NOTICE TO THE MARKET

Minerva S.A. ("Minerva" or "Company"), the South American leader in beef exports, informs its shareholders and the market in general that it achieved **100% of socio-environmental compliance** in the states of **Pará, Mato Grosso and Rondônia**, according to the **audit** supervised by the Federal Prosecution Office ("MPF"), the main and most **reliable authority** for verifying the Brazilian production chain.

The initiative **focuses** on analyzing the **legal, environmental and social aspects** of livestock activity, requiring that beef protein producers verify whether the properties with which they conduct negotiations are in **compliance with socio-environmental criteria established in the Monitoring Protocol for Cattle Suppliers in the Amazon**. Therefore, **commitments** made by **Minerva Foods** contribute to **preventing the trade of raw materials** arising from **illegally deforested areas**, land grabbing, slavery-like labor, and the invasion of environmental conservation areas, as well as indigenous and quilombo land.

The result ratifies our commitment to **sustainability**, in the constant pursuit of a **more productive, efficient and sustainable livestock chain**.

The Company is committed to keeping shareholders and the market in general informed on the development of this and any other relevant matters.
