MATERIAL FACT

Temporary production halt in one of the wells of Atlanta Field

Rio de Janeiro, March 03, 2023

A Enauta Participações S.A. ("Company", "Enauta", B3:ENAT3) informs its shareholders and the market in general that it temporarily halted the production from the 7-ATL-2HP-RJS well in Atlanta Field. According to the Company's technical area, preliminary assessments indicate failure in the surface equipment (topside). In case of need to replace the pump in this well, the Company has spare equipment available.

Currently, the daily production at Atlanta Field is approximately 7 thousand bbl.

The Company will keep the market informed of relevant events related to the matter.

Located in the Santos Basin, the Atlanta Field is operated by Enauta Energia S.A., a wholly-owned subsidiary of the Company, which also owns 100% of this asset.

ABOUT ENAUTA

Enauta is one of the leading private companies in the exploration and production sector in Brazil. The Company has a balanced asset portfolio spread through the Brazilian coast, and two producing assets: its 45%-owned Manati Field, one of the main suppliers of gas to the Northeast region of Brazil; and the Atlanta Field, located in the deep waters of the Santos Basin, where it is the operator, with a 100% ownership stake. Listed on the Novo Mercado of B3 since 2011, under the ticker symbol ENAT3, Enauta is committed to the sustainability of its operations, investing responsibly and adhering to best practices in the areas of governance and compliance.
