(“**Company**” or “**Estapar**”), in compliance with Article 157, § 4º, of Law No. 6.404, of 1976, as amended, and with CVM Resolution No. 44, of August 23, 2021, as amended, in continuation of material fact disclosed on January 27, 2022 and announcement to the market disclosed on July 5, 2022, hereby informs its shareholders and the market in general that, on July 11, 2022, through its subsidiary Ecovagas Carregadores Elétricos Ltda. (“**Ecovagas**”) entered into an Association and Investment Agreement and Other Covenants, together with certain individuals who will hold all the voting shares issued by Zletric Comercial Eletroeletrônica S.A. (“**Zletric**”) on the closing date of the Potential Transaction (“**Investment Agreement**”). The Investment Agreement sets forth the terms and conditions of the joint venture to explore large-scale Brazilian electromobility market, through the recharging infrastructure of electrified vehicles in the commercial sector (such as parking lots located in airports, commercial buildings, malls, arenas, hospitals, among others), fleet sector (such as corporate fleets and car rental companies) and also in the residential sector (with solutions and technology for residential condominiums and final costumers) (“**Potential Transaction**”).

The effective implementation of the Potential Transaction remains subject to the fulfillment of certain conditions precedent set forth in the Investment Agreement, such as, for example, the corporate approvals of the parties involved in the Potential Transaction, including the approval by the Company's Board of Directors. The Company will update the market of any developments in relation to the Potential Transaction, including when it is effectively implemented.

About Zletric

Zletric is a startup created in 2019 with the plan to offer a smart solution for urban mobility, delivering clean energy in a charging network for electric vehicles. The startup offers solutions for residential condominiums, supermarket chains, shopping malls, hotels, and several other segments. Today, Zletric has already installed more than 170 stations and has other dozens of stations in the process of installing in different states. Zletric activities development began in the Brazilian Southern region, in the states of Rio Grande do Sul, Santa Catarina and Paraná. Currently, it is also present in the Brazil Southeastern region, in the states of São Paulo and Rio de Janeiro and has recently started operations in Brasília-DF.

Potential Transaction Rationale

The Potencial Transaction is part of the Company's strategy to expand the operations of Estapar on electric vehicles recharging sector, through Ecovagas, a controlled company focused on such segment and which it already counts on more than 200 chargers installed in more than 100 locations in 29 cities.

The combination of the companies' structures will provide users with the best electrical charging infrastructure solutions for both Business-to-Business - B2B segment (fleet owners, automakers) and Business-to-Consumer - B2C (end customers, users), making us one of the biggest players in the country's electromobility ecosystem.

The Company will maintain its shareholders and the market in general informed about the Potential Transaction disclosed through the Material Fact published on this date and other events that may influence the price of its securities or the investors' decision to buy, sell, hold or exercise any rights inherent to the condition of holder of securities issued by the Company or referenced thereto, pursuant to CVM Resolution 44.
