### Report on review of parent company and consolidated interim financial statements

To the Board of Directors and Stockholders Cosan S.A.

#### Introduction

We have reviewed the accompanying interim statement of financial position of Cosan S.A. ("Company") as at March 31, 2025 and the related statements of profit or loss, other comprehensive income, changes in equity and cash flows for the quarter then ended, as well as the accompanying consolidated interim statement of financial position of the Company and its subsidiaries ("Consolidated") as at March 31, 2025 and the related consolidated statements of profit or loss, other comprehensive income, changes in equity and cash flows for the quarter then ended, and explanatory notes.

Management is responsible for the preparation and presentation of these parent company and consolidated interim financial statements in accordance with the accounting standard CPC 21, Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and International Accounting Standard (IAS) 34 - Interim Financial Reporting, of the International Accounting Standards Board (IASB). Our responsibility is to express a conclusion on these interim financial statements based on our review.

#### Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently did not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company and consolidated interim financial statements referred to above are not prepared, in all material respects, in accordance with CPC 21 and IAS 34.

Cosan S.A.

#### Statements of value added

The interim financial statements referred to above include the parent company and consolidated statements of value added for the quarter ended March 31, 2025. These statements are the responsibility of the Company's management and are presented as supplementary information under IAS 34. These statements have been subjected to review procedures performed together with the review of the interim financial statements for the purpose of concluding whether they are reconciled with the interim financial statements and accounting records, as applicable, and if their form and content are in accordance with the criteria defined in the accounting standard CPC 09 - "Statement of Value Added". Based on our review, nothing has come to our attention that causes us to believe that these statements of value added have not been properly prepared, in all material respects, in accordance with the criteria established in this accounting standard, and consistent with the parent company and consolidated interim financial statements taken as a whole.

#### Audit and review of previous year's figures

The interim financial statements referred to in the first paragraph includes accounting information corresponding to the statements of profit or loss, other comprehensive income, changes in equity, cash flows and value added for the quarter ended March 31, 2024, obtained from the interim financial statements for that quarter, and the statement of financial position ended December 31, 2024, obtained from the financial statements ended December 31, 2024, presented for comparison purposes. The review of the interim financial statements for the quarter ended March 31, 2024 and the audit of the financial statements for the year ended December 31, 2024 were conducted under the responsibility of other independent auditors, who issued review and audit reports dated May 28, 2024 and March 10, 2025, respectively, without qualifications.

#### 2 Relevant events during the period

#### 2.1 Investments

#### **Acquisition of DIPI Holdings Ltda by Moove**

On September 29, 2024, Cosan Lubrificantes e Especialidades S.A. ("CLE") entered into a purchase and sale agreement to acquire 100% of the shares of DIPI Holdings Ltda, for the price of R\$329,006. The transaction was concluded on January 2, 2025, after all the conditions precedent had been met. The Company made the preliminary recognition of the price allocation, as detailed in Note 6.3.

#### Incorporation of Cosan Oito S.A.

On January 8, 2025, the Company successfully finalized the merger with Cosan Oito S.A. ("Cosan Oito"), after securing the requisite regulatory approvals. Consequently, all assets, liabilities, and shareholders' equity of Cosan Oito were comprehensively transferred to the Company. See Note 6.1.

#### Partial disposal of investment in Vale S.A.

On January 16, 2025, the Company sold 173,073,795 Vale S.A. ("Vale") common shares, representing 4.05% of Vale's share capital, for a net commission of R\$8,892,802 (see Note 6.1(b)). After this transaction, the Company kept 4,268,720 Vale common shares, corresponding to 0.10% of the share capital, in the amount of R\$ 242,036.

# Discontinuation of the operation of the Costa Pinto second generation ethanol ("E2G") pilot plat

On January 17, 2025, Raízen, jointly controlled by the Company, announced the discontinuation of the recurring operation of Costa Pinto's Second-Generation Ethanol (E2G) pilot plant (Plant 1), located in Piracicaba, São Paulo. The plant, inaugurated in 2015, will operate as a unit dedicated to the testing and future development of biofuel from the harvest starting on April 1, 2025.

The commercial commitments previously linked to Plant 1 will be met by the Bonfim Plant (Plant 2), which is already in operation, and by the Univalem (Plant 3) and Barra (Plant 4) plants, which are in the commissioning phase and will begin operations after obtaining the necessary regulatory authorizations.

#### Fire incident at Moove's Industrial Complex

On February 8, 2025, a fire broke out at Moove's Industrial Complex ("CIG"), located in Rio de Janeiro. The incident affected part of the production area and the administrative offices, which were inoperative at the time of the incident, representing 10% of the total area of the complex.

Moove promptly activated all the emergency and risk management protocols to control the incident. The containment measures, implemented through the Moove's contingency plan, were effective in minimizing damage to the structure, the local community and the environment. There were no victims or injuries, and no significant environmental or social impacts were identified.

(In thousands of Reais, except when otherwise indicated)

Bulk lubricant and base oil operations, the tank terminal, maritime operations and pier operations, which account for approximately one third of production, were not affected and continue to operate normally. Moove has begun implementing a continuity plan to re-establish blending and filling operations.

#### Financial evaluation resulting from the fire incident

#### a) Operational interruption

The fire has been successfully controlled and is limited to the area where finished lubricant products are manufactured, which remains closed for inspections and assessments. The other operations of the industrial complex (bulk lubricant and base oil operations, tank terminal, marine operations and pier operations) continue to operate, representing between 30% and 35% of total production.

To mitigate the impact of the interruption, Moove implemented the following measures:

- (i) Reallocation of blending and filling to other production plants.
- (ii) Use of strategic alliance to guarantee product availability and supply chain continuity.
- (iii) Production through third-party partners approved.
- (iv) Use of safety stock distributed in the distribution center network.

#### b) Insurance coverage

Moove's global operations have comprehensive insurance coverage, which includes operational risks, business interruption damage, civil liability and environmental liability. The indemnity limit for this incident in the affected region totals approximately R\$1,200,000. Moove has begun the process of evaluation and inspection with insurers.

#### c) Write-off of Assets

Moove will record the write-down of the affected assets in 2025, impacting the balance sheet and the income statement. The loss amount is under review, with the current estimate ranging between R\$190,413 and R\$285,620 for inventory and fixed asset losses. Of this amount, R\$44,756, related to the assets located at the ignition point of the fire, are considered highly probable to be confirmed as lost by March 31, 2025. Estimates of losses related to business interruption are still in the early stages of analysis.

Moove has hired a specialized company, knowledgeable about its operations, to conduct a physical inventory of the affected and unaffected assets at the CIG. The objective is to ascertain the actual extent of the loss

(In thousands of Reais, except when otherwise indicated)

with greater precision, identify and catalog the affected assets, and measure the impairment losses (cost value less accumulated depreciation), in accordance with CPC 01/IAS 36 – Impairment of Assets. The specialized company will issue a loss assessment report to support the accounting records. As of the date of issuance of these financial statements, the assessment work was not completed due to difficulties in accessing restricted areas and the extent of the work required for events of this magnitude.

#### Potential corporate reorganization proposal of Rumo Malha Norte

On February 19, 2025, Rumo S.A. ("Rumo") and Rumo Malha Norte S.A. ("Rumo Malha Norte") informed their shareholders and the market in general of the approval, by their respective Boards of Directors, of a potential corporate reorganization proposal. The proposal will be submitted for approval by the shareholders of the companies involved at their respective general meetings.

To conduct the negotiation of the exchange ratio in the potential corporate reorganization, special independent committees were set up and their members elected.

If approved, the corporate reorganization will optimize the corporate structure by incorporating the shares of the minority shareholders (0.26% of the share capital) of Rumo Malha Norte into Rumo, converting Rumo Malha Norte into a wholly owned subsidiary of Rumo. The minority shareholders of Rumo Malha Norte who retain their shares until the date of approval of the corporate reorganization by the general meetings of the companies involved will receive common shares in Rumo, in proportion to their holdings in the share capital of Rumo Malha Norte.

#### **Cosan Dez capital reduction**

On February 27, 2025, the Company received the amount of R\$1,013,760 related to the capital reduction of Cosan Dez, approved at the Extraordinary General Meeting on June 26, 2024.

#### **Redemption of Cosan Nove preferred shares**

On March 28, 2025, the Company redeemed 1,087,179,567 preferred shares of Cosan Nove, previously held by Banco Itaú, for the amount of R\$ 2,169,000 thousand. After the transaction, the preferred shares were converted into common shares. As a result, the Company's stake in Cosan Nove increased to 87.27% (see Note 6.1).

#### 2.2 New debts

#### Early redemptions of debentures

On January 22, 2025, the Company requested the optional early redemption of the 1st Series of the 3rd Issue of Simple Debentures, non-convertible into shares, unsecured, with original maturity in 2028, in the total amount of R\$750,000 to be increased by the remuneration calculated pro rata temporis from the date of the last payment until the date of the actual payment and the premium.

#### Early call (Bond 2027)

(In thousands of Reais, except when otherwise indicated)

On January 29, 2025, the Company informed the market that it had exercised the early redemption clause of the 2027 Bond, maturing in January 2027. The full redemption, in the amount of U.S.\$392,000 thousand, equivalent to R\$2,250,825, was carried out on March 14, 2025, at the face value of the bonds.

#### Tender offers - Bonds 2029, 2030 and 2031 and debentures

During the first quarter of 2025, the Company made partial repurchases of the 5th and 6th issue of Debentures and securities issued by Cosan Luxembourg S.A. ("Cosan Lux"), specifically Bonds 2029, 2030 and 2031, as detailed in the table below:

Notes	Added value of the principal	Added value paid on repurchase	Interest paid	Prize	Gain/Loss

#### 3 Statement of compliance and material accounting policies

The individual and consolidated interim financial statements were prepared and are being presented in accordance with Technical Pronouncement CPC 21 (R1) - Interim Financial Statements, International Accounting Standard (IAS 34) - Interim Financial Reporting, issued by the International Accounting Standards Board ("IASB"), the Brazilian Corporation Law and the rules of the Brazilian Securities Commission ("CVM") applicable to the preparation of Quarterly Information ("ITR").

These interim financial statements should be read in conjunction with the Company's annual consolidated financial statements for the fiscal year ended December 31, 2024 ("annual financial

(In thousands of Reais, except when otherwise indicated)

statements"). They do not include all the information required for a complete set of financial statements prepared in accordance with accounting practices adopted in Brazil and the International Financial Reporting Standards ("IFRS"). However, selected explanatory notes have been included to clarify events and transactions relevant to an understanding of the changes in the Company's financial position and performance since the last annual financial statements.

The presentation of the Statement of Value-Added Statements ("VAS"), both individual and consolidated, is required by Brazilian corporate law and by the accounting practices adopted in Brazil applicable to publicly traded companies. The DVA was prepared in accordance with the criteria established in Technical Pronouncement CPC 09 - Statement of Value Added. IFRS do not require the presentation of this statement; therefore, it is presented as supplementary information to the individual and consolidated interim financial statements.

These individual and consolidated interim financial statements were prepared using the same basis of preparation and accounting policies adopted in the preparation of the financial statements as of December 31, 2024. All balances have been rounded to the nearest thousand, unless otherwise indicated.

The relevant information specific to the interim financial statements, and only this information, is disclosed and corresponds to the information used by management in the management of the Company.

These interim financial statements were authorized for issue by the Board of Directors on May 15, 2025.

#### 4 Segment information

The Company's senior management (the Chief Operating Decision Maker) uses segment information to evaluate the performance of operating segments and make resource allocation decisions. This information is prepared on a basis consistent with the accounting policies used in the preparation of the financial statements.

Earnings before interest, taxes, depreciation, and amortization ("EBITDA") are used by the Company to evaluate the performance of its operating segments.

#### Reported segments:

- 1) Raízen: operates in the (i) production, commercialization, origination and trading of ethanol, (ii) production and commercialization of bioenergy, (iii) resale and trading of electricity, (iv) production and commercialization of other renewable products (solar energy and biogas), (v) production, commercialization, origination and trading of sugar and (vi) trading and commercialization of fossil fuels, renewable fuels and lubricants through a franchised network of service stations under the Shell brand throughout the country and in Latin America, operating in Argentina and Paraguay.

#### d) Restrictive clauses

The Company and its subsidiaries are required to comply with the financial clauses per the terms of the main loan lines both financial and non-financial, as set forth in the loan and financing agreements

As of March 31, 2025, the Company and its subsidiaries were in compliance with all financial and non-financial restrictive covenants. The terms of the loans include cross-default provisions.

#### 5.3 Derivative financial instruments

The Company uses swap instruments, whose fair value is determined from discounted cash flows based on market curves, to hedge the exposure to foreign exchange risk and interest and inflation risk. The consolidated data are presented below:

Derivatives are only used for economic hedging purposes and not as speculative investments.

#### a) Fair value hedge

The Company, through its subsidiaries, adopts fair value hedge accounting for some of its operations.

There is an economic relationship between the hedged item and the hedging instrument because the terms of the interest and FX rate swap correspond to the terms of the fixed-rate loan, i.e., notional amount, term, and payment. Since the underlying risk of the interest and FX rate swap is identical to the hedged risk component, the Company has established a hedge ratio of 1:1 for its hedging relationships. The Company employs the discounted cash flow method and compares changes in the fair value of the hedging instrument with changes in the fair value of the hedged item attributable to the hedged risk in order to evaluate the effectiveness of the hedge. According to the Company's assessment, the sources of hedge ineffectiveness that are most likely to impact the hedge relationship during its term are: (i) a reduction or change in the hedged item; and (ii) a change in the Company's or the contracted swap counterparty's credit risk. The following amounts were associated with the items designated as hedging instruments:

#### c) Cash flow hedge

The indirect subsidiary Edge Comercialização S.A. entered into a natural gas sales contract (Brent risk) with a third party and related party. In order to protect and mitigate the risks arising from fluctuations in natural gas indexes, the subsidiary designated this operation subject to hedge accounting for the respective cash flow protection.

The expected benefits of this contract are: reducing the financial risk associated with fluctuations in natural gas prices, avoiding fluctuations in the financial results of hedging instruments, protecting the subsidiary's margins, maintaining predictability in its costs or revenues and ensuring greater stability in operating results.

The indirect subsidiary TRSP Terminal de Regaseificação de São Paulo ("TRSP") has adopted a hedge accounting strategy to protect its results from exposure to variability in cash flows arising from the exchange rate effects of highly probable revenues in US dollars projected for a period of 20 years, through non-derivative hedging instruments - lease liabilities in US dollars already contracted.

In order to mitigate the effects of exchange rate volatility on future cash flows, the subsidiary Rumo entered into derivative financial instruments in the form of swap transactions and designated cash flow hedges. The hedge relationship was formally designated and documented at the start of the operation, demonstrating that the hedge is effective in offsetting variations in cash flows attributable to exchange rate risk. The effects of this hedge are recognized in equity, under "Other Comprehensive Income".

The impacts recognized in the equity of subsidiaries and the estimates of realization in equity are shown below:

- (i) The fair value of investment properties was determined using the direct comparative method of market data applied to transactions involving similar properties (type, location, and quality of property) and, to a lesser extent, sales quotes for potential transactions involving comparable assets (level 3). The methodology used to determine fair value incorporates direct comparisons of market information, such as market research, homogenization of values, spot market prices, sales, distances, facilities, access to land, topography and soil, land use (crop type), and rainfall, among other data, in accordance with the standards issued by the Brazilian Association of Technical Standards (Associação Brasileira de Normas Técnicas ("ABNT"). The discount rates used vary between 6.06% p.a. and 10.40% p.a. on March 31, 2025 and December 31, 2024.
- (ii) The fair value of loans measured at amortized cost does not differ significantly from their carrying value.

For debts that have a market value quoted on the Luxembourg Stock Exchange (LuxSE), the fair value measurement is based on the quoted market price as follows:

Debt	Company	March 31, 2025	<b>December 31, 2024</b>
Senior Notes 2028	Rumo Luxembourg	98.37%	97.32%
Senior Notes 2032	Rumo Luxembourg	88.57%	84.30%
Senior Notes 2027 (i)	Cosan Luxembourg S.A.	-	99.63%

(i) Debt was settled on March 14, 2025, as per note 2.1.

# Call Option ("Call")

The Company has a call option which gives it the right to repurchase all the preferred shares of Cosan Nove and Cosan Dez, which may be exercised as of the third year after the execution of the respective agreements in December 2022.

As of March 31, 2025, the Company measured the fair value of the call option and concluded that it is out of price.

### **Contingent put option**

In the shareholders' agreements entered into between the Company and the banks Itaú and Bradesco regarding the issuance of preferred shares, it was defined that both financial institutions have a contingent put option only when the specific adverse material effects provided for in the contract occur, which are under the Company's control and, therefore, do not constitute a financial obligation.

The prices for the exercise of the options are calculated based on the initial amounts adjusted by a weighted average rate of CDI + 0.60% minus the dividends received by non-controlling shareholders in this period, which, on March 31, 2025, is represented by the amounts of R\$2,240,312 and R\$3,760,860, respectively.

#### • Total Return Swap (TRS)

We are exposed to risks linked to CSAN3 share prices. To mitigate such exposures, total return swap derivatives of 106,695,312 shares of CSAN3 were contracted in which the Company receives the variation of the share price and proceeds on the active side and pays CDI + 0.97% on the passive side.

The sensitivity analysis considers the closing share price as shown below:

	_	Scenarios				
Instrument	<b>Probable</b>	25%	50%	(25%)	(50%)	
Net exposure options	(183,515)	197,120	394,239	(197,120)	(394,239)

### b) Credit risk

(In thousands of Reais, except when otherwise indicated)

The Company's regular operations expose it to the risk of default when customers, suppliers, and counterparties are unable to fulfill their financial commitments or other obligations. The credit risk exposure was as follows:

	March 31, 2025	<b>December 31, 2024</b>
Cash and cash equivalents	14,809,083	16,903,542
Trade receivables	4,362,082	3,995,734

Other financial assets	4,648	4,495
	24,889,785	28,817,140

The Company is exposed to risks related to its cash management activities and temporary investments.

The credit risk of cash and cash equivalents, marketable securities, restricted cash, and derivative financial instruments is determined by widely accepted market rating instruments and is structured as follows:

	March 31, 2025	<b>December 31, 204</b>
AAA	19,759,567	22,706,407
AA	208,684	803,935

#### 6.3 Acquisition of subsidiaries

#### **DIPI Holding Ltda.**

On January 2, 2025, the subsidiary Cosan Lubrificantes e Especialidades S.A. ("CLE") acquired 100% of the shares of DIPI Holding Ltda. and its subsidiary ("PAX Group") for the amount of R\$329,006. Of this amount, R\$232,886 was paid on the transaction date, and the remaining R\$96,120 is to be settled in two installments on the first and second anniversaries of the acquisition date. The net cash effect on the consolidated financials from the acquisition was R\$213,086, considering the cash acquired from the PAX Group at the acquisition date and amounts owed by former shareholders to the PAX Group.

The first deferred installment is fixed. The second installment is an earn-out and is subject to adjustments based on the change in consolidated EBITDA between the closing date and the respective measurement periods. If the consolidated EBITDA is lower than the base EBITDA adjusted for inflation (based on Brazil's IPCA index) during the period, the sellers will receive a proportionally reduced amount. Additionally, the second deferred installment may be increased cumulatively under the following conditions: (i) the first deferred installment is subject to a negative adjustment; (ii) the adjustment to the second installment is positive; and (iii) the EBITDA for the first period is equal to or exceeds 70% of the base EBITDA, adjusted for IPCA inflation between the closing and measurement dates, up to a maximum total deferred payment of R\$100,000.

The acquisition was accounted for using the acquisition method, as provided for in IFRS 3 and CPC 15. The significant accounting policies applied include recognizing and measuring the identifiable assets acquired and liabilities assumed at their fair value on the acquisition date.

The PAX Group, based in Brazil, specializes in the production and sale of greases and lubricating oils, as well as the manufacture of plastic packaging for the lubricants market. The aim of the acquisition was:

- To increase synergies in relation to supply chain planning,
- Expand the product portfolio by increasing the mix,
- Gain access to the restricted packaging market and
- Incorporate knowledge of grease technologies and applications.

As of the acquisition date, the gain on the identifiable assets acquired totaled R\$112,966, which was preliminarily allocated as follows:

- Customer portfolio: R\$63,655. The fair value was determined using the Multi-Period Excess Earnings Method (MPEEM), which considered a five-year sales history and the customer churn rate to estimate the retention rate. Based on these assumptions, discounted cash flows were calculated to determine the fair value adjustment.
- Trade markets and patents: R\$ 13,254. The fair value was determined using the Relief from Royalty Method (RRM), which relied on royalty rates practiced by comparable companies in the market (1.5%) to estimate the avoided royalty payments resulting from the acquired trademark, discounted to present value.

(In thousands of Reais, except when otherwise indicated)

- **Inventories:** R\$ 2,794. The fair value was determined based on the market approach.
- **Property, plant and equipment:** R\$ 33,263. The fair value was assessed based on replacement cost.

On the acquisition date, preliminary goodwill of R\$236,469 was recognized, representing the expected future economic benefits of the synergies arising from the acquisition. The balance of goodwill on March 31, 2025 is R\$236,469, and there have been no significant changes since the acquisition date.

The consolidated income statement includes, since the acquisition date, revenues and net income in the amounts of R\$63,392 and R\$12,221, respectively, generated by the PAX Group.

Both the fair value and the gross contractual value of the receivables acquired total R\$18,455. There are no expected losses due to non-realization of these receivables.

The table below summarizes the values of the assets acquired and liabilities assumed on the acquisition date:

(i) Lawsuit filed in the amount of R\$46,408, to process a request for refund of IRPJ/CSLL credits for the 2017 calendar year cumulated with the declaration of offsetting of PIS/COFINS debts, as well as future offsets with current federal taxes from the operation, consequently removing the restriction imposed by article 161-A of IN/RFB No. 1,717/2017 to refrain from demanding the debts declared by the company solely because the offset was claimed before the ECF transmission was confirmed.

#### **Labor claims**

The Company and its subsidiaries are parties to labor claims filed by former employees and outsourced service providers claiming among other things, compensation and indemnities. Additionally, the Company has public civil actions filed by the Labor Prosecutor's Office regarding alleged non-compliance with labor standards, working conditions and working environment. For claims deemed to have merit, the Company has signed Conduct Adjustment Agreements with the Brazilian authorities.

#### Civil, environmental and regulatory lawsuits

The Company and its subsidiaries are involved in a number of Indemnity Lawsuits, Public Civil Actions, and Administrative Proceedings where, in the opinion of its legal counsel, the risk of loss is probable.

#### b) Possible losses

The Company maintains discussions of an administrative and judicial nature with the tax authorities in Brazil, related to certain interpretations and tax positions adopted in the calculation of Corporate Income Tax ("IRPJ") and Social Contribution on Net Profit ("CSLL"). The final determination of these issues is uncertain and may be influenced by factors external to the Company, such as changes in case law and amendments to tax laws and regulations. In accordance with IFRIC 23/ICPC 22 - Uncertainty over Income Tax Treatment, the Company evaluates, for each uncertain tax treatment, whether it is probable that the tax authority will accept the treatment used or planned in the tax calculation. Only in cases where the Company concludes that it is unlikely that the tax authority will accept the uncertain tax treatment, the effects of uncertainty are recognized based on the best forecasting method for resolving the issue, whether by the most likely amount or the expected value.

(In thousands of Reais, except when otherwise indicated)

The tax positions adopted by the Company are based on opinions from specialized legal advisors. The Company is subject to review by tax authorities regarding income tax for a period of up to 10 years, depending on the jurisdiction in which it operates.

As of March 31, 2025, the total amount of assessed and disputed values with the tax authorities regarding these matters, for which it is likely that the tax authority will accept the uncertain tax treatment, was R\$6,704,852 (R\$6,862,000 as of December 31, 2024).
