Report on review of quarterly information

To the Board of Directors and Stockholders
EcoRodovias Infraestrutura e Logística S.A.

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of EcoRodovias Infraestrutura e Logística S.A. ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended June 30, 2022, comprising the balance sheet at that date and the statements of income and comprehensive income for the quarter and six-month period then ended, and the statements of changes in equity and cash flows for the six-month period then ended, and explanatory notes.

Management is responsible for the preparation of the parent company and consolidated interim accounting information in accordance with the accounting standard CPC 21, Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC) and International Accounting Standard (IAS) 34, Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company and consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

EcoRodovias Infraestrutura e Logística S.A.

Emphasis of matter

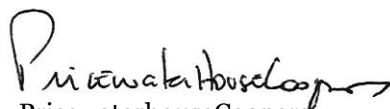

We draw attention to Note 22(a) to the Quarterly Information, which describes the measures the Company's management is taking with regards to an ongoing investigation and we draw attention to Note 32 which describes the management's intention of adherence to Re-bidding of the concession Rodovia BR-101/ES/BA. Our opinion is not qualified in respect of this matter.

Other matters

Statements of value added

The quarterly information referred to above includes the parent company and consolidated statements of value added for the six-month period ended June 30, 2022. These statements are the responsibility of the Company's management and are presented as supplementary information under IAS 34. These statements have been subjected to review procedures performed together with the review of the interim accounting information for the purpose of concluding whether they are reconciled with the interim accounting information and accounting records, as applicable, and if their form and content are in accordance with the criteria defined in the accounting standard CPC 09 - "Statement of Value Added". Based on our review, nothing has come to our attention that causes us to believe that these statements of value added have not been properly prepared, in all material respects, in accordance with the criteria established in this accounting standard, and consistent with the parent company and consolidated interim accounting information taken as a whole.

The Company's subsidiaries are in compliance with all other restrictive contractual clauses.

The contracts require the maintenance of certain financial indices ("covenants"). As shown below, the Company's subsidiaries are in compliance with all financial indices ("covenants") of the aforementioned contracts, except for the indices of subsidiary Eco101, and non-compliance with the indices does not generate early maturity, it only limits the distribution of interest on equity and dividends above the minimum required by law of 25%, which the subsidiaries are not performing.

Company

On February 22, 2022, the Company's Board of Directors approved the 6th issue of simple, non-convertible, unsecured debentures, in a single series, for public distribution, with restricted distribution efforts, pursuant to CVM Instruction No. 476/2009. The issue comprises 950,000 debentures, with a par value of R\$1, totaling R\$950,000 on the issue date. The maturity of the principal will be 5 years, counted from the date of issuance, being amortized annually from the date of issuance, with a grace period of 12 months. These debentures will be remunerated by CDI + 2.00% p.a., and the payment of remuneration will be made every six months, as of the issuance date. The net proceeds obtained by the Company from the issuance were used to pay part of the 7th issue of the Company's Promissory Notes. The debentures will not have guarantees of any nature. The inflow of funds from the debentures took place on March 14, 2022.

iii) Modifying Amendment ("TAM") No. 20/2022 – Ecovias dos Imigrantes

On March 31, 2022, the Amendment Term ("TAM") No. 20/2022, to the concession agreement 007/CR/1998, was signed between the indirect subsidiary Ecovias dos Imigrantes ("Ecovias"), the Logistics and Transport department of the State of São Paulo and the Regulatory Agency for Delegated Public Transport Services of the State of São Paulo ("ARTESP").

TAM nº 20/2022 established that Ecovias will undertake the execution of works to complement the means of access to Bairro Jardim Casqueiro, located at km 59+850 of the Anchieta Highway, through the implementation of a filter lane on the north carriageway and an access loop from the viaduct to Av. Joaquim Jorge Peralta, in addition to other adjustments. The works will provide improvements for the access of traffic and improved safety for this region within the municipality of Cubatão-SP and will be carried out until September 2023.

The total value of works and services is R\$72,675 (base: Sep/2021), generating an impact on the economic-financial balance of the Concession Agreement at an internal rate of return (IRR) of 8.583%, to be rebalanced in favor of Ecovias, by extending the period of 62 days, with the end of the concession on January 21, 2034, considering the traffic projection according to the ARTESP methodology, which may vary according to the measurement of future traffic, following the Marginal Cash Flow methodology.

iv) 1st Amendment Term – Eco135 Concessionária de Rodovias

On June 29, 2022, the 1st Amendment to the BR153 concession agreement SETOP 004/2018 was signed, between the subsidiary Eco135 Concessionária de Rodovias S.A. and the State of Minas Gerais, through the State Secretariat for Infrastructure and Mobility - SEINFRA, which will result in a rebalancing in favor of the Concessionaire, through a full discount on the grant for a period of 30 months, counting from the beginning of the operation of the segment called Anel Viário de Montes Claros by the subsidiary.

The discount on the total amount of the grant to be paid to the Granting Authority by the Concessionaire is R\$244,000 (base: Mar/2022), representing a reduction of approximately 20% in the present value of future obligations.

The purpose of the Addendum is the incorporation, in the Concession Agreement, of the Ring Road, comprising 14.09 km of highways, 4.45 km of which refer to the implementation of new stretches and 9.64 km refer to the restoration and adaptation of a stretch already existing. The total value of the Anel Viário works is R\$230,000 (base: Mar/2022), resulting in an impact on the economic and financial balance of the Concession Agreement at an unleveraged real internal rate of return (IRR) of 8.47% p.a. in favor of the Concessionaire, following the Marginal Cash Flow methodology.

The Addendum also provides for the exclusion of an urban stretch of Montes Claros with a length of 3.1 km, which will be excluded from the Concession Agreement concomitantly with the start of operation of the Ring Road, scheduled for January 2024, in the total amount of R\$44,000 (base: Mar/2022).

v) Revision of AVP Rate – Eco135 Concessionária de Rodovias

Considering that, according to Note 21.iv), on June 29, 2022 the subsidiary Eco135 Concessionária de Rodovias S.A. signed an amendment to the Concession Agreement, establishing new terms to the agreement and with a consequent reduction in debt, the Company carried out revision of the current AVP rate, in accordance with technical pronouncements CPC 00 Conceptual Framework for Financial Reporting, CPC 12 Adjustment to Present Value item 5. The new AVP rate allows for a better economic value position, promoting the dissemination of information closer to the economic reality. By using the technique of adjustment to present value, the Assets and Liabilities accounts are evaluated by measurement criteria that make it possible to present them at values corresponding to the respective transaction dates. A new measurement of the adjustment to present value was performed, generating a new recognition of the equity value. The discount rate considering the actual WACC rate is 8.37%.

22. INFORMATION ABOUT THE CONCESSION AGREEMENT

a) Eco101 Concessionária de Rodovias S.A.

On April 11, 2019, the Federal Police executed a search and seizure warrant on the indirect subsidiary Eco101 Concessionária de Rodovias S.A. ("ECO101") in Serra - ES, within the scope of "Operação Infinita Highway".

According to information released by the Federal Police, the investigation was carried out with the support of the Federal Audit Court and is focused on investigating possible irregularities related to technical reports on the situation of the highway.

The Company launched an internal investigation to ascertain the facts, supported by external professional consultants. The forensic evaluation report issued by these professionals did not identify documentary evidence that would suggest that ANTT employees knew about alleged changes made by Eco101 in the monitoring reports. The investigation did not identify documents that prove the alleged illegal relationship between Eco101 and representatives of ANTT; there is no evidence to support allegations that altered monitoring reports were used to obtain financing from the BNDES. Management, supported by its legal and financial advisors, evaluated, established and accounted for the liability as at December 31, 2020,

using its best estimates to calculate penalties and fines related to tariff discounts ("Factor D"), on the assumption that the alleged changes were made to the monitoring reports, which result in a liability of R\$72,614 (Note 26).

As a result of the investigations, on June 25, 2022, the subsidiary was informed about the Public Civil Suit No. 5016859-74.2022.4.02.5001/ES, filed by the Federal Public Ministry. The purpose of the action is to apply a tariff discount as a means of reimbursement for the alleged advantages unduly obtained with the alteration of the monitoring reports between the years 2014 and 2018 and the application of collective moral damage, in the amount of R\$10,000.

Due to the receipt of the aforementioned lawsuit, the Company requested the assessment and issuance of a legal opinion from its advisors regarding the consequences and risks assessed in the memoranda dated February 2020, 2021 and 2022 and initiated the measures with its hired advisors to prepare and present a defense within the legal term, considering that the lawsuit does not include a request for an injunction against the Company. In view of the assessment of the advisors that the lawsuit does not innovate in the consequences and risks already analyzed, the Company understands that the necessary measures to protect its interests are being adopted.

b) Ecovias dos Imigrantes - Non Civil Prosecution Agreement ("ANPC")

On April 6, 2020, according to the Material Fact notice disclosed by the indirect subsidiary on that date, Concessionária Ecovias do Imigrantes S.A. ("Ecovias") entered into a civil non-prosecution agreement ("ANPC") with the MPSP. The ANPC was entered into within the scope and with a view to the consensual resolution of the objects of the civil investigations PJPP-CAP No. 1071/2014, 295/2018 and 489/2018, of the Public and Social Heritage Prosecutor's Office of the Capital of São Paulo.

Under the terms of the ANPC, Ecovias undertakes to carry out works and make payments in the total amount of R\$638,000, of which: A) R\$450,000 is for works to benefit the public, not originally foreseen in Ecovias concession agreement, for Boulevard Anchieta, within eight years; B) R\$150,000 as a tariff discount for Ecovias or payment directly to the São Paulo State Treasury in eight annual installments, at the option of the State of São Paulo; and C) R\$38,000 as fines, to be borne by the Company. Additionally, the Company will make a settlement of R\$12,000 for other obligations. The ANPC would need to be ratified by the Superior Council of the Public Ministry of the State of São Paulo ("CSMP") and, then by a Public Treasury Court of the District of the Capital of the State of São Paulo.

As detailed in the Material Fact notice dated March 15, 2022, the ANPC was approved in full by the CSMP. As management had expected the full ratification of the ANPC by the CSMP, it had already recognized a liability for fines as at December 31, 2021, of R\$57,349, of which R\$50,000 was for principal, plus interest accruals of R\$7,349 as per the TJSP's computation table.

As informed in the Material Fact notice of April 4, 2022, the ANPC received judicial approval on April 1, 2022 by the judge of the 1st Public Treasury Court of the District of São Paulo/SP. Currently, measures have been initiated to comply with the obligations, some of which are required after the judicial ratification of the Agreement, such as: (i) settlement of stipulated fines of R\$38,000, (ii) settlement of the R\$12,000 for other obligations and (iii) opening of an administrative procedure by ARTESP for the execution of R\$450,000 in works of public interest. Before the settlement is made for a tariff discount, of R\$150,000, this must first be agreed by the State of São Paulo.

Lawsuit filed by the Concessionaire on March 22, 2021 in which it discusses the illegality of the acts performed by ANTT regarding the criteria for calculating the investment schedule of the pavement recovery and maintenance works incorporated into the Contract by the 6th Addendum. In short, from 2020, ANTT changed the criteria for the acceptance of works included in the Addendum and, based on this new understanding, revised evaluations from previous years to point out non-execution of works that had already been accepted, resulting in high rates of non-execution. As a result, it initiated administrative proceedings for the application of fines to the Concessionaire estimated at R\$26,661, determined the redoing of the works that had been accepted between 2016-2019 and determined a tariff discount corresponding to 3.17% to be applied in the Ordinary Review process of the 2021 Tariff. In this context, the Concessionaire requested, as a precautionary measure, that the Judiciary suspend the decisions issued by the Agency that conclude i) the application of a discount on the basic toll tariff; ii) the application of penalties and; iii) the redoing of works, based on this change in understanding. On the merits, the Concessionaire requested a declaration that the works performed complied with the contractual rules established in the 6th Amendment to the Contract.

On June 11, 2021, after hearing ANTT, the Judiciary immediately recognized the Concessionaire's arguments and determined that ANTT refrain, until the sentence, from a) demanding and/or imposing new sanctions on the applicant and applying a tariff reduction with based on the facts brought to court; and b) demand the redoing of the works carried out from the 6th Addendum until a judgment is rendered in the case records. The process is pending progress and judgment on the merits in the lower court. The court decision has been complied with by ANTT.

Judgment no. 2.275/2021 – TCU

In September 2021, the Concessionaire became aware of Judgment No. 2.275/2021, issued as a precautionary measure by the Federal Audit Court to suspend the tariff adjustment promoted by ANTT Resolution No. 277/2021, which approved the 17th Revision and the 14th Extraordinary Revision of the Basic Toll Rates of the Concession Agreement.

The precautionary measure stems from a representation presented by federal deputies from RS. In summary, the Representatives allege that the aforementioned Deliberation of the National Land Transport Agency, by raising the values of the tolls charged by Ecosul, would bring economic problems to the region of Pelotas/RS and would go against TCU Decision 883/2020, which would have indicated the existence of potential imbalances to be determined by the Regulatory Agency, currently with suspended enforceability.

According to TCU, ANTT Deliberation No. 277/2021 would have contradicted Judgment No. 883/2020 by authorizing the increase in tariffs practiced at the Pelotas road hub. In the understanding of the rapporteur minister, given the possibility of confirming the occurrence of an economic-financial imbalance of the Contract discussed in Accounting No. 020.982/2019-7, there would be grounds for suspending the "tariff increase" until the judgment of the re-examination of the Concessionaire and ANTT's declaration embargoes in that process.

The Concessionaire and ANTT appealed the injunction and presented their reasons in hearing to revoke the suspension of ANTT Deliberation No. 277/2021, as the effects of the 17th Ordinary Review and 14th Extraordinary Review of the Concession Agreement arise from the annual tariff adjustment, provided for in the contract, and there were no violations of the commands discussed in Accounting No. 020.982/2019-7, since ANTT took due care to respect the provisions of Ruling No. 883/2020 within the scope of the tariff review process.

The aforementioned decision has also affected the tariff readjustment in 2022 (18th Ordinary Review and 15th Extraordinary Review of the Contract); although ANTT's Attorney General itself has indicated that there are no legal impediments to proceeding with the process and recommends to the Agency the application of the tariff readjustment. (mere monetary adjustment of the TBP). The Concessionaire acts before ANTT and TCU to recover overdue readjustments and reverse TCU's decision.

d) Concessionária Ecovia Caminho do Mar e Rodovia das Cataratas – Ecocataratas

On July 11, 2019, the State of Paraná and the Department of Highways of the State of Paraná (DER/PR) filed Public Civil Action No. 5035770-05.2019.4.04.7000/PR, against Ecovia, its companies related parties, ECS and the Company, and against the Brazilian Association of Highway Concessionaires, alleging nullity of the concession agreement and its amendments as a result of acts investigated in the Integration Operation. The claim deducted in the action is intended to repair the alleged material damages (estimated at R\$4,495,904) and moral damages (estimated at R\$500,000), and the application of penalties provided for in the Anti-Corruption Law. MPF presented a statement requesting compliance with the leniency agreement signed, opposing the granting of a precautionary measure against the lenient. The injunction requested by the State was rejected in the first and second instances. Once the defenses were presented, a conciliation hearing was held without the conclusion of an agreement. The case is waiting to proceed.

On August 12, 2019, the Company and its subsidiaries Ecorodovias Concessões e Serviços S.A. ("ECS") and the Paraná Concessionaires (Ecovia Caminho do Mar and Ecocataratas), entered into a leniency agreement with the Federal Public Ministry within the scope of Operation Integration. The Agreement was approved by the 5th Coordination and Review Chamber of the MPF, as well as by the Court of the 1st Federal Court of Curitiba, process nº 5072227-36.2019.4.04.7000, and the established obligations are being strictly complied with by the Company.

Additionally, the Company states that, pursuant to Clause 6a, item (I) of the Agreement, it has undertaken to implement an effective and robust integrity program, based on the criteria established in Chapter IV of Decree n. 8,420, of March 18, 2015, to mitigate possible risks of corruption and bribery, based on the descriptions provided in Appendix 1 of the Agreement. This Integrity Program must be implemented within 32 months from the beginning of the independent monitoring regime, to which the Company also agreed to be subject, pursuant to Appendix 2 of the Agreement, and which aims to ensure the implementation measures described in Appendix 1 ("Monitoring"). Based on the recommendations made within the scope of the Monitoring, the Company has been continuously implementing consistent improvements in its Integrity Program. Among other improvements, in February 2021 the Company obtained ISO 37001 certification, which attests to the continuous commitment to the adoption of mechanisms to curb anti-corruption and bribery practices. This certification was maintained in February 2022. In addition, in January 2022, a Compliance Department was created, with a view to guaranteeing the independence, structure and authority of the area responsible for implementing the Integrity

Program and monitoring compliance. The schedule and status of implementation of the recommendations made by the Independent Monitor are periodically reported by the Compliance and Corporate Governance Board to the Company's Audit Committee. The final report on monitoring is being prepared, and its conclusion is awaited by August 14, 2022, under the terms of the Leniency Agreement. The agreement foresees the possibility of extension of the term, upon request of the Company and agreement of the Federal Public Ministry, if it is understood that, due to reasons beyond the control of the Company, the fulfillment of the actions mentioned in the Appendix requires the additional period.

Due to the leniency agreement entered into with the MPF, on October 31, 2019, the Company received a notification sent by the Comptroller General of the State of Paraná (CGE/PR) informing the initiation of an administrative process of accountability (PAR) to determine the practice of harmful acts against the Public Administration. The Company and its Subsidiaries presented their preliminary defenses. On August 10, 2021, through CGE Resolution No. 45, the State Comptroller General issued a decision in the administrative proceeding to: (1) apply a fine of R\$38,600 to Ecocataratas and R\$27,570 to Ecovia; (2) determine the joint conviction of EcoRodovias Concessões e Serviços - ECS; (3) impose on the companies (Ecocataratas, Ecovia and ECS) the penalty of suspension of the right to bid and contract with the State of Paraná, for two years; and (4) recommend that the DER/PR initiate an autonomous administrative process to determine any contractual non-performance and consequent assessment of the damages resulting therefrom. On August 20, 2021, the Companies filed an appeal. A decision was issued by the General Inspector only to include the possibility of an alternative penalty to the payment of fines, by carrying out the operation and maintenance of the highways, for 1 year, without charging the toll fee. Due to the substitutive decision rendered, the Company filed a new appeal with suspensive effect, to the Governor.

In August 2020, an Ordinary Suit - 5040685-63.2020.4.04.7000 - 1VF Curitiba - was proposed by Ecovia and Ecocataratas to attack the change in the methodology adopted by DER/PR in the application of infraction notices. An injunction favorable to the Concessionaires was granted so that the DER/PR does not impose any penalty on the Concessionaires, given that there was an unreasonable change in the inspection criteria. DER/PR appealed, without success. The process is waiting to be resolved.

Also, within the scope of the contractual regulation of Ecovia and Ecocataratas, in September 2020, suits were proposed by the concessionaires (Ecovia: Suit 5044213-08.2020.4.04.7000 - originally distributed to the Federal Court of the 5th VF of Curitiba and redistributed by connection to the Court of the 1st VF of Curitiba - Ecocataratas: Suit 5044220-97.2020.4.04.7000 - distributed to the Federal Court of the 3rd VF of Curitiba) in order to obtain recognition of the right to rebalance the tariff losses resulting from the exemption from charging suspended axles in the face of Law 13.711 /2018).

Following this same context, the Regulatory Agency for Public Services Delegated for Infrastructure of Paraná - AGEPAR, on November 10, 2020, issued decisions in administrative self-guardian proceedings against the Concessionaires due to the understanding that the criteria referring to the depreciation calculations and double lane step had been performed incorrectly. As a result, studies were carried out by the DER of a new tariff base to reestablish the contractual equation. Ecovia and Ecocataratas filed lawsuits to annul such decisions, both with sentences rendered in favor of the Concessionaires' thesis. This process is awaiting a final decision.

Based on the same administrative self-protection processes carried out by AGEPAR, a complaint was presented by the State Representative Soldado Fruet with the TCE, against Ecovia and Ecocataratas and other Concessionaires of the Paraná integration ring. A preliminary injunction was granted by the Rapporteur declaring the concessionaires to be unsuitable and prohibited from contracting with the State of Paraná until the judgment on the merits, a decision challenged by the Concessionaires on appeal. Defense presented at the administrative level. On March 2, 2022, the State Management Coordination presented an instruction questioning the elements presented by the complainant, opining for the revocation of the injunction. In a remedial decision, the Reporting Councilor determined the subpoena of the companies that make up the Economic Group of Concessionaires, due to the termination of validity of the Concession Agreements. The issuance of the summons to the Controllers is awaited so that they can integrate the process.

Upon completion of Concession Agreements 073 and 076/97, the Paraná Department of Highways – DER/PR filed Public Civil Actions against Ecovia and Ecocataratas, claiming to (i) implement a traffic channeling system at the toll plazas (road safety) as a result of the demobilization and termination of concessions; and (ii) establish a joint schedule with the DER/PR for delivery of the reversible assets within 60 (sixty) days (due to the termination of the Concession Agreements). The injunction was granted for the Concessionaires to implement canalization according to the project presented to the DER/PR, as well as to establish a schedule for the reversal of the assets within 60 days. The Concessionaires communicated that they had already complied with the injunction and ended the delivery of the reversible assets to the Granting Authority.

e) Ecoporto Santos S.A.

PRES Lease Agreement No. 028/1998 ("Agreement") entered into between Companhia Docas do Estado de São Paulo ("CODESP"), currently known as Santos Port Authority ("SPA") and Ecoporto Santos S.A. ("Ecoporto Santos"), for the exploration of a port facility using an area under the administration of CODESP, located in the Valongo region, on the right bank of the Port of Santos, is effective for a determined period of 25 years, with an end date scheduled for June 2023. Ecoporto Santos started the process of early extension of the Agreement for an equal period of 25 years with the Granting Authority in December 2014.

On December 19, 2019, Resolution No. 7.549 was published, and in February 2020, Judgment No. 14-2020, both from the National Waterway Transport Agency ("ANTAQ"), approving the "Technical, Economic and Environmental", including, among others, the suggestion of extending the term of the contract until the year 2048 and rebalancing the completed and operational investments in portainers and other assets.

After that date, the process was sent to the National Secretariat of Ports and Waterway Transport ("SNPTA"), of the Ministry of Infrastructure for analysis, and on February 26, 2021, the Secretary of the SNPTA (Official No. 81/2021/ SNPTA) sent a notification to Ecoporto Santos communicating Decision No. 5/2021/SNPTA in which it rejected the contract extension claim, without prejudice to the right to rebalance the concluded and operational investments in portainers and other assets mentioned above. On March 10, 2021, the Company filed an administrative appeal against this decision. On July 8, 2021, Ecoporto became aware of Order No. 27/2021, from the Minister of Infrastructure, in which it decided not to reconsider the rejection of the contract extension claim, without prejudice to the right to rebalance the instrument through the implementation of new investments at the terminal,

in the amounts already considered in Resolution No. 7.549/2020 and Judgment No. 14-2020.

On May 26, 2022, ANTAQ issued Decision No. 301/2022 through which it reiterates Ecoporto Santos' right to economic and financial rebalancing of the Lease Agreement due to investments made and not amortized (Portainers), in the amount of R\$94,304,281, with a base date in December 2016.

At the same time, at the SNPTA and at ANTAQ, a request from Ecoporto Santos to initiate arbitration against the decision of denial, by ANTAQ, of a claim for economic and financial rebalancing of Ecoporto Santos arising from the losses incurred by the delivery of a smaller and fragmented area (136,444 m2) compared to that provided for in the public notice (170,000 m2) of the Agreement. On July 9, 2021, ANTAQ, by unanimous decision, favored the conclusion of the arbitration agreement through Judgment No. 370. On July 26, 2021, the case was sent to the Ministry of Infrastructure for manifestation. A statement from the Ministry of Infrastructure is awaited regarding the request to enter into the arbitration agreement or regarding the possibility of instituting a mediation process to resolve the dispute regarding compensation for the alteration of the areas.
