

INTEGRATED MANAGEMENT SYSTEM POLICY

SLC AGRÍCOLA, one of the world's largest grain and fiber producers, with production concentrated in cotton, soybeans and corn, and with units located in the states of Mato Grosso, Mato Grosso do Sul, Goiás, Bahia, Maranhão and Piauí, is committed to ensuring safe and healthy working conditions to prevent occupational injuries and diseases and to protecting the environment in all aspects to cause a positive impact on future generations, as the global leader in agricultural efficiency and respect for the planet.

Our Commitments

- » Continually improve our processes and management systems to support our Big Dream.
- » Satisfy all legal requirements and any other applicable requirements and expectations of our stakeholders related to health and safety, as well as the environmental and social aspects of the company.
- » Prevent pollution.
- » Eliminate hazards and reduce occupational risks.
- » Prevent adverse impacts.
- » Achieve sustainable development and results by:
 - › setting and meeting the strategic goals planned by **SLC AGRÍCOLA**, whether related to quality, environmental, social or occupational aspects.
 - › involving, respecting the interests of, consulting and working with stakeholders.
 - › respecting human rights.
 - › upholding the principles of accountability, transparency and ethical conduct.
 - › complying with the international norms of behavior.
- » Informing stakeholders, especially those that perform any kind of activity that involves **SLC AGRÍCOLA**, of the need to comply with internal rules and those related to quality, social responsibility, the environment and occupational health and safety.
- » Acting with integrity, having passion for what we do and building lasting relationships that pursue sustainable results.
