## MATERIAL FACT

**ENERGISA S.A.** (“Company”), a publicly held company, pursuant to Article 157 (4) of Law 6404 enacted December 15, 1976, as amended (“Brazilian Corporation Law”), and article 2 (VII) of Brazilian Securities Commission (“CVM”) Directive 358 issued January 03, 2002, as amended, as the indirect parent company of Energisa Pará Transmissora de Energia I, corporate taxpayer number (CNPJ/MF) nº 28.091.111/0001-70 (“EPA I”), hereby announces to its shareholders and the market in general that, on November 03, 2020, the energization of the transmission line 230kV Xinguara II - Santana do Araguaia, in addition to constructing the new substation 230/138kV 300MVA Santana do Araguaia and the expansion of substation Xinguara II.

It has 296 kilometers of transmission line and an Annual Permitted Revenue (APR) of R\$ 51.9 million for the 2020-2021 cycle. The work was completed in 38 months after the grant date, and the operation was anticipated in 16 months compared to the expected date of entry into operation in the concession contract. Additionally, our investments totaled approximately R\$ 318 million.

Energisa Pará I comprises lot 26 of the ANEEL 05/2016 auction, located in Pará, the second of the four lots acquired, between the years 2017 and 2018. It provides the inclusion of the city Santana do Araguais in southern region of Pará to SIN - National Interconnected System, which is currently served by thermal generation. In addition to strengthening the supply capacity to the north of Mato Grosso and west of the Tocantins, two of 11 concessions of Energisa Group.

Energisa Soluções (ESOL), a unit focused on integrated solutions and services, will operate this line, which will take place from the Transmission Operations Center (COT) and the Transmission Lines Operation and Maintenance Department, both at Cataguases-MG headquarters.

Cataguases, November 03, 2020.
