MATERIAL FACT

Orizon Valorização de Resíduos S.A. ("Company" or "OrizonVR"), pursuant to the provisions of Article 157, Paragraph 4, of Law 6,404 of December 15, 1976, as amended, and the CVM Resolution 44, of August 23, 2021, hereby informs to the shareholders and the market in general, in continuity with the Material Fact disclosed on May 2, 2022, that the National Electric Energy Agency ("ANEEL") published on June 29, 2022, via Order 1735/2022 the release of last generating unit of UTE Paulínia Verde S.A. ("UTE Paulínia") in which the Company holds a 33.33% stake, confirming the complete starting of commercial operation of project as of June 30, 2022 with supply of the total volume of 15.7 average MW in compliance with the contract signed under the 2021 Simplified Competitive Procedure, carried out on 10/25/2021.

In parallel with the construction of UTE Paulínia, the Company implemented a biogas purification plant for biomethane production through its wholly owned subsidiary Orizon Biometano Paulínia Ltda. Both units were built in extraordinary time, proving the execution capacity for Company's new projects.

UTE Paulínia and Orizon Biometano Paulínia Ltda. are the first two assets of Orizon Energia e Gás Renovável Ltda. ("OEGR"), a holding company created by OrizonVR to exploit the generation of energy and biomethane from the biogas generated in its landfills or those of third parties.

The Company estimates that OEGR will deploy at least 10 (ten) new energy and/or biomethane generation plants from biogas over the coming years in existing landfills contributing with a relevant role for the transition of the Brazilian energy matrix.

OrizonVR will keep its shareholders and the market in general updated on the progress of the events covered in this notice.

São Paulo, July 1st, 2022
