(1) Attributable to controlling shareholders. | (2) ROE (Return on Equity) considering annualized Net Income. | (3) Calculated based on the closing price of Itaúsa's preferred shares (ITSA4) on 06.30.2026 and 06.30.2025 (without adjustments for dividends). | (4) Considers the closing prices on 06.30.2026 and 06.30.2025 of the most liquid shares of Itaú Unibanco (ITUB4), Dexco (DXCO3), Alparagatas (ALPA4) and Motiva (MOTV3) (without adjustments for dividends), the investment amount of Copa Energia on 06.30.2026 and 06.30.2025, the fair value of NTS on 06.30.2026 and 06.30.2025, in addition to the other assets and liabilities recorded in Itaúsa's parent company's balance sheet, as of 06.30.2026 and 06.30.2025. Regarding Aegea Saneamento, the carrying amount of the investment on 06.30.2025 was considered and, on 06.30.2026, the estimated market value of the common shares of Aegea held by Itaúsa based on the capital increase transaction completed in Mar/26, added to the carrying amount on 06.30.2026 of the preferred shares of Aegea held by Itaúsa. | (5) According to market convention, the Dividend Yield refers to the last 12 months and is calculated on gross earnings adjusted for corporate events (such as subscription and bonus shares). | (6) Calculated based on the closing price of Itaúsa's preferred shares (ITSA4) on 06.30.2026 and 06.30.2025 (adjusted for dividends). | (7) Due to the restatement of Aegea's results, we adjusted this investee's result and Itaúsa's managerial result for 2Q25 and 1H25 (further information in section 1.1 of this document).

Highlights

- **Recurring Net Income and ROE:** Net Income went up 7% compared to 2Q25 and ROE of 18.7%, reflecting the solid performance of the investees and the holding company's capital allocation discipline.
- **Share Buyback Program:** approved and completed in May, totaling 5 million preferred shares to be used under the Long-Term Incentive Plan, at an average price of R\$12.98 per share.
- **Interest on Capital:** payment of R\$2.3 billion, net (R\$0.20955 per share), on 08.28.2026, based on the declarations of 03.16.2026 and 06.15.2026.
- **Dividends received:** receipt of extraordinary dividends and interest on capital in the net amount of R\$0.9 billion from Itaútec, a wholly-owned non-operating subsidiary, related to the successful outcome of judicial and administrative proceedings.
- **Capital Increase in Aegea:** a capital increase in Aegea in the total amount of R\$2.1 billion was approved in August, with Itaúsa's investment amounting to R\$732 million, raising its equity interest in the investee's total capital from 13.27% to 14.01%. In addition,

in July, a Capitalization and Equity Interest Adjustment Agreement was entered into, establishing a mechanism to protect the return on the investment through the increase of Itaúsa's interest in Aegea under certain conditions.

- **Acquisition of Alpargatas shares:** increase in the equity interest in Alpargatas' total capital with a total investment of R\$97 million since 4Q25, reaching 30.62% of the investee's total capital (excluding treasury shares).
- **Rating reaffirmation:** S&P Global reaffirmed Itaúsa's AAA rating, with a stable outlook, highlighting its robust liquidity position and the ongoing improvement in its debt profile.
- **People, ethics and integrity:** for the 6th consecutive year, Itaúsa obtained the Great Place To Work (GPTW) certification and was recognized as a Pró-Ética ("Pro-Ethics") Company in the 2025-2026 cycle, reaffirming our commitment to valuing people and to the best governance, ethics and integrity practices.

Management Commentary

"Consistent results and a resilient portfolio in an environment of economic transition and greater global volatility.

The second quarter of 2026 was marked by the continuation of the monetary easing cycle in Brazil, which began in the first quarter, reflecting the more favorable inflation path and the pursuit of stimulus to economic activity. Despite the gradual reduction in the basic interest rate, the environment was still characterized by restrictive financial conditions and caution among economic agents. In the international scenario, uncertainties persisted regarding global growth, the trade policies of the main economies and the development of geopolitical tensions in different regions, keeping volatility levels high in the financial markets and impacting investment decisions.

Alfredo Setubal
CEO and IRO

Even in this context, we continued to execute our strategy of sustainable value creation, supported by discipline in capital allocation and the active management of our portfolio. Our recurring net income reached R\$4.3 billion in the second quarter of 2026 (up 7% vs. 2Q25) and our recurring ROE reached 18.7% (a 0.4 p.p. increase). This result mainly reflects the improved results of Itaú Unibanco (+8.5%), in addition to the increasing results of Motiva (+67%), Alpargatas (+86%) and Copa Energia (+17%).

Itaú Unibanco posted robust results, with growth in the loan portfolio in Brazil and Latin America, healthy NPL ratios and progress in Insurance and Pension Plans. Among the non-financial investees, Motiva, Alpargatas and Copa Energia recorded revenue expansion and operating gains. Aegea, despite its strong operating growth, had its result pressured by a worse financial result. At Dexco, despite the increasing performance of the Wood and Metals and Sanitary Ware Divisions and the progress in deleveraging, results were impacted by the Dissolving Wood Pulp segment with the drop in pulp prices, in addition to the sector challenges in Ceramic Tiles. The results of the investment in NTS were impacted, compared to the previous year, by the negative change in the fair value of the asset.

Efficient capital allocation and value creation.

We advanced in another relevant stage of our investment strategy with the capitalization of Aegea and the execution of the Capitalization and Equity Interest Adjustment Agreement. The transaction strengthens our position in the asset and expands the value capture mechanisms in a sector with attractive growth prospects. We also continued to increase our equity interest in Alpargatas, with an investment of R\$97 million since the fourth quarter of last year, reaching 30.62% interest in the investee. These moves are aligned with our efficient capital allocation strategy, reaffirming our ongoing commitment to creating value for shareholders, investees and society. In May, S&P Global reaffirmed Itaúsa's AAA rating, with a stable outlook, reflecting our robust liquidity position, the ongoing improvement of our debt profile and our ability to maintain financial flexibility.

People, ethics and integrity.

In the quarter, we also received important recognition related to our culture and our governance practices. For the sixth consecutive year, we obtained the Great Place To Work (GPTW) certification and we were again recognized as a Pró-Ética ("Pro-Ethics") Company in the 2025-2026 cycle, reaffirming our commitment to valuing people and to the best governance, ethics and integrity practices.

In an environment that requires adaptability and a long-term vision, we remain committed to the active management of our portfolio and to efficient capital allocation, directing resources to opportunities that strengthen our investees and our growth potential. The combination of financial discipline, the operational excellence of our investees and strategic capital decisions will continue to be a hallmark of Itaúsa's performance."

1. Itaúsa's Operational and Financial Performance

1.1. Individual Result of Itaúsa

As a holding company that invests in operating companies, our result is composed of Equity in the Earnings of Investees, calculated from the net income of our investees, of the result of investments in financial assets measured at fair value (as is the case of NTS) and of the result of any disposals of assets from our portfolio. Our recurring individual results are presented below (non-recurring items are detailed in the table "Reconciliation of Recurring Net Income" in section 1.6 of this document).

(1) Attributable to controlling shareholders. | (2) It considers the equity in the earnings of the equity interest directly held in Itaú Unibanco Holding and indirectly held through the 66.53% interest in the capital of IUPAR – Itaú Unibanco Participações S.A., whose sole investment is the equity interest in Itaú Unibanco. | (3) In the first quarter of 2026 there was a positive effect of R\$93 million in the equity in the earnings of Aegea as a result of the capitalization carried out by Itaúsa and GIC. Aegea's results for the first quarter of 2025 were restated to reflect the accounting adjustments arising from revisions of accounting policies and reassessments of estimates, which were reflected in Itaúsa's managerial statement above, for better comparability. | (4) Composed of Itaútec and ITH Zux Cayman. | (5) It refers mainly to the amortization of goodwill allocated in the PPAs (purchase price allocation) of the investments in Motiva, Aegea Saneamento, Alparagatas, Copa Energia and Itaú Unibanco. | (6) Essentially composed of PIS and COFINS (according to explanatory notes no. 20 and no. 21).

IUPAR's Tax Expense: Itaú Unibanco's results shown above include the tax expenses of PIS and COFINS on IUPAR's Interest on Capital, which totaled R\$71 million in 2Q26 (vs. R\$48 million in 2Q25) and R\$140 million in 1H26 (vs. R\$147 million in 1H25).

Accounting adjustments - Aegea: In April, Aegea released its audited Financial Statements for the year ended 12.31.2025, which reflected accounting adjustments arising from revisions of accounting policies and reassessments of estimates that required the restatement of prior years. In August, Aegea released its audited Financial Statements for the second quarter of 2026, in which it restated the results for the second quarter of 2025 to reflect said adjustments.

Management Report 2nd quarter of 2026

Due to the restatement of Aegea's results, we have adjusted Itaúsa's managerial results for better comparability and present below the reconciliation of the lines that were changed in Itaúsa's Individual Managerial Results for 2Q25 and 1H25.

1.2. Recurring Result of investees recorded by Itaúsa (2Q26 vs. 2Q25)

Recurring result from investees, recorded in our result for the 2Q26, totaled **R\$4.6 billion**, up **7%** on a year-over-year basis, mainly due to the better result of Itaú Unibanco (+9%), in addition to the increasing results of Motiva (+67%), Alpargatas (+86%) and Copa Energia (+17%).

- Solid results, with sustainable growth of the loan portfolio, maintaining a quality trajectory in origination. The consolidated NPL ratio remained at the best historical levels, reflecting the prudent credit strategy adopted by the bank. Growth in commissions and fees and insurance revenues was driven by the insurance, pension plan and premium bonds business.
- Efficiency Ratio at 37.4% in consolidated figures and 35.5% in Brazil (managerial model under BR GAAP), reflecting productivity gains and the ongoing capture of efficiency arising from the technology investments made in recent years.
- Profitability growth in Brazil and in consolidated figures.
- Robust capital (Tier I at 13.8%, above the 9.6% minimum), supported by organic capital generation and a prudent resource management policy.

DEXCO

- Operational performance driven by the Wood and Metals and Sanitary Ware Divisions, which contributed to revenue growth and EBITDA expansion in the period, offsetting the decrease at LD Celulose, due to the lower price of dissolving wood pulp and exchange rate variation. The Ceramic Tiles Division continues to face a challenging competitive scenario, despite the slight improvement in its results in the quarter.
- Net Income was adversely impacted by the lower contribution of the dissolving wood pulp joint venture, partially offset by lower general and administrative expenses, reflecting efficiency initiatives.
- Leverage is falling, evidencing the progress in the company's deleveraging process.

- Result positively impacted by revenue growth, reflecting a higher volume of pairs sold and a higher average ticket per pair in the period, with a better mix of products and channels in Brazil, in addition to the better performance of the international operations.
- Significant EBITDA increase, driven by better gross margin and lower expenses in the operations.
- Net income expansion reflects better operational performance.
- Consistent cash generation in the period, with leverage at an adequate level.

motiva

- Revenue growth is driven mainly by the start of operation of new assets in the portfolio, in addition to tariff adjustments and solid operational performance, with traffic growth in the highway and rail platforms.
- EBITDA and Net Income growth, reflecting portfolio optimization and the good performance of the new assets, in addition to tariff adjustments, higher traffic and the start of the new operations.
- Increase in CAPEX directed to capacity expansion works following the construction schedule, with a slight increase in leverage due to the addition of new assets.

cegea

- Revenue and result of operations driven by higher billed volume, contractual tariff adjustments and the start of the new operations in Pará and Piauí, with strong expansion of the EBITDA margin.
- Improvement in the result of operations driven mainly by higher net revenue and lower costs and expenses.
- Net income remains pressured by the impact of higher financial expenses due to the leverage level and the higher average Selic rate in the period.

COPA energia

- EBITDA growth driven by the effectiveness of the commercial strategy, offsetting the slight volume reduction in the period.
- CAPEX increased, mainly due to the investments allocated to the acquisition of containers.
- Net Income positively impacted by the better operational performance, as described above.
- Operating cash generation and the lower gross debt level contributed to the reduction in leverage.

ntr

- Result of operations pressured by negative adjustments to contracts indexed to IGP-M and by the impact of a contract expiration.
- Net Income adversely impacted by the result of operations in the period and higher financial expenses.
- CAPEX expanding, as part of its network expansion strategy.
- The results of the investment in NTS, recorded as a “financial asset” in our balance sheet, were impacted, compared to the previous year, by the negative change in the fair value of the asset in the quarter.

1.3. Itaúsa's Own Result

Administrative Expenses totaled **R\$45 million**, up 7% compared to 2Q25, mainly reflecting higher charges related to the long-term incentive program (LTI), as a result of the appreciation of the ITSA4 share in the period, as well as the entry into force of a new LTI program. In 1H26, administrative expenses totaled R\$89 million, up 9% compared to the same period of 2025, for the same reasons as the quarterly variation.

Tax Expenses reached **R\$163 million** in 2Q26, up 42% over 2Q25, due to higher PIS and COFINS expenses levied on the Interest on Capital declared by the investees, mainly by Itaú Unibanco, in addition to the impact of the partial reversal of the PIS and COFINS provision in 2Q25 that had been recognized in 1Q25. In 1H26, tax expenses totaled R\$318 million, down 4% compared to the same period of the previous year, due to a higher provision of PIS and COFINS on Interest on Capital payable by Itaú Unibanco in 1H25, which did not occur in 1H26.

Contributions to **Instituto Itaúsa** totaled **R\$11 million** in 2Q26 and in 1H26 (vs. R\$13 million in 2Q25 and 1H25). In the quarter, R\$7 million was allocated by the Institute to environment-related projects, R\$3 million to productivity and sustainability and R\$1 million to administrative and tax expenses.

1.4. Financial Result

The **Financial Result** reached **-R\$62 million** in 2Q26, 13% worse compared to the same period of the previous year. The performance rises from lower financial revenue compared to 2Q25, reflecting a lower average cash balance in the period due to the balance applied to the reduction of indebtedness, almost entirely offset by the reduction in financial expenses as a result of the lower debt level. This improvement in financial expenses is the result of the liability management initiatives implemented, which reduced gross debt and its average cost even with a higher interest rate level.

Management Report

2nd quarter of 2026

In 1H26, the financial result reached R\$140 million, up 17% compared to that reported in 1H25, explained by the same reasons as the quarterly variation.

Evolution of the Financial Result 2Q25 vs. 2Q26

Evolution of the Financial Result 1H25 vs. 1H26

1.5. Recurring Net Income

In 2Q26, Recurring Net Income totaled **R\$4,306 million, up 7%** compared to 2Q25, contributing to a Recurring ROE of 18.7% (up 0.4 p.p.). The performance mainly reflects the higher recurring result of Itaú Unibanco (+8.5% or +R\$350 million) and the increasing results of Motiva (+67% or +R\$28 million), Alpargatas (+86% or +R\$25 million) and Copa Energia (+17% or +R\$15 million), despite the worse result of NTS, Dexco and Aegea and of Itaúsa's Own Result, impacted by higher tax expenses.

In 1H26, Recurring Net Income was R\$8,797 million, 12% higher than the previous year due to the higher recurring result of Itaú Unibanco (+9.6% or +R\$779 million) and the better result of the non-financial sector (+32% or +R\$143 million).

1.6. Non-Recurring Effects

Net Income for 2Q26 was affected by non-recurring events that totaled a positive effect of R\$938 million, mainly explained by the extraordinary revenue arising from the successful outcome of judicial and administrative proceedings by Itaútec. In 1H26, non-recurring effects totaled R\$857 million, the main positive effects being at Itaútec (+R\$851 million) and at Motiva (+R\$78 million) due to a bargain purchase gain in the Minas-SP (Fernão Dias) concession, partially offset by the negative effect at Itaú Unibanco (-R\$131 million) related to extraordinary provisions.

2. Breakdown of Capital and Indebtedness

The liability management strategy, started in the 4th quarter of 2022, consistently contributed to the reduction of indebtedness, of the average cost and of the debt service, as well as to the extension of the average term of the debt and the decrease in the concentration of amortization. In addition, this strategy ensured the preservation of liquidity levels and mitigated refinancing risks throughout the period.

Net debt ended 2Q26 at R\$1.2 billion, up R\$0.6 billion compared to 2Q25, mainly reflecting the reduction in the cash balance in the period (-50% vs. 2Q25). This movement arises mainly from the amortization of R\$2.5 billion of debt and the capital contribution made in Aegea in 1Q26.

(1) Pro forma 2Q25 (after prepayment of the 4th debenture issuance).

2.2. Cash and Repayment Schedule¹

We ended the quarter with a comfortable cash position of R\$2,191 million, combined with a very healthy debt repayment schedule. As a result of the liability management initiatives implemented by the company in recent years, there is no principal debt maturity until 2028, mitigating any liquidity and refinancing risks.

(R\$ million)

(1) It does not include possible payment of tax liabilities recorded.

2.3. Cash Flows

We ended 2Q26 with a cash balance of R\$2,191 million, up R\$355 million compared to 12.31.2025. The positive variation was mainly due to the receipt of earnings from the investees (+R\$1,798 million). In the quarter, there was also cash consumption with the payment of earnings to shareholders (-R\$640 million), the capital contribution in Aegea, the purchase of Alpargatas shares and other investments made (-R\$500 million), in addition to taxes, share buyback and interest (-R\$325 million).

(R\$ million)

(1) It considers revenue arising from the return on cash and general and administrative expenses, among others.

3. Return to Shareholders

3.1. Earnings Inflow on the base period of the fiscal year

Dividends (net) declared by the investees to Itaúsa for fiscal year 2026 totaled **R\$2,848 million**, of which **R\$2,797 million** from Itaú Unibanco.

In 1H26, Itaúsa declared dividends (net) of **R\$2,797 million** to its shareholders. Our earnings distribution practice has been, to date, to fully pass on the earnings received from Itaú Unibanco for each fiscal year.

3.2. Dividends declared and dividend yield

Shareholders with a shareholding position in Itaúsa in the last 12 months ended on 06.30.2026 were entitled to receive R\$14.7 billion (R\$13.7 billion, net) in declared earnings. This amount corresponds to R\$1.1470 (gross) per share which, when divided by the price of the preferred share on 06.30.2026, results in a dividend yield of 9.8%, one of the highest among the shares traded on B3.

(1) It considers earnings adjusted to corporate events. | (2) Payout = Earnings (net) paid and payable (base period) / Net Income less than the 5% legal reserve. | (3) According to market convention, Dividend Yield refers to the last 12 months and is calculated on gross earnings adjusted for subscription and bonus shares. They refer to the Dividend Yields of Feb/25 and Dec/25, in addition to the periods of Jun/25 and Jun/26. | (4) It considers only the earnings for fiscal year 2025 on the value of Itaúsa's preferred share on 12.30.2025.

Access the full track record of earnings at: <https://ri.itausa.com.br/en/financial-information/shareholders-remuneration/>.

4. Total Shareholder Return

Between 06.30.2025 and 06.30.2026, our total shareholder return (TSR) grew 39.2%, above the return of market benchmarks such as: Ibovespa (+23.9%), CDI (+14.8%) and the US dollar (-5.1%). In all the periods analyzed, our total shareholder return exceeds market indicators, evidencing the Company's ability to consistently create value over time.

5. Portfolio Market Value

Itaúsa's market value on 06.30.2026, considering the price of the most liquid share (ITSA4), totaled R\$150.0 billion. The sum of the market value of the equity interests in the investees reached R\$189.4 billion as of the same date, resulting in a holding discount of 20.8%.

Part of this discount is justified by the holding company's recurring expenses, mainly the tax expenses related to the levy of PIS and COFINS on the Interest on Capital received, in addition to administrative and financial expenses. In this context, the tax reform approved in January 2025 stands out, which will eliminate this taxation levied on the Interest on Capital received as from January 2027, extinguishing Itaúsa's structural tax inefficiency.

This inefficiency totaled R\$234 million in 2Q26 and R\$458 million in 1H26, reflecting both the PIS and COFINS expenses on the Interest on Capital received directly by the holding company and those incurred by IUPAR, which impact our results through equity in the earnings of investees. In addition, Copa Energia is measured at its book value, with a relevant gap in relation to its estimated fair value, which contributes to the increase in implicit discount.

In this context, we understand that the current discount level is higher than the level we consider fair and does not adequately reflect the fundamentals of our efficient capital allocation strategy, as well as the quality and performance of our investment portfolio, representing an important upside for our shareholders.

Note: It considers the closing prices on the last business day of the period (06.30.2026) of the most liquid shares of Itaú Unibanco (ITUB4), Dexco (DXCO3), Alpargatas (ALPA4), Motiva (MOTV3) and Itaúsa (ITSA4); for Aegea, it considers the common shares held by Itaúsa at the price of R\$55.29 per share adopted in the capital increase carried out in Mar/26 (totaling R\$4,549 million) and the preferred shares held by Itaúsa at carrying amount on 06.30.2026 (R\$828 million); for Copa Energia, it considers the investment amount recorded on 06.30.2026; for NTS, it considers the fair value recorded on 06.30.2026, in addition to the other assets and liabilities recorded in Itaúsa's parent company's balance sheet on 06.30.2026.

6.1. Financial performance of investees

Through the governance bodies of the investees, where we have Itaúsa representatives, we take part in the strategic and financial direction of the companies in our portfolio, promoting a culture of sound governance, ethical conduct and appreciation of human capital. Our performance also prioritizes discipline in capital allocation and sustainable long-term value creation.

Ownership structure

Note: The percentages presented reflect Itaúsa's direct and indirect interest in the investees, considering the total shares issued, excluding those held in treasury, when applicable.

Financial Sector Performance

Recent developments:

- **Interest on Capital:** the payments of Interest on Capital announced in February and May with shareholding position on 03.19.2026 and 06.18.2026, in the respective amounts of R\$3.85 billion (R\$0.34888 gross per share and R\$0.287826 net per share) and R\$3.99 billion (R\$0.36188 gross per share and R\$0.298551 net per share), will be paid on 08.28.2026.
- **Perpetual Subordinated Financial Bills:** in June, issuances of Perpetual Subordinated Financial Bills were carried out in the amount of R\$3 billion, contributing to the Additional Tier 1 Capital of Itaú Unibanco's Reference Equity, with an impact of 0.19 p.p. on the Tier 1 capital ratio.
- **Buyback of Tier 1 Subordinated Financial Bills:** in July, Itaú announced the exercise of the call option for all the perpetual Tier 1 Subordinated Financial Bills issued in 2019, in the amount of R\$1.4 billion, with an estimated impact of 0.1 p.p. on the Tier 1 capital ratio.
- **Payroll processing contract for the State of Minas Gerais:** in July, Itaú Unibanco won the bid to provide payment services to approximately 670 thousand state employees and suppliers of the State of Minas Gerais. The contract is valid for five years as from December 2026 and provides for a payment of R\$2.188 billion.

Financial Performance (2Q26 vs. 2Q25):

- **Net Revenue:** up 5.2%, supported by the performance of the Wood Division, partially offset by the slight decrease in Metals and Sanitary Ware and the reduction in Ceramic Tiles.
 - **Wood Division:** up 9.6%, driven by higher volumes and price pass-through, in a heated domestic market in the period. Revenues from forestry trading operations, a recurring activity of the division, also contributed.
 - **Metals and Sanitary Ware Division:** down 0.6%, with the reduction in shipped volumes being practically offset by the improvement in unit net revenue, arising from price adjustments and a more favorable sales mix.
 - **Ceramic Tiles Division:** down 11.5%, mainly reflecting less favorable prices and mix. The environment remains challenging, with the market shrinking, high inventories and high idle capacity in the industry, which keeps the sector more competitive and price sensitive.
- **Adjusted and Recurring EBITDA:** up 7.4%, reaching R\$576 million. The result was driven by the Wood Division, which combined higher volumes, the capture of price adjustments and operational efficiency, and by the recovery of Metals and Sanitary Ware, benefited by price capture, a better mix and increased productivity. Ceramic Tiles also posted positive Adjusted and Recurring EBITDA, with a slight improvement on a year-over-year basis, despite the still challenging market environment.
- **Recurring Net Income:** down 74.1%, reaching R\$6 million in 2Q26, compared to R\$23 million in 2Q25. The decrease mainly reflects the lower contribution of the dissolving wood pulp joint venture, impacted by the reduction in international DWP prices. These effects more than offset the improvement in the operational performance of the Wood and Metals and Sanitary Ware Divisions.
- **Dissolving Wood Pulp (DWP):** Net Revenue of R\$715 million (-18.3%) and Adjusted and Recurring EBITDA of R\$339 million (-36.0%), with a margin reduction to 47.4%, compared to 60.5% in 2Q25, considering 100% of the operation. Despite the stability of shipped volumes in the period, results were mainly impacted by the reduction in the price of dissolving wood pulp in the international market and by exchange rate effects.
- **Net Debt/Adjusted and Recurring EBITDA:** The significant EBITDA generation in the quarter contributed to the reduction of Dexco's financial leverage, which reached 2.7x in 2Q26, compared to 3.4x in 2Q25. The result evidences the continuity of the company's deleveraging process, even in an environment of still high interest rates.

Financial Performance (2Q26 vs. 2Q25):

- **Net Revenue:** up 11.3%, as a result of the 9.0% increase in the total volume of pairs sold and the 2.2% rise in the average ticket per pair. In the Brazilian market, the average ticket advanced 7.5%, driven by a better mix of products and channels. In the international market, volume grew 11.9% (+20.9% in Europe and +12.1% in the Distributor Markets, with a negative impact from the United States of -30%, explained by the change in the business model and, consequently, in sales seasonality). The Distributor Market remains impacted by the conflicts in the Middle East, offset by good performance in Asia and LATAM.
- **Recurring EBITDA:** up 48.5% due to better gross margin in both operations and reduced expenses (mainly in the international operation, which continues on its trajectory of efficiency gains).
- **Net Income:** up 93% due to higher revenue and gross margin, in addition to lower expenses in international operation.
- **CAPEX:** in line with the same period of the previous year, keeping the CAPEX/Revenue ratio under control, totaling 4.4%.
- **Cash Position:** cash generation totaled R\$74 million in 2Q26 (R\$463 million in the last 12 months), with a financial leverage level of 0.5x Net Debt/EBITDA, a healthy level and consistent with the company's capital structure strategy.

Recent developments:

- **Start of the Minas_SP (Fernão Dias) operation:** in April, the Share Purchase and Sale Agreement of Minas-SP (Fernão Dias) was signed and the operation started accordingly.
- **Minas-SP (Fernão Dias) Amendment:** in May, the Modernization Amendment to the Fernão Dias Highway concession was signed, which provides for a new investment cycle aimed at expanding capacity and raising the quality and safety standards of the highway, in addition to extending the concession term by 15 years.
- **Renovias Amendment:** in July, a new Amendment was entered, extending the concession term until October 2026, ensuring the continuity of the provision of services until the transfer of the operation to the new concessionaire.

Financial Performance (2Q26 vs. 2Q25):

- **Adjusted Net Revenue (excluding construction):** up 20.5% in 2Q26, driven by the start of the Minas_SP operations and a full quarter of Paraná, the start of the toll gantries at RioSP and Sorocabana, tariff adjustments, in addition to the solid operational performance.
- **Traffic performance:** on a comparable basis, growth was recorded across all platforms.
- **Highways:** 3.7% increase in comparable traffic of equivalent vehicles, with light vehicles growing 5.0%, supported by the tourist concessions and seasonal traffic during the holidays. Heavy vehicles grew 2.9%, reflecting the growth of the economy and industrial production.
- **Railways:** 1.8% increase in comparable traffic, due to the higher demand in the São Paulo units (ViaQuatro and Via Mobilidade), mainly as a result of the conclusion of the refurbishment of the Santo Amaro station and the start of operation of the Varginha station.
- **Adjusted and Recurring EBITDA:** up 29.1% with a 4.3 p.p. expansion in the margin, mainly as a result of the portfolio optimization and the good performance of the new assets, with emphasis on the full quarter of Paraná and the start of Minas_SP.
- **Recurring Net Income:** up 67.0%, reflecting better operational performance, the tariff adjustments, the portfolio optimization and the start of the new operations.
- **CAPEX:** up 13.0%, driven by: (i) expansion works at RioSP, (ii) pavement recovery and duplications at Pantanal, (iii) interventions on the lanes and service roads and duplications at ViaSul and (iv) pavement restorations at Paraná.
- **Net Debt/Adjusted EBITDA:** up 0.1x due to the company's higher indebtedness level after the addition of new assets in the period, whose EBITDA contribution will occur gradually as the operation of these assets evolves.

Closely-Held Companies

aegea

Recent developments:

- **Liability Management:** R\$1.7 billion raised in new long-term transactions in 2Q26, which reinforce the diversification of funding sources and contribute to the extension of the Company's debt profile, raising to R\$5.6 billion the total funding contracted in the year, of which R\$5.0 billion has already been disbursed.
- **Action plan (strengthening of governance and capital management):** progress in the strengthening of financial governance, with improvements in internal controls, accounting closing and the structuring of the finance and governance areas. The optimization initiatives announced in 1Q26 remain under execution: approximately R\$352 million in cost and expense reductions have already been captured (annualized target of R\$750 million) and approximately R\$500 million in investments planned for 2026 have been deferred, with prioritization of projects linked to the expansion of services and revenue generation. The objective is to reinforce discipline in capital allocation, preserve investment capacity and accelerate deleveraging.
- **Cash position:** R\$8.8 billion in cash position at Aegea, an amount 2.5 times higher than short-term amortizations. Considering Águas do Rio, the cash position is R\$12.4 billion, an amount 3.5 times higher than short-term amortizations.
- **Capital Increase:** in August, a capital increase of R\$2.1 billion was approved, with the objective of reinforcing the company's capital structure and accelerating its deleveraging process.
- **Accounting adjustments:** Aegea released its audited Financial Statements for the year ended 12.31.2025, which reflected accounting adjustments arising from revisions of accounting policies and reassessments of estimates that required the restatement of prior years. In the table below, the 2Q25 information already considers the accounting adjustments.

Note: The table above presents the information of Aegea Saneamento on a corporate basis, that is, with the results of Águas do Rio recognized by equity in the earnings method.

Financial Performance (2Q26 vs. 2Q25):

- **Net Revenue:** up 15.2%, mainly due to the increase in billed volume, the tariff adjustments and the start of the new operations in Pará and Piauí.
- **EBITDA:** up 45.4%, driven mainly by the growth of Net Revenue, with a 13.2 percentage point expansion of the EBITDA margin.
- **Net Income (Controlling):** improvement of R\$63 million in the net income attributable to controlling shareholders, mainly due to the increase in net revenue and the reduction in costs and expenses.
- **CAPEX:** up 21.5%, mainly due to the start of the Pará and Piauí concessions and the expansion of sewage coverage in the operations.
- **Águas do Rio:** in 2Q26, it recorded Net Revenue of R\$1.6 billion, up 11% compared to 2Q25, and EBITDA of R\$679.3 million, up 84%, due to the tariff adjustment, the growth in billed volume and the reduction in costs and expenses.

(1) Unaudited figures. | (2) It considers sale of assets.

Financial Performance (2Q26 vs. 2Q25):

- **Net Revenue:** up 2.0% arising from the pass-through of the cost increase over the period.
- **Recurring EBITDA:** up 19.8%, supported mainly by the effectiveness of the commercial strategy.
- **Recurring Net Income:** up 17.2%, supported by EBITDA growth and by the improvement of the other result lines.
- **CAPEX:** up 205%, mainly due to the higher concentration of investments in the second half of the previous year and the focus on the acquisition and replacement of containers in 1H26 to meet the Gás do Povo Program.
- **Net Debt/EBITDA:** down 0.2x arising from the increase in cash and EBITDA in the last 12 months.

Recent developments:

- **Debentures:** in July, the partial optional extraordinary amortization of the debentures of the 1st series of NTS' 6th issuance was approved, in the amount of R\$1.4 billion (73.9% of the unit face value). The transaction is aligned with the company's liability management strategy and was made possible by the funds raised in the 12th issuance, carried out in March 2026, with the objective of extending the average term of the debt and reducing the concentration of maturities.

(1) It considers dividends and monetary restatement on declared dividends. Earnings are on a cash basis. | (2) Net Debt considers the impact of derivative instruments. NTS has a final exposure 100% indexed to the interest rate linked to the CDI and to the local currency. | (3) It considers reported covenant figures with LTM EBITDA and Net Debt on the closing date of the period.

Financial Performance (2Q26 vs. 2Q25):

- **Net Revenue:** down 6% due to the annual adjustments provided for in the contracts indexed to IGPM and to the expiration of the Malhas SE contract in December 2025, offset by higher revenue from the pass-through of gas rebalancing.
- **EBITDA:** down 14% due to the reduction in net revenue added to the rebalancing costs incurred in the period, in addition to the recovery of non-recurring tax credits that occurred in 2Q25.
- **Net Income:** down 22% due to lower net revenue and higher financial expenses impacted by the mark-to-market of the derivative financial instruments linked to foreign currency debts (non-cash effect).
- **CAPEX:** up 391% in the period, mainly due to the investment in the growth projects (Japeri Compression Station and Macaé Receiving Point), as part of NTS' network expansion strategy.
- **Net Debt / EBITDA:** remains stable, up 0.1x due to the reduction in EBITDA.

Notes:

- The interests (direct and indirect) in the investees consider Itaúsa's average interest percentage in the period.

- The investment in NTS is recognized as a financial asset and is not measured under the Equity Method.

- Regarding Aegea Saneamento, the interest shown in the table considers the equity in the earnings of the results of Aegea Saneamento and Águas do Rio Investimentos, in accordance with the results-sharing agreement entered into between the parties. In the first quarter of 2026 there was a positive effect of R\$93 million in the equity in the earnings of Aegea as a result of the capitalization carried out by Itaúsa and GIC. Due to the restatement of Aegea's 1Q25 results, we adjusted this investee's result in the managerial table above for better comparability. - "Other companies" considers the investments in Itaútec and ITH Zux Cayman (non-operating companies).

- For Motiva, Aegea Saneamento and Copa Energia, "Other Results" refer substantially to the amortization of goodwill.

2. BASIS OF PREPARATION AND PRESENTATION

2.1. Statement of compliance

The Individual and Consolidated Interim Financial Statements of ITAÚSA have been prepared in accordance with the accounting pronouncement CPC 21 (R1) – Interim Financial Statements, issued by the Comitê de Pronunciamentos Contábeis – CPC, and the international accounting standard IAS 34 - Interim Financial Reporting, issued by International Accounting Standards Board (IASB) and presented in conformity with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Quarterly Information Report (ITR).

The presentation of the Individual and Consolidated Statement of Value Added is required by Brazilian Corporate Law and by the accounting practices adopted in Brazil that are applicable to publicly-held companies. The Statement of Value Added was prepared in accordance with the criteria defined in the Accounting Pronouncement CPC 09 (R1) – Statement of Value Added, however, the International Financial Reporting Standards - IFRS do not require the presentation of this statement. As a consequence, according to the IFRS, this statement is presented as additional information, without prejudice to the Interim Financial Statements as a whole.

All the relevant information to these Interim Financial Statements, and only this information, is evidenced and is consistent with the information used by ITAÚSA in its activities.

These Interim Financial Statements have been prepared based on principles, methods and criteria consistent with those adopted in the previous fiscal year ended December 31, 2025. In order to avoid repeating information already disclosed in the Financial Statements as of December 31, 2025, the accounting policies and certain notes are not being presented or are presented in less detail. As a result, these Interim Financial Statements should be read jointly with the Financial Statements approved by Management and disclosed to CVM on March 16, 2026. Please see below the list of notes to these financial statements as of December 31, 2025 under this scope:

(a) Note to the financial statements identical to that presented in the Financial Statements as of December 31, 2025.

(b) Note to the financial statements whose the change in the period was deemed immaterial by ITAÚSA's Management.

(c) Note to the financial statements presented with reduced contents when compared to the Financial Statements as of December 31, 2025.

2.2. Measurement basis

The Individual and Consolidated Interim Financial Statements have been prepared under the historical cost convention, except for: (i) certain financial assets and liabilities that were measured at fair value (Note 3.1.1); (ii) liabilities of the defined benefit that are recognized at fair value limited to the recognized assets; and (iii) biological assets measured at fair value through profit or loss (Note 10).

2.3. Functional currency, translation of balances and transactions in foreign currency

The Individual and Consolidated Interim Financial Statements have been prepared and are being presented in Brazilian reais (R\$), which is functional and presentation currency, and all balances are rounded to millions of reais, unless otherwise stated.

The definition of the functional currency reflects the main economic environment where ITAÚSA and its controlled companies operate.

The assets and liabilities of subsidiaries with a functional currency that is different from the Brazilian real, when applicable, are translated as follows:

- Assets and liabilities are translated at the foreign exchange rate of the balance sheet date;
- Income and expenses are translated at the monthly average foreign exchange rate;
- Foreign currency translation gains and losses are recorded in the "Other comprehensive income" account.

Foreign currency transactions are translated into the functional currency using the foreign exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period foreign exchange rates are recognized in Finance result.

2.4. Use of estimates and judgments

In the preparation of the Interim Financial Statements, the management of ITAÚSA and its controlled companies are required to use judgments, estimates and assumptions that affect the balances of assets, liabilities, income and expenses in the period presented and in subsequent periods.

The judgments, estimates and assumptions are based on information available on the date of the preparation of the financial statements, in addition to the experience from past and/or current events, and also taking into consideration assumptions related to future events. Additionally, when necessary, the judgments and estimates are supported by opinions prepared by experts. These estimates are periodically reviewed and their results may differ from the originally estimated amounts.

The estimates and assumptions that have a significant risk that is likely to cause a material adjustment to the amounts in the Financial Statements within the coming periods are as follows:

Description	Note
Recognition of deferred tax assets	11
Determination of the fair value of financial instruments, including derivatives	3.1.2
Provisions and contingent assets and liabilities	16
Determination of fair value of biological assets	10
Recognition of assets and liabilities related to pension plans	23.1
Analysis of impairment	-

2.5. Consolidation of the financial statements

The consolidated Interim Financial Statements have been prepared in accordance with the standards established by CPC 36 (R3)/ IFRS 10 – Consolidated Financial Statements.

ITAÚSA consolidates its subsidiaries from the moment it obtains the control over them. The base dates of the financial statements of subsidiaries, joint-subsiidiaries and associates, used for calculating the equity in the earnings of investees and for consolidation purposes, are the same as those of ITAÚSA, in addition to the adoption of consistent accounting policies and practices. Whenever necessary, adjustments are made to the financial statements of the investees to adapt their accounting practices and policies to the accounting policies adopted by ITAÚSA.

Minority interests amounts, arising from subsidiaries whose ownership interest held by ITAÚSA does not correspond to total capital stock, are stated separately in the Balance Sheet under “Non-controlling interests”, in the Statement of Income under “Profit attributable to non-controlling interests” and in the Statements of Comprehensive Income under “Total comprehensive income attributable to non-controlling interests”.

Intercompany transactions, balances and unrealized gains and losses on transactions between consolidated companies were eliminated.

2.6. Revised standards adopted from January 1, 2026

The revisions adopted as of January 1, 2026, did not result in significant impacts on the Interim Financial Statements as of June 30, 2026 of the ITAÚSA and its subsidiaries. They are:

Standard	Description
CPC 40 (R1) / IFRS 7 – Financial Instruments: Disclosures and CPC 48 / IFRS 9 – Financial Instruments	It addresses: (i) clarification on the date of recognition and derecognition of some financial assets and liabilities settled via electronic payment systems; (ii) additional guidance on assessing whether a financial asset meets the “solely payments of principal and interest” (SPPI) criterion; (iii) new disclosures for financial instruments with contractual terms that may alter cash flows (e.g. ESG-linked instruments); and (iv) updates on disclosures for equity instruments designated at fair value through other comprehensive income.
Annual improvements to IFRS accounting standards – Volume 11	Limited scope amendments as part of its annual improvement process. These include clarifications, simplifications, corrections, or modifications intended to improve the consistency of the following standards: CPC 37 (R1) / IFRS 1 – First-Time Adoption of International Accounting Standards, CPC 40 (R1) / IFRS 7 – Financial Instruments: Disclosure, CPC 48 / IFRS 9 – Financial Instruments, CPC 36 (R3) / IFRS 10 – Consolidated Financial Statements and CPC 03 (R2) / IAS 7 – Statement of Cash Flows.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

3.1.2. Fair value of financial instruments

To determine fair value, assessment techniques provided for in CPC 46 / IFRS 13 – Fair value measurement are used, which may result in a carrying amount different from its fair value, mainly due to the instruments having long settlement terms and differentiated costs in relation to the interest rates currently adopted for similar contracts, as well as due to the daily change in future interest rates.

Additional information on the assumptions used to determine the fair values of significant financial instruments is disclosed below:

(i) Marketable securities

- **Parent company (Current):** Equity interest in NTS (Note 5.1) whose fair value is calculated based on future cash flows to ITAÚSA discounted to present value at the rate that corresponds to the cost of equity, which, on June 30, 2026 of 12.3% (12.3% on December 31, 2025). The assumptions included for the calculation of the cost of equity take into account: (i) country risk; (ii) risk-free rate of U.S. treasury bonds (with maturity in 10 years); (iii) market risk premium; (iv) beta considering companies with similar business models; and (v) inflation differential between the external (U.S.) and internal markets.
- **Investee Dexco:** Basically composed of participation in corporate venture capital fund, called "DX Ventures Fundo de Investimento em Participações Multiestratégia Investimentos no Exterior", whose fair value is calculated based on the economic-financial analysis carried out by fund managers (Note 5.2).

(ii) Debts (Local currency – with swap): measured using a pricing model applied individually to each transaction, taking into account future payment flows, based on contractual conditions, discounted to present value using rates obtained using market interest rate curves. Therefore, the market value of a security corresponds to its maturity value (redemption value) brought to present value by the discount factor.

(iii) Derivative instruments: (i) the fair values of interest rate contracts are calculated by the present value of estimated future cash flows based on market-adopted yield curves; and (ii) the fair values of contracts in foreign currencies are determined based on future exchange rates discounted to present value.

(b) Fair value of financial instruments at amortized cost

Except for Debentures, the other financial assets and liabilities, measured at amortized cost, have an accounting balance equivalent to the fair value due to the fact that these financial instruments have characteristics basically similar to those that would be obtained if they were traded on the market.

Debentures	15.2	2,600	2,623	2,424	2,433	4,140	4,163	3,960	3,969

We present below the assumptions used for fair value calculation:

(i) Debentures: Measured based on the secondary market price of debentures, as published by Anbima (Brazilian Financial and Capital Markets Association) and on any applicable costs.

3.1.3. Derivatives

Derivatives are intended to mitigate exposure to interest rate indices and/or foreign exchange exposure of loan and financing agreements. Derivatives should be used as a hedge instrument only, with speculative transactions barred. Financial and derivative risk management is carried out according to strategy and guidelines set out in financial policies.

On June 30, 2026 and December 31, 2025 only Dexco record derivative operations.

Effectiveness tests performed have evidenced the effectiveness of the hedge accounting program implemented. These tests took into account the economic relationship based on the hedge ratio, the effect of the credit risk involved in the instrument and the hedged item, as well as the assessment of critical terms.

We present below the types of contracts in effect, whose objects of protection are Debts with the purpose of mitigating interest rate risk:

3.2. Risk Management

Because the results of ITAÚSA are directly related to the operations, the activities and the results of its investees, ITAÚSA is exposed mainly to the risks of the companies in its portfolio.

Through its senior management, ITAÚSA participate on board of directors and supporting committees of the investees, in addition to the presence of independent members with experience in the respective markets in which they work, good risk management and compliance practices are stimulated, including integrity. Examples of this work are the participation of ITAÚSA's management members: (i) on the Risk and Capital Management Committee of Itaú Unibanco; (ii) on the Statutory Audit Committee of Alparagas; (iii) on the Audit, Risk and Integrity Committee of Aegea; and (iv) on the Audit Committee of Copa Energia.

ITAÚSA follows the guidelines contained in the Risk Management Policy approved by the Board of Directors where the following is defined: (i) the main management and risk control guidelines, in line with the risk appetite established by the Board of Directors; (ii) the methodologies of the risk management process; (iii) the guidelines and guidance to the Compliance and Corporate Risks Department in the implementation of the integrity program; and (iv) the reviews of ITAÚSA's rules, forwarding them, when necessary, for the analysis and approval of the Board of Directors.

ITAÚSA has an Audit Committee main aimed: (i) at advising on risk management, including proposals on appetite and tolerance; (ii) review and propose risk prioritization and response plans; and (iii) expressing an opinion on the assessment of regulatory compliance, the Integrity Program and risk management systems and internal controls.

Guidelines set out in financial policies, approved by the Board of Directors, are adopted for financial risk management, with a focus on monitoring and mitigating adverse market and/or credit events that may negatively impact cash flows.

3.2.1. Market risks

These mainly the possibility of changes in interest and foreign exchange rates, which may result in impairment of assets and increase of their liabilities due to fluctuations in the market.

With respect to foreign exchange rate risks, the controlled company Dexco has finance policy that establishes the maximum foreign currency-denominated amount that may be exposed to variations in the foreign exchange rate. Due to the risk management procedures, management carries out periodical assessments of foreign exchange exposures for the purpose of mitigating them, in addition to maintaining hedge mechanisms aimed at protecting most of its foreign exchange exposure.

Interest rate risks are those risks that may cause economic losses due to adverse changes in interest rates. This risk is continuously monitored by Management for any need to purchase derivative transactions to hedge ITAÚSA against volatility in interest rates. With respect to financial investments, interest is indexed to the variation in the CDI: (i) with rate and redemption is assured by the issuing banks, based on contractually agreed rates for investments in CDBs; or (ii) on the quota value on the redemption date for investment funds.

3.2.1.1. Sensitivity analysis

Its purpose is to measure the impacts arising from changes in market variables on each representative financial instrument. However, the settlement of these transactions may result in amounts that differ from those estimated, given the subjectivity inherent in the preparation of these analyses.

The information in the table below measures, based on the exposure of the balances on June 30, 2026, the possible impacts on Income and Equity, due to the variation of each risk highlighted for the next 12 months or, if lower, until the maturity date of these operations. The base scenario represents current rates, whereas the possible scenario represents projected rates available in the market (B3):

3.2.2. Credit risks

The possibility of a financial loss arising from the company's difficulty in the realization of its receivables and other credits. This description is mainly related to the lines below, with the maximum exposure to credit risk being reflected by their balances:

(a) Trade accounts receivable

Subsidiary Dexco has a formal policy for granting credit facilities, aimed at establishing credit granting procedures to be followed in commercial operations for the sale of products and services, both in the domestic and foreign markets. Diversifying the receivables portfolio, better selecting customers, and monitoring sales financing terms and individual credit limits are procedures adopted to minimize NPL or losses on the realization of trade accounts receivable.

(b) Cash and cash equivalents and Financial Investments

For credit risk management purposes, exposure limits and selection criteria for counterparts of financial operations according to rating are included in the companies' financial policies. Management understands that financial investments and/or derivative transactions purchased do not expose ITAÚSA and subsidiaries to significant credit risks that might generate material losses in the future.

3.2.3. Liquidity risks

Corresponds to the possibility of ITAÚSA and its subsidiaries fail to fulfill their financial commitments on maturity dates due to lack of sufficient funds arising from any mismatches that can significantly affect their ability to make these due payments.

ITAÚSA and subsidiary Dexco adopt liquidity monitoring guidelines and measures to mitigate risk, including cash flow projection and calculation of minimum cash, in accordance with the criteria set out in their financial policies.

Dexco also has a revolving credit facility, up to R\$750, available for withdrawal until September 2027, which can be used in times of liquidity restrictions.

The table below shows the maturities of financial liabilities in accordance with undiscounted cash flows:

The forecast budget, which was approved by management, shows the ability and cash generation for meeting obligations.

3.2.3.1. Covenants

Subsidiary Dexco has some Debts and Debentures contracts (Note 15) subject to certain covenants in accordance with usual market practices, which, when not complied with, may result in the immediate disbursement or early maturity of an obligation with defined flow and frequency.

The maintenance of covenants is based on the Financial Statements of subsidiary Dexco and, in the event the aforementioned contractual obligation is not fulfilled, it must request a “waiver” from creditors. On June 30, 2026, all the aforementioned contractual were fulfilled.

3.3. Capital management

ITAÚSA and its controlled companies manage their capital so as to ensure the continuity of their operations, as well as to offer a return to their stockholders, including by optimizing the cost of capital and controlling the indebtedness level, and by monitoring the financial gearing ratio, which corresponds to the net debt-equity ratio.

In 1st semester of 2026, ITAÚSA recorded dividends from NTS in the amount of R\$109 (R\$136 in 1st semester of 2025), in contra-entry to income under "Other income and expenses" (Note 20) and the amount of R\$4 (R\$3 in 1st semester of 2025), from monetary update revenue under "Other monetary adjustments" (Note 21).

5.2. Corporate Venture Capital Fund

Subsidiary Dexco is the only unit holder of this fund, named DX Ventures Fundo de Investimento em Participações Multiestratégia ("DX Ventures"), aimed at investing in start-ups and scale-ups, at multiple investment stages.

Through this fund, the macro trends, transformation and innovations of the construction, refurbishment and decoration segment are monitored, by developing relevant business in the long term. In addition, it seeks to map possible disruptions in businesses and products, serving as an efficient instrument to address opportunities identified in the organization's core business.

9.1. Credits from certificates of judgment debt of the Government

Change in the period arises from amounts totaling R\$141 received in May 2026 related to the IPI credit process of subsidiary Itaútec, in connection with exempt inputs acquired in the Manaus Free Trade Zone.

9.2. Non-current assets held for sale

Change in the period basically refers to the subsidiary Dexco, in connection with the transfer of property, plant, and equipment (PPE) and intangible assets from the Urussanga (SC) plant following its closure and the consolidation of its ceramic tile manufacturing operations at the Criciúma (SC) and Botucatu (SP) units.

10. BIOLOGICAL ASSETS

The indirectly-controlled companies Dexco Colombia S.A., Duratex Florestal Ltda., Caetex Florestal S.A., Aroeira Florestal S.A., Duratex Negócios Florestais S.A., Cambuí Florestal S.A. and Jatobá Florestal S.A. have eucalyptus tree forest reserves that are used, primarily, as raw material in the production of wood panels, floorings and, secondarily, for sale to third parties.

The forest reserves serve as a guarantee of supply to the factories, as well as a protection against risks regarding future increases in the price of wood. This is a sustainable operation that is integrated with its industrial complexes, which, together with a supply network, provides a high level of self-sufficiency in the supply of wood.

On June 30, 2026 the companies had, approximately, 116.8 thousands hectares in effectively planted areas (112.2 thousands hectares on December 31, 2025) that are cultivated in the states of São Paulo, Minas Gerais, Rio Grande do Sul, Alagoas and in Colombia.

The balance of the biological assets is composed of the cost of formation of the forests and the fair value difference over the cost of formation, as presented below:

	Consolidated	
	06/30/2026	12/31/2025
Cost of formation of biological assets	1,922	1,824
Difference between cost of formation and fair value	1,122	1,220
Total	3,044	3,044

The changes in the periods are as follows:

Other changes ⁽¹⁾		(49)	-
Closing balance		3,044	3,044

⁽¹⁾ These refer to unrealized income (losses) arising from intragroup transactions.

10.1. Fair value

The fair value of biological assets is classified as level 3, according to a fair value hierarchy, as provided for in CPC 46 / IFRS 13 – Fair Value Measurement, due to its complexity and structure. It is determined based on the estimate of volume of wood that is ready to be harvested, at the current prices of standing wood, except for the forests that are up to one year old, which are maintained at cost, due to the belief that these amounts approximate their fair value.

Fair value considers the valuation of the expected volumes that are ready to be harvested at current market prices. The main assumptions used were:

- Discounted cash flows expected wood volume that is ready to be harvested, taking into consideration current market prices, net of the unrealized planting costs and the costs of capital of the land used in the plantation, measured at present value at the discount rate of June 30, 2026 of 8.8% p.y. (8.8% p.y. on December 31, 2025), which corresponds to the average weighted cost of capital of the controlled company Dexco, which is reviewed on an annual basis by its management.
- Wood prices: they are obtained in R\$/cubic meter by means of surveys on market prices disclosed by specialized companies for regions and products that are similar to those of the controlled company Dexco, in addition to the prices adopted in transactions with third parties, also in active markets.

- Difference: the volumes of harvests that were separated and valued according to the species: (i) pine and eucalyptus; (ii) region; and (iii) destination (sawmill and process).
- Volumes: estimate of the volumes to be harvested (6th year for eucalyptus and 12th year for pine) based on the projected average productivity for each region and species. The average productivity may vary according to age, rotation, climate conditions, quality of seedlings, fire and other natural risks. For the forests that have already been formed, the current volumes of wood are used. The volume estimates are supported by cycle counts made by specialized technicians as from the second year of the forests.
- Frequency: expectations regarding future timber prices and volumes are reviewed at least quarterly or as cycle counts are completed.

10.1.1. Sensitivity analysis

Among the variables that affect the calculation of the fair value of biological assets are the changes in the price of wood and the discount rate used in cash flows. We present below the impact on the biological asset in the event of these possible variables:

	06/30/2026	12/31/2025
Average price (R\$/m ³)	167.55	138.68
Discount rate (% p.y.)	8.8%	8.8%
Impact on fair value		
Fall in price (5%)	162	153
Increase in discount rate (0.5%)	42	33

11.2.1. Deferred assets

ITAÚSA and subsidiaries assessed the recoverability of deferred tax assets and concluded that their realization is probable.

11.2.2. Unrecognized deferred tax assets

ITAÚSA and subsidiaries have deferred tax assets related to income tax and social contribution tax loss carryforwards and temporary differences not recognized in the Financial Statements on the grounds of their uncertain realization.

On June 30, 2026, these unrecognized deferred tax assets at ITAÚSA totals R\$406 (R\$191 on December 31, 2025) and R\$486 in consolidated figures (R\$341 on December 31, 2025). Said assets may be subject to future recognition, according to annual revisions of projected generation of taxable income, as their use is not subject to a limitation period.

11.3. Uncertainty regarding the treatment of Corporate Income Tax and Social Contribution (taxes on income)

ITAÚSA and its subsidiaries are parties to in certain administrative and judicial disputes in connection with certain tax positions adopted in the calculation of Corporate Income Tax and Social Contribution (taxes on income). These proceedings and their potential effects are described in Notes 16.1.1.3 and 16.2.1.

⁽¹⁾ Market value is presented for investees with shares traded in on B3 stock exchange only and represent the percentage of ITAÚSA's interest.

⁽²⁾ The market value posted for Itaú Unibanco represents the direct interest held by ITAÚSA only. Including the indirect interest held by IUPAR, the total market value amounts to R\$174,434 (R\$123,991 as of December 31, 2025).

⁽³⁾ In September 2025, Aegea restated its financial statements for the first and second quarters of 2025, as well as for fiscal years 2024, 2023 and 2022, mainly driven by the review of the accounting treatment applied to the elimination of unrealized profit in transactions with related parties. The effects of the restatement on ITAÚSA were fully accounted for in the year of 2025, of which R\$66 was recorded as a contra-entry to Equity.

⁽⁴⁾ In 2025, subsidiary Dexco, who already held an equity interest in Infragás Infraestrutura de Gás para Região Sul S.A. ("Infragás"), came to exert significant influence over this investment by appointing two members to the Board of Directors. Accordingly, Dexco started to adopt the equity method to value its equity interest in that company.

12.2.1. Capital increase in associate Aegea

In March 2025, Aegea's shareholders approved a Capital increase in the amount of R\$424, with 22,507,920 common shares issued. All common shareholders subscribed to the new shares in the same proportion of common shares held immediately before the increase, resulting in a contribution by ITAÚSA in the amount of R\$43.

Between February and March 2026, Aegea's shareholders increased their Capital by R\$1,200 by issuing 21,702,648 common shares. Only two of the three common shareholders, including ITAÚSA, joined the subscription of the new shares. Therefore, ITAÚSA contributed R\$418, of which R\$3 corresponds to the share of net assets and R\$415 was preliminarily allocated as a goodwill. The allocation of the fair value of assets and liabilities and of goodwill will be finalized over the coming months, following the issuance of a valuation report prepared by an independent appraiser.

This contribution increased ITAÚSA's ownership interest in Aegea's total share capital from 12.82% to 13.27%, with the same terms and conditions previously established in the Shareholders' Agreement remaining in effect.

12.2.2. Capital reduction in jointly controlled company Alpargatas

In September 2025, Alpargatas' shareholders approved a Capital reduction in the amount of R\$850, with no cancellation of shares, with the resulting refund of amounts to shareholders. After the regulatory deadline has elapsed, the reduction was approved in November 2025, with the amount of R\$253 being transferred to ITAÚSA.

12.2.3. Purchase of additional equity interest in jointly-controlled company Alpargatas

Between October and December 2025, ITAÚSA purchased on B3 3,684,900 preferred shares in Alpargatas for the total amount of R\$39. These purchased shares account for 0.54% of Alpargatas' total shares, with ITAÚSA now holding a total 29.95% equity interest (excluding treasury shares).

Between March and June 2026, ITAÚSA purchased on B3 4,898,854 preferred shares in Alpargatas for the total amount of R\$58. These purchased shares account for 0.72% of Alpargatas' total shares, with ITAÚSA now holding a total 30.62% equity interest (excluding treasury shares).

12.2.4. Financial Statements of associates Aegea and Águas do Rio Investimentos Restated

In April 2026, associates Aegea and Águas do Rio Investimentos disclosed their audited financial statements for fiscal year ended December 31, 2025, recording accounting adjustments arising from revisions to accounting policies and reassessments of estimates that required the restatement of prior periods.

Taking into account the equity interest held by ITAÚSA, these adjustments resulted in a reduction of the Investment balance against Equity in the total amount of R\$656, of which R\$565 relates to Aegea and R\$91 to Águas do Rio Investimentos.

Management understands that these adjustments are not material, as they account for less than 1% of ITAÚSA's Equity as of June 30, 2026 and December 31, 2025.

12.2.5. Equity in the earnings of subsidiary Itaotec

Equity in the earnings of subsidiary Itaotec was mainly impacted by the recognition of the amount of R\$1,256 receivable from the withdrawal of sponsorship from the PAI-CD Plan (Note 23.1.1.1).

14.1. Forfaiting

Controlled company Dexco entered into agreements with leading financial institutions to allow domestic market suppliers to prepay their receivables. Under these operations, suppliers transfer the right to receive securities from the sale of their goods to financial institutions and, as a consideration, receive these funds in advance from the latter at a discount charged directly by these financial institutions upon the credit assignment. These financial institutions then become the creditors of the operation. It is worth mentioning that, regardless of any agreements with financial institutions, commercial conditions are always agreed upon between Dexco and related suppliers. On June 30, 2026, the average term of these transactions is 85 days (71 days on December 31, 2025) and the weighted average interest rate charged by financial institutions is 1% per month (1% per month on December 31, 2025).

Management assessed that the economic essence of these transactions was operational in nature and any potential effects of adjustment to their present value were immaterial for measurement and disclosure purposes. Furthermore, it considered that these transactions generated no material changes in the original liabilities with suppliers, with the payments of such securities recorded as cash outflows from operating activities in the Statement of Cash Flows in accordance with CPC 03 (R2) / IAS 7, alongside other payables to suppliers.

15.2.1.1. Early redemption of debentures

(a) ITAÚSA

On July 2025, ITAÚSA carried out the early redemption of the totality of the 2nd series of the 4th issue of debentures, in the amount of R\$1,250, and a redemption premium of R\$25. The redemption was funded, substantially, with resources obtained from the Capital increase completed in May of 2025.

In September 2025, ITAÚSA carried out the early redemption of the totality of the 6th issue of debentures, in the amount of R\$1,250, and a redemption premium of R\$22.

(b) Dexco

In October 2025, subsidiary Dexco carried out the early redemption of the entire 2nd debenture issuance, in the amount of R\$600.

15.2.1.2. Issue of debentures**(a) ITAÚSA**

In August 2025, ITAÚSA carried out the 8th issue of non-convertible debentures, in a single series, in the amount of R\$1,000. The funds raised were fully used for the early optional redemption of the 6th issue of debentures (Note 15.2.1.1).

(b) Dexco

In October 2025, subsidiary Dexco carried out the 3rd issuance of simple, non-convertible unsecured debentures, in a single series, in the amount of R\$1,500. This issuance aimed to optimize debt profile, reduce financial costs, and create value for its shareholders.

16. PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND GUARANTEES**16.1. Provisions and Guarantees**

ITAÚSA and subsidiaries are parties to lawsuits and administrative proceedings involving labor, civil, tax and social security claims, arising from the normal course of business.

Management believes, based on the opinion of its legal advisors, that the recognized provisions for contingencies are sufficient to cover any losses from lawsuits and administrative proceedings.

During the course of these lawsuits and proceedings, ITAÚSA and subsidiaries pledge some types of guarantees, including judicial deposits, performance bonds and bank guarantees, in order to ensure the continuity of the disputes.

PIS/COFINS - Writ of mandamus filed by ITAÚSA on the grounds of the possible illegality and unconstitutionality of including holding companies in the noncumulative tax system. The challenged difference (from April 2011 to October 2017) is being demanded through a Tax Foreclosure and is guaranteed by a performance bond. This dispute was concluded with an unfavorable decision in April 2022. An unfavorable judgment was issued in the Tax Foreclosure records in June 2024, against which the Company filed an appeal that is currently pending trial at the Federal Regional Court (TRF) of the Third Region.	2,182	2,116
PIS/COFINS - Disputes via a lawsuit (year 2011) and administrative proceedings (year 2017) to nullify the assessment notices demanding the collection of PIS/COFINS on forest sales at subsidiary Dexco.	27	26
Income tax/social contribution - Tax assessment notice aimed to nullify tax credits resulting from the disregard of deductibility on the income tax/social contribution basis carried out in 2017, arising from the payment of fines and charges on debits of currently named Dexco Revestimentos, recognized and provisioned for in the 2016 records and paid off via special installments in 2017, at subsidiary Dexco.	24	24

ICMS (disallowance of credits): Disallowance of credits on parts and components, intermediate materials and packaging materials in the subsidiary Dexco.	63	62
ICMS: judicial and administrative disputes involving disallowance of credit, collection and fine in connection with ICMS, at subsidiary Dexco.	63	47
PIS and COFINS: Non-taxation of adjustment to inflation on compensation payments; disallowance of input (gas) credits; and untimely credit (chartered transport for employees-Covid-19), at subsidiary Dexco.	29	27
ICMS: Fine for tax accounting of ICMS credit registered in the corporate spin-off by Ideal Standard, in connection with the acquisition of the Queimados bathroom fixtures unit, in subsidiary Dexco.	-	23

⁽¹⁾ At ITAÚSA, it corresponds to R\$231 (R\$232 on December 31, 2025).

16.3. Contingent assets

ITAÚSA and subsidiaries are challenging in court the refund of taxes and contributions, as well as they are parties in civil lawsuits, in which they have rights or expect to have rights to receive.

The table below presents the major lawsuits whose chance of success is deemed probable according to analyses conducted by legal advisors. As these are contingent assets, the amounts corresponding to these lawsuits and their recording will be carried out in the manner and to the extent of the favorable decision when it becomes final and unappealable. Accordingly, these lawsuits are not recognized in the Financial Statements.

16.3.1. National Treasury Bonus – (“BTN”)

In fiscal year 2020, ITAÚSA and subsidiary Itaútec were granted a final court decision in a lawsuit filed that sought the recognition of credit resulting from the incorrect monetary adjustment applied by the Government upon redemption of the BTN acquired under Law No. 7,777/89, which provided for adjustment to be based on the Consumer Price Index (IPC) or exchange rate variation, at the plaintiff's choice. However, at the time of the redemption, this BTN index was changed to the Tax Adjustment Index (IRVF) and the exchange variation of the U.S. dollar due to the introduction of the Collor Plan and Law No. 8,088/1990, leading to an understated redeemed amount. The credit amount is being discussed at the execution of judgment phase and, after becoming final and unappealable, will be paid through a certificate of judgment debt of the government to be issued.

Preferred shares do not entitle their holders to vote, however, they provide the following advantages to their holders:

- Priority in the receipt of a non-cumulative annual minimum dividend of R\$0.01 per share, ensuring a dividend at least equal to that of common shares; and
- The right, in a possible disposal of control, to be included in a public offering of shares so as to entitle them to a price equal to 80% of the amount paid for a share with voting rights, which is part of the controlling group.

By resolution of the Board of Directors the Capital may be increased by up to 13,500,000,000 shares, of which up to 4,500,000,000 are common shares and up to 9,000,000,000 are preferred shares.

20.1. Provision for impairment – Parent Company

In May 2026, ITAÚSA acquired from its associate Aegea a 29.13% interest of the capital stock of Livorno Participações S.A. (“Livorno”) for the amount of R\$23. Livorno was established as an outlet for the potential purchase of shares representing 30% of the capital stock of Companhia de Saneamento de Minas Gerais – Copasa MG.

In June 2026, following the rectification announced by Copasa MG, which set out the minimum price per share, ITAÚSA decided, together with the other Livorno shareholders, to refrain from submitting a new proposal in the share purchase process. As the funds contributed to Livorno were used to cover its auction participation expenses, a provision for impairment of this investment was recognized.

23. EMPLOYEE BENEFITS

23.1. Private pension plans

ITAÚSA and its controlled companies in Brazil are part of a group of companies that sponsor Fundação Itaúsa Industrial ("Foundation"), a nonprofit entity whose purpose is to operate private plans for the concession of annuities or supplementary income or benefits similar to those conferred by social security, being regulated by the competent agencies.

The Foundation manages the Defined Contribution Plan PAI-CD ("PAI-CD Plan") and the Defined Benefit Plan – BD ("BD Plan") and the employees have the option to voluntarily participate in PAI-CD Plan.

23.1.1. Defined Contribution Plan – PAI-CD Plan

This plan is offered to all employees of the sponsoring companies and had 6,016 participants on June 30, 2026 (5,793 on December 31, 2025).

There is no actuarial risk for the sponsoring companies in the PAI-CD Plan, that is, there is no additional payment obligation after the contributions are made. The regulation of the plan provides for the contribution of the sponsoring companies between 50% and 100% of the amount contributed by the employees.

Due to the surplus position of the plan, presented below, ITAÚSA and its controlled companies did not make any contributions in 2026 and 2025.

23.1.1.1. Employer's Pension Fund

It corresponds to contributions made by sponsors that remained within the plan, as participants have elected to redeem their funds or opted for early retirement, and these contributions are being used to offset future contributions, as set forth in the charter of the PAI-CD Plan.

The present value of future regular contributions, using the average percentage of the regular contribution of the sponsoring companies, was calculated by actuaries and is presented below:

(a) Withdrawal of sponsorship – PAI-CD Plan (Subsidiary Itaotec)

In November 2023, the subsidiary Itaotec informed the Foundation of its decision to terminate the adhesion contract and withdraw sponsorship from the PAI-CD Plan. Accordingly, a request to withdraw the sponsorship was filed with the National Superintendency of Closed Pension Plans (PREVIC), which, after reviewing the process, approved the transaction and authorized—via PREVIC Ordinance No. 446/2026—the allocation of the Pension Fund's assets to Itaotec. The process approval changes no accrued rights of any participants and beneficiaries, which remain guaranteed in accordance with the regulations applicable to the PAI-CD Plan and supplementary pension legislation.

Following PREVIC's authorization, the Foundation initiated the procedures to finalize the withdrawal of sponsorship. As a result, Itaotec recorded the amount receivable of R\$1,256 - of which R\$147 was recorded as a contra-entry to "Other income" (Note 20) and R\$1,109 was recorded as a contra-entry to "Financial result" (Note 21) —, effectively received on July 1, 2026.

23.1.2. Defined Benefit Plan – BD Plan

The main purpose of this plan is the concession of benefits that, as a lifetime monthly income, are intended to supplement, under the terms of its regulation, the income paid by social security. This plan is considered extinguished because no new participants can be admitted to it.

The resources of the plan are converted into benefits in the event of retirement based on the time of contribution, special circumstances, age and disability, in addition to a retirement premium, lifetime monthly income and death annuity.

In June 2026, PREVIC approved the allocation of the Defined Benefit (DB) Plan's special reserve, to be returned to all sponsors in 36 monthly installments starting in June 2026, in the amount of R\$4 for ITAÚSA and R\$30 on a consolidated basis, of which R\$3 and R\$26, respectively, were recorded as a contra-entry to "Other income" (Note 20), with the remainder recorded as a contra-entry to "Financial result".

Due to the surplus position of the plan, ITAÚSA and its controlled companies do not expect to make any contributions in 2026.

24. SEGMENT INFORMATION

The disclosed operating segments reflect, in a consistent manner, the management of decision-making processes and the monitoring of results by the Executive Committee, the main operational decision-maker at ITAÚSA.

Companies in which ITAÚSA invests are independent to define different and specific standards in management and segmentation of their respective business.

The accounting policies for each segment are in compliance with used by ITAÚSA, in all its material respects. Segments have a diversified customer portfolio, with no concentration on revenue.

ITAÚSA's operating segments were defined in accordance with the reports presented to the Executive Committee. Segments included in the consolidated financial statements of ITAÚSA are as follows:

- **Dexco:** It has four business segments: (i) Metals and San Ware – manufactures and sells bathroom fixtures, fittings and showers traded under the Deca, Hydra and Elizabeth brands; (ii) Ceramic Tiles – manufactures and sells tiles under the Ceusa, Portinari and Castelatto brands; (iii) Wood Panels – manufactures and sells medium- and high-density wood panels, better known as MDP, MDF and HDF, under the Duratex brand and laminate flooring under Durafloor brand; and (iv) Dissolving Wood Pulp (DWP) - manufactures and sells in partnership with Austrian company Lenzing.
- **Others:** These refer to the information on Itaotec and ITH Zux Cayman.

Even though Itaú Unibanco, Motiva, Alpargatas, Aegea, Copa Energia and NTS are not controlled companies and, therefore, are not included in the consolidated financial statements, Management reviews their information and consider them as a segment, as they are part of ITAÚSA's investment portfolio. Their activities and the summary of financial information are detailed as follows:

- **Itaú Unibanco:** it is a banking institution that offers, directly or by means of its subsidiaries, a broad range of credit products and other financial services to a diversified individual and corporate client base in Brazil and abroad.
- **Motiva:** operates infrastructure and mobility concession companies in Latin America in the highway concession, urban mobility, airports and services segments.
- **Alpargatas:** its activities include the manufacturing and sale of footwear and its respective components, apparel, textile items and respective components such as leather, resin and natural or artificial rubber.
- **Aegea:** is Brazil's largest private sanitation services companies.
- **Copa Energia:** It consolidates brands Copagaz and Liquigás that together account for 25% of LGP distribution in Brazil with operation in 24 Brazilian states and the Federal District.
- **NTS:** a natural gas transporter, by means of gas pipelines, that operates in the states of Rio de Janeiro, Minas Gerais and São Paulo, which account for to approximately 50% of the consumption of gas in Brazil. This system has connections with the Brazil-Bolivia gas pipeline, with liquefied natural gas (LNG) terminals and with gas processing units.

⁽¹⁾ For Itaú Unibanco, this corresponds to: (i) Income from interest, yield and dividends; (ii) Adjustment to fair value of financial assets and liabilities; (iii) Income from foreign exchange operations and foreign exchange variations on transactions abroad; (iv) Service revenue; and (v) Income from insurance contracts and pension plan operations.

⁽²⁾ Since Itaú Unibanco is part of the "Financial segment", finance income and costs are included in "Net revenue".

25. RELATED PARTIES

Transactions between related parties arise from the ordinary course of business and are carried out based at amounts and usual market rates prevailing on the respective dates, as well as under reciprocal conditions.

ITAÚSA has a "Policy for Transactions with Related Parties" approved by the Board of Directors that is aimed at establishing rules and procedures to assure that the decisions involving transactions with related parties and other situations with potential conflicts of interest are made so as to ensure reciprocity and transparency, thus guaranteeing to stockholders, investors and other stakeholders that the transactions were based on the best corporate governance practices. On August 9, 2021 Related-Party Committee was created with the objective of assessing and resolving in advance the feasibility of related-party transactions according to the criteria set forth in the said policy.

In addition to the amounts of dividends and interest on capital receivable (Note 8), and the corporate transaction carried out with Aegea (Note 20.1), the other balances and transactions between related parties are presented below:

Total				423	495

⁽¹⁾ In March 2021, aiming to improve its liquidity and indebtedness profile, subsidiary Dexco executed a financing agreement with BNDES in the amount of R\$697 (balance of R\$553 as of June 30, 2026), of which 67% is secured by ITAÚSA.

⁽²⁾ Although the investment has a zero carrying amount as of June 30, 2026 (Notes 12.2 and 12.2.4) and, therefore, there is no carrying amount to serve as a reference for the guarantee at that date, the guarantee remains in force and the shares held by ITAÚSA in Águas do Rio Investimentos remain subject to fiduciary assignment. It should be noted that the fair value of the shares held differs from the carrying amount of the investment.

25.2. Management compensation

27. SUBSEQUENT EVENTS

27.1. Dividends received from subsidiary Itaútec

On July 1, 2026, ITAÚSA announced to the market via a Material Fact that it had received on that date from its subsidiary Itaútec extraordinary dividends and interest on capital in the total net amount of R\$911, arising, in turn, from amounts received by Itaútec in connection with certificates of judgment debt of the Government (Note 9.1) and with the withdrawal of sponsorship from the PAI-CD Plan (Note 23.1.1.1).

27.2. Bidding for Minas Gerais State payroll management – Joint-controlled subsidiary Itaú Unibanco

On July 1, 2026, joint-controlled subsidiary Itaú Unibanco entered into an agreement in connection with the new bidding process conducted by the Minas Gerais State Government for the provision of payment services, for five years, to state civil servants and corporate contractors of the State legal entities, beginning on December 22, 2026.

The amount of R\$2,188 was paid for the payroll management service, which will be recorded as intangible assets, with the recognition in result being deferred.

27.3. Repurchase of Level 1 Subordinated Financial Bills 1 – Jointly-controlled subsidiary Itaú Unibanco

On July 15, 2026, the jointly-controlled subsidiary Itaú Unibanco exercised the option to repurchase all perpetual Level 1 Subordinated Financial Bills issued between January 8 and January 16, 2019, in the amount of R\$1,400. These financial bills used to comprise the Additional Capital of Itaú Unibanco's Referential Equity, and the repurchase had an impact of (0.1) p.p. on its Tier 1 capital ratio.

27.4. Sale of the retail portfolio in Colombia and Panama – Jointly-controlled subsidiary Itaú Unibanco

On July 31, 2026, after obtaining the regulatory approvals, the jointly-controlled subsidiary Itaú Unibanco, through Itaú Colombia S.A. and Itaú (Panamá) S.A., sold a portion of its retail portfolio (loans and deposits) to Banco de Bogotá S.A. and Banco de Bogotá (Panamá) S.A. for approximately R\$2,500.

27.5. Disposal of assets – Subsidiary Dexco

On August 3, 2026, the subsidiary Dexco announced to the market that it had entered into a sale agreement for the disposal of the industrial unit located in Urussanga (SC), including land and part of the plant's equipment. The transaction value is R\$170, with receipt expected for 2026, subject to the meeting of conditions precedent customary for transactions of this nature, including obtaining the approval from CADE, the Brazilian antitrust authority. Assets under this transaction are classified as "Non-current assets held for sale" under "Other assets", as negotiations for this operation were already underway as of the closing date of these interim financial statements

27.6. Capital increase in associate Aegea

On August 5, 2026, ITAÚSA announced to the market via a Material Fact the increase in its equity interest in Aegea. On the same date, a capital increase of R\$2.100 was approved through the issuance of 37,979,634 new common shares at a price of R\$55.29 per share, of which ITAÚSA subscribed 13,231,706 shares, totaling R\$732. Upon completion of this capital increase, ITAÚSA's interest in Aegea increased from 13.27% to 14.01% of the total share capital.

The shareholders have five business days from the approval date to pay up the subscribed shares. The funds to be invested by ITAÚSA will be sourced from its own cash resources, and no significant effects on earnings are expected in the current fiscal year.

The investment in Aegea is part of ITAÚSA's efficient capital allocation strategy, reinforcing its ongoing commitment to creating value for its shareholders, investees, and society.

27.7. Payment of interest on capital

On August 10, 2026, ITAÚSA's Board of Directors approved the payment, on August 28, 2026, of interest on capital in the gross amount of R\$2.8 billion (R\$0.254 per share), corresponding to a net amount of R\$2.3 billion (R\$0.20955 per share), considering the withholding of 17.5% income tax at source, as previously disclosed:

- R\$1.3 billion, or R\$0.116 per share (R\$0.0957 net per share), declared on March 16, 2026, based on the shareholder position at the close of business on March 19, 2026; and
- R\$1.5 billion, or R\$0.138 per share (R\$0.11385 net per share), declared on June 15, 2026, based on the shareholder position at the close of business on June 18, 2026.

Report on review of parent company and consolidated interim financial statements

To the Board of Directors and Stockholders
Itaúsa S.A.

Introduction

We have reviewed the accompanying interim balance sheet of Itaúsa S.A. ("Company") as at June 30, 2026 and the related statements of income and comprehensive income for the quarter and six-month periods then ended, and the statements of changes in equity and cash flows for the six-month period then ended, as well as the accompanying consolidated interim balance sheet of the Company and its subsidiaries ("Consolidated") as at June 30, 2026 and the related consolidated statements of income and comprehensive income for the quarter and six-month periods then ended, and the consolidated statements of changes in equity and cash flows for the six-month period then ended, and explanatory notes.

Management is responsible for the preparation and presentation of these parent company and consolidated interim financial statements in accordance with accounting standard CPC 21, Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and International Accounting Standard (IAS) 34 - Interim Financial Reporting, of the International Accounting Standards Board (IASB). Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company and consolidated interim financial statements referred to above are not prepared, in all material respects, in accordance with CPC 21 and IAS 34.

Other matters - statements of value added

The interim financial statements referred to above include the parent company and consolidated statements of value added for the six-month period ended June 30, 2026. These statements are the responsibility of the Company's management and are presented as supplementary information under IAS 34. These statements have been subjected to review procedures performed together with the review of the interim financial statements for the purpose of concluding whether they are reconciled with the interim financial statements and accounting records, as applicable, and if their form and content are in accordance with the criteria defined in the accounting standard CPC 09 - "Statement of Value Added". Based on our review, nothing has come to our attention that causes us to believe that these statements of value added have not been properly prepared, in all material respects, in accordance with the criteria established in this accounting standard, and consistent with the parent company and consolidated interim financial statements taken as a whole.
