NOTICE TO THE MARKET

Minerva S.A. ("Minerva" or "Company"), the South American leader in beef exports, informs its shareholders and the market in general that the Chinese authority General Administration of Customs of the People's Republic of China (GACC), has notified the approval for the Araguaína (TO) and Janaúba (MG) plants to export beef to the Chinese market.

With these approvals, our exposure to the Chinese market now includes a total of 10 (ten) production units, with a daily slaughter capacity of over 13 thousand head of cattle, from 5 plants in Brazil, 4 plants in Uruguay, and 1 plant in Argentina.

Furthermore, as disclosed in the Notice to the Market, released by the Company in September 2023, Colombia has notified the approval of the sanitary protocol for opening the Chinese market to Colombian beef, with only bureaucratic procedures left for the effective authorization of the production units to begin exports. Once authorized, our 2 (two) production plants in Colombia will further increase the Company's exposure to the Chinese market to approximately 14.7 thousand head/day.

The Company is committed to keeping shareholders and the general market informed about the development of this and any other relevant matters.
