The notes are an integral part of the parent company and consolidated Quarterly Financial Report.

# Notes

## to the Parent Company and Consolidated Quarterly Financial Report on June 30, 2022

(All amounts are in thousands of reais unless otherwise stated)

### 1. Operations\*

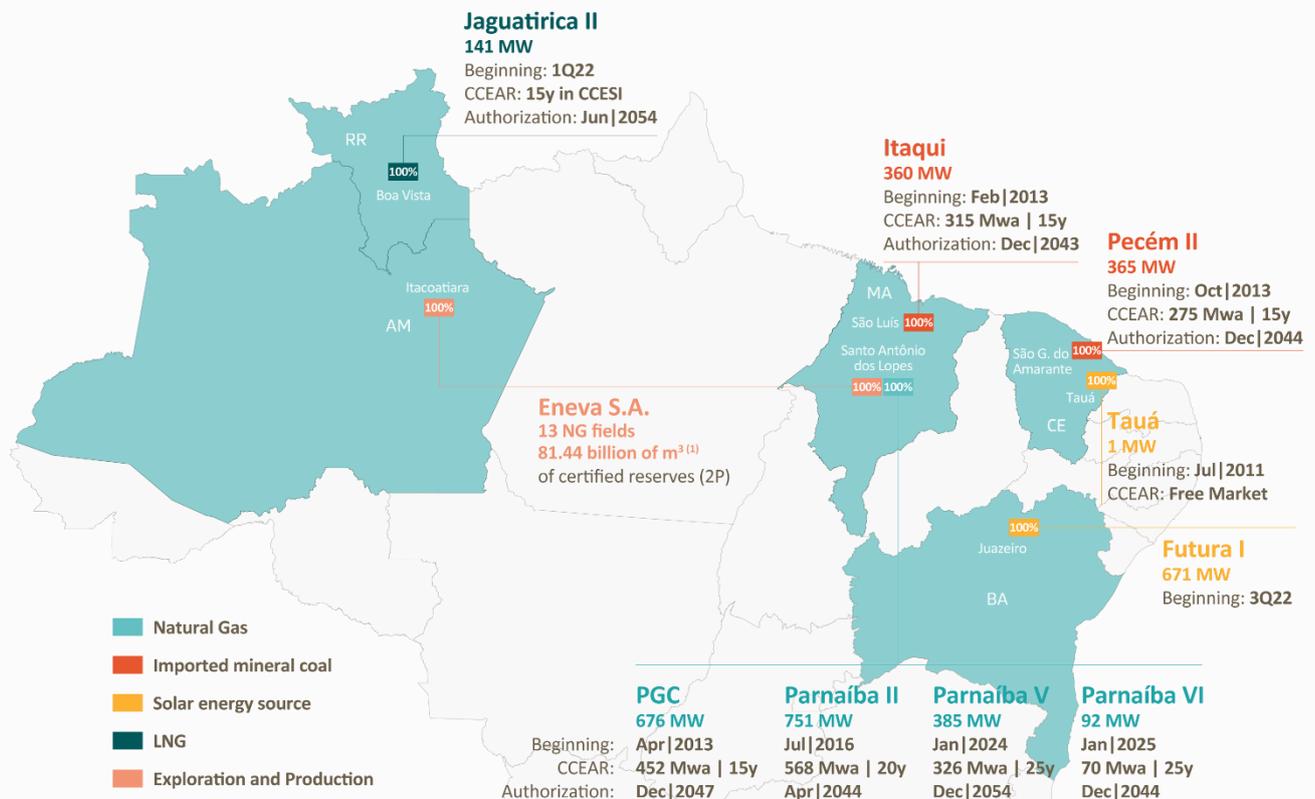

Eneva S.A. (“Company” or “Eneva”) is a publicly traded company registered in B3 S.A. – Brasil, Bolsa, Balcão, under the code (“ENEV3”), headquartered in the Municipality and State of Rio de Janeiro, which operates in the generation and trade of electric power and in the exploration and production (E&P) of natural gas in Brazil.

Eneva counts on a thermal power station of 3.7 GW of installed capacity (60% operating), being 2.3 GW natural gas (62%) and 725 MW mineral coal (18%). It is the second largest company in thermal capacity in the country, responsible for 9% of the national installed thermal capacity.

Eneva has a total exploratory area of over 64 thousand km<sup>2</sup> located in the Parnaíba Basin, in the state of Maranhão, in the Amazonas and Solimões Basin, in the state of Amazonas, and in the Paraná Basin, located between the states of Goiás and Mato Grosso do Sul.

Currently, the Company has eleven fields able to produce, ten of which declared commercial in the Parnaíba Basin and one acquired in the assignment process of Amazonas Basin. The Company is also the concessionaire of the Juruá marginal accumulation area, in the Solimões Basin. Of these fields, six are in production, five of which are entirely destined to supply the natural gas thermoelectric plants located in the state of Maranhão (“Parnaíba Complex”), thus assuming a production commitment of 8.4 million m<sup>3</sup>/day; and one in Amazonas to supply the Jaguaritica II thermoelectric plant in Roraima.

### Businesses

\* Operational information regarding installed capacity, contracted capacity, production, area and information disclosed in the businesses maps are not audited by independent auditor.

## 1.1 Significant events in the period:

### Agreement for the acquisition of Centrais Elétricas de Sergipe Participações

#### S.A. (“Celsepar”)

On May 31, 2022, it was signed agreement for the acquisition of 100% of the shares representing the share capital of Celsepar.

Celsepar has the subsidiary Celse – Centrais Elétricas de Sergipe S.A., which operated the UTE Porto de Sergipe I (“Plant”), a combined cycle natural gas thermoelectric plant, located in the State of Sergipe. The Plant is fully contracted in the regulated environment until December 2044, being entitled to an annual fixed revenue of R\$ 1.9 billion (base date: November 2021), indexed to the IPCA - Broad Consumer Price Index, plus of variable revenue equivalent to R\$406.2/MWh (base date: June 2022), indexed to Brent Oil.

The Company will pay the amount of R\$6.1 billion, considering December 31, 2021 as base date, subject to correction by the CDI variation plus 1% p.a. from the base date up to the closing date. Furthermore, Eneva will take on the net debt of Celse in the amount of R\$ 4.1 billion (base date: December 31, 2021).

Completion of the transaction is subject to precedent conditions, including, among others, (a) approval by CADE; (b) consent of creditors in relation to the change of control of Celsepar and its subsidiary, within the scope of the financing agreements and guarantee instruments entered into by both companies; and (c) approval at the Company's general meeting.

#### Agreement for the acquisition of Central Geradora Termelétrica Fortaleza S.A (“CGTF”)

On June 9, 2022, the Company entered into an agreement for the acquisition of 100% of the shares representing the share capital of CGTF, which operates a gas thermoelectric plant, located in the State of Ceará.

The plant has an energy commercialization agreement with the distributor Companhia Energética do Ceará S.A., signed on August 31, 2001, in force up to 2023. In 2021, CGTF recorded net operation revenue of R\$ 1.7 billion and EBITDA of R\$ 580 million.

The Company will pay R\$ 431,583, considering the base date March 31, 2022, subject to monetary restatement by the CDI variation according to the terms of the Contract. The operation also foresees payments contingent to the future rehiring of the plant that may reach R\$ 97 million. The conclusion of the operation is subject to the approval of CADE.

#### Funding - public offer of common shares and eighth issuance of debentures

On June 24, 2022, within the scope of its public offering for the primary distribution of common shares issued by it, at a Board of Directors meeting, the issuance price per share of R\$14.00 (“Price per Share”) was approved, as well as the effective increase in the Company's share capital through the issuance of 300,000,000 new shares, and their approval, resulting in a total amount of R\$ 4.2 billion.

All of the net proceeds from the Restricted Offer will be used for the acquisition of 100% (one hundred percent) of the shares representing the capital share of Celsepar.

Additionally, as a cash reinforcement strategy, on June 15, 2022 the Company registered the public offering of the eighth issue of debentures, which ended on July 25, 2022, according to Note 25 “Events after the reporting period”.

#### Sale of Liquefied Natural Gas (LNG) to third parties

On May 25, 2022, the Company entered into an agreement with Suzano S.A. (“Suzano”) for the supply of LNG for the industrial facilities of the latter. The Company will supply LNG from its concessions in the Parnaíba Basin, where an additional natural gas liquefaction unit will be installed. The Agreement is effective for 10 years from the start of the commercial supply, scheduled for the first half of 2024.

#### Commercial operations of Usina Termelétrica Jaguatirica II (“UTE Jaguatirica II”)

The National Electric Energy Agency - ANEEL authorized UTE Jaguatirica, in the state of Roraima, to begin the commercial operations of the third generating unit, the steam turbine. With the start of operation of the third turbine, the plant reaches its total installed capacity of 140,834 MW.

#### Commercialization of purchase and sale of electricity for export

In June 2022, the first sale of energy to supply the Argentine market took place. The operation generated revenue of R\$ 205,740 and had as counterparty the trading company Tradener Ltda., a company authorized to export energy to the neighboring country.

## 2. Licenses and authorizations\*

In the second quarter of 2022, the company highlights the issuance of necessary licenses for the construction of the gas pipeline and clusters referring to the Gavião Tesoura field (Maranhão), the issuance of the necessary authorizations for three more exploratory wells in Amazonas, issuance of the Installation License for photovoltaic plant (Bahia) and the Operating License for production in the Gavião Preto field (Maranhão), in addition, of course, to the maintenance of all current licenses.

(\*) Information related to compliance with social and environmental programs is not reviewed by an independent auditor

## 3. Presentation of the Parent Company and Consolidated Financial Report

The accounting policies applied in this Parent Company and Consolidated Quarterly Financial Report are the same applied in the Financial Statements for the year ended December 31, 2021 and there are no new accounting pronouncements in force in 2022 that have a significant impact on the Company. Accordingly, this Parent Company and Consolidated Quarterly Financial Report must be read together with the annual financial statements issued on March 21, 2022, as approved by the Company's Board of Directors.

In order to present just the aspects material to the quarter ended June 30, 2022, the Company is not presenting the notes below, which were disclosed in the financial statements for the year ended December 31, 2021, because it did not suffer significant updates in the period.

| Heading of the notes                             | Number of the notes                       |
|--|---|
| Critical accounting estimates and judgments      | 5   |
| Income tax and social contribution recoverable   | 11  |
| Provision for negative equity                    | 12.5                                      |
| Intangible assets                                | 18  |
| Leases   | 13 (b)                                    |
| Income tax and social contribution payable       | 0   |
| Provision for decommissioning costs              | Erro! Fonte de referência não encontrada. |
| Insurance Coverage                               | 28  |
| Commitments                                      | 29  |
| Research and development - electric power sector | 25 (f)                                    |
| Provision - reimbursement cost                   | 25 (g)                                    |

The preparation of quarterly information report requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the accounting policies. Accounting estimates and judgments are assessed at each reporting period and are based on historical analysis and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The issuance of this quarterly information was authorized by the Board of Directors on August 11, 2022.

### Parent company and consolidated Quarterly Financial Report on March 31, 2022

The Parent Company Quarterly Financial Report is in accordance with CPC 21 (R1) and the Company's consolidated Quarterly Financial Report is in accordance with CPC 21(R1) and IAS 34 – *Interim Financial Reporting*, issued by the *International Accounting Standards Board – IASB*, as well as the presentation of this information is according to the standards issued by the Securities and Exchange Commission, applicable to the elaboration of the interim financial statements - ITR.

The presentation of the parent company and consolidated statements of added value is required by the Brazilian corporate legislation and the accounting practices adopted in Brazil for listed companies. The Statement of added value was prepared according to the criteria defined in the Technical Pronouncement CPC 9 - "Statement of added value", while it is not required by IFRS. As a consequence, according to the IFRS, this parent company and consolidated financial report is presented as supplementary information.

In the presentation of the parent company Quarterly Financial Report, the costs related to the debentures issued by Eneva S.A. (third series), whose goal is the construction of the Parnaíba V project and the realization of the derivatives called Non Deliverable Forwards (NDFs), contracted in order to mitigate the foreign currency exposure arising from investments in foreign currency for the construction of the solar plant Futura I, are recorded in the account "investment in subsidiaries".

In the consolidated Quarterly Financial Report, these costs are presented as "property, plant and equipment". Accordingly, there is no difference between the parent company equity and the consolidated equity.

Furthermore, the shares of Eneva S.A., which were acquired by the subsidiary Parnaíba II Geração de Energia S.A., in order to carry out the Company's shares repurchase program, are recorded as parent company and consolidated shareholders' equity on a reflexive way. Accordingly, this operation does not give rise to difference between the parent company equity and the consolidated equity.

The Quarterly Financial Report of the Company and its subsidiaries and associates are measured using the currency of the main economic environment in which the entity operates (“functional currency”), which is real (“R\$”), except in relation to the subsidiary Parnaíba BV that uses the U.S. Dollar (“USD”), whose functional currency is different from the presentation and its translation follows the same criteria used in the Financial Statements for the year ended December 31, 2021.

### Changes in accounting practices and disclosures

The Company adopts, with no material impacts, the amendments to “CPC 15 (R2) – Business combination” and “CPC 27 – Property, Plant and Equipment”, in accordance with the review of the technical pronouncement No. 19, as from January 1, 2022.

## 4. Business combination

SUMÁRIO 

On March 11, 2022, after meeting all the precedent conditions of the transaction, the acquisition of the entire equity interest of Focus Energia Holding Participações S.A. (“Focus”) and its subsidiaries was concluded.

(“Focus”) acted as an integrated platform for renewable energy businesses in Brazil, focusing on the commercialization, energy generation for commercialization in the free market, distributed generation and provision of energy services for generators and free consumers. Besides the energy trading operations, Focus also had a main focus on the construction and development of Futura Project, renewable energy generation plants, from solar sources.

The consideration transferred was effected by the Company on March 21, 2022 in the total amount of R\$936,487, comprising R\$732,827 of cash payment made to the acquiree's former shareholders (which refers to the R\$715,000 of the original agreement monetary restated up to the transaction date) and R\$ 203,660 equivalent to the issuance of 17 million new shares of Eneva S.A. at the unit price of R\$ 11.98 (fair value of the shares on the acquisition date), delivered to the sellers.

The main economic and strategic motivators for the acquisition of Focus were (i) the acquisition of Futura Project, which expects to be the largest solar energy park in Brazil<sup>(1)</sup>, thus accelerating the diversification of the Company's energy matrix, which is the main attraction for the operation; (ii) expansion of its operation in the energy trading segment; and (iii) possibility of several gains from operational and financial synergies.

1. Operating information not reviewed by independent auditor

### Determining the Fair Value of the Business Combination

The acquisition of the assets and liabilities of Focus was recorded using the acquisition method, considering the fair value of the assets and liabilities acquires at the acquisition date.

The Company hired specialized consulting company to support the measure of the fair value of the tangible and intangible assets, with the objective of Purchase Price Allocation (PPA) in Eneva S.A..

The fair value of the main identified assets and liabilities is as follows:

|  | Acquired fair value |     |
|--|---------------------|-----|
| <b>Current assets</b>                    | <b>1,168,149</b>    |     |
| Cash and Cash Equivalents                | 392,696             |     |
| Trade receivables                        | 139,600             |     |
| Fair value of the energy contracts       | 585,330             |     |
| Other current assets                     | 50,523              |     |
| <b>Non-current assets</b>                | <b>2,530,250</b>    |     |
| Fair value of the energy contracts       | 332,731             |     |
| Other non-current assets                 | 5,743               |     |
| <b>Property, plant and equipment</b>     | <b>1,992,897</b>    |     |
| <b>Intangible assets</b>                 | <b>198,879</b>      |     |
| <b>Total assets</b>                      | <b>3,698,399</b>    |     |
| <b>Current liabilities</b>               | <b>1,046,367</b>    |     |
| Borrowings and financings                | 10,572              |     |
| Trade payables                           | 380,487             |     |
| Fair value of the energy contracts       | 516,337             |     |
| Financial instruments - derivatives      | 27,875              |     |
| Deferred income tax on recognized assets | 65,681              |     |
| Other current liabilities                | 45,415              |     |
| <b>Non-current liabilities</b>           | <b>1,593,742</b>    |     |
| Borrowings and financings                | 23,214              |     |
| Deferred tax liabilities                 | 98,009              |     |
| Clients prepayment                       | 80,034              |     |
| Fair value of the energy contracts       | 99,392              |     |
| Other non-current liabilities            | 52,315              |     |
| Debentures                               | 1,240,778           |     |
| <b>Net assets</b>                        | <b>1,058,290</b>    | (A) |

\*This amount was segregated, as shown in the Statement of Changes in Shareholders' Equity, between: (i) share capital, in the amount of R\$ 110,120 corresponding to the issuance of shares by the equity price of the acquired company (unit value of R\$ 6.48) and (ii) capital reserve, in the amount of R\$ 93,660 corresponding to the difference between the unit value of the issuance of the shares and the quotation of Eneva's shares at the operation date (R\$ 11.98 – quotation on March 22, 2022).

\*\* The determination of the gain from advantageous purchase is related to the financial imbalance situation of Focus before the transaction, which was having difficulties in honoring commitments related to the construction of Futura Project. The gain on advantageous purchase was recorded in the statement of profit or loss under “Other operating income (expenses)”. On the gain for advantageous purchase was recorded the amount of R\$ 41,413, related to the deferred Income Tax and Social Contribution in the statements of profit or loss.

| Calculation of Gain for Advantageous Purchase      |                |           |
|--|----------------|-----------|
| Cash   | 732,827        |           |
| Equity instruments*                                | 203,660        |           |
| <b>Consideration transferred</b>                   | <b>936,487</b> | (B)       |
| <b>Gain for advantageous purchase calculated**</b> | <b>121,803</b> | (C)=(A-B) |

## 4.1 Segments added after business combination

“Trade Receivables” comprises gross contractual amounts due of R\$142,768, of which R\$3,168 are estimated to be non-recoverable on the acquisition date and are fully provisioned.

On June 30, 2022, Pecém II contributed with revenue of R\$ 594,116 and profit of R\$ 89,212 to the consolidated financial statements. If the acquisition had occurred on January 1, 2022, Management estimates that, considering the same adjustments at fair value, the consolidated income would be of R\$ 2,411,657 and the consolidated net income would be of R\$ 324,706.

### Fair value measurement - Intangible assets generated in the business combination

The valuation techniques used to measure the fair value of the significant intangible assets acquired were as follows: the fair value was measured using estimated discounted cash flows following the these assumptions: i) Futura Project: projected revenues in accordance with the guidelines of the long-term contracts entered into and sale in the energy spot market; ii) Energy commercialization: projected revenues based on long-term commercialization contracts and historical average of volume contracted for the other projection years. The non-observable inputs considered as the most significant are the following: (i) the weighted average cost of own capital and third-parties’ (“WACC”) in nominal terms; (ii) energy price for the bilateral contracting based on observable market historical; and (iii) regulatory charges considering levels readjusted by the inflation.

The main intangible assets identified were as follows:

#### Fair value determined

|  |                |
|--|----------------|
| Energy sale contracts and authorization for energy generation – Futura Project             | 144,946        |
| Energy sale contracts and authorization for energy generation – CGH’s                      | 27,867         |
| Customers’ portfolio – Focus Inteligência (consultancy services in the electricity market) | 20,366         |
| Other intangible assets already recorded in the acquired company                           | 5,700          |
| <b>Total intangible assets evaluated at fair value</b>                                     | <b>198,879</b> |
| Deferred income tax on recognized assets (34% of fair value)                               | (65,681)       |

### Solar plants

As it has already been mentioned, Futura Project is a solar energy generation complex that is being developed in the state of Bahia, with an installed capacity of 671Mw, contemplating the projects Futura 1, 2 and 3. The first plant, Futura 1, is in an advanced stage of construction and is estimated to be operational in November 2022. The impact of such acquired solar plants on the Group’s operations, whether in their construction stage or when they start operating, is considered relevant and, for this reason, the Company understands that the creation of a new segment is necessary to demonstrate the way the Company receives information to manage its business.

## 5. Segment reporting

For the purposes of analyzing and managing operations, the segments are divided into business units, based on the products and services provided. As of June 30, 2022, the following operating segments are being disclosed, as they were in the financial statements as of December 31, 2021, with the exception of the solar plants segment, which is described in Note “4.1 - Segments added after business combination”.

- i. gas-fired thermal plants
- ii. upstream
- iii. coal -fired thermal plants
- iv. energy trading
- v. solar plants;
- vi. holding and others.

The performance of the activities of each segment are evaluated by the Company’s Executive Board and reflect the structure of the business model adopted. It is worth noting that the operations between the Company and its subsidiaries, as well as the operations between the subsidiaries, are completely eliminated for the presentation of the balances by segment.

The Executive Board uses economic performance indicators as the main source of information for making operational and capital allocation decisions. For this reason, the statements of profit and loss for the base date of June 30, 2022 and 2021 are presented below, by segment. Comparative information for 2021 has been restated, considering the new segment added in the business combination.

## Statement of profit or loss on 6/30/2022

|  | Natural Gas-fired Power Generation |               |              |                         | Coal-fired thermal plants | Energy trade  | Solar plants *  | Holding and others | Eliminations     | Total consolidated |
|--|------------------------------------|---------------|--------------|-------------------------|---------------------------|---------------|-----------------|--------------------|------------------|--------------------|
|  | Gas thermal plants                 | Upstream      | Eliminations | Subtotal Gas Generation |                           |               |                 |                    |                  |                    |

### Seasonality of operations

The Company's operating results are subject to seasonality that commonly affects the national electricity sector, especially impacted by the country's rainfall regime and the population's consumption curve.

In the twelve-month period ended June 30, 2022 and June 30, 2021, the Company had net revenue of R\$5,290,970 and R\$3,699,431, respectively, and net income of R\$1,186,805 and R\$1,062,724, respectively, in the consolidated.

## 9. Taxes on income and deferred taxes

### Reconciliation of the taxes recognized in the result

On June 30, 2022, the taxes calculated on net income comprise Income Tax (rate of 15% and additional 10%) and Social Contribution (rate of 9%). The conciliation of the amount calculated using the combined statutory tax rate and of the expense of income tax and social contribution expense is as follows:

|   | Parent Company             |                            |                                     |                                     | Consolidated               |                            |                                     |                                     |

- a.** Subsidy for Investment related to the tax incentive in the State of Maranhão, granted by Law No. 9,463/2011, which consists of presumed ICMS credit on outlets for natural gas destined for the thermal power plant powered by this fuel.
- b.** These refer to permanent additions/exclusions of the calculation of income tax and social contribution, such as Stock Options and their respective charges, donations and sponsorships.
- c.** This refers to deferred taxes of subsidiaries that was not recorded due to uncertainties regarding its recovery.
- d.** The most relevant amount refers to the regional tax benefit granted by Sudene, which results in decrease of up to 75% of income tax in a 10-year period.

**Breakdown of the deferred taxes:**

|   | 6/30/2022      | 12/31/2021     |
|---|----------------|----------------|
| Social Contribution Tax losses/Negative basis | 874,496        | 832,901        |
| Temporary differences (a)                     | (475,908)      | (205,758)      |
| Assets at fair value                          | 79,082         | 79,082         |
| <b>Net balance</b>                            | <b>477,670</b> | <b>706,225</b> |

a. The variation in temporary differences was generated, substantially, by the constitution of deferred tax liability on gain for advantageous purchase in the amount of R\$41,413 and surplus value in the amount of R\$65,681, determined in the acquisition of the Focus Group, as described in Note 4 – “Business combination”. Additionally, the balance of the deferred tax liabilities on the fair value of the energy trade contracts of the subsidiary Focus Energia that were not consolidated in Eneva group were incorporated as from April 2022.

The projection of future taxable income is in line with the Company's strategic plan. The estimated period of realization of deferred taxes is between 12 and 13 years, as disclosed on December 31, 2021, with no significant changes in this quarter.

**Changes in the deferred taxes:**

|                               | Net balance on<br>12/31/2021 | Tax losses/Negative basis | Temporary differences<br>Assets/ Liabilities | Consolidated<br>Net balance on<br>6/30/2022 |

### Credit risk assessment

The energy market is a highly regulated environment, with mechanisms that mitigate the risk of default by its agents. The financial security of the market is based on the model of a multilateral and centralized clearinghouse.

Operations carried out within the scope of the Electricity Trade Chamber (CCEE) are accounted for and settled on a multilateral basis, with no indication of party and counter-party. This model is beneficial for individual agents and for the stability of the market as a whole, minimizing the likelihood of negative impacts. Thus, all agents are guarantors of the operations to be settled.

Additionally, for contracts bilaterally traded, a risk analysis is carried out vis-à-vis the counter-parties, before the operation, through audited information, market information and current situation of the company and, subsequently, through the registration of the contract with the CCEE and the monitoring of the company in relation to payments, in case of delay, the energy traded is not recorded and the counter-party will have an energy deficit, subject to the current energy price in the market (PLD) and the fine at the Electricity Trade Chamber (CCEE).

- a. Changes are substantially represented by the equipment acquired for: (i) Final measurements of the construction of project Azulão-Jaguatirica, (ii) Advance of the construction of Parnaíba V and (iii) Project Solar Futura I, in this last case, additions carried out after the acquisition.
- b. Changes are related to the investments carried out by Focus up to the closing of the business combination.
- c. Property, plant and equipment are depreciated using the straight-line method in the statement of profit or loss for the period based on the estimated economic useful life of each component, from the beginning of its operation, except for E&P fixed assets, which are depreciated from the declaration of commerciality and the start of production, by the unit-produced method.

- a. Changes are substantially represented by the equipment received for: (i) Second stage of the construction of the Azulão-Jaguatirica II project and (ii) Advance of the construction of Parnaíba V.
- b. This is basically a new contract for the provision of towing, operation and maintenance services for cryogenic trailers for the transport of liquefied natural gas in the subsidiary Azulão Geração de Energia S.A.. The discount rate is 11.03% according to the effective period, which is 5 years and has a fixed monthly installment of approximately R\$ 1 million.

## 15.1 Impairment assessment

At each quarter, the Company assesses whether there are evidences of a possible impairment of property, plant and equipment. In this quarter, Management identified no evidence that the value in use of property, plant and equipment could be impaired or that there was a need to reverse the balances of provision for impairment already recorded.

## 16. Trade payables

The borrowings got by the subsidiaries are guaranteed in the structure equivalent to Project Finance, mainly through the assets (machinery and equipment) as well as by the billing flow of the CCEAR contracts. Additionally, the subsidiaries' financing is guaranteed by the Parent Company.

The changes in borrowings and debentures are as follows (current and non-current):

|                             | Borrowings and financings |                  | Debentures       |                  |

\*The method and assumptions used to calculate fair value are disclosed in Note 20 "Fair value of energy trading contracts"

There was no transfer of financial instruments between the fair value measure levels during the period.

### Sensitivity analysis - level 3

|                     | Valuation technique         | Non-observable data    | Fair value of the energy contracts | Sensitivity of the inputs at fair value (a) |           |
|---------------------|-----------------------------|------------------------|------------------------------------|---|-----------|
| Financial asset     | Discounted cash flow method | Projected energy price | 1,181,405                          | +10%  | 994,229   |
|                     |                             |                        |                                    | -10%  | 1,403,349 |
| Financial liability | Discounted cash flow method | Projected energy price | 765,389                            | +10%  | 607,011   |
|                     |                             |                        |                                    | -10%  | 958,571   |

(a) This 10% variation scenario represents a fluctuation considered reasonable by the Company.

## Assessment methods and techniques

Due to its maturity in the short term, it is understood that the fair value of the balances of cash and cash equivalents, accounts receivable and trade receivables are equivalent to their book values.

Securities classified as measured at fair value through profit or loss refer mainly to investments in federal public securities through the Company's exclusive fund and, therefore, it is understood that their fair value is reflected in the value of the fund's quota.

Some financial instruments measured at amortized cost, due to their realization long-term cycle, may have fair value different from their accounting balance. The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Company uses judgment to select among a variety of methods and make assumptions that are mainly based on market conditions existing at the balance date. Financial liabilities recognized at amortized cost, whose fair value differs from the carrying amount, are as follows:

|                              | Consolidated       |                               |
|------------------------------|--------------------|-------------------------------|
|                              | 6/30/2022          |                               |
|                              | Accounting Balance | Fair Value Estimate - Level 2 |
| <b>Financial liabilities</b> |                    |                               |
| Debentures                   | 7,662,891          | 7,495,046                     |
| Borrowings and financings*   | 6,488              | 6,937                         |

\*Borrowings and financings with Caixa and Daycoval arising from business combination with Focus

For financing obtained through development banks and which are classified and measured at amortized cost, the Company understands that these are bilateral operations and do not have an active market or another similar source that has comparable conditions and that can serve as a model to determine their fair values, therefore, book values reflect the fair value of operations.

For the other borrowings classified as amortized cost, the Company measures the fair value through the present value of the projected flows considering the contractual characteristics of each operation. The adopted methodology consists of calculating the present value of future debt flows.

The debentures have secondary market. These issuances are marked to market through new negotiations.

## 18.1 Market risk

### Main market risks: exchange rate, commodity prices and interest rates

#### Interest rate risk

The Company and its subsidiaries have foreign exchange exposure on its financial liabilities, arising from transactions in foreign currency, except those mentioned **below**.

#### Derivatives, hedge and risk management

In order to reduce cash flow volatility, the Company may contract NDF operations to mitigate the exchange rate exposure arising from disbursements denominated in or indexed to foreign currency.

The Company has Non-Deliverable Forwards (NDFs) with the purpose of mitigating the exchange rate exposure arising from investments in foreign currency provided for in the following subsidiaries: (i) Parnaíba II in the implantation of Parnaíba VI project (closing of the cycle of UTE Parnaíba III), with conclusion foreseen for July 2024; and (ii) construction of Futura Project (Futura Solar Park), with conclusion foreseen for November 2022.

|                  | Reference Value (US\$ Thousand) |            | Maturity (Year) | Fair Value (R\$ Thousand) |            |           |
|------------------|---------------------------------|------------|-----------------|---------------------------|------------|-----------|
|                  | 6/30/2022                       | 12/31/2021 |                 | 6/30/2022                 | 12/31/2021 | 6/30/2022 |
| Disbursement USD |                                 |            |                 |                           |            |           |
| Purchase term    | 22,370                          | 20,675     | 2.022-2024      | (17,311)                  | (3,211)    | (14,100)  |
| Net exposure     |                                 |            |                 | (17,311)                  | (3,211)    | (14,100)  |

As of June 30, 2022, the net amounts calculated from Market to Market ("MtM") for these derivative instruments represent losses of R\$ 17,311 million, which were fully recorded in equity (hedge accounting) in other comprehensive income. The gains and losses are recognized in shareholders' equity and transferred to property, plant and equipment when the hedged item, in the quarter ended June 30, 2022, accumulates losses of R\$ 40,262 million.

### Risk of price variation (commodity)

In the case of the Company, this risk is associated to the price of the coal, which forms the inventories necessary for the generation of energy in the thermoelectric plants Pecem II and Itaqui. The period between the purchase of the load and its use for the energy generation is set as the risk of price variation.

### Risk of variation in electricity market prices

The Company and its subsidiaries operate in the energy purchase and sale market with the objective of achieving results with energy price variations, respecting the risk limits pre-established by the Company's management. This activity exposes the Company and its subsidiaries to the risk of future energy prices.

Future energy purchase and sale transactions are recognized at fair value through profit or loss, calculated as the difference between the contracted price and the future market price estimated by the Company. The fair value of the energy contracts estimated for the Company's financial assets and liabilities was determined using information available in the market and appropriate valuation methodologies. However, certain judgment was required in the interpretation of the market data to estimate the most adequate realization value.

### Interest rate risk

#### (a) Risk related to floating interest

The Company and its subsidiaries have liabilities indexed to floating interest in the interbank deposit segment (DI), in the inflationary segment with restatement according to the IPCA price index and by the TJLP (long term interest rate) economic index.

The assets of the Company and its subsidiaries, represented by their income, will also be monetary restated by the same rates, which substantially decreases the mismatch between the assets and liabilities.

In order to verify the sensibility of the debts indexers to which the Company was exposed, 3 different scenarios were defined. As probable scenario, the Company used market projections to estimate what would be the gross financial expenses for the next 12 months. As alternative scenarios, the Company calculated which would be the financial loss for the next 12 months should the TJLP, CDI and IPCA curves be displaced in 25% and 50% respecting the payment term of each line.

|                                  | Probable Scenario | Scenario I (25% high) | Scenario II (50% high) |
|----------------------------------|-------------------|-----------------------|------------------------|
| Cash flow risk:                  |                   |                       |                        |
| Liabilities indexed to TJLP      | 6,372             | 7,309                 | 8,120                  |
| Liabilities indexed to CDI       | 612,711           | 748,234               | 882,418                |
| Liabilities indexed to IPCA      | 700,962           | 816,475               | 931,010                |
| <b>Expected financial costs</b>  | <b>1,320,045</b>  | <b>1,572,018</b>      | <b>1,821,548</b>       |
| <b>Increase in finance costs</b> | <b>-</b>          | <b>251,973</b>        | <b>501,503</b>         |

Methodology: parallel displace above the interest curves in 25% and 50%.

- IPCA 12M: 7.96% (Source: Boletim Focus)
- TJLP 12M: 7.01% (Source: National Monetary Council)
- Average CDI 12M: 13.63% (Source: Market Projection)

## 18.2 Liquidity risk

The Company and its subsidiaries monitor their liquidity levels, based on expected cash flows versus the amount of cash and cash equivalents on hand. Managing the liquidity risk means maintaining cash, sufficient securities and capacity to settle market positions. The amounts recognized at June 30, 2022 approach the operations' settlement values, including estimated future interest payments.

### 18.3 Credit risk

This arises from the possibility of the Company and its subsidiaries suffering losses due to the default of their counterparties of financial institutions where they have funds or financial investments. This risk factor could derive from commercial operations and cash management.

The Company adopts a practice of analyzing the financial position of their counterparties, as well as constantly monitoring outstanding accounts.

The Company has a financial investment policy, which establishes investment limits for each institution and considers the credit rating as a reference for limiting the investment amount. The credits related to cash and cash equivalents, marketable securities and linked deposits are exposed to low risks due to the classification of first-tier banks (AAA and AA), which the Company has a relationship with. The credit risk assessment of trade receivables and energy trading is described in Note "12 – Trade receivables".

|   | 6/30/2022        | Consolidated<br>12/31/2021 |
|---|------------------|----------------------------|
| <b>Credit risk positions</b>                  |                  |                            |
| Cash and cash equivalent                      | 3,304,137        | 992,290                    |

| Trade receivables                             | 671,578          | 718,835                    |
| Fair value of the energy contracts            | 1,181,405        | 91,245                     |
| Secured deposits on borrowings and debentures | 272,408          | 197,946                    |
|   | <b>7,140,480</b> | <b>2,685,763</b>           |

The Company and its subsidiaries have no material foreign exchange exposure related to its financial liabilities, arising from transaction in foreign currency except those mentioned in the paragraph "Derivatives, *hedge* and risk management" and of item 18.1 "Credit risk" of this note.

### 18.4 Capital risk

The Company's objectives when managing capital are to safeguard the business' ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure for reduction of the cost of capital.

In order to maintain or adjust the capital structure of the Company, Management can make, or may propose to the shareholders when their approval is required, adjustments to the amount of dividends paid to shareholders, return capital to shareholders, issuance new shares or sell assets to reduce, for example, debt.

## 19. Provision for contingencies

The Company and its subsidiaries are parties in civil, tax and labor lawsuits, as well as in administrative proceedings, assessed by its lawyers and legal advisors.

The Company constitutes a provision when there is present obligation, arisen from past events, and that it is probable that a cash disbursement will occur for its ending. The consolidated balance of the provision for contingencies in the period ended June 30, 2022 is presented, as follows:

|                         | 12/31/2021          |              |                |              | Consolidated<br>6/30/2022 |
|-------------------------|---------------------|--------------|----------------|--------------|---------------------------|
|                         | Accumulated balance | Additions    | Reversal       | Update       | Accumulated balance       |
| Civil                   | 70,783              | -            | -              | 43           | 70,826                    |
| Labor                   | 21,062              | 2,218        | (7,447)        | 2,118        | 17,951                    |
| Tax                     | 40                  | -            | -              | -            | 40                        |
| <b>Total provisions</b> | <b>91,885</b>       | <b>2,218</b> | <b>(7,447)</b> | <b>2,161</b> | <b>88,817</b>             |

### Possible risk contingencies (do not require the constitution of provision)

The lawsuits and administrative proceedings that have not been provided for, as they involve a prognosis of loss determined as possible by the Company and its lawyers and legal advisors, are presented below:

|               | Consolidated   |                |
|---------------|----------------|----------------|
|               | 6/30/2022      | 12/31/2021     |
| Environmental | 24,011         | 22,449         |
| Regulatory    | 39             | 12,749         |
| Labor         | 41,896         | 42,143         |
| Civil         | 211,753        | 202,728        |

| <b>Total</b>  | <b>514,612</b> | <b>519,401</b> |

[SUMÁRIO](#) 

## 20. Fair value of the energy trade contracts

The Company, through its subsidiaries, operates in the Free Contracting Environment (ACL) and has signed bilateral energy purchase and sale agreements with different market participants.

In this way, it is committed to short and long-term bilateral contracts that make up its portfolio. As a result of mismatched operations, it assumes positions of energy surpluses or deficits, which are measured at a future market price curve (forward curve). The trading portfolio allows flexibility to manage contracts in order to obtain gains from variations in market prices, considering the policies and risk limits established. The purpose is to generate profit from short-term price fluctuations or margin gain on long-term operations. Such energy purchase and sale operations are transacted in a bilateral market and meet the definition of financial instruments, due to the fact that they are settled in energy and readily convertible into money. Such contracts are accounted for as derivatives under IFRS 9/CPC 48 and are recognized in the financial information at their fair value on the date the derivative is entered into, and remeasured at fair value on the balance sheet date.

The fair value of the energy trade contracts considers: (i) prices established in recent purchase and sale transactions; (ii) risk margin in supply; and (iii) projected market price in the period of availability. Whenever the fair value at initial recognition for these contracts differs from the transaction price, a gain or loss will be recognized.

The open positions are as follows:

| Fair value of the energy trade contracts | Consolidated   |               |
|--|----------------|---------------|
|  | 6/30/2022      | 12/31/2021    |
| Current assets                           | 742,685        | 9,336         |
| Non-current assets                       | 438,720        | 81,909        |
| Current liabilities                      | (637,458)      | (7,676)       |
| Non-current liabilities                  | (127,931)      | (46,146)      |
| <b>Net position</b>                      | <b>416,016</b> | <b>37,423</b> |

The actual result of financial instruments (futures contracts) may vary substantially, since the markings of these contracts were made considering the base date of June 30, 2022 and December 31, 2021. The balance in 2022 mainly arises from the business combination with Focus.

## 21. Related parties

The balances of assets, liabilities and effects on income of related-party transactions are as follows:

|  | Assets           |                  | Liabilities    |              | Parent Company Result |                |

- a. The balance is comprised by two loan agreement entered into with the Company (creditor) being the first one subject to interest of 104% of CDI and indefinite maturity and the second one subject to interest of 2.47% + IPCA and maturing in September 2026. The change in the asset balance corresponds to the payment of interest, partially offset by interest incurred in the period.
- b. The balance is comprised by two loan agreement entered into with the Company (creditor) being the first one subject to interest of 104% of CDI and indefinite maturity and the second one subject to interest of 3.19% + IPCA and maturing in December 2027. The change in the asset balance corresponds to the payment of interest, partially offset by interest incurred in the period.
- c. This refers to the capital decrease of Focus Holding Comercializadora Participações Ltda., which has not been authorized by JUCESP yet. For this reason, it was considered a loan agreement.
- d. Assets balances basically comprises the sale of natural gas and lease of the Gas Treatment Unit (UTG) for the subsidiaries Parnaíba II Geração de Energia S.A. and Parnaíba Geração e Comercialização de Energia S.A.. Furthermore, the liabilities balance substantially arises from the advance of the fixed loan made by Parnaíba II.

## 22. Shareholders' equity

On June 30, 2022 and December 31, 2021, the Company's capital is R\$ 13,059,928 and R\$ 8,894,086, respectively. The Company has common, book entry shares, with no par value. The authorized capital on June 30, 2022 is comprised of 1,613,513,720 authorized shares, of which 1,583,339,183 were issued. On June 24, 2022, the Company's primary public offering of shares was completed, where 300,000,000 new shares were issued, resulting in an amount of R\$ 4,200,000 in capital increase, as mentioned in Note 1.1 "Significant events in the period".

Incremental costs directly attributable to the issuance of new shares or options are shown in equity as a deduction from the proceeds.

On June 30, 2022 and December 31, 2021, the Company's capital reserves are R\$ 140,255 and R\$ 125,248, respectively. The increase in the period arises mainly from the business combinations, as detailed in Note 4 "Business combinations".

## 24. Share-based payment

SUMÁRIO 

### Stock options awarded by the Company

The Company's effective stock option program was approved by the Board of Directors on August 10, 2016, re-ratified at the Company's Extraordinary General Meeting held on March 11, 2021. The beneficiaries are the members of the Board of Directors, of the Executive Board and selected employees.

The options may reach the maximum of 4% (four percent) of the Company's total shares at the options issuance date. For this limit effect, it will be considered the sum of all the shares issued by the Company, including the shares that come to be issued by the Company due to options awarded within the scope of the options plan.

The changes in the options plan in the period ended June 30, 2022 are as follows:

| Plan Awarded by the Company - Number of Share Options | Number of Options | Weighted Average Price of Options |
|---|-------------------|-----------------------------------|
| <b>At December 31, 2021</b>                           | <b>15,800,616</b> | <b>11.48</b>                      |
| Exercised   | (1,344,000)       | 13.47                             |
| Awarded   | 2,715,520         | 13.37                             |
| <b>At June 30, 2022</b>                               | <b>17,172,136</b> | <b>11.62</b>                      |

The Company is unable to measure the value of services provided by participants who are being remunerated via a share-based payment plan. Therefore, it decided to measure their respective fair values, based on the fair value of the equity instruments granted. According to the program's regulation, the Company will settle this obligation with the issue of new shares. The effect on the result for the period of 2022 was R\$ 18,116, recorded in the statement of profit or loss under "general and administrative".

The assumptions about the awards occurred in the period were as follows:

| Plan | Type         | Date Awarded | Award Term (years) | First Date of Maturity | Maximum Date Rights Expire | Original Amount Awarded | Pricing Model   | Weighted Average Price of Shares | Strike price | Historic Volatility 3 years | Risk-free Interest Rate | Implicit Interest |
|------|--------------|--------------|--------------------|------------------------|----------------------------|-------------------------|-----------------|----------------------------------|--------------|-----------------------------|-------------------------|-------------------|
| 2020 | Stock Option | 2/25/2022    | 5                  | 2/25/2023              | 6/25/2027                  | 8,570                   | Black & Scholes | 13.10                            | 23.13        | 40.82%                      | 5.8%                    | 5.3%              |
| 2020 | Stock Option | 4/1/2022     | 5                  | 4/1/2023               | 8/1/2027                   | 2,669,338               | Black & Scholes | 13.36                            | 23.86        | 40.76%                      | 5.21%                   | 5.49%             |
| 2020 | Stock Option | 4/26/2022    | 5                  | 4/26/2023              | 8/26/2027                  | 37,600                  | Black & Scholes | 14.12                            | 25.76        | 40.47%                      | 5.54%                   | 5.93%             |

### Restrict performance units

The Company granted two distinct long term compensation incentive plans based on shares. The first one was approved on July 12, 2018, with a new plan approved at the General Shareholders' Meeting held on March 11, 2021, and the second, called Long Term Compensation Incentive Plan Based on Shares (Performance Shares Plan) was approved at the Annual and Extraordinary Shareholders' Meeting held on April 29, 2019. In these plans, the Company grants restricted performance units to the beneficiaries who provide services to it, however, the plans follow different rules for the acquisition of the right to transfer shares. The appropriation of the plan's fair value to the result for the period in 2022 was of R\$ 8,391, recorded in the statement of profit or loss under "general and administrative".

The changes in the units plans in the period between December 31, 2021 and June 30, 2022 are as follows:

| Units Plan Granted by the Company - Number of Units | Number of Units | Weighted Average Price of the Shares |
|---|-----------------|--------------------------------------|
| At December 31, 2021                                | 4,430,144       | 16.47                                |
| Exercised   | (1,386,598)     | 13.36                                |
| Awarded   | 932,545         | 13.36                                |
| At June 30, 2022                                    | 3,976,091       | 16.85                                |

## 25. Events after the reporting period

### Sale of Liquefied Natural Gas (LNG) to third parties

On July 1, 2022, the Company entered into an agreement with Vale S.A., for the supply of liquefied natural gas (LNG) to the industrial facilities of the latter. The Company will supply LNG from its concessions in the Parnaíba Basin, where an additional natural gas liquefaction unit will be installed.

The Agreement is effective for 5 years from the start of the commercial supply, scheduled for the first half of 2024.

### Closing of the eighth issuance of debentures

On July 25, 2022, the Company closed the eighth issue of debentures, all nominative, book-entry, simple, non-convertible into shares, of the unsecured type, in up to 4 (four) series, totaling R\$2,040,000.

The net proceeds obtained by the Company through the placement of the debentures of the first and second series will be used up to the respective maturity date for (i) the reimbursement of expenses incurred by the Company with borrowings entered into with the special purpose companies (SPEs) of the Itaqui Project and the Pecém II Project, for prepayment of financing signed with the National Bank for Economic and Social Development – BNDES and with Banco do Nordeste do Brasil S.A.; and (ii) reimbursement of expenditures, expenses and/or amortization of financing related to the exploration of the Parnaíba VI Project and the UTE Jaguaririca II Project. The net proceeds obtained by the Company through the placement of debentures of the third and fourth series will be used up to the respective maturity date to meet the Company's ordinary management business.

### Signing of the Financing Agreement with BNB

On July 29, 2022, the Company entered into a long-term financing agreement between SPE Futura 4 Geração e Comercialização de Energia Solar S.A. and Banco do Nordeste do Brasil S.A. ("BNB"), in the amount of R\$ 300,000,000, through the transfer of resources from the Finance Constitutional Fund for the Northeast Region ("Fundo Constitucional de Financiamento do Nordeste – FNE"), with a 24-year term, 18-month grace period for interest and principal and a cost of IPCA+3.49% p.a., considering the contractual performance bonus.

## Report on review of quarterly information - ITR

*(A free translation of the original report in Portuguese, as filed with the Brazilian Securities and Exchange Commission (CVM), prepared in accordance with the accounting practices adopted in Brazil, rules of the CVM and of the International Financial Reporting Standards – IFRS)*

To the Board of Directors and Management of  
**Eneva S.A.**  
Rio de Janeiro - RJ

### **Introduction**

We have reviewed the interim financial information, individual and consolidated, of Eneva S.A. (“Company”), included in the quarterly information - ITR for the quarter ended June 30<sup>th</sup>, 2022, which comprises the balance sheet as of June 30, 2022 and the respective statements of profit or loss, statements of other comprehensive income for the three and six-month period then ended, and the statements of changes in shareholders’ equity and the statement of cash flows for the six-month period then ended, including the explanatory notes.

The Company’s Management is responsible for the preparation and presentation of this individual interim financial information in accordance with CPC 21(R1) and the consolidated interim financial information in accordance with CPC 21(R1) and international standard IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board – IASB, as well as the presentation of these information in accordance with the standards issued by the Brazilian Securities and Exchange Commission, applicable to the preparation of quarterly information – ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

### **Scope of the review**

We conducted our review in accordance with Brazilian and International Interim Financial Information Review Standards (NBC TR 2410 - *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* and ISRE 2410 - *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*, respectively). A review of interim financial information consists of making inquiries primarily of the management responsible for financial and accounting matters and applying analytical procedures and other review procedures. The scope of a review is significantly smaller than an audit conducted in accordance with auditing standards and, accordingly, it did not enable us to obtain assurance that we were aware of all the material matters that would have been identified in an audit. Therefore, we do not express an audit opinion.

### **Conclusion on the individual interim financial information**

Based on our review, we are not aware of any fact that might lead us to believe that the individual interim financial information included in the aforementioned quarterly information was not prepared, in all material respects, in accordance with CPC 21(R1) applicable to the preparation of quarterly information - ITR, and presented in accordance with the standards issued by the Brazilian Securities and Exchange Commission.

***Conclusion on the consolidated interim financial information***

Based on our review, we are not aware of any fact that might lead us to believe that the consolidated interim financial information included in the aforementioned quarterly information was not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34, applicable to the preparation of quarterly information - ITR, and presented in accordance with the standards issued by the Brazilian Securities and Exchange Commission.

***Other matter - Statements of added value***

The aforementioned quarterly information includes the statements of added value (DVA), individual and consolidated, for the six-month period ended June 30<sup>th</sup>, 2022, prepared under the responsibility of the Company's Management, and presented as supplementary information for the purposes of IAS 34. These statements were subject to review procedures jointly performed with the review of the quarterly information, aiming at concluding whether they have been reconciled with the interim financial statements and accounting records, as applicable, and whether their format and contents are in accordance with criteria determined in the Committee for Accounting Pronouncements 09 (CPC 09) - Statement of Added Value. Based on our review, we are not aware of any fact that might lead us to believe that the accompanying statements of value added are not prepared, in all material respects, in accordance with the individual and consolidated interim financial information taken as a whole.
