Destaques

4T25 | 2025

EBITDA Ajustado e Recorrente Pro Forma
R\$ 2,47 bilhões em 2025, considerando 49% do EBITDA da LD Celulose via equivalência patrimonial.

Rec. Líquida Recorrente e Margem Bruta

R\$ milhões / %

Divisão de **Revestimentos** continua absorvendo os impactos do alto nível de estoque na indústria e na deterioração dos preços, fatores que pressionaram os resultados do 2S25;

Os resultados na divisão de **Metais e Louças** continuaram dentro das nossas expectativas no 4T25, ponderadas as sazonalidades da indústria, com ganhos efetivos decorrentes de melhor mix de produtos e reajuste de preços;

Mais um trimestre de resultados consistentes na Divisão **Madeira**, impulsionados por forte demanda por painéis;

LD Celulose com EBITDA Recorrente de R\$ 350 milhões no 4T25 e margem de 45%, sendo R\$ 171 milhões a parte da Dexco;

EBITDA Ajustado e Recorrente de R\$ 588 milhões, considerados os efeitos de equivalência patrimonial da LD Celulose. Excluídos esses efeitos, a Dexco apresentou no 4T25 EBITDA de R\$ 416 milhões e margem de 19,9%.

Fluxo de Caixa

4T25 | 2025

- Aumento do nível de estoques em Metais buscando melhora na qualidade de serviço aos clientes, níveis de estoques ainda altos na divisão de Revestimentos e interrupção pontual do programa de risco sacado no 2T25 acarretaram na maior necessidade de capital de giro durante o ano de 2025;
- Ambiente de juros elevados segue pressionando o patamar de despesas financeiras, com impacto negativo na linha de Fluxo Financeiro;
- Geração de R\$ 136 milhões no 4T25 e R\$ 191 milhões no acumulado de 2025 de Free Cash Flow Sustaining, revertendo um ciclo de consumo de caixa operacional ocorrido no 1º semestre do ano.
- Redução na linha Projetos em 23% em comparação ao ano anterior, dando fim ao ciclo de Investimentos 2021-2025.

Fluxo de Caixa Livre 2025

R\$ milhões

(1) Em 2025 foi realizado uma realocação entre linhas referente ao ativo biológico, indo da linha "outros" para a linha "capital de giro". Assim, para fins de base comparativa, foram replicadas as métricas também para o ano de 2024.

(1) Manutenção, modernização fabril e sustentação do negócio.

Endividamento

4T25 | 2025

- Bem sucedido plano de *Liability Management*, com redução do custo médio da dívida e alongamento de prazo médio, eliminando as necessidades de captação da companhia até o final de 2029;
- A redução de 0,13x na alavancagem mostra os primeiros sinais da companhia em focar na redução de sua dívida financeira para patamares mais coerentes com o cenário econômico atual de juros e a capacidade de geração de caixa operacional da Dexco;
- Emissão de Debentures de R\$ 1,5 bilhão, concluída em 24 de Outubro de 2025 e CPR's (Cédulas de Produto Rural) de R\$ 1,6 bilhão, concluídas em 19 de Janeiro de 2026. Tais emissões geraram um aumento no prazo médio da Dexco em 1,4 anos e um barateamento no custo da dívida, além de reduzir as obrigações de curto prazo da companhia de 27% para 8% do endividamento total.
- Endividamento líquido ainda impactado pelo final do Ciclo de Investimentos 2021-2025, porém já demonstra recuo quando comparado ao 3T25.

Ambiente Setorial

Metais e Louças

Dados ASFAMAS combinados¹

1 – A partir do 2T25, a Companhia passou a reportar os dados setoriais com base na análise de dados disponibilizados pela ASFAMAS (Associação Brasileira dos Fabricantes de Materiais para Saneamento) em conjunto com estimativas internas.

- Sinais de estabilização ao longo de 2025 (ajustado por sazonalidade), com recomposição de preços sustentando Louças e mix competitivo em Metais (maior presença de importados) moderando a receita.
- Pressão nos custos (principalmente matérias primas), estoque e taxa de juros elevadas limitam o potencial desses setores, que são altamente vinculados a indústria da construção civil.

Resultados

Metais e Louças

- 4T25 em linha com as expectativas, ponderados os impactos de sazonalidade do setor, férias coletivas, manutenção programada dos parques fabris e aumento do custo de matérias primas;
- Evolução da Receita Líquida Unitária, com alta de 10,2% no 4T25 e 20,2% em 2025, em comparação aos mesmos períodos do ano anterior, refletindo a implementação de preços e a priorização de um mix mais nobre de produtos;
- EBITDA anual impactado pela inflação de matéria prima e desafios de eficiência operacional em Louças;
- EBITDA Ajustado e Recorrente de R\$ 23 milhões, ponderados os impactos de sazonalidade do trimestre, ainda sim capturando (i) bom mix de produtos; (ii) ganho de Market Share e (iii) implementação de preços.

Dexco 75 anos

Plano de Transformação

Em 2026, a Dexco comemora seus 75 anos de história focada na continuidade da execução de seus cinco projetos prioritários:

Desalavancagem
Financeira

Go To Market

Turnaround
Revestimentos

Inovação
Madeira

Competitividade
Metais & Louças

PERSPECTIVAS 2026

dexco

deca portinari hydra duratex castelatto ceusa durafloor

Perspectivas 2026

Desalavancagem Financeira	Turnaround Revestimentos	Competitividade Metais e Louças	Inovação Madeira	LD Celulose	Go To Market
• Iniciativas estratégicas envolvendo ativos operacionais e não operacionais da Companhia; • Expectativa de redução da alavancagem financeira a um patamar próximo de 2.7x Dívida Líquida / Ebitda (Final 2026)	• Revestimentos passará por um ano desafiador, de execução na melhoria do mix de produtos e canais, ganhos de eficiência operacional e foco na geração de caixa;	• Exercer liderança de preços com foco em mercados alvo; • Melhor custo operacional via automação de louças, otimização operacional e de ativos.	• Expectativa de manutenção de demanda aquecida no mercado de painéis; • Geração de Negócios complementares ao negócio de painéis de madeira por meio da DNF.	• LD Celulose segue com expectativa de mais um ano de alta produtividade e ótimo desempenho operacional.	• Crescimento gradual de novas lojas Casa Dexco no modelo de franquias. • Implementação de um plano estruturado, com visão abrangente de crescimento e maior foco no top line, incluindo estratégia de canais e portfólio, gestão de performance e iniciativas de RGM.

Highlights

4Q25 | 2025

Pro-forma Adjusted & Recurring EBITDA of **R\$ 2,47 billion for 2025**, including the 49% of EBITDA from LD Celulose.

Rec. Net Revenue & Gross Margin

R\$ million / %

Adjusted & Recurring EBITDA & Margin

R\$ million / %

Recurring Net Income

R\$ million

- The **Tiles** Division continued to be impacted by high inventory levels across the industry and ongoing price deterioration, which pressured results in 2H25.
- Results in the **Metals and Sanitary Ware** Division were in line with expectations in 4Q25, considering the usual industry seasonality, with effective gains driven by an improved product mix and implemented price adjustments.
- Another quarter of solid performance in the **Wood Division**, supported by strong panel demand;
- **LD Celulose** reported Recurring EBITDA of R\$ 350 million in 4Q25, with a 45% margin, of which R\$ 171 million corresponds to Dexco's share.
- Adjusted and Recurring EBITDA of R\$ 588 million, including equity income effects from LD Celulose. Excluding these effects, Dexco reported 4Q25 EBITDA of R\$ 416 million, with a 19.9% margin.

Cash Flow

4Q25 | 2025

- Higher inventory levels in the Metals Division, aimed at improving service levels to customers, continued elevated inventory levels in the Tiles Division, and the temporary suspension of the reverse factoring program in 2Q25 led to a greater working capital requirement throughout 2025;
- The high-interest rate environment continued to pressure financial expenses, negatively impacting the Financial Result;
- Sustaining Free Cash Flow generation of R\$ 136 million in 4Q25 and R\$ 191 million in FY2025, marking a reversal of the operating cash consumption cycle seen in the first half of the year;
- 23% year-over-year reduction in Projects, signaling the completion of the 2021–2025 investment cycle.

Free Cash Flow FY2025

R\$ million

(1) In 2025, a reclassification was carried out between line items, related to biological assets, from other assets to working capital. The 2024 metrics were restated for comparability purposes.

1 – Maintenance, factory modernization and business sustaining.

Corporate Debt

4Q25 | 2025

- The Liability Management plan was successfully executed, reducing the average cost of debt and extending the Company's average maturity profile, effectively eliminating funding needs through the end of 2029.
- The 0.13x decrease in leverage signals the Company's first moves toward repositioning its financial debt at levels consistent with the current interest rate environment and Dexco's operating cash flow generation.
- The issuance of R\$ 1.5 billion in Debentures, completed on October 24, 2025, and R\$ 1.6 billion in Rural Product Notes (CPRs – Cédulas de Produto Rural), completed on January 19, 2026, extended Dexco's average debt maturity by 1.4 years and reduced the average cost of debt. These transactions also decreased short-term obligations from 27% to 8% of total indebtedness.
- Net debt is still influenced by the final stage of the 2021–2025 investment cycle yet has already begun to decline versus 3Q25.

Sector Environment Tiles

Based on ANFACER data

Capacity utilization in the sector over time

In %*

* Quarterly average

- Excess installed capacity across the industry continues to keep inventory levels high, further increasing price pressure in an already highly competitive environment.
- In 2025, the wet process tiles market remains 20% below the post-pandemic peak observed in 2021.
- With demand stable since 2023, the wet-process market continues to drive a slow inventory reduction and elevated idle capacity in the industry.

Ceramic Tiles sector sales volumes 2021-2025 / Wet process
In millions l m²

Results Tiles

- Quarterly performance was affected by the competitive dynamics of the industry;
- The Division is repositioning its sales channels and product mix toward higher value-added segments, with a clear focus on cash generation, pricing discipline and production footprint optimization.
- Adjusted and Recurring EBITDA was negative R\$ 6.3 million in the quarter, reflecting the still challenging industry conditions.

Sector Environment Metals & San. Ware

Combined ASFAMAS Data¹

¹ As of 2025, the Company began reporting industry data based on information provided by ASFAMAS (Brazilian Association of Manufacturers of Sanitary Materials), combined with internal estimates..

- Signs of stabilization throughout 2025 (seasonally adjusted), with price recovery supporting Sanitaryware and a more competitive mix in Metals, driven by higher imports, moderating revenue performance.
- Cost pressures, particularly from raw materials, along with elevated inventory levels and interest rates, continue to constrain the upside potential of these segments, which are highly exposed to the construction industry.

Results

Metals & Sanitary Ware

- 4Q25 results were in line with expectations, considering the seasonal impacts typical of the sector, including collective vacations, scheduled maintenance shutdowns, and higher raw material costs.
- Unit Net Revenue evolution continued to improve, increasing by 10.2% in 4Q25 and 20.2% in 2025 compared to the same periods of the prior year, reflecting price implementation and a strategic shift toward a more premium product mix.
- Annual EBITDA impacted by raw material inflation and operational efficiency challenges in Sanitary Ware.;
- Adjusted and Recurring EBITDA of R\$ 23 million, considering seasonal effects in the quarter, while still capturing (i) a favorable product mix, (ii) market share gains, and (iii) price implementation.
