ESG Management

# BB's 10 Commitments with sustainability

The financial Market plays an essential role in driving economic growth on a sustainable basis. Aware of our transforming role in Society, we have a long and solid record in sustainability, generating value for our stakeholders and the environment.

Since 2005, we have a Sustainability Plan – the Agenda 30 BB, an instrument that promotes sustainable practices and business at the Bank. And to continue as protagonists in the search for an increasingly sustainable world, we launched 10 Commitments with targets until 2030, in alignment with global objectives (Paris Agreement and Sustainable Development Goals – SDG).

### **Sustainable Business**

Help our clients transition to a more sustainable portfolio

### **ESG Management**

Increase clean energy matrix, reduce emissions, promote greater diversity among employees, ensure strong governance practices

### **Responsible Investment**

Contribute so that investors direct resources to companies that deliver positive socioenvironmental externalities
