**NOTICE TO THE MARKET**

**Rio de Janeiro, January 03, 2025 - ENEVA S.A. ("Eneva" or "Company") (B3: ENEV3)**, in addition to the material fact disclosed on October 7, 2024 ("Material Fact 10/7/2024") and, in compliance with the provisions of CVM Resolution No. 44, of August 23, 2021 and the provisions of art. 157, §4º of Law No. 6,404, of December 15, 1976, as amended, informs its shareholders and the market in general that, on December 28, 2024, the process of replacing the connection pipe ("Riser") of the FSRU (Floating Storage and Regasification Unit) to the maritime gas pipeline which guarantees gas supply to the Sergipe Hub was successfully completed. Thus, on January 01, 2025, the Sergipe Hub resumed its full operation, given the reestablishment of the natural gas transfer operation from the FSRU to the Porto de Sergipe I TPP ("Plant") and to the natural gas transportation grid ("Grid").

It is worth noting that, as reported in the Material Fact 10/7/2024, mitigating actions were implemented during this period when the supply solution via the FSRU was unavailable, ensuring compliance with the regulatory contractual obligations entered into by Porto de Sergipe I TPP, in addition to meet all established gas supply contracts and commitments in effect, including using replacement energy generation to partially meet the Plant's obligations through the Parnaíba Complex and an alternative supply solution using the connection to the TAG gas pipeline in the Grid.
