## Message from the Management

In the second quarter of 2021, the Company continued to advance its expansion strategy. We continued to execute our strategy of expanding our business generation capacity, reaching gross revenue that already exceeds the R\$ 5 billion mark in the first half of 2021. We also announced several achievements through new acquisitions in the period with diversification of categories in the Brazil and business expansion in South America. The second quarter and subsequent events once again reinforce our solid business model growth attributes, with focus on sales, business continuity and value creation.

First, we announced Camil's entry into Ecuador. We acquired Dajahu's rice business, market leader in the segment with significant market share and high growth potential in the country. The operation represents an important milestone in Camil's expansion in Latin America. The operation was concluded in September 2021 and will make part of our results as of 3Q21. Additionally, Camil and IFC entered into a mandate letter to finance the acquisition, subject to the completion of agreed conditions. This partnership reinforces our quest for the best financing options and our commitment to ESG.

In August 2021, we announced our entry into the pasta category with the acquisition of Santa Amália in Brazil, the fourth largest company in this segment in the country. Santa Amália is one of the most traditional and renowned pasta companies in the region, including its representation and leadership in the State of Minas Gerais (MG). It also has prominent brands in the pasta category and a complete portfolio of premium and occupation brands in the category. The geographic complementarity, with leadership in a region with relevant growth potential for Camil's current categories and its national growth potential reinforces the Company's acquisition strategy. The transaction was approved by CADE in September 2021 and represents an important step towards diversification and entry into new categories in Brazil.

And we didn't stop at pasta for category diversification - in September 2021, we launched our entry into the coffee segment with the acquisition to use the Seleto brand. The transaction reinforces our strategy of diversification of categories, focusing on high turnover products and non-perishable food in Latin America. The transaction was approved by CADE and its conclusion is subject to other conditions usual for this type of transaction.

Camil has a consistent track record of organic growth and market share expansion through acquisitions. The recent acquisitions represent an important step for the Company's entry into the pasta and coffee market, as well as its entry into the Ecuadorian market. All three acquisitions reinforce our strategic objectives of acquiring relevant brands and assets in the consumer sector in South America.

We are focused on the process of integrating these new acquisitions, improving efficiency and growing sales in the categories we operate in Brazil. In the international market, we observed this year a reduction in volumes with a drop in carryover stock in Uruguay, compared to the increase in sales in the previous year, with high demand presented in the comparative period. We remain focused on resuming sales growth in Peru and continued positive performance in Chile in terms of volume and profitability.

Since the beginning of the pandemic, we focused our efforts on practical ESG actions and on people's safety. Targeting material themes and a governance structure with working groups that support the Company's journey and ambition in ESG, we are focused on publishing our first Sustainability Report later this year. The Report will represent the communication of our practices and indicators of operations in Brazil, Uruguay, Chile and Peru, of our various product categories. We started 2021 with ESG goals for the Company's management variable compensation, support from the ESG and Ethics Committee reporting to the Board of Directors and we continue to focus on implementing practices that make a real difference to our business, people and the planet in the context in which we are inserted.

Camil reinforces its strategy of operating in the food market in South America, which combines resilience, growth opportunities and sustainable results, even in adverse scenarios such as the Covid-19 pandemic. We have multiple profiled opportunities for organic and inorganic growth, with the development of new markets and entry into new categories. We started a new cycle full of challenges with the expansion of our capacity to generate business, we reinforced our agility to strengthen our position as a consolidator in the food sector in South America.

## Brands

Reinforcing the connection with our consumers through value-added services and campaigns that contribute to the differentiation of our products is Company's priority, as well as building strong brands. This strategy allows us to capture a brand award in the markets in which we operate and is an important pillar of the company's long-term value.
© Comida de Casa é Camil: During the second quarter, we started a new phase of our "Comida de Casa é Camil" campaign. We launched a new film with Rita Lobo, our brand ambassador, then we have been generating a series of content shorter and more focused in boosting digital media, showing how we can have more flavor and variety on Brazilian tables every day. In addition, we invite 1 influencer each month to increase the audience. Such contents are aimed at different periods of the month: supply and income from the beginning, grains variety in the middle and reuse at the end of month.
© Value Priced Brands: we maintain promoting activations to increase the presence of the brands in the digital media, such as Namorado, Da Barra and Pescador brands, as well as producing content in accordance with their planning.
© União, há 110 anos transformando seus dias: In the second quarter we serve the last film celebrating the brand's 110 years, which told an amusing story of twins who liked different cakes on their birthdays. In addition, the brand started a campaign in São Paulo city urban furniture's communicating its liquid sucralose line and its Demerara Naturale sugar.
© Coqueiro Rende Mais Possibilidades na Sua Mesa: The 'Cria e Recria' Campaign also rode successfully during the last quarter, with Juliana Paes and other influencers inviting our consumers to recreate recipes with our fishes in their daily lives. We remain focused in increasing the frequency of consumption in category by the national consumer, carrying the fish protein to Brazilian meals.

## ESG

We remain focused on reinforcing and bringing to the market practices that make a real difference to our business, people, the planet and the context in which we operate. By means of materiality and our own governance structure focused in sustainability and working groups, which support the Company's ambitions and journey, we are working for Camil Alimentos $1^{\text {st }}$ Sustainability Report release, which covers our operations in Brazil, Uruguay, Chile and Peru, and it will be inspired by GRI indicators for publication during 3Q21.

## Financial Performance Highlights

Gross Revenue of R\$2.5 billion in the quarter ( $+16.4 \% \mathrm{YoY}$ ), mainly driven by prices increase effects in the period and partially offset by volumes reduction in Brazil and International.

Net Revenue of $\mathrm{R} \$ 2.2$ billion in the quarter ( $+16.0 \%$ YoY), with growth in the Brazil Food Segment ( $+24.4 \%$ YoY), driven by the increase in market prices and partially offset by sales volumes reduction in the period. This result was partially compensated by net revenue decrease in the International Food Segment ( $-3.8 \% \mathrm{YoY}$ ), due to the volumes reduction in Uruguay, Chile and Peru and FX effect, partially offset by the growth in market prices.
Costs of Sales and Services of R\$1.8 billion ( $+20.8 \% \mathrm{YoY}$ ), or $80.5 \%$ of net revenue in the quarter. This result occurred due to the increase in Brazil Food Segment, which reached $\mathrm{R} \$ 1.4$ billion ( $+28.5 \% \mathrm{YoY}$ ), driven by the increase of sales volumes in beans and average market prices of rice $(+8.0 \% \mathrm{YoY})^{4}$, beans $(+9.6 \% \mathrm{YoY})^{5}$ and sugar ( $\left.+53.7 \% \mathrm{YoY}\right)^{6}$. In the International Food Segment, the COGS reached R\$415.9 million ( $+0.8 \%$ YoY), due to the increase in raw materials costs, partially offset by volumes reduction and FX effect.

Gross Profit reached R\$433.0 million (-0.3\% YoY) with a 19.5\% margin (-3.2pp YoY) in 2Q21.
We highlight the increase in raw materials costs and market prices in the period.

SG\&A of $\mathbf{R} \$ \mathbf{2 8 7 . 1}$ million (+3.2\% YoY), equivalent to $\mathbf{1 2 . 9 \%}$ of Net Revenue ( $\mathbf{- 1 . 6 p p}$ YoY). The nominal growth was impacted by the increase in SG\&A Brazil, with growth in sales, general and administrative expenses in the country. The result was partially offset by the SG\&A International reduction with sales, general and administrative expenses. We highlight that, in spite of the nominal growth, the SG\&A impact on Net Revenue decreased in the annual and sequential comparisons, due to better operational efficiency and costs dilution with the Company's nominal growth in the period.

Other operating income reached $\mathrm{R} \$ 4.4$ million (vs. $\mathrm{R} \$ 9.9$ million of other expenses in 2Q20), due to non-recurring event of taxes adjustments in the International Food Segment.

## EBITDA

EBITDA reached $\mathbf{R} \$ 191.1$ million (-7.9\% YoY) with a $8.6 \%$ margin ( $-2.2 p p$ YoY). We highlight the sequential growth of $+3.9 \%$ QoQ.

Net Financial Result reached an expense of R\$24.5 million in the quarter ( $\mathbf{+} \mathbf{7 0 . 4 \%}$ YoY) mainly resulting from the effects of increase in expenses with derivatives and interest on loans, partially offset by the income from financial investments and FX.

Income Tax and Social Contribution reached expense of $\mathbf{R} \mathbf{\$ 1 9 . 5}$ million, or $15.5 \%$ of income before taxes, mainly due to the exclusion related to ICMS subsidies and to the Interest on Equity payments.

Net Income of $\mathbf{R} \$ 106.5$ million ( $-23.2 \%$ YoY) with a $4.8 \%$ margin ( -2.4 pp YoY). Earnings per Share reached $\mathrm{R} \$ 0.29^{7}(-23.2 \%$ YoY $)$.

## Rice

In the rice category, the volume reached 207.8 k tons ( $-4.3 \% \mathrm{YoY}$ and $-2.6 \% \mathrm{QoQ}$ ) in the quarter, influenced by annual and sequential comparison of sales reduction in Camil and value priced brands.

The average price of raw material ${ }^{8}$ reached $\mathrm{R} \$ 73.96 / \mathrm{bag}(+8.0 \% \mathrm{YoY}$ and $-13.46 \% \mathrm{QoQ})$ in the quarter. Gross price reached $R \$ 3.81 / \mathrm{kg}(+15.5 \%$ YoY and $-7.5 \%$ QoQ) and Net price $\mathrm{R} \$ 3.38 / \mathrm{kg}$ ( $+14.4 \%$ YoY and $-7.3 \%$ QoQ).

Regarding the market view, even with pressure on sequential quotations that showed QoQ reduction, monthly averages remain at high levels. Exports remained solid in the period, which held rice prices in the local market compared to the previous year, showing a YoY increase. Bearing in mind that the rise in prices in the Covid-19 pandemic scenario started a steeper curve at the end of the comparative basis (2Q20; August/20) ${ }^{9}$. Unlike previous periods, producers are capitalized in this year and, consequently, without pressure to sell, waiting for market opportunities for better profitability.

[^2]h

In Beans category, the volume reached 31.0 k tons ( $+32.8 \% \mathrm{YoY}$ and $+15.3 \% \mathrm{QoQ}$ ) in the quarter, influenced in the annual and sequential comparison of sales increase in Camil and value priced brands.

Source: Company

The average price of raw material ${ }^{10}$ reached $\mathrm{R} \$ 263.91 / \mathrm{bag}(+9.6 \% \mathrm{YoY}$ and $-5.6 \% \mathrm{QoQ})$ in the quarter. The Gross price reached $\mathrm{R} \$ 6.21 / \mathrm{kg}(+3.5 \% \mathrm{YoY}$ and $-3.2 \% \mathrm{QoQ})$ and Net price $\mathrm{R} \$ 5.79 / \mathrm{kg}$ ( $+3.0 \% \mathrm{YoY}$ and $-0.7 \% \mathrm{QoQ}$ ).

Regarding the Market view, the beans price started the exercise at high levels. In 2Q21, with the beginning of the harvest in the State of Goiás, the third harvest of 2021 began and price movements can be observed with slight decreases in the period ${ }^{11}$. Producers are more capitalized this year, similar to the scenario discussed in rice, which generates, with less need for cash, a reduction in supply by producers seeking better prices in the medium term.

The average price of raw material ${ }^{12}$ reached $\mathrm{R} \$ 120.38 / \mathrm{bag}(+53.7 \% \mathrm{YoY}$ and $+9.1 \% \mathrm{QoQ})$ in the quarter. The Gross price reached $\mathrm{R} \$ 3.40 / \mathrm{kg}(+46.1 \%$ YoY and $+17.7 \%$ QoQ) and Net price R\$3.06/kg ( $+51.1 \%$ YoY and $+15.6 \%$ QoQ).

Regarding Market view, we continue to observe a high level of prices, with continued restricted supply, as a result of the water crisis, which has affected sugarcane production in certain regions. In addition, the strongly appreciated dollar against the Real continues to stimulate Brazilian exports ${ }^{13}$.

## Canned Fish

In the canned fish category, the volume reached 8.0 k tons ( $-16.6 \% \mathrm{YoY}$ and $-13.8 \% \mathrm{QoQ}$ ) in the quarter, influenced in the annual comparison by the sales reduction in Coqueiro and value priced brand (Pescador). It is worth mentioning the sequential reduction in sales as a result of the seasonality in the category.

Gross price reached $\mathrm{R} \$ 26.70 / \mathrm{kg}$ (+26.1\% YoY and $+2.9 \%$ QoQ) and Net price R\$21.43/kg (+25.6\% YoY and +5.0\% QoQ).

Regarding the market view we emphasize the difficulty in local and international supply of sardines, with an increase in importations in the quarter to meet the need for raw material, however, with a low level of international offer.

Canned Fish - Gross price Camil ( $\mathrm{R} \$ / \mathrm{kg}$ )

[^6]The international food segment, the volume reached 161.6 k tons in the quarter ( $-14.5 \% \mathrm{YoY}$ and $+34.8 \% \mathrm{QoQ}$ ), with sequential sales recovery in all countries and reduction in the annual comparison, with lower availability of raw material due to the reduction in carryover stock compared to the same period of the previous year in Uruguay.

The volume was also impacted by volumes decrease in Peru, due to the impact of Covid-19 pandemics at the country's economics.

## Revenue

Consolidated Gross Revenue reached $\mathrm{R} \$ 2.5$ billion in the quarter ( $+16.4 \% \mathrm{YoY}$ ). The YoY result was caused by the effect of prices increase in period. The Consolidated Net Revenue reached $\mathrm{R} \$ 2.2$ billion in the quarter ( $+16.0 \%$ YoY), mainly, due to the increase in Net Revenue in Brazil Food Segment, which reached R\$1.7 billion ( $+24.4 \%$ YoY), driven by the market prices increase in the period and partially offset by sales volume reduction in the period.

The Net Revenue increase in the quarter was partially offset by the decrease in Net Revenue in International Food Segment, which reached $\mathrm{R} \$ 548.7$ million in the quarter ( $-3.8 \% \mathrm{YoY}$ ), due to the sales volumes reduction and FX impact, partially offset by the increase in average prices in the period.

## Cost of Sales and Services

 Costs of sales and services reached $\mathbf{R} \$ 1.8$ billion ( $+20.8 \% \mathrm{YoY}$ ), or $\mathbf{8 0 . 5 \%}$ of Net Revenue in the quarter, mainly, due to the increase in costs of sales and services in the Brazil Food Segment, which reached $\mathrm{R} \$ 1.4$ billion ( $+28.5 \% \mathrm{YoY}$ ) in the quarter, driven by the growth in average market prices of Rice R\$73.96/bag (+8.0\% YoY) ${ }^{14}$, Beans R\$263.91/bag (+9.6\% YoY) ${ }^{15}$ and Sugar R\$120.38/bag (+53,7\% YoY) ${ }^{16}$, partially offset by volumes reduction in the period.
Costs of sales and services in the International Food Segment reached $\mathrm{R} \$ 415.9$ million ( $+0.8 \%$ YoY), due to price increases, partially offset by the volumes reduction and FX effect.

Source: Company
Taking in consideration the factors listed above, Gross Profit reached R\$433.0 million ( $\mathbf{- 0 . 3 \%}$ YoY) with a $\mathbf{1 9 . 5 \%}$ margin (-3.2pp YoY) in 2Q21. We highlight the increase in raw materials costs and market prices and reduction in sales volumes in period.

[^7]Sales, General and Administrative Expenses
SG\&A reached R\$287.1 million (+3.2\% YoY), equivalent to 12.9\% of Net Revenue (-1.6pp YoY). The nominal growth was impacted by the increase in Brazil SG\&A (+11.3\% YoY), partially offset by International SG\&A reduction (-10.7\% YoY).

We highlight the -1.6pp YoY of the representativeness of the SG\&A in net revenue, reflecting the costs and expenses dilution in the period.

## Sales Expenses

Sales expenses reached $\mathbf{R} \mathbf{\$ 1 8 9 . 7}$ million ( $\mathbf{+ 0 . 7 \%}$ YoY), or $\mathbf{8 . 6 \%}$ of Net Revenue in the quarter ( $\mathbf{- 1 . 3 p p}$ YoY), mainly due to the increase in sales expenses in Brazil Food Segment ( $+9.8 \%$ YoY). This effect was partially offset by sales expenses reduction in International Food Segment (-12.7\% YoY).
© Sales expenses in Brazil Food Segment presented an increase of $+9.8 \%$ YoY, representing $7.4 \%$ of Net Revenue in the quarter in Brazil (-1.0pp YoY). The result was driven by increase in freight, advertisement and sales commissions expenses. This his effect was partially offset by expenses reduction with exports and advertisement in the period.
© Sales expenses in International Food Segment presented a reduction of -12.7\% YoY, representing 12.1\% of Net Revenue in the quarter in International ( $\mathbf{- 1 . 2 p p}$ YoY). This result was due to the reduction in the sales expenses in Uruguay and Peru driven by the volumes impact in the period.

## General and Administrative Expenses

General and Administrative Expenses reached R\$97.4 million (+8.4\% YoY), or $4.4 \%$ of Net Revenue in the quarter (-0.3pp YoY), due to the expenses increase in Brazil Food Segment ( $+13.9 \%$ YoY) and partially offset by the expenses reduction in International Food Segment (-5.1\% YoY).
© General and Administrative Expenses in Brazil Food Segment presented an increase of $\mathbf{+ 1 3 . 9 \%}$ YoY, representing 4.3\% of Net Revenue in the quarter in Brazil (-0.4pp YoY). The growth was caused mainly as result of increase in indemnities, personnel and electricity expenses, partially offset by the reduction in travel and accommodation expenses.
© General and Administrative Expenses in International Food Segment, presented a reduction of -5.1\% YoY, representing $4.5 \%$ of Net Revenue in the quarter in International (-0.1pp YoY). Chile and Peru showed a decrease in General and Administrative Expenses, an effect partially offset by the increase in expenses in Uruguay.

## Other operating (expenses) income

Other operating income reached $\mathbf{R} \$ 4.4$ million (vs. $\mathbf{R} \$ 9.9$ million of other operational revenues in 2Q20), due to the nonrecurring effect of taxes adjustment in International Food Segment. união EBarra

Pescador
coquein cocinero

Considering the factors listed above, EBITDA reached R\$191.1 million (-7.9\% YoY) with an 8.6\% margin (-2.2pp YoY).
We highlight the increase of $\boldsymbol{+ 3 . 9 \%}$ in sequential EBITDA.

## Net Financial Result

Net Financial Result reached an expense of R\$24.5 million in the quarter ( $\mathbf{+} \mathbf{7 0 . 4 \%} \mathbf{Y o Y}$ ) mainly, as result of the effects arising from the growth in expenses with derivative instruments and interest payments on loan, partially offset by the revenues in financial investments and FX variation.

## Income Tax and Social Contribution

Income Tax and Social Contribution reached an expense of R\$19.5 million, or $\mathbf{1 5 . 5 \%}$ of results before taxes, mainly due to the increase in the calculation base in the period, partially offset by the exclusion of ICMS subsidies and the payment of Interest on Equity.

## Net Income and Earnings per Share

Considering the factors listed above, Net Income reached $\mathbf{R} \$ 106.5$ million ( $-23.2 \%$ YoY) with a $4.8 \%$ margin ( -2.4 pp YoY). Earnings per Share reached $\mathrm{R} \$ 0.29(-23.2 \% \mathrm{YoY})$ in the quarter.

Total Debt reached $\mathrm{R} \$ 2.6$ billion ( $-0.8 \%$ YoY and $-1.8 \%$ QoQ), as result of the reduction in loans and financing between the periods ( $-43.6 \% \mathrm{YoY}$ and $+13.7 \% \mathrm{QoQ}$ ), partially offset by the increase in debentures (+55.1\% YoY and $-7.7 \%$ QoQ) arising from new funding and lengthening of the short-term to long-term schedule.

Total Liquidity (cash and cash equivalents and short and long-term financial investments) reached $\mathrm{R} \$ 1.4$ billion (+8.9\% YoY and $-7.9 \%$ QoQ). Considering the factors listed above, Net Debt (gross debt excluding total liquidity) reached $\mathrm{R} \$ 1.2$ billion ( $-9.9 \%$ YoY and $+6.3 \% \mathrm{QoQ}$ ) and Net Debt/EBITDA LTM of 1.6 x ( -0.4 x YoY and +0.1 x QoQ).

## Capex

Capex reached $\mathrm{R} \$ 43.9$ million ( $+61.5 \%$ YoY) in the quarter, mainly due to the investments for migration of our unit from São Paulo (SP) to Osasco (State of São Paulo), besides investments in international segment.

It is worth mentioning that the comparative basis of 2Q20 was impacted by the postponement of expansion projects due to the beginning of the Covid-19 pandemics.

The Company recorded cash generation in the last two quarters, totaling $\mathrm{R} \$ 95.0$ million in the semester ( $\mathrm{R} \$ 15.9$ million in 2Q21). This semester reinforces the Company's cash generation in the period when, normally, there is cash consumption - while the third and fourth quarters release working capital and improve operating cash flow.

The Company's free cash flow generation has relevant seasonality over the quarters, mainly due to the impact of the quarterly seasonality of working capital, more specifically its inventory and receivables.
