NOTICE TO THE MARKET

Minerva S.A. ("Minerva" or "Company"), the South American leader in beef exports, hereby informs its shareholders and the market in general that *Servicio Nacional de Calidad y Salud Animal*, in Paraguay, has announced the opening of the Canadian market to the export of Paraguayan beef. The Canadian Food Inspection Agency (CFIA) has authorized 3 Minerva Foods' beef slaughter plants in Paraguay – namely Frigomerc, San Antonio, and Belén – to export to Canada, totaling a slaughter capacity of approximately 6.3 thousand head/day.

In addition to being a **high-income** market with a strong **consumption** capacity, Canada also has one of the most demanding and strictest sanitary and quality controls in the global beef protein market, thus attesting to the **healthiness** of Paraguayan **beef production**.

The approval of Paraguayan beef exports to Canada is another crucial step for the country's producers, thereby expanding the reach of Paraguayan beef in the global market, maximizing our arbitration capacity into premium markets.

The Company is committed to keeping shareholders and the market in general informed of the development of this and any other relevant topics.

Barretos, May 13, 2024.
