**Notice to the Market  
6th Periodic Tariff Review of Energisa Paraíba – EPB**

Energisa S.A. and Energisa Paraíba – Distribuidora de Energia S.A. (“EPB”) hereby inform their shareholders and the broader capital markets that the Brazilian Electricity Regulatory Agency (“ANEEL”), in its ordinary board meeting held today, approved EPB’s 6th periodic tariff review, effective as of August 28, 2025.

The approved tariff adjustment rates are presented in the table below:

Voltage Level	Average Impact on EPB Consumers
High and Medium Voltage	+12.11%
Low Voltage	+13.94%
<b>Overall Average</b>	<b>+13.59%</b>

As part of the Periodic Tariff Review, conducted every five years, ANEEL recalculates: (i) the manageable regulatory costs borne by the distributor (Parcel B); (ii) the non-manageable costs (Parcel A), which include purchased energy, energy transmission, and sector charges, and; (iii) the financial adjustments to Parcel A, updated based on price variations observed over the previous twelve months.

The distributor’s Regulatory Asset Base (RAB) has been defined as follows:

Regulatory Asset Base	EPB (R\$ thousand)
Gross	5,023,691
Net	3,018,854

ANEEL also defined the components related to the X-Factor:

Components	EPB (%)
“Pd” – productivity gains	+1.46%
“T” – operational cost adjustment path	+1.39%
“Q” – quality factor	-1.12%

Additionally, with respect to the recognition of regulatory losses, the following thresholds were established:

Regulatory Losses	EPB Limit (%)
Technical Loss / Injected Energy	8.57%
Non-Technical Loss / Injected Energy	4.62%
Total Loss / Injected Energy	13.19%
Non-Technical Loss / Low Voltage Market	7.91%

Key components of the approved tariff repositioning are outlined below:
