

# CERRADINHO EM FOCO

**CerradinhoBio is elected the best in the Central South Region in Investments, Expansion, Generation and Energy Cogeneration**

CerradinhoBio participated in the 9th edition of the Visão Agro Award, where it was elected the best in the Center-South region in the categories:

**“INVESTMENTS AND EXPANSIONS – UNIT OF CHAPADÃO DO CÉU”  
“GENERATION AND ENERGY COGERATION - CERRADINHO BIO”**

The aim of the Visão Agro Award is to honor all those who excelled in transformation and production areas in the sugarcane sector in the Central-South region of the country, the plants that made the difference in the 2017/2018 cycle within the region's sugar and ethanol market Center-South, in its respective area of activity.

The award ceremony for the Visão Agro Central-South 2018 was marked by the manifestations of recognition of the externalities of the sugar-energy sector and its importance as an instrument for the economic recovery of the country. The event took place last Tuesday (July 24) in Piracicaba-SP, and brought together a select group of businessmen from the segment, who were honored at the time for their commitment to the sugarcane agro-industry. In its 9th edition, the award was given to personalities, companies in the administrative, agricultural, industrial, and better plants.
