NOTICE TO THE MARKET

Minerva S.A. ("Minerva" or "Company"), the South American leader in beef exports, hereby informs its shareholders and the market in general that **MyCarbon**, a Company subsidiary, **was responsible for selling 20% of all carbon credits** traded in the Public Investment Fund of Saudi Arabia's first voluntary market auction ("Market"). This was the first voluntary carbon market initiative in the region, enabling the **sale of over one million tons** of greenhouse gases as **audited** and **certified** carbon **credits**.

Founded in 2021, **MyCarbon** develops and sells carbon credits under **international standards**, creating financial opportunities for **environmental preservation and regenerative agriculture**, helping companies foster business **decarbonization**. As a matter of fact, decarbonization is one of Minerva Foods' **strategic pillars**, since it is publicly committed to becoming **net-zero by 2035**. As part of the initiatives to achieve this goal, the Company created the **Renove Program ("Renove")**, which engages and supports cattle raisers in implementing **low-carbon practices**, with focus on the development of **carbon neutral certified** products.

Minerva Foods **reinforces** its commitment to **sustainability**, one of the **pillars** of our **business** model, through the Renove program and MyCarbon, in **constant pursuit** of a more productive, efficient, **sustainable** and **low-carbon livestock** chain.

The Company clarifies that it will keep its shareholders and the market in general informed of the developments of this and any other relevant topics.
