Company Registry (NIRE): 35.300.362.683

NOTICE TO THE MARKET

IDB Invest approves USD 30 million credit line for JSL

JSL S.A. ("Company" or "JSL"), hereby informs its shareholders and the market in general that the company have received approval of USD 30 million in credit line from IDB Invest, the private sector arm of the Inter-American Development Bank ("IDB").

The USD 30 million offered by IDB Invest will be provided via a credit line "A" that has a final maturity of 10 years, with a withdrawal term of up to 2.5 years. IDB Invest acted as coordinator and was joined by the international banks Bank of China Limited, MUFG Bank Ltd., Banco Santander S.A., and Banco do Occidente S.A.

The amount granted will be withdrawn when there is a need to strengthen the cash position to support the Company's national and international growth strategy, which is in line with the purpose of the approved credit.

The line could contribute to five of the United Nations' Sustainable Development Goals (SDGs): Decent Work and Economic Growth (SDG 8), Industry, Innovation and Infrastructure (SDG 9), Responsible Consumption and Production (SDG 12), Action against global climate change (SDG 13), Partnerships for the Goals (SDG 17). Both lines can be used as working capital, in asset acquisitions, and in projects related to the ESG (Environmental, Social, and Governance) agenda - such as decarbonization and fleet renewal.

JSL, aligned to its controller company's strategy (SIMPARG), reiterates its commitment to reduce the Greenhouse Gas ("GHG") emissions of its operations. Some of the goals defined for the funding include developing innovation and systems integration projects to reduce the carbon footprint in its operations.

The financing with IDB Invest reflects the financial solidity and quality of the Company's debt management strategy, with the confidence of the international market and investors in our companies and in the sustainable management of our business. Additionally, they showcase the continuous evolution of JSL's governance practices and socio-environmental policies.

We emphasize that, as determined by its respective Boards of Directors, the Group has the practice of protecting the principal amount and interest payments of its debts in foreign currency from eventual exchange variations, which will be evaluated by the time of withdrawal.

About JSL

JSL (JSLG3) brings together the largest portfolio of logistics services in Brazil, operating in 16 sectors of the economy. Present in all Brazilian states and in seven other countries, it operates in all stages of the production chain with embedded technology, generating efficiency in the use of assets, security and intelligence in the logistics process of its customers. The companies Fadel, TPC, Transmoreno, Rodomeu and Marvel are part of JSL, totaling 25 thousand employees, 86 distribution centers and more than one million square meters dedicated to storage.
