## Key Projects

### CLC Technology

- ✓ Licensed in 2009
- ✓ Consists of an accelerated cooling process for heavy plates.
- ✓ The project enabled Usiminas' to meet specific requirements from Petrobras (application on pre-salt operation, besides the shipbuilding sector)

### Hot-dip Galvanizing Line

- ✓ Doubled the capacity to 1 million tons / year
- ✓ Expertise in ultra-high strength steel production (dual phase)
- ✓ Started operations in 2011

### Coke Plant Revamp – Ipatinga

- ✓ Started operations in May 2015
- ✓ Metallurgical coke with adequate specifications for pig iron production in the blast furnace process
- ✓ Reduction of particle emissions, gases and volatile substances
- ✓ Coke gas to be used in the operational facilities of Ipatinga Mill and electricity generation
- ✓ Total capacity of coke plant of 1.4 million tons/year

# Steel (Cont'd)

## Key Projects

### Revamp of the Blast Furnace #3

- ✓ Estimated investment of 600 million for 2021
- ✓ Total value of the renovation of R\$ 2.09 billion, to be disbursed by 2023
- ✓ AF3 will continue operating normally until mid 2023

# Rating Agencies' Views

Comments from latest available rating reports

**S&P Global**  
Ratings

**On February 19, 2021, S&P Global Ratings upgraded all of its issuer credit and issue-level ratings for Usiminas to 'BB-' from 'B+' on the global scale and to 'brAA+' from 'brAA' on the national scale.**

The stable outlook reflects our expectation that Usiminas will benefit from business with favorable conditions and its financial flexibility to support greater investments to improve operating efficiency. Even with the expectation of a reduction in FOCF, we believe that Usiminas will remain comfortable in its credit metrics, with adjusted gross debt to EBITDA close to 2.0x and FFO to debt close to 45%.

The stable outlook also reflects higher iron ore prices, the strong recovery in domestic steel demand, and still healthy surcharges in the domestic market – allowing for price adjustments and resulting in a record projected EBITDA.

**MOODY's**

**On November 3, 2020, we changed Usiminas' rating outlook to stable to reflect better-than-expected performance during the coronavirus pandemic, which will limit pressure on the company's credit and liquidity metrics in 2020.**

Usiminas' Ba3 rating reflects its solid position in the Brazilian flat steel market and its track record of rapidly adapting to market operating conditions in Brazil. The ratings are also supported by Usiminas' adequate credit metrics and liquidity, and its enhanced financial flexibility to withstand volatility.

The AA-.br corporate family rating (CFR) as of June 29, 2021 of Usinas Siderúrgicas de Minas Gerais SA (Usiminas) reflects its solid position in the Brazilian flat steel market, as well as the company's ability to adapt its operations to the conditions of market in Brazil. The rating is also favored by its strong credit metrics and robust liquidity, in addition to its enhanced financial flexibility, factors that together help the company to withstand the volatility of its key end markets.

**Fitch**Ratings

**On June 18, 2021, Fitch Ratings upgraded the Long-Term Foreign and Local Currency IDRs (Issuer Default Ratings) of Usinas Siderúrgicas de Minas Gerais SA (Usiminas) to 'BB' from 'BB-', and its National Long-Term Rating to 'AA+(bra)' from 'A+(bra)'. In addition, Fitch upgraded to 'BB', from 'BB-', the rating of the senior unsecured notes due 2026, issued by Usiminas International S.a.r.l. and guaranteed by Usiminas.**

The Outlook on Usiminas' Foreign and Local Currency IDRs and Long-Term National Rating remains Stable.

The rating upgrade reflects Usiminas' low absolute and relative debt levels, its manageable debt amortization profile and performance despite the coronavirus pandemic, as well as the maintenance of a solid operating profile amid a favorable environment for the steel in Brazil, after the worst moment of the pandemic.
