INDEPENDENT AUDITOR'S REPORT ON REVIEW OF INDIVIDUAL AND CONSOLIDATED INTERIM FINANCIAL INFORMATION

To
Shareholders, Advisers and Board of Directors of
Minerva S.A.
São Paulo - SP

Introduction

We have reviewed the individual and consolidated interim financial information of Minerva S.A. ("Company"), identified as the "Parent company" and "Consolidated", respectively, included in the Interim Financial Information Form (ITR) for the quarter ended on June 30, 2022, which comprise the individual and consolidated financial position on June 30, 2022, and the related individual and consolidated statements of income and comprehensive income for the three and six-months period then ended, and the statements of changes in equity and cash flows for the three and six-months period then ended, as well as a summary of the significant accounting practices and other notes.

Management is responsible for the preparation of the individual and consolidated interim financial information in accordance with NBC TG 21 (R4) - Interim Financial Reporting and with the International Accounting Standard (IAS) 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), and for the presentation of these interim financial information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the Quarterly Financial Information (ITR). Our responsibility is to express a conclusion on this Interim Financial Information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standard on Review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial information

Based on our review, we are not aware of any fact that causes us to believe that the individual and consolidated interim financial information included in the Quarterly Financial information - ITR referred to above were not prepared, in all material respects, in accordance with NBC TG 21 (R4) and IAS 34 applicable to Quarterly Financial Information (ITR) and presented in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM).

Other matters

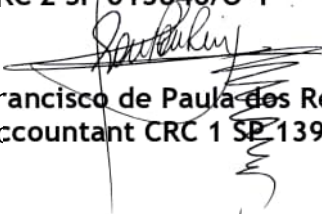

Interim statement of value added, individual and consolidated

The interim financial information referred to above includes the individual and consolidated interim statements of value added (SVA) for the six-month period ended June 30, 2022, prepared under the responsibility of Company's Management and presented as supplementary information for IAS 34 purposes. This information have been subject to review procedures performed in conjunction with the review of the interim financial information to conclude whether they are reconciled with the interim financial information and accounting records, as applicable, and whether their form and content are in accordance with the criteria defined in NBC TG 09 - "Statement of Added Value". Based on our review, nothing has come to our attention that causes us to believe that these individual and consolidated interim statements of value added were not prepared, in all material respects, in accordance with the criteria defined in referred to Standard and consistently with the individual and consolidated interim financial information taken as a whole.

São Paulo, August 10, 2022.

Hyperinflationary economy - Argentina

On June 30, 2018, according to an evaluation conducted by different market players, Argentina's economy was considered hyperinflationary beginning July 01, 2018. The Argentinean peso devaluation and an increase in the overall price level in recent periods resulted in inflation indices exceeding 100% on a three-year cumulative basis.

In accordance with IAS 29, (CPC 42), non-monetary assets and liabilities, equity and the income statement of subsidiaries operating in a highly inflationary economy must be restated for the changes in the pricing power of the functional currency by applying a general price index.

We concluded that the effects of this hyperinflationary impact, certainly not relevant, arising from our Argentinean subsidiaries, were initially determined on a consistent basis and accounted for in our individual and consolidated financial statements for the year ended December 31, 2018.

Covid-19

Economic impacts

The pandemic forced the Company to make adjustments to its facilities, as well as to incur some expenses related to the acquisition of EPIs, testing of employees and community support initiatives related to donations of equipment, food and health and personal hygiene utensils. As of June 30, 2022, there were no significant amounts of expenses related to COVID-19 (R\$ 30,992 as of December 31, 2021).

Regarding operations, there was a substantial drop in purchases of the food service segment in Brazil and Europe, which were offset by increases in foreign sales to Asian countries, especially China. The Company's consolidated gross revenue reached R\$ 15,700,927 as of June 30, 2022 (R\$ 12,091,191 as of March 31, 2021). In 2022, exports reached 70.67% of gross revenue (68.99% as of June 30, 2021), maintaining the Company as the leader in beef exports in South America.

Additionally, the Company remains committed to financial discipline and the search for a less costly capital structure with a lower risk profile, having reduced indebtedness in the second quarter of 2022.

Despite a scenario of uncertainty resulting from the pandemic, the Company's management prioritized identifying risks, assessing impacts and adapting operations. All our efforts have been directed to ensure the offering of the products, while protecting the collaborators and supporting our customers and suppliers.

The Company continues with the contribution to combating the new Coronavirus, through solidarity actions, donations and support to our communities. The Company's Management evaluated, based on the available information, the impacts caused by Covid-19 on the company's individual and consolidated operations and financial position as of June 30, 2022 and concluded that, to date, there are no relevant updates to be disclosed.

ESG

The Company's management has carried out all its planning and actions aimed at the continuity of its business, thus assessing that it is able to make all resources available for the continuity of its operations, including evaluating the impacts of COVID-19 and the environmental impacts of its operation and climatic/environmental effects that may impact the Company with structural and non-structural actions aimed at mitigating its effects.

The 2nd quarter of 2022 was marked by relevant advances in the ESG agenda, in line with the Commitment to Sustainability announced in 2021. The commitment focused on the environmental pillar 'Dedication to the Planet' has three main axes: environmental efficiency in operations; combating illegal deforestation; and development of the Renove program, aiming at low carbon emissions in the value chain. All goals are aligned with one of the five values of the Minerva Foods Culture - Sustainability.

The Company's pioneering spirit in combating illegal deforestation in the supply chain in Latin America was highlighted in this 2nd quarter of 2022, the advance in the expansion of geographic monitoring of the farms that supply direct to operations in Colombia and Argentina. In Colombia, around 40% of the direct supplier farms are already monitored and, in Argentina, 90% are also in compliance, according to the purchase criteria established by the Company for each country.

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

Advances in the Renove program, in partnership with MyCarbon, the Company's subsidiary focused on the development and commercialization of carbon credits, led to the first export of a certified carbon neutral product from operations in Uruguay in May. With the inclusion of the CO₂ neutral seal, granted by an independent organization with certification systems in more than 100 countries, Minerva Foods can ensure that, in all stages of development of the certified product, it carried out the measurement of emissions corresponding to scopes 1 and 3, promoting compensation from the use of carbon credits. It is worth noting that the Company has been carbon neutral in scope 2 since 2020.

At the institutional level, the Company received important recognition and became part of the 2022/2023 portfolio of the CDP Brazil Climate Resilience Index (ICDPR70) in April.

Finally, transparency in ESG matters remains a priority for the Company, which in early April published its 11th Sustainability Report with indicators based on the standards of the Global Reporting Initiative (GRI) and Sustainability Accounting Standards Board (SASB) and in the recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD). Also, in May, the Company innovated by improving the user experience of its ESG information through a new platform on the institutional website.

2. Basis of preparation

Statement of compliance (with IFRSs and CPC standards)

The individual and consolidated interim financial information were prepared in accordance with CPC 21 (Interim Financial Information) and also in accordance with IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) and are being presented in accordance with the accounting practices adopted in Brazil, which include the provisions contained in the Brazilian Corporation Law, rules of the Brazilian Securities and Exchange Commission ("CVM") and the pronouncements of the Accounting Pronouncements Committee ("CPC"), as well as international accounting standards (International Financial Reporting Standards), or "IFRS" issued by the International Accounting Standards Board ("IASB").

The Company's individual and consolidated interim financial information are being presented in accordance with Technical Guidance OCPC 07, which deals with the basic requirements for preparation and disclosure to be observed when disclosing the accounting and financial reports, especially those contained in the explanatory notes. Management confirms that all relevant information specific to the individual and consolidated interim financial information is being evidenced and that these correspond to those used in its management.

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

The presentation of the statement of Added Value (DVA), individual and consolidated, is required by the Brazilian Corporate Law and the accounting practices adopted in Brazil applicable to publicly-held companies, in accordance with CPC 09 - Statement of Added Value. IFRS standards do not require the presentation of this statement. As a result, under IFRS, this statement is presented as supplementary information, without prejudice to the set of individual and consolidated interim financial information.

The individual and consolidated interim financial information are presented in Brazilian reais (R\$), which also is the Company's functional currency.

The significant accounting policies adopted in preparing the individual and consolidated interim financial information are summarized below. These accounting policies were applied consistently to all periods reported, unless stated otherwise.

The individual and consolidated interim financial information were approved for issue by the Company's Management on August 10, 2022.

3. Summary of significant accounting policies

a) Basis of measurement

The individual and consolidated interim financial information have been prepared using historical cost as the basis of value, except for recognized revaluations and for the valuation of certain assets and liabilities such as financial instruments and biological assets, which are measured at fair value.

b) Functional and presentation currency

The interim financial information of each subsidiary included in the Company's consolidation and those used as a basis for valuing investments using the equity method are prepared using the functional currency of each entity. An entity's functional currency is the currency of the primary economic environment in which it operates.

When defining the functional currency of each of its subsidiaries, Management considered the currency that significantly influences the sales price of its products and services, and the currency in which most of the cost of its production inputs is paid or incurred.

The interim financial information are presented in reais (R\$), which is the parent company's functional and presentation currency. All accounting information is presented in thousands of reais, unless otherwise stated.

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

c) Foreign operations

The foreign direct and indirect subsidiaries adopted the following functional currencies for the Interim Financial Information as of June 30, 2022:

- Guarani currency (Paraguay-PY) - Friasa S.A.;
- Moeda dólar norte americano (US\$) - Athena Foods S.A., Frigomerc S.A., Pulsa S.A., Frigorífico Carrasco S.A., Lytmer S.A.; Minerva Overseas I, Minerva Overseas II, Minerva Meat USA, Minerva USA LLC, Minerva Venture Capital Fundo de Investimento em Participações Multiestrategicas - Investimento no Exterior, MF92 Venture LLC e Minerva Luxembourg;
- Sterling pound (GBP) - Minerva Europe Ltd.;
- Chilean Peso - Minerva Foods Chile SpA and Minerva Live Cattle Export SPA;
- Colombian Peso - Minerva Colombia S.A.S, Red Cárnica S.A.S, and Red Industrial Colombiana S.A.S.;
- Australian Dollar - Minerva Australia Holdings PTY Ltd.; Minerva Asia Foods PTY Ltd.;
- Argentinean Peso - Pul Argentina S.A.; and
- Euro - Athn Foods Holdings S.A.
- Singapore Dollar Currency: Fortuna Foods PTE. LTD.

The individual and consolidated interim financial information, when applicable, are adjusted to conform to the accounting practices adopted in Brazil and translated into Brazilian reais (R\$) by applying the following procedures:

- Monetary assets and liabilities are translated using the closing rate of the respective currency for the Brazilian real (R\$) at the end of the respective balance sheets;
- In the last balance sheet corresponding to equity translated at the historical exchange rate prevailing at that time and the changes in equity for the current period/year are translated at the historical exchange rates on the dates of the transactions, and the profit earned or loss incurred is translated and accumulated at an average historical monthly exchange rate, as indicated in the topic below;
- Revenues, costs and expenses for the current year are translated and accrued at an average historical monthly exchange rate;
- The changes in foreign exchange balances arising from the items above are recognized in a specific equity account, under "Other comprehensive income";
- The balances of investments, assets and liabilities, revenues and expenses from transactions between "Minerva Group" companies included in the consolidated financial information are eliminated.

d) Foreign currency-denominated transactions and balances

Transactions and balances in foreign currency, that is, all transactions that are not carried out in the established functional currency, are converted at the historical exchange rate of the dates of each transaction, as determined by CPC 02 (R2) - Effects of changes in exchange rates and conversion of statements.

Assets and liabilities subject to exchange variation are updated at the rates of the respective currencies in force on the last working day of each period presented. Gains and losses arising from changes in investments abroad are recognized directly in the equity in the "other comprehensive results" and recognized in the income statement when such investments are divested, in whole or in part.

Non-monetary items that are measured in terms of historical costs in foreign currency are converted at the exchange rate calculated on the transaction date.

e) Use of estimates and judgment

The preparation of the individual and consolidated interim financial information in conformity with IFRS and CPC standards requires Management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and assumptions are revised on an ongoing basis. Revisions related to accounting estimates are recognized in the year in which estimates are revised and in any affected future periods.

f) Basis of consolidation

Business combinations

Acquisitions completed on or after January 1, 2009

For acquisitions made as of or after January 01, 2009, the Company measured goodwill as the fair value of the consideration transferred, including the recognized amount of any noncontrolling interest in the acquired company, less the net recognized value of the identifiable assets and liabilities assumed at fair value, all measured as at the acquisition date.

For each business combination, the Company assesses if it will measure the non-controlling interests at their fair value or based on the proportionate equity interest of the noncontrolling interests on the identifiable net assets determined on the acquisition date.

Transaction costs, whether or not associated to the issuance of debt securities or equity securities, incurred by the Company and its subsidiaries on a business combination, are recognized as expenses as they are incurred.

Subsidiaries and jointly controlled subsidiaries

The subsidiaries' financial statements are included in the consolidated interim financial information from the date the inspection starts until the date on which the inspection ceases to exist.

Transactions eliminated in consolidation

Balances and transactions between the companies of the "Group", and any revenues or expenses derived from intragroup transactions, are eliminated in the preparation of consolidated interim financial information. Unrealized gains arising from transactions with invested companies registered by equity are eliminated against the investment in proportion to the Company's participation in the investees. Unrealized losses are not eliminated in the same way as unrealized gains are eliminated, but only to the extent that there is no evidence of loss by reduction in recoverable value.

g) Cash and cash equivalents and securities and real estate values

Cash and cash equivalents include cash, bank deposit and accounting applications of immediate liquidity. See Explanatory Note No. 4 for further details of the cash and cash equivalents of the Company and its subsidiaries.

h) Financial instruments

The financial instruments of the Company and its subsidiaries are in accordance with the accounting pronouncement adopted as of January 1, 2018, CPC 48 - Financial Instruments, in which all assets and liabilities are recorded according to their practice.

Financial assets

Financial assets are classified under the following categories: assets measured at amortized cost; fair value through income, or fair value through other comprehensive results. The assets are classified according to the definition of the business model adopted by the Company and the cash flow characteristics of the financial asset.

Recognition and measurement

The Company classifies its financial assets on initial recognition into three categories:

- (i) assets measured at amortized cost;
- (ii) fair value through profit or loss;
- (iii) fair value through Other comprehensive income

▪ Amortization cost: Assets should be measured at amortized cost if both of the following conditions are met: i) the financial asset is held within the business model whose objective is to hold assets in order to collect contractual cash flow; and ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Company should recognize its interest income, exchange gains and losses, and impairment directly in profit or loss.

▪ Fair value through profit or loss: Financial assets should be measured at fair value through profit or loss only if they may not be classified as assets measured at amortized cost or fair value through other comprehensive income. The Company should recognize its interest income, exchange gains and losses, and impairment together with other net profit or loss, directly in profit or loss;

▪ Fair value through other comprehensive income: Financial assets should be measured at fair value through comprehensive income only if the following conditions are met: i) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash when contractual cash flows are collected from the sale of financial assets; and ii) the contractual terms of the financial asset give rise on specified dates to interest on the principal amount outstanding.

Assets measured at fair value through other comprehensive results are classified into two categories: i) debt instruments: interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in the result. Other net results are recognized directly in the Company's shareholders' equity, in "Other comprehensive results". In the waiver of recognition, the accumulated result in other comprehensive results is reclassified to the result; or (ii) equity instruments are measured at fair value. Dividends are recognized as gain in income, unless the dividend clearly represents a recovery of part of the cost of the investment.

Other net results are recognized directly in the Company's shareholders' equity, in "other comprehensive results" and are never reclassified to the result.

The fair values of investments with public quotation are based on current purchase prices. If the market for a financial asset (and securities not listed on the Stock Exchange) is not active, the Company establishes fair value through valuation techniques.

These techniques include the use of recent operations contracted with third parties, reference to other instruments that are substantially similar, analysis of discounted cash flows and pricing models of options that make the greatest possible use of information generated by the market and count as little as possible with information generated by the management of the entity itself.

Regular purchases and sales of financial assets are recognized on the trading date, i.e. the date on which the Company undertakes to buy or sell the asset.

- Derecognition of financial assets: financial assets are lowered when the rights to receive cash flows from investments have expired or have been transferred; in the latter case, provided that the Company has significantly transferred all the risks and benefits of the property. If the entity substantially owns all the risks and benefits of ownership of the financial asset, it shall continue to recognize the financial asset.

Financial liabilities

Financial liabilities are classified under the following categories: financial liabilities at amortized cost or fair value through income. Management determines the classification of its financial liabilities in the initial recognition.

- Financial liabilities at amortized cost: the Company shall classify all its financial liabilities as amortized cost except financial liabilities classified at fair value through income, passive derivatives and guarantee contracts. Other financial liabilities are measured at the amortized cost amount using the effective interest method. Interest expenses, gains and exchange losses are recognized in the income. The Company has the following non-derivative financial liabilities: loans, financing and debentures and suppliers. The Company has the following non-derivative financial liabilities: loans, financing and debentures and suppliers;
- Financial liabilities at fair value through income: financial liabilities classified in the fair value category through income are financial liabilities held for trading or those designated in the initial recognition. Derivatives are also categorized as held for trading and are thus classified in this category, unless they have been designated as effective hedging instruments. Gains and losses related to financial liabilities classified at fair value through income are recognized in income.

- Derecognition of financial liabilities: financial liabilities are lowered only when it is extinguished, i.e., when the obligation specified in the contract is settled, cancelled or expires. The Company also waives the recognition of a financial liability when terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

Offset of financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legally applicable right to offset the recognized amounts and there is an intention to liquidate them on a net basis, or realize the asset and settle the liability simultaneously.

Derivative financial instruments

The fair value of derivative financial instruments is calculated by the Company's treasury based on the information of each contracted transaction and their respective market information on the closing dates of the interim financial information, such as interest rate and foreign exchange coupon. Where applicable, such information is compared with the positions informed by the operating tables of each financial institution involved.

Transactions with derivative financial instruments, contracted by the Company and its subsidiaries, are summarized in ox futures contracts, options on ox contracts and non-term purchase forward (NDF), which aim exclusively to minimize the impacts of the oscillation of the price of the bovine ate in the result and the protection against foreign exchange risks associated with positions in the balance sheet plus the cash flows projected in foreign currencies.

Derivative financial instruments and hedging activities

Derivatives are initially recognized at their fair values at the commencement of the derivative agreement and are subsequently remeasured at fair value, whose changes in fair value are recorded in profit or loss.

Although the Company uses derivatives for hedging purposes, it did not choose the hedge accounting method. This accounting method is optional and, therefore, not mandatory.

i) Trade receivables

They are presented to present and realization values, and the receivables of customers in the foreign market are updated based on the exchange rates in force on the date of the interim financial information. Expected Losses with Doubtful Accounts (PECLD) are constituted in an amount considered sufficient by management with the monitoring of overdue credits and duplicates and the risk of not receiving the amounts arising from long-term sales operations.

j) Inventories

Inventories are measured at the lowest value between cost and net realisable value, adjusted to market value and by any losses, when applicable. It includes expenses incurred in purchasing inventories, production and processing costs, and other costs incurred in bringing them to their existing locations and conditions.

k) Biological assets

Biological assets are measured at fair value. Changes in fair value are recognized in the result. Agricultural activities, such as increased herd stemming from cattle or cattle feedlot operations and from various agricultural crops, are subject to the determination of their fair values based on the concept of market value "Mark to market - MtM".

l) Property, plant and equipment

Recognition and measurement

Property, plant and equipment items are measured at the historical purchase or construction cost, less accumulated depreciation and, where applicable, accumulated impairment losses.

The cost of certain items of the property, was calculated by reference to the revaluation carried out on a date prior to the enactment of Law No. 11,638/2007, in force since January 1, 2008, thus not being necessary at the time to evaluate the deemed cost assigned (Cost).

The cost includes expenses that are directly attributable to the acquisition of an asset. The cost of assets built by the Company itself and its subsidiaries includes the cost of materials and direct labor, any other costs to place the asset on the spot and condition necessary for them to be able to operate in the manner intended by management. Borrowing costs on qualifying assets have been capitalized since January 1, 2009.

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

The rights that have as object tangible assets intended for the maintenance of the activities of the Company and its subsidiaries, originated from leasing operations, are recorded as a right of use recognizing at the beginning of each operation a fixed asset and a financing liability, and the assets are also subject to depreciation calculated according to the estimated useful lives of the respective assets or lease term.

Gains and losses on disposal of an item of the asset are determined by comparing the proceeds arising from the disposal with the net book value of the asset and are recognized net within other income/expenses in profit or loss.

Depreciation

Depreciation is recognized in the result, based on the linear method based on the estimated useful lives of each part of an asset item, since this method is the closest to reflect the pattern of consumption of future economic benefits incorporated into the asset.

The average useful lives estimated by the Company's Management, supported by technical studies for the current and comparative period are as follows:

	Parent company (annual rate)	Consolidated (annual rate)
Buildings	3,04%	2,53%
Machinery and equipment	9,21%	8,86%
Furniture and fixtures	10,81%	9,31%
Vehicles	7,16%	6,91%
Computer hardware	24,84%	22,59%

The depreciation methods, useful lives, and residual values are updated and revised at each period end, and any adjustments are recognized as changing accounting estimates.

The balance of the revaluation reserve, as provided by the 11,638/07 and mentioned in Note 19, will be maintained until its full amortization, by full depreciation or disposal of the assets.

m) Leases

Contracts are considered as leases when meeting both of the following conditions:

- An identifiable asset specified explicitly or implicitly. In this case, the supplier does not have the practice of replacing the asset, or the replacement would not bring any economic benefit to the supplier;

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

- The right to control the use of the asset during the contract. In this case, the Company must have authority to make decisions about the use of the asset and the ability to substantially obtain all economic benefits by using the asset.

The right-of-use asset is initially measured at cost and comprises the initial amount of lease liabilities adjusted for any payment made prior to the commencing of the contract, added to any initial direct cost incurred and cost estimate of disassembly, removal, restoration of the asset at the location where it is located, minus any incentive received.

The right-of-use asset is subsequently depreciated using the straight-line method from the start date to the end of the useful life of the right of use or the end of the lease term.

The lease liability is initially measured at the present value of unpaid payments, discounted at the incremental loan rate. The lease liability is subsequently measured at the amortized cost using the effective interest method.

A lessee recognizes a right-of-use asset that represents his right to use the leased asset and a lease liability that represents his obligation to make lease payments. Optional exemptions are available for short-term rentals and low-value items.

n) Intangible

Intangible assets acquired separately are measured in the initial recognition at acquisition cost and subsequently deducted from accumulated amortization and recoverable value losses, where applicable.

Intangible assets with defined useful life are amortized according to their estimated economic useful life and, when indications of loss of their recoverable value are identified, submitted to recoverable value assessment test. Intangible assets with an indefinite useful life are not amortized but are subject to annual test to reduce their recoverable value.

Goodwill on acquisition of subsidiaries

The goodwill resulting from the acquisition of subsidiaries is included in the intangible assets in the consolidated interim financial information.

o) Impairment test

Financial assets

The Company annually assesses whether there is any objective evidence that determines whether the financial asset or group of financial assets is not recoverable. A financial asset or group of financial assets is considered as non-recoverable when there is an indication of loss of economic value of the asset.

Non-financial assets

Management periodically reviews the net book value of the assets, with the objective of evaluating events or changes in economic, operational or technological circumstances that may indicate deterioration or loss of their recoverable value. If such evidence is identified, and it is verified that the net book value exceeds the recoverable value, it is immediately constituted provision for devaluation, adjusting the net book value to its recoverable value.

The recoverable value of an asset, or a given Cash Generating Unit (UCG), is defined as the largest between the value in use and the net selling value.

In estimating the value in use of the asset, estimated future cash flows are discounted to their present value, using a pre-tax discount rate that reflects the weighted average cost of capital for the industry in which the cash generating unit operates.

The net selling value is determined, where possible, on the basis of a firm sales contract in a transaction on a commutative basis, between knowledgeable and interested parties, adjusted for expenses attributable to the sale of the asset, or, where there is no firm sales contract, based on the market price, defined in an active market, or the price of the most recent transaction with similar assets.

The following criterion is also applied to assess loss by reduction to recoverable value of specific assets:

Goodwill based on expected future earnings

Loss test by reduction to recoverable goodwill value is done at least annually, or when circumstances indicate loss by devaluation of book value.

Intangible assets with indefinite useful lives

Intangible assets with an indefinite useful life are tested in relation to the loss by reduction to recoverable value at least annually, individually or at the level of the Cash Generating Unit (UCG), as the case may be or when circumstances indicate loss by devaluation of book value.

p) Other current and noncurrent assets and liabilities

An asset is recognized in the balance sheet when it is likely that its future economic benefits will be generated in favor of the Company and its subsidiaries, and its cost or value can be measured safely.

A liability is recognized in the balance sheet when the Company has a legal obligation or constituted as a result of a past event, and an economic resource is likely to be required to liquidate it. They shall be added, where applicable, to the corresponding charges, monetary or exchange variations incurred and adjustments to present value. The provisions are recorded based on the best estimates of the risk involved.

Assets and liabilities are classified as current when their realization or settlement is likely to occur in the next twelve months. Otherwise, they are demonstrated as non-circulating.

q) Adjust the present value of assets and liabilities

Non-current monetary assets and liabilities are adjusted, where relevant, to their present value, and short-term assets, when the effect is considered relevant in relation to individual and consolidated interim financial information.

For the calculation of the adjustment to present value, the Company and its subsidiaries consider the amount to be discounted, the dates of realization and settlement based on discount rates that reflect the cost of money in time for the Company and its subsidiaries, which was around a discount rate of 8.7% per year, calculated based on the weighted average cost of capital of the Company and its subsidiaries, as well as the specific risks related to the cash flows scheduled for the financial flows in question.

The terms of receipts and payments of accounts receivable and payable, arising from the operational activities of the Company and its subsidiaries are low, thus resulting in a discount amount considered irrelevant for registration and disclosure, because the cost of generating information exceeds its benefit. For non-current assets and liabilities, where applicable and relevant, they are calculated and recorded.

Calculations and analyses are reviewed quarterly.

r) Income tax and social contribution

Income tax and the current and deferred income contribution of the Companies and their subsidiaries located in Brazil are calculated based on the rates of 15%, plus the additional 10% on the taxable income surplus of R\$ 240 for income tax and 9% on taxable income for social contribution on net income, and consider the compensation of tax losses and negative basis of social contribution, limited to 30% of the real profit.

The expense of income tax and social contribution comprises current and deferred income taxes. Current tax and deferred tax are recognized in profit or loss, unless they are related to the combination of business, or items directly recognized in equity or other comprehensive results.

Deferred tax is recognized with respect to temporary differences between the book values of assets and liabilities for accounting purposes and the corresponding amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: the initial recognition of assets and liabilities in a transaction that is not a business combination and that does not affect either accounting or taxable profit or loss, and differences related to investments in subsidiaries and controlled entities when they are likely not to reverse in the foreseeable future.

Deferred tax assets and liabilities are offset if there is a legal right to offset current tax liabilities and assets, and they relate to income taxes imposed by the same tax authority on the same entity subject to taxation.

A deferred income tax and social contribution asset is recognized for tax losses, tax credits, differences in accounting practices (IFRS) and unused deductible temporary differences, when future profits subject to taxation are likely to be available and against which they will be used.

Deferred income tax and social contribution assets are reviewed at each reporting date and will be reduced to the extent that their realization is no longer likely.

s) Contingent assets and contingent liabilities, and legal obligations

Accounting practices for the registration and disclosure of contingent assets and liabilities and legal obligations are as follows: (i) contingent assets are recognized only when there are real guarantees or favorable judicial decisions, final. Contingent assets with probable successes are only disclosed in an explanatory note; (ii) contingent liabilities are provisioned when losses are assessed as probable, and the amounts involved are measurable with sufficient security.

Contingent liabilities assessed as possible losses are only disclosed in an explanatory note and contingent liabilities assessed as remote losses are not provisioned or disclosed; and (iii) legal obligations are recorded as enforceable, regardless of the assessment of the probabilities of success, for lawsuits in which the Company questioned the unconstitutionality of taxes.

t) Employee benefits

The Company does not have post-employment benefits, such as contribution plans and/or defined benefits. It should be noted that all short-term benefits and paid leave, as well as profit and gratuity sharing are in accordance with the requirements of the respective accounting pronouncements.

u) Revenue recognition

The Company's revenues derive mainly from the sale of products, which are recognized when the performance obligation is met and whose goods are destined to the domestic and foreign markets.

The revenues recognized both in the domestic and foreign markets are subject to evaluations and judgments by the Company's Management in determining its accounting recognition by the Company.

Sales revenue is presented net of taxes and discounts on this. Sales taxes are recognized when sales are billed, and sales discounts when known. Product sales revenues are recognized by the value of the consideration to which the Company expects to be entitled, deducted from returns, discounts, rebates and other deductions, if applicable, being recognized as the Company satisfies its performance obligation. The opening of sales revenue is shown in Note 21.

v) Earnings per share

The basic income per share is calculated through the results of the period attributable to the Controlling Shareholders of the Company and the weighted average of the common shares outstanding in the respective period. The result per diluted share is calculated by means of the said average of the shares in circulation, adjusted by the instruments potentially convertible into shares, with dilutive effect, in the periods presented.

w) Segment reporting

The report by operating segments is presented in a manner consistent with the internal report provided to the Company's Executive Board, responsible for the allocation of resources and performance evaluation by operating segment and strategic decision-making. This information is prepared in a manner consistent with the accounting policies used in the preparation of interim financial information.

x) New and revised standards and interpretations:

During the 2021 and the second quarter of 2022, the IASB issued/revised some IFRS standards, which have its adoption for the year 2022 or later, and the Company is evaluating the impacts on its Interim Financial Information from the adoption of these standards:

- Amendment to IAS 1 standards - Classification of liabilities as Current or Non-current. Clarifies aspects to be considered for the classification of liabilities as Current Liabilities or Non-Current Liabilities. This amendment to the standard is effective for years beginning on or after 01/01/2023. The Company does not expect significant impacts on its Interim Financial Information;
- Amendment to IAS 1 and Disclosure of Accounting Practices 2 - Disclosure of Accounting Policies: Clarifies aspects to be considered in the disclosure of accounting policies. This standard change is effective for fiscal years beginning on/or after 1/01/2023. The Company does not expect significant impacts on its Interim Financial Information;
- Amendment to IAS 8- Definition of accounting estimates: Clarifies aspects that should be considered when defining accounting estimates. This standard change is effective for fiscal years beginning on/or after 1/01/2023. The Company does not expect significant impacts on its Interim Financial Information; and
- Amendment to IAS 12 - Deferred tax related to assets and liabilities arising from a single transaction: Clarifies aspects to be considered in the recognition of deferred taxes assets and liabilities related to taxable temporary differences and deductible temporary differences. This standard change is effective for exercises starting on/or after 1/01/2023. The Company does not expect significant impacts on its Interim Financial Information.

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

y) Statements of value added

The Company prepared the individual and consolidated interim financial information of value added (DVA) in accordance with CPC 09 - Statement of Value Added, which are presented as an integral part of the interim financial information according to the accounting practices adopted in Brazil applicable to publicly-held companies, whereas they are considered by IFRS as supplemental financial information, required as part of the financial statements taken as a whole.

The objective of a statement of value added is to show the wealth created by the Company and its subsidiaries, its distribution to those that contributed to generate such wealth, such as employees, financial institutions, shareholders, government, as well as the undistributed portion of wealth.

4. Cash and cash equivalents

The financial assets of the Company and its subsidiaries are composed as follows:

	Parent Company		Consolidated	
	06/30/2022	12/31/2021	06/30/2022	12/31/2021
Cash	245	249	553	1,237
Banks - checking accounts	2,783	2,226	496,054	2,090,958
Cash and cash equivalents in foreign currencies	3,900,768	3,981,478	3,902,143	3,983,438
Total	3,903,796	3,983,953	4,398,750	6,075,633
Short-term investments				
In local currency				
Bank Certificates of Deposit (CDB)	231,487	329,655	275,235	365,070
Debentures	809,707	515,649	884,382	556,635
Other financial assets	54,663	65,382	644,948	304,671
Short-term investments	1,095,857	910,686	1,804,565	1,226,376
Total	4,999,653	4,894,639	6,203,315	7,302,009

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

The financial investments of the Company and its subsidiaries were classified according to their characteristics and intention, measured at fair value through profit or loss, which correspond to level 2 of the fair value hierarchy and are briefly demonstrated as follows:

	Parent Company		Consolidated	
	06/30/2022	12/31/2021	06/30/2022	12/31/2021
Measured at fair value through profit or loss	1,095,857	910,686	1,804,565	1,226,376
Total	<u>1,095,857</u>	<u>910,686</u>	<u>1,804,565</u>	<u>1,226,376</u>

5. Trade receivables

	Parent Company		Consolidated	
	06/30/2022	12/31/2021	06/30/2022	12/31/2021
Trade notes - domestic customers	234,099	273,313	747,722	809,043
Trade notes - foreign customers	496,973	241,128	2,301,367	1,831,660
Receivables - related parties	381,389	762,336	-	-
Total	<u>1,112,461</u>	<u>1,276,777</u>	<u>3,049,089</u>	<u>2,640,703</u>
(-) Allowance for expected credit losses	(19,903)	(25,175)	(35,559)	(42,140)
Total	<u>1,092,558</u>	<u>1,251,602</u>	<u>3,013,530</u>	<u>2,598,563</u>

The following are the balances of accounts receivable by maturity age:

	Parent Company		Consolidated	
	06/30/2022	12/31/2021	06/30/2022	12/31/2021
Current	951,677	1,190,073	2,671,007	2,348,912
Overdue:				
Up to 30 days	98,525	39,811	252,790	160,261
From 31 to 60 days	3,479	1,240	22,963	23,194
From 61 to 90 days	4,492	509	13,133	2,808
Above 91 days	54,288	45,144	89,196	105,528
Total	<u>1,112,461</u>	<u>1,276,777</u>	<u>3,049,089</u>	<u>2,640,703</u>

The movement of expected losses with credits for the period ended June 30, 2022 and for the year ended December 31, 2021 are represented as:

	Parent Company	Consolidated
Balances as of January 1, 2021	(30,121)	(50,939)
Provisioned credits	(6,819)	(7,039)
Credits recovered	12,167	17,879
Exchange variation	(402)	(2,041)
Balances as of December 31, 2021	(25,175)	(42,140)
Provisioned credits	(411)	(866)
Credits recovered	5,325	6,095
Exchange variation	358	1,352
Balances as of June 30, 2022	<u>(19,903)</u>	<u>(35,559)</u>

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

The Company has a Receivables Investment Fund (FIDC) for sale of part of its domestic receivables, in the amount of R\$ 197,085 (as of December 31, 2021, R\$ 202,384), without co-obligation or right of return, of which R\$ 22,055 as of December 31, 2021, R\$ 21,015) consisting of subordinated shares.

The percentage of participation and the number of quotas in FIDC refer to the guarantee and limit of risk under the Company's responsibility, which correspond to all subordinated shares paid by the Company with FIDC.

According to CVM circular letter No. 01/2017, for the purpose of filing the definitive sale of receivables, the transferor may not have any management, involvement, or future hit with the overdue FIDC securities, and consequently, exposure to the risks arising from it. In this way, the Company is exposed to the risk of default limited to its subordinated quotas. It is worth noting that, the Company has a very strict credit granting policy, which causes low levels of default, which are verified by the low value of provisioned credits, when compared to sales revenues made by the Company and its subsidiaries.

The Company has no collaterals for past-due trade notes receivable.

6. Inventories

	Parent Company		Consolidated	
	06/30/2022	12/31/2021	06/30/2022	12/31/2021
Finished products	597,030	617,069	1,619,791	1,885,560
Warehouse and secondary materials	38,586	37,549	208,946	229,734
Total	635,616	654,618	1,828,737	2,115,294

7. Biological assets

The Company and its subsidiaries that have cattle activities, such as cattle herd growth arising from the confinement of cattle or grazing cattle operations, are subject to revaluation of its assets, in order to determine their fair value based on the mark to market (MtM) concept, less estimated selling expenses, at least on a quarterly basis, recognizing the effects of such revaluations directly in profit or loss for the years. The measurement of the fair value of biological assets falls within Level 1 of the measurement hierarchy at fair value, in accordance with the hierarchy of CPC 46, as these are assets with prices quoted on the market.

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

Operations related to the Company's biological assets are represented by grazing cattle (extensive) and short-term confinement cattle (intensive). The operation is conducted through the acquisition of biological assets for resale, whose mark to market is reliably measured due to the existence of active markets, and are represented as follows:

	Herd	
	Parent Company	Consolidated
Balance as of January 1, 2021	263,221	351,230
Increase due to acquisitions	100,894	603,572
Decrease due to sales	(68,746)	(523,229)
Net decrease due to births (deaths)	(803)	(6,655)
Conversion adjustment	-	2,700
Change in fair value minus estimated selling expenses	47,768	40,342
Balance as of December 31, 2021	342,334	467,960

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

PIS and COFINS (taxes on revenue)

The credits of PIS and COFINS come from the change in tax legislation, according to Laws no. 10.637/02 and 10.833/03, which established non-cumulation for these taxes, generating credit for exporting companies. On May 30, 2018, the Brazilian Internal Revenue Service (RFB) issued Law No. 13,670, which allowed the compensation of these credits for payment of social security debts, thus significantly reducing the accumulation of credits.

Currently, the Company and its subsidiaries have finalized the inspection by the Brazilian Internal Revenue Service (RFB) of most of the claims for reimbursement of these credits, were duly approved by the Brazilian Internal Revenue Service (RFB), which has generated a significant amount of restitution of these credits, to continue during the years 2022 and 2023.

Based on studies conducted by the Company's Management, regarding the expectation of restitution of said tax credits, part of these current assets were segregated to non-current assets, on June 30, 2022, in the amount of R\$ 81,127 in the parent company and consolidated. Estimates of the realization of the tax credits of the Company and its subsidiaries are reviewed quarterly.

State VAT (ICMS)

ICMS credits are caused by the fact that the Company's exports reach values higher than sales in the domestic market, generating credits that, after being approved by the Secretary of State Treasury, are used for the purchase of production materials, and can also be sold to third parties, as provided for in the current legislation.

Of the mentioned creditor balance, a substantial part is in the process of inspection and approval by the Department of Finance of the State of São Paulo, and the Company's Management expects to recover a significant part of these credits during the 2022 and 2023 financial years. Based on the studies carried out by the Company's Management, it was segregated from current assets to non-current assets, a percentage considered sufficient to represent slower processes, which totals the amount of R\$ 29,345 in the parent company and consolidated, of these credits. Estimates of the realization of the tax credits of the Company and its subsidiaries are reviewed quarterly.

9. Related parties

Transactions with related parties, carried out under market conditions in the following description, are summarized in tables shown below, and comprise:

	Parent Company

a) Works and installations in progress

As of June 30, 2022, the balances of works and installations in progress refer to the following main projects: expansions of the machine room to supply the expansion of the freezing capacity and storage of finished products and lung camera, compliance with regulatory standards (NR's), environmental and work safety, improvements to improve operational efficiency and service to the most profitable markets, plants and distribution centers.

c) Allowance for impairment of assets

As required by accounting practices adopted in Brazil and international standards (IFRS), annually the Company evaluates the recoverability of its assets. In this sense, since 2013 the industrial plant of Goianésia (GO), for strategic reasons, has been underutilized. Thus, the analysis of the value of the plant by cash generation was impaired, in this sense it was decided to evaluate the net sales value of sales expenses. Based on evaluation carried out by an independent company, it was identified that this plant has a value higher than its value of realization per sale of R\$ 34,175, being R\$ 21,518 of fixed assets and R\$ 12,657 per expectation for future profitability, which resulted in the registration of provision for recoverable value.

d) Amounts pledged as collateral

Property, plant and equipment items pledged as collateral for borrowings and financing on June 30, 2022, in the amount of R\$ 11,146 (R\$ 39,006 as of December 31, 2021).

11.1. Right to use lease assets and liabilities

As of January 1, 2019, the Company initially adopted CPC 06 (R2) / IFRS 16 - Leases, which introduces a single lease model, replacing the concept of classification between operating and financial leasing. This standard replaces existing rental standards, including CPC 06 (R1) / IAS 17 - Leasing Operations and ICPC 03/IFRIC 4, SIC 15 and SIC 27 - Complementary Aspects of Leasing Operations.

The main objective is to define whether there is a lease on the contracts or whether the contract is a service provision.

The Company's Management and its subsidiaries evaluated the impacts of the new standard and opted for the simplified modified retrospective transition approach, without re-presentations of the comparative exercises.

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

The following criteria were adopted in the initial recognition and measurement of assets and liabilities:

- Recognition of lease liabilities on the date of initial application for leases previously classified as operating leases. The measurement of leasing liabilities was carried out at the present value of the remaining lease payments; and
- Recognition of right-of-use assets on the date of initial application for leases previously classified as operating leases. The measurement of the right-of-use asset at the amount equivalent to the lease liabilities, adjusted by the value of any advance or accumulated lease payments relating to that lease that has been recognized in the balance sheet immediately prior to the date of initial application.

CPC 06 (R2)/IFRS 16 includes two recognition exemptions for tenants that were applied by the Company and its subsidiaries at the initial adoption on January 1, 2019:

- i. Contracts the remaining term on the date of adoption was equal to or less than 12 months: the Company continued to recognize the lease payments associated with these leases as a linear-based expense over the term of the lease;
- ii. Contracts for which the underlying assets were of low value: the Company continued to recognize the lease payments associated with these leases as a linear-based expense over the term of the lease.

The following table shows the table with a summary of the impacts on the transition and movement of the period ended June 30, 2022.

 (Amounts in thousands of reais - R\$, unless otherwise stated)

Goodwill based on expected future profitability

	Consolidated	
	06/30/2022	12/31/2021
In direct subsidiaries:		
Minerva Dawn Farms (MDF) (i)	147,649	147,649
Brascasing Industria e Comércio Ltda. (ii)	74,596	74,596
Athena S.A. (iii)	233,700	248,985
Mato Grosso Bovinos S/A (iv)	73,734	73,734
Other (v)	97,379	97,379
In indirect subsidiaries:		
Other (vi)	15,881	17,047
Total	<u>642,939</u>	<u>659,390</u>

- (i) In compliance with the precepts defined in CVM Resolution no. 580/09 – CPC 15 (R1), the Company reviewed the calculations of identifiable assets acquired and liabilities assumed at the time of registration at fair value of the acquisition of an additional 30% of the shares representing the share capital of the subsidiary Minerva Dawn Farms (MDF), which was framed as a "combination of business in stages", verifying the need for segregation of capital gains (goodwill) calculated in the initial (provisional) record at fair value of the Company's stake in said transaction, in the total amount of R\$ 188,391 (R\$ 188,391 as of December 31, 2012). As previously described, during the fourth quarter of 2012, the Company acquired a residual stake in 20% of the MDF shares that were held by Dawn Farms, holding 100% of the control of the MDF. On December 31, 2015, it made a provision for the recoverable amount in the amount of R\$ 21,904. On December 31, 2018, it made a provision for the recoverable amount in the amount of R\$ 18,838;
- (ii) In December 2011, the Company acquired 5% of the shares of the company's joint share capital, up to the date of such transaction, Brascasing Comercial Ltda., and now has 55% of the shares representing the share capital of that company, and consequently its control. Because it is an operation framed as a "combination of business in stages", the Company registered its participation and the participation of the shareholders, at their fair value, which led to the record of an added value (goodwill for expectation of future profitability) of R\$ 93,185. After the full acquisition of the Company, the goodwill increased to R\$ 98,094. On December 31, 2015, it made a provision for the recoverable amount in the amount of R\$ 23,498, due to overproduction/supply, with the reduction of world consumption, mainly slowdown by China and the fall in the price of oil, directly impacting markets such as Russia, one of the main markets for its business;
- (iii) On September 30, 2018, the Company transferred its existing industrial investments in Mercosur through capital payment in the subsidiary Athena S.A., thereby transferring the existing goodwill that were registered with the parent company. The investments transferred were Frigomerc S/A, Pulsa S/A, Frigorífico Carrasco and the indirect subsidiary Beef Paraguay S.A. and amounts transferred from goodwill by expectation of profitability future were: Frigorífico Pulsa S/A US\$ 15,396 (As of June 30, 2022 R\$ 80,644); Frigomerc S/A US\$ 15,516 (As of June 30, 2022 R\$ 81,273); Frigorífico Carrasco S.A. US\$ 11,932 (As of June 30, 2022 R\$ 62,500); and the subsidiary Frigomerc S.A. had a direct investment of 100% of the common shares of Beef Paraguay S.A., which had a premium of US\$ 1,773 (As of June 30, 2022 R\$ 9,287) which was transferred indirectly to Athena S.A.;

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

- (iv) During the year ended December 31, 2014, the Company incorporated 100% of the voting shares of Mato Grosso Bovinos S.A., through the exchange of 29 million common shares issued by the Company (BEEF3), which occurred on October 1, 2014 through the realization of AGEs (Extraordinary General Meeting) of the two companies, which caused a goodwill record for expectation of future profitability (goodwill) in the amount of R\$ 174,278. During the second quarter of 2019, the Company lowered R\$100,545 from goodwill related to the baixa of Várzea Grande, as part of the business combination for the acquisition of the Paranatinga/MT plant, leaving a goodwill balance of R\$ 73,734, as of June 30, 2020;
- (v) During the second quarter of 2013, the Company acquired the remainder of the 8% of the shares of Friasa S/A, which caused a goodwill record of R\$ 7,233, totaling R\$ 9,298 on June 30, 2013. During the first quarter of 2016, the Company acquired 100% of the share capital of the subsidiary Minerva Foods Asia Assessoria Ltda, which occurred on February 5, 2016, 2016, which caused a goodwill record for expectation of future profitability (goodwill) in the amount of R\$ 217,000. During the second quarter of 2019, the Company acquired through a business combination the plant located in Paranatinga/MT, which caused a goodwill record of R\$ 87,864;
- (vi) During the second quarter of 2016, through its subsidiary Minerva Australia Holdings Pty Ltd acquired 100% of the share capital of its indirect subsidiary IMTP Pty Ltd, which occurred on July 22, 2016, which led to a goodwill record for expectation of future profitability (goodwill) in the amount of R\$ 15,879 (R\$ 17,416 as of December 31, 2021).

As required by accounting practices adopted in Brazil and international standards (IFRS), annually the Company evaluates the recoverability of its assets. As a result of the impairment test, on December 31, 2021, no losses were identified for the Company's Cash Generating Units (UGC).

The Company used the value method in use to perform the impairment test. For all UGCs, 05 years of projection were considered, with no growth in perpetuity, and the financial budgets prepared by the Administration were observed for the beginning of the projection of cash flows (2022). The discount rate applied was 8.7%.

In previous years, the Company recognized impairment losses for some UGCs. In this sense, the industrial plant of Goianésia (GO), a company formerly called "Lord Meat", for strategic reasons, is underutilized and recorded loss by impairment, according to Explanatory Note no. 11. On December 31, 2016 and 2018, the Company recorded a provision for impairment loss for UGC MFF, in the amount of R\$ 21,904 and R\$ 18,838, respectively.

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

Below we detail the main loans and financing of the Company and its subsidiaries as of June 30, 2022, as well as highlighting that it complied on that date with all the restrictive contractual clauses (covenants) shown below in each type of loans and financing:

International Finance Corporation (IFC)

In September 2013, IFC and the Company entered into a 10-year financing agreement, in the amount of R\$137,718, disbursed on October 24, 2013. The debt balance on June 30, 2022, was anticipated and settled (as of December 31, 2021 it is R\$26,399), whose interest is calculated using the CDI + Spread, paid semiannually. The debt matures on April 15, 2023.

Debt notes/bonds abroad

On September 20, 2016, the Company concluded the "bonds" representing debt issued abroad (Bonds) by its subsidiary Minerva Luxembourg S.A., with due dates for 2023. Through the "early repurchase offer" repurchased US\$617,874 (R\$2,010,562 at that date) of the principal amount of the 2023 Notes, equivalent to approximately 71% of the outstanding 2023 Notes.

The offer of early repurchase of debt securities was carried out using the funds obtained from the issuance of Notes 2026 (on which interest of 6.50% per year will accrue) and is part of a clear liability management strategy, which aims to constantly improve the Company's cost of debt.

Part of this offer consisted of the payment of a premium to the holders of the bonds, embedded and implicit in the transaction and in the proposed exchange ratios, in the amount of US\$ 40,143 thousand and transaction costs in the amount of US\$ 28,859, totaling a total cost of US\$ 69,002, which will be amortized in the financial expenses account during the term of said Notes 2026.

On February 10, 2017, the Company exercised the early purchase option of its debt securities that bear annual interest of 12.250% and mature in 2022 (Notes 2022). The total amount of this debt was US\$ 105,508 (R\$ 328,710, on that date), the price paid was US\$ 106,125 of the face value, plus interest accrued to date.

In June 2017, the Company concluded the Re-Tap of the note's transaction maturing in September 2026, in the amount of US\$ 350,000 thousand, on which interest of 6.50% per year will accrue (Notes 2026).

On December 19, 2017, the Company concluded the "offer to repurchase securities" representing debt issued abroad (Bonds) by its subsidiary Minerva Luxembourg S.A., with maturities scheduled for 2023. Through the "offer for early repurchase" repurchased US\$198,042 (R\$605,103 at that date) of the principal amount of the Notes 2023, equivalent to approximately 79% of the outstanding Notes 2023.

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

The offer of early repurchase of debt securities was carried out using the funds obtained from the issuance of Notes 2028 (on which interest of 5.875% per year will accrue) and is part of a clear liability management strategy, which aims to constant improvement in the Company's cost of debt.

Part of this offer consisted of the payment of a premium to the holders of the securities, embedded and implicit in the transaction and proposed exchange ratios, in the amount of US\$ 9,209 and transaction costs in the amount of US\$ 20,271, totaling a total cost of US\$ 29,480, which will be amortized in the financial expenses account during the term of said Notes 2028.

On January 31, 2018, the Company exercised the early purchase option of its debt securities that bear annual interest of 7.75% and mature in 2023 (Notes 2023). The total amount of this debt was US\$ 52,099 (R\$ 164,919 on that date), the price paid was 103,875% of the face value, plus accrued interest to date.

On June 8, 2020, the Company concluded the "bonds" representing debt issued abroad, with maturity scheduled for 2026. Through the "early repurchase offer", US\$ 85,668 (R\$ 464,878 as of that date). On the same date, the Company concluded the "offer to repurchase securities" representing debt issued abroad (Bonds), with maturity scheduled for 2028. Through the "offer for early repurchase" US\$ 11,005 (R\$ 59,030 on that date).

In March 2021, the Company, through its subsidiary, Minerva Luxembourg, issued debt securities abroad in the amount of US\$ 1,000,000 (R\$ 5,546,880 at that date). The note is guaranteed by the Company and matures in 2031.

Notes issued by Minerva Luxembourg (Bonds 2031) pay biannual coupons at a rate of 4.375% per annum. The Company will provide a guarantee for all the Issuer's obligations, within the scope of said issuance.

At the same time, the Company concluded the "bonds" representing debt issued abroad, with maturity scheduled for 2026. Through the "early repurchase offer", US\$ 911,719 (R\$ 5,021,931 on that date) were repurchased).

In November 2021, the Company concluded the "offer to repurchase securities" representing debt issued abroad (Bonds), with maturity scheduled for 2028 through the "offer for early repurchase", US\$ 70,606 (R\$ 398,430, at that time) were repurchased. date)

In December 2021, the Company concluded the "offer to repurchase securities" representing debt issued abroad (Bonds), with maturity scheduled for 2028 and 2031 through the "offer for early repurchase", US\$ 48,084 (R\$ 268,333) were repurchased, on that date) referring to the 2028 bonds and US\$ 10,735 (R\$ 59,907, on that date) referring to the 2031 bonds.

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

In March 2022, the Company concluded the "offer to repurchase securities" representing debt issued abroad (Bonds), with maturity scheduled for 2028 and 2031 through the "early repurchase offer", US\$ 89,405 (R\$ 423,583) were repurchased, on that date) referring to bonds 2028 and US\$ 42,217 (R\$ 200,016, on that date) referring to bonds 2031.

The liability related to the Notes, as of June 30, 2022, in the consolidated interim financial information, is R\$ 6,905,734 (R\$ 8,024,658 as of December 31, 2021).

The Notes contain provision for the maintenance of a financial covenant through which the debt coverage capacity is measured in relation to EBITDA (net earnings before interest, taxes, depreciation and amortization).

The contractual ratio of both instruments indicates that the level of debt coverage cannot exceed 3.5 times the EBITDA of the last 12 months. For these purposes, it is considered: (I) "Net Debt" - means the sum of the balance of loans and financing, disregarding the exchange rate variations that occurred in the periods since the debt was raised, less the sum of: (i) cash and cash equivalents (according to defined below); and (ii) "purges" (as defined below); (II) "Cash and cash equivalents" - means the sum of the balance of the following accounts on the Company's balance sheet: "Cash and cash equivalents" and "Securities"; (III) "Purges" - means a series of exceptions, including, but not limited to, the exchange rate variation since the issuance of the security and/or permitted debts, related to specific operational transactions, totaling US\$ 308,000 thousand. (iv) "EBITDA" - means the amount calculated on the accrual basis over the last 12 months, equal to the sum of net revenues, less: (i) cost of services provided; (ii) administrative expenses, plus: (a) depreciation and amortization expenses, (b) net financial result; (c) equity-accounted earnings; and (d) direct taxes.

It is also worth mentioning that the financial covenants refer to the permission or not to incur new debts, executing all new debts related to refinancing, in addition to a pre-defined amount for working capital lines and investments. Covenants are calculated based on the consolidated interim financial information.

i) Level of subordination

As of June 30, 2022, 0.09% of the total debt of the Company and its subsidiaries was guaranteed by real guarantees (0.29% as of December 31, 2021). Any restrictions imposed on the issuer in relation to indebtedness limits and contracting new debts, the distribution of dividends, the sale of assets, the issuance of new securities and the sale of corporate control.

The Notes also have clauses that limit the Company to: (i) new indebtedness if the net debt/EBITDA ratio is greater than 3.75/1.00 and 3.50/1.00, respectively; (ii) the distribution of dividends, in this regard, Minerva undertakes not to make and not to allow its subsidiaries to make the payment of any distribution of dividends or make any distribution of its interest on invested capital held by others other than its subsidiaries (except: (a) dividends or distributions paid to qualified interests of Minerva; and (b) dividends or distributions owed by a subsidiary, on a pro rata basis or a basis more favorable to Minerva; (iii) the change in corporate control ; and (iv) the sale of assets, which can only be carried out by complying with the established requirements, among them, in the case of sale of assets, it is necessary that the sale value is the market value.

7th issue of non-convertible debentures

On November 19, 2019, the Company offered non-convertible debentures in the amount of R\$500,000, maturing on August 15, 2024. The total principal amount is R\$500,000 and its remuneration corresponds to the IPCA plus a surcharge equivalent to 4.50% p.a. The proceeds from this issue were used to lengthen the debt profile and improve the Company's capital structure. In the process of issuing the mentioned debentures, the Company incurred transaction costs in the amount of R\$12,926, recorded in its interim financial information as a reduction of the liability itself, to be amortized over the period of validity of these debentures. As of June 30, 2022, the amount is R\$ 628,960 (R\$577,186 as of December 31, 2021).

8ª Emissão de debêntures não conversíveis

On May 22, 2020, the Company offered non-convertible debentures in the amount of R\$600,000, with the first series maturing on May 13, 2025, in the amount of R\$400,000 and the second series maturing on May 13, 2026 in the amount of 200,000. The total principal amount of the issuances of the first series is R\$ 400,000 and its remuneration corresponds to the IPCA, whereas the principal amount of the issuances of the second series is R\$ 200,000 and its remuneration corresponds to the DI rate.

This funding has a Swap of % CDI, in which the final cost of the operation was 160% of CDI. The funds obtained from this issue were allocated to activities in agribusiness and relations with rural producers, within the scope of the Company's meat industry and trade. In the process of issuing the mentioned debentures, the Company incurred transaction costs in the amount of R\$ 21,930, recorded in its interim financial information as a reduction of the liability itself, to be amortized over the period of validity of these debentures. As of June 30, 2022, the amount is R\$ 679,521 (R\$ 651,172 as of December 31, 2021).

9th issue of non-convertible debentures

On June 12, 2020, the Company offered non-convertible debentures in the amount of R\$600,000, maturing on June 12, 2025. The total principal is R\$600,000 and its remuneration corresponds to the IPCA. This funding has a Swap of % CDI, in which the final cost of the operation was 160% of CDI. The funds obtained from this issue were allocated to activities in agribusiness and relations with rural producers, within the scope of the Company's meat industry and trade. In the process of issuing the mentioned debentures, the Company incurred transaction costs in the amount of R\$14,787, recorded in its interim financial information as a reduction of the liability itself, to be amortized over the period of validity of these debentures. As of June 30, 2022, the amount is R\$ 719,288 (R\$593,330 as of December 31, 2021).

10th issue of non-convertible debentures

On April 15, 2021, the Company offered non-convertible debentures in the amount of R\$1,600,000, maturing on April 12, 2028. The total principal is R\$1,600,000 and its remuneration corresponds to the IPCA. This funding has a Swap of % CDI, in which the final cost of the operation was 128% of CDI. The funds obtained from this issue were allocated to activities in agribusiness and relations with rural producers, within the scope of the Company's meat industry and trade. In the process of issuing these debentures, the Company incurred transaction costs in the amount of R\$ 55,389, recorded in its interim financial information as a reduction of the liability itself, to be amortized over the period of validity of these debentures. As of June 30, 2022, the amount is R\$ 1,786,916 (R\$1,685,644 as of December 31, 2021).

11th Issue of non-convertible debentures

On October 15, 2021, the Company made an offering of non-convertible debentures in the amount of R\$400,000, maturing on October 15, 2026. The total principal is R\$400,000 and its remuneration corresponds to the IPCA. This funding has a Swap of % CDI, in which the final cost of the operation was 100% of CDI. The proceeds from this issue were used to pay the debentures of the first series, on their respective maturity date, issued by the Company within the scope of the 6th Issue, resulting, once carried out, in the lengthening of the Company's indebtedness profile. In the process of issuing the mentioned debentures, the Company incurred transaction costs in the amount of R\$ 22,012, recorded in its interim financial information as a reduction of the liability itself, to be amortized over the period of validity of these debentures. As of June 30, 2022, the amount is R\$ 375,980 (R\$385,023 as of December 31, 2021).

17.1. Composition of income tax and social contribution on deferred net income

Below, we present the movement of tax credits on tax loss carryforwards and negative basis of social contribution:

	Parent Company			
	Balance on December 31, 2021	Recognized in income (loss)	Realization of deferred taxes	Balance on March 31, 2022
Deferred taxes on income and social contribution tax losses	593,539	251,598	-	845,137
Total deferred tax assets	593,539	251,598	-	845,137

	Consolidated				
	Balance on December 31, 2021	Recognized in income (loss)	Realization of deferred taxes	Cumulative translation adjustments	Balance on March 31, 2022
Deferred taxes on income and social contribution tax losses	646,861	274,321	-	(3,257)	917,925
Total deferred tax assets	646,861	274,321	-	(3,257)	917,925

Deferred tax assets arising from tax losses and negative basis of social contribution were recognized for the year from December 31, 2021 to June 30, 2022 in the consolidated.

The accumulated amount as of June 30, 2022, is R\$917,925 (as of December 31, 2021 it is R\$646,861). The decision of the Management of the Company and its subsidiaries to record the aforementioned deferred tax assets, on tax losses and negative basis of social contribution, was based on the business plan and the internal budget and financial projections prepared by the management, in which they are reviewed at least annually.

The projections of these realizations presented the following expectations of realization of said deferred tax assets:

	06/30/2022	
	Parent Company	Consolidated
2022	45,585	49.510
2023	50,160	54.480
2024	84,545	91.826
2025	100,319	108.959

Income tax and social contribution on profit were calculated in accordance with current legislation, in accordance with current legislation, read Law No. 12,973/2014.

The calculations of income tax and social contribution on profit and their respective declarations, when required, are subject to review by the tax authorities for years and varying periods in relation to the respective date of payment or delivery of the income declaration.

Based on studies and projections made for the following years and considering the limits established by current legislation, the Company's Management expects the existing tax credits to be realized within a maximum period of ten years.

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

Accounting net income is not directly related to taxable income for income tax and social contribution due to differences between accounting criteria and the relevant tax legislation. Therefore, we recommend that the evolution of the realization of tax credits arising from tax losses, negative basis and temporary differences are not taken as an indication of future net profits.

18. Provisions for tax, labor and civil procedural risks

Summaries of contingent liabilities

The Company and its subsidiaries are parties to several lawsuits that are part of the normal course of their business, for which provisions were set up based on the estimates of their legal advisors and the best estimates of their Management. Balance on June 30, 2022	<u>32,298</u>	<u>2,380</u>	<u>34,678</u>

Civil and tax risks

They refer to the questioning about the constitutionality of the use of reduced rates on gross revenues and also to the tax discussion about the lack of collection of tax on export revenue, whose estimate is probable of loss, as of June 30, 2022 there was no significant amount of losses recorded in the parent company and R\$2,380 in the consolidated, (R\$3,386 in the parent company and R\$6,063 in the consolidated, as of December 31, 2021).

Labor lawsuits

Most of these labor claims involve overtime, commuting time, health hazard premium and mandatory thermal comfort breaks. Based on the opinion of the legal counsel that handles these lawsuits and Management's experience in similar cases, provisions were recognized for labor lawsuits assessed as probable loss which. As of June 30, 2022, in the amount of R\$25,454 in the parent company and R\$32,298 in the consolidated, (R\$24,573 in the parent company and R\$37,314 in the consolidated, as of December 31, 2021).

Other lawsuits (possible loss expectation)

Labor and social security

As of June 30, 2022, the Company and its subsidiaries had other labor lawsuits (Public Civil Actions) and social security lawsuits in progress, in the amount of approximately R\$3,689 (R\$3,646 as of December 31, 2021), whose probability loss is possible, but not probable, for which the Company's Management understands that it is not necessary to set up a provision for possible loss.

Senar

In March 2003, the Company filed Writs of Mandamus to suspend the enforceability of the retention and transfer of Senar. In order to avoid and lose the right to demand contributions from Senar, the INSS has issued several tax notices against the Company to date. The updated amount involved in these notifications, whose probability of loss is possible based on the opinion of the Company's legal advisors, is approximately R\$89,178 (R\$74,005 as of December 31, 2021). Such proceedings involve a significant degree of uncertainty about the future prognosis of certain matters, the discussions of which have been ongoing for some time in the judicial spheres.

State VAT (ICMS)

The Company has some tax assessment notices referring to the divergence in the calculation memory on the basis of ICMS and ICMS-ST, applying the reduction to its operations in the states of Minas Gerais, São Paulo and Goiás. As of June 30, 2022, the amount involved in these proceedings, whose probability of loss is possible, is approximately R\$197,570 (R\$196,166 as of December 31, 2021).

Other tax, civil and environmental lawsuits

As of June 30, 2022, the Company and its subsidiaries had other tax, civil and environmental proceedings in progress, in the amount of approximately R\$102,777, R\$18,228 and R\$2,946, (R\$67,078, R\$8,408 and R\$ 2,136 on December 31, 2021) respectively, whose materialization, in the opinion of the legal advisors, is a possible loss, but not probable, for which the Company's Management understands that it is not necessary to set up a provision for possible loss.

19. Equity

a. Capital stock

The Company's subscribed capital, as of June 30, 2022, is represented by the amount of R\$1,678,785 (R\$1,675,849 as of December 31, 2021), represented by 607,283,407 (606,700,828 as of December 31, 2021). December 2021) common, book-entry shares, without par value, all free and clear of any liens or encumbrances. During 2016, there were expenses on the issuance of new shares in the amount of R\$5,898 and of R\$53,813 during 2020, therefore, the balance under the heading "Share Capital" in the interim financial information is R\$1,619 .074.

In the first quarter of 2021, the Board of Directors at the Meetings of the Board of Directors (RCA) approved the increases in the Company's capital stock in the amount of R\$ 7,659 (seven million, six hundred and fifty-nine thousand), representing 1,195,195 (one million and one hundred and ninety-five thousand and one hundred and ninety-five) common, registered, book-entry shares with no par value. With the ratification, the capital stock rose from R\$1,363,695, representing 548,426,499 shares, to R\$1,371,354, representing 549,621,694 common shares.

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

In the second quarter of 2021, the Board of Directors at the Meetings of the Board of Directors (RCA) approved the increases in the Company's capital stock in the amount of BRL 67 (sixty-seven thousand), representing 1,195,195 (one million and one hundred and ninety-five thousand one hundred and ninety-five) common, nominative, book-entry shares with no par value. With the ratification, the capital stock rose from R\$1,371,354, representing 549,621,694 shares, to R\$1,371,421, representing 549,634,220 common shares.

In the fourth quarter of 2021, the Board of Directors at the Meetings of the Board of Directors (RCA) approved the increases in the Company's capital stock in the amount of BRL 304,365 (three hundred four million, three hundred and sixty-five thousand), representing 57,054,975 (fifty-seven million and fifty-four thousand and nine hundred seventy-five) common, registered, book-entry shares with no par value. With the ratification, the capital stock rose from R\$1,371,484, representing 549,645,853 shares, to R\$1,675,849, representing 606,700,828 common shares.

In the first quarter of 2022, the Board of Directors at the Meetings of the Board of Directors (RCA) approved the increases in the Company's capital stock in the amount of BRL 2,936 (two million, nine hundred and thirty-six thousand), representing 582,579 (five hundred and eighty-two thousand five hundred and seventy-nine) common, nominative, book-entry shares with no par value. With the ratification, the capital stock rose from R\$1,675,849, representing 606,700,828 shares, to R\$1,678,785, representing 607,283,407 common shares.

b. Capital reserve

Capital reserves are made up of amounts received by the Company and which do not pass through the income statement as revenue, as they refer to amounts intended to reinforce its capital, without having as a counterpart any effort by the Company in terms of delivery of goods or provision of services. As of June 30, 2022, the Company's capital reserve is R\$118,271 (R\$118,271 as of December 31, 2021).

c. Revaluation reserve

The Company carried out a revaluation of the assets comprising its property, plant and equipment, in 2003 and 2006. The remaining balance. As of June 30, 2022, of R\$46,744 (R\$47,518 as of December 31, 2021), net of tax effects.

As previously mentioned and in accordance with the provisions of Law No. 11,638 of 2007, the Company opted to maintain the revaluation reserve constituted until December 31, 2007, until its complete realization, which must occur through depreciation or disposal of the revalued assets.

Notes to the individual and consolidated interim financial information
For the period ended June 30, 2022
(Amounts in thousands of reais - R\$, unless otherwise stated)

d. Legal reserve

It is constituted at the rate of 5% of the calculated net income and fiscal year, pursuant to art. 193 of Law 6,404/76, up to the limit of 20% of the capital stock. In the year in which the balance of the legal reserve, plus the amounts of capital reserves referred to in § 1 of art. 182 of Law No. 6,404/76 exceeds 30% of the capital stock, the allocation of part of the net income for the year to the legal reserve will not be mandatory.

e. Earnings retention reserve

This profit reserve was constituted based on the remaining balance of net income after the allocations for the constitution of the legal reserve and distribution of dividends, with the objective of application in future investments, pursuant to article 196 of Law 6,404/76. The retention accumulated until June 30, 2022 is R\$289,066 (R\$118,583 as of December 31, 2021). According to art. 199 of Law 6,404/76, the balance of this reserve, plus the other profit reserves, cannot exceed the Company's capital stock.

f. Treasury shares

On October 2, 2020, the Company's Board of Directors approved a share buyback program, in accordance with article 19, item XVI of the Company's Bylaws, § 1 of article 30 of Law No. 6,404 of December 15 of 1976, as amended ("Corporate Law"), CVM Instruction No. 567, of September 17, 2015 ("ICVM 567/15") and other applicable rules, effective for eighteen (18) months from October 5, 2020, ending on April 4, 2022, for the application of the Company's profits and/or available reserves for the acquisition, in a single operation or in a series of operations, of up to 20,000,000 (twenty million) of common shares issued by the Company, to be held in treasury, canceled or sold.

On this effective date of the new plan, the Company held 3,150,000 (three million, one hundred and fifty thousand) common, nominative, book-entry shares with no par value in treasury, as well as 259,351,910 (two hundred and fifty and nine million, three hundred and fifty-one thousand, nine hundred and ten) common, nominative, book-entry shares with no par value, issued by the Company.

Trading under the buyback program will be supported by the global amount:

- (a) profit and capital reserves, excluding the legal reserve, the unrealized profit reserve, the special undistributed dividend reserve and the tax incentive reserve; and

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

- (b) the realized income for the current year, excluding the amounts to be allocated to the formation of the legal reserve, the unrealized profit reserve, the special undistributed dividend reserve and the tax incentive reserve and the payment of the dividend mandatory.

The following shows the movement of treasury shares:

	Number	Amount (R\$)	Average Cost (R\$)	Average market value
Balance on January 31, 2021	23,053,200	242,768	10.53	10.18
Share buyback	-	-	-	-
Disposal of shares	-	-	-	-
Balance on December 31, 2021	23,053,200	242,768	10.53	9.80
Share buyback	-	-	-	-

Balance on June 30, 2022	<u>23,053,200</u>	<u>242,768</u>	<u>10.53</u>	<u>10.75</u>

g. Dividends and interest on equity

The Company's Bylaws determine the distribution of a mandatory minimum dividend of 25% of the result, adjusted in accordance with the law.

In the year in which the Company's Leverage Ratio is equal to or less than 2.5x (two and a half times), the Board of Directors will submit to the General Meeting a proposal for the payment of an additional dividend to the mandatory corresponding to at least 25% (twenty-five percent) of the annual net income adjusted by the deductions and additions provided for in the Company's income allocation policy.

h. Valuation adjustment to equity

Pursuant to CPC 02 (R2)/IAS 21 - Effects of changes in exchange rates and conversion of financial statements for the period/year, changes in instruments (direct and reflex) in foreign currency and which are valued by the equity method are basically recorded. (MEP).

In accordance with CPC 37 (R1)/IFRS 1 - Initial Adoption of International Accounting Standards, due to the effectiveness of CPC 02 (R2) before the date of initial adoption, first-time adopters of IFRS must reset the balances of exchange variation of investments recorded in shareholders' equity (under the accrued conversion adjustments item) transferring them to retained earnings or losses (under the earnings reserve item), as well as disclosing the earnings distribution policy applicable to such balances. It should be noted that the Company does not compute these adjustments for profit distribution.

i. Stock option plan

Within the scope of the Plan, executives, members of the Board of Directors, statutory and non-statutory directors, managers, supervisors, employees and employees of the Company and its subsidiaries are eligible to receive stock options key in the development of the business of the Company and its subsidiaries, as they may be chosen by the Company's Board of Directors or a special committee created to manage the Plan to receive the options ("Participants").

The Company's Board of Directors or the Committee, as the case may be, may create Stock Option Programs, which will include the specific conditions regarding the Participants, the total number of shares of the Company object of the grant, the division of the grant into lots and the respective rules specific to each lot, including the exercise price and terms for exercising the option ("Programs").

The Option Agreements and Programs shall also provide that, in the event of the Participant's Termination during the restriction period, the Company may, at its sole discretion, repurchase all the shares held by the Participant subject to the restriction period, for the amount of R\$ 0.01 per share, under the terms of the Plan.

On April 25, 2022, the Ordinary General Meeting of shareholders approved the creation of the Matching Options Plan, which is part of the context of updating and improving the Company's compensation strategy, with a view to optimizing the alternatives available to compose the structure of incentives for administrators, employees, collaborators, service providers or other holders of strategic positions in the Company.

The Matching Options Plan offers potential eligible beneficiaries the option of voluntarily joining the Plan and its programs, following the model for granting purchase options. In summary, the Matching Options Plan governs minimum investments in the Company by the Participants, through the acquisition of shares issued by the Company, which may be linked to the granting of options, by the Company to the participant, that guarantee the right to acquire, in the future, a certain number of shares issued by the Company.

It should be noted that the Matching Options Plan will be managed by the Board of Directors (which may appoint a committee to advise it, delegating powers to this administration), and it is responsible, among other things, to approve the creation of programs, decide participants among the eligible persons and establish the conditions of each grant.

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

Finally, it is noted that the Matching Option Plan defines the granting limit, establishing that a maximum number of options may be granted that give participants the right to acquire a maximum number of shares equivalent to 3% (three percent) of the total number of shares issued by the Company, on a fully diluted basis, pursuant to the Matching Option Plan.

20. Segment reporting

- (i) Refers to the mark-to-market of the Company's financial instruments to hedge against foreign exchange exposure. The variation between the comparative periods is linked to the appreciation/devaluation of the Real against other currencies.

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

24. Earnings per share

a) Earnings per share

The Company's basic earnings per share are calculated by dividing the profit (loss) attributable to the Company's shareholders by the weighted average number of common shares issued during the period, excluding common shares purchased by the Company and held as treasury shares:

Basic	<u>06/30/2022</u>	<u>06/30/2021</u>
Net income attributable to Company's shareholders	539,264	376,216
Weighted average number of common shares issued (thousands)	607,283	549,634
Weighted average number of treasury shares	(23,053)	(23,053)
Weighted average number of outstanding common shares (thousands)	584,230	526,568
Basic earnings per share - R\$	0.92303	0.71445

b) Diluted earnings per share of the Company

The Company's diluted earnings per share is calculated by adjusting the weighted average number of common shares outstanding, assuming the conversion of all potential common shares that would cause dilution. The Company has only one category of potential common shares that would cause dilution:

Diluted	<u>06/30/2022</u>	<u>06/30/2021</u>
Net income attributable to Company's owners	539,264	376,216
Weighted average number of outstanding common shares (thousands)	584,230	526,581
Weighted average number of common shares used to calculate basic earnings (loss) per share - thousands	584,230	526,581
Diluted earnings per share - R\$	<u>0.92303</u>	<u>0.71445</u>

25. Risk management and financial instruments

The Company's operations are exposed to market risks, mainly in relation to changes in exchange and interest rates, credit and price risks in the purchase of cattle. In its investment management policy, the Company provides for the use of derivative financial instruments to hedge against these risk factors.

Additionally, the Company may also contract derivative financial instruments in order to implement operational and financial strategies defined by the Executive Board and duly approved by the Board of Directors.

Market risk management is carried out through the application of two models, namely: calculation of Value at Risk (VaR) and calculation of impacts through the application of stress scenarios. In the case of VaR, Management uses two different models: Parametric VaR and Monte Carlo Simulation VaR. It is noteworthy that risk monitoring is constant, being calculated at least twice a day.

It is worth mentioning that the Company does not use exotic derivatives and does not have any such instrument in its portfolio.

a. Policy on the treasury's hedging transactions

The management of the Company's hedge policy is the responsibility of the Treasury Department and follows the decisions taken by the Risk Committee, which is composed of members of the Company's Executive Board and employees.

Supervision and monitoring of compliance with the guidelines outlined by the hedge policy are the responsibility of the Executive Risk Management, subordinated to the Presidency and the Risk Committee.

The Company's hedging policy is approved by its Board of Directors and takes into account its two main risk factors: exchange rate and live cattle.

I. Currency hedging policy

The exchange hedge policy aims to protect the Company from currency fluctuations, divided into two segments:

(i) Flow

Flow hedging strategies are discussed daily in the Markets Committee.

The purpose of the flow hedge is to guarantee the Company's operating income and protect its flow of currencies other than the Brazilian Real, with a horizon of up to one year.

Financial instruments available in the market can be used to carry out these hedges, such as: futures dollar transactions on B3, NDFs, funding in foreign currency, options and inflow of funds in dollars.

(ii) Balance sheet

The balance sheet hedge is discussed monthly at the Board of Directors' meeting.

The balance sheet hedge policy aims to protect the Company from its long-term foreign currency indebtedness.

Balance sheet exposure is the flow of US dollar-denominated debt with a maturity of more than one year.

Financial instruments available in the market can be used, such as: cash retention in US dollars, bond repurchase, NDFs, futures contracts on B3, swaps and options.

II. Cattle hedging policy

The cattle hedge policy aims to minimize the impacts of the bovine arroba price fluctuation on the Company's results. The policy is divided into two topics:

i) Cattle forward contracts

With the objective of guaranteeing raw material, mainly for the bovine off-season period, the Company buys cattle for future delivery and uses B3 to sell future contracts, minimizing the directional risk of bovine arroba.

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

Live cattle instruments available on the market can be used, such as: live cattle futures contracts on B3 and options on live cattle futures contracts on B3.

ii) Hedging of meat sold

In order to guarantee the cost of the raw material used in the production of meat, the Company uses the "B3" to purchase futures contracts, minimizing the directional risk of the bovine arroba and locking its operating margin obtained in the act of selling the beef.

Live cattle instruments available on the market may be used, such as: live cattle futures contracts on "B3" and options on live cattle futures contracts on "B3".

Statements of derivative positions:

The tables showing the positions in derivative financial instruments were prepared in order to present those contracted by the Company in the period and year ended June 30, 2022 and December 31, 2021, respectively, according to their purpose (equity protection and other purposes), which fall into Level 2 of the fair value measurement hierarchy, in accordance with the hierarchy of CPC 46:

Description	Asset Heading Position				Cumulative effect in thousand of R\$	
	/thousand		Nocional em thousand of R\$		Amount receivable / (receivable)	Amount payable/ (paid)

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

The reference values are those that represent the base value, that is, the starting value, contracting the operation, for calculating positions and market value.

Fair values were calculated as follows:

- USD futures contracts: the US dollar futures contracts traded on the BM&F have a value of U\$ 50,000 (fifty thousand US dollars) per notional contract and daily adjustment, the fair value is calculated through the product of the "notional" in dollar by the reference dollar for the contract disclosed by B3;
- Finished cattle futures contracts (BGI): Live cattle futures contracts traded on B3 have a value of 330 arrobas, the fair value is calculated through the product of the "notional" in reais per arroba by the reference value for the contract disclosed by B3;
- Short Position Forward Contracts - NDF (Euro): contracts are carried out on the over-the-counter market, therefore they do not have standardization and daily adjustment, their fair value is calculated through the product of the notional value traded and the market rate in force on the date, if loaded to maturity, the PTAX EURO sale published by the Central Bank will be used;
- Short Position Forward Contracts - NDF (Dollar): The contracts are carried out on the "over-the-counter" market, so they do not have standardization and daily adjustment, their fair value is calculated through the product of the notional value traded and the market rate in force on the date, if carried to maturity, the PTAX 800 will be used, sale announced by the Central Bank.

Fair values were estimated at the closing date of the interim financial information, based on "relevant market information". Changes in assumptions and changes in financial market operations may significantly affect the estimates presented.

The mark-to-market of open over-the-counter (OTC) NDF operations, swaps and options on B3 - "Bolsa - Brasil - Balcão" is accounted for in equity accounts. As of June 30, 2022 and December 31, 2021, under the headings "NDF receivable/payable", "swap" and "Options receivable" consecutively:

	06/30/2022	12/31/2021
	Mark-to-market	Mark-to-market
Derivative financial instruments		
Options	3,412	10,606
Swap	1,221,944	1,008,076
NDF (EUR+DOL+LIVESTOCK)	968,513	915,418
Grand Total	<u>2,193,869</u>	<u>1,934,100</u>

b. Currency and interest rate risks

The exchange rate and interest rate risk on loans and financing, financial investments, accounts receivable in foreign currencies arising from exports, investments in foreign currency and other obligations denominated in foreign currency are managed through the use of derivative financial instruments traded on exchanges, or over-the-counter operations such as swaps, Non Deliverable Forwards (NDFs) and options.

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

In the table below, we present the Company's consolidated equity position, specifically related to its financial assets and liabilities, divided by currency and foreign exchange exposure, allowing the visualization of the net position of assets and liabilities by currency, compared with the net position of derivative financial instruments intended to protect and manage the risk of foreign exchange exposure:

	Consolidated 06/30/2022 Currency		
	Domestic	Foreign	Total
Assets			
Cash	553	-	553
Banks - checking accounts	382,658	4,015,539	4,398,197

Options contracts (Dollar, Cattle, Corn and IDI)	8,449	10,606
Swap contracts	998,033	1,008,076
NDF (dollar + EURO + cattle + ARS)	(806,082)	(862,865)
Total net	<u>(35,302)</u>	<u>(23,157)</u>

Financial assets and liabilities are represented in the individual and consolidated interim financial information for the period and year ended, respectively, on June 30, 2022 and December 31, 2021 at approximate market values, with the respective income and expenses being appropriated and are presented on these dates in accordance with their expectation of realization or settlement.

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

It should be noted that the amounts related to export orders (firm sales commitments) refer to approved customer orders not yet invoiced (therefore not accounted for), but which are already protected from the risk of foreign currency variation (dollar or other currency foreign exchange) by derivative financial instruments.

The following are the NDF contracts owned by the Company and in force on June 30, 2022:

Type	Position	Currency	Due date	Notional
NDF	SALE	Dollar	08/01/2022	(377,200)
NDF	PURCHASE	Dollar	09/01/2022	232,600
NDF	SALE	Dollar	10/03/2022	(8,400)
NDF	SALE	Euro	07/07/2022	(107)
NDF	SALE	Euro	09/01/2022	(745)

Credit Risks

The Company is potentially subject to credit risk related to accounts receivable from its customers, which is minimized by the diversification of the customer portfolio, given that the Company does not have a customer or business group that represents more than 10% of its revenue and is based on the concession of loans to customers with good financial and operational indices.

c. Price risks in the purchase of cattle

The Company's line of business is exposed to the volatility of cattle prices, the main raw material, whose variation results from factors beyond Management's control, such as climatic factors, volume of supply, transportation costs, agricultural policies, and others.

The Company, in accordance with its inventory policy, maintains its strategy of managing this risk, operating in physical control, which includes advance purchases, cattle confinement and execution of future settlement contracts (over-the-counter and exchange), which guarantee the realization of their stocks at a certain price level:

Over the counter (OTC) market	06/30/2022
Forward contract purchased	Fair value
Notional value (@)	844,285
Futures Contract Price (R\$/@)	309
Total R\$/1,000	<u>260,768</u>
BM&F Market	06/30/2022
Futures Contracts Sold	Fair value
Notional value (@)	825,000
Futures Contract Price (R\$/@)	331
Total R\$/1,000	<u>272,934</u>

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

d. Demonstration chart of cash sensitivity

The sensitivity analysis charts are intended to separately disclose derivative financial instruments that, in the Company's assessment, are intended to protect against exposure to risks. These financial instruments are grouped according to the risk factor they are intended to protect (price, exchange rate, credit risk, etc.).

The scenarios were calculated with the following assumptions:

- Upward movement: characterizes an increase in prices or risk factors on June 30, 2022;
- Downward movement: characterizes a drop in prices or risk factors as of June 30, 2022;
- Probable scenario: 6% impact; 12% oscillation scenario; and 18% swing scenario.

Below we present the tables showing the sensitivity of cash, considering only the positions in derivative financial instruments and their impacts on cash:

Transaction	Movement	Risk	Probable scenario 6% fluctuation	Possible scenario 12% fluctuation	Remote scenario 18% fluctuation
Hedge Derivatives	High	Cattle	(14,906)	(29,812)	(44,717)
Cattle	High	Cattle	15,646	31,292	46,938
Net			740	1,481	2,221
Hedge Derivatives	High	US Dollar	(191,502)	(383,004)	(574,507)
Invoices + Cash - in US\$	High	US Dollar	205,823	411,645	617,468
Net			14,320	28,641	42,961
Hedge Derivatives	High	Euro	(280)	(560)	(840)
Invoices - in \$EUR	High	Euro	2,863	5,725	8,588
Net			2,582	5,165	7,747
Hedge derivatives	High	US Dollar	40,921	81,841	122,762
Borrowings in \$US	High	US Dollar	(96,353)	(192,706)	(289,060)
Net			(55,433)	(110,865)	(166,298)

- Exchange rate USD 5,2380 - Sales Ptax (Source: Central Bank of Brazil);
- Exchange rate EUR 5,4842 - Sales Ptax (Source: Central Bank of Brazil).

Result of the asset protection framework

- Hedge Derivatives x Cattle: In the probable scenario where the market movement is 6%, the Company could incur a gain of R\$740, while in the scenario with a fluctuation of 12%, a gain of R\$1,481 and a fluctuation of 18 %, R\$ 2,221 gain;
- Hedge Derivatives x Invoices + Cash in US\$: In the probable scenario where the market movement is 6%, the Company could incur a gain of R\$ 740, while in the scenario with a fluctuation of 12% of a gain of R\$ 1,421 and the 18% fluctuation of R\$ 2,221 in gain;

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

- Hedge Derivatives x Invoices + Cash in EUR: In the probable scenario where the market movement is 6%, the Company could incur a gain of R\$ 14,320, while in the scenario with a fluctuation of 12%, a gain of R\$ 28,641 and in the fluctuation of 18%, a gain of R\$ 42,961.
 - Hedge Derivatives and Funding: In the probable scenario where the market movement is 6%, the Company could incur a loss of R\$ 2,582, whereas in the scenario with a fluctuation of 12%, a loss of R\$ 5,165 and a fluctuation of 18 %, loss of R\$ 7,747.
- e. Call margin

In stock exchange operations, there is an incidence of margin calls, and to cover margin calls, the Company uses public and private fixed income securities, such as CDBs, belonging to its portfolio, thus mitigating impacts on its cash flow.

As of June 30, 2022, the amounts deposited in margin represented R\$ 60,000.

26. Statements of comprehensive income (loss)

In compliance with the provisions of CPC 26 (R1) (IAS 1) - Presentation of the individual and consolidated interim financial information, the Company shows below the change in comprehensive income for the periods ended June 30, 2022 and 2021:

	Parent Company		Consolidated	
	06/30/2022	06/30/2021	06/30/2022	06/30/2021

Notes to the individual and consolidated interim financial information
 For the period ended June 30, 2022
 (Amounts in thousands of reais - R\$, unless otherwise stated)

The Company and its subsidiaries maintain coverage for all products transported in Brazil and abroad. The risk assumptions adopted, given their nature, are not part of the audit scope and, consequently, were not examined by the Company's auditors.

The Company has property insurance for buildings for all factories and distribution centers.

28. Events after the reporting period

Issue 12th Debentures

On July 20, 2022, the Company concluded the offering of the 12th issue of simple Debentures, in the amount of R\$1.5 billion, in a single series, maturing in 7 years and yielding NTN-B + 1.03% p.a.

The Company chose to swap the index, so the final cost of the instrument was approximately 113.5% CDI.

The funds obtained from this issue were allocated to activities in agribusiness and relations with rural producers, within the scope of the Company's meat industry and business.

Repurchase and cancellation of bonds

On July 21, 2022, the Company concluded the repurchase and cancellation of another installment of the 2028 and 2031 Bonds, as shown in the table below:

Description	Coupon	Thousand of US\$
Bond 2028	5,875% p.a.	12,758
Bond 2031	4,375% p.a.	55,857

The operation is another step in the management of the Company's financial liabilities, with the aim of reducing the cost of the capital structure. As a result, the Company's Management continues to demonstrate its commitment to financial discipline, in line with our strategy of generating shareholder value.

Complementary Dividends

On August 10, the Company's Board of Directors authorized the payment of complementary dividends in the amount of R\$ 128.1 million or R\$ 0.22/share, related to the accumulated result in the first six months of the year. People registered as shareholders of the Company on the base date of August 17, 2022 will be entitled to the declared dividend, respecting the negotiations carried out until that date, inclusive. The Company's shares will be traded "ex-dividends" as of August 18, 2022, inclusive. The payment of dividends will be made in national currency, in a single installment, on August 29, 2022.
