and improves the client experience with Open Finance.

BB's main use cases have evolved in scope and results. Credit portability using shared data reached the R\$1.7 billion mark in volume contracted for more than 49,000 clients in 3Q24, with a record disbursement in this modality in August/24.

Other use cases that generate insights and personalized offers for customers also generated results for the Bank, reaching R\$1.3 billion in PF Credit contracting (excluding Portability); R\$4.7 billion in accumulated disbursement of PJ Credit (Working Capital); and R\$3.4 billion in Funding (Investments) since the inclusion of investment data in Open Finance (Sep/2023).

## Banking as a Service – BaaS

In 3Q24, Banco do Brasil advanced in its BaaS strategy to become the main player in the distribution of “as a service” financial products, services and capabilities, reinforcing its commitment to offering a frictionless and complete integration journey for clients, developers and digital partners.

During the same period, BB made available for testing and contracting the PagBB API, a BaaS solution whose main value is to enable batch payments for all audiences, in a practical way, with high performance, and the possibility of customization and 24x7.

These solutions allow companies from various sectors to integrate Banco do Brasil's financial services directly into their platforms, offering a richer and more complete experience for their customers. With this, BB positions itself as a business facilitator, helping other companies to grow and offer high quality financial services.

## Pix

Banco do Brasil is integrating new business opportunities with cutting-edge technology to improve the customer experience. In 3Q24, BB piloted solutions that expand its business opportunities through BaaS and Pix with innovative solutions, such as:

- Contactless Pix: what was already practical has now become even easier. Contactless Pix has come to bring more agility and simplicity to the use of Pix.

- Pix on credit card: with competitive rates, Pix on credit card also becomes another convenience and credit alternative for customers.
- Pix on BB Pay: now, in addition to contracting and integrating the solution directly into the Developers Portal, in a 100% digital flow, the multi-bank payment split solution is now available, which allows companies with several recipients involved in a sale, such as marketplaces, to automatically configure how to split this amount, including indicating accounts from other banks for credit.

Among the APIs made available by BB, Pix has 700 million monthly accesses, highlighting the relevance and opportunities of this payment method.

## BB Pay

BB Pay integrates payment methods and functionalities into a single solution, contributing to the practicality and prosperity of legal entities' businesses.

In 3Q24, the solution transacted more than R\$ 2.3 billion, making more than 3 million payment transactions, an increase of 15% compared to 2Q24. The accumulated volume for the year already exceeds R\$5.8 billion.

The BB Pay API is 100% digital and can be contracted directly through the Developers Portal and provides a series of resources for companies to create simplified and secure payment experiences, redirecting their customers to pay through the BB App or their own sales channel.

In addition to the options for digital sales, a solution was also launched during 3Q24 that also caters for physical sales. Through it, authorized salespeople receive payments via QR Code Pix on behalf of the company, without the need to access a bank account, facilitating payments and controlling receipts with just a cell phone.

## Shopping BB

Shopping BB shows that Banco do Brasil continues to expand its operations beyond core banking, within the concept of a Bank as a Business Platform. By the end of 3Q24, Shopping BB had recorded approximately 25 million transactions generating a volume of more than R\$ 900 million in sales of non-financial products and services to approximately 4.5 million unique customers. At the end of 3Q24, Shopping BB had:

- 171 e-commerces available to all Banco do Brasil account holders, meeting their main needs;
- More than 70,000 SKUs available for the journey fully integrated with the BB app in Click and Buy, where the entire purchase journey takes place in the App, bringing a safer, more complete and fluid shopping experience for the BB client;
- 31 gift card brands, with hundreds of SKUs, distributed among transportation services, delivery, streaming, sports stores, educational games and business solutions, among others;
- Gamer area offering games, accessories and various other gamer products, as well as specific financial services to meet the needs of this audience; and
- Cell phone recharges for the main operators in Brazil

## Minhas Finanças

Minhas Finanças is a personal financial manager integrated with the advantages and possibilities of Open Finance. In 3Q24, the solution continued to be improved to offer the best financial management and advisory experience

on the market. By the end of September, it had reached 6.4 million monthly active customers, promoting effective and uncomplicated financial management in line with people's day-to-day needs. There were more than 178,700 new financial plans, representing growth of 50% in relation to 2Q24. The amount planned in Minhas Finanças totaled R\$1.26 billion and the savings proposal for clients ended the period at R\$442.35 million. Currently, approximately 10% of consents to share information via Open Finance are initiated via Minha Finanças. The tool's historical total of unique users has surpassed the 21 million mark since the launch of Minhas Finanças Multibanco in March/22.

## Expand and Diversify

### BB Ventures

BB Ventures seeks to invest in startups that have strategic synergies with the company. The investment thesis is based on startups that operate in core segments and that are BB's business vocations, such as fintechs, agtechs and govtechs, and that can bring innovative and/or complementary solutions to BB's portfolio of products and services.

The BB portfolio currently has 51 startups invested, 9 of which are in exclusive funds. In 3Q24, BB launched the new Pecuária Mais Sustentável program, with the mission of helping to accelerate the National Program for the Conversion of Degraded Pastures (PNCPP) into Sustainable Agricultural and Forestry Production Systems, which aims to recover a total of 40 million hectares within 10 years.

The initiative was boosted by the strategic synergy between the Bank and startups invested in by BB Ventures, since Traive, iRancho and IDGeo – members of BB's CVC investment portfolio – were integrated into the production chain, with the aim of providing solutions for livestock management, traceability, sustainability and increased profitability for cattle farmers.

## Caring and Protecting

### Cyber Security

Customer trust is Banco do Brasil's most valuable asset. In the digital world, the privacy and protection of personal data, information and cyber security are fundamental to the development of sustainable solutions.

In 3Q24, respecting the right to easy access to information on the processing of personal data, BB responded to more than 1 million requests from data subjects, an increase of approximately 3% in relation to the responses made in 2Q24. Of this total, more than 99% were registered through the BB App.

With investments in qualified professionals, automated solutions and artificial intelligence, the bank protects data, processes and intellectual property, offering a secure digital environment.

For this reason, Banco do Brasil's data privacy, information security and cyber policies govern all processes, people and technologies, protecting personal data in compliance with the General Data Protection Act (LGPD) and other regulations.

# Investment Advisory Services

Banco do Brasil has invested in the evolution of specialized advisory solutions, based on the belief that everyone has a profile for investing. From digital solutions, which give scale and timeliness to the service, to human advice, resolute and close. The regional presence and capillarity of the Bank's service model are competitive differentiators.

Those who invest with BB have access to a complete portfolio, from fixed to variable income. BB's open platform has more than 40 external managers and more than 100 funds. The ecosystem is integrated with Open Finance and Carteira B3, allowing the specialist a global view of the portfolio, favoring strategies that adhere to the needs and profile of each investor.

## Performance pillars

The action fronts involve improving the experience and satisfaction of clients with investment advisory solutions, through hyper-personalized offers made by an unbiased and qualified advisory firm. The aim is to make clients more profitable and retain their loyalty by offering centralized solutions tailored to the needs and profile of each investor. In addition, the aim is to expand the investor client base and increase revenues in a sustainable manner, diversifying the Conglomerate's funding sources.

## Complete, accessible, and competitive portfolio

Offering a complete and diversified portfolio for all investors is a structural pillar for the best customer experience.

In this sense, the expansion of the portfolio based on the ESG strategy continued to be a priority in 3Q24, with Banco do Brasil working to engage its clients to invest in sustainable assets. Thus, the bank offers diversified products that combine profitability with the best environmental, social and governance practices. New funds began to integrate ESG issues into their management, increasing the net equity earmarked for this theme, which led BB to reach a balance of R\$3.7 billion in sustainable investment funds, an increase of 57% compared to 2Q24.

Banco do Brasil is maintaining its strategy of revitalizing the BB Asset investment funds it offers, with initiatives such as merging funds with similar characteristics (simplification), reducing management fees (profitability), launching new sophisticated funds (diversification), opening funds in the Estilo segment to retail clients and reducing entry fees.

To strengthen the Bank's position in Retail and democratize access to products with investment strategies abroad, opening up the range of investment opportunities for all types of profile, we

highlight the availability to the general public of funds that were previously restricted to qualified investors.

The strategies demonstrate the Bank's commitment to distributing investment funds that meet the highest levels of excellence and international management standards, which are achieved, among other ways, through partnerships with highly credible management houses in the global and local markets.

Given the current market conditions, with the Selic rate continuing an upward trend, there has been an increase in the allocation of resources in post-fixed products, linked to the CDI, such as fixed income funds and public and private bonds. In this context, fixed-income funds grew by R\$24.0 billion in the last 12 months, representing a 20.3% increase when compared to the same period in 2023.

Regarding LCA, changes in regulation at the beginning of 2024 changed the dynamics and investor interest in this product. Despite the challenging regulatory scenario, BB has accumulated growth of 5.8% in the last 12 months, a factor which, in addition to contributing to the volume of the portfolio, reinforces the Bank's leading role in supporting agribusiness.

**Figure 61.** Evolution of Fixed Income and LCA Funds' NAV (Base 100) – Retail and Estilo Segment

The attention given to the interests of investor clients in achieving their goals when investing in BB is made tangible by the strategy of offering products allocated in customized suggested portfolios, according to suitability ascertained in the Investor Profile Analysis (API) questionnaire, which seeks to maximize the risk-return ratio between assets, also considering analysis of economic scenarios.

Thus, in addition to the suggested portfolios aimed at the conservative, moderate, bold and aggressive profiles, specific portfolios of shares, Real Estate Funds, Pension Funds, Treasury Direct and BDRs are also available, which complement the asset allocation vision.

**Figure 62.** High Income Retail Products Balance (Base 100)

The diversification strategy extends to other products, such as CRIs, CRAs and Debentures, as well as funding products from other institutions. The balance of CRAs, CRIs and Debentures in the High-Income segment reached R\$10.7 billion, an increase of 15.2% in relation to 2Q24 and 66.3% over the last 12 months.

## Human Advisory

The availability of more sophisticated and accessible products is combined with investment advice, which aims to meet clients' interests and objectives and thus promote sustainable results. Managers and specialists are evaluated by indicators that measure customer satisfaction and the balance invested, regardless of the products, which reinforces the investor-centered vision and impartiality in investment recommendations.

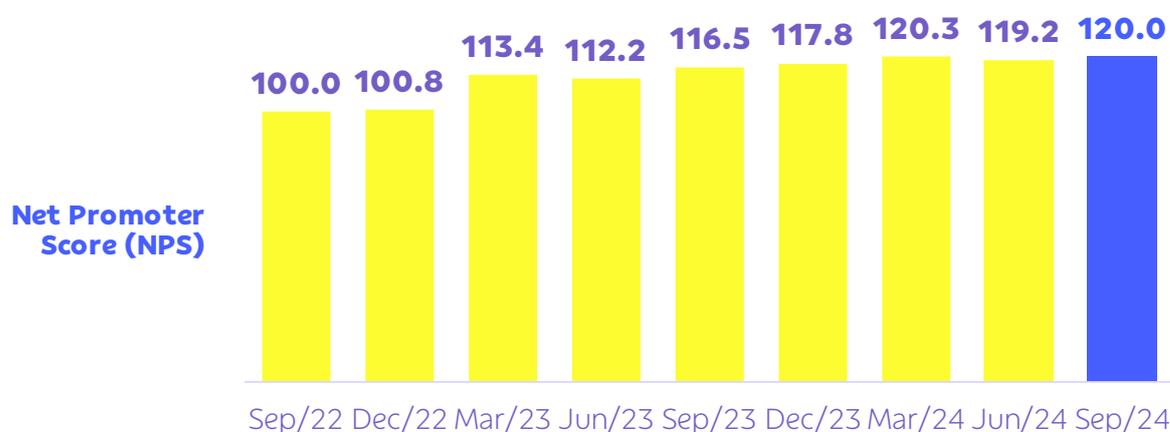

All BB branches have professionals certified by Anbima (CPA-10 and/or CPA-20) to offer investment products. In all, there are more than 46 thousand certified professionals in the institution. The employees who work in customer service are supported by automated tools to assist in offering products and personalized investment portfolios, according to the investor's profile and objectives.

To boost business with investors, the Bank's relationship model includes specialized advice for all clients classified in the investor niche, i.e. those with at least R\$150,000 in investments. Advice is provided by investment specialists certified with CEA (ANBIMA Certification) and CFP® (Certified Financial Planner), covering more than 1 million clients.

BB currently has around 1,400 professionals working in these structures. In addition to specialized services for PF High Income clients, BB also provides investment advice for Agro, RPPS (Private Social Security Regimes), Wholesale PJ and Micro and Small Companies.

The constant improvement of the model has led to a 20% increase in satisfaction levels over the last two years, demonstrating the efficiency of its objective of providing quality advice to investors.

**Figure 63.** NPS High Income Investors (Base 100)

## Digital Solutions

Banco do Brasil has been working intensively on the development of self-service solutions. Combining the use of agile methodologies with the application of algorithms and investor profile analysis, digital solutions bring precision to the suggestion of portfolios suited to the client's objectives and moments of life, in addition to allowing the scalability of investment advice to the entire Banco do Brasil retail public.

The development of Robot Advisor has made it possible to automate investment advice on a large scale. The solution, called "Investing with a Purpose",

attracted more than R\$4.5 billion in funds, 38% of which were invested in products that help diversify the portfolio.

As the forerunner of the Robot Advisor, the Bank also has the Investment Simulator, an important solution for expanding the investor base and promoting financial education among BB's clients.

The two digital advisory solutions show solid commercial results, as well as simplifying access to diversification products, according to the following data.

**Figure 64.** Volume Contracted by Robot Advisor and Investment Simulator (Accumulated) – R\$ billion

## Investment Platform

Launched in 2023, BB has been perfecting its new investment platform, based on its three fronts: i) InvesTalk Hub; ii) Digital advice via WhatsApp; iii) BB Investments app.

InvesTalk is a content hub that offers society (clients or not) articles, videos, podcasts, reports and analysis on the economy, the market, financial education, and suggestions on where and how to invest, as well as special sections on sustainability and technology. The content shown is curated by BB specialists so that the material is relevant and contributes to people's education. In partnership with Broadcast, InvesTalk

also provides real-time information, quotes and has a team of journalists to produce exclusive stories.

InvesTalk can be accessed by anyone at [investalk.bb.com.br](https://investalk.bb.com.br). In 3Q24 this platform reached 38.4 million views, 13.1 million visits worldwide and more than 8.7 million unique visitors.

On the second front, Banco do Brasil is offering the BB Assistant on Whatsapp, which aims to broaden access to investment advice. BB clients can: discover their investor profile; check the balance and statement of their financial investments; invest their

money in Treasury Direct and investment funds; join Rende Fácil; access solutions such as "Simulador de Investimentos" and "Investir com um Objetivo", as well as access InvesTalk content.

This digital advisory solution in one of the main messenger channels in the world allows the client an integrated journey between their "day to day" and the world of investments, contributing to the inclusion of the theme in society and provides business scalability for BB.

On the third front, Banco do Brasil offers its investment solutions on two main digital channels: app BB and app Investimentos BB. In order to deliver the specialization required by clients, BB has been perfecting the new version of the app, transforming the BB Investments app into an advisory and relationship platform for investors. This version incorporates three important axes into a single channel, improving usability for clients: i) Consolidated Investment Management; ii) Access to content and news from the InvesTalk Hub; and iii) Specialized Advice - Human and Digital.

Consolidated investment management allows clients to monitor the position of their asset portfolio at B3 or even the balance of savings, funds, bank fixed income and private credit, treasury bonds and variable income at other banks, a vision that has been expanded with the advancement of Open Finance.

Since September 2024, BB has pioneered the implementation, together with B3, of the possibility

for investor clients to follow the variable income earnings of the B3 Portfolio directly in the BB Investments app. The solution allows access to the calendar for receiving dividends, interest on capital (JCP) and other income, as well as tracking the evolution of these proceeds.

Integration with the InvesTalk Hub allows clients to access information relevant to their investment decisions in a logged-in environment, speeding up the process for clients and increasing BB's loyalty.

Through digital advisory solutions, clients have the option of receiving product recommendations and suggested portfolios directly on their cell phones, 24 hours a day, 7 days a week. For clients who want to contact a human specialist, it is possible to use a tool integrated into the app to contact the investment specialist directly, providing the client with a fluid journey between digital and human.

Finally, the BB Radar Strategy. An innovation in the financial market, this tool alerts clients to stock market trading opportunities. In addition, it allows the client to command buy and sell orders for the assets in an intuitive and efficient way, by automatically filling in the orders with the parameters of the opportunity. The new feature is available to all investors. Those who subscribe to the solution on the BB App will receive free recommendations from BB-BI's market analysts.

# Glossary

**ADB:** Average Daily Balance.

**Adjusted Net Income:** net income excluding one-off items.

**ALLL Extended View:** corresponds to the credit risk (according to Res. Bacen 2,682/99), added to the amounts of credit recovered from losses, in addition to discounts granted and impairment losses.

**Annualized Return on Equity:** ratio between the net income and the average of shareholders' equity, excluding non-controlling interest. The ratio is annualized.

**Average Risk:** required provisions over classified loan portfolio ratio.

**Classified Loan Portfolio:** sum of the credit transactions, financing, leasing, other credit with loan characteristics and acquired loan portfolio.

**Classified Loan Portfolio Coverage Ratio:** ratio between the balance of provisions and the balance of operations due for more than 90 days of the classified loan portfolio (total, individuals, companies, agribusiness or renegotiated).

**Clients Spread:** is the result of the managerial financial margin with clients ("margin with clients") divided by the respective average balances of asset credit, private securities and similar.

**Commercial Funding:** it includes Total Deposits, Agribusiness Letters of Credit - LCA, Mortgage Bonds - LCI and repurchase agreements transactions with private securities.

**Correspondent Services:** are companies contracted by financial institutions and other institutions authorized by the Central Bank of Brazil to provide services to clients and customers of such institutions.

**Cost of risk:** ratio between the net ALLL expenses and the average classified loan portfolio of the period.

**Cost to Income Ratio:** productivity indicator that measures the relation between administrative expenses and operating revenues.

**Credit Risk:** Allowances for loan and lease losses (ALLL) expenses, as Res. Bacen 2,682/99.

**Credit Spread:** is the result of the managerial financial margin of credit (total, individuals, companies and agribusiness) divided by its respective average balances. Credit spreads do not consider private securities and deals acquired and/or contracted by the Bank's branches/subsidiaries abroad. Companies credit spread, different from the total credit spread, does not consider government portfolio.

**Administrative Expenses Coverage:** ratio between fee income and administrative expenses.

**Personal Expenses Coverage:** ratio between fee income and personal expenses.

**Domestic Loan Portfolio:** (classified or expanded) loan portfolio, considering only the operations carried out in the country (Brazil).

**Earning Assets:** reflects the sum of all assets that produce a financial return to the institution.

**Expanded Loan Portfolio:** it corresponds to the classified loan portfolio added of the private securities and guarantees transactions.

**Extraordinary Items:** relevant revenues or expenses registered in the Income Statement that are originated from transactions that are not part of the day-to-day business of the Bank and/or refer to items or events that happened in previous years and impacted the current period.

**Guarantees:** transactions where the BB ensures the payment of its client's obligations towards third parties.

**Impairment Losses:** grouping of accounts that record permanent losses in bonds and securities, expenses with provision for impairment in bonds and securities and the negative result from sales or transfers of financial assets that were written off by the selling or transferring institution.

**Institutional Funding:** includes funding raised from to institutional investors, with the use of instruments such Senior Debt, Financial Letters and Capital and Debt Hybrid Instrument (IHCD).

**Interest Bearing Liabilities:** includes the sum of all liabilities that carry an expense for the institution.

**Managerial Net Interest Income:** is calculated by the sum of the Margin with Clients and the Margin with the Market.

**Margin with Clients:** is formed by the performance of (I) active (credit, private securities and similar) and (II) passive (commercial funding and similar) operations sensitive to spreads. The calculation of the managerial margin considers, in the asset/investment part, the interest income deducted from the opportunity expense and, in the liabilities/funding part, the difference between the interest expense and the opportunity income.

**Margin with the Market:** is formed by (I) the result of asset and liability management (ALM) regarding the mismatch of terms, interest rates, exchange rate (and others), (II) treasury trading results, (III) All Banco Patagonia's NII.

**Micro, Small and Middle Market Companies (MSME):** companies with up to R\$200 million in annual revenues

**Net Interest Income (NII):** it is calculated as the difference between income and expenses from financial intermediation considering the reallocations. It represents the performance of financial intermediation transactions before ALLL.

**Net Interest Margin:** net interest income divided by the average balance of earning assets.

**NPL +90d:** ratio between the balance of more than 90 days overdue operations and the loan portfolio balance.

**Opportunity Expenses/Revenues:** Opportunity expense is defined, In the case of fixed rate transactions, considers the funding cost at the time of the contracting, and it is not affected by the variation in the Selic rate and/or Term Structure of Interest Rates (ETTJ). The loan's opportunity cost allocated to Individuals and companies with free resources can be backed by TMS (Average Selic Rate) and/or ETTJ. The opportunity cost for the agribusiness portfolio and other-directed resources is calculated based on the source of funds and the need to make any compulsory investment with a portion of the funds from the relevant source. Opportunity income, similarly, it is predominantly post-fixed and based on the TMS of the period.

**Organic Loan Portfolio:** Loan Portfolio (classified or expanded) excluding the acquired portfolios.

**Overdue Renegotiated Loan Portfolio:** it comprises the renegotiated loans for debts composition due to delay in payments by customers. Furthermore, it does not comprise the rollover of agribusiness loans made in accordance with Federal Regulation.

**Private Securities:** transactions characterized by the acquisition of securities (commercial paper and debentures) mainly issued by private companies.

**Reallocations:** adjustments made in the Corporate Law Income Statement to provide a better understanding of the business and the company's performance.

**Structural Hedge:** transactions made by the Bank to protect itself against variations in value of assets kept abroad in foreign currency.

**Tax Hedge:** transactions made by BB on top of the Structural Hedge to mitigate the effects of taxation

on gains and losses made through the Hedge position.

## Banco do Brasil's Capital Regulation:

**Additional Tier 1 Capital:** Hybrid Capital and Debt Instruments that meet the CMN Resolution nº 4,955/21 requirements can make up Tier 1, as long as they are authorized by Bacen.

**Common Equity Tier 1:** Shareholders' Equity and result, deducted the Prudential Adjustments.

**Minimum Required Reference Equity (MRRE):** is the equity required (capital volume required) from institutions, conglomerates, and other institutions authorized to operate by Bacen, to face the risks to which they are exposed due to the activities they are involved in, and it is defined by CMN Resolution nº 4,958/21.

**Prudential Adjustments:** the Regulatory Adjustments are deductions from the Common Equity Tier 1 Capital of elements that can degrade its quality due to their low liquidity, difficulty to evaluate or reliance on future profits to be realized.

**Reference Equity (RE):** sum of Tier 1 with Tier 2.

**RWA:** risk-weighted assets are used to determine the minimum amount of regulatory capital that must be held by banks to maintain their solvency.

**RWACPAD:** assets weighting related to credit risk exposures.

**RWAMPAD:** assets weighting related to market risk exposures, subject to the calculation of capital requirements under standardized approach.

**RWAOPAD:** assets weighting related to operational risk exposures.

**Tier 1:** sum of Common Equity Tier 1 and Additional Tier 1 Capital.

**Tier 2:** subordinated debt instruments that meet the CMN Resolution nº 4,955/21 requirements can make up Tier 2, as long as they are authorized by Bacen.

## **Independent auditors' limited assurance report on the supplementary interim consolidated financial information included in the Management Discussion and Analysis Report**

To the Shareholders, Board of Directors and Management of  
**Banco do Brasil S.A.**  
Brasília - Federal District

### **Introduction**

We have been engaged by Banco do Brasil S.A. (the "Bank") to submit our limited assurance report on the process on the compilation and presentation of the interim consolidated financial information included in the Management Discussion and Analysis Report of Banco do Brasil S.A. for the three-and nine-months period ended September 30, 2024, in the form of an independent limited assurance conclusion that, based on the work performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Bank's assertion that the compilation and presentation of the interim consolidated financial statements included in the Management Discussion and Analysis Report is not fairly presented in all material respects, in accordance with the individual and consolidated financial statements prepared in accordance with the accounting practices adopted in Brazil, applicable to the institutions authorized to operate by the Central Bank of Brazil for the three-and nine-months period ended September 30, 2024 and to the information referred to in the Summary Consolidated Financial Information section of the Bank's Management Discussion and Analysis Report ("supplementary accounting information") prepared by and under the responsibility of the Bank's Management, presented in this report.

Supplementary accounting information has been gathered and presented according to the individual and consolidated financial statements prepared in accordance with the accounting practices adopted in Brazil, applicable to the institutions authorized to operate by the Central Bank of Brazil for the three-and nine-months period ended September 30, 2024, reviewed by us in accordance with the Brazilian and international review standards, on which we issued an review report on November 13, 2024.

Supplemental accounting information gathered includes reallocations in accordance with the Bank's management's interpretations and judgments, according to the criteria for preparation described in the Summary Consolidated Financial Information section of the Management Discussion and Analysis Report.

#### **Responsibilities of the Bank's Management**

Management is responsible for the preparation and presentation of these individual and consolidated financial statements for the three-and nine-months period ended September 30, 2024, prepared in accordance with the accounting practices adopted in Brazil, applicable to the institutions authorized to operate by the Central Bank of Brazil, as well as for the compilation and presentation of the interim consolidated financial information included in the Summary Consolidated Financial Information section of the Bank's Performance Assessment Report, whose amounts are obtained from the Bank's individual and consolidated financial statements reviewed by us or from the Bank's accounting records. The Bank's management is responsible for designing, implementing and maintaining significant internal controls that management determines is necessary to enable such information to be free from material misstatement, whether due to fraud or error.

#### **Responsibility of independent auditors**

Our responsibility is to express a conclusion on the compilation and presentation of the interim consolidated financial information included in the Summary Consolidated Financial Information section of the Bank's Management Discussion and Analysis Report for the three-and nine-months period ended September 30, 2024, prepared by the Bank, and to prepare a report in the form of an independent limited assurance conclusion based on the evidence we obtained.

We conducted our engagement in accordance with NBC TO 3000 – “*Trabalho de Asseguração Diferente de Auditoria e Revisão*” and ISAE 3000 – Assurance Engagements Other Than Audits or Reviews of Historical Financial Information issued by the Federal Association of Accountants and the International Auditing and Assurance Standards Board, respectively. These standards require that work be planned and procedures performed in order to obtain a significant level of assurance about whether the compilation and presentation of supplementary interim consolidated financial information included in the Summary Consolidated Financial Information section of the Bank's Management Discussion and Analysis Report is properly presented in all material respects, in accordance with the individual and consolidated financial statements prepared in accordance with the accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Central Bank of Brazil for the three-and nine-months period ended September 30, 2024, and with the information referred to in the Summary Consolidated Financial Information section of the Bank's Performance Assessment Report, as the basis for our limited assurance conclusion.

KPMG Auditores Independentes Ltda. ("KPMG") applies the Brazilian Standard on Quality Management (NBC PA 01), which requires the firm to plan, implement and operate a quality management system, including practices or procedures related to compliance with ethical requirements, professional standards and applicable statutory and regulatory requirements. We have met the independence and other ethical requirements of the Accountant's Professional Code of Ethics and Professional Standards (including Independence Standards) based on key integrity, objectivity, professional competence and due zeal, confidentiality and professional behavior.

The procedures selected depend on our understanding, including the assessment of the risks of material misstatement of the supplementary consolidated financial statements, whether due to fraud or error.

The procedures applied in a limited assurance engagement vary in terms of nature and timing, and their extent is smaller than a reasonable assurance engagement. Therefore, the level of assurance obtained from a limited assurance engagement is significantly lower than the assurance that would have been obtained if a reasonable assurance engagement had been carried out. Therefore, we do not express an audit or reasonable assurance opinion on the compilation and presentation of the supplementary interim consolidated financial information included in the Summary Consolidated Financial Information section of the Report on the Analysis of Performance of the Bank for the three-and nine-months period ended September 30, 2024. Our conclusion does not include aspects related to the forward-looking information included in the Management Discussion and Analysis Report, nor does it provide any assurance if the assumptions used by management provide a reasonable basis for the estimates presented. Therefore, our report does not provide any type of assurance about the scope of future information (such as goals, expectations, and future plans) and descriptive information that may be subjectively evaluated.

### **Conclusion**

Our conclusion was based on and is limited to the matters described on this report.

We believe that the evidence that we have obtained is sufficient and appropriate to provide a basis for our conclusion.

Based on the procedures applied and the evidence we have obtained, nothing has come to our attention that causes us to believe that the compilation and presentation of the interim supplementary consolidated financial information included in the Management Discussion and Analysis Report has not been properly prepared, in all material respects, in accordance with the individual and consolidated financial statements prepared in accordance with the accounting practices adopted in Brazil, applicable to the institutions authorized to operate by the Central Bank of Brazil for the three-and nine-months period ended September 30, 2024, and with information referred to in the Summary Consolidated Financial Information section of the "Opening of Reallocations" section of the Bank's Management Discussion and Analysis Report.

Management  
Report

September 30,  
2024

## Dear reader,

In the first nine months of 2024, we recorded net profit of R\$26.7 billion, an increase of 6.9% compared to the same period in 2023, supported by the successful execution of our strategic planning. We have continually worked to deliver a Banco do Brasil for each of our customers, with close relationships and phygital experience. In this way, business generation is done in a sustainable way and the return to our shareholders and society is an organic consequence of our way of being BB.

In addition to a result that remunerates shareholders and supports credit growth, with R\$63.4 billion in value added to society, when we consider taxes, salaries, dividends and other components. The classified portfolio exceeded R\$1.0 trillion, with important developments in all the segments in which we operate.

In the Individuals portfolio, emphasis on payroll loans, which reached R\$137.2 billion. In the companies segment, both MSMEs and large companies and the government segment showed growth, demonstrating our commitment to these segments.

In agribusiness, we highlight the positive performance of the expanded portfolio (13.7%), compared to the same period of the previous year. In the 2024/2025 Harvest Plan, we disbursed R\$63.4 billion. Furthermore, there was a disbursement of R\$11.0 billion in the agricultural value chain, totaling R\$74.4 billion. There were

more than 200 thousand operations contracted in the period in more than 4.8 thousand municipalities across the country, 69.8% of which were destined for family farming (Pronaf) and medium producers (Pronamp).

In September, we were protagonists in leading the sustainable economy agenda and presenting BB's strength in the ESG agenda at the UN Global Compact and Climate Week events, both in New York/USA. We highlight BB as the main hub for attracting external resources for green initiatives in the country, as well as being pioneers in bioeconomy and carbon credit solutions, with these topics already advancing in our portfolio.

Furthermore, on the same occasion, we promoted the first edition of Investor Day in the USA, an event that brought together relevant institutional investors, market analysts and other financial market professionals.

In 3Q24, we continued to stand out for the reduction in complaints received in the Central Bank Complaints Ranking. We maintained 14th place among 15 financial and payment institutions, continuing with our best result for the 9th consecutive quarter.

We invite you to learn more about our deliveries on the following pages.

Good reading!

# Consolidated Financial Statements Results

We achieved net profit of R\$26.7 billion in 9M24, reflecting the good performance in credit, funding, services, conglomerate businesses and focus on cost control. Our classified credit portfolio exceeded R\$1.0 trillion, growth of 11.1% compared to September/23. The portfolio for individuals grew 7.5%. The Corporate portfolio, without agricultural companies, grew 10.4%, with emphasis on the balance with Large Business clients, which increased to R\$132.3 billion. Credit operations in agribusiness, with small, medium and large rural producers and with companies operating in the segment, grew by 12.2% in the same period. The Basel Index reached 14.66% and the Core Capital Index ended September at 11.77%.

To find out more details about the profit and loss items for the period, see the Explanatory Notes contained in the Financial Statements and the Performance Analysis Report.

## Shareholders

We have a base of 1.4 million shareholders, 98.9% of which are individuals. At the end of September, our shareholding composition was distributed between 50% of shares held by the Federal Union, 49.6% in free float and 0.4% in treasury. Local investors held 76% of the shares, and foreigners 24%. Our shares (BBAS3) represented 3.5% of the Ibovespa in the last four months. In the last 12 months (September/23 to September/24), our shares appreciated by 26.2%.

The Extraordinary General Meeting, held on 02/02/2024, approved the split of 100% of BB's shares (BBAS3), thus attributing 01 (one) new share for each share issued. The base date for the split to be effective was April 15, 2024.

### Shareholder Remuneration

For the 2024 financial year, Banco do Brasil's Board of Directors approved the proposal to increase the distribution of its profit, from 40% to 45%, in the form of dividends and/or Interest on Own Capital (IOC). The decision was taken based on the guidelines contained in the Specific Shareholder Remuneration Policy, in particular, the Bank's future results, its financial condition and cash needs, the Risk Appetite Statement, its capital goals and projections, perspectives of current and potential markets, existing investment opportunities and operational capacity. The total allocated to shareholders in 9M24 was R\$11.4 billion and the value per share was R\$2.208.

## Corporate Strategy

Our Corporate Strategy (ECBB) has a five-year time horizon and is reviewed every year.

ECBB 2024-2028 has the following strategic objectives: (a) provide the best experience to customers at all times; (b) create value and generate sustainable results; (c) be a protagonist in sustainability and in the promotion of business and ESG practices; (d) evolve our way of working to accelerate digital transformation and innovation; and (e) have people engaged with BB's values and promoting collaboration, respect and inclusion.

Our purpose is "To be close and relevant in people's lives at all times".

Aligned with our purpose and reinforcing the Company's organizational identity, we improved our values to make the principles that guide our

actions and inspire our team's deliveries even clearer, with an emphasis on diversity. Thus, our values are: Proximity, Innovation, Integrity, Efficiency, Commitment to Society and Diversity.

As a result of ECBB, in February 2024, initiatives distributed across nine major fronts, called Strategic Movements, were prioritized, which, in addition to accelerating the achievement of objectives, differentiate BB in relation to the market to achieve long-term success.

These movements address major challenges that surround the National Financial System related to topics such as digital assets, bank as a service, operations in value chains, hyperpersonalization, payment methods, ESG businesses, among others.

## Clients

The customer is at the center of our strategy and we are focused on the hyper-personalization of our relationships with the aim of delivering a bank for each customer and considering the 360° vision of each one of them.

We have been working with agile marketing and CRM has been a great ally. In 9M24, 2,800 personalized strategies were carried out, which generated approximately 475 million customer contacts. More than 8,800 clusters of individuals and legal entities were identified, based on analytical intelligence, using predictive, behavioral and business propensity models.

Furthermore, during the 9M24, 69.8% of the total volume disbursed in credit to individuals was made by customers approached in commercial strategies in targeted channels. In total, there were 63.5 million interactions in the period to offer credit, and 10.3 million deals were completed, including digital and physical channels.

For micro and small companies, we have expanded the services of our conciliation tool within the PJ Panel. Currently, we offer all payment and receipt information in one place, both from BB and other institutions, including sales via Cards and Pix, which allows transactions to be reconciled using any machine on the market. All this with the assistance of ARI (Intelligent Recommendations Area), which brings insights that support the day-to-day management of MSEs and reached 47 thousand unique users with 300 thousand messages and 38 types of recommendations.

It is worth highlighting our work with female entrepreneurship. We have specific credit lines such as FCO Mulheres Empreendedoras, Giro Mulher

Empreendedora and Working Capital Extension – Mãe Empreendedora. There are 1.3 million companies run by women, representing 42% of total customers and 37% of the balance of the MSE credit portfolio.

The business relationship with Corporate and Large Corporate companies is carried out in a specialized manner. Currently, there are more than 1,400 business groups supported by highly qualified teams, with national and international coverage, in corporate banking offices, platforms and middle office structures.

Furthermore, we continue to evolve on the Liga PJ platform (ligapj.com.br), a place where any entrepreneur, whether a BB account holder or not, can access content ranging from information to start a business to a more mature moment for the company, expanding its sales. We reached 27 thousand unique customers with more than two million visits.

To strengthen the financial education of children and adolescents, in August 2024, we launched “Meu Cash”, a solution developed for the BB Cash account that allows customers to know their expenses in different categories to plan financially. There are already 1.1 million customers between 0 and 17 years old, with around 30% of all children and teenagers using BB Cash. These customers show engagement above 95%, with card usage above 70% and transactions via Pix above 67%. Furthermore, 30% of these customers have some type of financial investment, with an average ticket of R\$4,400.

# Technology and Innovation

Our ability to innovate over the years is one of the factors that has contributed to the construction of our history and the sustainable results we have achieved.

Our technology is structured on enabling platforms, including Analytics, Mobile, Artificial Intelligence, LowCode and Cloud, through which we build Banco do Brasil's products and services. This management model allows us to accelerate and scale new technologies, standardize and provide greater quality to deliveries, positively impacting our ability to respond more quickly to market changes and the needs of our customers.

This strategy is complementary to the continuous escalation of a more integrated work model between all areas of BB, which continues to expand, supported by our cultural transformation. We have solutions that impact the customer experience and enable business and results. We carried out more than 3 trillion IT transactions in 2024. Over 300 deployments per day and in terms of automated tests, there were more than 520 thousand, with the purpose of guaranteeing the quality of the technological solutions provided, customer satisfaction and recognition.

## Artificial Intelligence and Analytics

We enable new businesses and innovations through the Companies Value Chain solution, we bring together suppliers and buyers to conduct good

and profitable business for all parties. The tool provides relevant elements to support business, such as: links between companies; unique suppliers and buyers; amounts moved by companies; resulting in a database with 3.6 billion records. Since the implementation of the solution, in July/2024, BB has directly benefited more than seven thousand anchor companies, including suppliers and buyers.

## PIX

We integrate new business opportunities with cutting-edge technology to improve the customer experience. In this third quarter, for example, we carried out a pilot of solutions that expand your business opportunities through BaaS and Pix with innovative solutions, such as: Pix by approximation, Pix on credit cards, Pix on BB Pay.

## Digital Channels

The use of our digital channels accounts for 93.7% of customer transactions, reflecting the global trend towards banking digitization.

We reached a record 24.2 million users on the BB App in the individual segment. Digital platforms account for 38.6% of personal credit and 27% of service operations, such as investments, account openings and insurance.

The BB Super App is one of the best rated on the market, positioned among the 10 most popular apps on the home screen of Brazilians' cell phones. In a process of continuous improvement, this quarter, BB implemented an exclusive journey for young people on the BB App, with a modern interface integrated with WhatsApp that, in the pilot phase alone, had more than two million accesses specifically from this audience.

BB WhatsApp reached 18 million total users, with 98.4% resolution of service requests via bot, without overflow to human service.

BB Pay integrates payment methods and functionalities in a single solution, contributing convenience and business opportunities for legal entities. In 3Q24, the solution transacted over R\$2.3 billion, completing more than 3 million payment transactions, a 15% increase compared to 2Q24. The accumulated volume for the year already exceeds R\$5.8 billion.

#### Open Finance

We increased the number of customers with active consent in Open Finance, reaching 2.1 million, of which 1.3 million are already consents without expiration date, which contributes to the sustainability of the benefits obtained from the use of data and improves the customer experience with Open Finance.

Our main use cases have evolved in scope and results. Credit portability using shared data reached the mark of R\$1.7 billion in contracted volume for more than 49 thousand customers this quarter, with a historical record of disbursements in this modality in August.

#### DREX

In line with Banco do Brasil's pioneering role in financial market innovations, in 3Q24 BB, in a consortium with other institutions, was selected by the Central Bank to participate in two initiatives in the second phase of the DREX Pilot: i) tokenized CDB given as collateral for credit operations and ii) Real estate transactions. The pilot foresees the delivery of a functional prototype with an embedded privacy solution and publication of the developed code by June/25.

#### Digital Security

We invest in qualified professionals, automated solutions and artificial intelligence to protect data, processes and intellectual property, offering a secure digital environment.

In 3Q24, respecting the right to easy access to information about the processing of customers' personal data, BB responded to more than 1 million requests from data subjects, an increase of approximately 3% compared to the services provided in the previous quarter. Of this total, more than 99% were registered through the BB App.

## ESG (Environmental, Social and Governance) Agenda

We are a reference in adopting the best Environmental, Social and Governance practices, establishing actions to identify and manage risks and opportunities. Our ESG commitments are carried out in the Sustainability Plan - Agenda 30 BB, which since 2005 has been our main instrument for promoting social, environmental and climate practices, aligned with the Sustainable Development Goals (SDGs) of the United Nations (UN) and the Paris Agreement. The Plan was revised in August 2023 and includes 47 actions and 100 indicators for the period 2023-2025.

The development of business solutions with social, environmental and climate aspects is guided and declared in our Social, Environmental and Climate Responsibility Policy (PRSAC). It is also supported by BB's Sustainability Guidelines for Credit, updated in June of this year, expanding the restrictive list and exclusion of activities in which we do not assume credit risk.

With a national focus on developing financial solutions and business models that promote the transition to a sustainable and inclusive economy,

BB considers climate change in its planning and invests in business opportunities for a low-carbon economy. Compliance with sustainability indicators and goals is reflected in the remuneration of the entire staff, including senior management, which ensures alignment between business, people and social, environmental and climate issues.

The BB 2030 Commitments for a + Sustainable World bring objectives on four fronts, including sustainable credit and responsible investment and covering our activities in ESG and climate management and seeking to generate positive impacts in the value chain.

## Sustainable Business

In line with our long-term commitments and aiming to help customers transition to a more sustainable economy, at the end of June 2024, we reached R\$369.6 billion in sustainable credit operations, a growth of 9.1% in 12 months, with 155.0 billion allocated to agriculture.

This amount was contracted in credit lines with a strong environmental and/or social focus or to finance activities and/or segments that bring positive socio-environmental impacts to the sectors of renewable energy, energy efficiency, construction, sustainable transport and tourism, water, fishing, forestry, sustainable agriculture,

waste management, education, health and local and regional development, in order to reinforce the transformative role in the country's development and in building an increasingly sustainable future for society.

The Sustainable Credit Portfolio is subjected to an independent assessment, which considers the main national and international ESG taxonomies in classifying customers and credit lines that make up the portfolio. The methodology is continually reviewed to incorporate best practices and pioneering references from recent years and add new products with ESG attribute

## Sustainable Fundraising

We have intensified our agendas in the interbank market, with multilateral institutions and commercial banks, in addition to our agenda with investors in the international capital market. The result is that in the last 36 months alone, more than R\$36 billion in ESG funding has been contracted or negotiated.

The growth in total disbursements in operations with resources raised from multilateral institutions, for example, was 61%. These businesses contribute to diversifying the Bank's funding mix and, consequently, generating credit for Brazilians in all regions of the country, with an emphasis on ESG operations. Between 2023 and 2024, we disbursed approximately R\$10.6 billion with multilateral institutions and have negotiated another approximately R\$12 billion for disbursement by 2025.

## Carbon Market

We reinforce our performance in the voluntary carbon market by supporting clients in the development of projects that generate carbon credits with relevant environmental additionally, offering advice on carrying out GHG emissions inventories and decarbonization plans and offering carbon credits from high-integrity projects to compensate for unmitigated emissions.

In addition to selling carbon credits to be used to offset customer emissions, we offer intermediation opportunities between those who need and those who have carbon credits. Furthermore, we have specific lines to promote projects that contribute to decarbonization, such as renewable energy and energy efficiency.

In 9M24, we achieved over 684 thousand hectares preserved in carbon projects, using the avoided deforestation methodology - REDD+. These are

## Bioeconomy and Value Chain

We have been promoting the Bioeconomy, thus we ensure a healthier and more balanced future for future generations. Our work has focused on promoting the Bioeconomy of the Legal Amazon, since the conservation of biodiversity and carbon stocks in the Brazilian Amazon is essential for global climate regulation, in addition to being essential for the local economy, ensuring social and economic benefits for the region.

We contribute to the development of biodiversity in the country, providing financial resources, specialized services, credit lines with attractive conditions and financial consulting services to assist family farmers, associations and cooperatives that work with the Bioeconomy. The objective of

projects that combine environmental preservation and income generation for landowners, in addition to social projects aimed at riverside, traditional and indigenous communities located within and around these projects.

Aiming to diversify the sources of carbon credit generation, in March of this year we launched the Biogas Program, which supports the development of projects based on the generation of biogas and biomethane in agriculture. Since the beginning of the program, we have contracted four projects for the development of carbon credits using this methodology.

In line with diversification, we prospected and signed the first soil carbon contract (ALM) for the recovery of degraded pasture, an area of 1,150 hectares.

our work is to promote the strengthening and productive inclusion of Bioeconomy projects that respect good environmental practices and local cultures.

We are currently one of the main financiers of forest products and biodiversity, with R\$1.4 billion in bioeconomy projects in the Legal Amazon, representing a growth of 30% in six months.

Our work in sociobiodiversity is based on five main axes: Forest Restoration and Agroforestry Systems, Low Carbon Agriculture, Connectivity, Forest Bioeconomy and Renewable Energy, in which we support the entire value chain, from the production to the export of bioeconomy products.

## Energy Eco-Efficiency

Considering the “BB 2030 for a more sustainable world” commitment, we are investing in decarbonization and ensuring that 100% of the electricity consumed by BB comes from renewable sources. We migrated 441 administrative buildings to the Free Contracting Environment (ACL), ensuring the consumption of clean energy and achieving accumulated savings of R\$99.5 million. In 2024, we inaugurated another plant in the state of São Paulo, reaching 16 plants in operation and we have 11 plants under construction, totaling 27 by the end of 2025.

BB's solar plants have already generated around 87.8 GWh, preventing the emission of more than 32.6 thousand tons of CO<sub>2</sub> into the atmosphere, equivalent to planting a forest of two hundred and thirty thousand trees.

We launched a new sustainable financial asset, an unprecedented business model in the market. It involves the sale of properties not in use by BB with the possibility of payment in carbon credits. We sold 58 rural and urban properties using this new payment method.

In 2024, we revised the packaging process for cards sent via courier to promote more sustainable practices, resulting in a reduction of approximately five tons of plastic waste per year.

## Corporate Governance

We adopt the best corporate governance practices, maintaining our commitment to the principles of transparency, accountability, equity and corporate responsibility. Since 2006, we have been listed on B3's Novo Mercado, a segment with the highest standard of corporate governance.

Decisions are made collectively at all levels. Thus, the administration has a structure of committees, subcommittees and strategic commissions that guarantee agility, quality and security in decision-making.

Our governance structure is made up of the General Shareholders' Meeting; by the Board of Directors (CA) and its advisory committees – Audit Committee (Coaud); People, Remuneration and Eligibility Committee (Corem); Risk and Capital Committee (Coris), Technology and Innovation Committee (Cotei) and Business Sustainability Committee (Cosem); by the Executive Board, composed of the Board of Directors (President and Vice-Presidents) and other Directors; and by the Supervisory Board. The Board of Directors also

receives advice from Internal Audit and an Independent Audit.

The CA, an independent collegial decision-making body, has, as provided for in Law and the Bylaws, strategic, guiding, elective and supervisory responsibilities. At least 30% of the members are independent, as defined in the legislation and in the B3 Novo Mercado Regulations.

We highlight that, in February 2024, the CA approved the review of the Director Appointment and Succession Policy, including ESG criteria for the composition of the Executive Board (Direx). Nominations of at least half of Direx members must respect the following criteria: minimum of 30% women, according to the gender declared at the time of nomination; and 20% for self-declared “black”, “brown” or “indigenous”, LGBTQIAPN+ and PwD. All the aforementioned percentages must be completed when electing for Direx by with implementation by the end of 2027.

The use of ESG criteria in the appointment of Senior Management raises the Bank's level on the world

stage, aligned with the most inspiring corporate governance practices, capable of driving lasting

and considerable changes in our organizational culture.

## Diversity, Equity, and Inclusion

We remain committed to Diversity and are proud to say that we have increased the number of women in leadership positions.

Currently, 44% of our Executive Board (CD) and 50% of our Board of Directors (CA) are women. In addition, two members of the Board of Directors and two of the CA identify as black. Two members of the CD and two of the CA identify as members of the LGBTQIAPN+ community.

We have one of the most diverse boards in the market, recently endorsed by B3, through iDiversa, an index that recognizes companies that stand out for their diversity and representation of these groups.

We are committed to promoting a collaborative, inclusive and equitable work environment. We are also increasingly investing in actions that promote an increase in the number of women in leadership positions.

In August, the BB Foundation and the Palmares Cultural Foundation signed a Memorandum of Understanding support the black Brazilian population in areas such as culture, education, work, income and cultural heritage. The partnership aims to structure initiatives for anti-racist education, racial literacy and preservation of Afro-Brazilian heritage, integrating quilombola communities and traditional peoples.

In September, together with other federal state-owned companies, we officially joined the Pact for Diversity, Equity and Inclusion (Pacto DEI), coordinated by the Ministry of Management and Innovation in Public Services (MGI), through the Secretariat of Governance of State-Owned Companies. The agreement aims to improve public policies and implement affirmative actions that promote plurality in public companies.

# Awards and Recognition

## January

We have been certified as a **Top Employer** for the 11th consecutive year. This certification recognizes companies with the best HR practices and is promoted by the Top Employers Institute.

President Tarciana Medeiros appears in second place in the **CEOs Change Makers** Brazil ranking, evaluated by Artificial Intelligence on the 100 Brazilian CEOs who have a major impact in the country.

Our brand was considered the strongest in the country. The company Brand Finance named the **500 strongest and most valuable brands in the world** at the Davos Economic Forum in Switzerland. Once again, BB was in the ranking and moved up 50 positions in the ranking compared to 2023.

We won two categories of **Banking Transformation**. The award seeks to highlight the best practices in innovation, contributing to the improvement of the financial sector. We were awarded in the categories Innovation with AI and Operational Efficiency.

BB Private was listed in the Leaders League 2024 Ranking, in the Wealth Management - Private Bank Brazil category, which recognizes the best strategies in Brazil in wealth and asset management for Private clients.

## February

We were recognized by **Bacen in the Bacen Ranking and Broadcast Projeções from Agência Estado**, listed in 1st place in the short-term Selic Rate projection and in 4th place in the short-term IPCA projections. In addition, we were listed by Broadcast Projeções from Agência Estado for 4Q23. We ranked 2nd in the Basic Top 10, which ranks

institutions according to their projections for a set of four indicators (Selic rate, exchange rate, IPCA and IGP-M).

**Blomberg Línea** presented the new edition of the 50 Impactful Women in Latin America. The list recognizes leaders who serve as inspiration and are transforming business in the region. For the second consecutive year, president Tarciana Medeiros is on the list.

## March

For the 11th time, we won the **Ombudsman Brasil Award**, which recognizes the work of organizations and ombudsmen to strengthen and expand the ombudsman institute in Brazil and around the world.

In the **Movimentos Elas Lideram 2030 and Raça é Prioridade Awards – UN Global Compact**, we won the award in the categories “30% of black or indigenous people in leadership positions by 2025”; and “Support for women's entrepreneurship through supply chains and marketing, with the implementation of business development practices that empower women” and President Tarciana Medeiros was nominated in two categories: CEO “Race is a priority” and CEO “Elas Lideram”.

**Recognitions in Technology:** Agile Trends Award 2024; Celent Model Risk Manager Award; The Innovators Award 2024 – Best info Security & Fraud Management; Open Finance Maturity Index 2024 – “Company that has or had the best Open Finance case in Brazil”.

## April

We achieved **1st place in the Broadcast Projeções Ranking in the Top 10 Overall** for 4Q23. This ranking, which included the participation of 50 financial institutions, involved estimates for a range

of economic indicators, including IPCA, IGP-M, Selic rate, dollar, GDP, trade balance and net debt/GDP ratio.

We won the **Stevie Awards for Sales & Customer Service**, which recognizes customer support, sales and business development channels. We have three finalist cases in the training, innovation and relationship categories.

We were awarded by Celent Model Risk Manager 2024, in the category of **combating financial crime**, for using a technological solution to optimize operations to identify potential customers who are subject to sanctions.

We were recognized by the **International Business Magazine Awards 2024 and World Business Outlook Awards 2024**, in the following categories:

- Best Private Bank - Brazil
- Best Private Bank in Agribusiness Advisory – Brazil
- Best Private Bank in ESG Integration – Brazil
- Best Private Bank for Women – Brazil
- Best Private Bank for Succession Planning – Brazil
- Private Bank with the Highest Growth in 2024 – Brazil

## May

Our Private Bank was recognized as **the best in Latin America in the ESG Technology category** at the PWM Wealth Tech Awards 2024.

In the 2024 evaluation, by MSCI ESG Rating, we maintained the "A" rating, with a score of 5.3.

We won the 11th edition of the **Global Finance Award: The Innovators 2024**, being recognized in the Most Innovative Lending Solution category. The case "Digital Compliance: Loan for Advance Payment of Income Tax Refund" won the award. Digital compliance is an initiative to develop and implement automated verification services for

digitized documents, aiming at process compliance and reducing the dependence on manual checks.

## June

We won 1st place in the Customer Service Satisfaction Award category, BNDES Recognition in the **Outstanding Financial Agents 2023** category.

We won the bronze award in the Smart Customer category **"Social Responsibility and Diversity"**, with the case of self-declaration of people with disabilities in the BB App.

For the second consecutive year, we received an international award at the Nice Interactions event, held in Las Vegas (USA), which recognizes the **main innovations and trends in customer experience**. The winning case in the Outstanding Cloud Realization category deals with BB's pioneering work in the adaptation and large-scale use of cloud Contact Center solutions for relationship areas.

For the eighth consecutive time, we are in the best position among the 5 largest financial conglomerates in the country in the **Bacen complaints ranking**.

## July

The AB2L Law tech Experience 2024 event, held by the Brazilian Association of **Law techs and Legaltechs (AB2L)**, brought together law firms and legal departments from all over Brazil. We were certified for the adoption of innovative practices in the fields of Legal Innovation, People Management, Legal Efficiency and Legal Partner for Business.

## August

We were awarded by the **Latin America Executive Team 2024**, by Institutional Investor, among companies in the financial sector, in the financial, corporate governance and sustainability categories, with emphasis on the Investor Relations program and the ESG program.

We had two solutions awarded at **Agile Trends Gov**: InovAÍ, which won the silver medal, and Simplifique, in 8th place.

We received the Top 10 Outstanding Executives award for the solution that uses Generative AI to optimize the processing of official letters and warrants. The award is granted by the **A.I. Executive Summit 2024**, an initiative by 7th Experience that recognizes the best projects and implementations using artificial intelligence.

## September

**The Latin American Women Awards** recognized outstanding lawyers in Latin America in multiple categories. In the corporate Banking & Finance

category, the highlight went to BB's legal director, Lucinéia Possar.

We received Gold, Silver and Bronze Trophies in the **Best Performance** award, in categories related to Credit and Collection Management, Big Data Strategies, Data Architecture and Analytics, Customer Management, People Management and Customer Service with a focus on Digital Channels and Platforms. The award recognizes innovative practices and disruptive solutions in public and private companies related to various sectors, including Technology and Financial Innovation.

We were also honored with 5 awards from the **XXIV ABT Award**, which recognizes the industry's best practices in customer service and relationships.

## Independent Audit

When contracting services not related to external auditing, and to avoid conflicts of interest, loss of independence or objectivity of independent auditors, we adopt procedures based on applicable legislation and standards and the best internationally accepted principles related to the topic. These principles are as follows: (i) the auditor should not audit his own work, (ii) the auditor should not perform managerial functions for his client and (iii) the auditor should not promote the client's interests. At Banco do Brasil, the hiring of services related to external auditing must be preceded by an opinion from the Audit Committee.

## Additional Clarifications Related to the Bacen/Cosif Standard

### Securities and Information on Affiliates and Subsidiaries

In accordance with art. 8th of Circular Bacen 3,068/2001, we affirm our intention and financial capacity to maintain, until maturity, the securities classified in the "Securities Held to Maturity" category. Our financial capacity is supported by cash flow projections that do not consider the possibility of selling these securities.

The breakdown of securities by category and the reclassification of securities can be found in explanatory note 10 – Securities.

In compliance with article 243 of Law 6,404/1976, we inform that the company's investments in associated and controlled companies are listed in explanatory notes 2 – Presentation of Financial Statements and 14 – Investments.

### Additional Clarifications

We have R\$1.2 billion (consolidated) in unactivated tax credits, presented in explanatory note 22 - Taxes in the Individual and Consolidated Financial Statements (subitem "f"). We keep recorded in compensation accounts, in accordance with the rules set out in the Financial Institutions Accounting Plan (Cosif), the amount of R\$20.4 billion arising from co-obligations and risks in guarantees provided to customers and companies belonging to the Banco do Brasil Conglomerate.

We annually publish the investments made as a result of the exercise of public policies in our Annual Letter on Public Policies and Corporate Governance, available on our website ([ri.bb.com.br](http://ri.bb.com.br)).

Banco do Brasil, its shareholders, administrators and members of the Fiscal Council undertake to resolve any and all disputes or controversies related to the Novo Mercado Listing Regulations through the B3 Market Arbitration Chamber, in accordance with the arbitration clause contained in the Bylaws Banco do Brasil Social.

This Management Report was prepared based on the Individual and Consolidated Financial Statements prepared in the Accounting Standard of Institutions Regulated by the Central Bank of Brazil (Cosif). For more information, the Reference Form, the Performance Analysis report and the Institutional Presentation are available on the Investor Relations website ([ri.bb.com.br](http://ri.bb.com.br)). Relations website ([ri.bb.com.br](http://ri.bb.com.br)).

## 1 – The Bank and its operations

Banco do Brasil S.A. (Banco do Brasil or the Bank) is a publicly-traded company, which explores economic activity pursuant to art. 173 of the Brazilian Federal Constitution, subject to the rules of Brazilian Corporate Law, and is governed by Laws 4,595/1964, 13,303/2016 and the respective ruling Decree. The Brazilian Federal Government controls the Bank. Its headquarters and domicile are located at Setor de Autarquias Norte, Quadra 5, Lote B, Edifício Banco do Brasil, Brasília, Federal District, Brazil.

The Bank has its shares traded in the segment known as Novo Mercado of B3 S.A. – Brasil, Bolsa, Balcão (B3), under the ticker "BBAS3" and its American Depositary Receipts (ADRs) on the over-the-counter market in the United States under the ticker "BDORY". The Bank's shareholders, managers and members of the Fiscal Council are subject to the provisions of B3's Novo Mercado Regulation. The provisions of Novo Mercado will prevail over the statutory provisions, in case of prejudice to the rights of the recipients of the public offers provided for in the Bylaws.

The Bank is a multiple bank with operations throughout the national territory also develops activities in important global financial centers. The Bank's and its subsidiaries' business activities include the following:

- all active, passive and ancillary banking operations;
- banking and financial services, including foreign exchange transactions and other services such as insurance, pension plans, capitalization bonds, securities brokerage, credit/debit card management, consortium management, investment funds and managed portfolios; and
- all other types of transactions available to banks within Brazil's National Financial System.

The Bank also acts as an agent for execution of the Brazilian Federal Government's credit and financial policies, Brazilian Law requires the Bank to perform functions, specifically those under art. 19 of Law 4,595/1964:

- act as financial agent for the National Treasury;
- provide banking services on behalf of the Federal Government and other governmental agencies;
- provide clearing services for checks and other documents;
- buy and sell foreign currencies as determined by the National Monetary Council (CMN) for the Bank's own account and for the account of the Brazilian Central Bank (Bacen);
- provide receipt and payment services for Bacen, in addition to other services;
- finance the purchase and development of small and medium-sized farms; and
- disseminate and provide credit; among others.

With a history of 216 years, the Bank operates in a responsible manner to promote social inclusion through the generation of jobs and income.

The Bank finances the production and commercialization of agricultural goods; foster rural investments such as storage, processing, industrialization of agricultural products and modernization of machinery and implements; and adjust rural properties to environmental law. Thus, the Bank supports the Brazilian agribusiness in all stages of the production chain.

The Bank offers to micro and small companies working capital, financings for investments, and foreign trade solutions, in addition to several other options related to cash flow, insurance and related, and services. The Bank provides financing alternatives and business models that promote the transition to an inclusive economy to several companies, including Individual Microentrepreneurs (Microempreendedores Individuais – MEI).

In foreign trade financing, the Bank operates government policy instruments regarding productive development, entrepreneurship, social and financial inclusion, including the Income Generation Program (Programa de Geração e Renda – Exportação – Proger) and the Export Financing Program (Programa de Financiamento às Exportações – Proex).

Banco do Brasil also acts as a Financial Market System Operating Institution (IOSMF) executing check clearing services through the Check Clearing Centralizer (Compe), Financial Market Infrastructure (IMF), part of the Brazilian Payment System (SPB), in accordance with BCB Resolutions nº 304 and 314/2023.

More information about the subsidiaries is included in Note 2, while Note 6 contains a description of the Bank's business segments.

## 2 – Presentation of financial statements

### a) Statement of compliance

These financial statements have been prepared in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Central Bank of Brazil (Cosif), including accounting guidelines issued by the Brazilian Corporate Law in compliance with the rules and instructions of the Brazilian Securities Commission (Comissão de Valores Mobiliários - CVM), when applicable. All relevant information specific to the financial statements is highlighted and corresponds to that used by Management in its administration.

The consolidated financial statements, prepared and disclosed according to the accounting standard "Cosif", permitted by article 77 of the CMN Resolution 4,966/2021, are disclosed "in addition" to the financial statements consolidated according to the international accounting reporting standard - IFRS, which were prepared in accordance with the provisions of CMN Resolution No. 4,818/2020 and are being approved and disclosed simultaneously.

These individual and consolidated financial statements were approved by the Board of Directors and authorized for issuance on Nov 11, 2024.

### b) Functional and presentation currency

These individual and consolidated financial statements are presented in Brazilian Reais, which is the Bank's functional and presentation currency. Unless otherwise indicated, the quantitative financial information is presented in thousands of Reais (R\$ thousand).

### c) Going concern

Management has assessed the Bank's ability to continue its normal operations and is convinced that it has the resources to continue its business in the future. In addition, Management is not aware of any material uncertainty that could generate significant doubts about its ability to continue operating. Thus, these individual and consolidated financial statements were prepared based on the assumption of going concern.

### d) Changes in accounting policies

These individual and consolidated financial statements were prepared using the same policies and accounting methods used to prepare the individual and consolidated financial statements for the year ended Dec 31, 2023.

### e) Consolidated financial statements

The consolidated financial statements include the operations of the Bank performed by their domestic agencies and abroad and also include the operations of the Bank's controlled entities. The consolidated financial statements reflect the assets, liabilities, income and expenses of Banco do Brasil and its controlled entities, in accordance with CPC 36 (R3) – Consolidated financial statements.

In the preparation of the consolidated financial statements, amounts resulting from transactions between consolidated companies, including the equity interest held by one in another, balances of balance sheet accounts, revenues, expenses and unrealized profits, net of tax effects, were eliminated. Non-controlling interest in net equity and in income of the controlled entities were separately disclosed in the financial statements. Exchange gains and losses on branch operations are presented in the income groups in which the income and charges on these operations are recognized. Exchange gains and losses on the assets and liabilities of branches and subsidiaries abroad are presented in the grouping of Resources from financial institutions, aiming to hedge foreign exchange losses and gains on the passive financial instruments contracted to protect the Bank's net income over exchange rate fluctuations (Notes 14.a and 18.d).

In the consolidated financial statements, there was a reclassification of the Instrument qualifying as CET1 - hybrid capital and debt instrument to Shareholder's equity. This adjustment is also performed in the financial statements according to the International Financial Reporting Standards - IFRS to improve the quality and transparency of these consolidated financial statements.

1 - Refers to the percentage of the equity interest, considering the acquisition of shares by the invested entity held in treasury.

2 - Investment funds in which the Bank substantially assumes or retains risks and benefits.

3 - Non-exclusive and open funds from the initial application of BB Asset's own resources, destined for sale to external investors, the referred entity does not have the intention to substantially assume or retain risks and benefits in these investment funds, which the Bank consolidates only in the months when most of the shares are still held by BB Asset.

In thousands of Reais, unless otherwise stated

The consolidated financial statements also include securitization vehicles and investment funds controlled by the Bank, directly or indirectly, described below.

#### Dollar Diversified Payment Rights Finance Company (SPE Dollar)

SPE Dollar was organized under the laws of the Cayman Islands for the following purposes:

- fund raising by issuance of securities in the international market;
- use of resources obtained by issuing securities to pay for the purchase, with the Bank, of the rights to payment orders issued by banking correspondents located in the U.S. and by the agency of BB New York, in U.S. dollars, for any agency in Brazil (Rights on Consignment); and
- making payments of principal and interest on securities issued and other payments defined in the contract of issuance of these securities.

The SPE pays the obligations under the securities with USD funds received from the payment orders. The SPE has no material assets or liabilities other than rights and obligations under the securities contracts. The SPE has no subsidiaries or employees.

#### Loans Finance Company Limited (SPE Loans)

SPE Loans was organized under the laws of the Cayman Islands for the following purposes:

- fund raising by issuance of securities in the international market;
- closing and booking repurchase agreements with the Bank;
- purchasing of protection against credit risk of the Bank through a credit derivative, which is actionable only in case of Bank's default in any of the obligations assumed in repurchase agreements.

The amounts, terms, currencies, rates and cash flows of the repurchase agreements are identical to those of the securities. The rights and income created from the repurchase agreements cover and match the obligations and expenses created by the securities. As a result, the SPE does not generate profit or loss. The SPE does not hold any assets and liabilities other those from the repurchase agreements, credit default swap and outstanding securities.

#### Information for comparability purposes

The following reclassifications were made for comparison purposes, reclassification of expenses was carried out, mainly with third-party services and transportation of values, from other administrative expenses group to other income/expenses, for better disclosure of the transactions essence.

We demonstrate below the effects of the adjustments made on the income statements. Consequently, the comparative balances in the Statement of value added were adjusted, as well as the respective explanatory notes.

#### Statement of income

### f) Convergence to international accounting standards

The Accounting Pronouncements Committee (CPC) issues pronouncements and accounting interpretations aligned with international accounting standards and approved by the CVM. CMN approved the following pronouncements, fully observed by the Bank, when applicable:

CPC	Resolutions
CPC 00 (R2) – Conceptual framework for Financial Reporting	CMN Resolution 4,924/2021
CPC 01 (R1) – Impairment of Assets	CMN Resolution 4,924/2021
CPC 03 (R2) – Statement of Cash Flows	CMN Resolution 4,818/2020
CPC 05 (R1) – Related Party Disclosures	CMN Resolution 4,818/2020
CPC 10 (R1) – Share-based Payment	CMN Resolution 3,989/2011
CPC 23 – Accounting Policies, Changes in Accounting Estimates and Errors	CMN Resolution 4,924/2021
CPC 24 – Events after the Reporting Period	CMN Resolution 4,818/2020
CPC 25 – Provisions, Contingent Liabilities and Contingent Assets	CMN Resolution 3,823/2009
CPC 28 – Investment Property	CMN Resolution 4,967/2021
CPC 33 (R1) – Employee Benefits	CMN Resolution 4,877/2020
CPC 41 – Earnings per Share	CMN Resolution 4,818/2020
CPC 46 – Fair Value Measurement	CMN Resolution 4,924/2021
CPC 47 – Revenue from Contracts with Customers	CMN Resolution 4,924/2021

CMN also issued proprietary rules that partially incorporate the pronouncements issued by the CPC and are applicable to the individual and consolidated financial statements:

CMN Standard	Equivalent CPC Pronouncement
CMN Resolution 4,524/2016 – recognition of foreign exchange hedging transactions for investments abroad.	CPC 48
CMN Resolution 4,534/2016 – accounting recognition and measurement of intangible asset components.	CPC 04 (R1)
CMN Resolution 4,535/2016 – Recognition and accounting record of the components of property and equipment in use.	CPC 27
CMN Resolution 4,817/2020 – accounting measurement and recognition of investments in associates, subsidiaries and joint ventures.	CPC 18 (R2) and CPC 45

In addition, it was published the CMN Resolution 3,533/2008, whose term began in January 2012, which established procedures for classification, recording and disclosure of sales operations or transfer of financial assets.

The Bank also applied the following pronouncements that are not in conflict with Bacen rules, as determined by article 22, paragraph 2, of Law No. 6,385/1976:

CPC Pronouncement
CPC 09 – Statement of Added Value (DVA)
CPC 12 – Present Value Adjustment
CPC 22 – Operating Segments
CPC 36 (R3) – Consolidated Financial Statements

## g) Recently issued standards, applicable or to be applied in future periods

### Standards to be adopted in future periods

**CMN Resolution 4,966, of November 25, 2021.** The Resolution provides accounting concepts and criteria applicable to financial instruments, as well as designation and recognition of hedging (hedge accounting) by financial institutions and other institutions authorized to operate by Bacen, seeking to reduce the gaps between the accounting standards provided in Cosif and the international standards.

Resolution 4,966/2021 is effective as of January 1st, 2025, except for some normative items, which are effective as of January 1st, 2022.

The Bank started the assessment of the impacts of the adoption of the normative items in force as of January 1st, 2025, which will be subject to specific disclosure in the explanatory notes to the financial statements for the 2024 Results, as required by art. 78 of this Resolution, and has also prepared a plan for implementing the accounting regulation (plan), as required by article 76, being disclosed in the Financial Statements 2022.

**CMN Resolution 4,975, of December 16, 2021.** The standard establishes the accounting criteria applicable to leasing operations carried out by financial institutions and other institutions authorized to operate by Bacen as lessor and lessee. These institutions must observe CPC 06 (R2) - Leases, for the recognition, measurement, presentation and disclosure of leasing operations, according to specific regulations.

CPC 06 (R2) abandons the classification of leasing into operational and financial for lessees, and starts a single accounting model, which consists of the recognition of assets and liabilities arising from leasing operations. The standard does not require a lessee to recognize assets and liabilities of low-value and short-term leases.

For lessors, there will be change in the accounting of finance leasing, but without changing the form of disclosure, since these operations are already presented at the present value of the total amounts receivable provided for in the contract, including the allowance for losses associated with the credit risk, in compliance with BCB Resolution 2/2020.

CMN Resolution 4,975/2021 is effective as of January 1st, 2025.

The Bank has started to assess the impacts of the adoption of the new regulation, which will be specifically disclosed in the explanatory notes to the financial statements for Financial Year/2024.

### 3 – Description of significant accounting policies

The accounting practices adopted by Banco do Brasil are applied consistently in all periods presented in these financial statements and applied to all the entities of the Group Banco do Brasil.

#### a) Statement of income

In accrual basis accounting, revenues and expenses are reported in the closing process of the period in which they are incurred, regardless of receipt or payment. The operations with floating rates are adjusted pro rata die, based on the variation of the indexes agreed, and operations with fixed rates are recorded at future redemption value, adjusted for the unearned income or prepaid expenses for future periods. The operations indexed to foreign currencies are converted at the reporting date using current rates.

#### b) Present value measurement

Financial assets and liabilities are presented at present value due to the application of the accrual basis in the recognition of their interest income and expenses.

Non-contractual liabilities are primarily represented by provisions for lawsuit and legal obligations, for which the disbursement date is uncertain and is not under the Bank's control. They are measured at present value because they are initially recognized at estimated disbursement value on the valuation date and are updated monthly.

#### c) Cash and cash equivalents

They comprise cash and cash equivalents and short-term investments readily convertible into cash, with a maximum maturity of three months from the date of acquisition, to be used in short-term commitments, and subject to an insignificant risk of change in value. The balances of cash and cash equivalents in local currency, foreign currency, investments in repurchase agreements – bank position, investments in interbank deposits and investments in foreign currencies were considered.

#### d) Interbank investments

Interbank investments are recorded at their investment or acquisition amount, plus income accrued up to the balance sheet date and adjustments for allowance for losses.

#### e) Securities

Securities are recorded at the actually paid amount and are classified according to the intention of the Bank's Management into three different categories, according to Bacen Circular 3,068/2001:

Trading Securities: these are securities purchased to be actively and frequently traded. They are adjusted monthly to fair value. The increases and decreases in value are recorded in income and expense accounts for the period;

Securities available for sale: these are securities that may be traded at any time but are not acquired to be actively and frequently traded. They are adjusted monthly to market value and their increases and decreases in value are recorded, net of tax effects, in Accumulated other comprehensive income in Shareholders' equity; and

Securities held to maturity: these are securities that the Bank owns and has the financial capacity and intent to hold to maturity. These securities are not adjusted to market value. The Bank's financial capacity to hold to maturity is supported by a cash flow projection that does not consider the possibility of sale of these securities.

The fair value methodology used for securities was established following consistent, verifiable criteria, which consider the average price of trading on the day of calculation or, if not available, the indicative price reported by Anbima (Brazilian Financial and Capital Markets Association), or relationship between the unit price and the latest business value in the last 30 day, or the net expected realizable value obtained through pricing models, using credit risk curves, expected credit losses, future values of interest rates, foreign exchange rates, price and currency indices, and similar financial instruments.

Earnings from bonds and securities are appropriated to income for the period, observing the accrual basis of accounting until the date of maturity or final sale.

Impairment of securities classified as available for sale and held to maturity, if considered not to be temporary, are recorded directly in expense for the period and a new cost basis for the asset is determined.

Upon sale, the difference between the sale amount and the cost of purchase plus accrued income is considered as a result of the transaction and is recorded on the date of the transaction as a gain or loss on securities.

## f) Derivative financial instruments

Derivative financial instruments are adjusted to market value at each monthly trial balance and balance sheet date. Increases or decreases in value are recorded in the appropriate income or expense accounts.

The fair value methodology used for derivative financial instruments was established following consistent and verifiable criteria, which consider the closing price, or adjustment, when applicable, on the day of calculation or, if not available, pricing models that estimate the expected net realizable value, or the price of a similar financial instrument, considering at least, the payment or maturity date, the currency or index, and the credit risk associated with the counterparty.

Derivative financial instruments used to offset, in whole or in part, the risks arising from exposure to variations in the fair value or asset cash flow or financial liabilities, commitment or future transaction, are considered hedge instruments and are classified according to their nature:

Market risk hedge: increases or decreases in value of the financial instruments, as well as of the hedged item, are recorded in income/expense accounts for the period;

Cash flow hedge: the effective portion of the increases or decreases in value of the derivative financial instruments classified in this category are recorded, net of tax effects, in Accumulated other comprehensive income in Shareholders' equity. The effective amount is that in which the variation of the hedged item, directly related to the corresponding risk, is offset by the variation in the financial instrument used for the hedge, considering the accumulated effect of the transaction. Other variations in these instruments are recorded directly in the statement of income for the period; and

Hedge of net investment abroad: the financial instruments classified in this category are intended to offset the risks arising from exposure to foreign exchange variation of investments abroad whose functional currency is different from the national currency and must be recorded in accordance with the accounting procedures defined for the hedge of cash flow.

## g) Loan portfolio for loan losses associated with credit risk

The loan portfolio consists of loan operations, leases, advances on foreign exchange contracts and other receivables with loan characteristics which are classified according to Management's judgment with respect to the level of risk, taking into consideration market conditions, past experience and specific risks in relation to the transaction, to borrowers and guarantors, observing the parameters established by CMN Resolution 2,682/1999, which requires periodic analyses of the portfolio and its classification into nine levels, ranging from AA (minimum risk) to H (maximum risk), as well as the classification of transactions more than 15 days overdue as non-performing. For atypical transactions with a term of more than 36 months, there is a double counting on the days-past-due intervals defined for the nine levels of risk, as permitted by CMN Resolution 2,682/1999.

Income from loans overdue for more than 60 days, regardless of their risk level, will only be recognized as income when effectively received.

The operations classified as level H risk are written off against the existing allowance after six months of classification in this level of risk, and they are delayed more than 180 days.

Renegotiated transactions are maintained, at a minimum, at the same level at which they were rated on the date of renegotiation. The renegotiations of loans already written off against the allowance are rated as H level and any gains from renegotiation are recognized as income when effectively received. Reclassification to a lower risk category is allowed when there is significant amortization of the transaction or when new material facts justify a change in risk level, according to CMN Resolution 2,682/1999.

Allowance for loan losses, considered sufficient by management, satisfies the minimum requirement established by the aforementioned CMN Resolution 2,682/1999.

Financial leasing operations are presented at the present value of the total amounts receivable provided in the contract, including the provision for losses associated with credit risk.

## h) Taxes

Taxes are calculated based on the rates shown in the table below:

Taxes	Rate
Income tax (15.00% + additional 10.00%)	25.00%
Social Contribution on Net Income - CSLL <sup>(1)</sup>	20.00%
Social Integration Program/Public servant fund program(PIS/Pasep) <sup>(2)</sup>	0.65%
Contribution to Social Security Financing – (Cofins) <sup>(2)</sup>	4.00%
Tax on services of any kind – (ISSQN)	Up to 5.00%

1 - Rate applied to financial companies and to non-financial companies in the areas of insurance, private pension plans and capitalization. For others non-financial companies, the CSLL rate is 9%.

2 - For non-financial firms that have opted for the non-cumulative regime of calculation, the PIS/PASEP rate is 1.65% and the Cofins rate is 7.6%.

Deferred tax assets (tax credits) and deferred tax liabilities are recognized by applying the current tax rates on their respective bases. For the constitution, maintenance and write-off of the deferred tax assets, the criteria established by CMN Resolution No. 4,842/2020 are observed, supported by a study of realization capacity.

## i) Investments, property, plant and equipment and intangible assets

**Investments:** investments in subsidiaries, associates and joint ventures in which the Bank has significant influence or an ownership interest of 20% or more of the voting shares, and in other companies which are part of a group or are under common control are accounted for by the equity method based on the Shareholders' equity of the subsidiaries, associates and joint ventures.

The cash flows related to dividends and interest on equity received are presented separately in the statement of cash flows, being consistently classified, from period to period, as arising from investment activities.

In the consolidated financial statements, the subsidiaries are fully consolidated, and the associates and joint ventures are accounted under the equity method.

**Property and equipment:** property and equipment are stated at acquisition cost less the impairment losses and depreciation, calculated using the straight-line method by the useful life of the asset. Depreciation of property and equipment in use is recorded in the Other administrative expenses account.

**Intangible:** intangible assets consist of rights over intangible assets used in the running of the Bank, including acquired goodwill.

An asset meets the criteria for identification as an intangible asset, when it is separable, i.e, it can be separated from the entity and sold, transferred or licensed, rented or exchanged, individually or jointly with a contract, related assets or liabilities, regardless of the intention for use by the entity; or results from contractual rights or other legal rights, regardless of whether these rights are transferable or separable from the entity or other rights and obligations.

Goodwill based on expected future profitability is amortized against the income for the period, in accordance with the annual income projections contained in the economic-financial studies that supported the purchase price of the businesses and are annually to the impairment test of the recoverable value of assets.

The other intangible assets with finite useful lives comprise: disbursements for the acquisition of rights to provide banking services (rights to managing payrolls), amortized over the terms of contracts; software, amortized on a straight-line basis by the useful life from the date it is available for use. Intangible assets are adjusted by allowance for impairment losses, if applicable. The amortization of intangible assets is recorded in the Other administrative expenses account.

## **j) Impairment of non-financial assets**

Non-financial assets are reviewed to see if there is any indication that they may have depreciated, whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

If there is any indication of devaluation, the Bank estimates the asset's recoverable value, which is the higher of its fair value, less costs to sell it, and its value in use.

If the recoverable amount of the asset is less than its carrying amount, the asset's carrying amount is reduced to its recoverable amount through a provision for impairment, which is recognized in the Income statement.

Methodologies in assessing the recoverable amount of the main non-financial assets:

### Property and equipment in use

Land and buildings – To determine the recoverable amounts of land and buildings, data from market indices, statistical tests based on data from sales of owned properties and technical evaluations are used in accordance with the rules of the Brazilian Association of Technical Standards – ABNT.

Data processing equipment – when available, the Bank uses market values to determine the recoverable amount of relevant data processing equipment, considering market rates for similar goods, substitutes or the same type of goods, based on internal or external sources. If Banco do Brasil cannot obtain reliable data to estimate the market price, the Bank assesses whether the expected benefits from the use of these assets still justify its best recovery value, qualifying the information that justifies this analysis.

Other items of property and equipment – these items are individually insignificant or fully depreciated. Although subject to evaluation of impairment indicators, the Bank does not determine their recoverable amount on an individual basis due to cost benefit considerations. However, the Bank controls these assets through a systematized register and conducts an annual inventory counts and writes off assets that are lost or showing signs of deterioration.

### Intangible

Rights due to the acquisition of payrolls – the recoverability of acquired payroll contracts is determined based on the contribution margin of the client relationships generated under each contract. The objective is to determine if the projections that justified the initial acquisition correspond to actual performance. An impairment loss is recognized on underperforming contracts.

Software – the Bank continuously invests in the modernization and adequacy of its internally developed software to accompany new technologies and meet the demands of the business. Since there is no similar software in the market, and because of the significant cost associated with developing models to calculate value in use, the Bank evaluates the ongoing utility of its software to test for impairment, that consists of evaluating its usefulness for the company so that, whenever a software goes out of use, its value is written off in accounting.

The losses recorded in the Statement of Income to adjust the recoverable value of these assets, if any, are stated in the respective notes.

### Investments and goodwill on the acquisition of investments

The methodology for determining the recoverable amount of investments and goodwill based on expected future profitability consists of measuring the expected result of the investment through discounted cash flow. To measure this result, the assumptions adopted are based on i) projections of the companies' operations, results and investment plans; ii) macroeconomic scenarios developed by the Bank; and iii) internal methodology for calculating the cost of capital based on the Capital Asset Pricing Model – CAPM.

## **k) Employee benefits**

Employee benefits related to short-term benefits for current employees are recognized on the accrual basis as the services are provided. Post-employment benefits, comprising supplementary retirement benefits and medical assistance for which the Bank is responsible, are assessed in accordance with criteria established by CPC 33 (R1) – Employee benefits, approved by CVM Resolution 110/2022 and by the CMN Resolution 4,877/2020. The evaluations are carried out at least every six months or less when applicable.

In defined-contribution plans, the actuarial risk and the investment risk are borne by the plan participants. Accordingly, cost accounting is based on each period's contribution amount representing the Bank's obligation. Consequently, no actuarial calculation is required when measuring the obligation or expense, and there are neither actuarial gains nor losses.

In defined benefit plans, the actuarial risk and the investment risk value of plan assets fall substantially on the sponsoring entity. Accordingly, cost accounting requires the measurement of plan obligations and expenses, with a possibility of actuarial gains and losses, leading to the register of a liability when the amount of the actuarial obligation exceeds the value of plan assets, or an asset when the amount of assets exceeds the value of plan obligations. In the latter instance, the asset should be recorded only when there is evidence that it can effectively reduce the contributions from the sponsor or will be refundable in the future.

The Bank recognizes the components of defined benefit cost in the period in which the actuarial valuation was performed, in accordance with criteria established by CPC 33 (R1), as follows:

- the current service cost and the net interest on the net defined benefit liability (asset) are recognized in profit or loss; and
- the remeasurements of the net defined benefit liability (asset) resulting from changes in actuarial assumptions are recognized in Accumulated other comprehensive income in Shareholders' equity, net of tax effects. And, according to the normative provision, these effects recognized directly in equity should not be reclassified to the result in subsequent periods.

Contributions to be paid by the Bank to medical assistance plans in some cases will continue after the employee's retirement. Therefore, the Bank's obligations are evaluated by the present actuarial value of the contributions to be paid over the expected period in which the plan participants and beneficiaries will be covered by the plan. Such obligations are evaluated and recognized under the same criteria used for defined benefit plans.

#### **l) Deposits and Securities sold under repurchase agreements**

Deposits and Securities sold under repurchase agreements are recorded at the amount of the liabilities and include, when applicable, related charges up to the balance sheet date, on a daily pro rata die basis.

#### **m) Provisions, contingent assets and liabilities**

The Bank recognizes a provision when:

- the Bank has a present obligation (legal or constructive) as a result of a past event;
- it is probable that an outflow of economic benefits will be required to settle the obligation; and
- the amount of the obligation can be reasonably estimated.

The Bank recognizes provisions based on its best estimate of the probable losses.

The Bank continually monitors lawsuits in progress to evaluate, among other factors:

- the nature and complexity;
- the progress of the proceedings;
- the opinion of the Bank's lawyers; and
- the Bank's experience with similar proceedings.

In determining whether a loss is probable, the Bank considers:

- the likelihood of loss resulting from claims that occurred prior to or on the reporting date that were identified after that date but prior to issuance of the financial statements; and
- the need to disclose claims or events occurring after the reporting date but prior to the issuance of the financial statements.

Contingent assets are not recognized in the financial statements. However, when there is evidence assuring their realization, usually represented by the final judgment of the lawsuit and by the confirmation of the capacity for its recovery by receipt or offsetting by another receivable, they are recognized as assets.

#### **n) Debt instrument issue expense**

Expenses related to transactions involving the issue of debt instruments are capitalized and presented as a reduction of the corresponding liability. The expenses are recognized in the income statement over the term of the transaction.

#### **o) Assets held for sale**

##### Investments held for sale

They refer to investments in associates, subsidiaries and joint ventures that the Bank expects to realize through their sale, are available for immediate sale and their disposal is highly probable. From the moment the Bank decides to sell them, these assets are measured at the lower of:

- (i) the net book value, less provisions for impairment losses; and
- (ii) fair value, measured in accordance with specific regulations, net of selling expenses.

Any difference between the net book value of the asset and the fair value less costs to sell is recognized in profit or loss for the period.

##### Non-financial assets held for sale

These not covered by the concept of financial assets, according to specific regulations, and refer mainly to properties not in use received in the settlement of credit operations that are difficult or doubtful to resolve.

They are initially recognized in the appropriate account grouping item of current or noncurrent assets realizable in the long term, according to the expected sale term, on the date of their receipt by the Bank, being valued at the lowest value between:

- (i) the gross book value of the respective credit operation that is difficult or doubtful to resolve; and
- (ii) the fair value of the asset, assessed in accordance with specific regulations, net of selling expenses.

Any difference between the book value of the respective difficult or doubtful financial instrument, net of provisions, and the fair value is recognized in the income statement for the period.

#### **p) Other assets and liabilities**

Other assets are stated at their realizable amounts, including, when applicable, related income and monetary and exchange variations on a pro rata die basis, and allowance for losses, when deemed appropriate. Other liabilities are stated at their known and measurable amounts, plus, when applicable, related charges and monetary and exchange variations on a pro rata die basis.

#### **q) Earnings per share**

Two different methods are used to calculate earnings per share:

- basic earnings per share: calculated by dividing net income attributable to the Bank's shareholders by the weighted average number of common shares outstanding during each of the periods presented; and
- diluted earnings per share: calculated by dividing net income attributed to the Bank's shareholders by the weighted average of outstanding common shares, adjusted to reflect the effect of all dilutable common shares.

#### **r) Conversion of operations in foreign currency**

Functional and presentation currency – These individual and consolidated financial statements are presented in Brazilian Reais, which is the Bank's functional and presentation currency. The functional currency is the currency of the main economic environment in which an entity operates. For all of the Group entities, the functional currency is the Real (except for BB Americas and Banco Patagonia).

The financial statements of branches and subsidiaries abroad follow the accounting criteria in force in Brazil and are converted into the Real currency, preliminarily under the equity method, as provided for in CMN Resolution 4,817/2020.

The investees abroad whose Real is the functional currency have their financial statements translated based on the daily balances of each accounting sub-heading, considering the daily variation of the exchange rate, and their effects are recognized in contra-entry to the investee's income.

For investees abroad whose functional currency is other than the Brazilian Real, assets and liabilities are translated at the exchange rate on the respective balance sheet date and income and expenses are translated at the average exchange rate for the period, and their effects are recognized in Other Comprehensive Income, in the investor's Shareholders' Equity.

**s) Non-recurring results**

As defined by BCB Resolution 2/2020, non-recurring results are those that are not related or are only incidentally related to the institution's typical activities and are not expected to occur frequently in future years. The information on the recurring and non-recurring results is included in Note 31.

## 4 – Significant Judgments and accounting estimates

The preparation of financial statements requires the application of certain relevant assumptions and judgments that involve a high degree of uncertainty and that may have a material impact on these statements. Accordingly, it requires Management to make judgments and use estimates that affect the recognized amounts of assets, liabilities, income and expenses. These adopted estimates and assumptions are reviewed on an ongoing basis, with the revisions recognized in the period in which the estimate is reassessed, with prospective effects. It should be noted that actual results may differ from these estimates.

There are certain alternatives to accounting treatments. The Bank's results may differ if alternative accounting principles had been used. Management believes its choice of accounting principles to be appropriate and that the individual and consolidated financial statements present fairly, in all material respects, the consolidated financial position and results of the Bank's operations.

Significant classes of assets and liabilities subject to estimates and the use of assumptions cover items for which fair value valuation is required. The following components of the consolidated financial statements require the highest degree of judgment and use of estimates:

### a) Fair value of financial instruments

When it is impossible to determine the fair value of financial assets and liabilities based on price derivatives from an active market, they are measured using valuation techniques based on mathematical models. The inputs to these models come from observable market data, whenever available. If there is not enough information to apply the aforementioned criteria, other technical and judgmental parameters are adopted, duly approved by the Organization's Risk Governance.

The methodologies used to assess the fair value of certain financial instruments are shown in Note 30.a.

### b) Allowance for losses associated with credit risk of the loan portfolio

The loan portfolio is classified according to Management's judgment on the risk level. Economic situation, past experience and specific risks in relation to the operation, to debtors and guarantors, are taken into account, observing the parameters established by CMN Resolution 2,682/1999, which requires periodic portfolio analysis and its classification into nine risk levels (rating), AA (minimum risk) and H (maximum risk), as well as the classification of operations overdue for more than 15 days as non-performing. For non-performing loan with a maturity of more than 36 months, double counting over the delay intervals defined for the nine risk levels is carried out, as provided by CMN Resolution 2,682/1999.

Allowance for losses is constituted or reversed according to the risk levels established by CMN Resolution 2,682/1999, considering the risk levels attributed to the operations.

The allowance is considered sufficient by Management and meets the minimum requirement established by CMN Resolution 2,682/1999.

### c) Permanent loss of securities

Securities are subject to periodic evaluation by the Permanent Loss Assessment Forum, which is responsible for identifying problematic assets, pursuant to CMN Resolution 4,557/2017, proposing the marking of new problematic assets, assessing the need of an asset to be subject to impairment test and the impact of any loss within the scope of the Conglomerate.

A problematic asset is characterized when there is a pending settlement for more than ninety days or there are indications that the asset will not be realized without the need to resort to guarantees and collateral. Indications that the asset will not be realized are: when the Bank considers that the debtor no longer has the financial capacity to honor its obligation, if the Bank recognizes a significant deterioration in the credit quality of the debtor, if the operation is subject to renegotiation that implies a concession of advantages to the debtor as a result of the deterioration of its creditworthiness or of its mitigators (debt restructuring), if the Bank asks for bankruptcy or other similar attitude towards the debtor, or if the debtor requests any type of judicial measure that limits, delay or prevent the fulfillment of its obligations under the agreed conditions.

The problematic assets can be reverted to the condition of normal course assets as long as there is evidence that the debtor has resumed its ability to honor its obligations under the agreed conditions. It is analyzed whether the debtor is not responsible for any pending arrears for more than ninety days, whether the asset no longer meets the criteria of problematic assets, whether continuous and effective payments have occurred in a period of not less than 3 months and whether the debtor's financial situation has improved to such an extent that the realization of the asset is probable.

#### **d) Impairment of non-financial assets**

At each reporting date, based on internal and external sources of information, the Bank determines if there are any indicators that a non-financial asset may be impaired. If an indicator does exist, the Bank calculates the asset's recoverable amount, which is the highest of: (i) its fair value less costs to sell it; and (ii) its value in use.

Regardless any indicator of impairment, the Bank tests the recoverable value of intangible assets not yet available for use and of goodwill in the acquisition of investments, at least annually, always at the same period.

If the asset's recoverable amount is less than its carrying amount, the carrying amount is reduced to its recoverable amount by recording an impairment loss.

Determining the recoverable amount of non-financial assets requires Management to exercise judgment and make assumptions. These estimates are based on market prices, present value calculations, other pricing techniques, or a combination of these methods.

#### **e) Income taxes**

Income and gains generated by the Bank are subject to income taxes in the jurisdictions in which the Bank operates. The determination of income taxes requires interpretation and the use of estimates. In the ordinary course of business, the final amount of income tax payable is uncertain for many different types of transactions and calculations. In these cases, the use of different interpretations and estimates may have resulted in different tax amounts being recorded.

Brazilian tax authorities can review the calculations made by the Bank and its subsidiaries for up to five years subsequent to the date on which a tax becomes due. During this process, the tax authorities may question the procedures adopted by the Bank, mainly with respect to the interpretation of tax legislation. However, Management believe that will not be required any significant adjustments to the income tax recorded in these financial statements.

#### **f) Recognition and assessment of deferred taxes**

Deferred tax assets are calculated on temporary differences and tax loss carryforwards. They are only recognized when the Bank expects to generate sufficient taxable income in the future to offset the amounts. The expected realization of the Bank's deferred tax assets is based on projections of future income and technical analyses in line with current tax legislation

The Bank reviews the estimates involved in the recognition and valuation of deferred tax assets based on current expectations and projections about future events and trends. The most important assumptions affecting these estimates relate to:

- (i) changes in the amounts deposited, delinquencies and customer base;
- (ii) changes in tax law;
- (iii) changes in interest rates;
- (iv) changes in inflation rates;
- (v) legal claims with an adverse impact on the Bank;
- (vi) credit, market and other risks associated with lending and investing activities;
- (vii) changes in the fair value of Brazilian securities, especially Brazilian government securities; and
- (viii) changes in domestic and global economic conditions.

### **g) Pensions and other employee benefits**

The Bank sponsors defined contribution and defined benefit pension plans, accounted for in accordance with CPC 33 (R1). Actuarial valuations for defined benefit plans are based on a series of assumptions, including:

- (i) interest rates;
- (ii) mortality tables;
- (iii) annual rate applied to the revision of retirement benefits;
- (iv) inflation index;
- (v) annual salary adjustment; and
- (vi) the method used to calculate vested benefit obligations for active employees.

Changes in these assumptions can have significant impact on the amounts determined.

### **h) Provisions, contingent assets and liabilities**

The recognition, measurement and disclosure of provisions, contingent assets and liabilities and legal obligations are carried out in accordance with the criteria defined by CPC 25.

Contingent assets are not recognized in the financial statements, however, they are recognized as assets when there is evidence assuring their realization, usually represented by the final judgment of the lawsuit and by the confirmation of the capacity for its recovery by receipt or offsetting by another receivable.

Contingent liabilities are recognized in the financial statements when, based on the opinion of legal advisor and Management, the risk of loss of legal or administrative proceedings is considered probable, with a probable outflow of financial resource for the settlement of the obligation and when the amounts involved are measurable with sufficient assurance, being quantified when judicial noticed and revised monthly as follows:

Aggregated Method: cases that are similar and recurring in nature and whose values are not considered individually significant. Provisions are based on statistical data. It covers civil or labor judicial proceedings (except labor claims filed by trade unions and all proceedings classified as strategic) with probable value of award, estimated by legal advisors, up to R\$ 1 million. The aggregated method covers all processes, regardless of the assessment carried out by the legal advisors.

Individual Method: cases considered unusual or whose value is considered relevant by our legal advisor. Provisions are based on the amount claimed; probability of an unfavorable decision; evidence presented; evaluation of legal precedents; other facts raised during the process; judicial decisions made during the course of the case; and the classification and the risk of loss of legal actions.

Contingent liabilities subject to individual method considered as possible losses are not recognized in the financial statements, they are disclosed in notes, while those classified as remote do not require any provision or disclosure.

## 5 – Acquisitions, disposals and corporate restructuring

### a) Incorporation of Broto

On January 04, 2023, according to the General Shareholders' Meeting, held on the same date by the Bank and the Brasilseg Companhia de Seguros S.A. (Brasilseg), indirect associated company through BB Seguridade Participações S.A., the incorporation of Broto S.A. was approved, after obtaining regulatory authorizations from Bacen, Sest and Cade. Broto began to conduct the business of the Broto Digital Platform (Broto Platform), which operates as a marketplace focused on the agribusiness production chain, previously managed by Brasilseg.

the Bank holds 100% of the preferred shares without voting rights, which are equivalent to 50% of Broto's total capital, and Brasilseg, 100% of the common shares, completing 100% of the capital of that share. Due to the 50% interest in the total capital of the new company, Brasilseg contributed with of a portion in cash and another part through the transfer of assets and rights which were associated to Broto Plataform, previously held by the Insurer, totaling an investment of R\$ 31.2 million. This same amount was paid by the Bank to subscribe the shares corresponding to the other 50% of the total capital of the new company.

The corporate documents provide for the granting, by Brasilseg, of a call option to BB on the totality of the shares held by it in Broto, exercisable upon payment of the entire amount contributed by the Insurer to Broto, adjusted by the CDI accumulated in the period, within a period of up to 12 months from the date of signature of the shareholders' agreement, renewable for an equal period.

From its incorporation, the investment was initially recognized at cost and subsequently measured using the equity method.

## 6 – Information by segment

The segment information was prepared based on internal reports used by the Executive Board of Directors to assess performance and make decision about the allocation of fund for investment and other purposes. The framework also takes into account the regulatory environment and the similarities between goods and services. The information was prepared based on internal management reports (Management Information), reviewed regularly by Management.

The Bank's operations were mainly in Brazil, divided into five segments: banking, investments, fund management, insurance (insurance, pension and capitalization) and payment methods. The Bank also engages in other activities, including consortium business and other services aggregated in "Other Segments".

The measurement of managerial income and of managerial assets and liabilities by segment takes into account all income and expenses as well as all assets and liabilities recorded by the controlled companies (Note 2). There were no common income or expenses nor common assets or liabilities allocated between the segments, for any distribution criteria.

Transactions between segments were eliminated in the column "Intersegment transactions". They were conducted at the same terms and conditions as those practiced with unrelated parties for similar transactions. These transactions do not involve any unusual payment risks.

None of the Bank's customers individually account for more than 10% of the Bank's income.

### a) Banking segment

The result was mainly from operations in Brazil with a wide array of products and services, including deposits, loans and services provided to customers through different distribution channels, located in the country and abroad.

The banking segment includes business with the retail, wholesale and public sector, which were carried out by the Bank's network and customer service teams. It also engages in business with micro-entrepreneurs and low-income population, undertaken through banking correspondents.

### b) Investments segment

This segment was responsible for operations in the domestic capital markets, acting in intermediation and distribution of debts in the primary and secondary markets, as well as being responsible for equity investments and the rendering of some financial services.

The income from financial intermediation of this segment were the accrued interest on securities investments net of interest expenses from third party funding costs. The principal equity investments were those in the associates, subsidiary companies and joint ventures. Financial service fee income were from economic/financial advisory services and the underwriting of fixed and variable income.

### c) Fund management segment

This segment comprises purchase, sale and custody of securities, portfolio management, and management of investment funds and clubs. Income consists mainly of commissions and management fees for services charged to investors.

### d) Insurance, pension and capitalization segment

In this segment, products and services offered were related to life, property and automobile insurance, private pension and capitalization plans.

The income were mainly from revenues from insurance premiums issued, contributions to private pension plans, capitalization bonds and investments in securities. The amounts offset by selling cost, technical insurance provision and expenses related to benefits and redemptions.

### e) Payment method segment

This segment comprises funding, transmission, processing and settlement of operations via electronic means.

Revenues were mainly from commissions and management fees charged to businesses and financial institutions for the services rendered, as well as income from rent, installation and maintenance of electronic terminals.

In thousands of Reais, unless otherwise stated

## f) Other segments

Other segments comprise the consortium management and other services segments, which have been aggregated as they were not individually significant.

Their revenues were originated mainly from rendering services not covered in previous segments, such as: credit recovery; consortium management; development, manufacturing, sale, lease and integration of digital electronic systems and equipment, peripherals, programs, inputs and computing supplies.

**c) Reclassification of securities**

In the January 1 to September 30, 2024, the BB Corretora Securities (Treasury Financial Letters - LFT) were reclassified from the category "Trading Securities" to the category "Held to maturity securities", in the amount of R\$ 1,668,707 thousand.

There was no reclassification of securities from January 1 to September 30, 2023.

## 11 – Derivative financial instruments

The Bank uses derivative financial instruments to manage, at the consolidated level, credit risk and to meet clients' needs, classifying its own positions as hedge (market risk and investment abroad) and trading, both within limits approved by committees of the Bank. The hedge strategy of the equity positions is in line with macroeconomic analyses, and it is approved by the Executive Board of Directors.

The derivative financial instruments used by the Bank are compatible with the defined objectives, observing the best risk and return ratio and considering the economic scenario. The risk categories of the derivative financial instruments are considered in the management of these instruments and the consolidated view of different risk factors are adopted.

The Bank assesses the liquidity of derivative financial instruments and identifies, in advance, means of reversing positions. Systems and processes that allow the recording, monitoring and controlling of operations with derivative financial instruments are used. In the options market, long positions have the Bank as holder, while short positions have the Bank as writer.

The main risks inherent to derivative financial instruments resulting from the business of the Bank and its subsidiaries are credit, market, liquidity and operational, which has its management process presented in note 30. The hedge accounting strategies are intended to mitigate market risks, such as changes in interest rates and changes in exchange rates.

The models used to manage derivatives' risks are reviewed periodically and the decisions made follow the best risk/return relationship, estimating possible losses based on the analysis of macroeconomic scenarios. The Bank uses appropriate tools and systems to manage the derivatives. New derivatives trades standardized or not, are subjected to a prior risk analysis.

Positioning strategies comply with established limits and risk exposure. Positions are reassessed daily and at the beginning of each day an evaluation of strategies and performances is conducted. Strategies are developed based on:

- analysis of economic scenarios;
- technical analysis (graphical) and fundamental analysis;
- simulation of expected results;
- Value-at-risk simulation (VaR, EVE, Stress).

The Bank carries out transactions with derivative financial instruments to hedge its own positions to meet the needs of our clients and to take intentional positions, according to limits, accountability and previously established procedures.

The objectives to be achieved with hedge operations are defined on a consolidated basis, ensuring the effectiveness of each operation and observing the regulations of each jurisdiction. Mechanisms for evaluating and monitoring the effectiveness of hedge operations are used in order to offset the effects of changes in market value, cash flow or exchange rate changes of the hedged item.

The risk assessment of the subsidiaries is undertaken on an individual basis and its management is done on a consolidated basis. The Bank uses statistical methods and simulations to measure the risks of its positions, including derivatives, using values at risk, sensibility and stress analysis models.

The VaR is used to estimate the potential loss, under usual market conditions, daily measured in monetary values, considering a confidence interval of 99.21%, a 10-day time horizon and a historical series of 252 business days.

In order to calculate the VaR, the Bank uses the Historical Simulation methodology, which assumes that the retrospective behavior of observed (historical) returns of risk factors constitutes relevant information to the measurement of market risks.

Accordingly, the calculated VaR for the Bank derivatives portfolio was R\$ 274,150 thousand (R\$ 379,218 thousand on December 31, 2023). Total credit exposure from swap is R\$ 2,442,268 thousand (R\$ 941,228 thousand on December 31, 2023).

### c) Hedge accounting

The Bank carries out fair value hedge and a net investment hedge in order to manage interest rate risk and exchange rate risk presented by own operations. The Bank documents the identification of the hedged item, the hedging instrument and the methodology to be used to assess its effectiveness from the conception of the accounting hedge structure.

The structure of risk limits extends to risk factor level, with specific limits aimed at improving the monitoring and understanding process, as well as avoiding the concentration of these risks.

The structures designated for the interest rate risk and exchange rate risk categories are carried out considering the risks in their entirety when there are compatible hedging instruments. By Management decision, in some cases, the risks are hedged by the term and risk factor limit of the hedging instrument.

In order to protect the fair value and exchange rate risk of instruments designated as the hedge item, the Bank uses derivative financial instruments (Futures and Swap).

At the beginning of the hedging relationship and continuously, the Bank evaluates and monitors their strategies to ensure that they are highly effective, i.e, the hedging instruments offset the changes in fair value attributed to the respective hedged items during the period established for the hedging relationship.

The evaluation of the effectiveness of hedge structures is carried out prospectively and retrospectively (in the course of operations). For this, some methodologies are used, such as:

- Dollar Offset Method (or Ratio Analysis), based on comparing the variation in the fair value of the hedging instrument with the variation in the fair value of the hedge item;
- Correlation coefficient between the variation in the present value of the hedging instrument and the variations in the present value of the hedge item;
- Beta coefficient of the regression between the regressor (represented by the change in the present value of the hedging instrument) and the regression (represented by the change in the present value of the hedge item).

In risk management, hedging instruments and hedge items are expected to move in opposite directions and in the same proportions, with the objective of neutralizing risk factors. Currently, the designated coverage ratio is 100% of the risk factor that is eligible for coverage. The sources of ineffectiveness, in general, are related to counterparty credit risk, the risk of early settlement of the hedge item and possible term mismatches between the hedging instrument and the hedge item.

#### c.1) Fair value hedge

The Bank's fair value hedging strategy consists of protecting exposure to changes in the fair value of interest payments and receipts relating to recognized assets and liabilities.

The fair value management methodology adopted by the Bank segregates transactions by risk factor (e.g. exchange rate risk, risk interest, inflation risk, etc.). Transactions generate exposures that are consolidated by risk factor and compared to pre-established internal limits.

The Bank uses interest rate swap contracts related to fixed assets and liabilities to protect the fair value variation in the receipt and payment of interest.

The Bank applies the fair value hedge as follows:

- The Bank has Fixed Consumer Direct Credit (CDC) loans on its portfolio. To manage this risk, interest rate futures (DI) operations are contracted and designated as fair value hedge of the corresponding loans, changing the exposure from fixed to post-fixed interest rates.
- The Bank has interest rate risk and foreign currency exposure generated by liabilities from issuance of securities and loans to financial institutions carried out abroad. The Bank designates swap operations (cross currency interest rate swap) as a hedging instrument in accounting hedge structure, changing exposure between foreign currencies and interest rates to manage this risk.
- The Bank has a fixed interest rate risk generated from issuance operations. To manage this risk the Bank contracts interest rate swaps and designates them as a hedging instrument in accounting hedge structure, changing the exposure from fixed to post-fixed interest rates.

### c.2) Hedge of net investment in a foreign operation

The hedging strategy for net investment in a foreign operation consists of protecting exposure to the exchange variation of the US dollar against the real due to the Bank's investment in BB Americas, whose functional currency is different from the real. The hedging instrument used is US dollar futures contracts. These operations are renewed monthly and the designated amount is updated every six months in view of changes in the investment amount considered in the hedge structure.

### Portfolio of derivatives designated as hedge of net investment in a foreign operation

90 days default of the portfolio renegotiated when past due	8,497,186	5,122,409	8,497,186	5,122,409
(%) Portfolio default	19.2%	14.1%	19.2%	14.1%

1 - Renegotiated credit under debt composition as a result of payment delay by the clients.

2 - Renegotiated current credits (i.e. not past due) in the form of the extension or renewal of the credit or the granting of new loans for partial or full settlement of previous contracts or any other type of agreement that changes the maturity or the payment terms, originally agreed.

3 - In the period of January 1 to September 30, 2023, includes renegotiated credits swapped for securities, within the scope of judicial recovery.

4 - Includes the amount of R\$ 288 thousand (R\$ 631 thousand as of September 30, 2023) related to renegotiated rural credits. The amount of R\$ 38.058.410 thousand (R\$ 18,794,000 thousand as of September 30, 2023), related to deferred credits from rural portfolio governed by specific legislation, is not included.

### l) Programs established to deal with the effects of COVID-19

The CMN Resolution 4,846/2020 allows financial institutions to participate in the government emergency employment support program (Programa Emergencial de Suporte a Empregos – Pese), under Law 14,043/2020.

According to this Program, financial institutions can provide funding to payroll of entrepreneurs, business companies and cooperative companies, except credit companies. Every financing operation have 85% of resources coming from the national Treasury Secretariat (STN) and the remaining 15% from the Financial Institution counterparty. The same percentage will be applied to the risk of default on credit operations and to possible financial losses.

Law 14,042/2020 established the Emergency Program for Credit Access in the form of receivables guarantee (Peac–Maquininhas). The program is intended to grant loans guaranteed by fiduciary assignment of receivables. In this modality, operations will be carried out entirely with resources from the Federal Government.

In accordance with CMN Resolution 4,855/2020, the Bank presents the balances of credit operations contracted within the scope of programs established to deal with the effects of COVID-19, whose credit risk is partially or fully assumed by the Federal Government, as well as the classification by risk level and the amount of allowance constituted for each level

Level of risk	% Minimum provision	Sep 30, 2024				12/31/2023			
		Value of loans	Minimum required allowance	Supplementary allowance <sup>1</sup>	Total	Value of loans	Minimum required allowance	Supplementary allowance <sup>1</sup>	Total
AA <sup>2</sup>		137,043	--	--	--	141,422	--	--	--
A	0.5	--	--	--	--	--	--	--	--
B	1.0	--	--	--	--	--	--	--	--
C	3.0	--	--	--	--	1	--	--	--
D	10.0	--	--	--	--	3	--	--	--
E	30.0	--	--	--	--	5	(2)	--	(2)
F	50.0	--	--	--	--	20	(10)	--	(10)
G	70.0	--	--	--	--	19	(13)	--	(13)
H	100.0	32	(32)	--	(32)	374	(374)	--	(374)
<b>Total</b>		<b>137,075</b>	<b>(32)</b>	<b>--</b>	<b>(32)</b>	<b>141,844</b>	<b>(399)</b>	<b>--</b>	<b>(399)</b>

<sup>1</sup> - Formulated in accordance with our internal risk classification models, corresponding to a provision scale of 30 intermediate risk levels compared to the minimum 9 levels (AA-H) required by CMN Resolution 2,682/1999. This calculation is based on factors related to the transaction, client profile, and available collateral, ensuring appropriate provisions for potential future losses.

<sup>2</sup> - Basically, refers to operations whose credit risk is assumed by the Federal Government.

(Allowance for losses)							(34,743)	--	--	--	(34,743)	

1 - It includes harmonization adjustments in accounting and considers the unrealized profits on transactions with the Banco do Brasil.

2 - Refers basically to foreign exchange on investments abroad and adjustments to the equity valuation of available-for-sale securities as well as those arising from the share buyback program of BB Seguridade.

3 - The investment value considering the quoted market price is R\$ 47,037,500 thousand (R\$ 44,586,250 thousand on December/2023).

4 - Refers to the percentage of the equity interest, considering the acquisition of shares by the invested entity held in treasury.

5 - The net income and equity income of subsidiaries abroad are stated without the effects of foreign exchange variation. These investments are subject to structural hedge and their foreign exchange impacts are reclassified to expenses with funds from financial institutions (Note 18.d.) in the consolidation process.

1 - It includes harmonization adjustments in accounting and considers the unrealized profits on transactions with the Banco do Brasil.

2 - These basically refer to the corporate restructuring, harmonization adjustments in accounting practices and equity valuation adjustments of available-for-sale securities.

3 - The Bank has significant influence over the investee through board seats or other measures.

4 - The Bank has joint control over the investees' relevant activities through contractual arrangements.

5 - Indirect interest of the Bank in Cateno, through its subsidiary BB Elo Cartões Participações S.A. The total share of the Bank is 64.49 % (50.20% on December, 2023). Cielo S.A. holds 70.00 % of direct interest in Cateno. On August 14, 2024, a tender offer was held to acquire shares of the Cielo that were traded on the market (Note 32.h).

6 - Indirect interest of the Bank in Cielo, through its subsidiary BB Elo Cartões Participações S.A., considering the acquisition of shares by the invested entity held in treasury. On August 14, 2024, a tender offer was held to acquire shares of the company that were traded on the market (Note 32.h), that way, the Bank's total stake in Cielo became 49.28%, having in view of the shares held by Liveloo and Elo Participações Ltda.

7 - Equity interest held by BB Seguros Participações S.A. It includes harmonization adjustments in accounting practices.

8 - The equity of Elo Participações Ltda. is calculated in proportion to the monthly contribution of BB Elo Cartões in the business of the company, according to agreement of November 01, 2017, between BB Elo Cartões and Bradescard.

9 - Unrealized profit arising from a new strategic partnership between BB Elo Cartões Participações S.A. and Cielo S.A., forming Cateno Gestão de Contas de Pagamento S.A. and unrealized profit arising from strategic partnership between BB-BI and UBS A.G.

1 - Includes the value related to the intangible asset with an undefined useful life.

## b) Goodwill impairment test

The recoverable amount of goodwill based on expected future profitability is determined by the value in use, which is the discounted value of the cash flow projections of the invested entity (cash-generating unit). For the evaluation of the banks, the free cash flow for shareholders discounted by the cost of equity capital calculated for each institution was used.

Assumptions used to project these cash flows are based on public information, budgets and/or business plans of the purchased entities. These assumptions consider current and past performance, as well as expected market and macroeconomic growth.

The cash flow of the entity below was actively projected for five years and considered perpetual from the last period with fixed growth rates. For the periods that exceed the terms of the budget or business plan, the growth estimates are in line with those adopted by the entity. The nominal discount rate is determined annually based on the CAPM (Capital Asset Pricing Model) adjusted for the market and the currency of each country.

Entity (cash-generating unit)	Growth rate p.a. <sup>1</sup>	Discount rate p.a. <sup>2</sup>
Banco Patagonia	32.50 %	112.61 %

1 - Nominal growth in perpetuity.

2 - Geometric average used in economic evaluations.

According to the sensitivity analysis performed, there is no indication that changes in the assumptions would cause the book value of the cash-generating units to exceed the recoverable amount.

In the periods presented, there was no impairment loss on goodwill based on expected future profitability.

1 - TADE - Allocation Term of Special Deposits.

2 - RA - Automatic Return (monthly, 2% of the total balance).

3 - Funds remunerated by the Taxa Média Selic (average selic rate - TMS).

4 - Funds remunerated by Long-term interest rate (TJLP) for resources released until Dec 31, 2017 and Long-Term Rate (TLP) for those released as of Jan 1st, 2018.

FAT is a special accounting and financial fund, established by Law 7,998/1990, associated with the Ministério do Trabalho e Emprego (Ministry of Labor and Employment) and managed by the Executive Council of the Fundo de Amparo ao Trabalhador (Fund for Workers' Assistance) – Codefat. Codefat is a collective, tripartite, equal level organization, composed of representatives of workers, employers and government, who acts as manager of the FAT.

The main actions to promote employment using FAT funds are structured around the Employment and Earnings Generating Program (Proger), which resources are invested through special deposits, established by Law 8,352/1991, in official federal financial institutions. These programs include, among others, the urban Proger program (Investment and Working Capital), Popular Entrepreneur, the National Program for Strengthening Family Farming – Pronaf, in addition to special lines such as FAT Taxista, FAT Turismo Investimento and FAT Turismo Capital de Giro.

The FAT special deposits invested in Banco do Brasil are daily accrued the Average Selic Rate (TMS), when not lent out. As they are invested in the financing, they will be remunerated by the Long Term Rate (TLP) as of January 1, 2018 and TJLP (Long Term Interest Rate) for funds released through December 31, 2017, until maturity. The accruals are paid to FAT on a monthly basis, as established in Codefat Resolutions 439/2005, 489/2006 and 801/2017.

### e) Endorsement fund for the generation of employment and income (Funproger)

The Endorsement fund for the generation of employment and income (Funproger) is a special accounting fund established on November 23, 1999 by Law 9,872/1999, amended by Law 10,360/2001 and by Law 11,110/2005 and regulated by Codefat Resolution 409/2004, and its amendments. It is managed by Banco do Brasil under the supervision of Codefat/MTE and the balance at December 31, 2020 is R\$ 485,872 thousand.

The objective of Funproger is to provide endorsement to entrepreneurs who do not have the necessary guarantees to contract financing by Proger Urbano and Programa Nacional de Microcrédito Produtivo Orientado, through the payment of a commission. The Funproger equity where incorporated from the spread between TMS and TJLP accrued over FAT special deposits. Other sources of funds are the operations accruals and the income paid by Banco do Brasil, the fund manager.

1 - Refers in funding in US dollars, the outstanding value, as occurred partial repurchases of these instruments.

2 - Compõem o nível II do Patrimônio de Referência (PR).

3 - Since August 28, 2014, the remuneration is fully variable (Note 23.c).

The amount of R\$ 21,995,183 thousand of the perpetual bonds and subordinated letters of perpetual is included in the Referential Equity (R\$ 20,074,697 thousand as of December 31, 2023), as supplementary capital, see PR calculation table presented in Note 30.c.

In June 2024, the Bank exercised the redemption option for the bonds issued in 2014.

The bonds issued in January 2013 of USD 2,000,000 thousand (outstanding value USD 1,723,600 thousand), had their terms and conditions modified on September 27, 2013, in order to adjust them to the rules of Bacen, which regulates the implementation of Basel III in Brazil. The changes were effective from October 1, 2013, when the instruments were submitted to Bacen to obtain authorization to be included in the Supplementary Capital (Tier I) of the Bank. The authorization was granted on October 30, 2013.

In April 2024, bonds issued in January 2013 had their interest rate reset in accordance with North American Treasury bonds due to the non-exercise of the redemption option.

If the Bank does not exercise the redemption option in April 2034 for the bonds issued in 2013, the rate of bond interest is adjusted on that date and every 10 years according to the 10-year North American Treasury bonds at the time plus the initial credit spread. The bonds have the following options of redemption, subject to prior authorization of Bacen:

- (i) the Bank may, at its option, redeem the bonds in whole but not in part in April 2034, and on each subsequent, semi-annual interest payment date, at the base redemption price;
- (ii) the Bank may, at its option, redeem the bonds in whole, but not in part, after five years from the date of issue, as long as it is before April 2034, as a result of a tax event, at the base redemption price;
- (iii) the Bank may, at its option, redeem the bonds in whole but not in part, after five years from the date of issue, as long as it is before in April 2034, on the occurrence of a regulatory event, at the higher value between the base redemption price and the Make-whole amount;

The bonds issued in January 2013 determine that the Bank suspend the semi-annual payments of interest and/or accessories on those securities issued (which will not be due or accrued) if:

- (i) distributable income for the period is not sufficient for making the payment (discretionary condition of the Bank);
- (ii) the Bank does not comply, or the payment of such charges does not allow the Bank to comply with the levels of capital adequacy, operating limits, or its financial indicators are under the minimum level required by Brazilian regulations applicable to banks;
- (iii) Bacen or the regulatory authorities determine the suspension of payment of such charges;
- (iv) any event of insolvency or bankruptcy occurs; or
- (v) a default occurs.

In thousands of Reais, unless otherwise stated

According to Basel III rules, the bonds issued in January 2013 have mechanisms of loss absorption. Moreover, if the item (i) occurs, the payment of dividends by Bank to its shareholders will be limited to the minimum required determined by applicable law until the semi-annual interest payments and / or accessories on those titles have been resumed in full. Finally, these bonds will expire permanently and at the minimum value corresponding to the balance recorded in the Tier I capital of the Bank if:

- (i) the main capital of the Bank is less than 5.125% of the amount of risk-weighted assets (RWA);
- (ii) the decision to make a capital injection from the public sector or an equivalent capital contribution to the Bank is taken, in order to maintain the bank's viability;
- (iii) the Central Bank, on a discretionary assessment regulated by the CMN, sets out, in writing, the expiration of the bonds to enable the continuity of the Bank.

### b) Provisions, contingent assets and liabilities

#### Contingent assets

Contingent assets are not recognized in the financial statements according to CPC 25 – Provisions, Contingent Liabilities and Contingent Assets.

#### Labor lawsuits

The Bank is a party to labor claims involving mainly former employees, banking industry unions or former employees of companies that provide services (outsourced). These claims cover requests of compensation, overtime, incorrect working hours, and additional functions bonus, subsidiary liability, among others.

#### Tax lawsuits

The Bank is subject to questions about taxes and tax conduct related to its position as a taxpayer or responsible for tax, in inspection procedures, which may lead to the issuance of tax notices. Most claims arising from the notices relate to service tax (ISSQN), income tax, social contribution (CSLL), the Social Integration Program (PIS), Contribution to Social Security Financing (Cofins), Tax on Financial Transactions (IOF), and Employer Social Security Contributions (INSS). To guarantee the disputed tax credit, the Bank has judicial deposits, pledged collateral in the form of cash, government bonds or real estate pledges when necessary.

#### Civil lawsuits

Civil lawsuits relate mainly to claims from customers and users of the Bank's network. In most cases, they are requesting indemnification for material or moral damages arising from banking products or services, inflationary deductions from Economic Plans about financial investments, judicial deposits and rural credit, return of payment due to revision of contractual clauses on financial responsibilities and actions of demanding accounts proposed by customers to explain entries made in checking accounts.

Indemnifications for material and moral damages are ordinarily based on consumer protection laws and generally settled in specific civil courts. In them, compensations are limited to forty times the minimum wage.

The Bank is a defendant in claims seeking the payment and refund of the difference between the actual inflation rate and the inflation rate used for the adjustment of financial investments and rural credit when Economic Plans (Bresser Plan, Verão Plans and Collor Plans I and II) were implemented in the late 1980's and early 1990's.

Although it complied with prevailing laws and regulations at the time, the Bank set-up provisions for these lawsuits. The provisions consider claims brought against the Bank and the loss risk. Loss probabilities are determined after an analysis of each claim considering the most recent decisions in the Superior Courts of Justice (STJ) in the Federal Supreme Court (STF).

With respect to cases involving the financial investments related to Economic Plans, the STF suspended prosecution of all cases in the knowledge phase. This will be the case until the court issues a definitive ruling. In the end of 2017, Febraban and the entities representing the savers signed an agreement about the demands involving the economic plans in savings accounts. This agreement has already been approved by STF. Since May 2018, savers can join the agreement, through a tool made available by Febraban. On March 12, 2020, the agreement was extended for 30 months, according to the Amendment signed by the entities representing financial institutions and consumers, being approved by the Plenary of the STF, according to the judgment published on June, 18, 2020, and newly extended for another 30 months, in voting at the Virtual Plenary of the STF, finalized on December, 16, 2022, whose judgment was published on January, 09, 2023.

Regarding lawsuits related to inflationary purges in judicial deposits, Minister Edson Fachin of the STF, after acknowledging the general repercussion of the constitutional matter dealt with in the Extraordinary Appeal interposed by the Bank, the Caixa Econômica Federal, the Federal Government and the Febraban (RE 1,141,156/RJ), has ordered the suspension of the processes that deal with the matter and that process in the national territory, which was confirmed by STF on December 19, 2019.

The Bank is a defendant on civil lawsuits moved by rural credit borrowers linked to Collor Plan I. The plaintiffs motioned that the Bank indexed their loans incorrectly and is liable to pay the difference. In 2015, STJ decided on the Special Appeal RESP 1,319,232-DF in the Public Civil Lawsuit ACP 94,008514-1, that the Federal Government, the Brazilian Central Bank and the Bank are jointly and severally liable for the indexation differences between the Customer Price Index (IPC - 84.32%) and the National Treasure Bonus (BTN - 41.28%), as found in March 1990, monetarily correcting the amounts from the overpayment, by the index applicable to judicial debts, plus interest for late payment. The defendants appealed and the litigation has yet to be resolved.

On June 22, 2021, the Extraordinary Appeal was dismissed, and a new one was applied by the Bank to the STJ. On February 1<sup>st</sup>, 2023, the Special Court of STJ admitted the Bank's appeal and ordered the processing and remittance of the Extraordinary Appeal to the STF. It was filled under the code number 1,445,162 and its trial is pending. On February 10, 2024, the Special Court of STF considered that is a constitutional matter and general interest issue (Theme 1,290/STF). On March 8<sup>th</sup>, 2024, the minister reporting the case ordered the national suspensive effect over all pending demands that deal with this same case, including agreements and provisional compliance with the related collective settlements linked to Public Civil Lawsuit ACP 94,008514-1.

### **Provisions for civil, labor and tax claims – probable loss**

The Bank recorded a provision for civil, labor and tax demands with risk of loss probable, quantified using individual or aggregated methodology, according to the nature and/or process value.

The estimates of outcome and financial effect are determined by the nature of the claims, management's judgment, the opinion of legal counsel based on process elements and complemented by the complexity and the experience of similar demands.

Management considers to be sufficient the provision for losses of civil, labor and tax claims.

The scenario of unpredictability in the duration of the legal procedures, as well as the possibility of changes in the jurisprudence of the courts, make the expected disbursement schedule uncertain.

### Contingent liabilities – possible loss

The civil, labor and tax lawsuits for which the risk of loss is considered possible do not require provisions when the final outcome of the process is unclear and when the probability of losing is less than probable and higher than the remote.

1 -Refers mainly to guarantees provided in foreign currency.

The operations of financial guarantees provided are evaluated through the risk classification models of operations in force in the institution, in the same format as the credit operations, which follow the provisions of CMN Resolutions 2,682 and 2,697 disclosed on December 21, 1999 and February 24, 2000, respectively, which set out the classification criteria for credit operations and the rules for the constitution of allowance for losses associated with credit risk.

The risk classification of operations is carried out by applying methodologies developed that take into account the characteristics of customers, operations and guarantees. The final result of the classification is the assignment of risk according to the scale contained in CMN Resolution 2,682/1999, which defines the percentage of provision that should be allocated to the operation.

In the period from 01/01 to 09/30/2024, it was possible to observe the realization of tax credits at Banco do Brasil, in the amount of R\$ 21.942.158 thousand (R\$ 22.309.267 thousand in the Consolidated), corresponding to 104% of the projection of use for the period of 2024 contained in the technical study prepared on December 31, 2023.

The realization of the nominal value of tax credits registered, based on a technical study conducted by Banco do Brasil on June 30, 2024, is projected for 10 years in the following proportions:

	Banco do Brasil		Consolidated	
	Tax losses/CSLL recoverable <sup>1</sup>	Temporary Differences <sup>2</sup>	Tax losses/CSLL recoverable <sup>1</sup>	Temporary Differences <sup>2</sup>
In 2024	30%	32%	30%	32%
In 2025	6%	34%	6%	34%
In 2026	0%	15%	0%	15%
From 2027	64%	19%	64%	19%

1 - Projected consumption linked to the capacity to generate IR and CSLL taxable amounts in subsequent periods.

2 - The consumption capacity results from the movements of provisions (expectation of reversals, write offs and uses).

## 23 – Shareholder's equity

### a) Book value and market value per common share

	Sep 30, 2024	Dec 31, 2023
Shareholders' equity - Banco do Brasil	177,680,724	163,638,226
Book value per share (R\$) <sup>1 2</sup>	31.13	28.67
Fair value per share (R\$) <sup>2</sup>	27.18	27.70
Shareholders' equity - consolidated	187,419,033	173,076,086

1 - Calculated based on the equity attributable to shareholders of Banco do Brasil.

2 - On December 31, 2023, adjusted for comparability due to shares split at a 1:2 proportion (Note 23.b).

### b) Capital

Banco do Brasil's share capital of R\$ 120,000,000 thousand (R\$ 120,000,000 thousand on December 31, 2023) is fully subscribed and paid-in and consists of 2,865,417,020 common shares (before split) with no par value. The Federal Government is the largest shareholder and holds a majority of the Bank's voting shares.

On April 15, 2024, the split of 100% of the Bank's shares was carried out, assigning one new share for each share issued, without changing the equity and percentage participation of shareholders, according to the deliberation of the Extraordinary General Meeting held on February 02, 2024 and authorization from Bacen on March 04, 2024.

Therefore, for comparability purposes, the number of shares in the previous periods and the calculations that depend on these values, presented in these financial statements, have been adjusted to include a 1:2 stock split.

### c) Instruments qualifying as common equity tier 1 capital

The Bank signed a loan agreement with the federal government on September 26, 2012, as hybrid capital and debt instrument, in the amount up to R\$ 8,100,000 thousand, whose resources were designated to finance agribusiness.

As result of the amendment, on 28.08.2014, the interest rate was changed to variable rate, and the interest period was changed to match the Bank's fiscal year (January 1 to December 31). Each years' interest is paid in a single annual installment, adjusted by the Selic rate up to the effective payment date. Payment must be made within 30 calendar days after the dividend payment for the fiscal year.

The interest payment must be made from profits or profit reserves available for distribution at the end of the fiscal year preceding the calculation date. Payment is at Management's discretion. Unpaid interest does not accumulate. If the payment or dividend distribution is not made (including in the form of interest on own capital) prior to the end of the subsequent fiscal year, the accrued interest is no longer owed.

If the Bank's retained earnings, profit reserves (including the legal reserve) and capital reserve cannot fully absorb losses calculated at the end of a fiscal year, the Bank will no longer be obligated to the interest. The Bank will apply the accrued interest and principal balance, in this order, to offset any remaining losses. This will be considered a pay-down of the instrument.

The instrument does not have a maturity date. It is only payable if the Bank is dissolved or Bacen authorizes the repurchase of the instrument. If the Bank is dissolved, the payment of principal and interest is subordinated to payment of the Bank's other liabilities. There will be no preferred interest on the loan under any circumstances, including in relation to other equity instruments included in Reference Equity.

As the instrument is qualifying as Common Equity Tier I Capital, under the terms of Law 12,793 of April 02, 2013, and Resolution 4,955/2021, its balance is reclassified to the Shareholders' Equity, for disclosure purposes.

According to the Information to the Market, dated April 8, 2021, the Bank presented a proposal to return the referred instrument in seven annual installments of R\$ 1 billion and a final installment of R\$ 1.1 billion, based on a schedule between July/2022 and July/2029. On July 29, 2024, the Bank returned to the National Treasury the amount of R\$ 1 billion referring to the third installment, which early settlement has been authorized by Bacen on June 24, 2024.

#### d) Capital and profit reserves

	Banco do Brasil		Consolidated	
	Sep 30, 2024	Dec 31, 2023	Sep 30, 2024	Dec 31, 2023
Capital reserves	1,410,593	1,406,118	1,412,070	1,407,902
Profit reserves	67,760,953	61,526,683	67,322,014	61,154,159
Legal reserve	14,341,868	13,458,379	14,341,868	13,458,379
Statutory reserves	53,419,085	48,068,304	52,980,146	47,695,780
Operating margin	50,480,601	42,244,223	49,870,206	41,708,123
Capital payout equalization	2,938,484	5,824,081	3,109,940	5,987,657

The capital reserve is intended, among others, to recognize the amounts related to transactions with share based payments or other share capital instruments to be settled with the delivery of equity instruments, as well as the profit earned on the sale of treasury shares.

The legal reserve ensures the adequacy of the Bank's capital structure and can only be used to offset losses or increase capital. Five percent of net income, before any other allocations, is transferred to the legal reserve. The amount of the reserve cannot exceed 20% of the share capital.

The operating margin statutory reserve ensures the adequacy of the Bank's operating margins in accordance with its business activities. The reserve consists of up to 100% of net income after allocation to legal reserve (including dividends) and is limited to 80% of the share capital.

The reserve for capital payout equalization provides funds for the capital payout. The reserve consists of up to 50% of net income after allocation to legal reserve (including dividends) and is limited to 20% of the share capital.

#### e) Earnings per share

	01/01 to 30/09/2024	01/01 to 30/09/2023
Net income Banco do Brasil (R\$ thousand)	26,571,881	24,835,460
Weighted average number of shares (basic) <sup>1</sup>	5,708,392,262	5,707,985,480
Weighted average number of shares (diluted) <sup>1 2</sup>	5,707,839,738	5,707,434,582
Earnings per share (basic and diluted) (R\$)	4.65	4.35

1 - On September, 2023, adjusted amounts for comparability due to shares split at a 1:2 proportion (Note 23.b).

2 - The reconciliation of the weighted average number of shares is represented by the future distribution of shares to the executives of the Bank according to the Variable Remuneration Program (Notes 23.m), of 552,524 and 550,897 respectively, in each of the periods presented.

#### f) Interest on own capital/dividends and destination of the income

In accordance with Laws 9,249/1995, 9,430/1996 and the Bank's Bylaws, Management decided on the payment of Interest on own capital to its shareholders.

In compliance with the income tax as well as social contribution legislation, the interest on own capital is calculated based on adjusted net equity value. It is limited, on a pro rata die basis, to the variation of long-term interest rate, as long as there is profit (before the deduction of interest on own capital) or reserves for retained earnings and profit reserves of at least twice its value, being deductible in the calculation of the taxable income.

### j) Shareholdings (number of shares)

Number of shares issued by the Bank to shareholders which, directly or indirectly, hold more than 5% of the shares:

Shareholders	Sep 30, 2024		Dec 31, 2023	
	Shares	% Total	Shares <sup>1</sup>	% Total
Federal government - Tesouro Nacional	2,865,417,084	50.0	2,865,417,084	50.0
Caixa de Previdência dos Funcionários do Banco do Brasil - Previ	257,988,090	4.5	204,417,348	3.6
Treasury shares <sup>2</sup>	22,876,034	0.4	23,281,960	0.4
Other shareholders	2,584,552,832	45.1	2,637,717,648	46.0
<b>Total</b>	<b>5,730,834,040</b>	<b>100.0</b>	<b>5,730,834,040</b>	<b>100.0</b>
Resident shareholders	4,353,082,134	76.0	4,225,739,888	73.7
Non resident shareholders	1,377,751,906	24.0	1,505,094,152	26.3

1 - Adjusted for comparability due to shares split at a 1:2 proportion (Note 23.b).

2 - It includes, on September 30, 2024, 89,466 shares of the Bank held by BB Asset (100,500 on December 31, 2023).

In thousands of Reals, unless otherwise stated

Number of shares issued by the Bank, held by the Board of Directors, the Executive Board, Fiscal Council and the Audit Committee:

	Ações ON <sup>1 2</sup>	
	Sep 30, 2024	Dec 31, 2023
Board of Directors (except for Bank's CEO)	--	2,000
Executive Committee (it includes the Bank's CEO)	262,858	186,850
Fiscal council	22,576	21,678
Audit Committee	4,808	4,808

1 - On December 31, 2023, adjusted for comparability due to shares split at a 1:2 proportion (Note 23.b).

2 -The shareholding interest of the Board of Directors, Executive Committee, Fiscal Council and Audit Committee represents approximately 0.005% of the Bank's capital stock.

### k) Movement of shares outstanding/free float

	Sep 30, 2024		Dec 31, 2023	
	Total <sup>1</sup>	% Total	Total <sup>1</sup>	% Total
Free float at the beginning of the period	2,841,946,128	49.6	2,841,491,502	49.6
Other changes <sup>2</sup>	331,918		454,626	
Free float at the end of the period <sup>3</sup>	2,842,278,046	49.6	2,841,946,128	49.6
<b>Outstanding shares</b>	<b>5,730,834,040</b>	<b>100.0</b>	<b>5,730,834,040</b>	<b>100.0</b>

1 - Adjusted for comparability due to shares split at a 1:2 proportion (Note 23.b).

2 - It includes changes coming from Technical and Advisory Bodies.

3 -The shares held by the Board of Directors and Executive Committee are not included. The shares held by the Caixa de Previdência dos Funcionários do Banco do Brasil - Previ compose the free float shares.

### l) Treasury shares

The composition of the treasury shares is shown below:

## m) Share-based payment

### The Program of Variable Remuneration

The program of variable remuneration was based on the CMN Resolution 3,921 of November 25, 2010, which governs compensation policies for executives of financial institution.

The program has a yearly basis period. It is established according to the risks and the activity overseen by the executive and has as pre requirements: the activation of the Participation in Profit or Results Program and the achievement of accounting profit by the Bank.

The calculation of variable remuneration is based on indicators that measure the achievement of corporate and individual goals, based on the Corporate Strategy of Banco do Brasil - ECBB for the period. The program also determines that 50% of the remuneration should be paid in cash and the remaining 50% should be paid in shares.

The number of Banco do Brasil shares to be allocated to each participant is calculated by dividing the net amount equivalent to 50% of variable remuneration to which one is entitled, to the average price of the share in the week prior to the payment. The average price is the simple arithmetic mean of the daily average prices of the week prior to the payment.

The distribution of compensation in shares occurs in a way that 20% is immediately transferred for the beneficiary's ownership and 80% is deferred.

The effects of the Program of Variable Remuneration on the income of Banco do Brasil were R\$ 18,709 thousand in the period from January 1, 2024, to September 30, 2024 (R\$ 19,373 thousand in the period from January 1, 2023, to September 30, 2023).

BB Asset, in accordance to the resolution mentioned above, also adopted variable remuneration policy for its directors, directly acquiring treasury shares of the Banco do Brasil. All shares acquired are BBAS3 and its fair value is the quoted market price on the date of grant.

## 28 – Related party transactions

### a) Bank's key management personnel

Salaries and other benefits paid the Bank's key management personnel (Executive Board and Board of Directors) are as follows:

	01/01 to 30/09/2024	01/01 to 30/09/2023
<b>Short-term benefits</b>	<b>43,906</b>	<b>38,405</b>
Compensation and social charges	25,039	21,911
Executive Board	24,779	21,626
Board of Directors	260	285
Variable remuneration (cash) and social charges	13,576	12,253
Other <sup>1</sup>	5,291	4,241
<b>Termination benefits</b>	<b>411</b>	<b>3,266</b>
<b>Share-based payment benefits</b>	<b>14,089</b>	<b>8,595</b>
<b>Total</b>	<b>58,406</b>	<b>50,266</b>

1 - Includes compensation for the members of the Audit Committee and Risks and Capital Committee that are part of the Board of Directors, as well as employer contributions to pension plan and complementary healthy plan, housing assistance, removal benefits, group insurance, among others.

The Bank's variable compensation policy (developed in accordance with CMN Resolution 3,921/2010) requires variable compensation for the Executive Directors to be paid partially in shares (Note 23.m).

The Bank does not offer post-employment benefits to its key management personnel, except for those who are part of the staff of the Bank.

### b) Details of related party transactions

The Bank has the policy of related party transactions approved by the Board of Directors and disclosed to the market. The policy aims to establish rules to assure that all decisions, especially those involving related party and other situations potentially conflicted, are made observing the interests of the Bank and its shareholders. It is applicable to all staff and directors of the company.

The policy forbids related party transactions under conditions other than those of the market or that may adversely affect the Bank's interest. Therefore, the transactions are conducted under normal market conditions. The terms and conditions reflect comparable transactions with unrelated parties (including interest rates and collateral requirements). These transactions do not involve unusual payment risks, as disclosed in other notes.

The transactions between the consolidated companies are eliminated in the consolidated financial statements.

The main transactions carried out by the Bank with related parties are:

- a) intercompany transactions, such as: interbank deposits, securities, loans, interest bearing and non-interest bearing deposits, securities sold under repurchase agreements, borrowings and onlendings, guarantees given and others;
- b) receivables from the National Treasury for interest rate equalization under Federal Government programs (Law 8,427/1992). Interest rate equalization represents an economic subsidy for rural credit, which provides borrowers with discounted interest rates compared to the Bank's normal funding costs (including administrative and tax expenses). The equalization payment is updated by the Selic rate in accordance with the National Treasury's budgeting process (as defined by law) and is designed to preserve the Bank's earnings;
- c) Previ uses the Bank's internal systems for voting, selective processes and access to common internal standards, which generates cost savings for both parties involved;

In thousands of Reais, unless otherwise stated

- d) Related parties loan physical space to the Bank free of charge with the Bank, using the spaces mainly for the installation of self-service terminals, banking service offices and branches. These free of charge loans with related parties do not represent significant value, because the most of them are carried out with third parties;
- e) provision of business support services for controlled and sponsored entities for which the Bank is reimbursed for its costs with employees, technology and materials. Sharing of structure aims to gain efficiency for the Conglomerate. In the period from January 1 to September 30, 2024, the Bank was reimbursed a total of R\$ 750,728 thousand (R\$ 684,549 thousand in the period from January 1 to September 30, 2023), related to the structure sharing and a total of R\$ 323,236 thousand (R\$ 269,030 thousand in the period from January 1 to September 30, 2023) in the Consolidated. Additional information regarding the assignment of employees can be obtained in Note 32.d – Assignment of employees to outside agencies;
- f) contracts in which the Bank rents property owned by the entities sponsored to carry out its activities;
- g) acquisition of portfolio of loans transferred by Banco Votorantim;
- h) assignment of credits arising from loans written off as losses to Ativos S.A.;
- i) hiring specialized services from BB Tecnologia S.A (BBTS) for specialized technical assistance, digitization and copy of documents, telemarketing, extrajudicial collection, support and backing for financial and non-financial business processes, monitoring, supervision and execution of activities inherent to equipment and environments, software development, support and testing, data center support and operation, management of cell phone electronic messages, outsourcing and monitoring of physical security systems and telephony outsourcing;
- j) amounts receivable arising from the honors requested by the Bank to the Guarantee Funds (in which the Federal Government holds participation), according to the terms and conditions established by the regulation of each guarantee program. The Guarantee Funds are public or private nature instruments intended to guarantee projects and credit operations, aiming to, among others, enable structured enterprises of the Federal Government and support the inclusion of individuals and companies in the credit market; and
- k) Guarantees received and given and other coobligations, including contract of opening of a revolving interbank credit line with Banco Votorantim.

The Bank and Caixa Econômica Federal (CEF) signed a credit opening agreement for real estate loans, in the amount up to R\$ 1,830,000 thousand, in 2024 (up to R\$ 1,650,000 thousand in 2023).

The balances arising from the transactions above mentioned are disclosed in the "Summary of related party transactions" segregated by nature and category of related parties.

Some transactions are disclosed in other notes: the resources applied in federal government securities are listed in Note 10; information about the government funds is related in Notes 19 and 20; and additional information about the Bank's contributions and other transactions with sponsored entities are listed in Note 29.

Fundação Banco do Brasil (FBB) promotes, encourages and sponsors actions in the areas of education, culture, health, social welfare, recreation and sports, science, technology and community development. In the period from January 1 to September 30, 2024, the Bank's contributions to FBB totaled R\$ 130,510 thousand (R\$ 83,684 thousand in the period from January 1 to September 30, 2023).

### c) Acquisition of portfolio of loans transferred by Banco Votorantim

	Jan 1 to Sep 30, 2024	Jan 1 to Sep 30, 2023
Assignment with substantial retention of risks and rewards (with co-obligation)	5,122,409	6,154,581

In thousands of Reais, unless otherwise stated

#### d) Summary of related party transactions

We present the related party transactions segregated into the following categories:

- Controller:** Union (National Treasury and agencies of the direct administration of the Federal Government);
- Subsidiaries:** Companies are listed in Note 2.e;
- Associates and joint ventures:** Mainly refer to Banco Votorantim, Cielo, BB Mapfre Participações, Brasilprev, Brasilcap, Alelo, Cateno and Tecban;
- Key management personnel:** Board of Directors and Executive Board; and
- Other related parties:** State-owned companies and public companies controlled by the Federal Government, such as: Petrobras, CEF and BNDES. Government funds such as: Fundo de Amparo ao Trabalhador – FAT, Fundo de Aval para Geração de Emprego e Renda – Funproger. In addition, entities linked to employees and sponsored entities: Cassi, Previ and others.

Detailed information regarding defined benefit plans is provided in Note 29.d.4.

## a) Retirement and pension plans

### Previ Futuro (Previ)

Participants in this plan include Bank employees hired after December 24, 1997. Depending on time of service and salary, active participants may contribute between 7% and 17% of their salary (retired participants do not contribute). The plan sponsor matches participants' contributions up to 14% of their salaries.

### Plano de Benefícios 1 (Previ)

Participants in this plan include Bank employees hired prior to December 23, 1997. Active and retired participants may contribute between 1.8% and 7.8% of their salary or pension.

### Plano Informal (Previ)

Banco do Brasil is fully responsible for this plan. The Bank's contractual obligations include to:

- (i) providing retirement benefits to the initial group of participants and pension payments to the beneficiaries of participants who died prior to April 14, 1967;
- (ii) paying additional retirement benefits to plan participants who retired prior to April 14, 1967, or had the right to retire based on time of service and at least 20 years of service with the Bank; and
- (iii) increasing retirement and pension benefits due to judicial and administrative decisions related to changes in the Bank's career, salary and incentive plans (in excess of the plan's original benefits).

### Prevmais (Economus)

Participants in this plan include employees of Banco Nossa Caixa (a bank acquired by Banco do Brasil on November 30, 2009) who enrolled after August 01, 2006, or were part of the Regulamento Geral benefit plan and opted to receive their vested account balances. The sponsor and participants make equal contributions, which may not exceed 8% of participants' salaries. The plan provides additional risk coverage, including supplemental health, work-related accident, disability and death benefits.

### Regulamento Geral (Economus)

Participants in this plan include employees of Banco Nossa Caixa who enrolled prior to July 31, 2006. This plan is closed to new members. The sponsor and participants contribute equally.

### Regulamento Complementar 1 (Economus)

Participants in this plan include employees of Banco Nossa Caixa. This plan offers supplemental health benefits and annuities upon death or disability. The sponsor, participants and retired/other beneficiaries fund the plan.

### Grupo B' (Economus)

Group of employees and retirees of Banco Nossa Caixa admitted between January 22, 1974, and May 13, 1974, and their beneficiaries.

### Multifuturo I (Fusesc)

Participants in this plan include employees of the State Bank of Santa Catarina – Besc (acquired by Banco do Brasil on September 30, 2008) who enrolled after January 12, 2003, or were part of the Plano de Benefícios I (Fusesc) and chose to participate in this plan. Participants may contribute from 2% to 7% of their salaries. The plan sponsor matches these contributions.

### Plano de Benefícios I (Fusesc)

Participants in this plan include employees of Besc who enrolled prior to January 11, 2003. This plan is closed to new members. The sponsor and participants contribute equally.

### Plano BEP (Prevbep)

Participants in this plan include employees of the State Bank of Piauí – BEP (acquired by Banco do Brasil on November 30, 2008). The sponsor and participants contribute equally.

## **b) Health care plans**

### **Plano de Associados (Cassi)**

The Bank sponsors a health care plan managed by Cassi. The plan covers health care services related to prevention, protection, recovery and rehabilitation for participants and their beneficiaries. Each month, the Bank contributes 4.5% of participants' salaries or pension benefits, in addition to 3% per dependent of active employee (up to three dependents).

Monthly contributions by participants and pensioners total 4% of their salary or pension, copayments for certain hospital procedures, in addition to the contribution per dependent, following the rules provided for in the Cassi Statute and in the plan's regulations.

### **Plano Unificado de Saúde - PLUS (Economus)**

Participants in this plan include employees from Banco Nossa Caixa, who enrolled prior to December 12, 2000. Participation in this plan requires a direct payroll deduction of 1.5%, providing coverage for employees and certain preferred dependents. An additional 10% copayment is required for each medical visit and low-cost exam performed by employees and their dependents (both preferred and non-preferred).

### **Plano Unificado de Saúde - PLUS II (Economus)**

Participants in this plan include employees from Banco Nossa Caixa, who enrolled after January 01, 2001. Participation in this plan requires a direct payroll deduction of 1.5%, providing coverage for employees and certain preferred dependents. An additional 10% copayment is required for each medical visit and low-cost exam performed by employees and their dependents and adult children. This plan does not cover non-preferred dependents.

### **Plano de Assistência Médica Complementar - PAMC (Economus)**

Participants in this plan include employees of Banco Nossa Caixa located in the state of São Paulo. The plan serves disabled employees under the Complementar and Regulamento Geral and their dependents. Participant costs vary based on usage and in accordance with a progressive salary table.

### **Plano de Saúde (SIM)**

Participants in this plan include employees of Besc and other sponsors of the plan (including Badesc, Bescor, Fusc and SIM). The monthly contribution of the active beneficiaries is variable according to the beneficiary's age, owed by themselves and their dependents, and the contribution's sponsors, in relation to the active beneficiaries and their respective dependents, is also variable according to its age group. The plan also provides copayment in medical appointments, exams and home care, following the rules set out in the plan's regulations.

**c) Risk factors**

The Bank may be required to make extraordinary contributions to sponsored entities, which may adversely affect the Bank's operating income and shareholders' equity.

In one hand, from an asset point of view, actuarial risk is associated with the possibility of losses resulting from fluctuation (decrease) in the fair value of plan assets. On the other hand, from the point of view of actuarial liabilities, the risk is associated with the possibility of losses arising from the fluctuation (increase) in the present value of the actuarial obligations of the plans of the Defined Benefit category.

Determination of the Bank's obligations to these entities is based on long-term actuarial and financial estimates and the application and interpretation of current regulatory standards. Inaccuracies inherent to the estimation process could result in differences between recorded amounts and the actual obligations in the future. This could have a negative impact on the Bank's operating results.

In thousands of Reais, unless otherwise stated

#### d) Actuarial valuations

Actuarial evaluations are performed every six months. The information contained in the below tables refers to the calculations on June 30, 2024 and on Dec 31, 2023.

Capitalization method	Projected credit unit		Projected credit unit		Projected credit unit		Projected credit unit	

In order to determine the values for the defined benefit plans, the Bank uses methods and assumptions different from those submitted by the entities sponsored.

CPC 33 (R1) addresses the accounting, as well as the effects that occurred or that will occur in the entities that sponsor employee benefits plans. However, the sponsored entities themselves must comply with the rules issued by the Ministério da Previdência Social, through the Conselho Nacional de Previdência Complementar (CNPc) and the Superintendência Nacional de Previdência Complementar (Previc). The most significant differences are in the definition of the assumptions used in Plano 1 – Previ.

In thousands of Reais, unless otherwise stated

**d.9) Differences in assumptions of the Plano 1 – Previ on June 30, 2024**

	Bank	Previ
Real discount rate (p.a.)	8.44%	4.75%
Evaluation of assets		
Federal government bonds	Fair value	Amortized Cost
Equity stakes	Fair value	Adjusted Value <sup>1</sup>
Capitalization method	Projected credit unit	Aggregate method

<sup>1</sup> - In the valuation methodology for its investment in Litel, uses as reference the closing price of vale's share, the Litel group's main asset, on the penultimate day of each month.

**d.10) Reconciliation of amounts calculated in Plan 1 - Previ/Bank**

	Plan assets		Actuarial liabilities		Effect in surplus/(deficit)	
	June 30, 2024	Dec 31, 2023	June 30, 2024	Dec 31, 2023	June 30, 2024	Dec 31, 2023
<b>Value determined - Previ</b>	<b>213,664,308</b>	<b>222,368,862</b>	<b>(210,693,227)</b>	<b>(208,014,404)</b>	<b>2,971,081</b>	<b>14,354,458</b>
Adjustment in the value of plan assets <sup>1</sup>	(16,649,509)	(5,142,631)	--	--	(16,649,509)	(5,142,631)
Adjustment in the liabilities - discount rate/capitalization method	--	--	60,047,686	37,829,984	60,047,686	37,829,984
<b>Value determined - Bank</b>	<b>197,014,799</b>	<b>217,226,231</b>	<b>(150,645,541)</b>	<b>(170,184,420)</b>	<b>46,369,258</b>	<b>47,041,811</b>

<sup>1</sup> - Refers mainly to adjustments made by the Bank in determining the fair value of the investments in Litel and in securities held to maturity.

**d.11) Sensitivity analysis**

The sensitivity analysis is performed for changes in a single assumption while maintaining all others constant. This is unlikely in reality, since some of the assumptions are correlated.

The same methodology was used to perform the sensitivity analysis in each of the periods presented. However, the discount rate was updated to reflect market conditions.

The table below presents the sensitivity analysis of the most relevant actuarial assumptions, showing the increase/(decrease) in defined benefit obligations, with variations reasonably possible for June 30, 2024.

	Discount rate		Life expectancy		Salary increase	
	+0,25%	-0.25%	+1 age	-1 age	+0,25%	-0.25%
Plano 1 (Previ)	(2,733,362)	2,832,199	2,360,951	(2,415,829)	3,347	(3,341)

<b>Total</b>	<b>24,447,636</b>	<b>23,851,683</b>	<b>(12,183,060)</b>	<b>(13,586,739)</b>

### f) Allocations of the Surplus - Plano 1

	01/01 to 30/09/2024	01/01 to 30/09/2023
<b>Fundo de Utilização <sup>1</sup></b>		
<b>Opening balance</b>	<b>11,608,853</b>	<b>11,315,371</b>
Contributions to Plano 1	(473,538)	(458,632)
Restatement	793,177	730,490
<b>Closing balance</b>	<b>11,928,492</b>	<b>11,587,229</b>

1 - Contains resources transferred from the Fundo de Destinação (because of the plan's surplus). The Bank can use for repayments or to reduce future contributions (after first meeting all applicable legal requirements). The fund is recalculated based on the actuarial target (INPC + 4.75% p.a.).

## 30 – Risk and capital management

### a) Risk management process

Banco do Brasil considers risk and capital management as one of the main vectors for the decision-making process.

The institution has a process for identifying and evaluating risks that results in a corporate set of relevant risks, carried out using a methodology that considers external inputs, such as regulatory guidelines, relevant concerns of the global financial industry and benchmarks with other institutions. As internal inputs, the risks incurred by ELBBs, the risk factors disclosed in the Reference Form (FR), the risks identified by managers, in the first line, and the strategic drivers are evaluated. The identified risks have their relevance classification defined based on quantitative and qualitative criteria.

Risk definition is carried out considering quantitative and qualitative criteria, and results in the following relevant risks:

- a) Strategic risk;
- b) Social, environmental and climate risk;
- c) Credit risk;
- d) Actuarial risk;
- e) *Banking book* interest rate risk;
- f) Market risk;
- g) Liquidity risk;
- h) Contagion risk;
- i) Operational risk; and
- j) Reputational risk.

The Bank periodically reviews the Corporate Set of Relevant Risks. For relevant risks, stages of implementation of management structure and processes are established, with the minimum activities to be considered to treat the risks.

The process of identifying and assessing the relevance of risks has been improved, with the participation of the 1st first line of defense in qualitative risk assessment discussions. The participation of specific managers improves the risk assessment process, allowing the perceptions of those involved to be captured and the risk management culture to be disseminated.

The 2023 methodology was improved with the development of specific scales for the relevance of Social, Environmental and Climate Risk (RSAC) and Reputation Risk, due to the transversal nature of these risks. In addition to reviewing Credit Risk categories.

At the Bank, risk and capital management is carried out separately from the business and internal audit units. The specific Risk and Capital Management policy is approved by the Board of Directors, with the opinion of the Advisory Committees. Risk management is carried out in accordance with the policies and strategies of the Bank's Senior Management.

To learn more about the risk and capital management process in Banco do Brasil, visit the information available in the Risk Management Report and in the Recovery Plan at the website [bb.com.br/ir](http://bb.com.br/ir).

## Financial instruments - fair value

Financial instruments recorded in balance sheet accounts, compared to fair value:

	Sep 30, 2024		Dec 31, 2023	
	Book value	Fair value	Book value	Fair value
<b>Assets</b>				
Cash and due from banks	24,215,366	24,215,366	17,327,745	17,327,745
Deposits with Central Bank of Brasil	120,353,854	120,353,854	101,805,900	101,805,900

Resources from issuance of debt securities	293,313,668	293,313,668	284,156,307	284,156,307
Derivative financial instruments	4,432,846	4,432,846	2,509,742	2,509,742
Other financial liabilities	203,449,105	203,449,105	161,864,745	161,864,745

### Determination of fair value of financial instruments

**Short-term interbank investments:** The fair value was obtained by discounting future cash flows, using interest rates traded by the market in similar operations on the balance sheet date.

**Securities:** accounted by fair value, according to Bacen Circular 3,068/2001, except for securities held to maturity. The fair value of the securities, including those held to maturity, was obtained from rates practiced in the market.

**Loan operations:** For the operations of this group, remunerated at post-fixed rates, the fair value of the book value itself was considered, due to the equivalence between them. The operations remunerated at prepaid interest rates were estimated by discounting future cash flows, adopting market interest rates to contract similar operations at the balance sheet date.

**Interbank deposits:** The fair value was calculated by the discount of the future cash flows using rates currently applicable in the market for fixed rate deposits. For post-fixed operations whose maturities were less than 30 days, the book value was deemed approximately equivalent to the fair value.

**Time deposits:** The same criteria adopted for interbank deposits are utilized in the determination of the fair value.

**Liabilities related to repurchase agreement:** For operations at fixed rates, the fair value was determined calculating the discount of the estimated cash flows adopting a discount rate equivalent to the rates applied in contracting similar operations on the last trading day. For post-fixed operations, book values have been deemed approximately equivalent to fair value.

**Borrowings and onlendings:** Such operations are exclusive to the Bank with no similar operations in the market. Given their specific characteristics, the exclusive rates for each fund, the inexistence of an active market or similar traded instruments, the fair values of such operations are considered equivalent to the book value.

**Other liabilities:** Fair values have been determined by the discounted cash flow method, which takes into account interest rates offered in the market for obligations with similar maturities, risks and terms.

In thousands of Reais, unless otherwise stated

**Derivatives financial instruments:** Derivatives were booked at fair value, according to Bacen Circular No. 3,082/2002. The fair value of derivatives was estimated in accordance with internal pricing models, using the interest rates disclosed for transactions with similar terms and indices on the last business day of the period.

**Other financial instruments:** Included or not in the balance sheet, fair value is approximately equivalent to the corresponding book value.

### Source of information regarding assets and liabilities measured at fair value in the balance sheet

The Bank's fair value measurements consider the following input levels:

**Level 1** – Price quotations are derived from active markets for identical financial instruments. Financial instruments are considered to be quoted in an active market if prices are readily available and are based on regularly occurring arm's length transactions.

**Level 2** – Requires the use of information obtained from the market that is not Level 1. This includes prices quoted in non-active markets for similar assets and liabilities and information that can be corroborated in the market.

**Level 3** – Requires the use of information not obtained from the market to measure fair value. When there is not an active market for an instrument, the Bank uses valuation techniques that incorporate internal data. The Bank's methodologies are consistent with commonly used techniques for pricing financial instruments.

### Assets and liabilities measured at fair value in the consolidated balance sheet

	Sep 30, 2024	Level 1	Level 2	Level 3
<b>Assets</b>	<b>444,156,272</b>	<b>372,635,139</b>	<b>70,562,245</b>	<b>958,888</b>
Interbank deposit (hedged item)	2,768,081	--	2,768,081	--
Trading securities, measured by fair value	10,942,701	8,144,018	2,757,965	40,718
Derivative financial instruments	5,614,465	--	5,614,465	--
Available-for-sale securities, measured by fair value	424,781,882	364,491,121	59,421,734	869,027
Loans (hedged item)	49,143	--	--	49,143
<b>Liabilities</b>	<b>(8,723,959)</b>	<b>--</b>	<b>(8,723,959)</b>	<b>--</b>
Foreign securities (hedged item)	(4,291,113)	--	(4,291,113)	--
Derivative financial instruments	(4,432,846)	--	(4,432,846)	--

	Dec 31, 2023	Level 1	Level 2	Level 3
<b>Assets</b>	<b>418,062,241</b>	<b>355,949,157</b>	<b>59,591,364</b>	<b>2,521,720</b>

Trading securities, measured by fair value	12,045,093	7,619,623	4,399,477	25,993
Derivative financial instruments	1,973,686	--	1,973,686	--
Available-for-sale securities, measured by fair value	401,596,859	348,329,534	50,821,264	2,446,061
Loans (hedged item)	49,666	--	--	49,666
<b>Liabilities</b>	<b>(4,600,102)</b>	<b>--</b>	<b>(4,600,102)</b>	<b>--</b>
Foreign securities (hedged item)	(2,090,360)	--	(2,090,360)	--
Derivative financial instruments	(2,509,742)	--	(2,509,742)	--

In thousands of Reais, unless otherwise stated

There were no transfer between Level 1 and Level 2 in the period. For assets valued at Level 3, gains, losses, transfers between levels and the effect of measurements are described in the table below:

Description	Fair Value on Dec 31, 2023	Total Gains or Losses (Realized/Unrealized)	Purchases	Settlements	Transfers out of Level 3	Transfers into Level 3	Fair Value on Jun 30, 2024
Trading securities, measured by fair value	26,857	14,000	--	(6,061)	--	5,922	40,718
Available-for-sale securities, measured by fair value	2,439,437	(42,907)	--	(1,890,497)	(165,529)	528,523	869,027
Loans (hedged item)	49,666	(523)	--	--	--	--	49,143
<b>Total</b>	<b>2,515,960</b>	<b>(29,430)</b>	<b>--</b>	<b>(1,896,558)</b>	<b>(165,529)</b>	<b>534,445</b>	<b>958,888</b>

For Level 3 measurements in the fair value hierarchy, the following unobservable data were used:

Description	Valuation Techniques	Unobservable input
<b>Assets</b>		
Trading securities, measured by fair value	Discounted Cash Flow	Credit spread calculated based on the rating stipulated by the Bank
Available-for-sale securities, measured by fair value	Discounted Cash Flow	Credit spread calculated based on the rating stipulated by the Bank
Loans (hedged item)	Discounted Cash Flow	Credit spread calculated based on the rating stipulated by the Bank and weighted average rate
<b>Liabilities</b>		
Foreign securities (hedged item)	Discounted Cash Flow	Weighted average rate

Occasionally, comparisons between unobservable data from the Bank and values based on market references (even with little or no record of trades) may present unacceptable convergence for some instruments, potentially indicating a lower degree of market liquidity for some of them. Level 3 categorization considers the rating of the issuer of the financial instrument and compares the result between the observed values and the values determined by internal models.

The most recurrent cases of assets categorized as Level 3 are justified by the discount factors used and private securities whose credit risk component is relevant. The renewal interest rate of portfolio operations is the most significant unobservable input used in the fair value measurement of Level 3 instruments. Significant changes in this interest rate can result in significant changes in fair value. The sensitivity analysis is prepared considering market information and data produced by the Bank, using its own method of applying shocks to market curves in the most relevant risk factors.

## Sensitivity analysis

### Analysis method and objective

The Bank conducts a quarterly sensitivity analysis of exposure to the interest rate risk of its owned positions, using as a method the application of parallel shocks on the market yield curves relating to the most relevant risk factors. The method is intended to simulate the impacts on the Bank's income vis-à-vis potential scenarios, which consider possible fluctuations in the market interest rates.

### Method assumptions and limitations

The application of parallel shocks on the market yield curves assumes that uptrends or downtrends in the interest rates occur in an identical way, both for short terms and for longer terms. As market movements do not usually present such behavior, this method can present deviations from actual results.

### Scope, method application scenarios and implications for income

The sensitivity analysis process is carried out considering the following scope:

- (i) operations classified in the trading portfolio, basically composed of trading government and private bonds and derivative financial instruments, have positive or negative effects as a result from the possible movements of interest rates in the market. These changes generate a direct impact on the Bank's results or shareholders' equity; and
- (ii) operations classified in the banking portfolio, mainly composed of operations contracted with the intention of being held until their maturities – loans to customers, funding in the retail market and held to maturity securities – and which are accounted for at rates based on the contractual rates. The positive or negative effects resulting from changes in the interest rates in the market do not directly affect the Bank's income.

The following scenarios are considered for the performance of the sensitivity analysis:

Scenario I: 100 basis points (+/- 1%) changes, considering the worst loss by risk factor.

Scenario II: +25% and -25% changes, considering the worst loss by risk factor.

Scenario III: +50% and -50% changes, considering the worst loss by risk factor.

### Results of the sensitivity analysis

Results obtained for the sensitivity analysis of the trading portfolio and for the set of operations included in the trading and banking portfolios are presented in the following tables charts:

In thousands of Reais, unless otherwise stated

## Sensitivity analysis for trading and trading and banking portfolio

## **b) Capital management**

### Objectives and policies

In 2017, Bacen issued CMN Resolution 4,557, which defines the scope and requirements of the risk management structure and the capital management structure for financial institutions.

In compliance with the Resolution, the Board of Directors has established Coris and has appointed as the Chief Risk Officer (CRO), responsible for risk and capital management, the Vice President of Internal Controls and Risk Management.

Capital management aims to ensure the Institution's future solvency concurrent with the implementation of business strategies.

Capital management is carried out through an organizational structure appropriate to the nature of its operations, the complexity of its business and the extent of exposure to relevant risks.

There are defined and documented capital management strategies that establish mechanisms and procedures to keep capital compatible with the Risk Appetite and Tolerance Statement (RAS).

In addition, the Bank has specific policies, approved by the Board, which aim to guide the development of functions or behaviors, through strategic drivers that guide capital management actions. These specific policies apply to all businesses that involve risk and capital at the Bank.

### Elements comprised by capital management:

Strategic plans, business goals and budgets respect the risk appetite and tolerance and indicators of capital adequacy and risk-adjusted return.

The Capital Plan is prepared in consistency with the business strategy, seeking to maintain capital indicators at appropriate levels. This Plan highlights the capital planning of Banco do Brasil and the prospective assessment of any need for capital contribution.

The Capital Plan preparation is referenced in the guidelines and limits contained in RAS and the Bank's Corporate Budget (BB Budget), considering that this represents the materialization of the guidelines of ECBB, the Master Plan (PD) and the Fixed Investment Plan.

The budgeted amounts must correspond to the goals and objectives defined by the Board of Directors for the Banco do Brasil Conglomerate. Thus, premises such as business growth, credit growth in operations with higher profitability, restrictions on operations in segments with lower profitability, among others, are contained in the BB Budget.

In addition, the BB Budget considers the macroeconomic scenario prepared by the Global Treasury Unit (Tesou) and the legislation applied to the Brazilian Banking Industry (SFN).

The review of the ECBB and the PD results from the application of a set of strategic planning methodologies, observing the best market practices. It is noteworthy that the review of the ECBB and the PD takes place in an integrated manner with the budgeting process, with the RAS and with the other documents of the strategic architecture, which ensures the alignment between such documents, giving greater internal consistency to the strategic planning process.

The BB Budget follows the guidelines defined in the ECBB, respects the RAS and aims to meet the floors and ceilings defined in the indicators approved in the PD. The BB Budget allows the quantification in financial values of the strategic objectives defined in the ECBB.

The RAS is the strategic document that guides the planning of the business strategy, directing budget and capital towards a sustainable and optimized allocation, according to the Institution's capacity to assume risks and its strategic objectives, in addition to promoting understanding and dissemination of the risk culture.

This statement is applied to the Bank and considers potential impacts on the capital of the Banco do Brasil Prudential Conglomerate. It is expected that the Subsidiaries, Affiliates and Investment companies (ELBB) define their drivers based on these guidelines considering specific needs and legal and regulatory aspects to which they are subject.

In thousands of Reais, unless otherwise stated

As defined in the RAS, risk appetite is the maximum level of risk that the Institution accepts to incur in order to achieve its objectives, materialized by indicators that define an aggregate view of risk exposure. Tolerance, in turn, induces risk management in a more granular way, considering the defined appetite.

RAS defines prudential minimum limits that aim to perpetuate the strategy of strengthening the Bank's capital structure. These limits are established above the regulatory minimum, represent the Bank's Risk Appetite and are effective as of January of each year.

The capital target is the level of capital desired by the Bank, which is why its management actions must be guided by this driver. The goals are distinguished from tolerance and risk appetite because the latter defines the level at which the Institution does not accept to operate, and must take timely measures for readjustment, which may trigger contingency measures.

#### Integration:

Adopting a prospective stance, the Bank assesses the capital status, including the leverage ratio, classified as Critical, Alert or Surveillance, according to the time horizon that precedes the projected deadline for the breach of the prudential minimum limits defined by Senior Management and detailed in the RAS, as the figure below:

Capital and Leverage Ratio		Period of noncompliance (months)					
		0 a 6	7 a 12	13 a 18	19 a 24	25 a 30	over 31
Appetite <sup>1</sup>	Common Equity Tier 1 Ratio	CRITICAL			ALERT		SURVEILLANCE
	Tier 1 Ratio	CRITICAL		ALERT		SURVEILLANCE	
	Basel Prudential Ratio	CRITICAL	ALERT		SURVEILLANCE		
	Leverage Prudential Ratio	CRITICAL		ALERT		SURVEILLANCE	

<sup>1</sup> level of capital desired by the institution

The Capital Forum has the responsibility of identify the capital and leverage ratio status of the Bank and occurs through the control of Common Equity Tier 1 Capital Ratio (ICP), Tier I Ratio, Capital Adequacy Ratio and Leverage Ratio projected for a time horizon of at least 36 months. When the projections indicate a potential breach of the prudential minimum limits (risk appetite), the Institution will have enough time to promote strategic changes that avoid extrapolation, according to the deadlines defined for each indicator.

The assessment of the sufficiency of capital maintained by the Bank contemplates a 3-year time horizon and considers: i) the types of risks and respective levels to which the Institution is exposed and willing to assume; ii) the Institution's ability to manage risks effectively and prudently; iii) the Institution's strategic objectives; and iv) the conditions of competitiveness and the regulatory environment in which it operates.

In compliance with the provisions of Bacen Circular 3,846/2017, this analysis is also part of the Internal Capital Adequacy Assessment Process (Icaap) and must cover, at least:

I - the assessment and measurement of the need for capital to cover credit risks (includes concentration and credit risk of the counterparty), market risk, interest rate variations for instruments classified in the bank portfolio (IRRBB) and operational;

II - the assessment of the capital needs to cover the other relevant risks to which the Institution is exposed, considering, at least, the strategy, reputation and socio-environmental risks;

III - the assessment of capital requirements based on the results of the stress test program; and

IV - the description of the methodologies and assumptions used in the evaluation and measurement of capital requirements.

The Icaap, implemented by the Bank on June 30, 2013, follows the disposed on CMN Resolution 4,557/2017. At the Bank, the responsibility for coordinating Icaap was assigned to the Risk Management Directorship. In turn, the Internal Controls Directorship is the responsible for validating the Icaap. Finally, Internal Audit is responsible for performing an annual evaluation of the overall capital management process.

### Procedures:

Capital management is an ongoing process of planning, evaluating, controlling and monitoring capital. It supports the Board in the decision process that will lead the Institution to adopt a posture capable of absorbing eventual losses arising from business risks or changes in the financial environment.

Capital simulations are carried out, integrating the results of risk and business stress tests, based on macroeconomic and/or idiosyncratic scenarios. Stress tests are carried out periodically and their impacts are assessed from the perspective of capital.

It is conducted monthly monitoring of the variables used in the preparation of the Capital Plan due to the review of the behavior projected in the preparation of the BB Budget, based on the observed numbers, market expectations and business dynamics. The relevant deviations are presented and discussed, by the Boards participating in the process, in the monthly meetings of the Capital Forum.

Management reports on capital adequacy are disclosed to the areas and strategic intervening committees, supporting the decision-making process by the Board of Directors.

The adoption of a prospective stance, by conducting continuous assessments of the capital need, makes it possible to proactively identify events with a non-zero probability of occurrence or changes in market conditions that may have an adverse effect on capital adequacy, including in stress scenarios.

### **c) Capital Adequacy Ratio**

The Bank has calculated the Capital Adequacy Ratio in accordance with the requirements established by CMN Resolutions 4,955/2021 and 4,958/2021. Those requirements are related to the calculation of Referential Equity (RE) and Minimum Referential Equity Required (MRER) as a percentage of Risk Weighted Assets (RWA).

The Basel Committee recommendations, related to the set of regulations governing the capital structure of financial institutions, are known as Basel III.

The regulatory capital is divided into Tier I and Tier II. Tier I consists of Common Equity Tier I Capital – CET1 (net of regulatory adjustments) and Additional Tier I Capital.

For calculating the regulatory capital, minimum requirements for RE, Tier I and CET1, and Additional CET1 are requested.

Regulatory adjustments listed below are considered for calculating CET1 ratio:

- goodwill;
- intangible assets;
- actuarial assets related to defined benefit pension plans, net of deferred tax liabilities;
- significant investments (greater than 10% of the share capital) in: non-consolidated entities similar to financial institutions, insurance companies, reinsurance companies, capitalization companies and open-ended pension funds; and institutions authorized by Bacen that are not part of the Prudential Conglomerate.
- non-controlling interests;
- deferred tax assets on temporary differences that rely on the generation of future taxable profits or income to be realized;
- deferred tax assets resulting from tax losses carry forward;
- value between the provisioned amount and the amount of the adjustments resulting from the evaluation provided by CMN Resolution 4,277/2013.

On August 28, 2014, Bacen authorized the R\$ 5,100,000 thousand (R\$ 6,100,000 thousand until June/2024) perpetual bond included in Additional Tier I Capital to be considered as Common Equity Tier I Capital, as described in Note 23.c.

According to the CMN Resolutions 4,955/2021 and 4,958/2021, the calculation of the RE and the amount of RWA should be based on Prudential Conglomerate.

In thousands of Reais, unless otherwise stated

	Sep 30, 2024	Dec 31, 2023
<b>RE - Referential Equity</b>	<b>185,841,208</b>	<b>174,033,091</b>
<b>Tier I</b>	<b>171,172,759</b>	<b>156,430,952</b>
<b>Common Equity Tier 1 Capital (CET1)</b>	<b>149,177,576</b>	<b>136,356,255</b>
Shareholders' equity	178,365,632	163,827,386
Instruments qualifying as common equity tier 1 capital	5,100,000	6,100,000
Regulatory adjustments	(34,288,056)	(33,571,131)
<b>Capital management</b>	<b>21,995,183</b>	<b>20,074,697</b>
Perpetual subordinated notes (Note 19.c)	12,713,800	14,886,697
Perpetual bonds (Note 19.c)	9,281,383	5,188,000
<b>Tier II</b>	<b>14,668,449</b>	<b>17,602,139</b>
Subordinated Debt qualifying as capital (regulations preceding Basel III) - Funds obtained from the FCO (Note 19.c) <sup>1</sup>	14,668,449	17,602,139
<b>Risk Weighted Assets (RWA)</b>	<b>1,267,437,719</b>	<b>1,124,754,293</b>
Credit risk (RWACPAD)	1,027,515,392	938,286,509
Market risk (RWAMPAD)	41,283,913	28,285,378
Operational risk (RWAOPAD)	198,638,414	158,182,406
<b>Minimum referential equity requirements <sup>2</sup></b>	<b>101,395,018</b>	<b>89,980,343</b>
<b>Margin on the minimum referential equity required <sup>3</sup></b>	<b>84,446,190</b>	<b>84,052,748</b>
<b>Tier I Ratio (Tier I/RWA) <sup>3</sup></b>	<b>13.51%</b>	<b>13.91%</b>
Common Equity Tier 1 Capital Ratio (CET1/RWA) <sup>3</sup>	11.77%	12.12%
<b>Capital Adequacy Ratio (RE/RWA) <sup>3</sup></b>	<b>14.66%</b>	<b>15.47%</b>

1 - According to CMN Resolution 4,955/2021, art. 31, in 2024, the balance of FCO is limited to 50% (60% in 2023) of the amount that composed the Tier II of the RE on June 30, 2018.

2 - According to CMN Resolution 4,958/2021, corresponds to the application of the "F" factor to the amount of RWA, where "F" equals 8%.

3 - Values from DLO (Operational Threshold Statement).

### Regulatory adjustments deducted from CET1:

	Sep 30, 2024	Dec 31, 2023
Actuarial assets related to defined benefit pension funds net of deferred tax liabilities	(13,286,878)	(12,962,189)
Intangible assets	(10,649,414)	(10,787,014)
Significant investments and tax assets resulting from temporary differences that rely on the generation of future taxable profits or revenues for their realization (amount exceeding the 15% threshold)	(6,922,326)	(4,687,150)
Significant investments (excess of 10%) <sup>1</sup>	(1,811,202)	(2,345,383)
Tax assets resulting from tax losses carry forward	(1,206,482)	(2,663,255)
Non-controlling interests <sup>2</sup>	(402,676)	(121,206)
Shortfall of the value between the provisioned amount and the amount of the adjustments resulting from the evaluation provided by CMN Resolution 4,277/2013	(7,453)	(2,870)
Goodwill	(1,625)	(2,064)
<b>Total</b>	<b>(34,288,056)</b>	<b>(33,571,131)</b>

1 - It refers, mainly, to significant investments in non-consolidated entities similar to financial institutions, non-consolidated financial institutions and insurance companies, reinsurance companies, capitalization companies and open-ended pension funds.

2 - The adjustment of non-controlling interests was calculated according to CMN Resolution 4,955/2021, 1st paragraph of the article 10.

#### d) Fixed asset ratio and margin

	Sep 30, 2024	Dec 31, 2023
Fixed asset ratio	17.37%	16.36%
Margin in relation to the fixed asset	60,642,522	58,550,324

Bacen defines the fixed asset ratio as the percentage of fixed assets to Referential Equity. The maximum rate allowed is 50%, according to CMN Resolution 4,957/2021.

Margin refers to the difference between the 50% limit of Referential Equity and total fixed assets.

#### e) Regulatory indicators vs. observed indicators

The minimum regulatory requirement for capital indicators in accordance to CMN Resolution 4,958/2021, as well as the achieved values at the Bank, are shown in the table below:

	Regulatory	Sep 30, 2024
Common Equity Tier 1 Capital Ratio <sup>1</sup>	8.00%	11.77%
Tier I Ratio <sup>1</sup>	9.50%	13.51%
Capital Adequacy Ratio <sup>1</sup>	11.50%	14.66%
Fixed asset ratio	Up to 50%	17.37%

1 - Includes additional main conservation, countercyclical and systemic capital

On September 30, 2024, the compliance with the regulatory indicators is observed. The Bank, through the capital management strategies already listed, aims to surpass the minimum regulatory indicators, keeping them at levels capable of perpetuating the strategy of reinforcing the structure of capital of the Bank. In this way, the Bank defines the minimum prudential limits of capital indicators and the main capital target to be reached in each period.

#### f) Instruments eligible as capital

The instruments eligible as capital are described in the Notes 19.c and 23.c.

For subordinated financial bills issued up to the present date, there are the possibilities described in the emission instrument, as listed below:

1. For the perpetual instruments, there is a repurchase or redemption option, observing the following requirements:
  - a. minimum of five years interval between the issue date and the first exercise date of the repurchase or redemption option;
  - b. the exercise of the repurchase or redemption option is subject, on the exercise date, to the authorization of the Central Bank of Brazil;
  - c. lack of characteristics that lead to the expectation that the repurchase or redemption option will be exercised, constituting an attribution of the Issuer;
  - d. the interval between the repurchase or redemption option must be, at least, 180 days.

For securities issued abroad, there is, until now, no possibility for the holder of the security to request repurchase or redemption, total or partial. The expected cash flows will occur when the coupon is paid or when exercising the repurchase by the Bank, as applicable.

The Instrument qualifying as Common Equity Tier I Capital does not have a maturity date and can only be settled in situations of dissolution of the issuing institution or of repurchases authorized by the Central Bank of Brazil. The expected cash flows occur only through the payment of annual remuneration interest or in the eventual return of the primary.

According to the Information to the Market, dated April 8, 2021 and December 16, 2021, the schedule for returning the Hybrid Instrument established seven annual installments of R\$ 1 billion and one final installment of R\$ 1.1 billion, between July/2022 and July/2029. Thus, in compliance with the schedule and based on authorization from Bacen and deliberation of Ministry of Finance, the Bank returned the third installment of R\$ 1 billion to the National Treasury on July/2024, remaining the balance of 5.1 billion.

Regarding the dynamics of the FCO, the monthly flows contemplate the inflows/origins, such as the transfers from the National Treasury resulting from the collection of taxes (made every ten days of the month), returns originating from payments of credit operations and remuneration on the available resources and the exits, such as the reimbursement of payment/rebate bonuses, the audit, del credere and provision. The use of FCO resources as an instrument eligible as capital is limited by CMN Resolution 4,955/2021 (Art. 31).

Fiscal council	6,824.38	6,523.02
Board of Directors	6,824.38	6,523.02

#### f) Insurance policy of assets

Despite the reduced level of risk to which its assets are subject, the Bank insured its assets in amounts rendered enough to hedge any losses.

##### Insurance contracted by the Bank in force on Sep 30, 2024

Covered risks	Amounts covered	Value of the premium
Property insurance for the relevant fixed assets	754,789	6,915
Life insurance and collective personal accident insurance for the Executive Board <sup>1</sup>	131,950	333
Other	535	--
<b>Total</b>	<b>887,274</b>	<b>7,248</b>

1 - Refers to individual coverage for members of the Executive Board.

### g) Change in tax treatment applicable to losses incurred

On November 16, 2022, the Provisional Measure 1,128/ 2022, was converted into Law No. 14,467/2022, promoted changes in the tax treatment applicable to losses incurred in the receipts of credits arising from the activities of financial institutions and other institutions authorized to operate by the Bacen, except consortium administrators and payment institutions.

On October 02, 2024, Provisional Measure 1,261/2024, amended the aforementioned Law, modifying the deductibility periods for losses incurred, from January 1, 2025, relating to credits that are in default on December 31, 2024, which have not been deducted by that date and which have not been recovered, which may be excluded of net profit, in determining the real profit and the CSLL calculation basis, at the rate of 1/84 (one eighty-fourths) or 1/120 (one hundred and twentyths), for each month of the calculation period, from January 2026.

The deduction of losses in the year 2025 in an amount greater than the actual profit for the year was prohibited, before this deduction was computed. Losses not deducted in this period will have the same treatment as the balance existing on January 1, 2025.

The Bank is evaluating the possible impacts arising from the standard, which will take effect from January 1st, 2025.

### h) Public Offer for Acquisition of Shares (Tender Offer) of Cielo S.A.

On February 5th, 2024, the Board of Directors of Banco do Brasil authorized the acquisition of up to all of the outstanding shares of Cielo S.A. – Instituição de Pagamento (“Cielo” or “Company”), through a Tender Offer (“Tender Offer”) and consequent increase in the Bank’s indirect shareholding, through BB Elo Cartões Participações S.A. (“BB Elo”) and Elo Participações Ltda. (“Elo Participações”) in Cielo, for up to 49.99%.

On the same date, BB Elo and Quixaba Empreendimentos e Participações Ltda. (“Quixaba” and, together with BB Elo, “Controlling Shareholders” of Cielo) sent a statement to Cielo, informing it of the decision to carry out, together with the Elopac Group, a unified public offering for the acquisition of common shares of the Company to (i) conversion of registration as a publicly-held company with the CVM, from category “A” to “B” and (ii) for B3 S.A. to delist from Novo Mercado, in accordance with applicable legislation and Cielo’s bylaws.

On July 5th, 2024, the CVM approved the registration of the public offering and, on July 10th, 2024, the Unified Public Offer Notice for the Acquisition of Cielo Shares was published.

The OPA was launched by (i) Controlling Shareholders, (ii) Elo Participações, (iii) Alelo Instituição de Paço S.A. and (iv) Livelos S.A., jointly qualified as “Offerors” for the acquisition of up to all common shares issued of the Company, except those held by the Offerors themselves, people linked to them and those held in treasury. The OPA auction will take place on August 14th, 2024.

The price offered for each share subject to the OPA is R\$5.60 (five reais and sixty cents), to be (i) deducted from the value corresponding to dividends, interest on equity or other earnings that may be declared in the future (from the moment the shares become ex-earnings) by the Company between on April 2th, 2024, and the date of the OPA auction (but without deducting the amount corresponding to interest on equity paid on April 30th, 2024); (ii) adjusted by the accumulated variation in the average daily interest rate on Interbank Deposit Certificates – CDI from the date of January 4th, 2024, until the date of settlement of the OPA; and (iii) adjusted proportionally due to any grouping or splitting of shares issued by the Company, in accordance with the terms of the OPA notice.

### i) Incentivized tax self-regularization program

On March 28, 2024, Banco do Brasil S.A. joined the incentivized tax self-regularization program administered by the Brazilian Federal Revenue Office (RFB), established by Law 14,740/2023 and regulated by IN RFB 2,168/2023, which made it possible to pay tax debts with a 100% reduction in late payment, interest and ex officio fines, allowing as a form of payment the use of deferred tax assets resulting from tax losses carry forward and negative bases of Social Contribution on Net Income (CSLL), limited to 50% of the total debt amount (Note 22).

### j) Climatic event that occurred in the State of Rio Grande do Sul

The period of intense and prolonged rains that hit the State of Rio Grande do Sul (RS), in the 1st semester/2024, it was characterized as an adverse climatic event of great magnitude and intensity, with human, material and environmental damage, in addition to economic and social losses, leading the local Government to declare a state of public calamity in the State's territory.

At Banco do Brasil, some properties located in areas affected by the floods suffered physical damage to their infrastructure due to the flooding. Dependencies located in these properties and others in operation were also impacted by the lack of water and services and difficult access, with an extraordinary budgetary contribution being made to cover expenditure on administrative expenses resulting from the floods, with the aim of minimizing the impact on banking services and promote rapid and effective recovery of service points. No impacts were identified on the recoverable values of these properties.

The State of Rio Grande do Sul has dynamic and diversified economic activity, with emphasis on agribusiness, notably the cultivation of rice, soybeans, corn, wheat and tobacco; and in beef, dairy, pig and poultry farming. In industry, the main sectors are: construction, food industry, chemicals, machinery and equipment. Furthermore, some industries, aligned with their representation in the Brazilian economy, have exposure in the Bank's corporate portfolio, such as the furniture, footwear and agricultural machinery and implements industries.

In this context, the Bank established daily monitoring of the Credit Portfolio and its exposure, as well as highlighting professionals to work focused on the State. In relation to the Credit Portfolio in RS, on 09/30/2024, exposure reached 6.1% of the BB Credit Portfolio, that is, R\$61.2 billion, considering only the municipalities that declared an emergency or calamity public.

Both in the State and in the municipalities affected, the operations with the greatest participation occur in the Agribusiness segment in lines of funding, agricultural investment and Pronaf.

Due to the economic consequences arising from climate events in RS, the National Monetary Council, through CMN Resolution No. 5,133/2024, established temporary criteria for the exemption or reversal of the characterization as a problematic asset of operations held by affected counterparties and restructured in the period from May 1st to December 31st, 2024; and through CMN Resolution No. 5,134/2024 allowed the reclassification of operations held by affected counterparties and renegotiated in the period from May 1 to December 31, 2024, for the risk observed on March 31, 2024, with no impact relevant to the results for the period.

### **33 – Subsequent events**

No subsequent events were identified in the period.

## Review report on the individual and consolidated financial statements

To  
The Board of Directors, Management and Shareholders of  
**Banco do Brasil S.A.**  
Brasília - Federal District

### Introduction

We have reviewed the individual and consolidated financial statements of Banco do Brasil S.A. (the "Bank") for the period ended September 30, 2024, which comprise the balance sheet as of September 30, 2024, and the statements of income, other comprehensive income, changes in shareholders' equity and cash flows for the nine-month period then ended as well as explanatory notes, including significant accounting policies.

Bank's management is responsible for the preparation and presentation of these individual and consolidated financial statements in accordance with the accounting practices adopted in Brazil, applicable to the institutions authorized to operate by the Central Bank of Brazil. Our responsibility is to express a conclusion on these individual and consolidated financial statements based on our review.

### Scope of review

We conducted our review in accordance with the Brazilian and International review standards (NBC TR 2410 – Review of Interim Financial Information Performed by the Entity's Auditor and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial statements consists of making inquiries, primarily of individuals responsible for financial and accounting matters, and applying analytical and other review procedures. The scope of a review is substantially less than that of an audit conducted in accordance with the Brazilian and International auditing standards and, consequently, does not allow us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Therefore, we do not express an audit opinion.

### Conclusion on the individual and consolidated financial statements

Based on our review, nothing has come to our attention that causes us to believe that the individual and consolidated financial statements as of September 30, 2024 do not present fairly, in all material respects, the individual and consolidated financial position of the Bank as of September 30, 2024, and its individual and consolidated financial performance and cash flows for the nine-month period then ended in accordance with the accounting practices adopted in Brazil, applicable to the institutions authorized to operate by the Central Bank of Brazil.

## **Other matters**

### **Statements of Value Added**

The individual and consolidated financial statements include the individual and consolidated statements of value added for the nine-month period ended September 30, 2024, prepared under the responsibility of the Bank's management, whose presentation is not required for the purposes of the accounting practices adopted in Brazil, applicable to the institutions authorized to operate by the Central Bank of Brazil. These financial statements have been submitted to the review procedures performed together with the review of the financial statements to conclude whether they are reconciled to the individual and consolidated financial statements and accounting records, as applicable, and whether their form and content are in accordance with the criteria set by Technical Pronouncement CPC 09 – Statement of Value Added. Based on our review, nothing has come to our attention that causes us to believe that these statements of value added have not been prepared, in all material respects, according to the criteria set by this Standard and in a manner consistent with the individual company and consolidated financial statements taken as a whole.

### **Consolidated financial statements**

These consolidated financial statements for the period ended September 30, 2024, that have been prepared in accordance with the accounting practices adopted in Brazil, applicable to the institutions authorized to operate by the Central Bank of Brazil, are being presented as additional manner, according to the provisions of article 77 of CMN Resolution No. 4,966/2021, to the consolidated financial statements prepared in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) which were presented separately by Banco do Brasil S.A. on this date and on which we issued an unmodified review report, dated November 13, 2024.

### **Corresponding figures**

The corresponding figures reported in the individual and consolidated balance sheets as of December 31, 2023 were previously audited by other independent auditors, who issued an unmodified audit report on February 7, 2024, and the individual and consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the nine-month period ended September 30, 2023 were previously reviewed by other independent auditors, who issued an unmodified report dated November 7, 2023. The individual and consolidated statements of value added for the nine-month period ended September 30, 2023 were submitted to the same review procedures by those independent auditors and, based on their review, they issued a report stating that nothing had come to their attention that caused them to believe that the accompanying statements of value added had not been prepared, in all material respects, in accordance with the individual and consolidated financial statements taken as a whole.
